Civil Action No. 2020-CP-40-05802

TEMPORARY RESTRAINING ORDER

This matter comes before the Court on Plaintiff's Motion for a Temporary Restraining Order pending the hearing and determination of Plaintiff's Motion for Temporary Injunction and Memorandum in Support, the Summons and Complaint previously filed in this matter, and the Verification of Daniel N. Morris, in which it appears that (1) Plaintiffs are specifically charged by the South Carolina General Assembly to uphold the insurance laws of this State, (2) those laws are designed to protect policyholders, whose contracts were formed in this State and are subject to its laws and regulations, (3) the State has a strong interest in protecting policyholders and ensuring that its laws are enforced, (4) if those laws are not enforced, and Defendants are permitted to continue to implement a plan of rehabilitation by implementing and communicating changes to premium rates and policy changes in December 2021 or sooner without required state regulatory approvals as planned, Plaintiffs will have not upheld their statutory duty and policyholders will be

permanently denied basic contractual, procedural and constitutional rights and suffer permanent and substantial economic harm, (5) even if Plaintiffs were to fine Senior Health Insurance Company of Pennsylvania in Rehabilitation (SHIP) or suspend or revoke its license, such after-the-fact measures would not reinstate any permanent or temporary loss of benefits or premium overcharges, (6) the same is true of any lawsuit to recover lost benefits or premium overcharges, which would also be impracticable given the advanced age and typically limited means of the victims, and (7) those actions would also not undo the substantial confusion and disruption of the marketplace that would have occurred.

On the basis of these pleadings and papers, it appears to the Court that Plaintiffs will suffer immediate and irreparable injury, loss, and damage before notice can be given of a hearing and a hearing can be held on Plaintiffs' Motion for Temporary Injunction in that if Defendants are permitted to implement changes to premium rates and policy changes without required approvals in December 2021 or sooner, it would irretrievably alter the *status quo* with respect to the enforcement of the insurance laws, the insurance marketplace and the rights of policyholders.

The Court is of the opinion that the temporary restraining order should be issued without hearing and without further notice, pending a hearing on Plaintiffs' Motion for Temporary Injunction and Memorandum in Support. Therefore, it is ordered that:

1. Defendants, their officers, agents, employees, successors, and attorneys, and all those in active concert or participation with them, are enjoined and restrained from communicating, implementing or enforcing in this State the SHIP rehabilitation plan approved by the Pennsylvania Commonwealth Court, otherwise interfering with the rights of SHIP long-term care insurance policyholders or otherwise violating the insurance laws of this State pertaining to long-term care insurance until such time as Plaintiffs' Motion for Temporary Injunction and

Memorandum in Support can be heard and determined and an order on said Motion and Memorandum is issued by this Court.

2. Pursuant to Rule 65(c), SCRCP, no security shall be required of Plaintiffs as an officer and agency of the State.

3. A hearing on the Motion for Temporary Injunction is set for Monday, November 29, 2021 at 2:00 p.m. in Courtroom 3B of the Richland County Judicial Center, 1701 Main Street, Columbia, South Carolina 29201.

4. This Order shall expire at 11:59 p.m., November 29, 2021, unless within that time the Order is extended by this Court or unless Defendants consent to an extension.

AND IT IS SO ORDERED.

Civil Action No. 2020-CP-40-05802

**CONSENT ORDER RESCHEDULING
HEARING ON PLAINTIFFS' MOTION
FOR TEMPORARY INJUNCTION AND
EXTENDING TEMPORARY
RESTRAINING ORDER**

This matter comes before the Court on the joint request of the parties for an Order (1) re-scheduling the date for the hearing on Plaintiffs' Motion for Temporary Injunction, said hearing having been set by me in the in the Temporary Restraining Order issued on Friday, November 19, 2021, to expire on Monday, November 29, 2021 and (2) extending the Temporary Restraining Order pending the hearing and determination of Plaintiff's Motion for Temporary Injunction. That hearing is presently scheduled for Monday, November 29, 2021 at 2:00 p.m. Counsel for the Defendants has requested a rescheduling of the hearing date to Day, Month, Date, 202 . Counsel for Plaintiffs has agreed to the rescheduling of the hearing, provided that the Temporary Restraining Order is extended through the new hearing date.

In light of the parties' consent, as evidenced by the signatures of their respective counsel below, I find that rescheduling of the hearing and concomitant extension of the Temporary Restraining Order are appropriate. The consent of the parties does not act as a waiver of any claims or defenses that any of the parties may have in this matter.

IT IS THEREFORE ORDERED:

1. That the hearing on Plaintiffs' Motion for Temporary Injunction previously scheduled for Monday, November 29, 2021 at 2:00 p.m. is rescheduled for _____, _____, 202_, at _:_m., date in Courtroom ____ of the Richland County Judicial Center, 1701 Main Street, Columbia, South Carolina 29201.

2. That the Temporary Restraining Order issued in this matter on Friday, November 19, 2021, originally to expire at 11:59 p.m. on Monday, November 29, 2021, shall remain in full force and effect until 11:59 p.m. of the date on which Plaintiffs' Motion for Temporary Injunction is actually heard, without need for further requests for extension.

AND IT IS SO ORDERED this 24th day of November, 2021.

*** **EXTERNAL EMAIL:** This email originated from outside the organization. Please exercise caution before clicking any links or opening attachments. ***

Good Morning Ms. Elgin:

As you know, In the Temporary Restraining Order (TRO) that Judge Manning issued in the above-referenced case on Friday, November 19, 2021, the hearing on the Plaintiffs' Motion for Temporary Injunction was set for this coming Monday, November 29, 2021 at 2:00 p.m. Subsequently, counsel for Defendants, Tracy Eggleston, asked me if I would extend to her the courtesy of consenting to a brief extension of time for the hearing. I consented to such a postponement, provided that the TRO remains in effect until the Motion for Temporary Injunction is actually heard. This being agreed upon, we have jointly drafted the attached proposed consent order, with the new date of the hearing blank for now until Judge Manning designates a new date.

Ms. Eggleston has indicated that she is available on December 13 or 15 and December 20, 21, or 22. Of those dates, I am available on all but the 13th, and with sufficient notice should be able to reschedule a personal appointment I have on that date. Hopefully, the Court will be able to re-schedule the November 19 hearing for one of those dates.

If the Court approves of a new hearing date, I will be happy to complete and finalize the proposed order and forward it to the Court for final consideration and approval.

Thank you very much to both you and Judge Manning for your time, attention and continued consideration in connection with this matter. Of course, if you or Judge Manning have any questions whatsoever, please do not hesitate to contact me by reply email or at 803-737-6219 or (C) 803-397-5293.

Civil Action No. 2020-CP-40-05802

**ORDER GRANTING
PLAINTIFFS' MOTION FOR A
TEMPORARY INJUNCTION**

This matter comes before the Court pursuant to a motion for temporary injunction filed on November 12, 2021, by the Plaintiffs, Raymond G. Farmer, as Director of the South Carolina Department of Insurance, and the South Carolina Department of Insurance. The motion seeks to enjoin the Defendants, Jessica K. Altman, as Rehabilitator of Senior Health Insurance Company of Pennsylvania, Patrick H. Cantilo, as Special Deputy Rehabilitator of Senior Health Insurance, Company of Pennsylvania, and Senior Health Insurance Company of Pennsylvania in Rehabilitation, from taking any action in furtherance of their expressed plans to, without first obtaining required regulatory approval from the State, raise premium rates, reduce benefits, or both under certain binding contracts of insurance issued in the State of South Carolina or held by residents of this State, including, but not limited to, notifying policyholders of proposed rate or benefit changes or requesting that they select rates or benefits different from those authorized by

the appropriate state regulator and called for under the terms of the contract, charging additional premium, or withholding, delaying or encumbering benefits in whole or in part. Notice duly having been provided to all parties, a hearing was held before the undersigned at 10:30 a.m. on December 15, 2021, in the Court of Common Pleas for Richland County. Geoffrey R. Bonham, Associate General Counsel for the South Carolina Department of Insurance, appeared for the Plaintiffs. Tracy L. Eggleston, Esq. and Michael J. Broadbent, Esq., both of Cozen O'Connor P.C., appeared for the Defendants.

FINDINGS OF FACT

After consideration of Plaintiffs' motion and the arguments presented by the parties at the hearing, I find as follows:

1. All parties were properly served notice of the hearing.
2. Plaintiff Raymond G. Farmer is the Director of the South Carolina Department of Insurance (the "Director").
3. Plaintiff South Carolina Department of Insurance (the "Department") is an agency of the State of South Carolina created and charged by the South Carolina General Assembly to regulate the business of insurance in this State. *See generally* S.C. Code Ann. §§ 38-1-10 *et seq.* ("The Insurance Law").
4. Defendant Jessica K. Altman is the Commissioner of Insurance for the Commonwealth of Pennsylvania and has been appointed Rehabilitator of Senior Health Insurance Company of Pennsylvania (the "Rehabilitator") by order of the Commonwealth Court of Pennsylvania ("Commonwealth Court") dated January 29, 2020 (the "Rehabilitation Order"). (Defs. Exh. 1.)
5. Defendant Patrick H. Cantilo was appointed by the Rehabilitator as Special Deputy

Rehabilitator (the “SDR”) of Senior Health Insurance Company of Pennsylvania. He generally has the power to act on behalf of the Rehabilitator, subject to the control and direction of the Rehabilitator. (Defs. Exh. 1 at ¶¶ 2, 14; Decl. of Cantilo at ¶¶ 2, 9.)

6. Defendant Senior Health Insurance Company of Pennsylvania (“SHIP”) is a life and health insurance company domiciled in the Commonwealth of Pennsylvania that administers a closed block of long-term care insurance policies issued in over forty states. A fraction of its business remains. (Defs. Exh. 3 at p. 2-3.)

7. SHIP was issued a certificate of authority to conduct the business of insurance in South Carolina on April 8, 1988. (Ver. Mot. at ¶ 6.) It is undisputed that, like all long-term care insurers licensed in this State, SHIP has previously submitted proposed rate increases to the South Carolina Department of Insurance for review and approval in accordance with South Carolina law. (Ver. Mot. at ¶¶ 6, 18.)

8. The average SHIP policyholder age is approximately 87 years of age and the average policyholder on claim is approximately 90 years old. At present, there are approximately 300 policies issued in South Carolina by SHIP, and there are other SHIP policyholders residing in South Carolina whose policies were issued in other states. (Defs. Exh. 3 at p. 4; Ver. Mot. at ¶ 7.)

9. SHIP has been insolvent¹ since at least December 31, 2018, having reported a deficit of approximately a half-billion dollars as of that date; and, SHIP’s financial condition has continued to deteriorate, with a current deficit of approximately \$1.2 billion. (Pls. Exh. A at p. 45 ln. 2-5, p. 46 ln. 9-10, p. 240 ln. 17-25, p. 292 ln. 11-12.; Defs. Exh. 3 at p. 1.)

10. The Pennsylvania Insurance Department (the “PID”) has not sought a declaration

¹ Compare 40 Pa. Stat. § 221.3 (defining “Insolvency” within context of receivership) *with, e.g.*, 40 Pa. Stat. § 991.1702 (defining “Insolvent insurer” in the context of guaranty association coverage).

of insolvency, which would have triggered guaranty association coverage in the affected states; however, it did file an application to place SHIP into rehabilitation in the Commonwealth Court of Pennsylvania on January 23, 2020. (*See generally* <http://www.https://www.shipltc.com/court-documents>.)

11. That application was granted by the Rehabilitation Order entered on January 29, 2020. The Rehabilitation Order is not a subject of dispute between the parties. (Defs. Exh. 1.)

12. Plaintiffs are not parties to the Pennsylvania rehabilitation proceedings, nor are SHIP policyholders represented by class representatives or legal counsel in those proceedings. (*See* Defs. Exh. 3.) Policyholders were also not provided formal legal process or service of process. (*See* Defs. Exh. 2.)

13. SHIP was the sole respondent in the Pennsylvania proceedings. (*See* Defs. Exh. 3.)

14. Three states, Massachusetts, Maine and Washington, intervened in those proceedings. (*Id.* at p. 6.)

15. A Second Amended Rehabilitation Plan (the “Plan”) was filed on or about May 3, 2021 and approved by a single judge of the Commonwealth Court of Pennsylvania by order filed on August 24, 2021, which was amended by order entered on November 4, 2021. (Defs. Exh. 3.)

16. An appeal by the intervening three states is pending before the Pennsylvania Supreme Court, as is an application for stay. Approximately twenty (20) other state insurance regulators have expressed their support for the stay as *amici curiae*. (Defs. Exh. 6.)

17. Several large insurers -- Anthem, Inc., Health Care Service Corporation, Horizon Healthcare Services, Inc. d/b/a Horizon Blue Cross Blue Shield of New Jersey, and UnitedHealthcare Insurance Company -- appeared as intervenors in the proceedings and were represented by counsel. These companies fully support the Plan and oppose a stay in the

Pennsylvania proceedings. (Defs. Exh. 3 at p. 6; *see generally* <http://www.https://www.shipltc.com/court-documents>.)

18. Under the Plan, Defendants will impose nationwide rates without filing those rates with state regulators for review and approval in accordance with each state's insurance laws. In some cases, the rate imposed will be more than double the amount of premium currently paid and can reasonably be expected to force policy lapses. Policyholders may be able to avoid some of the increases, but only if they agree to a decrease in benefits currently provided under their policies. (Pls. Exh. B.)

19. The Plan contains a so-called "opt-out" process under which SHIP submits rates to individual states that "opt-out" of the nationwide rate under those states' respective rate approval statutes. However, it also provides that if an "opt-out" state does not approve the rate demanded, that state's policyholders will incur a further downgrade to their benefits. The Rehabilitator "DOES NOT recommend that states opt out because that is generally expected to be disadvantageous to affected policyholders." (Pls. Exh. B at p. 108-118 & Pls. Exh. C, FAQ. 9.)

20. Under the Plan, Defendants gave states until November 15, 2021, to provide written notice, under oath, of their decision to "opt-out." (Pls. Exh. C.) Plaintiffs maintain that they are not subject to nor bound by the Plan.

21. Defendants do not dispute that the changes to rates, benefits or both will reduce the insurer's shortfall and that this in turn would reduce the burden of a declared insolvency on guaranty associations. (Pls. Exh. A at p.78 ln. 19-23, p. 79 ln. 4, p. 83-84 ln. 20-18, p. 289 ln. 9-18 & p. 292 ln. 11-25; Pls. Exh. B at p. 19.).

22. The rate increases and reductions in benefits would also appear to have a permanent adverse effect on policyholders' guaranty association benefits in the likely event that SHIP is

placed into liquidation at a later date; the Defendant Cantilo has admitted in previous testimony that “it is not likely that we will magically restore SHIP to solvency, but it is likely that the plan . . . would substantially reduce the deficit.” (Pls. Exh. A at p. 80 ln. 6-12; Pls. Exh. B at p. 14.)

23. Plaintiffs are concerned that, despite SHIP being inevitably headed for liquidation, or perhaps because of it, Defendants are attempting to use the rehabilitation proceedings to (1) coerce vulnerable elderly policyholders into paying exceptionally high rates, accepting substantially less benefits than what they are entitled to under their contracts, or even lapsing on their policies altogether, and (2) avoid state law, specifically restraints on premium increases and changes to policy forms, in an effort to permanently reduce the amount of guaranty association protection benefits each policyholder would receive in a liquidation, resulting in savings to large insurers in the form of substantially smaller guaranty association assessments. They are concerned that this aspect of the Plan violates the law and elevates the interests of large insurers over the rights of policyholders under their insurance contracts and applicable State law.

24. Plaintiffs seek an order temporarily enjoining Defendants from taking any measure that purports to bypass, impede, supersede, diminish or interfere in any manner with the State of South Carolina’s laws or regulatory authority over changes to the terms of policies and review and approval of insurance rates in this State, and further temporarily enjoining Defendants from communicating in any form or manner with South Carolina policyholders regarding proposed changes to policy terms or rates without required approval by the State.

CONCLUSIONS OF LAW

I. JURISDICTION

The question of personal jurisdiction over a nonresident defendant is one that must be resolved upon the facts of each particular case. *State v. NV Sumatra Tobacco Trading, Co.*, 379

S.C. 81, 88, 666 S.E.2d 218, 221 (2008) (citing *Cockrell v. Hillerich & Bradsby Co.*, 363 S.C. 485, 611 S.E.2d 505 (2005)). At the pretrial stage, the burden of proving personal jurisdiction over a nonresident is met by a prima facie showing of jurisdiction either in the complaint or in affidavits. *Moosally v. W.W. Norton & Co., Inc.*, 358 S.C. 320, 328, 594 S.E.2d 878, 882 (Ct. App. 2004). Because South Carolina treats its long-arm statute as coextensive with the due process clause, the sole question is whether the exercise of personal jurisdiction would violate due process. *Cockrell*, 363 S.C. at 491, 611 S.E.2d at 508. Determining whether the requirements of due process are satisfied involves a two-prong analysis: (1) the “power” prong, in which minimum contacts provide courts the “power” to adjudicate the action; and (2) the “fairness” prong, which requires the exercise of jurisdiction to be “reasonable” or “fair.” *Moosally*, 358 S.C. at 331, 594 S.E.2d at 884.

Under the power prong, minimum contacts analysis requires a finding that the defendant directed its activities to residents of South Carolina and that the cause of action arises out of or relates to those activities. *Id.* at 331-332, 594 S.E.2d at 884. It is essential that there be some act by which the defendant purposefully avails itself of the privilege of conducting activities within the forum state, thus invoking the benefits and protections of its laws. *Id.* This “purposeful availment” element ensures that a defendant will not be haled into a jurisdiction solely as a result of random, fortuitous, or attenuated contacts. *Id.*

The individual Defendants authored, presented and are implementing the Plan, under which they avail themselves of the privilege of conducting activities in the State. They have sought not merely to invoke the benefits and protections of South Carolina’s laws, but to supplant them, undermining the authority of the General Assembly and Plaintiffs. By directing their activities to

South Carolina residents under the Plan that gives rise to this action, they have established sufficient contacts with the State to invoke the power of this Court.

In order to determine whether the exercise of jurisdiction over a foreign defendant meets the “fairness” prong, a court must consider the following: (1) the duration of the activity of the nonresident within the state; (2) the character and circumstances of the commission of the nonresident’s acts; (3) the inconvenience resulting to the parties by conferring or refusing to confer jurisdiction over the nonresident; and (4) the State’s interest in exercising jurisdiction. *Cockrell*, 363 S.C. at 492, 611 S.E.2d at 508; *see also Leggett v. Smith*, 386 S.C. 63, 76, 686 S.E.2d 699, 706 (Ct. App. 2009). Which state’s law controls is also a factor to be considered under the fairness prong. *Moosally*, 358 S.C. at 332, 594 S.E.2d at 885.

Under the Plan, the Defendants intend to communicate with South Carolina policyholders regarding their insurance contracts and propose to establish new policy rates and benefits. These actions would appear to affect permanently policyholders’ rights under South Carolina law, both immediately and in the event of a liquidation. It is their specific decisions and actions with regard to rates and policy benefits that have prompted the dispute between the parties. Without them, there is no Plan, and it is the unique aspects of that Plan that form the basis for Plaintiffs’ lawsuit. It would be no less inconvenient for the Plaintiffs to bring suit in Pennsylvania than for Defendants to defend their actions here; and, the State has an obvious interest in defending its sovereignty and laws, and of course its citizens. Finally, Plaintiffs’ action itself is for a declaration of South Carolina law. Under these circumstances, the Court’s exercise of jurisdiction over the individual Defendants would also be fair. Accordingly, I find that the requisite prima facie showing of personal jurisdiction over the individual Defendants has been made. *See Moosally*, 358 S.C. at 328, 594 S.E.2d at 882.

The Court clearly has personal jurisdiction of the insurer, which as a condition of its licensure has appointed the Director as its agent for service, *see* S.C. Code Ann. § 38-5-70 (2015), and has conducted the business of insurance in this State for many years.

The Court also has jurisdiction over the subject matter. No state's rehabilitation proceedings grant that state jurisdiction over "the whole field." *Smalls v. Weed*, 293 S.C. 364, 360 S.E.2d 531 (Ct. App. 1987). Although the Pennsylvania Commonwealth Court exercises *in rem* jurisdiction in the rehabilitation proceedings, the res over which that jurisdiction is exercised is the corporation itself, the fictitious entity, not all of the corporation's property for all purposes and certainly not the rights of all persons wherever situated. *See Matter of Rehabilitation of Nat'l Heritage Life Ins. Co.*, 656 A.2d 252 (Del. Ch. 1994). It does not appear that the Commonwealth Court may, simply by reason of the *in rem* nature of the Pennsylvania rehabilitation proceedings, abrogate the power and duties of Plaintiffs or adjudicate the rights of South Carolina policyholders and claimants who are neither parties in the Pennsylvania proceedings nor subject to the jurisdiction of the Commonwealth Court. *See Thormann v. Frame*, 176 U.S. 350 (1900) (judgment *in rem* binds only property within the control of the court).

II. GROUNDS FOR A TEMPORARY INJUNCTION

A preliminary injunction should issue where necessary to preserve the *status quo ante*, upon a showing by the moving party that (1) without such relief it will suffer irreparable harm, (2) it has a likelihood of success on the merits, and (3) there is no adequate remedy at law. *Poynter Invs., Inc. v. Cent. Builders of Piedmont, Inc.*, 387 S.C. 583, 694 S.E.2d 15 (2010) (citing *AJG Holdings, LLC v. Dunn*, 382 S.C. 43, 674 S.E.2d 505 (Ct. App. 2009)). "When a prima facie showing has been made entitling plaintiff to injunctive relief, a temporary injunction will be granted without regard to the ultimate termination of the case on the merits." *Columbia*

Broadcasting System, Inc. v. Custom Recording Co., 258 S.C. 465, 471-472, 189 S.E.2d 305, 308 (1972) (quoting *Transcontinental Gas Pipe Line Corp. v. Porter*, 252 S.C. 478, 167 S.E.2d 313 (1969) (citing *D.W. Alderman & Sons Co. v. Wilson*, 69 S.C. 156, 48 S.E. 85 (1904))).

III. A PRELIMINARY INJUNCTION PURSUANT TO RULE 65, SCRPC IS WARRANTED UNDER THE CIRCUMSTANCES.

A. Plaintiffs have shown a likelihood of success on the merits.

Based on the foregoing, I find Plaintiffs have shown a likelihood of success on the merits. Defendants' Plan appears to be founded on a clearly erroneous reading of the law and appears likely to be overturned on appeal. Regardless, the order approving that Plan is not binding on Plaintiffs or policyholders. Both federal and State law support Plaintiffs' position that insurers licensed by Plaintiffs must obey the laws of this State and that contracts issued in this state are subject to South Carolina law.

The primary state insurance regulatory functions remain as they have been since the enactment of the McCarran-Ferguson [Act], in which "Congress . . . declare[d] that the continued regulation and taxation by the several States of the business of insurance is in the public interest, and that silence on the part of the Congress shall not be construed to impose any barrier to the regulation or taxation of such business by the several States." 15 U.S.C. § 1011. "This allows . . . states to perform solvency oversight of the U.S. insurance industry and to regulate insurer behavior in the marketplace." *State Insurance Regulation*, National Association of Insurance Commissioners (NAIC), Center for Insurance Policy and Research (CIPR) (2011), https://www.naic.org/documents/topics_white_paper_hist_ins_reg.pdf.

"State legislatures are the public policymakers that establish . . . broad policy for the regulation of insurance by enacting legislation providing the regulatory framework under which insurance regulators operate. They establish laws which grant regulatory authority to regulators

and oversee state insurance departments and approve regulatory budgets.” *Id.* “State insurance regulatory systems are accessible and accountable to the public and sensitive to local social and economic conditions.” *Id.* “State regulators protect consumers by ensuring that insurance policy provisions comply with state law, are reasonable and fair, and do not contain major gaps in coverage that might be misunderstood by consumers and leave them unprotected. The nature of the regulatory reviews of rates, rating rules and policy forms varies somewhat among the states depending on their laws and regulations.” *Id.*

The South Carolina General Assembly has delegated its regulatory authority under the McCarran-Ferguson Act, 15 U.S.C. §§ 1011-1015, to the Department. Pursuant to S.C. Code Ann. § 38-3-10 (2015), the General Assembly “established a separate and distinct department of this State, known as the Department of Insurance. The department must be managed and operated by a director appointed by the Governor upon the advice and consent of the Senate.” Pursuant to S.C. Code Ann. § 38-3-60 (2015), “The director or his designee must follow the general policies and broad objectives enacted by the General Assembly regarding the operation of the insurance industry in this State.” S.C. Code Ann. § 38-3-110 (2015) sets forth the Director’s responsibilities, which include the duty to:

(1) supervise and regulate the rates and service of every insurer in this State and fix just and reasonable standards, classifications, regulations, practices, and measurements of service to be observed and followed by every insurer doing business in this State. Nothing contained in this title authorizes or requires a review by the department or the director of any order of the director's designee or the deputy director under the Administrative Procedures Act. This item does not grant any additional authority to the director or his designee with regard to insurance rates other than the ratemaking authority specifically granted to the director or his designee, or the Department of Insurance for certain kinds of insurance in other provisions of this title;

and to:

(2) see that all laws of this State governing insurers or relating to the business of insurance are faithfully executed and make regulations to carry out this title and all other insurance laws of this State, the enforcement or administration of which is not otherwise specifically provided for.

The legislature has also provided, pursuant to S.C. Code Ann. § 38-61-10 (2015), “All contracts of insurance on property, lives, or interests in this State are considered to be made in the State and all contracts of insurance the applications for which are taken within the State are considered to have been made within this State and are subject to the laws of this State.” It has enacted and approved detailed and extensive statutes and regulations governing long-term care insurance policies and rates, including provisions for the approval of rates by the Department. *See* S.C. Code Ann. §§ 38-72-10 *et seq.*; S.C. Code Regs. § 69-44. Under the Long-Term Care Insurance Act, S.C. Code Ann. §§ 38-72-10 *et seq.*, “All premium rate schedules for long-term care insurance must be filed with the [South Carolina Department of Insurance] and are subject to the prior approval of the director or his designee.” S.C. Code Ann. § 38-72-75(A) (2019); *see also* Act No. 6 of 2019. An insurer may not charge a premium to an insured under a policy or contract of long-term care insurance before the applicable premium rate is filed and approved, and an insurer may not change the premium charged to an insured under a policy or contract of long-term care insurance until the applicable premium rate change has been filed with and approved by the Director or his designee. *Id.* “The director or his designee may hold a public hearing or solicit public comments as a part of the process to review long-term care insurance rate filings received by the director or his designee.” S.C. Code Ann. § 38-72-75(C) (2019). Each decision of the Director or his designee about premium rates is subject to review under the Administrative Procedures Act (APA). S.C. Code Ann. § 38-72-75(D) (2019). S.C. Code Regs. 69-44 also provides for the comprehensive regulation of long-term care insurance policies, including rates, forms and required market practices.

In addition, our Supreme Court has held that because the authority to determine what insurance premium rates are just and reasonable is vested in the Department, not even courts should adjudicate what a reasonable rate might be in a collateral proceeding. *Cf. Temporary Services, Inc. v. American Intern. Group, Inc.*, 388 S.C. 348, 351, 697 S.E.2d 527, 529 (2010); § 2:34. Rates—Judicial review, 1 Couch on Ins. § 2:34 (“Ratemaking is generally not a judicial function. Indeed, many jurisdictions have adopted the filed rate doctrine which expressly prohibits courts from imposing rates different than those approved by the state insurance department.”) To the extent Defendants might rely on the Pennsylvania court’s order approving the Plan and the rate-setting scheme within, this would appear to violate the filed rate doctrine. This doctrine preserves the stability, uniformity, and finality inherent in rates filed with the regulatory agency and what has been determined to be a reasonable rate by that agency. *Edge v. State Farm Mut. Auto. Ins. Co.*, 366 S.C. 511, 623 S.E.2d 387 (2005).

Pennsylvania law also appears to militate in favor of Plaintiffs’ motion. That state’s highest court has made clear that as a creature of statute, an insurance commissioner acting as a rehabilitator “can only exercise those powers which have been conferred upon it by the Legislature in clear and unmistakable language.” *Aetna Cas. and Sur. Co. v. Com., Ins. Dept.*, 638 A.2d 194 (Pa. 1994) (quoting *Com., Human Relations Commission v. Transit Cas. Ins. Co.*, 387 A.2d 58, 62 (Pa. 1978)). *See also Koken v. Legion Ins. Co.*, 831 A.2d 1196 (Pa. Commw. 2003), *aff’d sub nom. Koken v. Villanova Ins. Co.*, 878 A.2d 51 (Pa. 2005). Defendants Rehabilitator and SDR have only those powers conferred upon them by 40 Pa. Stat. Ann. § 221.16. This statute prescribes the powers and duties of the rehabilitator, who has “all the powers of the directors, officers and managers, whose authority shall be suspended, except as they are redelegated by the rehabilitator” and “full power to direct and manage, to hire and discharge employees subject to

any contract rights they may have, and to deal with the property and business of the insurer.” *Id.* These powers are limited and equivalent to those of new management, and rehabilitators and insurance companies in rehabilitation, including SHIP, must therefore obey the insurance laws of each the states in which they conduct the business of insurance. *See id.* (rehabilitator has “full power to direct and manage” the insurer). The rehabilitation statutes do not appear to contain “clear and unmistakable language” permitting a rehabilitator to unilaterally set new rates and policy terms nationwide. Under Pennsylvania law, a rehabilitator’s powers are sufficiently limited as to prevent her from even amending an insurer’s bylaws. *See Koken*, 831 A.2d at 1227.

In maintaining that South Carolina is bound by the Plan, Defendants appear to rely on the Full Faith and Credit Clause of the U.S. Constitution. Assuming, *arguendo*, that the Pennsylvania approval order is a “judgment” for purposes of full faith and credit, South Carolina does not appear obligated to obey it in contravention of its own laws. As noted, the jurisdiction of the Pennsylvania court and the extraterritorial reach of the rehabilitation proceedings is limited. *See, e.g., Smalls*, 293 S.C. at 371, 360 S.E.2d at 534; *see also Heritage Life*, 656 A.2d at 259-260. Even the Pennsylvania court seems to indicate that its order is binding only on those who appeared before it. Although that order is in places ambiguous as to its intended reach, the court does plainly state, “Once this Court renders a judgment on the Second Amended Plan, it is Maine, Massachusetts, and Washington [the three intervening regulators] that owe this Court’s judgment full faith and credit.” (Defs. Exh. 3 at p. 61.)

Moreover, full faith and credit requires only that every state give a foreign judgment the *res judicata* effect which that judgment would be accorded in the state which rendered it. *Durfee v. Duke*, 375 U.S. 106 (1963). Under Pennsylvania law, application of *res judicata* requires that the two relevant proceedings possess several common elements, including identity of the parties.

Robinson Coal Co. v. Goodall, 72 A.3d 685 (Pa. Super, 2013). Plaintiffs were not parties to the Pennsylvania proceedings. The constitutional command of full faith and credit does not compel South Carolina to defer to a Pennsylvania court where the matter was neither fully and fairly litigated nor involved the relevant parties: “Before a court is bound by the judgment rendered in another State, it may inquire into the jurisdictional basis of the foreign court’s decree” and “[i]f that court did not have jurisdiction over the subject matter or the relevant parties, full faith and credit need not be given.” *Underwriters Nat’l Assurance Co. v. N.C. Life & Accident & Health Ins. Guar. Ass’n.*, 455 U.S. 691, 705 (1982).

To the contrary, enforcing Defendants’ apparent attempt to supplant the laws of South Carolina and other states risks adoption of a “policy of hostility to the public Acts” of each of the forty-plus affected states, resulting in a direct injury to their sovereignty in violation of the Full Faith and Credit Clause. *See Franchise Tax Bd. v. Hyatt*, 578 U.S. 171 (2016); *Allstate Ins. Co. v. Hague*, 449 U.S. 302 (1981); *Carroll v. Lanza*, 349 U.S. 408 (1955). “The very nature of the federal union of states, to which are reserved some of the attributes of sovereignty, precludes resort to the full faith and credit clause as the means for compelling a state to substitute the statutes of other states for its own statutes dealing with a subject matter concerning which it is competent to legislate.” *Pacific Employers Ins. Co. v. Industrial Accident Comm’n*, 306 U.S. 493, 501 (1939); *see also Alaska Packers Ass’n v. Indus. Accident Comm’n.*, 294 U.S. 532, 547 (1935).

Full faith and credit also need not be granted a judgment obtained in violation of procedural due process. *Purdie v. Smalls*, 293 S.C. 216, 359 S.E.2d 306 (Ct. App. 1987). An insurance policy is a contract between the insured and the insurance company. *Coakley v. Horace Mann Ins. Co.*, 376 S.C. 2, 656 S.E.2d 17 (2007). Statutes governing an insurance contract are part of the contract as a matter of law. *See Williams v. Government Employees Ins. Co. (GEICO)*, 409 S.C. 586, 762

S.E.2d 705 (2014). Here, policyholders appear to have had their contract rights, including the statutory rights that are part of their policies, stripped of them without the benefit of due process. There is no evidence that policyholders, who were not respondents in the Pennsylvania proceedings, received proper service of process or were represented by class representatives or independent legal counsel. Defendants have yet to offer a justification for why policyholders, who Defendants would have bound by the Plan, were not afforded the process apparently due them. *Cf. Underwriters Nat. Assur. Co.*, 455 U.S. at 712 (example of policyholders being represented by legal counsel and class representatives who engaged in “extensive negotiations” with the insurer and the receiver).

Moreover, the Defendants in their own filings appear to concede that the Pennsylvania order is not a final order, but temporary or interlocutory, and thus not entitled to full faith and credit: “Even after approval . . . the Rehabilitator and the Commonwealth Court of Pennsylvania ‘are obligated to interact in order to supervise, implement and regulate equitably the process engaged to rehabilitate an insolvent or financially hazardous insurer.’ Thus, plan approval and implementation remain in the jurisdiction of the Commonwealth Court of Pennsylvania and within its supervision throughout the proceedings.” (Defendants’ Memorandum of Law in Support of their Motion to Dismiss at 6.) *See Purdie*, 293 S.C. at 220, 359 S.E.2d at 308 (temporary or interlocutory order not entitled to full faith and credit).

B. Plaintiffs have shown that a preliminary injunction is necessary to prevent irreparable harm and that there is no adequate remedy at law.

A temporary injunction to preserve *the status quo ante* is necessary to prevent irreparable harm. Plaintiffs are specifically charged by the South Carolina General Assembly to uphold the insurance laws of this State. Those laws are designed to protect the policyholders, whose contracts were formed in this State and are subject to its laws and regulations. Notwithstanding the clear

mandate of South Carolina law, the insurer's past compliance with that law, the limited reach of the Pennsylvania proceedings, and the apparent defects in those proceedings, Defendants have made clear their position that SHIP is no longer subject to South Carolina law and have manifested their intention to not obey it and to move forward immediately with implementing changes to South Carolina policies and rates.

The State has a strong interest in protecting policyholders and ensuring that its laws are enforced. If those laws are not enforced, and Defendants are permitted to implement their Plan immediately, Plaintiffs will have not upheld their statutory duty and policyholders will be permanently denied basic rights and suffer permanent and substantial economic harm. In short, Plaintiffs would not have performed the very functions delegated to them by the General Assembly.

Even if Plaintiffs were to fine SHIP or suspend or revoke its license, such after-the-fact measures would not reinstate any permanent or temporary loss of benefits or premium overcharges. The same is true of any lawsuit to recover damages for lost benefits or premium overcharges, which would also be impracticable given the advanced age and typically limited means of the victims. Similarly, a suit by Plaintiffs for damages arising out of violation of this State's laws seems implausible, if not infeasible. An action at law by either Plaintiffs or policyholders would also not undo the substantial confusion and disruption of the marketplace that would have occurred. *See Nutt Corp. v. Howell Rd., LLC*, 396 S.C. 323, 328, 721 S.E.2d 447, 450 (Ct. App. 2011) ("adequate" remedy at law is one that is as certain, practical, complete and efficient to attain the ends of justice and its administration as the remedy in equity). Conversely, Defendants need do no more than refrain from violating South Carolina law. If they wish to file for a rate increase in accordance with the laws of this State, they have done so in the past and may

do so again.

On the basis of the pleadings and papers in this matter and the arguments of the parties, it appears to the Court that Plaintiffs have shown a likelihood of success on the merits, and that they will suffer immediate, irreparable injury, with no adequate means of redress at law, in that, *inter alia*, without a temporary injunction, the *status quo* would be irretrievably altered with respect to the enforcement of the insurance laws, the order and stability of the insurance marketplace and the rights of policyholders Plaintiffs have the statutory duty to protect. Plaintiffs have therefore made the necessary showing that they are entitled to a temporary injunction - irreparable harm, likelihood of success on the merits, and no adequate remedy at law - thereby establishing grounds for relief pursuant to Rule 65, SCRCP.

