

To Judge Dukes,

My name is Karen Polite, I'm pleading with you to please take immediate action. This is an emergency situation, I really need your attention FOR NOW and your voice to be heard. Miss Allison Eversole's client is completely out of control running around the property, harassing everyone who comes out to help me put my house back up on the blocks, and setting it up on the foundation. Rachel is totally out of control, I haven't heard from Ms Allison Eversole concerning her client's actions, and out of control behavior. Again my house fell to the ground on September 9th after Allison Eversole's client had work done on the property. I have no running water and my home is in total disbelief, complete shambles and not level. The Red Cross is providing me with assistance to get me through last weekend, I'm not working and I have nowhere to go. My house is leaning to the side, but I can manage. My dad's friends in the neighborhood, Mr. Ducky Grant, Mr. Luke Inabinett, and Mr George White, are all prominent and respectable people who came to my aid that's willing to help me get back on my feet. By leveling the house so I can have somewhere to live for now until this is over. They all were embarrassed yesterday, because of Allison Eversole client Rachel's behavior. These men are not charging me anything, they just want to help me this is my home, your Honor. All will be willing to come back out on Saturday, only if there's no action from Rachel Polite. These gentlemen said they will leave if Miss Allison Eversole client Rachel approaches them, like she did yesterday. Please your Honor I'm begging you to please help control this situation before it gets any worse. I'm begging you, your Honor, to please call an emergency remote hearing please at least for now.

Thank You
