SC Court of Appeals

My name is Larry Scipio Appellate Case No. 2022-000949

I am writing because I was wrongly convicted in an unfair trial that took place June 20, 2022 - June 24, 2022. My case is currently in appeal court awaiting to be heard on direct appeal. These are just some of the many wrong doings and errors of law I would like to point out during our reviewing of my case.

1. Motion to sequester witnesses was entered. Instead of letting the witnesses testify the same day, Judge Brown allowed the witnesses to be spaced out one per day for the week of the trial and they line together.  
2. The witnesses' statements were not signed or hand written but instead were typed by officer. / No way to impeach when witness denied making statement.

Rule 901 SCRE article IX requirement of authentication or identification  
3. Investigator Price came to the jail and took DNA from me without having a DNA standard from the crime scene to test against it.

4. Judge Brown did not allow my credit card into trial and it was a pin based paycard.

5. There were three witnesses in my favor that were not called to the stand by the state.

6. Stephanie Lucas stated to officers she saw victim get shot during cross examination she stated: Maybe I didn't see him shoot him but I know who I let in and was still allowed to continue. Story was varied many times.

7. Amaya Mendez even denied talking to a female officer period. Amber Jones was the reporting officer and she testified her report was true accurate.

8. All witness statements conflict each other.

In retrence to Number 2, 6, and 11
