Samantha M. DenBleyker, Petitioner,

v.

South Carolina Department of Employment and  
Workforce and Little River Medical Center, Inc.,  
Respondents.

Appellate Case No. 2022-001339

---

## ORDER

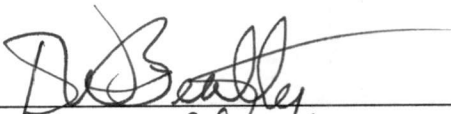

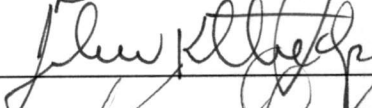

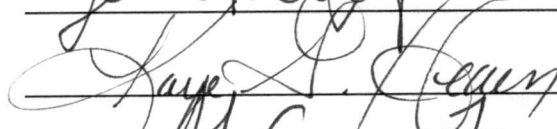

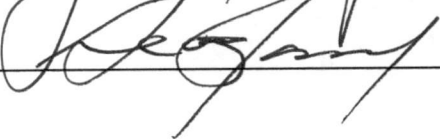

---

By order dated September 28, 2022, this Court dismissed this matter for failure to timely file a petition for writ of certiorari that complied with Rule 242(d), SCACR. Petitioner has filed a letter with this Court, which we construe as a request to reinstate the matter.

Petitioner's petition for a writ of certiorari did not present a question of law, a concise statement of her case, an argument in support of her petition, or cite to any authority or pertinent portions of the record for consideration of her claims. *See* Rule 242(d), SCACR (providing a petition for writ of certiorari must present questions for review, a brief statement of the facts, and a concise argument in support of the petition citing to relevant authority and pertinent portions of the record on appeal). Accordingly, this matter was properly dismissed. *See* Rule 242(d)(4), SCACR ("Failure of a petitioner to present with accuracy, brevity, and clarity the information and arguments that are essential to a ready and adequate understanding of the points requiring consideration will be a sufficient reason for denying the petition."). Further, the petition was untimely filed thirty-one days after the court of appeals denied the petition for rehearing, unaccompanied by a filing fee or proof of service on opposing counsel. *See* Rule 242(c), SCACR (providing the petition for writ of certiorari must be served on opposing counsel with proof of service submitted to the clerk of the court of appeals and the Clerk of

this Court, along with a filing fee, within thirty days after a final decision on the petition for rehearing by the court of appeals).

Petitioner has neither shown good cause why the petition she filed did not comply with the rules nor attempted to correct any of the deficiencies in her filing. Accordingly, we deny the request to reinstate this matter. *See* Rule 260(a), SCACR (providing a case dismissed for failure to comply with the rules shall not be reinstated without a showing of good cause after notice to all parties).