IT IS THEREFORE ORDERED THAT:

1. Plaintiffs' Motion for Temporary Injunction is hereby GRANTED;
2. Defendants are hereby enjoined from communicating, implementing or enforcing in this State the Plan, otherwise interfering with the rights of SHIP long-term care insurance policyholders or otherwise violating the insurance laws of this State pertaining to long-term care insurance, including, but not limited to, notifying policyholders of proposed rate or benefit changes or requesting that they select rates or benefits different from those authorized by the appropriate state regulator and called for under the terms of the contract, charging additional premium, or withholding, delaying or encumbering benefits in whole or in part, until such time as specified herein;
3. The temporary injunction granted is binding upon the Defendants, their officers, agents, servants, employees, and attorneys, and upon those persons in active concert or

participation with them who receive actual notice of this Order for Temporary Injunction by personal service or otherwise;

4. This temporary injunction is to remain in effect for no more than thirty (30) days after there has been a final adjudication on the merits of the proceedings pending in Pennsylvania, with leave granted to Plaintiffs to apply for an extension; and

5. Pursuant to Rule 65(c), SCRCP, no bond or other security shall be required of Plaintiffs as an officer and agency of the State as a result of the granting of a temporary injunction in this case.

AND IT IS SO ORDERED.

L. Casey Manning
L. Casey Manning
Chief Administrative Judge
Fifth Judicial Circuit

STATE OF SOUTH CAROLINA
RICHLAND COUNTY

IN THE COURT OF COMMON PLEAS
FIFTH JUDICIAL CIRCUIT

Raymond G. Farmer, as Director of the South
Carolina Department of Insurance, and the
South Carolina Department of Insurance,

Plaintiffs,

vs.

Jessica K. Altman, as Rehabilitator of Senior
Health Insurance Company of Pennsylvania,
Patrick H. Cantilo, as Special Deputy
Rehabilitator of Senior Health Insurance,
Company of Pennsylvania, and Senior Health
Insurance Company of Pennsylvania in
Rehabilitation,

Defendants.

Civil Action No. 2020-CP-40-05802

ORDER OF SUBSTITUTION

This matter comes before me on the motion of Plaintiffs for an Order substituting “Michael Humphreys, as Rehabilitator of Senior Health Insurance Company of Pennsylvania,” for “Jessica K. Altman, as Rehabilitator of Senior Health Insurance Company of Pennsylvania” as a Defendant in the instant proceedings and providing that the caption of this matter be changed accordingly to reflect this substitution. It appears that Defendant Jessica K. Altman has been succeeded in office as Pennsylvania Commissioner of Insurance and Rehabilitator of Senior Health Insurance Company of Pennsylvania by Michael Humphreys, as Acting Commissioner.

Rule 25(d), SCRCP provides, in pertinent part, “When a public officer is a party to an action in his official capacity and during its pendency dies, resigns, or otherwise ceases to hold office, the action does not abate and his successor is automatically substituted as a party,” that “[p]roceedings following the substitution shall be in the name of the substituted party, but any

misnomer not affecting the substantial rights of the parties shall be disregarded, and that “[a]n order of substitution may be entered at any time.”

Based on the foregoing, I find that substitution of this Defendant as requested is appropriate as provided by Rule 25(d), SCRCP.

Accordingly, IT IS ORDERED that “Michael Humphreys, as Rehabilitator of Senior Health Insurance Company of Pennsylvania,” shall be substituted for “Jessica K. Altman, as Rehabilitator of Senior Health Insurance Company of Pennsylvania” as a Defendant in the instant proceedings and all further filings in this matter shall be captioned to reflect this substitution.

AND IT IS SO ORDERED.

Jocelyn Newman

Defendants.

Civil Action No. 2020CP4005802

**ORDER DENYING DEFENDANTS'
MOTION TO DISMISS, AFFIRMING
AUTOMATIC STAY, AND GRANTING
LEAVE TO REASSERT MOTION
FOLLOWING APPELLATE COURT
RULING(S)**

Heard: March 16, 2022 via Webex Virtual Courtroom by Consent
Attorney for Plaintiffs: Geoffrey Ross Bonham
Attorneys for Defendants: Tracy Lynn Eggleston and Michael J. Broadbent
Court Reporter: None – Webex Virtual Court Recording

Defendants move to dismiss this case pursuant to Rules 12(b)(1), (2), (6) and (8), SCRPC, arguing that this Court lacks jurisdiction over the subject matter, that it lacks personal jurisdiction over the individual Defendants Humphreys and Cantilo, that Plaintiffs have failed to state facts sufficient to constitute a cause of action, and that another action is pending between the same parties for the same claim. The court has spent days reviewing the extensive submissions, arguments, and proposed orders from learned counsel. However, deciding the issues involved in this motion at this time is inappropriate because there is a detailed order from The Honorable L. Casey Manning, which is on appeal to the South Carolina Court of Appeals, dealing with most of

the same issues, and there is a pending appeal from an order in the Commonwealth of Pennsylvania. The Rule 12(b)(8) motion was not addressed to Judge Manning. It is denied at this stage, with leave to reassert. This decision is made based on the practicalities of issuing rulings on issues that are currently decided at the trial court level and are on appeal.

Any statements of fact are viewed in the light most favorable to the Plaintiffs and are not to be construed as binding upon any of the parties. To the extent that they come from sources outside the four corners of the Complaint, they are not an indication that this court is converting the Rule 12(b)(6) motion to one for summary judgment.

Senior Health Insurance Company of Pennsylvania ("SHIP") is a company domiciled in Pennsylvania which has issued policies of long-term health insurance in South Carolina and many other states. It is in serious financial trouble, resulting in a rehabilitation action being commenced in Pennsylvania by the Defendant Michael Humphreys, as the Acting Insurance Commissioner of Pennsylvania. Mr. Humphreys is the Statutory Rehabilitator for SHIP by law and by court order. 40 P.S. § 221.15. Defendant Patrick H. Cantilo is the Special Deputy Rehabilitator for SHIP. He is a resident of Texas who was appointed by the Statutory Rehabilitator under 40 P.S. § 221.16. Cantilo's appointment was affirmed and ordered by the Commonwealth Court. (Compl. ¶ 4; Defs' Ex. C, Rehabilitation Order ¶ 14.) The rehabilitators currently serve in a managerial role in place of SHIP's officers and directors, who are suspended. *See* 40 Pa. Stat. § 221.16(b).

Plaintiffs are the South Carolina Department of Insurance and its Director, Mr. Farmer. SHIP does not dispute that insurance companies are subject to the laws and regulations governing insurance policies in this state, and there is no question that the Plaintiffs are charged with the authority and responsibility to apply such laws and regulations.

A Pennsylvania court has approved the rehabilitation plan (the "Plan") proposed by the

Defendants. South Carolina is not a party to the Pennsylvania action, but did file an *amicus* brief in opposition to adoption. The Pennsylvania decision is currently on appeal, and the Defendants contend that the South Carolina declaratory judgment action is not ripe for review since the Pennsylvania decision has not been decided on appeal.

The Plaintiffs assert that the Plan illegally bypasses laws and regulations applicable to insurance companies that operate in South Carolina. They also maintain that, even though the Pennsylvania appeal is unresolved, SHIP has taken steps toward contacting South Carolina policyholders to assert SHIP's options under the Plan. Primarily for those reasons, the Plaintiffs instituted this action and sought injunctive relief to prevent SHIP from going forward with the provisions of the Plan in South Carolina. The Plaintiffs assert that all insurance companies, even those in rehabilitation, remain subject to Plaintiffs' approval of rate changes, among other things.

Insurance regulators in affected states were given the ability to opt out of the Plan. If a state opts out, SHIP has to submit changes in rates to the governing state departments. However, if a state's regulators in an opt-out state were not to approve SHIP's proposed rate increases, the Plan imposes a reduction of benefits on that state's policyholders without any approval being required. The Plaintiffs contend that this presents them with an impermissible Hobson's choice. Plaintiffs claim that the record establishes that even the Rehabilitator did not recommend that state commissioners opt out because of the probability of it being disadvantageous to that state's policyholders.¹ Plaintiffs also maintain that the record reveals that some opt-out states where SHIP has filed for increases have found its submissions incomplete and noncompliant, resulting

¹ See Pl. Motion for Temp. Inj. Exh. C, Opt-Out Election Notice FAQ 9 (Opt-out state approving lower rate increases would “result in additional downgrades [and] the Rehabilitator DOES NOT recommend that states opt out because that is generally expected to be disadvantageous to affected policyholders.”).

in regulatory action against SHIP.² Plaintiffs' position is that the Plan is based on shifting some of the burden of the insurer's insolvency onto policyholders because the rehabilitators did not deem it reasonable for taxpayers (due to tax offsets for assessed guaranty association member insurers) to contribute "hundreds of millions of dollars to pay claims" on underpriced policies.³

So, the major point of contention is that the Plan would give SHIP, through its rehabilitators, the power to modify the terms of insurance policies issued to South Carolinians without having to go through any review process by the South Carolina Department of Insurance. Viewed in the light most favorable to the Plaintiffs, these could involve massive increases in premiums and/or a substantial reduction in benefits.

On January 11, 2021, Defendants removed this action to the United States District Court for the District of South Carolina pursuant to the federal diversity statute, 28 U.S.C. § 1332. By Order dated July 21, 2021, the case was remanded to this court.

The South Carolina Court of Common Pleas heard the motion for temporary injunction in this action. The Honorable L. Casey Manning issued a temporary injunction on January 20, 2022, effectively staying the enforcement of the Plan in South Carolina until the Pennsylvania appellate court has decided whether the adoption of the Plan is affirmed. (Judge Manning's order expires not more than 30 days after the Pennsylvania appellate court's decision, unless extended).

The primary dispute here relates to the ability of the South Carolina Department of Insurance to pursue this declaratory judgment action when Pennsylvania has issued a rehabilitation plan which the Defendants claim gives Pennsylvania exclusive jurisdiction. Both

² See generally, e.g., Pl. Exhs. E-R.

³ Pl. Exh. T, Cantilo Test. p. 78-79.

Pennsylvania and South Carolina have adopted the NAIC's Insurers Rehabilitation and Liquidation Model Act.⁴ The Act provides that rehabilitation proceedings are commenced in the jurisdiction where the insurance company is domiciled. The Act places limitations upon jurisdictions in other states regarding rehabilitation proceedings. Our statute, S.C. Code Ann. § 38-27-60(b), contains the following language:

No court of this State has jurisdiction to entertain, hear, or determine any complaint praying for the ... rehabilitation... of an insurer or praying for an injunction or restraining order or other relief preliminary to, incidental to, or relating to the proceedings other than in accordance with [the Act].

The Plaintiffs assert that they are not attempting to become involved in the rehabilitation plan. They claim that they are only seeking a declaration that an insurance company that happens to be in rehabilitation must nonetheless submit requests for rate increases and benefit reductions to the Plaintiffs. *See, Smalls v. Weed*, 293 S.C. 364, 360 S.E.2d 531 (Ct. App. 1987).

Smalls dealt with a similar situation to the one presented here. A Tennessee rehabilitator asserted that the Model Act established that the receivership court exercised "jurisdiction of the whole field." That rehabilitator's position was that Small's South Carolina action for breach of contract, bad faith refusal to pay insurance benefits, and outrage fell within "relief . . . incidental to or relating to such proceedings," and was barred by what is now Section 38-27-60. The South Carolina Court of Appeals ruled that the action filed in this state was, "merely an action against an insurance company which happens to be in rehabilitation."

The *Smalls* court determined that our courts have subject matter jurisdiction stating:

Under the general rule, statutes which deprive a court of jurisdiction are to be strictly construed, and must be examined in light of the object of the enactments,

⁴ See Proc. of the Nat'l Ass'n of Ins. Commrs., 1969 vol.1 at 168-169, 241 & 271.

the purposes they are to serve, and the mischief they are to remedy, bearing in mind that the operation of such statutes must be restrained within narrower limits than their words import. *United States v. American Bell Tel. Co.*, [159 U.S. 548](#), [16 S.Ct. 69](#), [40 L.Ed. 255](#) (1895); 3A N. Singer, *Sutherland Statutory Construction*, Section 67.03 (4th ed. 1986); *see also* *Virginian Ry. Co. v. System Federation No. 40*, [84 F.2d 641](#) (4th Cir. 1936), *aff'd*, [300 U.S. 515](#), [57 S.Ct. 592](#), [81 L.Ed. 789](#) (1937) (statutes in derogation of court's equity powers are to be strictly construed).

Id. 293 S.C. 364 at 368

JUDGE MANNING'S ORDER

In granting the injunction temporarily prohibiting the Plan from being enforced in South Carolina, pending the decision on the Pennsylvania appeal, Judge Manning determined that the South Carolina Court of Common Pleas has jurisdiction over the subject matter of this action, that it has personal jurisdiction over the two individual Defendants, and that the Plaintiffs demonstrated a likelihood of success on the merits. His ruling is on appeal to the South Carolina Court of Appeals. No Rule 12(b)(8) issue was raised to Judge Manning.

As mentioned previously, part of the reason for the temporary injunction is that the Plaintiffs allegedly learned that Defendants were in the process of planning to contact South Carolina policyholders about rate increases and policy modifications that had not been approved by the South Carolina Department of Insurance, while the Pennsylvania appeal is pending. Any such contact is claimed to constitute a danger that South Carolinians would agree to permanent, unapproved modifications to their insurance contracts. Finding that procedural and substantive rights of South Carolina policyholders would likely be affected, Judge Manning enjoined the Defendants from:

Communicating, implementing or enforcing in this State the Plan, otherwise interfering with the rights of SHIP long-term care insurance policyholders or otherwise violating the insurance laws of this State pertaining to long-term care insurance, including, but not limited to, notifying policyholders of proposed rate

or benefit changes or requesting that they select rates or benefits different from those authorized by the appropriate state regulator and called for under the terms of the contract, charging additional premium, or withholding, delaying or encumbering benefits in whole or in part, until such time as specified herein.

Order at p. 18.

That language is broad. The pending motion for dismissal effectively asks this court to dissolve the temporary injunction issued by another judge. Judge Manning has included findings of fact that is currently under appeal. The court finds that such action would be inappropriate at this stage under the procedural posture of this case.

RULE 43(l), SCRCP: It is established law that, “One circuit court judge may not overrule another.” *Salmons*en v. *CGD, Inc.*, 377 S.C. 442, 454, 661 S.E.2d 81, 88 (2008); *see also Enoree Baptist Church v. Fletcher*, 287 S.C. 602, 604, 340 S.E.2d 546, 547 (1986). In addition, Rule 43(l), SCRCP, provides, “If any motion be made to any judge and be denied, in whole or in part, or be granted conditionally, no subsequent motion upon the same state of facts shall be made to any other judge in that action.” Judge Manning has addressed issues and defenses raised in opposition to Plaintiffs’ motion for temporary injunctive relief and ruled in Plaintiffs’ favor in an detailed order.

Defendants argued before Judge Manning that the Court of Common Pleas lacks jurisdiction over the subject matter, that it lacks personal jurisdiction over the two individual Defendants, and that the Defendants could not establish grounds for injunctive relief. They essentially asserted the same issues, with the exception of a defense under Rule 12(b)(8), that they raise in the pending motion. All of the other Rule 12 issues raised in the pending motion, with the exception of the Rule 12(b)(8) claim, appear to have been decided by Judge Manning.

Judge Manning found that the Plaintiffs have no adequate remedy at law and would suffer irreparable harm, which are things that Defendants now assert that the Plaintiffs cannot establish.

See Def. Brief at pp. 24-25. His order granting a motion for temporary injunction and prescribing a specific event for termination of the injunction qualifies as a motion “be[ing] granted conditionally.” See Rule 43(1), SCRCF. For this Court to rule in Defendants' favor on this motion would necessarily overrule Judge Manning’s order and terminate the temporary injunction, which is prohibited by Rule 43(1) and *Salmonsens*.

RULE 205, SCACR: Almost all of the rulings requested by the Defendants would require this court to evaluate issues that are on appeal, without remand to this court. Recognizing that subject matter jurisdiction can be raised at any time, the assertion of that position would require a remand of the issue to the Court of Common Pleas under the appellate court rules.

Rule 205, SCACR, reads:

Upon the service of the notice of appeal, the appellate court shall have exclusive jurisdiction over the appeal; the lower court or administrative tribunal shall have jurisdiction to entertain petitions for writs of supersedeas as provided by Rule 241. Nothing in these Rules shall prohibit the lower court, commission or tribunal from proceeding with matters not affected by the appeal.

Judge Manning's order made findings and set forth reasons for his findings that go to the heart of the issues on appeal. Therefore, they are not matters unaffected by the appeal. He ruled that the Court of Common Pleas has jurisdiction over the subject matter and the individual Defendants. He found that there is a likelihood of success on the merits, stating strongly that South Carolina has an enforceable interest that can be asserted through this lawsuit. He found a justiciable controversy. Whether he is correct or incorrect in any way is for an appeals court to decide. For this court to interject rulings that might be inconsistent or bolstering is inappropriate, particularly where appellate courts in two states have material issues under consideration.

RULE 12(b)(8)

Rule 12(b)(8), SCRCF provides for dismissal where there is another action involving the

same parties, claims, subject matter, and remedies. Plaintiffs are not parties to the Pennsylvania proceedings, nor is this declaratory judgment action identical or substantially the same as the rehabilitation proceedings in Pennsylvania. *See Cricket Cove Ventures, LLC v. Gilland*, 390 S.C. 312, 322, 328, 701 S.E.2d 39, 44, 48 (S.C. App. 2010) (to prevail on motion to dismiss pursuant to Rule 12(b)(8), movant must show that the actions in question are between the same parties in their same capacities); *Capital City Ins. Co. v. BP Staff, Inc.*, 382 S.C. 92, 106, 674 S.E.2d 524, 532 (Ct. App. 2009) (“We interpret [Rule 12(b)(8)] narrowly such that the claim must be precisely or substantially the same in both proceedings” and “the administrative proceeding and the circuit court action are fundamentally and structurally different from each other. Therefore . . . dismissal . . . under Rule 12(b)(8), SCRCF was improper.”).

Defendants argue that because Plaintiffs submitted an *amicus* brief along with other states in the Pennsylvania appeal, and because South Carolina has an obvious interest in the outcome, and because the Plaintiffs could have intervened in the rehabilitation proceedings in the lower Pennsylvania court, they are parties to those proceedings. An *amicus curiae* is not a party to an action, but a friend of the court, whose sole function is to advise or to make suggestions to the court. *Burger v. Lutheran General Hosp.*, 759 N.E.2d 533 (Ill. 2001). Pennsylvania has specifically recognized the distinction between an *amicus* and a party. *See, e.g., Wright v. Denny*, 33 A.3d 687 n.3 (Pa. Commw. Ct. 2011) (*amicus curiae* is not a party); *Temple University Hosp., Inc. v. Healthcare Management Alternatives, Inc.*, 832 A.2d 501 n.2 (Pa. Super. Ct. 2003) (same), *pet. for allowance of appeal denied*, 847 A.2d 1288 (2004). That Plaintiffs have an interest in the outcome of the Pennsylvania proceedings is irrelevant. By the nature of things, an *amicus* is not normally impartial and there is no rule that *amici* must be totally disinterested. *Tafas v Dudas*, 511 F. Supp. 2d 652, 661 (E.D. Va. 2007). Moreover, whether Plaintiffs could have intervened in

another state proceeding is immaterial. *See Brown v. Wright*, 137 F.2d 484, 487 (4th Cir. 1943) (that individual may have had the right to intervene in state proceeding is immaterial, since he did not in fact intervene).

The Plaintiffs are not parties to the Pennsylvania rehabilitation and there is no identity of issues. Rule 12(b)(8) does not permit dismissal at this stage.

RULE 12(b)(6)

The court is not going into detail concerning Rule 12(b)(6) based on the rulings stated above. However, it seems important to note that Rule 12(b)(6) motions are typically limited to the four corners of the Complaint. On the issue of ripeness, a court would benefit from additional discovery regarding what, if any, steps were being taken by SHIP directly with South Carolina policyholders, as alleged by the Plaintiffs. However, since Judge Manning's order deals with that issue and is on appeal, this court determines that it is not appropriate to evaluate the ripeness argument further.

CONCLUSION

The Court finds that dismissal of the Complaint is not warranted at this stage for the reasons stated herein.

IT IS THEREFORE ORDERED that Defendants' motion is denied, the action is stayed, and the Defendants may reassert these motions, in whole or in part, after further order(s) from the appellate court(s).

AND IT IS SO ORDERED.

**IN THE COURT OF COMMON PLEAS
FIFTH JUDICIAL CIRCUIT**

Raymond G. Farmer, as Director of the South
Carolina Department of Insurance, and the
South Carolina Department of Insurance,

Civil Action No. 2020-CP-40-_____

Plaintiffs,

**COMPLAINT FOR DECLARATORY
AND INJUNCTIVE RELIEF**

vs.

Jessica K. Altman, as Rehabilitator of Senior
Health Insurance Company of Pennsylvania,
Patrick H. Cantilo, as Special Deputy
Rehabilitator of Senior Health Insurance
Company of Pennsylvania, and Senior Health
Insurance Company of Pennsylvania in
Rehabilitation,

Defendants.

PRELIMINARY ALLEGATIONS

I. PARTIES

1. Plaintiff Raymond G. Farmer is the Director of the South Carolina Department of Insurance (the “Director”).

2. Plaintiff South Carolina Department of Insurance (the “Department”) is an agency of the State of South Carolina created and charged by the South Carolina General Assembly to regulate the business of insurance in this State. *See generally* S.C. Code Ann. §§ 38-1-10 *et seq.* (“The Insurance Law”).

3. Defendant Jessica K. Altman is the Commissioner of Insurance for the Commonwealth of Pennsylvania and has been appointed Rehabilitator of Senior Health Insurance Company of Pennsylvania (the “Rehabilitator”) by order of the Commonwealth Court of Pennsylvania (“Commonwealth Court”) dated January 29, 2020 (the “Rehabilitation Order”).

4. Defendant Patrick H. Cantilo was appointed by the Rehabilitator as Special Deputy Rehabilitator (the “SDR”) of Senior Health Insurance Company of Pennsylvania. He generally has the power to act on behalf of the Rehabilitator, subject to the control and direction of the Rehabilitator.

5. Defendant Senior Health Insurance Company of Pennsylvania (“SHIP”) is a stock limited life and health insurance company that administers a closed block of long-term care (“LTC”) insurance policies. It is domiciled in the Commonwealth of Pennsylvania with its principal place of business in Carmel, Indiana.

II. FACTS

6. SHIP commenced business on July 5, 1887 as the Home Beneficial Society and was eventually acquired by CNO Financial Group, Inc., f/k/a Consecro, Inc. (“CNO”), a financial services holding company based in Carmel, Indiana.

7. SHIP’s book of business consists almost entirely of defined benefit accident and health insurance policies covering long-term care services issued by insurance companies that had been acquired by, or merged into, CNO between 1997 and 2000 and marketed and sold nearly nationwide since as far back as 1975.

8. SHIP has assumed a number of LTC policies through co-insurance or reinsurance but has not sold new policies since 2003. Only a fraction of SHIP’s original LTC business remains in force.

9. The average SHIP LTC policyholder age is 86 and the average claimant is 89 years old. SHIP’s policies are approximately thirteen percent (13%) home health care coverage, eighteen percent (18%) facility care coverage (nursing home and/or assisted living facility), and sixty-nine percent (69%) comprehensive coverage.

10. Seeking ways to reduce the strain of supporting SHIP's persistent underwriting losses, CNO transferred ownership of SHIP in the fall of 2008 to the Senior Healthcare Trust, which was then merged into an independent oversight trust, the Senior Healthcare Oversight Trust ("SHOT"). The trustees of SHOT serve as SHIP's directors and are primarily former insurance regulatory officials.

11. At the time of the 2008 transfer, CNO contributed approximately \$164 million to SHIP and an additional \$11 million to SHOT.

12. From 2008 through 2017, CNO and its subsidiaries made approximately \$915 million in capital contributions to SHIP, including approximately \$220 million in capital contributions from January 1, 2006 through June 30, 2007.

13. SHIP has remained in runoff and has continued operations in Carmel, Indiana. Its corporate office has remained in Carmel, Indiana and its administrative office is located in St. Paul, Minnesota.

14. SHIP has continued to decline financially after its transfer to SHOT, experiencing increases in claims totaling over \$200 million in the five-year period from 2009 through 2013 and a steady increase in its loss ratio, i.e., the ratio of incurred claims to earned premiums. *See* 2009-2013 SHIP Statutory Financial Statements.

15. By the time SHIP's management acknowledged that claims costs were going to substantially exceed available assets and revenues, too many severely underpriced policies had already been sold and gone into claims status, resulting in a large underpricing gap. SHIP will not have enough money to pay for all the benefits expected to be owed to its remaining policyholders.

16. The causes of SHIP's ongoing financial difficulties include adverse loss development, continued low interest rates, lower than expected policy lapse rates and other factors not uncommon

in a legacy LTC book of business, as well as volatility in the financial markets and, significantly, the conduct of SHIP's management and others.

17. Fuzion Analytics, Inc. ("Fuzion"), is a Delaware corporation formed in 2012 as a wholly-owned subsidiary of SHOT, ostensibly to provide administrative and management services to SHIP and other long-term care insurance companies. Fuzion is also located in Carmel, Indiana.

18. Beginning in 2012, SHIP entered into several agreements with Fuzion under which, over time, it paid Fuzion millions of dollars.

19. In 2014, SHIP conveyed essentially all of its infrastructure to Fuzion in exchange for agreed-upon cash consideration, and Fuzion began providing SHIP all of the services necessary to administer most of SHIP's affairs. Pursuant to a Management Agreement and Asset Purchase Agreement, the employees and infrastructure assets of SHIP were transferred to Fuzion, which became responsible for the administration of its LTC policies and providing additional services pursuant to a Master Services Agreement. Since then, SHIP has had no facilities or employees, relying instead on Fuzion for its operations.

20. SHIP was Fuzion's largest client and its primary source of revenue from 2014 through 2017.

21. On August 20, 2019, SHOT transferred all of its interest in Fuzion to SHIP as a capital contribution, so that Fuzion is now a wholly owned subsidiary of SHIP. In addition to the services provided to SHIP, Fuzion continues to provide services to customers in the long-term care insurance industry.

22. In late 2013, Fuzion introduced SHIP's management to Beechwood Re., Ltd. SHIP had become aware of other insurers' reinsurance arrangements through Fuzion. Following that introduction, representatives of SHIP and Beechwood Re met to discuss the latter's potential role as

an investment manager for SHIP.

23. Although Beechwood Re would not agree to provide reinsurance for SHIP, it did offer SHIP access to what was described as high-quality, high-yield investments.

24. By and through Fuzion, SHIP entered into three investment management agreements (“IMAs”) with certain entities associated with Beechwood Re.

25. In December 2016, Beechwood Re and its affiliates were offered for sale as a result of its relationship with and investments in the now-defunct hedge fund Platinum Partners, which became the subject of investigations by the Securities and Exchange Commission (“SEC”) as well as civil and criminal legal proceedings beginning in mid-to-late 2016.

26. In approximately September 2016 SHIP’s Chief Executive Officer (“CEO”) indicated that SHIP, which had invested in funds and companies related to Platinum Partners through Beechwood Re and/or its affiliates, intended to fully divest itself of all Platinum Partners-related investments by the end of that year. Those investments totaled at least \$100 million as of year-end 2016.

27. In its annual financial statement for 2017, however, SHIP disclosed plans to maximize the value of the associated portfolios through an exit strategy that might “take multiple years” to execute fully, explaining that due to the long-term nature of its liabilities and the liquidity in core assets, a “fire-sale” of assets was not necessary or appropriate.

28. According to its annual financial statement for 2017, SHIP had proceeds from the sale of investments of \$1.46 billion, compared to \$484 million in 2018.

29. SHIP also recorded other-than-temporary impairments (“OTTI”) of at least \$43 million in 2016 and 2017 related to certain investments. OTTI is typically recognized when the value of a security falls below its book value and it is not expected to recover during the holding

period. In 2018, SHIP recorded \$150.1 million of OTTI, of which \$147.5 million were related to alternative investments.

30. In regulatory filings submitted in April 2018, SHIP indicated that it was terminating its reinsurance agreement with Roebing Re Ltd. of Barbados under which it ceded a substantial portion of its major blocks of long-term care business.

31. Although Roebing Re had intended to generate capital through long-dated, high-quality investment strategies and the corresponding issuance of investment-grade bonds, SHIP explained, Roebing Re was not able to participate in the investment strategies as anticipated and thus was not able to meet its obligation under the reinsurance agreement in 2017.

32. As a result of a reserve credit deficiency arising out of from Roebing Re's inability to meet its obligations, SHIP recorded a negative change in its liability for reinsurance in unauthorized and certified companies, which came as an addition to its net loss of \$13.9 million for the year.

33. SHIP ended 2017 with \$12.6 million in surplus, down from \$28 million in 2016, marking a decline of \$15.4 million year over year. Its capital base included a \$50 million surplus note issued to a Beechwood Re entity in 2015.

34. On July 24, 2018, SHIP filed suit in the United States District Court for the Southern District of New York against Beechwood Re and its affiliates as well as a number of individual defendants. *Senior Health Insurance Company of Pennsylvania v. Beechwood Re Ltd., B Asset Manager, L.P., Beechwood Bermuda International, Ltd., Beechwood Reinvestments, LLC a/k/a Beechwood Re Investors, LLC, Illumin Capital Management, LP, Moshe M. Feuer a/k/a Mark Feuer, Scott A. Taylor, David I. Levy, Dhruv Narain, and John Does 1-10*, 1:18-cv-06658-JSR (S.D.N.Y., July 24, 2018).

35. In that civil action, SHIP claimed it “ha[d] sustained hundreds of millions of dollars

in economic injury from Beechwood's Ponzi-like scheme." SHIP sought "to recover the losses it has sustained as a result of Beechwood's misconduct, which includes breaches of contract and fiduciary duty, bad faith, gross negligence, fraudulent inducement and misrepresentations, and participation in a fraudulent scheme and racketeering activity that has resulted in multiple criminal indictments."

36. A few months later, however, on December 19, 2018, a court-appointed receiver for certain funds referred to as the Platinum Partners Credit Opportunities Funds also filed suit in the United States District Court for the Southern District of New York, against a group of defendants that included SHIP. *Melanie L. Cyganowski, as Equity Receiver for Platinum Partners Credit Opportunities Master Fund LP, et al. v. Beechwood Re Ltd., et al.*, Case 1:18-cv-12018 (S.D.N.Y., Dec. 19, 2018). In her lawsuit, the receiver alleged that SHIP and others were not victims, but rather "substantially assisted," and "actively participated" in fraud.

37. On July 31, 2019, SHIP also filed a lawsuit against two valuation companies for "aiding and abetting the massive fraud perpetrated by Beechwood and its Platinum affiliates against SHIP." *Senior Health Insurance Company of Pennsylvania v. Lincoln International LLC, Lincoln Partners Advisors LLC*, 1:19-cv-07137-JSR (S.D.N.Y., July 1, 2019); however, on April 13, 2020, the district court entered a judgment providing that "summary judgment is granted in favor of defendants on the aiding and abetting claims and the Amended Complaint is dismissed in its entirety."

38. All three cases in the district court fall under the umbrella of or are at least related to an ongoing proceeding styled *In re Platinum-Beechwood Litigation*, 1:18-cv-06658-JSR, presided over by the Honorable Jed S. Rakoff, United States District Judge for the Southern District of New York.

39. As of December 31, 2013, SHIP had a total capital and surplus of \$98,201,892 and aggregate reserves for accident and health contracts of over \$2 billion (\$2,753,777,140).

40. SHIP's risk-based capital, or "RBC," has decreased over the past five (5) years by over a thousand points, as detailed in the below table:

Risk Based Capital RBC Ratio, 2014-2018:

Change pts	2018	2017	2016	2015	2014
1,125.6 pts	-909.0%	141.7%	164.0%	160.7%	216.6%

41. RBC is used to determine the minimum capital insurers are required to hold to avoid regulatory intervention by their state of domicile. Insurance regulators commonly use RBC standards to determine the appropriate amount of regulatory intervention for their domestic insurers.

42. The Pennsylvania insurance statutes, as in other states, prescribe four RBC levels with corresponding degrees of regulatory action, progressively increasing in the amount of regulatory control exercised: company action, regulatory action, authorized control and mandatory control. 40 Pa. Stat. Ann. § 221.1-A *et seq.*

43. Company action level is triggered if the RBC ratio is between 200% and 150%, which means that an insurer is required to submit a written plan to improve its RBC ratio. *See* 40 Pa. Stat. Ann §§ 221.1-A & -6A (West).

44. On information and belief, SHIP never filed an RBC Plan as required by 40 Pa. Stat. Ann § 221.6-A after SHIP's RBC reached company action level in 2015, where it remained through 2017. *See* 40 Pa. Stat. Ann. § 221.6-A (West) ("In the event of a company action level event, the insurer shall prepare and submit to the commissioner an RBC plan.")

45. During this period of several years, SHIP should have been subject to enhanced regulatory oversight by Pennsylvania once its total adjusted capital fell below 200% of its authorized control level risk-based capital, which means that, at the very least, SHIP should have been required

to submit a written plan to improve its RBC ratio. *Id.*

46. When SHIP's RBC ratio plummeted to -909.0% as of December 31, 2018, it triggered a mandatory control level event, which should have resulted in SHIP's immediate placement into receivership by Pennsylvania. *See* 40 Pa. Stat. Ann. §§ 221.1-A & -9-A (West).

47. As of December 31, 2013, SHIP had a total capital and surplus of \$98,201,892 and aggregate reserves for accident and health contracts of over \$2 billion (\$2,753,777,140). In the ensuing years, its capital and surplus would drop dramatically from year to year, as shown in the below table:

Capital & Surplus in Thousands (\$), 2014-2018:

Change \$	2018	2017	2016	2015	2014
-546,879	-466,873	12,649	28,023	55,758	80,006

48. Even before 2014, SHIP's capital and surplus decreased significantly from year to year, as reflected in the below table:

Capital & Surplus in Thousands (\$), 2009-2013:

2013	2012	2011	2010	2009
98,202	105,467	114,397	177,315	193,449

49. As indicated above, in its audited financial statement for 2018, SHIP reported year-end 2018 capital and surplus of negative \$466.9 million.

50. In that same filing, SHIP's independent auditor issued a qualified opinion regarding the company's accounting for certain investments in its statutory financial statements and cautioned that the existence of the surplus deficit raises "substantial doubt" about SHIP's ability to continue as a going concern.

51. SHIP has been insolvent since at least December 31, 2018, when it reported a deficit of at least (\$466,872,971.00) as of that date.

52. An insurer's insolvency is grounds for placing it in receivership under Pennsylvania law. 40 Pa. Stat. Ann. §§ 221.14 & 221.19 (West).

53. In its first quarterly financial statement for 2019, SHIP reported a surplus of negative \$481.3 million as of March 31, 2019, incurring a \$13.1 million net loss in that quarter alone.

54. In the first half of 2019, SHIP's financial condition worsened substantially, with its deficit increasing at a rate of approximately \$15,000,000 per quarter to approximately (\$496,240,035) as of June 30, 2019.

55. The Rehabilitator has developed her rehabilitation strategy based on an assumed deficit of (\$813,000,000).

56. SHIP's unaudited 2019 annual financial statement shows a negative capital and surplus as of December 31, 2019 of (\$916,098,229) and the present deficit is likely much larger.

57. By the time SHIP stopped selling new business in 2003, it had 231,000 policies in force; however, by 2008, this number was down to 152,000.

58. Out of 647,000 SHIP LTC policies written or assumed over the past forty-five (45) years, less than 50,000 remain in force, with less than 30,000 policyholders still paying premium. The rest have either terminated or been converted to non-forfeiture option (NFO) policies, offering very limited benefits but requiring no further premium payments, or are on premium waiver for various reasons.

59. Because over 600,000 of the underpriced policies have already lapsed or otherwise stopped generating premium, the lost revenue on these policies due to underpricing can never be recovered and premium can never be increased on approximately ninety-five percent (95%) of the policies SHIP issued, leaving those who hold the policies in force within that remaining five percent (5%) who are still paying premium, or those on waiver required to pay a premium differential, to

make up for that lost revenue.

60. SHIP is licensed in approximately forty-six (46) states, including South Carolina, as well as the District of Columbia and the United States Virgin Islands; however, SHIP's licenses in some of these jurisdictions have been restricted or suspended.

61. At present there are approximately 309 SHIP policyholders residing in South Carolina subject to the proposed rehabilitation plan.

62. Approximately a third of the remaining policies in the United States are in just three states: (1) Texas, with approximately 6,285 policies, or 12 percent (12%) of the total; (2), Florida with approximately 5,649 policies, or eleven percent (11%); and (3) SHIP's state of domicile, Pennsylvania, with approximately 5,135 policies, or ten percent (10%), for a total of thirty-three percent (33%).

