

Dear, South Carolina Court of Appeals

My name is Aaron J. Donaldson. I am replying in regards of my Appeal that was filed April 18, 2013. The letter I recieved states I must write South Carolina Court of appeals with my arguable basis. Well first and furmost. I wanted to take my case to trial. My lawyer was incoherent on my behalf. There is no evidence, so I figure my lawyer would of been on my side when I told him I wanted to go to trial. My co-defendant was gonna take the stand, and tell the truth about what happened, and let them know who really committed this crime. My lawyer told me it was best if she didnt, and I should nt go to trial. He also told me that the jury gets paid to find people guilty in Lancaster county, and that he has been around the system. (Excuse me), but he said he knows how "fucked up" the system is. Now me not knowing about the law I felt like there's nothing I could do I was scared. I told my family, and they said Tell him you will take the plea instead of going to trial with him, and he's not even working for me. My codefendant that was in my case is still willing to get on the stand, and tell the truth. I felt my lawyer was working against me. Hands down a blind person could see I had no involment in this, and my ex-co defendant is willing to testify. I hope and pray who ever this concerns looks into this and doesnt deprive me of a second chance to be appointed a better public defender, and a fair trial. I was scared into taking a plea. The judge didnt even ask me if I was guilty or not guilty. I was taken advantage of by someone who felt like they could scare me, because they knew they possibly had the wrong guy. As soon as I get to a yard I am also going to file a per. I need this over turned. And if granted this rightful wish. I beg that I am appointed a lawyer who will not scare, or trick me again. My motion of discovery shows I didnt do this, and my codefendant will testify and say who it truley was. she was going to in the beginning, but my lawyer told me the best if she doesnt testify, and say who it really was. Can I please have to opportunity to have a fair trial. and my codefent will say who it was, and for your own reassurance you can write her, and she will tell you she is willing to. If I am deprived that. Then its plan to see I was just being played, and justice does not get served the rite way.

please overturn my case - Take this into consideration. Check the facts the evidence that is not there, and if you do grant me this im begging please appoint me a lawyer that knows when a man is innocent. I was bamboozled by willian P. Frick. I L be waiting to hear a response on wheather you looked into my case, and if you contacted my codefendent. please write back and let me know something. a innocent man is in prison. Im a innocent man. Just misunderstood.

With kindest regards, Sam  
Sincerely,

~~Sam~~
