

RE: The State Respondent v. Marlon Tyrone Bannister

Appellant. Case# 2022-000929

Date: July 16, 2022

RECEIVED

SC Court of Appeals

By way of appeal for the guilty plea,

I, Marlon T. Bannister request and motion CASE#2022-000929. The plea was under duress based on the facts public defender Keisha White admitted she had not investigated the case from beginning. Never spoke with the plaintiff nor did she have any defense strategy. Also, there was no plea negotiation based on lesser included offenses. The case has been pending for almost 5 years, due process was violated based on the facts presented above. I motion for dismissal based on other mitigating circumstances such as the opportunity to face the accusers' accusations. Based upon the fact that none of the charges were indicted by way of grand jury proceedings.

Sincerely,

Marlon T. Bannister