63. The states that rank fourth and fifth in total policies, California and Illinois, have approximately 4,228 policies, or eight percent, (8%) and approximately 2,423, or five percent (5%), respectively, meaning that nearly half -- forty-six (46%) -- of all remaining policies are in just five (5) states.

64. The Rehabilitation Order provides that the Rehabilitator shall file a preliminary plan of rehabilitation by April 22, 2020, which shall contain a timeline for the preparation of a final rehabilitation plan with the Commonwealth Court.

65. A preliminary rehabilitation plan was filed on or about April 22, 2020 and a copy provided to the directors and commissioners of insurance in the affected states.

66. The plan is comprised of three phases, and contemplates imposing dramatically large premium rate increases (and/or benefit reductions) on all policies in force nationwide, without first submitting the rate increases and benefit changes to each affected state's regulator for approval and

without regard for any of those states' laws mandating the filing of proposed insurance rates and forms with individual state insurance regulators for their review and approval.

67. Assuming the initial phase is implemented as proposed, it will feature a new rate that, assuming it had been charged from inception, would have produced the greater of the initial target loss ratio or the minimum loss ratio applicable to the policy form, i.e., the "if knew" premium.

68. SHIP will offer policyholders four (4) basic options which would be imposed nationwide and without individual state filing and insurance regulator approval: (1) keep their current premium and have policy benefits reduced if their current premium is less than the "if knew" premium; (2) have their current policy endorsed to provide benefits substantially similar to a newly-designed "Basic Policy" fashioned by the Rehabilitator; (3) elect a non-forfeiture option ("NFO") policy under which the Maximum Benefit Period ("MBP") will be the lesser of 2.5 years and the policy's current MBP; or (4) keep their current benefits and pay the "if knew" premium.

69. The first phase is not subject to a specific timeline; however, it is expected to take at least six months to implement, with evaluation of its effectiveness likely to take place no sooner than after one year.

70. The Rehabilitator anticipates that although most, if not all, policyholders will be asked to pay higher rates or reduce policy benefits in the first phase, some policyholders may not be subject to further rate increases or modifications in the second phase.

71. In the second phase, following evaluation of the impact of phase one, the Rehabilitator proposes to raise rates on certain policyholders to the rate at which the present value of expected premiums plus assets allocated to the policy (on an accumulated premium basis) equals or exceeds the present value of future benefit and expenses, i.e., the "sustaining premium."

72. Policyholders will be presented with the following four options: (1) keep the premium

rate resulting from phase one and reduce benefits to eliminate the policy shortfall; (2) have their current policy endorsed to provide benefits substantially similar to a newly designed “Basic Policy” developed by the Rehabilitator; (3) elect a non-forfeiture (“NFO”) option; or (4) maintain the current policy benefits but will be required to pay the “self-sustaining” premium.

73. In neither phase will the new rates and benefits offered to policyholders be submitted to the individual affected states for review and approval in accordance with the laws of each such state. At no time does the rehabilitation plan provide for submission of the new rates and benefits to South Carolina for review and approval in accordance with this State’s laws.

74. The final rehabilitation plan will likely contemplate that policyholders in any state that opposes unilateral rate increases will receive fewer options in the first and/or second phase.

75. The third phase will be developed in the future and is intended to conclude the run-off of SHIP’s s business in force, as modified by the plan. The rehabilitation plan is not designed to create a surplus for SHIP; however, in the “unlikely event” that the plan does produce a surplus, that surplus will be distributed to policyholders, agents and other creditors.

76. Special rules will apply to policyholders on claim or on premium waiver, but they will also be expected to pay more in premium or to reduce their policy benefits; and, the Rehabilitator anticipates that all policyholders will have at least one option that will preserve their benefits at or above applicable guaranty association limits, mostly by adjusting the length of the applicable benefit period.

77. On or about October 21, 2020, the Rehabilitator filed an amended rehabilitation plan with the Commonwealth Court. The amended plan includes a phased in approach similar to the approach described in the original plan. It projects a \$1.2 billion funding gap. In addition, the Amended Plan includes (1) a so-called opt-out process for rate determinations; (2) a new policy

restructuring section; and (3) a liquidation in excess of claims section. The policyholders of states that opt out and do not impose or modify the rates set by the Rehabilitator will have their benefits reduced. If the amended plan is approved, the proposed benefit reductions will not be submitted to the states for review in accordance with state laws. Moreover, the benefit reduction strategy described in the amended plan and will impact policyholder rights when the plan fails and SHIP is eventually placed into liquidation.

78. The Rehabilitator intends to impose rates for use nationwide through approval of the rehabilitation plan by the Commonwealth Court in Pennsylvania, bypassing all other individual state regulator approvals, including in South Carolina, even though LTC insurers are required to comply with all rate and form approval statutes and regulations in each of the states in which they do business.

79. Similarly, the Rehabilitator also proposes to unilaterally reduce benefits nationwide without individual state regulator approval, again through the Commonwealth Court.

80. The Rehabilitator justifies the unilateral imposition of rates and benefit changes nationally in part because she believes obtaining state approval “would insert a lengthy delay in the time-line that would be costly, if not fatal, to the [rehabilitation plan],” but offers no reasonable explanation for previous inaction or delay in the face of SHIP’s long history of financial difficulties.

81. The Rehabilitator maintains that policyholders whose policies are in states that have approved more rate increases in the past will face lower premium increases (or benefit reductions) in the plan than those whose state has not done so; and, at the end of the premium adjustment, policyholders in one state will pay the same amount as in another.

82. Over the past decade, SHIP has submitted proposed rate increases to the South Carolina Department of Insurance in 2011, 2012, 2013, 2017, and 2018, all of which were approved

except for 2018, which the Department disapproved in 2019 after it was clear that SHIP was hopelessly insolvent.

83. These prior rate increase approvals notwithstanding, some South Carolina policyholders may face rate increases of well over four hundred percent (400%) in Phase I and additional increases in Phase II.

84. The Rehabilitator acknowledges that the rehabilitation plan places additional burdens on policyholders and is intended to both increase revenue and reduce benefits.

85. The anticipated rate increases, which in some cases will far exceed four hundred fifty percent (450%), alone or in combination with benefit reductions, can reasonably be expected to force unnecessary policy lapses. The revenue from these increases will not fill the \$1.2 billion deficit projected by the Rehabilitator.

GROUND FOR DECLARATORY AND INJUNCTIVE RELIEF

86. Pursuant to S.C. Code Ann. § 38-1-20(25) (2015), “‘Insurance’” means a contract where one undertakes to indemnify another or pay a specified amount upon determinable contingencies. The term ‘insurance’ includes annuities.”

87. Pursuant to S.C. Code Ann. § 38-1-20(25) (2015), “‘Policy’ means a contract of insurance.”

88. Pursuant to S.C. Code Ann. § 38-25-110 (2015), transacting the business of insurance in South Carolina includes (1) making of or proposing to make, as an insurer, an insurance contract; (2) taking or receiving any application for insurance; (3) receiving or collecting premium or other consideration for any insurance; (4) issuing or delivering contracts of insurance to residents of this State or to persons authorized to do business in this State; and (5) “the dissemination of information as to coverage or rates, or forwarding of applications, or delivery of policies or contracts, or . . . a

fixing of rates . . . , or in any other manner representing or assisting . . . in the transaction of insurance with respect to subjects of insurance resident, located, or to be performed in this State.”

89. By, *inter alia*, disseminating information as to coverage or rates, forwarding of applications, or delivering of policies or contracts, fixing proposed rates and in other ways transacting insurance with respect to subjects of insurance resident, located, or to be performed in this South Carolina. SHIP is conducting the business of insurance in this State.

90. With the passage of the McCarran–Ferguson Act, 15 U.S.C. §§ 1011–1015, in 1945, “Congress . . . declare[d] that the continued regulation and taxation by the several States of the business of insurance is in the public interest, and that silence on the part of the Congress shall not be construed to impose any barrier to the regulation or taxation of such business by the several States.”

91. The National Association of Insurance Commissioners (NAIC), is the U.S. standard-setting and regulatory support organization created and governed by the chief insurance regulators of the fifty (50) states, the District of Columbia, and five (5) U.S. territories. The members of the NAIC, together with the central resources of the NAIC, form the national system of state-based insurance regulation in the United States.

92. “The primary state insurance regulatory functions remain as they have been since the enactment of [the] McCarran-Ferguson [Act]. This allows . . . states to perform solvency oversight of the U.S. insurance industry and to regulate insurer behavior in the marketplace.” *State Insurance Regulation*, National Association of Insurance Commissioners (NAIC), Center for Insurance Policy and Research (CIPR) (2011), https://www.naic.org/documents/topics_white_paper_hist_ins_reg.pdf.

93. “State legislatures are the public policymakers that establish . . . broad policy for the regulation of insurance by enacting legislation providing the regulatory framework under which

insurance regulators operate. They establish laws which grant regulatory authority to regulators and oversee state insurance departments and approve regulatory budgets.” *Id.*

94. “State insurance regulatory systems are accessible and accountable to the public and sensitive to local social and economic conditions. State regulation has proven that it effectively protects consumers and ensures that promises made by insurers are kept. Insurance regulation is structured around several key functions, including insurer licensing, producer licensing, product regulation, market conduct, financial regulation and consumer services.” *Id.*

95. “State regulators protect consumers by ensuring that insurance policy provisions comply with state law, are reasonable and fair, and do not contain major gaps in coverage that might be misunderstood by consumers and leave them unprotected. The nature of the regulatory reviews of rates, rating rules and policy forms varies somewhat among the states depending on their laws and regulations.” *Id.*

96. In 1969, the NAIC adopted Wisconsin’s Rehabilitation and Liquidation Act -- Wis. Stat. Ann. Ch. 645 (1967) -- as the NAIC model law (the “Wisconsin Model”). *See Proc. of the Nat’l Assn of Ins. Comm’rs*, 1969 vol. 1 at 168, 241 and 271. The Wisconsin statute and comments were adopted in full by the NAIC in 1968, thereby providing great insight into the rationale for provisions of the Model. *Id. See also* Brief of Amicus Curiae National Association of Insurance Commissioners in Support of Appellant at 6, *In Re: Penn Treaty Network America Insurance Company in Rehabilitation*, Docket No. 94 MAP (Pa. 2012)

97. The Pennsylvania Receivership Laws (40 Pa. Stat. Ann §§ 221.1 *et seq.*) were based on the Wisconsin Model. *See Koken v. Reliance Ins. Co.*, 893 A.2d 70, 84 (Pa. 2006). Indeed, the Wisconsin model was the “blueprint for the Pennsylvania statute.” *Id. See also* Brief of Amicus Curiae NAIC at 6.

98. The NAIC's model laws for receiverships have evolved over time into a comprehensive statutory scheme to govern the rehabilitation or liquidation of an insolvent insurer, and uniformity in the interpretation of the various state receivership laws and consistency in the application of these laws are important NAIC concerns. Brief of Amicus Curiae NAIC at 6-7.

99. "Following a relatively uncommon though not entirely unprecedented procedure, the Wisconsin legislature enacted S. 303 of 1967 as chapter 89, Laws of 1967, including in the bill and in the session laws not only the statutory language but also the comments of the Insurance Laws Revision Committee.' See Wisconsin Model, Introductory Comment to Wis. Stat. Ann. Ch. 645 (1967)." Brief of Amicus Curiae NAIC at 6 n.5.

100. The comments describe the Wisconsin Model as "mak[ing] a more realistic and careful designation of the status of the rehabilitator than does the Uniform Insurers Liquidation Act [U.L.A.]. That Act contemplates different categories of receivers but does not adequately distinguish among them. For example, it transfers title to all receivers indiscriminately. However, *in a rehabilitation proceeding, the rehabilitator is, in effect, simply the new management of the company* and title remains and should remain in the company. From s. 645.33(2) *he gets all the powers of management*. If the Uniform Act were followed at this point, the first sentence of sub. (1) would be followed by the sentences that now appear as the 2nd and 3rd sentences in s. 645.42(1), applying to liquidators. *But this chapter distinguishes between the 2 main classes of receivers in accordance with their disparate functions.*" Rehabilitation orders, Wis. Stat. Ann. § 645.32, *Comments* (italics supplied.)

101. The Wisconsin Model recognizes that "[w]hat is needed for rehabilitation of an insurance company is *new management* with the capacity to see what is wrong and the power to correct it. . . . *Conceptually [the rehabilitator] should be treated as new management with especially*

broad powers, including . . . formal legal reorganizational devices that have heretofore been the focus of rehabilitation but that should normally be subordinated in the future to the larger *management task*. Ch. 645, Refs & Annos, Wis. Stat. Ann., Refs & Annos. (italics supplied.); *See also* Wis. Stat. Ann. Ch. 645, Subch. II, Refs & Annos.

102. The South Carolina General Assembly also adopted the “Wisconsin Model,” with Act No. 384 of 1982. *See generally* Insurers Rehabilitation and Liquidation Act, S.C. Code Ann. §§ 38-27-10 *et seq.*

103. Although “liquidation” contemplates the end of corporate existence, “rehabilitation” involves the continuance of corporate life and activities and is an effort to restore and reinstate the corporation to its former condition of successful operation and solvency. *Smalls v. Weed*, 293 S.C. 364, 360 S.E.2d 531 (Ct. App. 1987).

104. The Insurers Rehabilitation and Liquidation Act “provides for one procedure in actions involving a rehabilitator, and for a different procedure against a liquidator,” *Id.*

105. Another state’s rehabilitation proceedings do not grant that state jurisdiction over “the whole field.” *See id.*

106. Although the Pennsylvania Commonwealth Court exercises in rem jurisdiction in the rehabilitation proceedings, the res over which that jurisdiction is exercised is the corporation itself, the fictitious entity, not all of the corporation’s property for all purposes and certainly not the rights of all persons wherever situated.

107. The Commonwealth Court may not, simply by reason of the in rem nature of the Pennsylvania rehabilitation proceedings, adjudicate the rights of South Carolina policyholders and claimants who are neither parties in the Pennsylvania proceedings nor subject to the jurisdiction of the Commonwealth Court.

108. South Carolina need not grant full faith and credit to a judgment rendered in another state unless that state had jurisdiction to render the judgment: “Before a court is bound by the judgment rendered in another State, it may inquire into the jurisdictional basis of the foreign court’s decree” and “[i]f that court did not have jurisdiction over the subject matter or the relevant parties, full faith and credit need not be given.” *Underwriters Nat’l Assurance Co. v. N.C. Life & Accident & Health Ins. Guar. Ass’n.*, 455 U.S. 691, 705 (1982).

109. The Commonwealth Court has no jurisdiction to grant the Rehabilitator any power or authority except in accordance with the Pennsylvania iteration of the Wisconsin Model, 40 Pa. Stat. Ann. §§ 221.1 *et seq.*

110. The constitutional command of full faith and credit does not compel South Carolina to defer to a Pennsylvania court’s exercise of jurisdiction where the issue was neither fully and fairly litigated nor involved the same parties as the Pennsylvania litigation.

111. Regardless, the “full faith and credit clause does not require one state to substitute for its own statute, applicable to persons and events within it, the conflicting statute of another state.” *Pacific Employers Ins. Co. v. Indus. Accident Comm’n.*, 306 U.S. 493, 502 (1939).

112. Although the purpose of the full faith and credit clause is “to preserve rights acquired or confirmed under the public acts and judicial proceedings of one state by requiring recognition of their validity in other states, the very nature of the federal union of states, to which are reserved some of the attributes of sovereignty, precludes resort to the full faith and credit clause as the means for compelling a state to substitute the statutes of other states for its own statutes dealing with a subject matter concerning which it is competent to legislate.” *Pacific Employers*, 306 U.S. at 501; *see also Alaska Packers Ass’n v. Indus. Accident Comm’n.*, 294 U.S. 532, 547 (1935).

113. “Every legislature, however broad may be its enactments, is supposed to confine them

to cases or persons within the reach of its sovereignty. . . . It cannot be presumed, that the . . . legislature mean[s] to exceed its legitimate authority.” *Farnum v. Blackstone Canal Corp.*, 8 F. Cas. 1059, 1065 (C.C.D.R.I. 1830).

114. “It is a familiar elementary principle that the laws of a state have no extraterritorial effect. And it is not necessary for a state statute to contain words expressly confining its operation within the state. That it is so confined is generally understood.” *Grover Irrigation & Land Co. v. Lovella Ditch, Reservoir & Irrigation Co.*, 21 Wyo. 204, 131 P. 43 (1913).

115. The South Carolina General Assembly has properly delegated regulatory authority under the the McCarran-Ferguson Act, 15 U.S.C. §§ 1011-1015, to the Department prescribing and approving detailed and extensive statutes and regulations governing LTC policies and rates, including provisions for the approval of policies and rates by the Department. S.C. Code Ann. §§ 38-72-10 *et seq.*; S.C. Code Regs. § 69-44.

116. The public policy of this State is that because the authority to determine what insurance premium rates are just and reasonable is vested in the Department, courts should not adjudicate what a reasonable rate might be in a collateral proceeding. *Cf. Temporary Services, Inc. v. American Intern. Group, Inc.*, 388 S.C. 348, 351, 697 S.E.2d 527, 529 (2010); § 2:34. Rates—Judicial review, 1 Couch on Ins. § 2:34 (“Ratemaking is generally not a judicial function. Indeed, many jurisdictions have adopted the filed rate doctrine which expressly prohibits courts from imposing rates different than those approved by the state insurance department.”)

117. Protecting the authority of the Department to regulate insurance rates from an action in the court of another jurisdiction furthers the important policy objectives of (1) preserving the agency’s authority to determine the reasonableness of rates; (2) recognizing that agencies have expertise with regard to the industry they regulate, whereas courts do not; (3) allowing an action in

court would undermine the regulatory scheme because the statute allows for enforcement by the appropriate state officers; and (4) recognizing such an action would result in disparate treatment of long term care policyholders in this State between (a) those who enjoy the full protection of Department review under the standards of South Carolina law governing insurance rates, namely, that the rate is reasonable and not excessive, inadequate, or unfairly discriminatory, and (b) those whose rates are determined in a court of a foreign jurisdiction in a scheme to run off remaining policies by forcing premium increases, reduced benefits and/or policy lapses.

118. “Due to its complexity as well as to the determination of the legislature, rate-making is left to the discretion of the insurance commissioner who is a specialist in the field and upon whose expertise [the courts] must rely.” *Ins. Serv. Office v. Whaland*, 378 A.2d 743, 746 (N.H. 1977) (citing *Travelers Indem. Co. v. Williams*, 190 So.2d 27, 29 (Fla. Dist. Ct. App. 1966) and *Maryland Fire Underwriters Rating Bureau v. Ins. Comm’r*, 260 Md. 258, 272 A.2d 24 (1971)). *See also Mass. Auto Rating Accident Prevention Bureau v. Comm’r of Ins.*, 453 N.E.2d 381, 385, 395 (Mass. 1983) (finding courts give “due weight to the Commissioner’s experience, technical competence, and specialized knowledge as well as the discretionary authority vested in the Commissioner by the Legislature” and that the “essentially legislative process of rate making” must not be “usurped” in the guise of independent review).

119. An insurer’s use of nationwide data in support of its filing as opposed to information giving proper regard to local conditions in the state in which the increase is sought is legally sufficient grounds to deny a proposed rate increase. *See, e.g., Whaland*, 378 A.2d at 746-747.

120. The rehabilitation plan is contrary to law and therefore unenforceable.

121. By seeking to impose unilateral and nationwide premium increases and changes in benefits outlined in the terms of policies without filing them for review and approval by the

Plaintiffs Director and Department, in contravention of South Carolina law, the rehabilitation plan exceeds Defendants' lawful authority in that:

a. Defendants Rehabilitator and SDR have only those powers conferred upon them by 40 Pa. Stat. Ann. §§ 221.1 *et seq.*, which are limited and equivalent to those of new management, and they and insurance companies in rehabilitation, including SHIP, must therefore obey the insurance laws of each the states in which they conduct the business of insurance.

b. Defendants have no power, with or without the assistance of the Commonwealth Court, to breach insurance contracts with South Carolina policyholders or to unilaterally change the express and implied terms of or the agreed-upon consideration for such contracts.

c. Defendants have no power, without or without the assistance of the Commonwealth Court, to compel the Director or the Department to ignore or disobey the written directives of the South Carolina General Assembly regarding the regulation of the business of insurance in violation of the constitution and laws of South Carolina or to otherwise impose or allow to be imposed unapproved rates or benefit changes on South Carolina citizens.

d. Neither 40 Pa. Stat. Ann. §§ 221.1 *et seq.*, orders and proceedings under those laws, reciprocity, nor full faith and credit supersede or nullify the constitution and laws of South Carolina, nor do they command that South Carolina implement or accede to measures in conflict with its laws.

e. Neither 40 Pa. Stat. Ann. §§ 221.1 *et seq.*, orders and proceedings under those laws, reciprocity, nor full faith and credit permit Defendants to avoid, impair, jeopardize, violate, extinguish or otherwise prejudice policyholders' rights under contract or South Carolina law.

122. The amended rehabilitation plan that Defendants filed on about October 21, 2020 included "a new mechanism to address concerns expressed by certain [state] regulators about premium rates being set under the Plan and not by them." Notice of Filing of Amended

Rehabilitation Plan.

123. In the amended plan, the Rehabilitator relates an alternative under which “the insurance department of [a state] will make the rate increase determinations . . . and the benefits under the Plan will be adjusted to correspond to the premium rates approved by [that] state.”

124. Under this mechanism, “if the chief insurance regulator . . . of an issue-state formally advises the Rehabilitator that his or her state elects to “opt-out” of the rate increase component of the Proposed Rehabilitation Plan, the Plan would not apply in the same way to the policies issued in that state.” The Rehabilitator would then file with the opt-out state a request for approval of the full rate increase contemplated under the plan, and the “opt-out state’s decision as to the requested rate increases would govern the choices available to the holders of opt-out policies.”

125. “If the opt-out state timely approves the requested rate increases in full, it will be treated as if it had not opted out of the Plan and its policyholders will be included in the Plan just as those issued in non-opt-out states”; however, if “the opt-out state does not timely approve the full rate increase sought by the Rehabilitator, the policies issued in that state will be deemed opt-out policies subject to” modifications of benefits to be determined by the Rehabilitator.

126. This amendment does not does not correct the fundamental defects of the original plan in that (1) the Rehabilitator still attempts to exercise power she does not possess, in effect attempting to delegate that *illusory* power to any state that agrees with her rates, and discriminating against policyholders in any state that does not do her bidding and (2) it erroneously presumes that the Rehabilitator has the power to unilaterally alter policy benefits without the approval of state regulators.

127. The orders of the Commonwealth Court supervising the rehabilitation proceedings are not binding on persons over which it does not have jurisdiction and who are not parties to the

Pennsylvania insurance company receivership proceedings, including South Carolina policyholders.

128. The orders of the Commonwealth Court supervising the rehabilitation proceedings are not entitled to full faith and credit in South Carolina.

129. Neither 40 Pa. Stat. Ann. §§ 221.1, orders and proceedings under those laws, reciprocity, nor full faith and credit impair in any manner the power of the South Carolina General Assembly to regulate the business of insurance in South Carolina, including its authority regarding the setting of insurance rates and approval of policy forms.

130. By treating differently policyholders in states where rate approval is required by statute and by treating policyholders differently based on a state's rate approval history, as well as creating a class of LTC policyholders in South Carolina who are deprived of the protection of this State's rate and form approval laws afforded holders of LTC policies issued by other insurers, the rehabilitation plan violates SHIP policyholders' constitutional rights to equal protection under the law.

131. By unreasonably and unnecessarily delaying receivership proceedings and incurring the unnecessary expenses of a legally invalid and unenforceable rehabilitation plan, the Defendants have wasted and continue to waste the limited assets of the insurer, further prejudicing the rights of policyholders and others in South Carolina.

FOR A FIRST CAUSE OF ACTION

(Declaratory Judgment—Against All Defendants)

132. Plaintiffs reallege and incorporate by reference as if set forth in full at this point, each and every allegation contained in paragraphs 1 through 131 of this Complaint.

133. Plaintiffs seek a declaration that the rehabilitation plan is invalid and unenforceable to the extent it seeks to bypass, impede, supersede, diminish or interfere in any manner with the State

of South Carolina's regulatory authority over changes to the terms of policies and review and approval of insurance rates and forms or to impose unauthorized changes to policies and rates in violation of the rights of South Carolina policyholders.

FOR A SECOND CAUSE OF ACTION

(Permanent Injunctive Relief—Against All Defendants)

134. Plaintiffs reallege and incorporate by reference as if set forth in full at this point, each and every allegation contained in paragraphs 1 through 133 of this Complaint.

135. Plaintiffs seek an order permanently enjoining the enforcement or implementation of any order of the Commonwealth Court or any plan or directive of the Defendants that purports to bypass, impede, supersede, diminish or interfere in any manner with the State of South Carolina's regulatory authority over changes to the terms of policies and review and approval of insurance rates in this State, and further enjoining Defendants from communicating in any form or manner with South Carolina policyholders regarding proposed changes to policy terms or rates without prior written approval by the State of South Carolina.

136. Plaintiffs also respectfully request that said order provide that violation of the injunction may subject the Defendants not only to appropriate action of the Court but to assessment by the Department of administrative fines against SHIP and suspension or revocation of SHIP's license as provided by the Insurance Law, S.C. Code Ann. § 38-1-10 *et seq.*

WHEREFORE, Plaintiffs respectfully pray the Court for an order declaring that the rehabilitation plan is invalid and unenforceable in this State and enjoining Defendants from implementing or enforcing the rehabilitation plan, otherwise interfering with the rights of SHIP policyholders in South Carolina or similarly violating the insurance laws of this State pertaining to long term care insurance.

Case No. 3:21-cv-00097-MGL

NOTICE OF REMOVAL

Defendants Jessica K. Altman, as Rehabilitator of Senior Health Insurance Company of Pennsylvania (the “Rehabilitator”), Patrick H. Cantilo, as Special Deputy Rehabilitator of Senior Health Insurance Company of Pennsylvania (the “Special Deputy Rehabilitator”), and Senior Health Insurance Company of Pennsylvania (“SHIP”) (collectively “Defendants”) hereby remove the above-captioned matter from the Court of Common Pleas for Richland County, South Carolina, pursuant to 28 U.S.C. §§ 1332, 1441 and 1446. This Action is within the original jurisdiction of this Court pursuant to 28 U.S.C. § 1332 because there is complete diversity between the parties on the face of the Complaint and the total amount in controversy exceeds \$75,000. In support of Removal, Defendants state as follows:

THE ACTION

1. Plaintiffs Raymond G. Farmer, as Director of the South Carolina Department of Insurance (“Director Farmer”), and the South Carolina Department of Insurance (the “South Carolina Department”) (collectively, “Plaintiffs”) filed this civil action against Defendants on December 10, 2020, under Case Number 2020-CP-40-05802 (the “State Action”) in the Court of Common Pleas for the Fifth Judicial Circuit, Richland County, a court located within this District.

2. A true and correct copy of all process and pleadings served on Defendants, as well as the complete file from the state court, is attached hereto as Exhibit A.

3. Plaintiffs allege that they served each of the Defendants by mailing a copy of the Summons and Complaint via Federal Express on December 11, 2020. *See* Certificate of Service, Ex. A at 28. The return receipt included as an attachment to Plaintiffs’ Certificate of Service indicates that a copy of the Summons and Complaint was delivered on December 14, 2020. *Id.* at 32.

4. Defendants are timely filing this Notice of Removal within 30 days of service of the State Action pursuant to 28 U.S.C. § 1446(b).

5. Removal to this venue is proper because the Court of Common Pleas for the Fifth Judicial Circuit, Richland County, lies within the jurisdictional boundaries of the United States Court for the District of South Carolina, Columbia Division.

6. Pursuant to 28 U.S.C. § 1446(a),(d) and Local Rule 83.IV.01, Defendants are concurrently filing a Notice of Filing of Notice of Removal with the Clerk of Court for the Court of Common Pleas for the Fifth Judicial Circuit, Richland County, and are serving Plaintiffs with a copy of this Notice of Removal.

DIVERSITY OF CITIZENSHIP

7. Where jurisdiction is predicated on diversity of citizenship under Section 1332(a), there must be “complete diversity among parties, meaning that the citizenship of every plaintiff must be different from the citizenship of every defendant.” *Cent. W. Virginia Energy Co. v. Mountain State Carbon, LLC*, 636 F.3d 101, 103 (4th Cir. 2011). A corporation is deemed a citizen of (a) the state of incorporation and (b) the state where its principal place of business is located. 28 U.S.C. § 1332(c)(1).

8. Complete diversity exists here because this controversy exists between citizens of different states. The complete diversity of citizenship between the parties existed as of the date of filing the Complaint and as of the date of this Notice of Removal.

9. Upon information and belief, Plaintiff Director Farmer is a citizen and resident of South Carolina.

10. Plaintiff South Carolina Department is a South Carolina agency created by the South Carolina General Assembly, and is thus a citizen of South Carolina. Compl. ¶ 2.

11. The Rehabilitator is a citizen and resident of the Commonwealth of Pennsylvania.

12. The Special Deputy Rehabilitator is a citizen and resident of the State of Texas.

13. SHIP is a life and health insurance company domiciled in the Commonwealth of Pennsylvania with its principal place of business in Carmel, Indiana.

14. Because none of the Defendants is a citizen of South Carolina and both of the Plaintiffs are South Carolina citizens, the parties are completely diverse under 28 U.S.C. § 1332(a)(1).

THE AMOUNT IN CONTROVERSY

15. 28 U.S.C. § 1332 also requires that the amount in controversy “exceeds the sum or value of \$75,000, exclusive of interests and costs.” *Id.* § 1332(a). In order to satisfy this requirement in removal actions, “a defendant’s notice of removal only needs to include a ‘plausible allegation’ that the amount in controversy exceeds the jurisdictional threshold.” *Vill. Park Homes LLC v. Hancock Askew & Co LLP*, No. 9:16-CV-02828-DCN, 2016 WL 7383919, at *2 (D.S.C. Dec. 21, 2016) (quoting *Dart Cherokee Basin Operating Co., LLC v. Owens*, 574 U.S. 81, 89 (2014)).

16. Plaintiffs’ complaint seeks declaratory and injunctive relief. “In actions seeking declaratory or injunctive relief, it is well established that the amount in controversy is measured by the value of the object of the litigation.” *Am. Scrap Iron & Metal, LLC v. Treno Servs., LLC*, No. 3:18-CV-2134-TLW, 2019 WL 7761807, at *2 (D.S.C. Jan. 31, 2019) (citing *Hunt v. Wash. State Apple Advert. Comm’n*, 432 U.S. 333, 347 (1977)).

17. Courts in the Fourth Circuit measure the value of the litigation “from the view point of ‘either party.’” *HT Inv., Inc. v. RJC, LLC*, No. 9:17-CV-02144-DCN, 2017 WL 4401675, at *2 (D.S.C. Oct. 4, 2017) (citing *JTH Tax., Inc. v. Frashier*, 624 F.3d 635, 639 (4th Cir. 2010)). Accordingly, “[t]he relevant inquiry is whether the direct pecuniary value of the right the plaintiff seeks to enforce, or the cost to the defendant of complying with any prospective equitable relief exceeds \$75,000.” *Id.* (internal quotation marks and citation omitted).

18. The amount of controversy far exceeds \$75,000. SHIP is a life and health insurance company domiciled in Pennsylvania, and its entire insurance business consists of long-term care insurance (“LTCI”). *See* Compl. ¶¶ 5–8. SHIP is licensed in forty-six states, including South Carolina, as well as the District of Columbia and the U.S. Virgin Islands. *Id.* ¶ 60.

19. Since 2003, the focus of SHIP's business has been running off its LTCI business until there are no policies remaining. *See id.* ¶¶ 8, 57. On January 29, 2020, as a result of its long financial decline, the Commonwealth Court of Pennsylvania ("the Commonwealth Court") ordered SHIP placed in rehabilitation under the Pennsylvania Insurance Department Act, 40 P.S. §§ 221.1–221.63. *See* Compl. ¶¶ 3, 47–56, 64.

20. The Rehabilitation Order entered on January 29, 2020, directed the Rehabilitator to prepare a plan of rehabilitation for the Commonwealth Court's review and approval. *Id.* ¶ 64. The Rehabilitator filed an initial Proposed Plan of Rehabilitation for SHIP in the Commonwealth Court on April 22, 2020. *Id.* ¶ 65. An Amended Plan of Rehabilitation was subsequently filed in the Commonwealth Court on October 21, 2020. *Id.* ¶ 77

21. The Initial Plan and the Amended Plan each describe a number of proposed measures to increase revenues and reduce the liabilities of SHIP, so as to narrow or eliminate a funding gap of more than \$1 billion. *See id.* ¶¶ 54–56, 66–77.

22. Of relevance here, as a condition of continuing to receive LTCI coverage from SHIP, the Initial Plan proposed that most policyholders choose from among several options to modify policy premiums or benefits so that SHIP's LTCI policies may be properly priced prospectively. *Id.* ¶¶ 15, 66–76. To achieve this goal, the Initial Plan contemplated that policy rate and benefit modifications be approved exclusively by the Commonwealth Court, and not by regulators in the states in which the policies had been issued ("issue-states"). *Id.* ¶¶ 77–78.

23. The Amended Plan no longer requires states and policyholders to accept a permanent increase in premium rates without issue-state approval. Instead, an issue-state's chief insurance regulator, such as Plaintiff Director Farmer, may formally object to the Rehabilitator and the Commonwealth Court modifying rates for SHIP's LTCI policies issued in that state and

retain the right to approve premium rate increase requests. *Id.* ¶¶ 77, 123–25. Policyholders in that state would then have different options in lieu of a premium rate increase, such as to downgrade policy benefits. *Id.*

24. The Complaint seeks the South Carolina court’s intervention in the ongoing rehabilitation proceedings in the Pennsylvania Commonwealth Court, requesting that the court effectively enjoin the Commonwealth Court rehabilitation proceeding from affecting South Carolina policyholders without Plaintiffs’ prior written approval. *Id.* ¶¶ 133–35.

25. Indeed, the Complaint seeks to enjoin the Rehabilitator from even communicating “in any form or manner with South Carolina policyholders regarding proposed changes to policy terms or rates,” and further requests sanctions and administrative fines should the Rehabilitator communicate the details of any proposed rehabilitation plan to SHIP’s policyholders. *Id.* ¶ 136

26. At present, there are approximately 309 SHIP policyholders residing in South Carolina that would be subject to the proposed Amended Plan of Rehabilitation. *Id.* ¶ 61.

27. The value of the modifications contemplated by the Amended Plan to policy premiums or benefits of those South Carolina SHIP policyholders far exceeds \$75,000, and is estimated to be at least several millions of dollars. As such, the cost of complying with the prospective equitable relief sought by the Complaint—that is, refraining from implementing any rehabilitation plan and making any changes to the premiums or benefits of South Carolina SHIP policyholders—easily eclipses \$75,000. For these same reasons, the direct value of the purported right Plaintiffs seeks to enforce also exceeds \$75,000.

28. Accordingly, the amount in controversy exceeds \$75,000 as required by 28 U.S.C. § 1332(a), and this action is therefore removable to this Court pursuant to 28 U.S.C. § 1441(b).

WHEREFORE, Defendants respectfully remove this action from the Court of Common Pleas for the Fifth Judicial Circuit, Richland County to this Court.

Respectfully submitted,

ELECTRONICALLY FILED - 2020 Dec 10 3:15 PM - RICHLAND - COMMON PLEAS - CASE#2020CP4005802

STATE OF SOUTH CAROLINA
RICHLAND COUNTY

IN THE COURT OF COMMON PLEAS
FIFTH JUDICIAL CIRCUIT

Raymond G. Farmer, as Director of the South
Carolina Department of Insurance, and the
South Carolina Department of Insurance,

Plaintiffs,

vs.

Jessica K. Altman, as Rehabilitator of Senior
Health Insurance Company of Pennsylvania,
Patrick H. Cantilo, as Special Deputy
Rehabilitator of Senior Health Insurance
Company of Pennsylvania, and Senior Health
Insurance Company of Pennsylvania in
Rehabilitation,

Defendants.

Civil Action No. 2020-CP-40-_____

**COMPLAINT FOR DECLARATORY
AND INJUNCTIVE RELIEF**

PRELIMINARY ALLEGATIONS

I. PARTIES

1. Plaintiff Raymond G. Farmer is the Director of the South Carolina Department of Insurance (the "Director").

2. Plaintiff South Carolina Department of Insurance (the "Department") is an agency of the State of South Carolina created and charged by the South Carolina General Assembly to regulate the business of insurance in this State. *See generally* S.C. Code Ann. §§ 38-1-10 *et seq.* ("The Insurance Law").

