MEMO / Appeal

I Saria Walker am asking to Appeal the DISMISSAL of my cases Against Dr. castriotta and the Carolina behavioral Center and The South Carolina Department of Social Services for waiving my right to Due process and being judicially biased I told the Judge that my right to due process was waived and ~~she~~^{she} I ALSO told her how I was tormented and called racial slurs like nigger on the phone and they kept clicking my calls over at the carolina center calling me this And I told her many of my civil rights was violated And I ALSO ASKED her to recuse herself And told her of the CONFLICT of interest with my case in Federal Court which involve Greenville County Clerk as a defendant And she was aware of it And decided to NOT recuse herself this impeded on the Fairness of my trial/hearing And I Didnt get Justice And this was NOT a competent ruling this was judicial bias and judicial corruption due to CONFLICT of interest I feel this was a cover up and she conspired with the defendants to court justice intentionally despite obvious civil right violations

(I need Informa pauper's due to me being indigent)

I have reason to believe this is racial discrimination Against me Due to the lack of empathy of me being locked away for 33 days and no due process and being called racial slurs through phone calls (they controlled our calls) the Judge Agree with me being called racial slurs and me NOT having due process is showing signs of racism this is unacceptable NO one should Never have to experience what I been through! And then try to get Justice And be discriminated and conspired on Again I S very disappointing the LAW does NOT Accept this kind of behavior NO Judge IS above the law and we ALL have to Answer to the law this is unacceptable And I will NOT stop speaking my truth until I get Justice For what happened to me this was Judicial Couption and White Supremecy was upheld NOT the LAW (I Filed this Appeal 10/27/22 But Filed it At the Federal courthouse by Accident)

This case is
A conflict of
interest Federal
case which she was aware of

-Didn't know of court Date 6/10/2020

-Didn't have to attend court in 2014 was unaware of court in a mental hospital because i was a minor 16 years old first hospitalization and didn't have to deal with court just stayed 4 days and came home despite being very violent when needles arose and other then that i went to sleep and gained sanity once i rested a couple days which is what i assumed would happen during this hospitalization

-Right to Appeal within 15 days 6/25/2020(was still being held at hospital against will)

-I had signs of insomnia NOT Self harm or trying harm myself or anyone else

-Didn't know when i would go home fear for my Life

-Felt i was being held hostage / Retaliation slip & Fall (woke up to ems saying she could've really sued us and stuck a needle in my back and thats when i became combative as noted in medical records)

-I thought i was going to be in the hospital for 3 days they Held me 33 days without notice of court date , tormented by staff by over medication and slamming of doors (all night so i couldn't sleep) & being called racial slurs through calls being clicked over as i was trying to call grandma, family members

-They told my family members i wasn't there would give them the ID number required to contact me

-No one told me treatment plan or court order never knew we had to actually attend a hearing because i didn't in 2014 because i was under the age of 18

-Dr castriotta & staff was making all decisions i had No RIGHTS OR VOICE I WAS SCRIPPED of all constitutional rights & was terrified which was added as symptoms to psychosis rather then in fear and wanting to go home to daughter and family

-Didn't meet lawyer(Eiterrice Farley affirmed she never met me when i called her)

-Met DSS to sign child away didn't have a choice i WAS FORCED TO SIGN HER OVER

-Couldn't sign myself out hospital or Attend Court Date

-I was scared of the Dr who wouldn't let me go home i told him i was having nightmares (which was of him) he prescribed me meds for them

- My mother and daughter was there they me told i would be there 72 hrs or 3 days i was only sleep deprived which is what i told my mother to take me there for sleep medicine i told mother to bring me to hospital after them agreeing to take care of my daughter while i get treatment i placed my daughter in the care of my mother and grandmother for what i thought would be 3 days turned to 33 days away from my life , daughter , and family

