S.C. SUPREME COURT

9 Jan 23. To S.C. Supreme court... Judge John Kittredge.

My local newspaper has an article about the death penalty in S.C. You raised a good question about "why cant prison officials get the lethal drugs"? If they cannot get them because U.S. Suppliers refuse to sell them to the prisons, Did any of them even TRY to get such drugs from CHINA or any foreign places that would eagerly supply such drugs?

Veterinary places can easily get them and they work on Animals, and we'd have to be dumb to believe they wouldnt work on Humans. I think there's a ghost in the woodpile, when they tell us they "cannot get them". I think such statements come from those who want executions done by the most barbaric way possible.

I'm not so stupid as to believe that "Shooting or electrocution" dont cause a lot of "pain and suffering".