3. Defendant Jessica K. Altman is the Commissioner of Insurance for the Commonwealth of Pennsylvania and has been appointed Rehabilitator of Senior Health Insurance Company of Pennsylvania (the "Rehabilitator") by order of the Commonwealth Court of Pennsylvania ("Commonwealth Court") dated January 29, 2020 (the "Rehabilitation Order").

4. Defendant Patrick H. Cantilo was appointed by the Rehabilitator as Special Deputy Rehabilitator (the “SDR”) of Senior Health Insurance Company of Pennsylvania. He generally has the power to act on behalf of the Rehabilitator, subject to the control and direction of the Rehabilitator.

5. Defendant Senior Health Insurance Company of Pennsylvania (“SHIP”) is a stock limited life and health insurance company that administers a closed block of long-term care (“LTC”) insurance policies. It is domiciled in the Commonwealth of Pennsylvania with its principal place of business in Carmel, Indiana.

II. FACTS

6. SHIP commenced business on July 5, 1887 as the Home Beneficial Society and was eventually acquired by CNO Financial Group, Inc., f/k/a Conseco, Inc. (“CNO”), a financial services holding company based in Carmel, Indiana.

7. SHIP’s book of business consists almost entirely of defined benefit accident and health insurance policies covering long-term care services issued by insurance companies that had been acquired by, or merged into, CNO between 1997 and 2000 and marketed and sold nearly nationwide since as far back as 1975.

8. SHIP has assumed a number of LTC policies through co-insurance or reinsurance but has not sold new policies since 2003. Only a fraction of SHIP’s original LTC business remains in force.

9. The average SHIP LTC policyholder age is 86 and the average claimant is 89 years old. SHIP’s policies are approximately thirteen percent (13%) home health care coverage, eighteen percent (18%) facility care coverage (nursing home and/or assisted living facility), and sixty-nine percent (69%) comprehensive coverage.

10. Seeking ways to reduce the strain of supporting SHIP's persistent underwriting losses, CNO transferred ownership of SHIP in the fall of 2008 to the Senior Healthcare Trust, which was then merged into an independent oversight trust, the Senior Healthcare Oversight Trust ("SHOT"). The trustees of SHOT serve as SHIP's directors and are primarily former insurance regulatory officials.

11. At the time of the 2008 transfer, CNO contributed approximately \$164 million to SHIP and an additional \$11 million to SHOT.

12. From 2008 through 2017, CNO and its subsidiaries made approximately \$915 million in capital contributions to SHIP, including approximately \$220 million in capital contributions from January 1, 2006 through June 30, 2007.

13. SHIP has remained in runoff and has continued operations in Carmel, Indiana. Its corporate office has remained in Carmel, Indiana and its administrative office is located in St. Paul, Minnesota.

14. SHIP has continued to decline financially after its transfer to SHOT, experiencing increases in claims totaling over \$200 million in the five-year period from 2009 through 2013 and a steady increase in its loss ratio, i.e., the ratio of incurred claims to earned premiums. *See* 2009-2013 SHIP Statutory Financial Statements.

15. By the time SHIP's management acknowledged that claims costs were going to substantially exceed available assets and revenues, too many severely underpriced policies had already been sold and gone into claims status, resulting in a large underpricing gap. SHIP will not have enough money to pay for all the benefits expected to be owed to its remaining policyholders.

16. The causes of SHIP's ongoing financial difficulties include adverse loss development, continued low interest rates, lower than expected policy lapse rates and other factors not uncommon

in a legacy LTC book of business, as well as volatility in the financial markets and, significantly, the conduct of SHIP's management and others.

17. Fuzion Analytics, Inc. ("Fuzion"), is a Delaware corporation formed in 2012 as a wholly-owned subsidiary of SHOT, ostensibly to provide administrative and management services to SHIP and other long-term care insurance companies. Fuzion is also located in Carmel, Indiana.

18. Beginning in 2012, SHIP entered into several agreements with Fuzion under which, over time, it paid Fuzion millions of dollars.

19. In 2014, SHIP conveyed essentially all of its infrastructure to Fuzion in exchange for agreed-upon cash consideration, and Fuzion began providing SHIP all of the services necessary to administer most of SHIP's affairs. Pursuant to a Management Agreement and Asset Purchase Agreement, the employees and infrastructure assets of SHIP were transferred to Fuzion, which became responsible for the administration of its LTC policies and providing additional services pursuant to a Master Services Agreement. Since then, SHIP has had no facilities or employees, relying instead on Fuzion for its operations.

20. SHIP was Fuzion's largest client and its primary source of revenue from 2014 through 2017.

21. On August 20, 2019, SHOT transferred all of its interest in Fuzion to SHIP as a capital contribution, so that Fuzion is now a wholly owned subsidiary of SHIP. In addition to the services provided to SHIP, Fuzion continues to provide services to customers in the long-term care insurance industry.

22. In late 2013, Fuzion introduced SHIP's management to Beechwood Re., Ltd. SHIP had become aware of other insurers' reinsurance arrangements through Fuzion. Following that introduction, representatives of SHIP and Beechwood Re met to discuss the latter's potential role as

an investment manager for SHIP.

23. Although Beechwood Re would not agree to provide reinsurance for SHIP, it did offer SHIP access to what was described as high-quality, high-yield investments.

24. By and through Fuzion, SHIP entered into three investment management agreements (“IMAs”) with certain entities associated with Beechwood Re.

25. In December 2016, Beechwood Re and its affiliates were offered for sale as a result of its relationship with and investments in the now-defunct hedge fund Platinum Partners, which became the subject of investigations by the Securities and Exchange Commission (“SEC”) as well as civil and criminal legal proceedings beginning in mid-to-late 2016.

26. In approximately September 2016 SHIP’s Chief Executive Officer (“CEO”) indicated that SHIP, which had invested in funds and companies related to Platinum Partners through Beechwood Re and/or its affiliates, intended to fully divest itself of all Platinum Partners-related investments by the end of that year. Those investments totaled at least \$100 million as of year-end 2016.

27. In its annual financial statement for 2017, however, SHIP disclosed plans to maximize the value of the associated portfolios through an exit strategy that might “take multiple years” to execute fully, explaining that due to the long-term nature of its liabilities and the liquidity in core assets, a “fire-sale” of assets was not necessary or appropriate.

28. According to its annual financial statement for 2017, SHIP had proceeds from the sale of investments of \$1.46 billion, compared to \$484 million in 2018.

29. SHIP also recorded other-than-temporary impairments (“OTTI”) of at least \$43 million in 2016 and 2017 related to certain investments. OTTI is typically recognized when the value of a security falls below its book value and it is not expected to recover during the holding

period. In 2018, SHIP recorded \$150.1 million of OTTI, of which \$147.5 million were related to alternative investments.

30. In regulatory filings submitted in April 2018, SHIP indicated that it was terminating its reinsurance agreement with Roebing Re Ltd. of Barbados under which it ceded a substantial portion of its major blocks of long-term care business.

31. Although Roebing Re had intended to generate capital through long-dated, high-quality investment strategies and the corresponding issuance of investment-grade bonds, SHIP explained, Roebing Re was not able to participate in the investment strategies as anticipated and thus was not able to meet its obligation under the reinsurance agreement in 2017.

32. As a result of a reserve credit deficiency arising out of from Roebing Re's inability to meet its obligations, SHIP recorded a negative change in its liability for reinsurance in unauthorized and certified companies, which came as an addition to its net loss of \$13.9 million for the year.

33. SHIP ended 2017 with \$12.6 million in surplus, down from \$28 million in 2016, marking a decline of \$15.4 million year over year. Its capital base included a \$50 million surplus note issued to a Beechwood Re entity in 2015.

34. On July 24, 2018, SHIP filed suit in the United States District Court for the Southern District of New York against Beechwood Re and its affiliates as well as a number of individual defendants. *Senior Health Insurance Company of Pennsylvania v. Beechwood Re Ltd., B Asset Manager, L.P., Beechwood Bermuda International, Ltd., Beechwood Reinvestments, LLC a/k/a Beechwood Re Investors, LLC, Illumin Capital Management, LP, Moshe M. Feuer a/k/a Mark Feuer, Scott A. Taylor, David I. Levy, Dhruv Narain, and John Does 1-10*, 1:18-cv-06658-JSR (S.D.N.Y., July 24, 2018).

35. In that civil action, SHIP claimed it “ha[d] sustained hundreds of millions of dollars

in economic injury from Beechwood's Ponzi-like scheme." SHIP sought "to recover the losses it has sustained as a result of Beechwood's misconduct, which includes breaches of contract and fiduciary duty, bad faith, gross negligence, fraudulent inducement and misrepresentations, and participation in a fraudulent scheme and racketeering activity that has resulted in multiple criminal indictments."

36. A few months later, however, on December 19, 2018, a court-appointed receiver for certain funds referred to as the Platinum Partners Credit Opportunities Funds also filed suit in the United States District Court for the Southern District of New York, against a group of defendants that included SHIP. *Melanie L. Cyganowski, as Equity Receiver for Platinum Partners Credit Opportunities Master Fund LP, et al. v. Beechwood Re Ltd., et al.*, Case 1:18-cv-12018 (S.D.N.Y., Dec. 19, 2018). In her lawsuit, the receiver alleged that SHIP and others were not victims, but rather "substantially assisted," and "actively participated" in fraud.

37. On July 31, 2019, SHIP also filed a lawsuit against two valuation companies for "aiding and abetting the massive fraud perpetrated by Beechwood and its Platinum affiliates against SHIP." *Senior Health Insurance Company of Pennsylvania v. Lincoln International LLC, Lincoln Partners Advisors LLC*, 1:19-cv-07137-JSR (S.D.N.Y., July 1, 2019); however, on April 13, 2020, the district court entered a judgment providing that "summary judgment is granted in favor of defendants on the aiding and abetting claims and the Amended Complaint is dismissed in its entirety."

38. All three cases in the district court fall under the umbrella of or are at least related to an ongoing proceeding styled *In re Platinum-Beechwood Litigation*, 1:18-cv-06658-JSR, presided over by the Honorable Jed S. Rakoff, United States District Judge for the Southern District of New York.

39. As of December 31, 2013, SHIP had a total capital and surplus of \$98,201,892 and aggregate reserves for accident and health contracts of over \$2 billion (\$2,753,777,140).

40. SHIP's risk-based capital, or "RBC," has decreased over the past five (5) years by over a thousand points, as detailed in the below table:

Risk Based Capital RBC Ratio, 2014-2018:

Change pts	2018	2017	2016	2015	2014
1,125.6 pts	-909.0%	141.7%	164.0%	160.7%	216.6%

41. RBC is used to determine the minimum capital insurers are required to hold to avoid regulatory intervention by their state of domicile. Insurance regulators commonly use RBC standards to determine the appropriate amount of regulatory intervention for their domestic insurers.

42. The Pennsylvania insurance statutes, as in other states, prescribe four RBC levels with corresponding degrees of regulatory action, progressively increasing in the amount of regulatory control exercised: company action, regulatory action, authorized control and mandatory control. 40 Pa. Stat. Ann. § 221.1-A *et seq.*

43. Company action level is triggered if the RBC ratio is between 200% and 150%, which means that an insurer is required to submit a written plan to improve its RBC ratio. *See* 40 Pa. Stat. Ann §§ 221.1-A & -6A (West).

44. On information and belief, SHIP never filed an RBC Plan as required by 40 Pa. Stat. Ann § 221.6-A after SHIP's RBC reached company action level in 2015, where it remained through 2017. *See* 40 Pa. Stat. Ann. § 221.6-A (West) ("In the event of a company action level event, the insurer shall prepare and submit to the commissioner an RBC plan.")

45. During this period of several years, SHIP should have been subject to enhanced regulatory oversight by Pennsylvania once its total adjusted capital fell below 200% of its authorized control level risk-based capital, which means that, at the very least, SHIP should have been required

to submit a written plan to improve its RBC ratio. *Id.*

46. When SHIP's RBC ratio plummeted to -909.0% as of December 31, 2018, it triggered a mandatory control level event, which should have resulted in SHIP's immediate placement into receivership by Pennsylvania. *See* 40 Pa. Stat. Ann. §§ 221.1-A & -9-A (West).

47. As of December 31, 2013, SHIP had a total capital and surplus of \$98,201,892 and aggregate reserves for accident and health contracts of over \$2 billion (\$2,753,777,140). In the ensuing years, its capital and surplus would drop dramatically from year to year, as shown in the below table:

Capital & Surplus in Thousands (\$), 2014-2018:

Change \$	2018	2017	2016	2015	2014
-546,879	-466,873	12,649	28,023	55,758	80,006

48. Even before 2014, SHIP's capital and surplus decreased significantly from year to year, as reflected in the below table:

Capital & Surplus in Thousands (\$), 2009-2013:

2013	2012	2011	2010	2009
98,202	105,467	114,397	177,315	193,449

49. As indicated above, in its audited financial statement for 2018, SHIP reported year-end 2018 capital and surplus of negative \$466.9 million.

50. In that same filing, SHIP's independent auditor issued a qualified opinion regarding the company's accounting for certain investments in its statutory financial statements and cautioned that the existence of the surplus deficit raises "substantial doubt" about SHIP's ability to continue as a going concern.

51. SHIP has been insolvent since at least December 31, 2018, when it reported a deficit of at least (\$466,872,971.00) as of that date.

52. An insurer's insolvency is grounds for placing it in receivership under Pennsylvania law. 40 Pa. Stat. Ann. §§ 221.14 & 221.19 (West).

53. In its first quarterly financial statement for 2019, SHIP reported a surplus of negative \$481.3 million as of March 31, 2019, incurring a \$13.1 million net loss in that quarter alone.

54. In the first half of 2019, SHIP's financial condition worsened substantially, with its deficit increasing at a rate of approximately \$15,000,000 per quarter to approximately (\$496,240,035) as of June 30, 2019.

55. The Rehabilitator has developed her rehabilitation strategy based on an assumed deficit of (\$813,000,000).

56. SHIP's unaudited 2019 annual financial statement shows a negative capital and surplus as of December 31, 2019 of (\$916,098,229) and the present deficit is likely much larger.

57. By the time SHIP stopped selling new business in 2003, it had 231,000 policies in force; however, by 2008, this number was down to 152,000.

58. Out of 647,000 SHIP LTC policies written or assumed over the past forty-five (45) years, less than 50,000 remain in force, with less than 30,000 policyholders still paying premium. The rest have either terminated or been converted to non-forfeiture option (NFO) policies, offering very limited benefits but requiring no further premium payments, or are on premium waiver for various reasons.

59. Because over 600,000 of the underpriced policies have already lapsed or otherwise stopped generating premium, the lost revenue on these policies due to underpricing can never be recovered and premium can never be increased on approximately ninety-five percent (95%) of the policies SHIP issued, leaving those who hold the policies in force within that remaining five percent (5%) who are still paying premium, or those on waiver required to pay a premium differential, to

make up for that lost revenue.

60. SHIP is licensed in approximately forty-six (46) states, including South Carolina, as well as the District of Columbia and the United States Virgin Islands; however, SHIP's licenses in some of these jurisdictions have been restricted or suspended.

61. At present there are approximately 309 SHIP policyholders residing in South Carolina subject to the proposed rehabilitation plan.

62. Approximately a third of the remaining policies in the United States are in just three states: (1) Texas, with approximately 6,285 policies, or 12 percent (12%) of the total; (2), Florida with approximately 5,649 policies, or eleven percent (11%); and (3) SHIP's state of domicile, Pennsylvania, with approximately 5,135 policies, or ten percent (10%), for a total of thirty-three percent (33%).

63. The states that rank fourth and fifth in total policies, California and Illinois, have approximately 4,228 policies, or eight percent, (8%) and approximately 2,423, or five percent (5%), respectively, meaning that nearly half -- forty-six (46%) -- of all remaining policies are in just five (5) states.

64. The Rehabilitation Order provides that the Rehabilitator shall file a preliminary plan of rehabilitation by April 22, 2020, which shall contain a timeline for the preparation of a final rehabilitation plan with the Commonwealth Court.

65. A preliminary rehabilitation plan was filed on or about April 22, 2020 and a copy provided to the directors and commissioners of insurance in the affected states.

66. The plan is comprised of three phases, and contemplates imposing dramatically large premium rate increases (and/or benefit reductions) on all policies in force nationwide, without first submitting the rate increases and benefit changes to each affected state's regulator for approval and

without regard for any of those states' laws mandating the filing of proposed insurance rates and forms with individual state insurance regulators for their review and approval.

67. Assuming the initial phase is implemented as proposed, it will feature a new rate that, assuming it had been charged from inception, would have produced the greater of the initial target loss ratio or the minimum loss ratio applicable to the policy form, i.e., the "if knew" premium.

68. SHIP will offer policyholders four (4) basic options which would be imposed nationwide and without individual state filing and insurance regulator approval: (1) keep their current premium and have policy benefits reduced if their current premium is less than the "if knew" premium; (2) have their current policy endorsed to provide benefits substantially similar to a newly-designed "Basic Policy" fashioned by the Rehabilitator; (3) elect a non-forfeiture option ("NFO") policy under which the Maximum Benefit Period ("MBP") will be the lesser of 2.5 years and the policy's current MBP; or (4) keep their current benefits and pay the "if knew" premium.

69. The first phase is not subject to a specific timeline; however, it is expected to take at least six months to implement, with evaluation of its effectiveness likely to take place no sooner than after one year.

70. The Rehabilitator anticipates that although most, if not all, policyholders will be asked to pay higher rates or reduce policy benefits in the first phase, some policyholders may not be subject to further rate increases or modifications in the second phase.

71. In the second phase, following evaluation of the impact of phase one, the Rehabilitator proposes to raise rates on certain policyholders to the rate at which the present value of expected premiums plus assets allocated to the policy (on an accumulated premium basis) equals or exceeds the present value of future benefit and expenses, i.e., the "sustaining premium."

72. Policyholders will be presented with the following four options: (1) keep the premium

rate resulting from phase one and reduce benefits to eliminate the policy shortfall; (2) have their current policy endorsed to provide benefits substantially similar to a newly designed "Basic Policy" developed by the Rehabilitator; (3) elect a non-forfeiture ("NFO") option; or (4) maintain the current policy benefits but will be required to pay the "self-sustaining" premium.

73. In neither phase will the new rates and benefits offered to policyholders be submitted to the individual affected states for review and approval in accordance with the laws of each such state. At no time does the rehabilitation plan provide for submission of the new rates and benefits to South Carolina for review and approval in accordance with this State's laws.

74. The final rehabilitation plan will likely contemplate that policyholders in any state that opposes unilateral rate increases will receive fewer options in the first and/or second phase.

75. The third phase will be developed in the future and is intended to conclude the run-off of SHIP's business in force, as modified by the plan. The rehabilitation plan is not designed to create a surplus for SHIP; however, in the "unlikely event" that the plan does produce a surplus, that surplus will be distributed to policyholders, agents and other creditors.

76. Special rules will apply to policyholders on claim or on premium waiver, but they will also be expected to pay more in premium or to reduce their policy benefits; and, the Rehabilitator anticipates that all policyholders will have at least one option that will preserve their benefits at or above applicable guaranty association limits, mostly by adjusting the length of the applicable benefit period.

77. On or about October 21, 2020, the Rehabilitator filed an amended rehabilitation plan with the Commonwealth Court. The amended plan includes a phased in approach similar to the approach described in the original plan. It projects a \$1.2 billion funding gap. In addition, the Amended Plan includes (1) a so-called opt-out process for rate determinations; (2) a new policy

restructuring section; and (3) a liquidation in excess of claims section. The policyholders of states that opt out and do not impose or modify the rates set by the Rehabilitator will have their benefits reduced. If the amended plan is approved, the proposed benefit reductions will not be submitted to the states for review in accordance with state laws. Moreover, the benefit reduction strategy described in the amended plan and will impact policyholder rights when the plan fails and SHIP is eventually placed into liquidation.

78. The Rehabilitator intends to impose rates for use nationwide through approval of the rehabilitation plan by the Commonwealth Court in Pennsylvania, bypassing all other individual state regulator approvals, including in South Carolina, even though LTC insurers are required to comply with all rate and form approval statutes and regulations in each of the states in which they do business.

79. Similarly, the Rehabilitator also proposes to unilaterally reduce benefits nationwide without individual state regulator approval, again through the Commonwealth Court.

80. The Rehabilitator justifies the unilateral imposition of rates and benefit changes nationally in part because she believes obtaining state approval “would insert a lengthy delay in the time-line that would be costly, if not fatal, to the [rehabilitation p]lan,” but offers no reasonable explanation for previous inaction or delay in the face of SHIP’s long history of financial difficulties.

81. The Rehabilitator maintains that policyholders whose policies are in states that have approved more rate increases in the past will face lower premium increases (or benefit reductions) in the plan than those whose state has not done so; and, at the end of the premium adjustment, policyholders in one state will pay the same amount as in another.

82. Over the past decade, SHIP has submitted proposed rate increases to the South Carolina Department of Insurance in 2011, 2012, 2013, 2017, and 2018, all of which were approved

except for 2018, which the Department disapproved in 2019 after it was clear that SHIP was hopelessly insolvent.

83. These prior rate increase approvals notwithstanding, some South Carolina policyholders may face rate increases of well over four hundred percent (400%) in Phase I and additional increases in Phase II.

84. The Rehabilitator acknowledges that the rehabilitation plan places additional burdens on policyholders and is intended to both increase revenue and reduce benefits.

85. The anticipated rate increases, which in some cases will far exceed four hundred fifty percent (450%), alone or in combination with benefit reductions, can reasonably be expected to force unnecessary policy lapses. The revenue from these increases will not fill the \$1.2 billion deficit projected by the Rehabilitator.

GROUND FOR DECLARATORY AND INJUNCTIVE RELIEF

86. Pursuant to S.C. Code Ann. § 38-1-20(25) (2015), “‘Insurance’” means a contract where one undertakes to indemnify another or pay a specified amount upon determinable contingencies. The term ‘insurance’ includes annuities.”

87. Pursuant to S.C. Code Ann. § 38-1-20(25) (2015), “‘Policy’ means a contract of insurance.”

88. Pursuant to S.C. Code Ann. § 38-25-110 (2015), transacting the business of insurance in South Carolina includes (1) making of or proposing to make, as an insurer, an insurance contract; (2) taking or receiving any application for insurance; (3) receiving or collecting premium or other consideration for any insurance; (4) issuing or delivering contracts of insurance to residents of this State or to persons authorized to do business in this State; and (5) “the dissemination of information as to coverage or rates, or forwarding of applications, or delivery of policies or contracts, or . . . a

fixing of rates . . . , or in any other manner representing or assisting . . . in the transaction of insurance with respect to subjects of insurance resident, located, or to be performed in this State.”

89. By, *inter alia*, disseminating information as to coverage or rates, forwarding of applications, or delivering of policies or contracts, fixing proposed rates and in other ways transacting insurance with respect to subjects of insurance resident, located, or to be performed in this South Carolina, SHIP is conducting the business of insurance in this State.

90. With the passage of the McCarran–Ferguson Act, 15 U.S.C. §§ 1011–1015, in 1945, “Congress . . . declare[d] that the continued regulation and taxation by the several States of the business of insurance is in the public interest, and that silence on the part of the Congress shall not be construed to impose any barrier to the regulation or taxation of such business by the several States.”

91. The National Association of Insurance Commissioners (NAIC), is the U.S. standard-setting and regulatory support organization created and governed by the chief insurance regulators of the fifty (50) states, the District of Columbia, and five (5) U.S. territories. The members of the NAIC, together with the central resources of the NAIC, form the national system of state-based insurance regulation in the United States.

92. “The primary state insurance regulatory functions remain as they have been since the enactment of [the] McCarran-Ferguson [Act]. This allows . . . states to perform solvency oversight of the U.S. insurance industry and to regulate insurer behavior in the marketplace.” *State Insurance Regulation*, National Association of Insurance Commissioners (NAIC), Center for Insurance Policy and Research (CIPR) (2011), https://www.naic.org/documents/topics_white_paper_hist_ins_reg.pdf.

93. “State legislatures are the public policymakers that establish . . . broad policy for the regulation of insurance by enacting legislation providing the regulatory framework under which

insurance regulators operate. They establish laws which grant regulatory authority to regulators and oversee state insurance departments and approve regulatory budgets.” *Id.*

94. “State insurance regulatory systems are accessible and accountable to the public and sensitive to local social and economic conditions. State regulation has proven that it effectively protects consumers and ensures that promises made by insurers are kept. Insurance regulation is structured around several key functions, including insurer licensing, producer licensing, product regulation, market conduct, financial regulation and consumer services.” *Id.*

95. “State regulators protect consumers by ensuring that insurance policy provisions comply with state law, are reasonable and fair, and do not contain major gaps in coverage that might be misunderstood by consumers and leave them unprotected. The nature of the regulatory reviews of rates, rating rules and policy forms varies somewhat among the states depending on their laws and regulations.” *Id.*

96. In 1969, the NAIC adopted Wisconsin’s Rehabilitation and Liquidation Act -- Wis. Stat. Ann. Ch. 645 (1967) -- as the NAIC model law (the “Wisconsin Model”). *See* Proc. of the Nat’l Assn of Ins. Comm’rs, 1969 vol. I at 168, 241 and 271. The Wisconsin statute and comments were adopted in full by the NAIC in 1968, thereby providing great insight into the rationale for provisions of the Model. *Id.* *See also* Brief of Amicus Curiae National Association of Insurance Commissioners in Support of Appellant at 6, *In Re: Penn Treaty Network America Insurance Company in Rehabilitation*, Docket No. 94 MAP (Pa. 2012)

97. The Pennsylvania Receivership Laws (40 Pa. Stat. Ann §§ 221.1 *et seq.*) were based on the Wisconsin Model. *See Koken v. Reliance Ins. Co.*, 893 A.2d 70, 84 (Pa. 2006). Indeed, the Wisconsin model was the “blueprint for the Pennsylvania statute.” *Id.* *See also* Brief of Amicus Curiae NAIC at 6.

98. The NAIC's model laws for receiverships have evolved over time into a comprehensive statutory scheme to govern the rehabilitation or liquidation of an insolvent insurer, and uniformity in the interpretation of the various state receivership laws and consistency in the application of these laws are important NAIC concerns. Brief of Amicus Curiae NAIC at 6-7.

99. "'Following a relatively uncommon though not entirely unprecedented procedure, the Wisconsin legislature enacted S. 303 of 1967 as chapter 89, Laws of 1967, including in the bill and in the session laws not only the statutory language but also the comments of the Insurance Laws Revision Committee.' See Wisconsin Model, Introductory Comment to Wis. Stat. Ann. Ch. 645 (1967)." Brief of Amicus Curiae NAIC at 6 n.5.

100. The comments describe the Wisconsin Model as "mak[ing] a more realistic and careful designation of the status of the rehabilitator than does the Uniform Insurers Liquidation Act [U.L.A.]. That Act contemplates different categories of receivers but does not adequately distinguish among them. For example, it transfers title to all receivers indiscriminately. However, *in a rehabilitation proceeding, the rehabilitator is, in effect, simply the new management of the company* and title remains and should remain in the company. From s. 645.33(2) *he gets all the powers of management*. If the Uniform Act were followed at this point, the first sentence of sub. (1) would be followed by the sentences that now appear as the 2nd and 3rd sentences in s. 645.42(1), applying to liquidators. *But this chapter distinguishes between the 2 main classes of receivers in accordance with their disparate functions.*" Rehabilitation orders, Wis. Stat. Ann. § 645.32, *Comments* (italics supplied.)

101. The Wisconsin Model recognizes that "[w]hat is needed for rehabilitation of an insurance company is *new management* with the capacity to see what is wrong and the power to correct it. . . . *Conceptually [the rehabilitator] should be treated as new management with especially*

broad powers, including . . . formal legal reorganizational devices that have heretofore been the focus of rehabilitation but that should normally be subordinated in the future to the larger *management task*. Ch. 645, Refs & Annos, Wis. Stat. Ann., Refs & Annos. (italics supplied.); *See also* Wis. Stat. Ann. Ch. 645, Subch. II, Refs & Annos.

102. The South Carolina General Assembly also adopted the “Wisconsin Model,” with Act No. 384 of 1982. *See generally* Insurers Rehabilitation and Liquidation Act, S.C. Code Ann. §§ 38-27-10 *et seq.*

103. Although “liquidation” contemplates the end of corporate existence, “rehabilitation” involves the continuance of corporate life and activities and is an effort to restore and reinstate the corporation to its former condition of successful operation and solvency. *Smalls v. Weed*, 293 S.C. 364, 360 S.E.2d 531 (Ct. App. 1987).

104. The Insurers Rehabilitation and Liquidation Act “provides for one procedure in actions involving a rehabilitator, and for a different procedure against a liquidator.” *Id.*

105. Another state’s rehabilitation proceedings do not grant that state jurisdiction over “the whole field.” *See id.*

106. Although the Pennsylvania Commonwealth Court exercises in rem jurisdiction in the rehabilitation proceedings, the res over which that jurisdiction is exercised is the corporation itself, the fictitious entity, not all of the corporation’s property for all purposes and certainly not the rights of all persons wherever situated.

107. The Commonwealth Court may not, simply by reason of the in rem nature of the Pennsylvania rehabilitation proceedings, adjudicate the rights of South Carolina policyholders and claimants who are neither parties in the Pennsylvania proceedings nor subject to the jurisdiction of the Commonwealth Court.

108. South Carolina need not grant full faith and credit to a judgment rendered in another state unless that state had jurisdiction to render the judgment: “Before a court is bound by the judgment rendered in another State, it may inquire into the jurisdictional basis of the foreign court’s decree” and “[i]f that court did not have jurisdiction over the subject matter or the relevant parties, full faith and credit need not be given.” *Underwriters Nat’l Assurance Co. v. N.C. Life & Accident & Health Ins. Guar. Ass’n.*, 455 U.S. 691, 705 (1982).

109. The Commonwealth Court has no jurisdiction to grant the Rehabilitator any power or authority except in accordance with the Pennsylvania iteration of the Wisconsin Model, 40 Pa. Stat. Ann. §§ 221.1 *et seq.*

110. The constitutional command of full faith and credit does not compel South Carolina to defer to a Pennsylvania court’s exercise of jurisdiction where the issue was neither fully and fairly litigated nor involved the same parties as the Pennsylvania litigation.

111. Regardless, the “full faith and credit clause does not require one state to substitute for its own statute, applicable to persons and events within it, the conflicting statute of another state.” *Pacific Employers Ins. Co. v. Indus. Accident Comm’n*, 306 U.S. 493, 502 (1939).

112. Although the purpose of the full faith and credit clause is “to preserve rights acquired or confirmed under the public acts and judicial proceedings of one state by requiring recognition of their validity in other states, the very nature of the federal union of states, to which are reserved some of the attributes of sovereignty, precludes resort to the full faith and credit clause as the means for compelling a state to substitute the statutes of other states for its own statutes dealing with a subject matter concerning which it is competent to legislate.” *Pacific Employers*, 306 U.S. at 501; *see also Alaska Packers Ass’n v. Indus. Accident Comm’n*, 294 U.S. 532, 547 (1935).

113. “Every legislature, however broad may be its enactments, is supposed to confine them

to cases or persons within the reach of its sovereignty. . . . It cannot be presumed, that the . . . legislature mean[s] to exceed its legitimate authority.” *Farnum v. Blackstone Canal Corp.*, 8 F. Cas. 1059, 1065 (C.C.D.R.I. 1830).

114. “It is a familiar elementary principle that the laws of a state have no extraterritorial effect. And it is not necessary for a state statute to contain words expressly confining its operation within the state. That it is so confined is generally understood.” *Grover Irrigation & Land Co. v. Lovella Ditch, Reservoir & Irrigation Co.*, 21 Wyo. 204, 131 P. 43 (1913).

115. The South Carolina General Assembly has properly delegated regulatory authority under the the McCarran-Ferguson Act, 15 U.S.C. §§ 1011-1015, to the Department prescribing and approving detailed and extensive statutes and regulations governing LTC policies and rates, including provisions for the approval of policies and rates by the Department. S.C. Code Ann. §§ 38-72-10 *et seq.*; S.C. Code Regs. § 69-44.

116. The public policy of this State is that because the authority to determine what insurance premium rates are just and reasonable is vested in the Department, courts should not adjudicate what a reasonable rate might be in a collateral proceeding. *Cf. Temporary Services, Inc. v. American Intern. Group, Inc.*, 388 S.C. 348, 351, 697 S.E.2d 527, 529 (2010); § 2:34. Rates—Judicial review, 1 Couch on Ins. § 2:34 (“Ratemaking is generally not a judicial function. Indeed, many jurisdictions have adopted the filed rate doctrine which expressly prohibits courts from imposing rates different than those approved by the state insurance department.”)

117. Protecting the authority of the Department to regulate insurance rates from an action in the court of another jurisdiction furthers the important policy objectives of (1) preserving the agency’s authority to determine the reasonableness of rates; (2) recognizing that agencies have expertise with regard to the industry they regulate, whereas courts do not; (3) allowing an action in

court would undermine the regulatory scheme because the statute allows for enforcement by the appropriate state officers; and (4) recognizing such an action would result in disparate treatment of long term care policyholders in this State between (a) those who enjoy the full protection of Department review under the standards of South Carolina law governing insurance rates, namely, that the rate is reasonable and not excessive, inadequate, or unfairly discriminatory, and (b) those whose rates are determined in a court of a foreign jurisdiction in a scheme to run off remaining policies by forcing premium increases, reduced benefits and/or policy lapses.

118. “Due to its complexity as well as to the determination of the legislature, rate-making is left to the discretion of the insurance commissioner who is a specialist in the field and upon whose expertise [the courts] must rely.” *Ins. Serv. Office v. Whaland*, 378 A.2d 743, 746 (N.H. 1977) (citing *Travelers Indem. Co. v. Williams*, 190 So.2d 27, 29 (Fla. Dist. Ct. App. 1966) and *Maryland Fire Underwriters Rating Bureau v. Ins. Comm’r*, 260 Md. 258, 272 A.2d 24 (1971)). *See also Mass. Auto Rating Accident Prevention Bureau v. Comm’r of Ins.*, 453 N.E.2d 381, 385, 395 (Mass. 1983) (finding courts give “due weight to the Commissioner’s experience, technical competence, and specialized knowledge as well as the discretionary authority vested in the Commissioner by the Legislature” and that the “essentially legislative process of rate making” must not be “usurped” in the guise of independent review).

119. An insurer’s use of nationwide data in support of its filing as opposed to information giving proper regard to local conditions in the state in which the increase is sought is legally sufficient grounds to deny a proposed rate increase. *See, e.g., Whaland*, 378 A.2d at 746-747.

120. The rehabilitation plan is contrary to law and therefore unenforceable.

121. By seeking to impose unilateral and nationwide premium increases and changes in benefits outlined in the terms of policies without filing them for review and approval by the

Plaintiffs Director and Department, in contravention of South Carolina law, the rehabilitation plan exceeds Defendants' lawful authority in that:

a. Defendants Rehabilitator and SDR have only those powers conferred upon them by 40 Pa. Stat. Ann. §§ 221.1 *et seq.*, which are limited and equivalent to those of new management, and they and insurance companies in rehabilitation, including SHIP, must therefore obey the insurance laws of each the states in which they conduct the business of insurance.

b. Defendants have no power, with or without the assistance of the Commonwealth Court, to breach insurance contracts with South Carolina policyholders or to unilaterally change the express and implied terms of or the agreed-upon consideration for such contracts.

c. Defendants have no power, without or without the assistance of the Commonwealth Court, to compel the Director or the Department to ignore or disobey the written directives of the South Carolina General Assembly regarding the regulation of the business of insurance in violation of the constitution and laws of South Carolina or to otherwise impose or allow to be imposed unapproved rates or benefit changes on South Carolina citizens.

d. Neither 40 Pa. Stat. Ann. §§ 221.1 *et seq.*, orders and proceedings under those laws, reciprocity, nor full faith and credit supersede or nullify the constitution and laws of South Carolina, nor do they command that South Carolina implement or accede to measures in conflict with its laws.

e. Neither 40 Pa. Stat. Ann. §§ 221.1 *et seq.*, orders and proceedings under those laws, reciprocity, nor full faith and credit permit Defendants to avoid, impair, jeopardize, violate, extinguish or otherwise prejudice policyholders' rights under contract or South Carolina law.

122. The amended rehabilitation plan that Defendants filed on or about October 21, 2020 included "a new mechanism to address concerns expressed by certain [state] regulators about premium rates being set under the Plan and not by them." Notice of Filing of Amended

Rehabilitation Plan.

123. In the amended plan, the Rehabilitator relates an alternative under which “the insurance department of [a state] will make the rate increase determinations . . . and the benefits under the Plan will be adjusted to correspond to the premium rates approved by [that] state.”

124. Under this mechanism, “if the chief insurance regulator . . . of an issue-state formally advises the Rehabilitator that his or her state elects to “opt-out” of the rate increase component of the Proposed Rehabilitation Plan, the Plan would not apply in the same way to the policies issued in that state.” The Rehabilitator would then file with the opt-out state a request for approval of the full rate increase contemplated under the plan, and the “opt-out state’s decision as to the requested rate increases would govern the choices available to the holders of opt-out policies.”