11/5/22

- Dr castriotta failed to report mental state status in totality (Got better) after 3 days which i was functioning better and sleeping regularly despite the combative altercation i didn't know where i was and felt kidnapped because the never told me they were moving me after giving me meds at saint francis eastside i went to sleep soon as i got to room & because they woke me up by sticking me with needles (i was able to return home after 4 days in 2014 despite fighting symptoms where a lot worse & also i was hospitalized in 2022 and they still let me out and notified me of my court date and i was released before my court date which was the 8/22/22 i was admitted there 8/15/2022 and my court day was scheduled on 8/24/22 there was NO logical reason to keep someone in a facility for 33 days that was no harm to myself he was trying to cover for his negligence (over medicating , and false imprisonment) he knew i was fully functional which is why i wasn't notified of court date or able or meet lawyer because he knew

-He didn't put me on meds i took in the past he experimented new medications on me which was unethical and they made me physically sick and worsened my mental state and aided in the deterioration of both i was swollen from mood stabilizer (which happened again in hospital 8/15/22 admission they had to discontinue those meds and i was reacting negatively to anxiety and sleep meds like shortness of breath , weight gain , blurred vision ,ect i have discontinue all meds GAF score was 60 after first hospitalization and was -13 after second hospitalization

-His motive was NOT to help me but to hurt me i was traumatized after hospitalization , i lost all my friends and some family he ruined my life and reputation left me broken even more i was addicted to meds this caused strife in my family because they were made to uphold a court order i knew NOTHING about due to not being able to see lawyer or attend trial they took my daughter from me and wouldn't allow me to take her to get a simple ice - cream cone alone i cried every night i couldn't bring my child home with me had to leave her with my sister this was emotional distress to the highest degree

-I Stated in interview with hospital after release from carolina behavioral center ' I had to follow guidelines of the hospital had me follow meaning Dr.castriotta and staff " I was traumatized in them 33 days and was in fear also my roommate stated to me she was rapped i feared the same would happen to me

-I use to could keep a job for at least a month or two at the most i have had 30 jobs since 2014 which is why i applied for disability where dr castriotta and other facilities stated in paper work that i am able to adjust to work despite my mental health and physical health (falling down 8-10 ft of stairs causing back injury still to this day and ptsd and if there was NOTHING wrong with me why did he keep me in there 33 days straight)

- I ask that they ALL be held accountable for the things that happened and is still happening in this facility to violate and co-sign on behalf of dr castriotta and the other people abusing their power taking advantage of people that is mentally ill and seeking help I needed to be protected from the ones i seeked help from and i still and getting retaliated against and my voice is still being shut down and silenced they have also dismissed 3 of my cases due to me NOT having money to pay for them and the dismissed my fee waiver this is breaking bonds and oaths and judicial corruption and also they allowed dr castriotta , csbh and scdss to MOTION DISMISS but denied all my fee waivers and trying to stop justice

And I have PROOF that Greenville County Clerk Judges said I Ddnt qualify for Informa Paperis which I Do because Im indignant they did this in order to dismiss my cases do to conflict of intrest this is Judicial bias and Judicial corruption due to them Falsifying documents in order to dismiss My claims and motions

SCDSS

-if i was mentally incompetent then my penmanship wouldve been invalid when it came to signing my child over because i couldnt legally do that due to them saying i was mentally incompetent if my penmanship was legal then i wouldve been able to sign myself out of the mental hospital , meet my lawyer , have notice of and attend my own trial

-i met DSS caseworkers to sign child over but wasn't able to meet lawyer so i could have a voice (I NEVER stated to SUSAN DURHAM was trying to kill myself i wasnt in there for trying to kill myself or suicidal ideations i was only there for sleep deprivation just like in 2014 where i was hospitalized for 4 days and made a decent recovery after sleeping 4 days

- I only seen medical examiner via screen and my mother , Rn's and the police that transported me 5/31/20 and i went to sleep when i got to my room at the hospital due to the medications given to me at the Saint Francis Eastside I NEVER seen SUSAN DURHAM she just added her statement to my records recently stating that she mad this statement 5/31/20 which is a LIE because i just pulled ALL my records and DID NOT never see a statement of anyone from DSS making these statements regarding my mental health at all
