RESPONSE TO THE BRIEF OF THE RESPONDENT

In Ms. Jacquetta Elias's Brief of the Respondent (received on 10/26/21), there are several points that I want to address.

1. INITIAL BRIEF (Statement of the Case)

- a. On January 10, 2020 I did receive a notice that my rent was late (due on the 5th of the month). On that date I went in to the office and talked to Trudy Huber (apartment complex coordinator), explaining that I did not have all of the rent money at that time. Trudy told me that I could just pay a late fee of \$5 plus \$1/day, with no mention of any eviction. However, I then received an eviction notice on January 14th, 2020. On February 3, 2020 I paid my January rent and then proceeded to pay my February and March rent on time (they were not late).
- b. There were an additional fifteen (15) people who were late with their payments, and each one of them was allowed to make their payment, without being evicted. One gentleman specifically, told me on 01/22/20 that he was late on his January payment as well, but was given time to make the late payment, with no threat of being evicted. I should have the same opportunity as the other apartment tenants. This information was not available during my earlier court appearance. I need to be able to obtain the records from Parkway Village, to confirm this information.

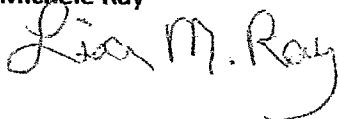

2. INITIAL BRIEF (Conclusion)

- a. This is concerning Ms. Elias' statement that since they have not been accepting any of my monthly rent payment attempts lately (every month I make an attempt to pay them, but they return the checks), I should be able to get alternative housing. They actually did deposit my checks from January, February, and March of 2020, after which they started returning them to me. Also, I believe that, while they are no longer accepting my check each month, they are still accepting money from HUD each month. I believe this does keep us in the Landlord/Tenant Relationship.
- b. Also, even though they no longer accept my monthly rent payments, and that I do have that money available, it is not enough money to cover any kind of rent, except for HUD housing. If I were to be evicted, I would lose my ability to obtain HUD housing. I have been looking for alternate HUD housing for the past year-plus, and am on several waiting lists, but HUD housing is very difficult to get, and until I can get this housing, I can NOT afford to pay any other kind of rent payments, and cannot leave my current apartment.
- c. She states that I can ride my bike any time I want and can walk anywhere I want to. While this might have been true a year ago, I have been unable to ride my bike at all for the last year, and some days I can barely walk at all, let alone walk somewhere outside of my apartment.

Plus, I am not sure how my disabilities have anything to do with my eviction. They really have no reason to evict me, whether I am disabled or not. However, since I am disabled, I am including documentation from my Dr. concerning my various disabilities.

Thank You

Lisa Michele Ray