125. “If the opt-out state timely approves the requested rate increases in full, it will be treated as if it had not opted out of the Plan and its policyholders will be included in the Plan just as those issued in non-opt-out states”; however, if “the opt-out state does not timely approve the full rate increase sought by the Rehabilitator, the policies issued in that state will be deemed opt-out policies subject to” modifications of benefits to be determined by the Rehabilitator.

126. This amendment does not does not correct the fundamental defects of the original plan in that (1) the Rehabilitator still attempts to exercise power she does not possess, in effect attempting to delegate that *illusory* power to any state that agrees with her rates, and discriminating against policyholders in any state that does not do her bidding and (2) it erroneously presumes that the Rehabilitator has the power to unilaterally alter policy benefits without the approval of state regulators.

127. The orders of the Commonwealth Court supervising the rehabilitation proceedings are not binding on persons over which it does not have jurisdiction and who are not parties to the

Pennsylvania insurance company receivership proceedings, including South Carolina policyholders.

128. The orders of the Commonwealth Court supervising the rehabilitation proceedings are not entitled to full faith and credit in South Carolina.

129. Neither 40 Pa. Stat. Ann. §§ 221.1, orders and proceedings under those laws, reciprocity, nor full faith and credit impair in any manner the power of the South Carolina General Assembly to regulate the business of insurance in South Carolina, including its authority regarding the setting of insurance rates and approval of policy forms.

130. By treating differently policyholders in states where rate approval is required by statute and by treating policyholders differently based on a state's rate approval history, as well as creating a class of LTC policyholders in South Carolina who are deprived of the protection of this State's rate and form approval laws afforded holders of LTC policies issued by other insurers, the rehabilitation plan violates SHIP policyholders' constitutional rights to equal protection under the law.

131. By unreasonably and unnecessarily delaying receivership proceedings and incurring the unnecessary expenses of a legally invalid and unenforceable rehabilitation plan, the Defendants have wasted and continue to waste the limited assets of the insurer, further prejudicing the rights of policyholders and others in South Carolina.

FOR A FIRST CAUSE OF ACTION

(Declaratory Judgment—Against All Defendants)

132. Plaintiffs reallege and incorporate by reference as if set forth in full at this point, each and every allegation contained in paragraphs 1 through 131 of this Complaint.

133. Plaintiffs seek a declaration that the rehabilitation plan is invalid and unenforceable to the extent it seeks to bypass, impede, supersede, diminish or interfere in any manner with the State

of South Carolina's regulatory authority over changes to the terms of policies and review and approval of insurance rates and forms or to impose unauthorized changes to policies and rates in violation of the rights of South Carolina policyholders.

FOR A SECOND CAUSE OF ACTION

(Permanent Injunctive Relief—Against All Defendants)

134. Plaintiffs reallege and incorporate by reference as if set forth in full at this point, each and every allegation contained in paragraphs 1 through 133 of this Complaint.

135. Plaintiffs seek an order permanently enjoining the enforcement or implementation of any order of the Commonwealth Court or any plan or directive of the Defendants that purports to bypass, impede, supersede, diminish or interfere in any manner with the State of South Carolina's regulatory authority over changes to the terms of policies and review and approval of insurance rates in this State, and further enjoining Defendants from communicating in any form or manner with South Carolina policyholders regarding proposed changes to policy terms or rates without prior written approval by the State of South Carolina.

136. Plaintiffs also respectfully request that said order provide that violation of the injunction may subject the Defendants not only to appropriate action of the Court but to assessment by the Department of administrative fines against SHIP and suspension or revocation of SHIP's license as provided by the Insurance Law, S.C. Code Ann. § 38-1-10 *et seq.*

WHEREFORE, Plaintiffs respectfully pray the Court for an order declaring that the rehabilitation plan is invalid and unenforceable in this State and enjoining Defendants from implementing or enforcing the rehabilitation plan, otherwise interfering with the rights of SHIP policyholders in South Carolina or similarly violating the insurance laws of this State pertaining to long term care insurance.

**DEFENDANTS' MOTION TO
DISMISS THE COMPLAINT**

Defendants Jessica K. Altman, as Rehabilitator (the “Rehabilitator”) of Senior Health Insurance Company of Pennsylvania (“SHIP”), Patrick H. Cantilo, as Special Deputy Rehabilitator (the “Special Deputy Rehabilitator”) of SHIP, and SHIP (collectively “Defendants”) move to dismiss the Complaint filed by Plaintiffs Raymond G. Farmer, as Director of the South Carolina Department of Insurance (“Director Farmer”), and the South Carolina Department of Insurance (the “South Carolina Department”) (collectively, “Plaintiffs”). For the reasons set forth in the attached Memorandum of Law in Support of this Motion, the Complaint should be dismissed for lack of subject matter jurisdiction under Rule 12(b)(1), for lack of personal jurisdiction under Rule 12(b)(2), for failure to state facts sufficient to constitute a cause of action under Rule 12(b)(6), and under Rule 12(b)(8) because another action is pending between the same parties for the same claims.

WHEREFORE, Defendants respectfully pray, based on the foregoing, the attached Memorandum of Law in Support of this Motion, and the accompanying exhibits, that this Motion to Dismiss the Complaint be granted and that Plaintiffs' claims be dismissed with prejudice.

Respectfully submitted,

**MEMORANDUM OF LAW IN
SUPPORT OF DEFENDANTS'
MOTION TO DISMISS THE
COMPLAINT**

Defendants Jessica K. Altman, as Rehabilitator (the “Rehabilitator”) of Senior Health Insurance Company of Pennsylvania (“SHIP”), Patrick H. Cantilo, as Special Deputy Rehabilitator (the “Special Deputy Rehabilitator”) of SHIP, and SHIP (collectively “Defendants”) submit this Memorandum of Law in support of their Motion to Dismiss the Complaint filed by Plaintiffs Raymond G. Farmer, as Director of the South Carolina Department of Insurance (“Director Farmer”), and the South Carolina Department of Insurance (the “South Carolina Department”) (collectively, “Plaintiffs”).

I. INTRODUCTION

Director Farmer and the South Carolina Department commenced this action seeking to have a South Carolina state court interject in—and derail—a Pennsylvania state court proceeding in which the Commonwealth Court of Pennsylvania (the “Rehabilitation Court”) appointed Jessica K. Altman,

the Insurance Commissioner of the Commonwealth of Pennsylvania, as Rehabilitator of SHIP, a Pennsylvania insurance company. The Rehabilitation proceeding is governed by a comprehensive statutory scheme enacted by the Pennsylvania General Assembly, similar to a corresponding statutory scheme adopted in South Carolina. Pennsylvania's framework recognizes that the interests of policyholders, creditors, and the general public are best served by consolidated proceedings and exclusive jurisdiction in the Commonwealth Court of Pennsylvania because SHIP is domiciled in Pennsylvania and is regulated by the Pennsylvania Insurance Department ("PID"). South Carolina's corresponding statutory scheme is founded on these same principles, granting South Carolina courts exclusive jurisdiction to conduct rehabilitation proceedings of insolvent insurers domiciled in South Carolina.

The Rehabilitation proceedings are ongoing in the Commonwealth Court of Pennsylvania, and the substance and implementation of any final rehabilitation plan remain to be determined by the Pennsylvania court. All interested persons have been afforded several means of expressing their views in the Commonwealth Court of Pennsylvania, including, among other parties, three state insurance regulators who were granted intervention to participate as parties. The Rehabilitator has carefully considered the views expressed by all persons interested in SHIP's rehabilitation, including Plaintiffs, who submitted comments to the rehabilitation plan and a letter fully supporting the legal arguments made by the three intervening state insurance regulators. In fact, in response to concerns raised by regulators of other states, including by the three intervening state insurance regulators, the Rehabilitator has already amended her proposed plan for rehabilitating SHIP significantly. Recently, in May 2021, the Commonwealth Court of Pennsylvania held a week-long evidentiary hearing regarding SHIP's Rehabilitation Plan, and it is now poised to issue its ruling on the very legal issues raised by Plaintiffs in the Complaint.

Plaintiffs recognize the Commonwealth Court of Pennsylvania’s jurisdiction to oversee the rehabilitation but elected not to seek to participate as a party in the Rehabilitation proceedings. Instead, Plaintiffs have chosen to engage in forum shopping and commence a collateral attack in South Carolina aiming to enjoin the Commonwealth Court of Pennsylvania preemptively from exercising its exclusive jurisdiction and preventing it from even considering aspects of the proposed rehabilitation—notwithstanding that the Commonwealth Court conducted a five-day hearing on the plan and that any final approved plan remains subject to change in that court. Indeed, as the Complaint recognizes, the rehabilitation plan has already been substantively amended.

As developed more fully below, this case should be dismissed because South Carolina’s own statute governing rehabilitation proceedings of insolvent insurers prohibits this Court from interfering in the rehabilitation proceedings of another state. Moreover, Plaintiffs seek redress for a speculative injury that has not occurred and may never occur, and the Complaint suffers from several other fatal infirmities, each of which provides grounds for dismissal.

II. FACTUAL BACKGROUND

Defendants accept the facts alleged in the Complaint as true to the extent required by Rule 12. Although the Complaint repeatedly references and quotes from the Commonwealth Court of Pennsylvania’s orders and filings in the Rehabilitation proceedings, Plaintiffs fail to attach any of the documents as exhibits to the Complaint. Notwithstanding, because these documents are referenced in the Complaint and are properly subject to judicial notice, this Court may consider them in resolving the motion to dismiss. *See Brazell v. Windsor*, 682 S.E.2d 824, 826 (S.C. 2009) (trial court may properly “consider documents that are incorporated by reference in the complaint but not actually attached thereto” in order to prevent a plaintiff “from surviving a motion to dismiss by intentionally omitting documents upon which their claims are based”); S.C. R. Evid. 201 (b) (“A judicially noticed fact must be one not subject to reasonable dispute,” such that it is “capable of

accurate and ready determination by resort to sources whose accuracy cannot reasonably be questioned”); *Sloan v. Greenville Cty.*, 670 S.E.2d 663, 668 (S.C. Ct. App. 2009) (taking judicial notice of own docket); *Palmetto Homes, Inc. v. Bradley*, 593 S.E.2d 480, 483 n.3 (S.C. Ct. App. 2004) (taking judicial notice of AAA rules). Additionally, the Court may also consider evidence outside the pleadings because this is a motion to dismiss for lack of jurisdiction. *See Baird v. Charleston Cty.*, 511 S.E.2d 69, 74 (S.C. 1999) (considering evidence outside of pleadings on motion to dismiss for lack of jurisdiction “does not convert the motion to dismiss into one for summary judgment”). Accordingly, Defendants have attached the relevant documents from the Rehabilitation proceedings as exhibits and refer to them throughout.

A. SHIP is an Insolvent Insurer in Rehabilitation Proceedings in Pennsylvania

SHIP is a long-term care insurance (“LTCI”) company organized under the laws of the Commonwealth of Pennsylvania. Compl. ¶¶ 5–8; SHIP’S October 21, 2020 Amended Rehabilitation Plan (the “Amended Plan”), attached hereto as **Exhibit A**, at 76; SHIP’s May 3, 2021 Second Amended Rehabilitation Plan (the “Second Amended Plan”), attached hereto as **Exhibit B**, at 81.¹ Since 2003, the focus of SHIP’s business has been running off its LTCI business until there are no policies remaining. Compl. ¶¶ 8, 57; Ex. A, Amended Plan at 76–77, and Ex. B, Second Amended Plan at 81–82. As SHIP’s domiciliary regulator, PID is responsible for regulating SHIP’s affairs and monitoring its financial condition. Ex. A, Amended Plan at 84, and Ex. B, Second Amended Plan at 89; *see* Compl. 42–46, 52; 40 P.S. §§ 41–61, 221.1, 221.2-A, 323.3; 991.1101–991.1115.

¹ As explained below, a Second Amended Rehabilitation Plan was filed after Plaintiffs commenced this action. The changes from the Amended Plan to the Second Amended Plan are summarized in an appendix in the Second Amended Plan. Ex. B, Second Amended Plan at 132–33. These changes are not material for purposes of resolving this Motion to Dismiss. Nevertheless, the Second Amended Plan is now the operative proposed plan being considered for approval by the Commonwealth Court of Pennsylvania. Defendants include citations to both the Amended Plan referenced in the Complaint and the corresponding citations in the Second Amended Plan for the Court’s convenience.

On January 29, 2020, as a result of its long financial decline, the Commonwealth Court placed SHIP in rehabilitation under the Pennsylvania Insurance Department Act, 40 P.S. §§ 221.1–221.63 (“PID Act”). January 29, 2020 Order of Rehabilitation (the “Rehabilitation Order”), attached hereto as **Exhibit C**; see Compl. ¶¶ 3, 47–56, 64. The PID Act is a “comprehensive statutory scheme for the rehabilitation and liquidation of insolvent insurance companies.” *Koken v. Reliance Ins. Co.*, 893 A.2d 70, 83 (Pa. 2006); accord *Harleysville Mut. Ins. Co. v. Reliance Nat. Ins. Co.*, 256 F. Supp. 2d 421, 423 (M.D.N.C. 2003) (“[I]t is clear [that] Pennsylvania has in place a comprehensive scheme for liquidating insolvent state-chartered insurance carriers.”). Rehabilitation proceedings are designed “to protect the interests of insureds, creditors, and the public generally,” and the PID Act establishes the Commonwealth Court of Pennsylvania as the exclusive forum for judicial review of the Rehabilitation proceedings. *Foster v. Mut. Fire, Marine & Inland Ins. Co.*, 614 A.2d 1086, 1091 (Pa. 1992) (internal quotation omitted); 40 PS. §§ 221.4–221.5; accord *FBT Bancshares, Inc. v. Mut. Fire, Marine, & Inland Ins. Co.*, No. CIV. A. 95-1702, 1995 WL 599039, at *4 (E.D. La. Oct. 11, 1995); see also 42 P.S. § 761(a)(3) (providing that the Commonwealth Court of Pennsylvania shall have original jurisdiction over all proceedings arising under the PID Act); *id.* § 761(b) (recognizing that the Commonwealth Court of Pennsylvania’s jurisdiction is generally exclusive); 40 P.S. § 221.16(d) (in accordance with the above provisions, the Commonwealth Court of Pennsylvania has original and exclusive jurisdiction to determine whether to approve, disapprove, or modify a proposed rehabilitation plan).

As Insurance Commissioner for Pennsylvania, Defendant Jessica Altman acts as Rehabilitator for SHIP and other insolvent Pennsylvania insurers by “tak[ing] possession of the assets of the insurer” and “administer[ing] them under orders of the [Commonwealth Court of Pennsylvania].” 40 P.S. § 221.15(c). The Rehabilitator is granted broad powers to effectuate equitably the intent of rehabilitation—that is, “to minimize the harm to *all* affected parties”—under the PID Act. *Foster*,

614 A.2d at 1094 (emphasis in original). The PID Act further provides that the Rehabilitator “may appoint a special deputy who shall have all the powers of the rehabilitator” granted under the Act. 40 P.S. § 221.16. Defendant Patrick H. Cantilo was duly appointed as Special Deputy Rehabilitator pursuant to this authority. Compl. ¶ 4; Ex. C, Rehabilitation Order, ¶ 14.

B. The Proposed Plan to Rehabilitate SHIP is Not Final and Remains Under the Consideration and Supervision of the Commonwealth Court of Pennsylvania

The Rehabilitator is afforded broad powers, but she cannot act unilaterally to implement a plan. After an insurer is placed in rehabilitation, the Rehabilitator is required to “design[] a plan of rehabilitation [that] must be submitted to the Commonwealth Court for approval in order that it may have efficacy.” *Foster*, 614 A.2d at 1091; *see* 40 P.S. § 221.16(d). Importantly, “the Commonwealth Court is authorized to ‘approve or disapprove the plan of rehabilitation proposed, or may modify it and approve it as modified. If it is approved, the rehabilitator shall carry out the plan.’” *Foster*, 614 A.2d at 1091 (*quoting* 40 P.S. § 221.16(d)) (brackets omitted). After a proposed plan is approved by the Commonwealth Court of Pennsylvania, the Rehabilitator is charged to “take such action as she deems necessary or expedient to correct the condition or conditions which constituted the grounds for the order of the court to rehabilitate the insurer.” *Id.* (*quoting* 40 P.S. § 221.16(b)) (brackets omitted). Even after approval, however, the Rehabilitator and the Commonwealth Court of Pennsylvania “are obligated to interact in order to supervise, implement and regulate equitably the process engaged to rehabilitate an insolvent or financially hazardous insurer.” *Id.* Thus, plan approval and implementation remain in the jurisdiction of the Commonwealth Court of Pennsylvania and within its supervision throughout the proceedings.

C. Plaintiffs Chose Not to Participate Fully in the Rehabilitation Proceedings

On June 12, 2020, the Commonwealth Court of Pennsylvania ordered that any interested party could offer input on any proposed rehabilitation plans by submitting an Informal Comment or by filing a Formal Comment. *See* June 12, 2020 Case Management Order, attached hereto as **Exhibit**

D, ¶¶ 7–8. The state insurance regulators of Maine, Maryland, Massachusetts, Washington, and Wisconsin submitted Formal Comments in accordance with the Court’s Order. *See* Commonwealth Court of Pennsylvania Docket, attached hereto as **Exhibit E**, at 28, 30. In that same Order, the Commonwealth Court directed that any party wishing to participate in discovery, or to call witnesses or introduce exhibits at any hearing on the proposed plans, could seek to intervene. *Ex. D*, ¶ 9. The state insurance regulators of Maine, Massachusetts, and Washington obtained leave to intervene. *See* Sep. 18, 2020 Order, attached hereto as **Exhibit F**. As discussed above, the intervening state insurance regulators participated in the week-long evidentiary hearing, and have submitted numerous pre-hearing and post-hearing briefs in challenging the very same provisions in the Rehabilitation Plan that Plaintiffs raise in their Complaint.

Plaintiffs have also participated in SHIP’s rehabilitation proceeding—although they intentionally have chosen not to fully participate as parties. First, Plaintiffs submitted separate comments opposing both the Initial Rehabilitation Plan and the Amended Plan. *See* September 15, 2020 Comments Opposing the Application for Approval of the Plan of Rehabilitation for SHIP, attached hereto as **Exhibit G**, and November 30, 2020 Informal Comments Opposing the Application for Approval of the Amended Plan of Rehabilitation for SHIP, attached hereto as **Exhibit H**. Moreover, Plaintiffs submitted a letter “fully support[ing] the positions taken by the intervening state insurance regulators” in the Pre-Hearing Memorandum filed in the Commonwealth Court of Pennsylvania. *See* April 1, 2021 Letter from South Carolina Department, attached hereto as **Exhibit I**, at 2.

As noted above, Plaintiffs elected not to participate in SHIP’s rehabilitation as an intervening party, unlike the intervening state insurance regulators. That is not surprising, given that Plaintiffs fully supported the legal arguments made by the intervening state insurance regulators—which include the very same claims and arguments raised in Plaintiffs’ Complaint. Instead, Plaintiffs

commenced a collateral attack on December 10, 2020 by filing suit in this Court—nearly a year after SHIP’s Rehabilitation proceedings began in the Commonwealth Court of Pennsylvania—asking this Court to intervene and issue declaratory and injunctive relief that would upend SHIP’s rehabilitation. Specifically, Plaintiffs seek to prospectively preclude the Rehabilitator and Commonwealth Court of Pennsylvania from implementing—or even considering—a national plan for the rehabilitation of SHIP because it violates their view of South Carolina law, and seek to enjoin Defendants from communicating with South Carolina policyholders about such a plan.² Plaintiffs request such extraordinary relief notwithstanding that, at present, no final approved plan of rehabilitation exists, no rehabilitation plan has been implemented—and even a timeline for these events remains uncertain.

Believing it the most expeditious means to resolve the jurisdictional conflict created by Plaintiff’s complaint, Defendants timely removed the South Carolina state action to federal court and asked that Court to abstain or dismiss in deference to the pending Pennsylvania proceeding consistent with applicable federal authorities. On July 29, 2021, the federal district court instead remanded the matter to this Court, finding that the federal court “necessarily lacks original jurisdiction over a case over which the Commonwealth Court of Pennsylvania has exclusive jurisdiction.” *Farmer v. Altman*, No. CV 3:21-00097-MGL, 2021 WL 3223114, at *3 (D.S.C. July 29, 2021).

D. As Amended, the Proposed Plan Puts State Insurance Regulators in Control of Rate Increases Applied to Policies Issued in their States

The Rehabilitation Order entered on January 29, 2020, directed the Rehabilitator to “prepare a plan of rehabilitation” for the Commonwealth Court’s review and approval. Ex. C, Rehabilitation Order, ¶ 7. The Rehabilitator filed an initial Proposed Plan of Rehabilitation for SHIP in the

² It should be noted as well that Plaintiffs seek such an order as to policies held by South Carolina residents while their rate regulatory authority is typically exercised as to policies issued in South Carolina, wherever their holders may reside. Policies held by South Carolina residents but issued in other states are, in the absence of delinquency proceedings, typically rate-regulated by the states in which they were issued. Conversely, in the absence of delinquency proceedings, South Carolina would typically regulate the rates of policies issued in that state, wherever their holders might reside.

Commonwealth Court on April 22, 2020. Compl. ¶ 65; the “Initial Plan,” attached hereto as **Exhibit J**. An Amended Plan addressing, *inter alia*, the issue at the heart of Plaintiffs’ complaint was filed on October 21, 2020. *See* Compl. ¶ 77. A Second Amended Plan preserving that approach was filed on May 3, 2021, after Plaintiffs commenced this action. The Rehabilitation Plans describe a number of proposed measures to increase revenues and reduce the liabilities of SHIP, so as to narrow or eliminate a “funding gap” of more than \$1 billion. *See* Compl. ¶¶ 54–56, 66–77; Ex. A, Amended Plan at 81–82, and Ex. B, Second Amended Plan at 86–87. Of relevance here, as a condition of continuing to receive LTCI coverage from SHIP, the Initial Plan proposed that most policyholders choose from among several options to modify policy premiums or benefits so that SHIP’s LTCI policies may be properly priced prospectively. Compl. ¶¶ 15, 66–76. To achieve this goal, the Initial Plan contemplated that policy rate and benefit modifications be approved exclusively by the Commonwealth Court, and not by regulators in the states in which the policies had been issued (“issue-states”). *Id.* ¶¶ 77–78.

The Second Amended Plan (like the Amended Plan) addressed the concern of those states which prefer that policyholders not be required to accept a permanent increase in premium rates without issue-state approval. In that instance, an issue-state’s chief insurance regulator, such as Director Farmer, may formally elect to retain the right to approve premium rate increase requests. *Id.* ¶¶ 77, 123–25; Ex. A, Amended Plan at 102, and Ex. B, Second Amended Plan at 108. By doing so, the issue-state insurance regulator preserves its ability to approve or reject Plan rate modifications, and may elect to authorize only a partial increase in premium rates—or opt-out of any rate increases altogether. *Id.* Policyholders in that state would then have different options in lieu of a premium rate increase, such as to downgrade policy benefits. Ex. A, Amended Plan at 102–104, and Ex. B, Second Amended Plan at 108–10. These options, however, are structured so as to reduce or eliminate subsidization of those policies by other policyholders paying premiums set in accordance with the

Rehabilitation Plan. Thus, under the Rehabilitation Plan, no premium rate increase can be applied without the approval of the issuing state's chief state insurance regulator, who acts by (a) participating in the plan or (b) opting out and approving the rates directly. Through the opt-out, Plaintiffs and other state insurance regulators have the power to prevent any premium rate increases of which they do not approve. What they do not have—and should not have in rehabilitation—is the power to require the holders of policies issued in other states to subsidize policies issued in their states.

The Rehabilitation Plan demonstrates that the Rehabilitation proceeding is ongoing and dynamic. The Rehabilitator has invited the views of affected parties and has responded to those views. Indeed, the Amended and Second Amended Plans' provisions regarding issue-state approval were added *because* the states that intervened in the Rehabilitation proceeding, and other states less formally, expressed concerns. *See* State Comments, attached hereto as **Exhibit K**, at 14–18; Ex. B, Second Amended Plan at 108 (noting that “this Section was added to the Plan to accommodate [the intervening state insurance regulators’] objection”). Moreover, When Plaintiffs commenced this action in state court, they knew that the rehabilitation plans are not, and do not purport to be, the final approved plan. *See, e.g.*, Ex. A, Amended Plan at 9 (“a detailed description of how the Plan, *if approved as proposed*, is expected to be implemented”) (emphasis added). Indeed, the Amended Plan (and Second Amended Plan) contain **numerous** express and prominent disclaimers to that effect.³ And in fact, the Complaint itself acknowledges that nothing is presently final and that any

³ *E.g.*, Ex. A, Amended Plan at 7 (“The plan described below, **if approved by the court**, will affect substantially the rights and benefits of ship’s policyholders, creditors, or others.”) (all text capitalized and bold in original); *id.* at 8 (“It is likely that ... changes and events occurring after this plan document is filed with the court **will require additional adjustments** to the plan.”) (all text capitalized and bold in original); *id.* (“The final plan as implemented **may therefore vary** in some measure from the description in this plan document.”) (all text capitalized and bold in original); *id.* at 9 (explaining that the Commonwealth Court may “approve, modify and approve, or disapprove the Plan,” and that “[n]ecessarily, many of the details of the Plan will have to be resolved during the implementation period”); *id.* at 104 (“The discussion of the Rehabilitation Plan in this document describes how it is proposed to be implemented if approved by the Court as proposed by the Rehabilitator. If the Plan is modified by the Court or pursuant to subsequent amendments proposed

plan remains subject to change. Compl. ¶ 74 (describing what the final rehabilitation plan “**will likely contemplate**”); 77–78 (alleging that “[i]f the amended plan is approved” then “[t]he Rehabilitator **intends** to impose rates for use nationwide through approval of the rehabilitation plan by the Commonwealth Court in Pennsylvania”) (emphasis added).

E. The Commonwealth Court Conducted a Hearing on the Plan, and Plaintiffs Do Not Contest that Court’s Jurisdiction to Receive and Rule on that Evidence.

The Commonwealth Court of Pennsylvania held a weeklong evidentiary hearing, from May 17 until May 21, 2021, regarding the proposed Plan of Rehabilitation for SHIP. *See* Ex. E at 49–50. As discussed above, the chief insurance regulators for the states of Maine, Massachusetts, and Washington fully participated in the hearing as intervening parties. At the conclusion of the hearing, the Commonwealth Court of Pennsylvania granted the Rehabilitator’s motion for a directed verdict regarding the Rehabilitator’s right to affect policy modifications through the issue-state rate approval option proposed by the Rehabilitation Plan. *See id.* at 51. The Rehabilitation Court has not yet ruled on whether the Plan constitutes a proper exercise of the Rehabilitator’s discretion, is fair and equitable, and is otherwise lawful and in compliance with any constitutional requirements. The intervening state insurance regulators filed a motion asking the Commonwealth Court to reconsider its order granting the directed verdict on June 1, 2021; that motion for reconsideration is pending. *See id.* at 50–51.

The parties in the rehabilitation proceedings also submitted post-hearing memoranda with proposed findings of fact, conclusions of law, and briefing on additional issues on June 14, 2021. *Id.* at 50, 52–53. Responses to the post-hearing memoranda were filed on June 28, 2021. *Id.* at 54. The Commonwealth Court of Pennsylvania has not yet issued a decision to approve, disapprove, or modify the Rehabilitation Plan, including the very provisions that Plaintiffs challenge herein. As such, no

by the Rehabilitator, **its implementation may differ materially from the description herein.**”) (emphasis added).

rehabilitation plan has been approved by the Commonwealth Court of Pennsylvania, no policy (whether issued in South Carolina or elsewhere) has been modified, and—as of the filing of this Motion—Plaintiffs have not suffered any of the speculative harm upon which their claims are based, and it remains uncertain that they ever will, because the future of the Plan is not yet decided. In fact, if the Plan is approved as proposed, Plaintiffs will never suffer that harm because the Plan vests in Director Farmer the ability (though not the obligation) to set premium rates for policies issued in South Carolina.

F. South Carolina’s Corresponding Statutory Scheme of Rehabilitation for Insolvent Insurance Companies Domiciled in South Carolina

South Carolina has its own corresponding statutory scheme of rehabilitation for insolvent insurers domiciled in South Carolina, the Insurers Rehabilitation and Liquidation Act, S.C. Code Ann. §§ 38-27-10, *et seq.* (the “IRLA”). Much like the PID Act, the IRLA provides the Director of the South Carolina Department with broad powers as rehabilitator to “take any action he considers necessary or appropriate to reform and revitalize” insolvent South Carolina insurance companies. *Id.* § 38-27-330(b); *accord id.* § 38-27-20 (IRLA “must be liberally construed to effect” its stated purpose). Also, like the PID Act, the IRLA is designed to broadly protect “the interests of insureds, claimants, creditors, and the public generally,” *id.* § 38-27-30, and allows the Director to apply for restraining orders and injunctions to prevent “interference with the receiver or with a [rehabilitation] proceeding” commenced in South Carolina under the IRLA. *Id.* § 38-27-70.

Importantly, South Carolina courts do not have jurisdiction under the IRLA “to entertain, hear, or determine” any delinquency proceeding commenced by any person other than the Director of the South Carolina Department. *Id.* § 38-27-60(a). As such, “[n]o court of this State has jurisdiction to entertain, hear, or determine any complaint praying for the ... rehabilitation... of an insurer or praying for an injunction or restraining order or other relief preliminary to, incidental to, or relating to the proceedings other than in accordance with [the IRLA].” *Id.* § 38-27-60(b). Thus, under the IRLA

South Carolina courts have exclusive jurisdiction to conduct rehabilitation proceedings of insurance companies domiciled in South Carolina—just as the Commonwealth Court of Pennsylvania has exclusive jurisdiction to conduct rehabilitation proceedings of insurance companies domiciled in Pennsylvania—but lack jurisdiction to interfere with the rehabilitation proceedings of other states.

III. LEGAL STANDARD

Rule 12(b)(1) requires a court to dismiss an action for lack of subject matter jurisdiction. “Subject-matter jurisdiction is the power to hear and determine cases of the general class to which the proceedings in question belong.” *Swicegood v. Thompson*, 847 S.E.2d 104, 108 (S.C. Ct. App. 2020) (internal quotation omitted). “The question of subject matter jurisdiction is a question of law for the court.” *Hammer v. Hammer*, 3730 S.E.2d 874, 876 (S.C. Ct. App. 2012). “Lack of subject matter jurisdiction may not be waived,” and may be raised at any time. *Amisub of S.C., Inc. v. Passmore*, 447 S.E.2d 207, 208 (S.C. 1994).

Dismissal under Rule 12(b)(6) is appropriate where “the defendant demonstrates the plaintiff has failed to state facts sufficient to constitute a cause of action in the pleadings filed with the court.” *Williams v. Condon*, 553 S.E.2d 496, 499 (S.C. Ct. App. 2001) (internal quotation omitted). “The question to be considered is whether, in the light most favorable to the plaintiff, the pleadings articulate any valid claim for relief.” *Id.*

Similarly, a plaintiff must plead the existence of personal jurisdiction. Under South Carolina’s Long-Arm Statute, S.C. Code § 36-2-803(A), the exercise of personal jurisdiction over non-residents must not exceed the limits of the South Carolina and United States Constitutions. *Cockrell v. Hillerich & Bradsby Co.*, 611 S.E.2d 505, 508 (S.C. 2005) (“Because South Carolina treats its long-arm statute as coextensive with the due process clause, the sole question becomes whether the exercise of personal jurisdiction would violate due process.”).

Finally, Rule 12(b)(8) allows a court to dismiss an action where “another action is pending between the same parties for the same claim.” S.C. R. Civ. P. 12(b)(8); *accord Wessinger v. Rauch*, 341 S.E.2d 643, 644 (S.C. Ct. App. 1986) (“As a general rule, courts will not entertain an action for declaratory judgment if there is pending, at the time the action is commenced, another action between the same parties in which the same issues presented in the action for declaratory judgment can be adjudicated.”). The specific standards for each argument in favor of dismissal are addressed in turn below.

IV. ARGUMENT

A. The Court Lacks Subject Matter Jurisdiction to Interfere With and Restrain Another State’s Ongoing Rehabilitation Proceedings

The Complaint must be dismissed because South Carolina courts are without jurisdiction to entertain a collateral attack on the Commonwealth Court of Pennsylvania’s exclusive jurisdiction over SHIP’s rehabilitation proceedings. Much as would be true for a South Carolina court overseeing a South Carolina rehabilitation proceeding, the only avenue for Plaintiffs to challenge the propriety of any provisions in SHIP’s Rehabilitation Plan is in the Pennsylvania Rehabilitation Court itself. In her capacity as Insurance Commissioner for Pennsylvania, Defendant Jessica Altman—and other chief insurance regulators from across the country—cannot collaterally attack rehabilitation proceedings pending in South Carolina state courts for an insolvent insurance company domiciled in South Carolina by simply bringing suit in their own state courts to challenge provisions in the rehabilitation plan. The IRLA plainly prohibits this. The same is true for SHIP—South Carolina’s chief insurance regulator cannot bypass the Commonwealth Court of Pennsylvania’s ongoing rehabilitation proceedings, upend Pennsylvania’s comprehensive scheme for rehabilitating insolvent insurers, and simply adjudicate the propriety of the proposed Rehabilitation Plan in its own state courts.

The IRLA’s jurisdictional provisions codify this commonsense approach that preserves comity for each state’s rehabilitation proceedings of insolvent insurers domiciled in their respective states. Under the IRLA, South Carolina state courts only have jurisdiction “to entertain, hear, or determine” rehabilitation proceedings commenced by the Director of the South Carolina Department, S.C. Code Ann. § 38-27-60(a)—not rehabilitation proceedings commenced by the chief insurance regulators of other states, as in SHIP’s case. Indeed, the IRLA expressly provides that South Carolina courts *lack* jurisdiction to hear any complaint “praying for an injunction or restraining order or other relief preliminary to, incidental to, or relating to [rehabilitation] proceedings” other than those proceedings commenced by the Director of the South Carolina Department in accordance with the IRLA. *Id.* § 38-27-60(b). That is the precise—and prohibited—relief that Plaintiffs now seek in this Court: declaratory and injunctive relief relating to rehabilitation proceedings commenced in Pennsylvania by the Insurance Commissioner for Pennsylvania for an insolvent insurer domiciled in Pennsylvania. Indeed, the relief Plaintiffs seek would be far more than “incidental to” or “relating to” SHIP’s Rehabilitation proceedings—if granted, it would eviscerate that proceeding entirely through a collateral attack declaring SHIP’s present Rehabilitation Plan “invalid and unenforceable” and “permanently enjoining the enforcement or implementation of any order of the Commonwealth Court or any plan or directive of the Defendants” seeking to implement that Plan. Compl. ¶¶ 133, 135. The Court is without jurisdiction under the IRLA to entertain Plaintiffs’ claims.

SHIP’s rehabilitation proceedings—and any challenges to any provisions in SHIP’s Rehabilitation Plan—are within the exclusive jurisdiction of the Commonwealth Court of Pennsylvania, just as South Carolina courts have exclusive jurisdiction over their own rehabilitation proceedings commenced pursuant to the IRLA. *See* 42 P.S. § 761(a)(3) and (b) (providing Commonwealth Court of Pennsylvania with original jurisdiction over all proceedings arising under the PID Act and recognizing that its jurisdiction is exclusive in this context); 40 P.S. § 221.16(d) (the

Commonwealth Court of Pennsylvania may approve, disapprove, or modify a proposed rehabilitation plan). No other court may interfere with Commonwealth Court of Pennsylvania's exclusive jurisdiction of SHIP's Rehabilitation proceeding and adjudicate the propriety of the Rehabilitation Plan. *Ballesteros v. New Jersey Prop. Liab. Ins. Guar. Ass'n*, 530 F. Supp. 1367, 1371 (D.N.J. 1982) (recognizing that in insurer delinquency proceedings, "other courts, except when called upon by the court of primary jurisdiction for assistance, are excluded from participation") *aff'd sub nom. Appeal of Ballesteros*, 696 F.2d 980 (3d Cir. 1982); *accord All Star Advert. Agency, Inc. v. Reliance Ins. Co.*, 898 So. 2d 369, 382–83 (La. 2005) (holding because Pennsylvania is a reciprocal state under Louisiana's receivership statutes, Louisiana courts are deprived of subject matter jurisdiction over matters over which a Pennsylvania receivership court has asserted exclusive control). Indeed, "[t]he need for giving one state exclusive jurisdiction over delinquency proceedings has long been recognized in the courts[.]" *Ballesteros*, 530 F. Supp. at 1371 (collecting cases).⁴

The Commonwealth Court of Pennsylvania's exclusive jurisdiction to resolve questions of its own jurisdiction and to determine the propriety of proposed Rehabilitation Plan is built into the statutory scheme and common law because it is necessary to successfully rehabilitating insurers like SHIP. It would be entirely unworkable and flatly contradictory to Pennsylvania's comprehensive scheme for rehabilitation—and South Carolina's own corresponding statutory scheme—if each state could collaterally attack SHIP's rehabilitation proceeding *even before its conclusion* and invite state courts around the country to separately opine on the propriety of elements of the Rehabilitation Plan.

