SC Court of Appeals

This hearing was not fair, and as a result I was terminated and the facts were all wrong technically, the 1st two revocations should have not still been on my record, secondly, it was not new charges, -and I proved that I take the meds from Dr. Clark and that the jail also provided them for me, it was not a 4th termination and should not have been treated as such. It was not a fair hearing I was contesting from lines 6 of page 3 all the way to line 4 of page 4. But the Court continued and the judge was very unprofessional he was short and angry in his tone and mannerism. I have a family to support, and I need to take care of the original charge, that happened between me and a friend who does not want to proceed with charges

Thank you
