SC Court of Appeals

I am writing to you about my appeal for my "obstruction of Justice" charge on 10-11-22. I am appealing this case due to AG William Moore not going along with plea agreement. The agreement was, if I plead guilty, there would be no recommendation by AG office. During this trial, AG "Moore" did indeed recommend 10 years. To support this, even Judge Maddox himself stated "I do understand why Mr. Moore is recommending 10 years. I would've never agreed to plea agreement had I known that he was going to do so. To add to this, supposedly this covid test was emailed to attorney "Aaron Debrahn" whom I've never met or spoke to while being on the street. I never was giving a court date because my address at the time was 210 Kirk Lane apt 1 Pendleton, S.C. 29670. After further investigation a court notice card was sent to 210 Kirk Lane Pendleton, S.C. 29670, which did not have the apt. #1 on it. And I do have in my possession this court card that I received, and gained knowledge of thro my Rule 5 motion of discovery after the fact. I spoke to my Attorney Mrs. Byford today and she stated that my appeal I wrote on 10-12-22 was never received by your office. I was in Greenville County at the time and I did indeed send it off by giving it to a detention officer to be mailed off. To add in closing, I also did request for a motion to relieve Counsel for "Aaron Debrahn" because he never returned any calls I placed to him. If I would've known I had a court date, I would've went to court, due to the original charges of "Commonlaw Conspiracy/Exploitation of Vulnerable adult" and FTC was accusations made by someone else, just so they could get out of these charges, because I was incarcerated in Pickens county when these charges were committed, except the Obstruction of Justice charge. This is my reason(s) for filing an appeal. Thank You and God Bless.

Sincerely
Orin Kemp/Orin Kemp