⁴ For this reason, federal courts generally abstain from exercising jurisdiction in cases involving ongoing rehabilitation proceedings. *E.g., Brandenburg v. Seidel*, 859 F.2d 1179, 1191 (4th Cir. 1988) (abstaining from exercising jurisdiction because Maryland's "comprehensive scheme for the rehabilitation and liquidation of insolvent state-chartered savings and loan associations" would be "greatly impeded by the involvement of more than one decision-making authority"), *overruled on other grounds by Quackenbush*, 517 U.S. 706 (1996); *Eden Fin. Grp., Inc. v. Fid. Bankers Life Ins. Co.*, 778 F. Supp. 278, 283 (E.D. Va. 1991) (declining to exercise jurisdiction because "federal courts must defer to the exclusive jurisdiction of state proceedings over the rehabilitation of insurance companies").

That could result in at least 46 separate proceedings across the country, all resolving the very same legal question—and in potentially inconsistent ways. The state-based rehabilitation scheme adopted in Pennsylvania and most other jurisdictions, *including South Carolina*, is designed to prevent and avoid this very scenario. Under the IRLA and PID Act, the Court is without jurisdiction to entertain a collateral attack on SHIP’s ongoing rehabilitation proceedings.

B. Plaintiffs’ Claims Are Not Justiciable Because There Is No Case or Controversy

The Complaint must separately be dismissed because this Court has no jurisdiction or authority to offer advisory opinions to parties suffering no injury in controversies that do not exist. It is well-established that South Carolina courts “will not address the merits of any case unless it presents a justiciable controversy.” *Jowers v. S.C. Dep’t of Health & Env’t Control*, 815 S.E.2d 446, 451 (S.C. 2018). This is true even when a party seeks declaratory relief. *See Tourism Expenditure Rev. Comm. v. City of Myrtle Beach*, 742 S.E.2d 371, 373–74 (S.C. 2013) (“To fall within the intended purpose and scope of the Declaratory Judgments Act, the parties must seek adjudication of a justiciable controversy.”).

“Justiciability encompasses ripeness and standing.” *Jowers*, 815 S.E.2d at 451 (ellipses and citation omitted). The test for standing is “stringent” and requires that “the plaintiff must have suffered an ‘injury in fact’—an invasion of a legally protected interest which is (a) concrete and particularized and (b) actual or imminent, not ‘conjectural’ or ‘hypothetical.’” *Id.* (quoting *Lujan v. Defs. of Wildlife*, 504 U.S. 555, 560–61 (1992)). Similarly, an issue is not ripe for adjudication where it is “contingent, hypothetical, or abstract.” *Id.* As such, “[a] justiciable controversy is a real and substantial controversy which is ripe and appropriate for judicial determination, as distinguished from a contingent, hypothetical or abstract dispute.” *Peoples Fed. Sav. & Loan Ass’n of S.C. v. Res. Planning Corp.*, 358 S.C. 460, 477 (S.C. 2004) (citation omitted); *Hitter v. McLeod*, 274 S.C. 616,

619 (S.C. 1980) (dismissing action that presents “nothing more than a vehicle for rendering an advisory opinion,” because such relief “is beyond the scope of a declaratory judgment”).

Here, there is no justiciable case or to decide: the Complaint seeks declaratory relief based on a **proposed** rehabilitation plan that both parties agree can materially change, as the Complaint itself recognizes has already occurred through the Amended Plan (and the Second Amended Plan). Nothing is yet final; the Rehabilitation Plan may be further be modified—or disapproved altogether—by the Commonwealth Court of Pennsylvania, and even if approved in its current form, the Plan may be implemented in ways not currently anticipated. Thus, as discussed below, this case is not justiciable and must be dismissed because (a) Plaintiffs lack an injury in fact to have standing, and (b) the alleged dispute is not ripe for review.

1. Plaintiffs Fail to Establish an Injury in Fact

Plaintiffs lack standing to separately challenge SHIP’s Rehabilitation Plan outside of the ongoing rehabilitation proceedings because they cannot establish an injury in fact. Here, Plaintiffs’ sole alleged injury is that the Amended Plan—and now the Second Amended Plan—**contemplates** implementing changes to the premiums and benefits of SHIP LTCI policies, without seeking Plaintiffs’ approval. Compl. ¶ 74; 77–78; 121–122. That allegation assumes that Plaintiffs are harmed by the Commonwealth Court of Pennsylvania’s mere *consideration* of any plan that, if implemented, would allegedly usurp supervisory authority over insurance rates and benefits. Ultimately, the Second Amended Plan as proposed would not harm Plaintiffs, even if implemented.⁵

⁵ As explained above, the changes to the Second Amended Plan specifically maintain Plaintiffs’ ability to approve or reject any proposed Plan premium rate modifications. *See* Amended Plan at 102–04 and Second Amended Plan at 108–10. Although Plaintiffs vaguely assert that they have regulatory authority to approve of any increase in premium rates *and* changes in benefits, they fail to identify any specific regulatory authority to support the latter. *See* Compl. ¶¶ 115, 121–22, 126. In fact, South Carolina’s LTCI regulations make clear that “[a] reduction in benefits shall **not** be considered a premium change.” S.C. Code Regs. 69-44 § 6 (F)(3) (emphasis added). In any event, none of the regulations relied on by Plaintiffs specifically govern in the rehabilitation context. A rehabilitation court necessarily has the power to change premium rates and benefits for policyholders

However, this Court need not resolve the underlying merits of the Complaint because Plaintiffs cannot plead an injury in fact, as needed to have standing to bring a claim in the first place. In order to show an injury in fact, the alleged harm must be “(a) concrete and particularized, and (b) actual or imminent, not conjectural or hypothetical.” *Jowers*, 815 S.E.2d at 451 (quoting *Lujan* 504 U.S. at 560–61). Neither element is met here.

Plaintiffs fail to allege that they have suffered *any* injury—let alone a “concrete and particularized” injury. *See Spokeo, Inc. v. Robins*, 136 S. Ct. 1540, 1548 (2016). The crux of the alleged injury is the abstract *possibility* of the Rehabilitator and the Rehabilitation Court increasing South Carolina policyholders’ premiums, without seeking Plaintiffs’ approval. Compl. ¶¶ 74; 77–78; 121–22. Setting aside that the Second Amended Plan and the Amended Plan before it have *already* been changed to avoid this very possibility (*see* Ex. A, Amended Plan at 102–04, and Ex. B, Second Amended Plan at 108–10), Plaintiffs do not know—and will not know until a final plan is approved and implemented—whether the actions constituting the alleged violation will ever occur. Unless and until the Rehabilitation Court actually approves the Second Amended Plan in its current form, and a final rehabilitation plan is implemented in its current form, there simply can be no injury for which

in order to further the goals of the rehabilitation itself. Requiring piecemeal approval by (or litigation with) each individual state’s insurance regulators across the country would create an obvious collective action problem and could doom the possibility of a successful rehabilitation. For this reason, the power of a state’s rehabilitation court to affect changes to policies nationwide has long been recognized and largely left unchallenged. *E.g., Neblett v. Carpenter*, 305 U.S. 297 (1938) (leaving unchallenged California’s power as domiciliary state to make rate and form decisions for all of the insolvent company’s policies, wherever issued, as part of a national rehabilitation plan); *Underwriters Nat. Assur. Co. v. N. Carolina Life & Acc. & Health Ins. Guar. Ass’n*, 455 U.S. 691, 697 (1982) (rehabilitation plan that was later approved “proposed that the Rehabilitation Court reform the policies to require increased premiums and reduced benefits,” including with respect to out-of-state policies); *Mathias v. Lennon*, 474 F. Supp. 949, 957 (S.D.N.Y. 1979) (rejecting argument that New York rehabilitation court “lacked jurisdiction to affect the property interests of the Illinois policyholders”); *see Foster*, 614 A.2d at 1094 (Under Pennsylvania law, the Rehabilitator is “afforded broad powers” to “minimize the harm to *all* affected parties,” and explaining that “the exigencies attendant to a major commercial insolvency and the goals of rehabilitation necessitate the reality that individual interests may need to be compromised in order to avoid greater harm to a broader spectrum of policyholders and the public.”).

Plaintiffs can seek redress here or in any other court. *See Spokeo*, 136 S. Ct. at 1548 (“[a] ‘concrete’ injury must be ‘de facto’; that is, it must actually exist” and must not be “abstract”).

Moreover, the fact that the Rehabilitator’s Initial Plan was amended with material changes as part of the ongoing state rehabilitation proceedings less than two months before Plaintiffs filed the Complaint—and again after Plaintiffs commenced this action—highlights the primary defect in Plaintiffs’ claims: the possible future injury that Plaintiffs complain of is *far* from imminent or certainly impending. “Although imminence is concededly a somewhat elastic concept, it cannot be stretched beyond its purpose, which is to ensure that the alleged injury is not too speculative for Article III purposes—that the injury is certainly impending.” *Clapper v. Amnesty Int’l USA*, 568 U.S. 398, 409 (2013) (citation omitted). At present, the proposed Rehabilitation Plan is just that—proposed. It is not, nor does it purport to be, a final plan, and it is replete with disclaimers that it is not a final plan for rehabilitation. *See* Ex. A, Amended Plan at 7–9, 104, and Ex. B, Second Amended Plan at 7–9, 118. The Commonwealth Court of Pennsylvania held a week-long evidentiary hearing regarding the Rehabilitation Plan and now may, by statute, may modify approve, modify, or disapprove the Plan altogether. 40 P.S. § 221.16(d). Even Plaintiffs recognize that the Plan simply “*proposes* to unilaterally reduce benefits nationwide without individual state regulator approval,” and must first be approved by the Rehabilitation Court—with an indefinite timeline before implementation that may take *years*. Compl. ¶ 69, 77–79 (emphasis added). Neither Plaintiffs nor Defendants know whether the Rehabilitation Court will approve of the Plan in its current form, and neither party knows whether the Rehabilitation Plan will be implemented in its current form. There is nothing imminent or certainly impending about a proposal that is subject to further change.

As a rule, a plaintiff lacks standing where the alleged injury is dependent on such variables and guesswork as Plaintiffs’ claims here. *See, e.g., Clapper*, 568 U.S. at 413 (2013) (plaintiffs could

only speculate on court’s future authorization).⁶ **Many** steps need to occur before new policyholder rates are set in South Carolina, including, at a minimum, (a) the Rehabilitation Court must actually approve or modify the plan, or require the Rehabilitator and others to address new procedural or substantive steps before approval; (b) the approved plan must become final after the exhaustion of any appeals, which itself can take many years; and (c) only then can the Rehabilitator finalize the options available to policyholders, including identifying and requesting any potential rate increases. *See* Ex. A, Amended Plan at 30–32, and Ex. B, Second Amended Plan at 34–36. Even then, however, Plaintiffs will be given the choice to prevent the alleged harm by ***opting out entirely from any centralized rate setting process.*** The mere possibility of injury (in fact belied by the terms of the Second Amended Plan) many months or years from now is hypothetical (at best), not imminent, and cannot satisfy the injury-in-fact requirement. “Claims that depend on contingent, future harm are not justiciable.” *Jowers*, 815 S.E.2d at 456 (2018). Where, as here, Plaintiffs’ claims are dependent on the contingent possibility of the Rehabilitation Court approving the Second Amended Plan in its current form and the Plan not being further amended in the months and years leading to actual implementation of the Plan, there is no injury in fact. “This fact alone ends the justiciability analysis.” *Id.*

The South Carolina Supreme Court’s decision in *Power v. McNair*, 177 S.E.2d 551 (1970) is instructive. There, two police officers sought a declaratory judgment that their appointments by the Governor as constables would not violate the State Constitution’s prohibition on dual office holding. *Id.* at 552. Although the Governor was “agreeable to appointing plaintiffs,” he refused to do so “upon the sole ground that, to do so, would violate the terms ... of the Constitution prohibiting dual

⁶ *Accord Beck v. McDonald*, 848 F.3d 262, 275 (4th Cir. 2017) (no injury in fact where threat of future injury was dependent on “attenuated chain of possibilities”); *Zahn v. Barr*, No. 2:19-CV-3553-DCN, 2020 WL 3440801, at *4 (D.S.C. June 23, 2020) (no standing where declaratory judgment action amounted to “a request for an opinion advising what the law would be upon a hypothetical state of facts”).

officeholding.” *Id.* at 552–53. But because the Governor’s power to appoint constables was discretionary and the appointment had not actually been made, the Supreme Court dismissed the appeal holding that any adjudication of the declaratory action “would settle no legal rights of the parties” and “would be only advisory.” *Id.* at 154–155. The same principles apply here. The power to approve, modify, or disapprove of the Rehabilitation Plan is discretionary with the Rehabilitation Court, and after the appeals process concludes at some point in the future, the Plan may be implemented in ways not currently foreseeable. A declaratory judgment in Plaintiffs’ favor would amount to little more than an advisory opinion which this Court cannot and should not enter. *See Hitter*, 274 S.C.at 619 (dismissing action that presents “nothing more than a vehicle for rendering an advisory opinion,” because such relief “is beyond the scope of a declaratory judgment”).

Finally, as explained above, the Commonwealth Court of Pennsylvania is the exclusive forum for adjudicating questions regarding the propriety of any provision in the Plan. Plaintiffs may not manufacture a case or controversy in this Court simply to avoid the Rehabilitation Court’s exclusive jurisdiction. *See Tourism Expenditure Rev. Comm.*, 742 S.E.2d at 374 (no case or controversy exists outside exclusive statutory procedure for challenging sales tax expenditures, and “[t]he Declaratory Judgments Act may not be invoked to avoid or circumvent” that procedure).

2. The Claims Are Not Ripe for Review

For similar reasons, Plaintiffs’ claims are not ripe for review. To be ripe for judicial review, “a controversy should be presented in a clean-cut and concrete form,” and thus, must be “final and not dependent on future uncertainties or intervening agency rulings.” *South Carolina v. United States*, 912 F.3d 720, 730 (4th Cir.) (internal quotations omitted), *cert. denied*, 140 S. Ct. 392 (2019). As such, a claim “is not ripe for judicial review if it rests upon contingent future events that may not occur as anticipated, or indeed may not occur at all.” *Id.* (internal quotation omitted); *accord Park v. Safeco Ins. Co. of Am.*, 162 S.E.2d 709, 711 (S.C. 1968) (“The courts generally decline to pronounce

a declaration in a suit wherein the rights of the plaintiff are contingent upon the happening of some event which cannot be forecast and which may never take place.”).

As discussed above, there is nothing more than a hypothetical question for the Court to review, unless and until the Rehabilitator begins to implement an approved rehabilitation plan based on a final order from the Commonwealth Court of Pennsylvania in a way that impacts South Carolina policyholders. An issue contingent on a court or agency *actually* imposing a particular ruling or issuing an anticipated order is not ripe for adjudication. *See Doe v. Virginia Dep’t of State Police*, 713 F.3d 745, 758 (4th Cir. 2013) (“Where an injury is contingent upon a decision to be made by a third party that has not yet acted, it is not ripe as the subject of decision in a federal court.”); *In re Drexel Burnham Lambert Group Inc.*, 995 F.2d 1138, 1146 (2d Cir. 1993) (challenge to SEC’s settlement distribution was not ripe because the “district court ha[d] issued no order approving the distribution of the [settlement fund]” for review). Here, the Commonwealth Court of Pennsylvania may reject or modify any proposed plan, and so any decision on a pending plan amounts to an advisory opinion on a rehabilitation plan that may never be implemented.

It may be *years* until Rehabilitation Court actually approves the Rehabilitation Plan, the appeals process is exhausted, and the Plan is fully implemented. Unless and until each of those events occur, future changes in the plan or its implementation that may reduce or eliminate the feared hypothetical harm altogether. As such, the claims are not presently ripe for review. *See Waters v. S.C. Land Res. Conservation Comm’n*, 467 S.E.2d 913, 918 (S.C. 1996) (holding a claim involving “a threat of *possible* injury” or “the mere threat of potential injury” is not ripe for judicial determination because it is “too contingent or remote to support present adjudication.”).

C. The Complaint Fails to State a Claim upon which This Court Can Grant Relief

The jurisdictional defects in the Complaint are incurable. Even on the merits, however, the Complaint fails to state a claim for relief in several respects, as discussed below.

1. Plaintiffs Cannot Show Entitlement to an Injunction

Plaintiffs fail to establish any right to a permanent injunction, *even assuming* some right to relief existed. “The remedy of an injunction is a drastic one and ought to be applied with caution.” *Strategic Res. Co. v. BCS Life Ins. Co.*, S.E.2d 687, 689 (S.C. 2006). “To obtain an injunction, a party must demonstrate irreparable harm, a likelihood of success on the merits, and the absence of an adequate remedy at law.” *Denman v. City of Columbia*, 691 S.E.2d 465, 470 (S.C. 2010) (citation omitted). Here, Plaintiffs fail to plead (and cannot plead) that they lack an adequate remedy at law or that they will be irreparably harmed.

“[A] complaint fails to state a cause of action for injunctive relief unless facts are alleged which show that the plaintiff has no adequate and complete remedy at law.” *Knohl v. Duke Power Co.*, 196 S.E.2d 115, 116 (S.C. 1973). Here, Plaintiffs have had an adequate and complete remedy at law available to them—intervening as parties in SHIP’s ongoing rehabilitation proceedings and challenging SHIP’s Rehabilitation therein. Nothing has prevented them from doing so, as several other chief insurance regulators have done. Moreover, *even if* the Commonwealth Court of Pennsylvania approves the SHIP’s Rehabilitation Plan in its current form, that decision may be appealed. Plaintiffs have had the right to challenge the very provisions of SHIP’s Rehabilitation that they raise in the Complaint in SHIP’s rehabilitation proceedings, providing them an adequate remedy at law. *See Strategic Res. Co. v. BCS Life Ins. Co.*, 367 S.C. 540, 545, 627 S.E.2d 687, 689–90 (2006) (denying injunction related to ongoing arbitration proceedings the parties “have the right to appeal the results of the arbitration, which is an adequate remedy at law”). In truth, Plaintiffs have had no need to formally participate as parties in the Rehabilitation because the intervening state insurance regulators are already raising Plaintiffs’ legal arguments in that proceeding, and Plaintiffs have participated by commenting on the Plans and supporting the intervening state insurance regulators’ positions. Plaintiffs cannot informally participate in the SHIP’s rehabilitation proceedings—while

also voluntarily foregoing participating as an intervening party—and yet somehow claim they lack an adequate remedy at law.

Nor can Plaintiffs establish that they will be irreparably harmed absent an injunction. Plaintiffs argue that they will be irreparably harmed because the Rehabilitator will seek to “impose unilateral and nationwide premium increases and changes in benefits” for SHIP’s LTCI policies “without filing them for review and approval” by Plaintiffs. Compl. ¶ 121. But Plaintiffs’ argument wrongly claims irreparable injury where another party merely *seeks relief* from a court of competent jurisdiction—*before* that court grants any relief and despite the possibility that such an order *may never be entered at all*. No court has adopted—and no court could adopt—such a standard for irreparable harm because an injunction may not be issued “based only on a possibility of irreparable harm.” *Winter v. Nat. Res. Def. Council, Inc.*, 555 U.S. 7, 22 (2008). Plaintiffs’ tactical decision to forum shop and file this lawsuit in South Carolina, in lieu of formally participating in the Pennsylvania rehabilitation proceeding, does not create irreparable harm.

2. Plaintiffs Concede that the Complaint Does Not Allege Any Cognizable Cause of Action Under the Full Faith and Credit Clause, the McCarran-Ferguson Act, or the Equal Protection Clause

Plaintiffs’ Complaint raises passing references to the Full Faith and Credit Clause, the McCarran-Ferguson Act, and the Equal Protection Clause. Nevertheless, in prior briefing in federal court prior to this case being remanded, Plaintiffs expressly disavowed bringing any claims under these constitutional and statutory provisions. *See Farmer v. Altman*, No. 3:21-cv-00097-MGL, (D.S.C.), Pls.’ Opp. Mot. Dismiss (Dkt. No. 14) at 17 (“As for Defendants’ assertion that Plaintiffs’ purported ‘actions . . . pursuant to the Full Faith and Credit Clause, the McCarran-Ferguson Act, or the Equal Protection Clause’ do not present a claim for relief, perhaps this is so because Plaintiffs assert no such claims in this action.”). Accordingly, the Complaint cannot be construed to allege any cause of action under these provisions.

D. The Complaint Fails to Show Personal Jurisdiction over the Rehabilitator and Special Deputy Rehabilitator in this Action

Dismissal of the claims against the Rehabilitator and Special Deputy Rehabilitator is necessary pursuant to Rule 12(b)(2), *even if* there was subject matter jurisdiction and the Complaint stated a plausible claim. “Personal jurisdiction over a non-resident defendant may be invoked only if the nonresident’s contacts in South Carolina are sufficient to satisfy due process requirements,” and Plaintiffs bear the burden of demonstrating personal jurisdiction over each Defendant. *Power Prod. & Servs. Co. v. Kozma*, 665 S.E.2d 660, 664–65 (S.C. Ct. App. 2008). “The question of personal jurisdiction over a nonresident defendant is one which must be resolved upon the facts of each particular case.” *Cockrell v. Hillerich & Bradsby Co.*, 611 S.E.2d 505, 508 (S.C. 2005). Moreover, “[t]he due process requirements must be met as to each defendant and thus the Court is to assess individually each defendant’s contacts with South Carolina.” *Id.* Here, Plaintiffs fail to identify a single act of the Rehabilitator or Special Deputy Rehabilitator actually directed to South Carolina. Instead, Plaintiffs point to the filing of documents in the Commonwealth Court of Pennsylvania, which may hypothetically—at some point in the future, contingent on numerous events described above first happening—impact policyholders nationwide. Compl. ¶¶ 65–79.

Plaintiffs conflate the proper exercise of the Commonwealth Court of Pennsylvania’s undisputed exclusive *in rem* jurisdiction over SHIP’s assets with alleged but non-existent requisite minimum contacts on which personal jurisdiction over the Rehabilitator and Special Deputy Rehabilitator may be based. Any rehabilitation plan eventually approved by the Rehabilitation Court (with or without modification) would constitute the mechanism through which *that court* would allocate SHIP’s insufficient assets—over which it has undisputed exclusive *in rem* jurisdiction—over thousands of competing claims. This proper exercise of the state court’s power does not equate to minimum contacts upon which personal jurisdiction over *the Rehabilitator and Special Deputy Rehabilitator* can be grounded. It would be simply the court-devised means (modified policy

benefits) for creditors (in this case policyholders) to receive a share of the assets that the court has been charged with administering.

Plaintiffs' suggestion of personal jurisdiction has been rejected in analogous cases involving nonresident state officials performing official duties. For example, the Fifth Circuit found insufficient contacts for a Texas federal court to exercise jurisdiction over the commissioner of the Arizona Department of Real Estate. *Stroman Realty, Inc. v. Wercinski*, 513 F.3d 476, 480–81, 484 (5th Cir. 2008). Even the Arizona commissioner's act of reaching out to Texas and directing communications to Texas to identify violations of Arizona law were insufficient to reasonably anticipate being haled into the forum state's federal court to defend the non-forum state's statutes. *Id.* at 484–86; *accord Berry Coll., Inc. v. Rhoda*, No. 4:13-CV-0115-HLM, 2013 WL 12109374, at *11 (N.D. Ga. June 12, 2013) (Tennessee officials that “attempted to perform their regulatory duties” did not purposefully avail themselves of Georgia's benefits and laws, notwithstanding communications directed at plaintiff in Georgia); *Shotton v. Pitkin*, No. CIV-15-0241-HE, 2015 WL 5091984, at *1 (W.D. Okla. Aug. 28, 2015) (same with respect to Connecticut officials sending communications to plaintiff in Oklahoma); *Steelman v. Carper*, 124 F. Supp. 2d 219, 223–24 (D. Del. 2000) (“subjecting out of state officials to personal jurisdiction for actions taken out of state, even if done at the request of [in-state] officials,” would violate “traditional notions of fair play and substantial justice”). Because the Rehabilitator and Special Deputy Rehabilitator are only alleged to have taken action in the Commonwealth of Pennsylvania, they did not purposefully avail themselves of South Carolina's laws and benefits, and could not reasonably anticipate being haled into a South Carolina Court.⁷

⁷ Indeed, by Plaintiffs' logic, the Rehabilitator and Special Deputy Rehabilitator should anticipate being haled into ***nearly any court in the country***—notwithstanding their contacts (or lack thereof) with the relevant state—solely because SHIP is licensed to operate in 46 states, as well as the District of Columbia and the U.S. Virgin Islands. *See* Compl. ¶ 60. Such a ruling plainly cannot comport with the Due Process Clause. All of the relevant alleged actions of the Rehabilitator and Special Deputy Rehabilitator are confined to the Commonwealth of Pennsylvania.

Ultimately, haling the Rehabilitator and Special Deputy Rehabilitator into this Court to answer the complaints of another state's regulator—based solely on the Rehabilitator's filings in Commonwealth Court of Pennsylvania—offends “traditional notions of fair play and substantial justice,” *Cockrell*, 611 S.E.2d at 08–09 (2005), and does not comport with due process.

E. Dismissal Under Rule 12(b)(8) is Separately Warranted

As explained above, the Complaint is replete with jurisdictional and pleading deficiencies that cannot be cured. But even assuming that Plaintiffs could allege a viable cause of action, this Court should nevertheless dismiss the Complaint under Rule 12(b)(8) because the pending and first-filed in rem rehabilitation proceedings will resolve the very same issues raised in Plaintiffs' Complaint.

“The general rule followed by most jurisdictions is that a court will not entertain a declaratory judgment action if there is pending, at the time of the commencement of the declaratory action, another action or proceeding to which the same persons are parties and in which are involved and may be adjudicated the same identical issues that are involved in the declaratory judgment action.” *Med. Univ. of S.C. v. Taylor*, 362 S.E.2d 881, 883 (S.C. Ct. App. 1987) (brackets and internal quotation omitted). “The general rule is especially applicable ‘where a special statutory remedy has been provided, or where another remedy will be more appropriate under the circumstances.’” *Id.* at 883–84 (quoting *Williams Furniture Corp. v. S. Coatings & Chem. Co.*, 56 S.E.2d 576, 578–79 (S.C. 1949)). Generally, dismissal under Rule 12(b)(8) requires that “another action is pending between the same parties for the same claim.” However, the Supreme Court of South Carolina has recognized that “the principle underlying Rule 12(b)(8) of the South Carolina Rules of Civil Procedure that duplicative litigation should be avoided” may apply even where the parties “are not identical” in the pending action. *State ex rel. Wilson v. Condon*, 764 S.E.2d 247, 248 (S.C. 2014).

Plaintiffs' deliberate decision to forum shop and create duplicative litigation seeking to resolve the very same legal questions as those already being addressed by the Commonwealth Court

of Pennsylvania requires dismissal under Rule 12(b)(8). The Commonwealth Court of Pennsylvania has already held a week-long evidentiary hearing regarding SHIP's Rehabilitation Plan, including identical arguments raised by the intervening state insurance regulators that participated in the rehabilitation proceedings. Indeed, Plaintiffs submitted a letter fully supporting the legal arguments made by the intervening state insurance regulators during the rehabilitation proceedings. *See* Ex. I. At the conclusion of this hearing, the Rehabilitation Court granted the Rehabilitator's motion for a directed verdict regarding the Rehabilitator's right to affect policy modifications through the issue-state rate approval option proposed by the Rehabilitation Plan. Nonetheless, the motion for reconsideration of the intervening state insurance regulators remains pending, and the Rehabilitation Court has yet to rule on whether provisions in the Rehabilitation Plan constitute a proper exercise of the Rehabilitator's discretion, are fair and equitable, and otherwise lawful and comply with all Constitutional requirements.

Plaintiffs cannot voluntarily choose to forego formally participating in the Rehabilitation proceedings and raise the same arguments as the intervening state insurance regulators in a separate (and improper) forum. Given the comments and letter of support Plaintiffs submitted in the rehabilitation proceedings, this is little more than a coordinated effort by a handful of state insurance commissioners to have a proverbial second bite at the apple by again raising the same arguments already considered by the Rehabilitation Court. SHIP's rehabilitation proceeding is an in rem proceeding. *See, e.g., Ballestros*, 530 F. Supp. at 1370–71 (“A rehabilitation proceeding is an in rem action in which the state court generally has exclusive control over the assets of the impaired insurance company.”); *In re Rehab. of Manhattan Re-Ins. Co.*, No. CIV.A. 2844-VCP, 2011 WL 4553582, at *4 (Del. Ch. Oct. 4, 2011) (“[T]his Court does possess original and exclusive jurisdiction over the in rem proceedings of the rehabilitation.”); *Garamendi v. Exec. Life Ins. Co.*, 21 Cal. Rptr. 2d 578, 583–90 (Cal Ct. App. 1993) (holding “A State Court Overseeing an Insurance Insolvency

Proceeding Has In Rem Jurisdiction Over the Assets of Third Parties Which Have an ‘Identity of Interest’ With the Insolvent Insurer.”). Plaintiffs cannot avoid the preclusive effect of any final judgment in the Commonwealth Court of Pennsylvania, and the constitutional requirement that any such final judgment be given full faith and credit, by simply by electing not to formally participate in the rehabilitation proceedings as parties. *See United States v. Obaid*, 971 F.3d 1095, 1098–105 (9th Cir. 2020) (recognizing “minimum contacts” is not a required component of in rem jurisdiction); *United States v. Real Prop. Located in Los Angeles*, 4:20-CV-2524, 2020 WL 7212181, at *4 (S.D. Tex. Dec. 4, 2020) (same); *F.D.I.C. v. De Cresenzo*, 616 N.Y.S.2d 638, 639 (N.Y. App. Div. 1994) (recognizing a judgment stemming from application of in rem jurisdiction is entitled to full faith and credit); *Denny v. Searles*, 143 S.E. 484, 493 (Va. 1928) (same).

Plaintiffs’ legal challenges to the specific provisions in SHIP’s Rehabilitation Plan—and whether the Commonwealth Court of Pennsylvania and Rehabilitator may enact a national plan for the rehabilitation of an insolvent insurer domiciled in Pennsylvania—“is more appropriately resolved in the pending litigation” in the Rehabilitation Court that has exclusive jurisdiction over these issues. *State ex rel. Wilson*, 764 S.E.2d at 248. Notwithstanding that the parties “are not identical”—and that is only because Plaintiffs strategically chose not to formally participate in SHIP’s rehabilitation proceeding as a party— “[a]voiding concurrent litigation in both” this Court and the Rehabilitation Court “will foster wise judicial administration and conserve judicial resources.” *See id.* As such, dismissal under Rule 12(b)(8) is appropriate.

V. **CONCLUSION**

For all the foregoing reasons, Defendants respectfully requests that the Court dismiss the Complaint in its entirety, with prejudice.

Respectfully submitted,

August 23, 2021

SENIOR HEALTH INSURANCE COMPANY OF PENNSYLVANIA, *IN REHABILITATION* AMENDED REHABILITATION PLAN

JESSICA K. ALTMAN, REHABILITATOR
PATRICK H. CANTILO, SPECIAL DEPUTY REHABILITATOR

HOW TO PROVIDE COMMENTS AND OBJECTIONS

Comments may be addressed to Patrick H. Cantilo, Special Deputy Rehabilitator, at Senior Health Insurance Company of Pennsylvania, In Rehabilitation, 550 Congressional Blvd., Suite 200, Carmel, IN 46032, or by electronic mail to plan.comments@shipltc.com.

Formal Comments were required to be made by September 15, 2020, in compliance with the June 12, 2020 Case Management Order of the Commonwealth Court of Pennsylvania, which is available at www.shipltc.com. No provision has been made by the Court for additional Formal Comments.

THIS PLAN DOCUMENT PROVIDES DETAILS ABOUT THE PLAN PROPOSED FOR THE REHABILITATION OF SHIP AS AMENDED. IT DESCRIBES IN DETAIL THE OPTIONS FROM AMONG WHICH SHIP POLICYHOLDERS CAN CHOOSE UNDER THE PLAN. EACH LONG-TERM CARE ("LTC") POLICYHOLDER WILL RECEIVE PERSONALIZED INFORMATION BEFORE HE OR SHE IS ASKED TO CHOOSE AN OPTION UNDER THE PLAN. THIS INFORMATION WILL BE PROVIDED, IN A SIMPLIFIED FORMAT, AFTER A FINAL VERSION OF THE PLAN IS APPROVED BY THE COURT.

IMPORTANT NOTICE

THE PLAN DESCRIBED BELOW, IF APPROVED BY THE COURT, WILL AFFECT SUBSTANTIALLY THE RIGHTS AND BENEFITS OF SHIP'S POLICYHOLDERS, CREDITORS, AND OTHERS. NOTHING IN THE PLAN OR RELATED DOCUMENTS CONSTITUTES, IS INTENDED AS, OR SHOULD BE TAKEN AS, LEGAL, TAX, OR OTHER ADVICE FROM THE REHABILITATOR, HER REPRESENTATIVES, OR HER CONSULTANTS. ALL PERSONS INTERESTED IN SHIP'S REHABILITATION SHOULD READ THIS PLAN DOCUMENT CAREFULLY AND CONSULT WITH THEIR OWN LEGAL, BUSINESS, FINANCIAL, TAX AND OTHER ADVISORS AS TO MATTERS CONCERNING THE PLAN DOCUMENT.

THE PLAN PROPOSES THE IDENTIFICATION OF THOSE SHIP POLICIES OF LONG-TERM CARE INSURANCE THAT ARE ACTUARIALLY PROJECTED TO BE UNDERPRICED IN PHASE ONE AND NON-SELF-SUSTAINING IN PHASE TWO, AS DEFINED IN THE PLAN DOCUMENT. THIS PLAN DOCUMENT ALSO DESCRIBES THE METHODOLOGY BY WHICH POLICYHOLDERS WHO HAVE SUCH LONG-TERM CARE POLICIES MAY ELECT FROM AMONG SEVERAL OPTIONS TO MAKE SUCH POLICIES APPROPRIATELY PRICED OR SELF-SUSTAINING.

SOME POLICYHOLDERS WILL BE FOUND TO HAVE POLICIES THAT ARE PROPERLY PRICED OR SELF-SUSTAINING. THESE POLICYHOLDERS WILL NOT BE REQUIRED TO MODIFY THEIR POLICIES BUT WILL HAVE THE OPTION TO DO SO IF THEY SO CHOOSE. FOR POLICYHOLDERS WHO ARE REQUIRED TO MAKE SUCH ELECTIONS BUT FAIL TO DO SO, THE PLAN INCLUDES AUTOMATIC DEFAULT OPTIONS.

THE MODIFICATIONS TO MAKE LTC POLICIES PROPERLY PRICED OR SELF-SUSTAINING MAY INCLUDE PERMANENT REDUCTIONS IN THE BENEFITS AVAILABLE UNDER SUCH POLICIES, PERMANENT INCREASES IN THE PREMIUM RATES THAT MUST BE PAID TO MAINTAIN SUCH POLICIES IN FORCE, OR A COMBINATION OF PERMANENT BENEFIT REDUCTIONS AND RATE INCREASES. THIS PLAN DOCUMENT DESCRIBES THE METHODOLOGY FOR SUCH MODIFICATIONS IN DETAIL BUT DOES NOT CONTAIN SPECIFIC INFORMATION ABOUT HOW THEY WOULD AFFECT ANY PARTICULAR POLICYHOLDER. THE SPECIFIC MANNER IN WHICH THE PLAN WOULD IMPACT A PARTICULAR POLICY CAN ONLY BE DETERMINED AFTER CALCULATIONS THAT WILL BE MADE DURING THE PERIOD AFTER THE PLAN IS APPROVED BY THE COURT AND BEFORE THE PLAN IS IMPLEMENTED. THEY WILL DEPEND IN PART ON WHETHER AND TO WHAT EXTENT THE PLAN IS MODIFIED. ONCE THE CALCULATIONS ARE MADE, EACH LTC POLICYHOLDER WILL RECEIVE PERSONALIZED INFORMATION FOR PURPOSES OF MAKING ELECTIONS PERMITTED UNDER THE PLAN.

THIS PLAN DOCUMENT DESCRIBES THE DETAILED AUTOMATIC PROCESS FOR DOWNGRADING POLICIES WHEN OPTION ONE IS ELECTED AND CHANGING BENEFITS WHEN OPTIONS TWO OR THREE ARE ELECTED. ALTHOUGH THESE CONSTRUCTS ARE THE PRODUCT OF EXTENSIVE ANALYSIS, THEIR EVALUATION CONTINUES AND IT IS POSSIBLE THAT THEY MAY BE FURTHER REFINED BEFORE THE PLAN IS IMPLEMENTED. IN ANY EVENT, BEFORE BEING REQUIRED TO ELECT FROM AMONG THE PLAN OPTIONS, EACH POLICYHOLDER WILL RECEIVE INDIVIDUALIZED DETAILED DATA ABOUT EACH OPTION AVAILABLE TO HIM OR HER.

THE PLAN IS DESIGNED TO REDUCE OR ELIMINATE THE SHORTFALL BETWEEN SHIP'S PROJECTED LIABILITIES AND THE ASSETS AND PREMIUMS PROJECTED TO BE AVAILABLE TO FUND SUCH LIABILITIES. THERE CAN BE NO ASSURANCE THAT THE PLAN WILL SUCCEED IN THIS GOAL. IF THE PLAN FAILS IN THIS RESPECT, IT IS POSSIBLE THAT SHIP WILL BE PLACED IN LIQUIDATION.

IN THAT EVENT, THERE CAN BE NO ASSURANCE THAT SHIP WILL BE ABLE TO FULFILL THE CONTRACTUAL OBLIGATIONS ENTAILED IN LTC POLICIES MODIFIED UNDER THE PLAN TO THE EXTENT THAT SUCH OBLIGATIONS INCLUDE UNCOVERED BENEFITS AS DEFINED IN THE PLAN DOCUMENT.

THIS PLAN DOCUMENT STRIVES TO PROVIDE AN EXPLANATION OF THE SIGNIFICANT ELEMENTS OF THE PROPOSED REHABILITATION. NONETHELESS, IT IS LIKELY THAT ISSUES WILL ARISE THAT HAVE NOT BEEN ENVISIONED IN THIS PLAN DOCUMENT, AND THAT CHANGES AND EVENTS OCCURRING AFTER THIS PLAN DOCUMENT IS FILED WITH THE COURT WILL REQUIRE ADDITIONAL ADJUSTMENTS TO THE PLAN. THE REHABILITATOR ANTICIPATES SEEKING FROM THE COURT AUTHORITY TO MAKE SUCH CHANGES, OR TAKE SUCH ADDITIONAL STEPS, IN IMPLEMENTING THE PLAN AS SHE CONCLUDES ARE NECESSARY TO GIVE EFFECT TO THE SPIRIT OF THE COURT'S ORDER APPROVING OR MODIFYING THE PLAN. THE FINAL PLAN AS IMPLEMENTED MAY THEREFORE VARY IN SOME MEASURE FROM THE DESCRIPTION IN THIS PLAN DOCUMENT.

REHABILITATION PLAN DOCUMENT

I. BASIC INFORMATION ABOUT THE PLAN

As more fully detailed below, after reporting a very large deficit in capital and surplus, and having submitted no plan to restore required surplus, on January 29, 2020, Senior Health Insurance Company of Pennsylvania (“SHIP” or the “Company”) was placed in rehabilitation by order (the “Rehabilitation Order”) of the Commonwealth Court of Pennsylvania. The Court appointed Pennsylvania Insurance Commissioner, Jessica K. Altman, as Rehabilitator. Under the Court’s order and the applicable statutes, Commissioner Altman, as Rehabilitator, has broad authority to take remedial steps to address SHIP’s financial challenges. She has engaged a Special Deputy Rehabilitator and a group of consultants who have developed this rehabilitation plan for the protection of SHIP’s policyholders and creditors.

The Rehabilitation Order required that the Rehabilitator file a preliminary plan of rehabilitation by April 22, 2020. The Rehabilitator complied with this requirement and has since received many comments, formal and informal, about that preliminary plan of rehabilitation. In addition, the Special Deputy Rehabilitator and the rehabilitation team have continued their analysis of the many issues raised by the plan. As a result, the Rehabilitator and her team have prepared this Amended Rehabilitation Plan among other things addressing many of the issues raised in those comments.

This document (“Plan Document”) is intended to provide a sufficient description of the proposed rehabilitation plan (the “Plan” or the “Amended Rehabilitation Plan”) to enable policyholders and interested parties to understand the Plan, and the Commonwealth Court to determine whether to approve, modify and approve, or disapprove the Plan.

Necessarily, many of the details of the Plan will have to be resolved during the implementation period. It is not possible to anticipate all of the implications of every aspect of the Plan before it is put in place. Nonetheless, this Plan Document provides a detailed description of how the changes contemplated by the Plan, if approved as proposed, are expected to be implemented. Many or most existing company practices will continue if the Plan is approved and implemented, and those current practices are largely not discussed in this document.

The actual choices for, and projected impact upon, each policyholder will not be known until after the Plan is finalized and its provisions are calculated by the Company’s systems. Those calculations can be expected to produce materially different results depending on the passage of time and changes in both general and policyholder-specific circumstances. The cost and delay attendant to making the calculations for every policyholder in advance of approval are not justified given that

the results will be too inaccurate to be meaningful. However, beginning at page 63 there are several illustrations of Plan options for several representative policyholders. This Plan Document therefore provides relative and directional guidance about Plan options rather than precise policy-level details for each one.

UNTIL THE PLAN EFFECTIVE DATE, EVEN AFTER THE PLAN IS APPROVED WITH OR WITHOUT MODIFICATION, POLICYHOLDERS WILL HAVE THE SAME RIGHTS, BENEFITS, OPTIONS, AND OBLIGATIONS AS THEY DO NOW UNLESS THE PLAN SPECIFICALLY PROVIDES OTHERWISE.

A. SUMMARY DESCRIPTION OF THE PLAN

The following description of the Plan is intended to provide policyholders the basic general information required for them to understand the options that will be available to them if the Plan is implemented as proposed. Much more detail about the Plan and related matters is provided in the sections that follow.

1. GOAL AND PHASES OF THE PLAN

Recognizing that SHIP faces a substantial Funding Gap (described on page 81), the aim of the Plan is to increase revenues and reduce liabilities so as to narrow or eliminate that gap through a combination of “**Policy Modifications**” for most of the approximately 45,000 policies in force as of the filing of the Plan. Although the Plan has certain default provisions that apply when policyholders fail to make effective choices, it is structured to maximize policyholder choice, based on each person’s individual circumstances and preferences. In proposing the Plan, the Rehabilitator recognizes that many policyholders have costly policies that provide far more coverage than the policyholders are reasonably likely to require. Accordingly, a key element of the Plan is to enable policyholders to remove coverages that are not essential or even necessary, thereby helping to narrow the Funding Gap and potentially reducing their own premium, or at least avoiding part or all of a necessary premium rate increase.

The Plan is designed to operate in three phases. **Phase One**, commencing immediately following final approval, is the principal phase and will strive to reduce substantially or eliminate the Funding Gap. In this phase it will be determined which policies require modification because their Current Premium is below the “**If Knew Premium**” for the benefits offered by the policies. The If Knew Premium is an accepted methodology for setting premiums for LTCI policies, more fully explained at page 22. Policyholders with Current Premium (see page 107) below the If Knew Premium will have to increase their premiums or reduce their benefits so that the premium will be adequate on an If Knew Premium basis. Policyholders whose Current Premium is at or above the If Knew Premium will not be required to modify their policies (increase their premiums or reduce their benefits) but may choose to make some such modifications if they prefer to do so, as explained below.

In **Phase Two**, the results of Phase One will be evaluated and additional Policy Modifications may be necessary for certain policies. Modifications in Phase Two will be based on **Self-sustaining Premiums** as explained at page 23. The goal of Phase Two will be to eliminate any Funding Gap not eliminated in Phase One. Only policies the premiums of which are not already Self-sustaining, which are not **Fully Covered** (*i.e.*, they are not within the limits of, or otherwise not covered by, the applicable Guaranty Association - see page 109), and which have not selected **Option Two** or **Option Three** (described below) in Phase One, may be modified in Phase Two.

In **Phase Three**, the Company will complete the run-off of the LTCI business in force. If there are sufficient funds to do so, in Phase Three the Rehabilitator will make payments to policyholders and other creditors on account of any amounts owed to them.

2. POLICYHOLDER ELECTIONS

This section describes the key elements of these policyholder options. They are described in full detail beginning on page 19. In Phase One every policyholder whose Current Premium is below the If Knew Premium for the policy's benefits will be required to elect one of four options. Those whose Current Premium is at or above the If Knew Premium may keep their current policies without modification or may elect Option Two or Option Three, described below.

- a. Option One will be to continue paying the Current Premium but (if it is less than the If Knew Premium) have benefits reduced in accordance with Plan provisions so that the premium for the reduced benefits on an If Knew Premium basis is equal to the Current Premium. The benefit reductions will be selected automatically by the Plan.
- b. Option Two will be to select certain policy endorsements that provide selected essential benefits (some times greater than benefits provided by Option One) at a lower premium than Option Four. This option, of which an enhanced version will also be available, will not be subject to further rate increases or benefit reductions in Phase Two of the Plan. Option Two is designed to provide reasonable coverage at reasonable premium rates.
- c. Option Three will be a **Non-forfeiture Option** (NFO) through which the policyholder will receive a Reduced Paid-up (RPU) policy providing limited benefits but for which no future premiums will be charged. Under the Plan, this option will include more generous benefits than the typical industry non-forfeiture option or reduced paid-up policy, most notably in that it will offer as much as a 30-month benefit period unless the current policy has a shorter benefit period. Moreover, policyholders who select this option will never have to pay additional premiums and this policy will never lapse.
- d. Option Four will be to retain the current policy benefits and pay the corresponding If Knew Premium (unless equal to or lower than the Current Premium that the

policyholder is paying). For many policyholders this may require a substantial increase in premiums.

Policyholders paying premium at or above the If Knew Premium may elect to make no changes (or make no election at all and leave their policies unchanged) or may elect Option Two or Option Three if preferable for their individual circumstances. Options One and Four would not result in any changes for such policyholders.

Before being required to make an election, each policyholder will receive information detailing the premiums and benefits of each option. Special rules apply to policyholders who are not currently paying premium due to a Premium Waiver provision in their or their spouses' policies. These are explained fully beginning at page 26. Generally, such policyholders who elect Option Two or Option Four and whose Current Premium (the premium they would be paying but for the waiver) is lower than the If Knew Premium, will be required to pay a Differential Premium. The Differential Premium consists of the difference between (1) the premium they would be paying if there were not a waiver in effect (the Current Premium), and (2) the If Knew Premium corresponding to the policy. See Section II.E.6, page 24. If the Premium Waiver terminates, such policyholders will be required to pay the full applicable If Knew Premium (or Self-sustaining Premium if in Phase Two). Substantially the same options will be offered to policyholders on claim.

3. NO WORSE THAN LIQUIDATION

Every policyholder will be offered at least one option in Phase One that will provide him or her potential benefits equal to or exceeding those that would be available from the applicable Guaranty Association in the event of liquidation, but generally no more than the current policy benefits.

- a. Policyholders with Current Premium at or above If Knew Premium in fact will not be required to make any changes in their policies. Thus they will be treated at least as well as they would in liquidation, and perhaps better if their policies offer benefits in excess of those that would be offered by Guaranty Associations in liquidation.
- b. Option Two will provide at least the benefit value that the Guaranty Association would provide in liquidation for every policyholder whose current policy provides benefits in excess of those limits. In many cases, other options will also provide the benefits that would be available from Guaranty Associations in liquidation. For policyholders with current benefits below Guaranty Association limits, Option Two will provide at least the current level of benefits.

In that respect, the Plan is designed to place policyholders in no worse a position than they would face in a liquidation of SHIP.

4. DEFAULT OPTIONS

For every policyholder there will be a Default Option which will apply automatically if no proper election is made. In Phase One, for every policyholder whose Current Premium is at or above the If Knew Premium, the Default Option will be to leave the policy unchanged. However, if the Current Premium is below the If Knew Premium, there will be a Default Option that will be identified in the election materials (and is illustrated on page 62). In general, the Default Option will be Option One (the downgrade) for policyholders on Premium Waiver. However, if the Non-forfeiture Option (NFO) would provide these policyholders better benefits (after taking premium into account) than the downgrade, the NFO will be the Default Option. For policyholders who are paying premium, Option Two (the Basic Policy Endorsements - see Section III.A.2.d, page 44) will be the Default Option.

In Phase Two, for every policyholder whose Current Premium is at or above the Self-sustaining level, the Default Option will be to leave the policy unchanged. However, if the Current Premium is below the Self-sustaining level, there will be a Default Option similar to Phase One. In general, the Default Option will be Option One (the downgrade) for policyholders on Premium Waiver. However, if the Non-forfeiture Option (NFO) would provide these policyholders better benefits (after taking premium into account) than the downgrade, the NFO will be the Default Option. For policyholders who are paying premium, Option Two (the Basic Policy Endorsements) will be the Default Option.

The Default Option will apply if the policyholder fails to make an election by the applicable deadline or submits an election form that does not clearly identify the policyholder's election (for example because two or more options are elected). For a policyholder whose Current Premium is equal to, or higher than, the If Knew Premium (or Self-sustaining level in Phase Two), the Default Option will be to leave the policy unchanged, and no changes will be made to the policy unless specifically elected, even if the policyholder does not submit a proper completed election form. The Rehabilitator believes that between 25% and 40% of policyholders may be in this category.

5. CHANGES IN POLICYHOLDER ELECTIONS

Policyholders will not have the opportunity to change their elections after the Policyholder Election Date. Before the Policyholder Election Date, policyholders may change their elections by submitting new Policyholder Election Forms if they are received before the Policyholder Election Date. A valid new Policyholder Election Form received before the Policyholder Election Date will replace and invalidate a valid or invalid Policyholder Election Date submitted previously. If time permits, the Rehabilitator will attempt to reach policyholders who submit defective election forms (for example because they make no valid election or make more than one election) to attempt to correct the error. However, if there is insufficient time before the Policyholder Election Date, or if the Rehabilitator cannot reach the policyholder, the result of a submitting a defective election form will be that the Default Option will be selected automatically under the Plan.

6. PHASE TWO ELECTIONS

Similar options as those offered in Phase One will be offered to policyholders in Phase Two of the Plan, but the premium modification will be based on attaining Self-sustaining Premiums. It is important to note that policyholders who elect Option One or Option Four in Phase One, and whose policies after Phase One are not Self-sustaining or Fully Covered (*i.e.*, within Guaranty Association limits), may face additional premium rate increases or benefit reductions (sometimes substantial) in Phase Two. Policyholders who elect Option Two or Option Three will NOT face additional rate increases or benefit reductions in Phase Two of the Plan. In addition, policyholders who select Option Three will never pay any more premiums.

B. KEY CONSIDERATIONS FOR POLICYHOLDERS

For every policyholder there will always be two competing considerations: the anticipated need for LTC benefits and the cost of maintaining coverage for those benefits. As is true of many similar LTCI blocks in the market, many of SHIP's policies have historically been substantially underpriced and policyholders have not been asked to pay the premium that would be necessary to assure that those benefits will be available when needed. This is not a sustainable model and is a key contributor to SHIP's present financial challenge. The Plan is designed to enable policyholders to balance these competing considerations in the context of their individual circumstances. Put simply, not every policyholder will need the same level of benefits in the future and not every policyholder will be in a position to pay an appropriate premium for the most generous combinations of LTC benefits.

In determining which option to elect, each policyholder should consider what is a reasonable level of benefits to be provided by his or her policy given his or her likely future needs, and the ability of the policyholder to pay for such benefits. For example, there are very material differences between the costs of a policy that provides 5% Inflation Protection, one that provides 2% Inflation Protection, and one that provides no Inflation Protection at all. Similarly, there are material differences between the costs of a policy with lifetime benefits, one with a five-year benefit period, and one with a two-year benefit period. Moreover, features like Premium Waivers, Restoration of Benefits, Return of Premium, short Elimination Periods, indemnity rather than reimbursement, and "traditional" benefit triggers can all add materially to the cost of a policy but may not be indispensable to every policyholder.

The Plan is constructed to offer policyholders an array of options that can be responsive to the widely divergent circumstances of SHIP's policyholders. For example, for policyholders who cannot afford any premium rate increases, Option One (maintaining Current Premium and reducing benefits) may be the best option in that it eliminates rate increases in Phase One of the Plan. However, for some of those policyholders, the reduction in benefits necessary to achieve that goal may leave the policy with benefits deemed by the policyholders to be insufficient. Moreover, policyholders who select Option One may face additional rate increases or benefit reductions in Phase Two of the Plan. For such policyholders Options Two or Three may be preferable. Option Two is designed to provide a reasonable combination of benefits at a reasonable premium. For many

policyholders it is likely that the premium required for Option Two will be less than what would be required for Option Four in order to maintain the current policy benefits. On the other hand for these policyholders, the benefits offered in Option Two may be more acceptable than those provided by Option One. An advantage of Option Two is that it would not be subject to rate increases or benefit reductions in Phase Two of the Plan. For other policyholders, Option Three (the Non-forfeiture Option) may be optimal. That would be a policy with modest benefits but for which no more premium would ever be required, even if the Company were placed in liquidation.

For those fortunate policyholders who can afford any rate increase, Option Four might be attractive in that it would enable them to retain the most generous benefits, even at very high premium rates. But many of these policyholders would face very large rate increases when selecting Option Four. This is because, in many cases, the premiums for those policies are substantially lower than what they should be relative to the benefits promised. Moreover, policyholders selecting Option Four would face the possibility of additional substantial rate increases or benefit reductions in Phase Two of the Plan.

There will also be a number of policyholders whose Current Premiums are already appropriate. Such policyholders will not be required to make any election. For these policyholders, selecting Option One or Option Four would be meaningless because neither their premiums nor benefits would change in either case. However, they will be given the opportunity to select Option Two or Option Three if that would be better for their circumstances.

It is not practical to offer enough options to meet precisely every policyholder's expectations or preferences. Doing so would make the Plan too complicated and costly. The Special Deputy Rehabilitator has led a team that has devoted intense efforts to the development of a manageable choice of options that recognizes the major differences in policyholders' circumstances. While no one option may be ideal for a particular policyholder, the differences among the options are such that it is hoped that every policyholder will find at least one option that will enable that policyholder to emerge from SHIP's rehabilitation with adequate long-term care protection at reasonable premiums.

C. COVID-19

In December 2019, a new virus emerged in Wuhan, China, identified in due course as severe acute respiratory syndrome coronavirus 2, resulting in a pandemic of coronavirus disease 2019 ("COVID-19"). As of the filing of this Amended Plan, at least 38 million people have been infected worldwide, resulting in at least 1,000,000 deaths. In the U.S., the first cases were reported in January 2020, with total estimates now exceeding eight million and fatalities exceeding 222,000. COVID-19 is particularly threatening to the elderly and those with impaired respiratory systems or other underlying health conditions. While intense work continues around the globe, no effective cure has yet emerged. There has been progress in efforts to develop one or more effective vaccines, but they are not expected to be widely available for months at best. If the many leading vaccine candidates turn out to be less useful than initial results indicate, the delay could be far longer. The implications of COVID-19 for the Plan fall in three major areas.

1. **CASE MANAGEMENT:** Restrictions on travel and personal contact imposed as preventive measures have caused SHIP to revise, at least temporarily, the manner in which it confirms eligibility for benefits and other aspects of case management. Although current protocols emphasize other means of communication, the Company remains attentive to the needs of its insureds as well as to the important function of preventing fraud, waste and abuse. At this juncture, these changes are not expected to have a material effect on the Plan or on the options it will offer to eligible policyholders.
2. **MORTALITY AND MORBIDITY:** Although sufficient reliable data is not yet available, preliminary data indicates that COVID-19 may be causing a decrease in the number of SHIP insureds filing claims and an increase in the number of deaths among the aging population insured by SHIP. While these unfortunate developments may combine to reduce slightly SHIP's deficit, it is possible that, at least in part, they are temporary. The Rehabilitator cannot yet project what, if any permanent impact, these consequences will have on the Plan.
3. **SUSPENSION OF PREMIUM PAYMENTS:** Many SHIP policyholders have delayed making their required premium payment. While SHIP has delayed lapsing or cancelling policies for non-payment of premiums because of the exceptional circumstances, protracted delays in making these payments aggravate substantially SHIP's financial difficulties. Some regulatory agencies have requested or required that insurers (including SHIP) accommodate some premium deferrals, but many of these deferrals are also expiring or will soon expire. Continued non-payment of premium beyond the expiration of the deferral period is expected to result in an increased number of policy terminations. The Rehabilitator has already observed a slight increase in the number of policy terminations that appear not to be the result of increased insured mortality.

D. TIMELINE

The order placing SHIP in rehabilitation required the Rehabilitator to submit to the Court a preliminary plan for SHIP's rehabilitation by April 22, 2020, and a subsequent case management order has provided for policyholders and other interested parties to comment on the Plan through September 15, 2020. Around 100 people have submitted comments, some formal but most informal, and a few parties have also been admitted as intervenors. This Amended Plan reflects the analysis of those comments and continuing work by the rehabilitation team.

At page 30 is a preliminary sequence of past and expected events in the presentation and implementation of the Plan. While it is difficult to predict future events in a matter of this complexity and under the current exceptional circumstances, the Rehabilitator expects that a pre-hearing conference with the Court will occur within the next few weeks. Because of the extraordinary circumstances facing our nation, the Rehabilitator asked the Court provide policyholders and others a prolonged period of time to review the Plan before the deadline for comments. Depending on the nature of such comments and formal objections to the Plan filed with the Court, a hearing on the Plan may occur as early as the last quarter of 2020 or early next year. Depending on the outcome of that hearing, implementation of the Plan might commence early in

2021. In that event, policyholders may be asked to make their elections in the first half of 2021. However, this matter is complex and delays in this timetable are very possible.

E. RATIONALE FOR THE PLAN

The Plan hinges on two essential assumptions: (1) in order to maximize policyholder protection, the Plan must strive to reduce the Funding Gap by increasing revenue or reducing liabilities; and (2) while premium rate increases can increase revenue by some increment, elimination by policyholders of long-term care coverage they may not truly need or be able to afford will go much further in remedying the Company's dire financial situation. The Rehabilitator believes that the Plan structure, which is the product of extended analysis by industry experts, offers a reasonable prospect of success based on sound principles.

1. The Plan gives policyholders more control over their fates, allowing each to elect the path best suited to his or her circumstances.
2. All policyholders will have at least one option for preserving their current coverage and at least one option for preserving their Current Premium.
3. Target premiums under the Plan take rate increase history and product differences into account, improving the equity of the premium rate structure. Generally, policyholders whose policies were issued in states that have approved comparatively more rate increases over preceding years will face lower premium increases or benefit reductions under the Plan.
4. In every case, policyholders will have at least one option (Option Two) calibrated to provide outcomes no less favorable than liquidation, including Guaranty Association benefits.
5. The revenue from rate increases under the Plan will go to pay claims and expenses of implementing the Plan whereas, in liquidation, Guaranty Association rate increases have historically been used to reduce assessment burdens for member insurers and not to increase the ability to pay claims.
6. Though certainly not guaranteed, the Plan structure inherently creates the possibility of greatly reducing, if not eliminating, the Company's deficit.

F. PLAN PROJECTIONS

The magnitude of SHIP's Funding Gap or deficit as of the Effective Date is difficult to predict because it is dependent on several changing circumstances over which the Rehabilitator has little or no control. However, the Rehabilitator believes that, depending on policyholder elections, Phase One of the Plan could greatly reduce, if not eliminate, the Funding Gap. Solely for purposes of directional guidance, the Rehabilitator has prepared some hypothetical results that could be expected from operation of the Plan as proposed. For purposes of these projections, it is assumed that

SHIP's Funding Gap as of the Effective Date will be \$1.2 billion. It should be emphasized that these are hypothetical projections dependent on future events that may evolve in a manner different from the assumptions in the projections. Subject to these caveats, it is the belief of the Rehabilitator that if the Plan is implemented as proposed it would produce the following results:

1. If 100 % of disabled SHIP LTC policyholders and 80% of active SHIP LTC policyholders elect Option Four (retaining the current policy benefits and paying the rate increases necessary to reach If Knew Premium), the Funding Gap will be reduced by about \$500 million, less than 50%, and a substantial additional reduction will have to be generated by Phase Two of the Plan. This scenario assumes that the remaining 20% of active policyholders would select Options One, Two or Three.
2. If 100 % of disabled policyholders and 65% of active policyholders elected Option Four (the remaining 35% of active policyholders electing one of the other Options), the Funding Gap would be reduced by an additional \$150 million, a bit over half of the deficit.
3. If 100 % of disabled policyholders elected Option Four and 100% of active policyholders elected one of Options One, Two or Three, the Funding Gap would be reduced by between 73% (over \$850 million) and 86% (over \$1 billion).
4. In any of these scenarios, election of an option other than Option Four by a material number of disabled policyholders would materially improve the results of the Plan in reducing the Funding Gap.
5. If 100% of SHIP's active and disabled policyholders elect either Option Two or Option Three, the entire Funding Gap would be eliminated and Phase Two would be unnecessary. If they elected Option One, about 93% of the Funding Gap would be eliminated.

As these projections suggest, the probability of the Plan's success increases materially the more policyholders elect to give up their benefit-rich policies and elect more affordable options. That anticipated probability of success does not vary nearly as substantially by choices among Options One, Two or Three as it does by choices between any the other options vs. Option Four.

II. GENERAL PLAN DETAILS AND TECHNICAL INFORMATION

This Section of the Plan Document provides detailed and technical explanations of proposed Rehabilitation Plan provisions for modification of SHIP's long-term care insurance policies. As modeling and analysis continue, additional refinements are possible. However, the fundamental Plan structure is unlikely to change unless the Court requires it. The following notes may aid in understanding this structure.

A. PLAN PHASES

The Plan is contemplated to occur in three phases. In **Phase One**, all LTC policies that are not in Non-forfeiture Option status will be evaluated and the holders of those whose premiums are below the If Knew Premium level will be required to elect options to modify premiums or benefits, or some combination of the two. The results of this phase for the Company can vary materially depending on Policyholder Elections. They will be monitored and evaluated after Phase One becomes effective to gauge the results. In due course a decision will be made as to whether and, if so, how to implement Phase Two. **Phase Two** will be aimed at narrowing or eliminating any remaining deficit and its timing will depend on the results achieved in Phase One. Under the terms of the Plan, in Phase Two only policies the holders of which have not elected Option Two (Basic Policy Endorsements - see section III.A.2.d) or Option Three (Non-forfeiture Option - see Section III.A.3), that are not Self-sustaining in that they are notionally projected to create unfunded liability, and which would not be Fully Covered by Guaranty Associations, will be affected. Holders of these remaining policies will again be asked to “right-size” them by modifying premiums or benefits, or a combination of the two. For that purpose, they will be offered options very similar to those offered in Phase One. Depending on the results of Phase One, Phase Two may also include additional remedial measures. In **Phase Three** SHIP will conclude the run-off of its business in force, as modified by the Plan. In the event that funds are available, payment will be made to agents, ceding companies, policyholders, and other creditors on account of sums owed to them.

B. POLICYHOLDER CATEGORIES

1. For Plan implementation purposes, policyholders are sorted into eight main categories, four each in Phase One and in Phase Two:
 - (1) Active - premium paying;
 - (2) Active - not premium paying (further segregated between lifetime or dual Premium Waiver);
 - (3) Disabled - premium paying; and
 - (4) Disabled - not premium paying.
2. There may be some policyholders who do not fit neatly into the Plan’s defined policyholder categories in each Phase, though none have yet been identified. If so, those will be addressed on an *ad hoc* basis.

C. POLICYHOLDER OPTIONS

1. In each category, policyholders whose Current Premiums are below the If Knew Premium rate for their policies will have four choices, including the ability to take a Non-forfeiture Option (NFO) on which no additional premium will be due. No other cash-out or buy-back option will be included. Generally, the choices provided by the Plan will be:

- a. **Option One** - Keep the Current Premium (or Premium Waiver) and downgrade the policy to specified reduced benefits in a manner determined automatically by the Plan. The **Downgrade Process** is explained beginning at page 38. This will be solely a benefit reduction option;
 - b. **Option Two** - Elect **Basic Policy Endorsements** (making the policy one designed to provide reasonable benefits and premiums - see Section III.A.2.d, page 44) at If Knew Premium (as defined below) in Phase One or at Self-sustaining Premium if elected in Phase Two. The Basic Policy Endorsements modify the existing policy to one with generally more affordable premiums than would be charged for the current policy benefits on an If Knew basis and more limited benefits when compared to the current policy. This option may entail both premium increases and benefit reductions for many policyholders, but premium increases will almost always be lower than under Option Four. For some policyholders it may entail a premium reduction. Many policyholders will be offered two variations of this option, a standard version and an enhanced alternative. Details of its provisions are laid out in Section III.A.2.d, page 44, below. As explained below, policyholders who elect this option in Phase One will not be asked to make Policy Modifications in Phase Two;
 - c. **Option Three** - Elect a limited benefit Non-forfeiture Option, a reduced paid up policy on which no additional premium will ever be paid (see Section III.A.3, page 46); and
 - d. **Option Four** - Keep the current policy benefits and accept a premium increase. The new premium will be (as defined below) the **Phase One Premium** in Phase One and the Self-sustaining Premium in Phase Two. This will be solely a premium increase option.
2. In summary, under the Plan, policyholders whose Current Premiums are below the If Knew Premium for their policies will be able to: (a) keep their current premium with downgraded benefits, (b) choose Basic Policy Endorsements, (c) take a NFO, or (d) to keep their current benefits and pay additional premium. These will be the only options available under the Plan. Other options that are sometimes available in particular states in response to approved rate increases are not offered under the Plan.
 3. As noted above, a Default Option will apply if a policyholder required to do so fails to make a valid election by the applicable deadline. For policyholders who are paying premium, Option Two (the Basic Policy Endorsements) will be the Default Option. For policyholders on Premium Waiver, the Default Option will be Option One (the downgrade) unless the NFO would provide these policyholders better benefits.
 4. In Phase One, the estimated 25% to 40% of policyholders whose Current Premium on the Determination Date (see page 108) will be at or above the If Knew Premium for the benefits offered by their policies need not modify their policies, and their policies would not be

changed by selecting Option One or Option Four. Such policyholders may choose to do nothing, or they may select Option Two or Option Three if they wish to do so to accommodate their individual circumstances, for example to reduce their premiums or to avoid the possibility of a Phase Two rate increase. The Default Option for these policyholders will be that their policies remain unchanged.

5. Subject to the orders of the Commonwealth Court of Pennsylvania (***Commonwealth Court*** - which is the rehabilitation court), the Plan contemplates that Basic Policy Endorsements elected in Phase One (Option Two) will be immune from Phase Two changes unless the Company is placed in liquidation. Policyholders who elect this option in Phase One generally will not face premium rate increases or additional benefit reductions in Phase Two of the Plan.
6. However, certain policyholders paying the lower ***Phase One Differential Premium*** or ***If Knew Differential Premium*** due to a Premium Waiver may be required to begin paying the full Phase One Premium or If Knew Premium if the Premium Waiver no longer applies (for example because a policyholder on claim recovers). Similarly, in Phase Two certain policyholders paying the ***Self-sustaining Differential Premium*** due to a Premium Waiver may be required to begin paying the full Self-sustaining Premium if the Premium Waiver no longer applies (again, for example, because a policyholder on claim recovers). See Section III.A.2.c, page 44.
7. Non-forfeiture Options elected in Phase One will not be subject to change thereafter, including in Phase Two or if the Company is placed in liquidation.
8. It is important to note, and policyholders will be advised before making such elections, that policies for which Options One or Option Four are chosen in Phase One may be subject to additional modifications in Phase Two. Moreover, the timing and details of the modifications that may be required in Phase Two will not be known to policyholders when they make their Phase One elections. In particular, policyholders will be advised that options to retain benefits that generate low premium rate increases in Phase One may result in additional premium rate increases or benefit reductions in Phase Two due to differences in the methodologies used to calculate premium rates in each phase.
9. The exceptions to this possibility of changes in Phase Two are the election of Basic Policy Endorsements or NFO (Options Two and Three, respectively) in Phase One. As noted below (see Section III.A.2.c, page 44), so long as the Plan remains in effect, and unless the Commonwealth Court orders otherwise, the Basic Policy Endorsements elected in Phase One will be immune from Phase Two changes except that (as explained above in Section II.C.5) certain policyholders on premium waiver (or their spouses) may be required to pay full Phase One Premium or If Knew Premium (instead of differential premium) when the waiver ceases to apply. The NFO is expected to remain permanent through policy termination.

10. The approximately 9,500 policyholders who have already chosen to replace their policies with Non-forfeiture Options before the Plan is implemented will not be asked, or have the ability, to make any changes to their policies as part of the Plan.
11. Beginning on the applicable Effective Date and while the Rehabilitation Plan is in effect, policyholders who fail to pay their premiums when due, or who otherwise terminate or lapse their policies voluntarily, will receive a notice that, as of the date on which the unpaid premium was due, or as of the date of their termination request or lapse notice, their policies will be converted to Non-forfeiture Options. However, they may request in writing that their policies be fully terminated. This would not apply to policyholders who have converted their policies to NFOs, from whom no premium is due.

D. CLAIM STATUS

For purposes of Policyholder Elections:

1. After the Plan is approved, a policyholder will be deemed to be on claim if he or she is receiving health care services that would be reimbursable by the Company were it not for an ***Elimination Period*** (EP) that has not been satisfied. Such a policyholder will be expected to begin receiving indemnity or reimbursement payments as soon as the EP is satisfied.
2. The Company may also determine that a policyholder has been on claim as of an earlier date when that policyholder has been receiving health care services reimbursable by the Company but has not reported such services to the Company. Such a policyholder is expected to be reimbursed for prior covered services when they are reported to the Company, subject to policy terms and conditions and applicable law.

E. PREMIUM RATE DETERMINATIONS

1. The Plan contemplates using different target premium rates in each phase. In the first phase, the target premium will be the Phase One Premium (a variation of If Knew Premium that can be no less than the Current Premium) for policyholders electing Option Four (retain their current benefits). Since in Option One, the premium remains the same, benefits are reduced to what that premium would “buy” at If Knew Premium rates as explained on page 37. For policyholders selecting Option One (retain Current Premium) or Option Two (Basic Policy Endorsements), the target premium will be the If Knew Premium for the policy’s benefits. In Phase Two the target premium will be the Self-sustaining Premium.
2. The **If Knew Premium** rate is the rate that, if charged from inception, would have produced the greater of the initial target loss ratio or the minimum loss ratio applicable to the policy form. For the sake of simplicity, this will be assumed to be 60%. If Knew Premium rates are intended to price policies adequately on a lifetime basis, but not to recoup losses due to inadequate pricing in the past.

3. For each policy for which the Current Premium is more than the If Knew Premium, the Phase One Premium will be the Current Premium. In short, in Phase One that policyholder can (but is not required to) retain the current policy at Current Premium without change. Correspondingly, for policies with a Current Premium lower than the If Knew Premium (which in this case would be the Phase One Premium), the downgrade required to maintain the Current Premium will be a reduction in benefits to a level that produces an If Knew Premium equal to the Current Premium as explained beginning on page 37.
4. Self-sustaining Premium is the premium calculated by determining the amount of premium required to eliminate a policy's **Shortfall Amount**.
 - a. The Shortfall Amount is the difference between the policy's **Projected Benefit Amount** (PBA) and its **Projected Credit Amount** (PCA) where the difference is more than zero. The Shortfall Amount can also be expressed as a policy's **Gross Premium Reserve** (GPR) less its **Allocated Assets**. If the difference is zero or less there is no shortfall and the policy is Self-sustaining.
 - b. The PBA is the present value as of the valuation date of the sum of (1) unpaid expected policy benefits and (2) unpaid expected policy expenses. For purposes of this determination "expected" consists of best estimate assumptions.
 - c. The PCA is the sum of (1) the present value as of the valuation date of expected premiums, adjusted for future premium increases reasonably expected to be put into effect and (2) the assets allocated to that policy as described below in subparagraph II.E.4.e, page 23. Again, for purposes of this determination "expected" consists of best estimate assumptions.
 - d. **Allocable Assets** is a notional determination consisting of the Company's invested assets less reserves for costs of administration, contingencies, and certain debts of higher priority. The **Asset/Premium Ratio** is the ratio of Allocable Assets to the aggregate Accumulated Premiums for all LTC policies. **Accumulated Premium** is the total Gross Premiums paid, and premiums waived, under a policy or group of policies from inception until the valuation date.
 - e. **Allocated Assets** are the portion of the Company's Allocable Assets notionally allocated to a particular policy in accordance with the terms of, and solely for the purposes of calculations described in, the Plan. Such asset allocations are nominal and do not give a policyholder a right to any Allocated Assets or any particular sum of money. The assets allocated to each policy equal the product of the policy's Accumulated Premium times the Asset/Premium Ratio. This approach is designed to allocate assets equitably among policyholders solely for the purpose of calculating Phase Two premiums.

TABLE 1: ILLUSTRATION OF ASSET ALLOCATION		
1	Total Invested Assets	\$1,500,000,000
2	Reserve for Costs of Administration	\$200,000,000
3	Contingencies	\$10,000,000
4	Priority Debts	\$50,000,000
5	Total Allocable Assets (L1 - (L2...L4))	\$1,240,000,000
6	Total Accumulated Premium	\$3,480,000,000
7	Asset/Premium Ratio (L5/L6)	35.63%
8	Accumulated Premium - Hypothetical Policy	\$50,000
9	Allocated Assets Hypothetical Active Policy (L7 X L8)	\$17,816

5. For policyholders on claim in Phase Two, the Self-sustaining Premium will be determined as if they were not on claim. For this purpose, assets will be allocated notionally to policies on claim as explained above.
6. In certain instances the Plan uses a Differential Premium, which in each case is the difference between the target premium (Phase One Premium, If Knew Premium, or Self-sustaining Premium, depending on the option elected and whether this occurs in Phase One or Phase Two) and the Current Premium the policyholder would be paying if not on waiver. This element of the Plan is intended to avoid having premium-paying policyholders subsidize policyholders on premium waiver unfairly. Because the Phase One Differential Premium calculation is also based on If Knew Premium, policies on waiver that would require their holders to pay premium at or above If Knew Premium but for the waiver would not require Differential Premium. Thus, Differential Premium would only be charged to policies the waived premium of which would be deemed inadequate under Plan provisions. Differential Premium can never be less than zero. In cases in which the Current Premium is higher than the target rate, there would be no Differential Premium.
 - a. Thus, in Phase One the Plan requires policyholders not paying premium, who elected Option Four (retain current benefits), to pay the Phase One Differential Premium consisting of the Phase One Premium less the Current Premium they would be paying if they were not on waiver (but not less than zero).
 - b. Policyholders not paying premium who chose Option Two (Basic Policy Endorsements) in Phase One and whose current (waived) premium before making that election was lower than the If Knew Premium for the Basic Policy Endorsements will be required to pay the If Knew Differential Premium. This is the difference

between the If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements and the Current (waived) Premium for the policy, both of which are set as if the policyholder did not have a Premium Waiver in effect.

- c. Similarly, in Phase Two the Plan requires policyholders not paying premium who selected Option Two (Basic Policy Endorsements) or Option Four (retain current benefits) to pay the Self-sustaining Differential Premium consisting of the Self-sustaining Premium less the Current Premium they would be paying if they were not on waiver (but not less than zero).

TABLE 2: DIFFERENTIAL PREMIUM			
		CASE 1	CASE 2
1	CURRENT PREMIUM	\$2,300	\$3,200
2	IF KNEW PREMIUM	\$2,250	\$3,500
3	IF KNEW DIFFERENTIAL PREMIUM (L2-L1, BUT NOT <0)	\$0	\$300
4	PHASE ONE PREMIUM	\$2,300	\$3,500
5	PHASE ONE DIFFERENTIAL PREMIUM (L4-L1, BUT NOT <0)	\$0	\$300
6	SELF-SUSTAINING PREMIUMS	\$3,100	\$5,000
7	SELF-SUSTAINING DIFFERENTIAL PREMIUM (L6-L1, BUT NOT <0)	\$800	\$1,800

7. For a policy's Shortfall Amount to be completely covered, the policyholder would need to pay the entire Self-sustaining Premium. The result of policyholders on premium waiver only paying Self-sustaining Differential Premiums is that the premiums charged for these policies are insufficient to cover their Shortfall Amount. To address the remaining shortfall that is not covered by these policies, a *Self-sustaining Adjustment Factor* will be calculated.
- a. The Self-sustaining adjustment factor will be a multiplicative adjustment applied to all policies' Self-sustaining premiums. It will be calculated to ensure that the sum of total premiums paid are sufficient to cover the total Shortfall Amount.
- b. The Self-sustaining Adjustment Factor will be calculated for all policies in the aggregate. The same adjustment will be applied to all policies' Self-sustaining Premiums.
- c. Policies on premium waiver are required to pay the Self-sustaining Differential Premium consisting of the Self-sustaining Premium less the Current Premium they would be paying if they were not on waiver (but not less than zero). The Self-

sustaining Adjustment Factor will be calculated to ensure that the sum of Self-sustaining Premiums paid by premium-paying policyholders and Self-sustaining Differential Premiums paid by policyholders on waiver are sufficient to cover the total Shortfall Amount.

F. PENDING RATE INCREASES

There are a number of LTC policies for which SHIP has sought regulatory approval of premium rate increases that has been granted but the approved premium rate increases have not yet become effective. The following guidelines apply to such pending rate increases.

1. The Plan will assume that the approved premium rate increases will be implemented on the earlier of (a) the date on which they would have been implemented absent the Plan, and (b) the Plan Effective Date for each policy.
2. The Policyholder Election Package will describe premium rates for each option under the Plan reflecting implementation of the approved rate increases. Thus, for some policyholders the Current Premium shown in the Policyholder Election Package will be higher than the policyholder's actual current premium by the amount of the pending approved premium rate increase. This will be true for policyholders for whom the approved premium rate increase would not take effect until after the Plan Effective Date if the Plan were not implemented.

G. PREMIUM WAIVERS

1. SHIP LTC policies may contain one or more ***Premium Waiver*** provisions under which a policyholder is permitted to discontinue paying premiums and maintain the policy in force during a period of covered care or under circumstances specified in the policy.
 - a. Under a ***Claim Waiver of Premium*** (WOP) provision, a policyholder who receives benefits under his or her policy for a specified period of time (such as 90 days) is no longer required to pay premiums for coverage after that time period as long as the policyholder remains eligible for benefits and/or receives a specified level of care. Once the policyholder's eligibility for benefits ends, the policyholder is required to resume paying premiums in order to keep the policy in force.
 - b. Under a ***Dual Waiver of Premium*** (DWOP) provision, also called "Spousal Waiver of Premium," a policyholder may suspend premium payments during the time that a spouse qualifies for waiver of premium.
 - c. The ***Lifetime Waiver of Premium*** provision permits suspension of premium payments upon the death of a covered spouse after a qualifying period (typically five, seven, or ten years). The Lifetime Waiver of Premium provision, as the name implies, is permanent.

2. The Plan affects these Waiver of Premium provisions in specific ways. Policyholders who took a Non-forfeiture Option before the Plan became effective, or who do so under the Plan, do not pay premium and are not affected by Waiver of Premium provisions.

a. **Claim Waiver of Premium.** Policyholders on Claim Waiver of Premium on the Policyholder Election Date will be treated as if that waiver continues with respect to the premium in effect at that time (the Current Premium).

- (1) If such policyholders elect Option One (downgrade), which does not entail a premium increase, the Current Premium remains waived and no Differential Premium is applicable. If such policyholders recover, their Current Premium must again be paid but their policies will remain downgraded.
- (2) If such policyholders make an election under the Plan that increases their premiums (Option Two or Option Four, see page 19), the waiver does not apply to the increase and they will be required to pay Differential Premium consisting of the difference between the premium under the elected Plan option and the Current Premium. When such policyholders recover and the Claim Waiver of Premium terminates, they must begin paying the full Plan premium. If such policyholders go on claim again following a specified period of recovery and their policy retains the Claim Waiver of Premium provision, the full **Plan Premium** (Phase One Premium, If Knew Premium, or Self-Sustaining Premium, depending on the circumstances) will be waived while they are on claim.
- (3) Policyholders who elect Option Three, the NFO, are unaffected by Premium Waiver provisions because they do not pay premium.

b. **Dual Waiver of Premium.** Policyholders whose premiums are waived under Dual Waiver of Premium (DWOP) provisions will be treated in the same way as policyholders under Claim Waivers of Premium. However, it is the status of the spouse on claim that determines whether they pay the Differential Premium or the full Plan premium when they select Option Two or Option Four.

- (1) If the policyholder has selected Option One, is not paying any premium due to the waiver, and his or her spouse recovers, he or she must begin paying the Current Premium but his or her policy will remain downgraded.
- (2) If the policyholder has selected Option Two, is paying only the If Knew Differential Premium due to the waiver, and his or her spouse recovers, the policyholder must begin paying the full If Knew Premium. Of course, if the If Knew Differential Premium for that policyholder is zero, he or she need not pay any additional premium.

- (3) If the policyholder has selected Option Four, is paying only the Phase One Differential Premium due to the waiver, and his or her spouse recovers, such policyholder must begin paying the full Phase One Premium.
 - (4) If the policyholder is on Dual Waiver, has a policy with Claim Waiver of Premium, selects Option Four, is paying Phase One Differential Premium or If Knew Differential Premium, and goes on claim after the Effective Date, the Differential Premium will then be waived under the Claim Waiver of Premium provision so that the policyholder will not have to pay any premium while on claim, even if the spouse recovers during that period. Once the policyholder recovers, he or she will be required to resume paying the Differential Premium if the spouse remains on claim and the dual waiver of premium is still effective. If the spouse has also recovered or the dual waiver of premium is otherwise no longer effective, the policyholder will be required to pay the full Phase One Premium or If Knew Premium upon recovery. If both policyholders whose policies contain a Dual Waiver provision select Option Four while neither is on claim, and one goes on claim after the Effective Date, the full Phase One Premium for both policies would be waived.
- c. **Lifetime Waiver of Premium.** Policyholders who are on Lifetime Waiver of Premium on the Policyholder Election Date will retain that waiver after the Plan Effective Date.
- (1) If such a policyholder elects Option Four, the Lifetime Waiver of Premium does not apply to the increased portion of the premium and he or she will be required to pay Differential Premium consisting of the difference between the Current Premium and the premium under Option Four (the If Knew Premium).
 - (2) If an active policyholder is on lifetime waiver, has a policy with Claim Waiver of Premium benefit, selects Option Four, and goes on claim after the Effective Date, the Differential Premium will then be waived under the Claim Waiver of Premium provision so that the policyholder will not have to pay any premium while on claim.

H. CERTAIN “NON-CORE” POLICY BENEFITS UNAFFECTED

Many SHIP LTC policies provide one or more “Non-core” benefits such as:

- 1. Bed Reservation Benefit,
- 2. Respite Care,
- 3. Caregiver Training,
- 4. Medic Alert,

5. Prescription Drug Benefit,
6. Homemaker Services,
7. Personal Needs Benefit,
8. Accidental Death Benefit,
9. Helping Hands Benefit,
10. Adult Foster Care,
11. Ambulance Services,
12. Transportation Benefit,
13. Home Delivered Meals,
14. Assistive Equipment, and
15. Remodeling.

The Plan is not intended to affect these benefits or how they relate to other benefits, and they will continue once the Plan becomes effective unless the policyholder elects Option Three, the Non-forfeiture Option.

I. RATE APPROVALS

1. Rate increases and Policy Modifications will be submitted to Commonwealth Court of Pennsylvania for approval as part of the Plan. The Rehabilitator will not seek separate approval of rate increases or benefit reductions from insurance regulators in the states in which the policies were issued.
2. The rate increases will not necessarily be limited by, or adhere to, filed rate cards. Rate cards are issued by insurers and approved by regulators to describe the premium rates applicable under specified circumstances or for specific types of coverage. They are inapplicable to the Plan.
3. Premium increases and Policy Modifications will not be submitted to individual insurance departments for approval. This is consistent with the established insurance rehabilitation practice in the U.S. under which the domiciliary regulator as domiciliary rehabilitator may, with only rehabilitation court approval and no approval from individual states, implement a rehabilitation plan, including one that might modify or terminate insurance policies issued by the delinquent insurer throughout the country. If its premium rates were subject to approval in each state, the Plan could not meet its goal of eliminating “subsidies” by having policyholders with substantially similar policies generally pay substantially similar premium regardless of the state in which the policyholder resides or in which the policy was issued. Moreover, the delay and expense of state-by-state rate or benefit approval would make the Plan unfeasible. Finally, the state-by-state approval process might perpetuate or increase the nation-wide premium rate variations the Plan strives to eliminate.

J. NFOs AND PAID-UP POLICIES

The Plan will not affect the approximately 9,500 policyholders who have already taken NFOs. Their policies will never pay premium and their benefits will not be reduced further by the Plan. The Plan also will not affect paid-up policies for which only a specified number of premium payments were required, including those for which some of those payments remain to be made.

K. PARTNERSHIP-QUALIFIED POLICIES

Under the Deficit Reduction Act of 2006, certain LTC insurance policies called “*Partnership-Qualified*” (PQ), entitle the policyholder to a dollar of asset disregard or spend-down credit with respect to Medicaid eligibility for every dollar of benefit received under the LTC policy. The provisions of PQ policies vary from state to state but many require a minimum amount of cost of living adjustment (COLA) or Inflation Protection. The Plan will not reduce COLA or inflation protection features for PQ policies below those required for PQ status.

L. PLAN TIMING

1. The Plan is designed for implementation of Phase One as rapidly as possible, with more time available for implementation of Phase Two. At the conclusion of Phase One and continuously thereafter its results will be evaluated and, in due course, a determination will be made as to whether and, if so how, Phase Two should be implemented.
2. The Plan timeline provided an opportunity for policyholders and interested parties to evaluate and object to, or comment upon, the Plan if they chose to do so. The Rehabilitator may suggest modifications of the Plan as a result of those comments and objections, if any. Table 3 provides a high-level sequence for the Plan.

TABLE 3: PLAN SEQUENCE	
1.	April 22, 2020 - Filing of Proposed Rehabilitation Plan and request for approval of notice
2.	June 12, 2020 - Case Management Order
3.	July 31, 2020 - Deadline for intervention applications
4.	August 21, 2020 - Deadline for responses to intervention applications
5.	September 15, 2020 - Deadline for Objections and Comments

6.	Filing of Amended Proposed Rehabilitation Plan
7.	October 30, 2020 - Deadline for authorized interveners to file description of intended testimony and exhibits
8.	[TBD] Order setting pre-hearing conferences
9.	[TBD] Commonwealth Court pre-hearing conference
10.	[TBD] Hearing on Rehabilitation Plan, if necessary
11.	[TBD] Order Approving, Modifying or Disapproving Plan
12.	[TBD] Final Approval Date (assuming approval)
13.	Plan Preparation Period
14.	[TBD] Determination Date
15.	[TBD] Policyholder Election Package
16.	[TBD] Policyholder Election Deadline
17.	Begin Policyholder Transition Period
18.	Evaluation of Policyholder Elections
19.	[TBD] End Policyholder Transition Period
20.	[TBD] Initial Plan Effective Date
21.	[TBD] Supplemental Policyholder Election Package
22.	[TBD] Supplemental Policyholder Election Date
23.	[TBD] Supplemental Plan Effective Date
24.	Evaluation of Phase One
25.	[TBD] Decision on Phase Two
26.	[TBD] Phase Two Policyholder Election Package

27.	[TBD] Phase Two Policyholder Election Deadline
28.	[TBD] Phase Two Effective Date
29.	Evaluation of Plan performance
30.	[TBD] Phase Three, if justified.

- a. The Plan will be submitted to the Commonwealth Court for approval, modification, or disapproval. Policyholders and interested parties have been provided an opportunity to offer comments about, or object to, the Plan. The Commonwealth Court may hold a hearing on the Plan. Following the hearing (if one is set by the Court), the Court will approve, modify, or disapprove the proposed Plan. If the Plan is approved (with or without modification), the date upon which such approval becomes final (including exhaustion of appeals, if any) will be the ***Final Approval Date***. It will commence the ***Plan Preparation Period***, which will end with the ***Initial Plan Effective Date***. During the Plan Preparation Period:
- (1) SHIP's LTC insurance policies will be restructured as described in Section VI.H, page 86. This restructuring will not affect the options available to policyholders under the Plan.
 - (2) The Company will make all the determinations and perform the calculations required to construct the options available to each policyholder. All determinations will be made as of a ***Determination Date*** which may vary from policyholder to policyholder but which will always be before the Policyholder Election Date defined below.
 - (3) The ***Policyholder Election Package*** (containing the information required for policyholders to make their elections) and the ***Policyholder Election Forms*** (upon which they will do so) will be prepared and distributed.
 - (4) Except as noted below in Section II.L.3, page 33, the Policyholder Elections must be made by the ***Policyholder Election Date*** and will be collected and evaluated by the Company as received.
 - (5) On the ***Initial Plan Effective Date*** all the Policyholder Elections, other than those addressed in Section II.L.3.c, below, will be implemented and the premium and policy changes will take effect.
 - (6) The Initial Plan Effective Date may vary from policyholder to policyholder. For each policyholder the Initial Plan Effective Date will be the policy's

Monthiversary Date occurring during the ***Initial Plan Effective Month***. See definitions, pages 110 and 112.

- b. The Plan Preparation Period may be several months long in order to provide time for the calculations and other steps necessary to implement the Plan. This includes the period necessary to advise policyholders of their options and to enable them to make the necessary elections.
3. Changes in policyholder circumstances occurring between the Policyholder Election Date and the Initial Plan Effective Date (the ***Policyholder Transition Period***) will not affect policyholders' elections except as follows:
 - a. Policyholders who have qualified for a Premium Waiver which has not yet become effective as of the Policyholder Election Date due to a waiting period or premium paying modal factor will be treated as if they were not paying premium on the ***Policyholder Election Date*** and will be required to elect from among the options available to policyholders not paying premiums. If their policies have ***Dual Waiver of Premium*** (DWOP) the same will be true for their spouses. If such policyholders (or their spouses eligible for DWOP) elect Option Two (Basic Policy Endorsements - see Section II.C.1.b, page 20), or Option Four (retain current benefits at Phase One Premium - see Section II.C.1.d, page 20), they will be required to pay the full Phase One Premium or If Knew Premium, respectively, until the waiver becomes effective and to pay the Phase One Differential Premium or If Knew Differential Premium, respectively, thereafter.
 - b. Policyholders who have been deemed eligible for benefits, but the benefits are pending and they have therefore not yet gone on claim, will be treated as if they were on claim and be required to elect from among the options available to policyholders on claim, including the availability of Premium Waiver. Note that during the ***Policyholder Transition Period***, when policyholders whose policies contain DWOP are deemed eligible for benefits which are pending and therefore have not yet gone on claim, and are treated as if on claim, their spouses will also be treated as if on Dual Waiver of Premium.
 - c. Policyholders and the DWOP spouses of such policyholders who, during the Policyholder Transition Period, experience any of the following ***Transitional Events***:
 - (1) discontinue paying premium due to the activation of a Premium Waiver other than those described in subparagraph (a), above),
 - (2) go on claim (other than those described in subparagraph (b), above),
 - (3) recover and cease being on claim, or

- (4) resume paying premium due to the deactivation of a Premium Waiver,

will all be required to elect new options from among those available to policyholders in their new circumstances. They will be provided new Policyholder Election Forms after the Policyholder Election Date, will have an opportunity to make new elections from among options applicable to policyholders in their new circumstances, and will have those elections implemented on a ***Supplemental Plan Effective Date***. If such a policyholder experiences a Transitional Event during the Policyholder Transition Period but the Company doesn't learn of it until after the policyholder has submitted an apparently valid Policyholder Election Form or after the Initial Plan Effective Date, the policyholder's election will be invalidated by the Transitional Event and the policyholder will be required to submit a new Policyholder Election Package before the Supplemental Plan Effective Date. If the Company learns of the Transitional Event after the Supplemental Plan Effective Date then the policy will be modified to implement the Default Option that would have applied had the Company learned of the Transitional Event before the Supplemental Plan Effective Date and the policyholder failed to make a valid election.

M. POLICYHOLDER INFORMATION

1. Phase One - Before being required to make an election in Phase One of the Plan, each eligible policyholder will receive a ***Policyholder Election Package*** that includes notice and details of the Plan, including a detailed description of Phase One and preliminary descriptions of Phase Two and Phase Three. As to Phase One, these details will include the premium amount and/or benefit reductions that will apply to the policyholder's specific policy under each applicable option in Phase One of the Plan. The notice will make clear that whether or not Phase Two will be implemented, and if so its exact details, may be subject to change depending on the circumstances following Phase One. It will also note that the entire Plan is subject to the orders of the Commonwealth Court and that, if the Company is placed in liquidation, some or all of the Plan's provisions may be changed in accordance with the law applicable to liquidations. Policyholders with more than one policy will be advised that they are required to make independent elections for each policy.
2. Phase Two - Before being required to make any elections in Phase Two of the Plan, each policyholder eligible to make elections in this Phase will receive a ***Phase Two Policyholder Election Package*** that includes notice and details of Phase Two of the Plan. These details will include the premium amount and/or benefit reductions that will apply to the policyholder's specific policy under each applicable option of the Plan in Phase Two.

N. CALCULATION NOTES

1. The assets allocated on an Accumulated Premium basis for determination of Self-sustaining Premium for purposes of Phase Two calculations will be those remaining after provision is

made for administrative costs and contingencies as more fully explained above at Section II.E.4.d, page 23.

2. Whenever the Plan calls for adjustment of the **Maximum Benefit Period** (MBP) it will be calculated in increments of whole days.
3. Whenever the Plan calls for matching an existing premium rate, it may be by rounding the premium to the nearest dollar.
4. In calculating the Phase One Premium, the If Knew Premium, and other Plan provisions, periods on claim (including those followed by recovery) prior to the Initial Plan Effective Date will be taken into account and reduce the remaining benefit period. The operative benefit period for the policy will be what remains on the Determination Date. Thus, a policyholder whose initial Maximum Benefit Period was eight years when the policy was issued, but who has used five years of benefits (whether in one or more periods on claim) that were not restored or eligible for restoration, and therefore has three years remaining as of the Determination Date, will be deemed to have a Maximum Benefit Period of three years for Plan calculation purposes. The Phase One Premium and If Knew Premium will be calculated using the remaining benefit period. Thus, for this hypothetical policyholder, the premium will be calculated for a policy with a three year MBP.
5. In calculating reductions of the Maximum Benefit Period, for policies with two different pools of money, one (typically of two years) for Home Health Care and one (often longer, part of which may have been utilized) for Assisted Living Facility Care or Nursing Home Care:
 - a. The Plan will treat the policy as having a single benefit period equal to the longer of those provided by the pools. The benefit periods provided by the pools will not be aggregated. Thus, the Maximum Benefit Period for Assisted Living Facility Care cannot be increased by adding the unused benefit period for Home Health or *vice versa*.
 - b. Benefits paid under the policy regardless of site of care, will reduce the new single benefit period.
 - c. Pools shorter than four years will not be adjusted by the Plan. If benefits have reduced the benefit period below four years as of the Effective Date, it will remain at that level for Plan calculation purposes.
6. Policies that share a pool of benefits before the Policyholder Election Date, so that a policyholder whose benefit period is exhausted may continue receiving benefits under the shared pool until it is exhausted, will be treated for purposes of calculating premiums under the Plan as having a benefit period equal to the sum of the policy's benefit period and half of the shared pool's benefit period. Such policies will continue sharing a pool after the Plan

and elections made under the Plan will affect only the policy's benefit period, not the value of the shared pool. When such a policyholder goes on claim after the applicable Plan Effective Date, the claim will reduce the policy's benefit period first and then the shared pool. Policyholders sharing a pool need not make the same elections under the Plan.

- a. For a policyholder who elects Option One, the downgrade will affect only the policy's benefit period (which cannot be reduced below four years unless it is already below that) and not the shared pool.
 - b. For a policyholder who elects Option Two, the policy's benefit period may be reduced but it will retain the possibility of benefits under the shared pool.
 - c. The premium for a policyholder who elects Option Four will be calculated as if the policy had a benefit period equal to the sum of the policy's current benefit period plus half of the shared pool.
7. In determining a policy's **Maximum Policy Value** (MPV), which is the product of a policy's Maximum Benefit Period (MBP) times its **Maximum Daily Benefit** (MDB), changes attributable to claims and benefits (such as inflation protection) will be taken into account. For Plan purposes, MPV will be calculated as if the policyholder went on claim on the Plan Effective Date. A policy with an unlimited benefit period will be deemed to have an unlimited MPV.
 8. The Plan contemplates that the minimum premium for Basic Policy Endorsements in Phase Two will be 110% of the Basic Policy If Knew Premium to discourage delaying the selection of Basic Policy Endorsements to Phase Two. See Sections IV.B.2.c, IV.C.1.b, IV.C.2.b.(4), IV.E.2.b, and IV.D.2.
 9. Premium paying modalities (*i.e.*, monthly or quarterly payments) in effect before the Plan will be unchanged by the Plan unless necessary to give effect to a policyholder's election. If a policyholder is not paying premium prior to the applicable Plan Effective Date due to a waiver, and under the Plan he or she must begin paying a premium (such as a differential premium), the premium modality in effect prior to the waiver becoming effective will apply to the premium under the Plan.
 10. Fees charged before commencement of the rehabilitation to premium payments based on modality (such as additional fees for monthly premiums) will continue to apply to premiums paid under the Plan on the same basis.

O. DRAFTING NOTES

1. As endorsements are drafted to implement policy changes, provisions not intended to be substantively affected will be left unchanged unless editing is necessary to implement the modifications selected.

2. As a result, for example, if a policy has an unlimited benefit period and a Restoration of Benefit provision, shortening the benefit period will not remove the Restoration of Benefit provision. However, the Restoration of Benefits provision cannot extend the benefit period beyond the newly shortened Maximum Benefit Period. Similarly, policies with limits in terms of days-of-care will remain so and not be converted to pool-of-money policies except by operation of the Downgrade Process or if the Basic Policy Endorsement is elected.
3. Replacement language to implement modifications will strive to eliminate ambiguities and add clarity.
4. If the language of the current policy does not differentiate clearly between Nursing Home and Assisted Living Facilities (ALF) coverage so that SHIP is now covering ALF care within the Nursing Home provision in those policies, electing the Basic Policy Endorsements will not eliminate ALF coverage but the Maximum Daily Benefits for ALF care will be limited to 75% of the policy's MDB for Nursing Home benefits.

III. DETAILS OF PHASE ONE OF THE PLAN

A. ACTIVE LIVES PAYING PREMIUM (*ACTIVE - PAYING*)

Policyholders who, as of the Phase One election date, are paying premiums and are not disabled or eligible for benefits will have the following options.

1. **OPTION ONE - KEEP CURRENT PREMIUM AND DOWNGRADE POLICY BENEFITS.**
 - a. Such policyholders can keep their Current Premium but will have policy benefits reduced if the Current Premium is less than the If Knew Premium for their policy benefits.
 - b. The target premium for this option is the Phase One Premium, which is the higher of the Current Premium and the If Knew Premium. For policyholders whose Current Premiums equal or exceed the If Knew Premium for their policies, no downgrade will be necessary because they are already paying the target premium and Options One and Four will produce the same result - no change in their policies. For policyholders that elect Option One and whose Current Premiums are lower than the If Knew Premium for their current policies, the benefit reductions will be calibrated to produce benefits for which the premium on an If Knew Premium basis will be within 2% of the Current Premium, *i.e.*, no lower than 98% nor higher than 102% of the Current Premium. A description of the Downgrade Process follows Table 4.

TABLE 4: IS DOWNGRADE NECESSARY?

IF:	CASE 1	CASE 2
1. THE CURRENT PREMIUM IS and 2. THE IF KNEW PREMIUM FOR THE CURRENT BENEFITS IS THEN:	\$3,000 \$2,800	\$3,200 \$5,000
IN CASE 1, SINCE THE IF KNEW PREMIUM IS LOWER THAN THE CURRENT PREMIUM, THERE WILL BE NO BENEFIT REDUCTIONS.	NO	
IN CASE 2, SINCE THE IF KNEW PREMIUM IS MORE THAN THE CURRENT PREMIUM, BENEFITS WILL BE REDUCED 36% TO THE CURRENT PREMIUM.		YES

- c. **DOWNGRADE PROCESS:** A single combination of one or more of the benefit reductions described in Section III.A.1.f, page 41 below, will be selected by the Rehabilitator in accordance with the Plan provisions to reduce the policy's benefits to a combination with an If Knew Premium within 2% of the Current Premium. Policyholders will not have the ability to select specific benefit reductions.
- (1) Not all of the benefit reductions on the list below will be applicable to all policies. For example, eliminating inflation protection features would not be applicable to a policy that has no such benefits. Similarly, shortening the Maximum Benefit Period would not be applicable to a policy with a benefit period that does not exceed four years. Thus, the list of potentially applicable benefit reductions may vary from policy to policy.
 - (2) Each benefit reduction option is expected to have a materially different effect on premiums, some reducing the required If Knew Premium more than others. The result of a particular benefit reduction may vary among different policies. Benefit reductions will be selected sequentially, beginning with the first potentially applicable benefit reduction for the policy in question. However, in some cases the Rehabilitator may skip over one or more possible benefit reductions (for example, because they are inapplicable, produce too large a reduction, or are non-scalable) in order to produce the If Knew Premium closest to the Current Premium.
 - (3) The Rehabilitator may also adjust a potentially applicable scalable benefit reduction up or down to simplify the process, for example by enabling

fewer benefit reductions to be effected to achieve the desired premium level. Efforts will be made to minimize the number of benefit reductions applied to each policy.

- (4) Except as noted in the next paragraph, benefits will not be scaled above or below Plan Limits. Plan Limits for benefit period are a minimum of four years (unless the policy already has a lower MBP) and a maximum of 6 Years. Plan Limits for Daily Benefit are:
 - (a) For Nursing Home Care, a minimum of the lesser of (a) 80% of current level or (b) \$300, and a maximum \$600;
 - (b) For Facility Care, a minimum of the lesser of (a) 80% of current level or (b) \$225, and a maximum \$450; and
 - (c) For Home Health Care, a minimum of the lesser of (a) 80% of current level or (b) \$150, and a maximum \$300.
 - (5) In order to achieve the Downgrade Target Premium (the Current Premium), for some policyholders for whom other Benefit Reductions have not achieved the desired premium level, the MBP may be reduced below Plan Limits. For those policyholders for whom the Downgrade Option (Option One) is the default, the NFO serves as a safety net against reduction of the Maximum Benefit Period below the lesser of the current Benefit Period and 30 months. For other policyholders who select Option One and it produces a lower Benefit Period than the NFO or other Options, electing one of the other Options may be preferable.
- d. The default mode will be to evaluate the potentially applicable benefit reductions in the order in which they are included in the Plan.
- (1) If the first potentially applicable benefit reduction produces an If Knew Premium that is higher than 98% of the Current Premium it will be selected.
 - (a) If that first potentially applicable benefit reduction produces an If Knew Premium that is between 98% and 102% of the Current Premium, that will be the only benefit reduction and downgrade necessary for the policy in order to implement Option One.
 - (b) If the benefit reduction produces an If Knew Premium above 102 % of the Current Premium, is scalable, and can be scaled down sufficiently to produce an If Knew Premium no higher than 102% of the Current Premium without going below Plan Limits for MDB and MBP, then it will be scaled down

sufficiently to achieve that result and that will be the only benefit reduction for the policy.

- (2) If the first potentially applicable benefit reduction will not suffice (with or without scaling, if applicable) to reach an If Knew Premium within 2% of the Current Premium, the next potentially applicable benefit reduction will then be evaluated in the same manner, taking into account the effect of the previously selected potentially applicable benefit reduction.
 - (3) If the result is still an If Knew Premium that is higher than 102% of the Current Premium, that reduction will also be selected and the next potentially applicable benefit reduction will then be evaluated, again taking into account the effects of the previously selected potentially applicable benefit reductions.
 - (4) This process will continue until the resulting If Knew Premium is within 2% of the Current Premium. If it is within 2% of the Current Premium the process is complete and the potentially applicable benefit reductions selected will constitute the downgrade option for that policy.
 - (5) If the benefit reductions selected, in combination, produce an If Knew Premium that is lower than 98% of the Current Premium, the policy's MDB and MBP can be increased (subject to Plan Limits) to produce (in combination with previously selected benefit reductions) an If Knew Premium within 2% of the Current Premium. If raising the MDB and MBP (in combination with previously selected benefit reductions) still does not produce an If Knew Premium within 2% of the Current Premium, the policy's premium can be reduced so that the resulting If Knew Premium is within 2% of the Current Premium.
 - (6) If all of the benefit reductions selected in combination produce an If Knew Premium that is higher than 102% of the Current Premium, then in addition, the Maximum Benefit Period will be shortened to the extent necessary to produce an If Knew Premium within 2% of the Current Premium.
 - (7) In the unlikely event that after all these steps the If Knew Premium for the reduced benefits remains higher than 102% of the Current Premium, there will be no further reductions and those will be the downgraded benefits and the premium charged for those benefits will be the Current Premium.
- e. Each policyholder will only receive one downgrade option, calculated as described in this Section. The Rehabilitator may develop algorithms, tables or other tools that will facilitate implementation of this process through classification of the existing policies. Policy provisions not identified in this Section will not be affected by the Downgrade unless necessary to implement the specified option.

f. ***Benefit Reductions:***

- (1) ***Benefit Reduction One:*** Elimination of Restoration of Benefits (ROB) provisions. This is a binary and non-scalable benefit reduction.
- (2) ***Benefit Reduction Two:*** Elimination of Extension of Benefits provisions. This is a binary and non-scalable benefit reduction.
- (3) ***Benefit Reduction Three:*** For policies with less restrictive triggers, adoption of the TQ Trigger. See Section III.A.2.d.(7), page 44. This is a binary and non-scalable benefit reduction.
- (4) ***Benefit Reduction Four:*** Discontinuation of Return of Premium (ROP) provisions. As of the Plan Effective Date, policies with Return of Premium benefit to which this reduction applies will cease accruing returnable premium. However, for policies which provide that returnable premiums accrue over several years and are then paid, or which make some past premium returnable upon specified events, ROP benefits accrued prior to the Effective Date will not be lost and will be calculated up to the applicable Plan Effective Date. Such returnable premium accrued prior to the Effective Date will be repaid at or around the time when the payment would have been due absent modification under the Plan. This is a binary and non-scalable benefit reduction.
- (5) ***Benefit Reduction Five:*** Removal of inflation and “locking” of MDB at their current levels. This is a binary and non-scalable benefit reduction.
- (6) ***Benefit Reduction Six:*** Conversion of indemnity to reimbursement. See Section VI.B.9, page 80. This is a binary and non-scalable benefit reduction.
- (7) ***Benefit Reduction Seven:*** Reduction of the policy’s MDB to the lesser of 80% of current level and \$300 for Nursing Home Care; the lesser of (a) 80% of current level or (b) \$225 for Facility Care; and the lesser of (a) 80% of current level or (b) \$150 for Home Health Care. This is a scalable benefit reduction (that can be increased or decreased) so long as the resulting MDB is within Plan Limits.
- (8) ***Benefit Reduction Eight:*** Extension of the EP to 90 days. If the current EP is 90 days or more it will not be modified. The EP will apply to each period of care. This will be treated as a binary and non-scalable benefit reduction.
- (9) ***Benefit Reduction Nine:*** Reduction of the policy’s MBP to no more than four years (from the applicable Plan Effective Date). If the current MBP is less than four years it will not be modified. As long as the resulting MBP is

above the lesser of (a) the current period, or (b) four years, this is a scalable benefit reduction.

- (10) ***Benefit Reduction Ten:*** Elimination of all Waiver of Premium provisions. For purposes of the Plan this is a binary and non-scalable benefit reduction. The Plan will not allow elimination of fewer than all available Premium Waiver provisions. The elimination will be prospective only and will not apply to the current waiver. It will apply to any waiver that would otherwise first have become effective after the downgrade.
 - (11) ***Benefit Reduction Eleven:*** Conversion to pool of money (unless the policy is already pool of money) and reduction of the Maximum Benefit Period to the amount required to achieve the Current Premium.
- g. The Downgrade is generally the Default Option for policyholders on Premium Waiver. In those cases, for those policyholders for whom the benefits that result from the Downgrade Process are lower than the benefits offered by the NFO, the NFO will be deemed the Default Option.

TABLE 5: DOWNGRADE PROCESS

Assume that the policy at issue has a current annual premium of \$2,000 but that the If Knew Premium for the benefits it provides would be \$3,200. Because it is more than the Current Premium, benefits will be downgraded so that the If Knew Premium for such benefits is within 2% of the Current Premium. Reduction to the Current Premium requires a target benefit reduction of 37.5% ($\$2,000/\$3,200$). Furthermore, assume that the policy does not have Extension of Benefits, Restoration of Benefits, or Return of Premium, has Inflation Protection, is Tax Qualified, and reimbursement, not indemnity benefits. The following illustrates the Downgrade Process for this hypothetical policy. Each potentially applicable benefit reduction would be evaluated as follows:

1. Hypothetically, Benefit reductions One, Two, Three, and Four (BR1, BR2, BR3, and BR4) are inapplicable because the policy already has TQ Triggers, and no EOB, ROB or ROP benefits. Benefit Reduction Five (BR5) - Removal of inflation and “locking” of MDB at current level - hypothetically produces an If Knew Premium of \$2,720, a 15% reduction. The If Knew Premium is still above \$2,040, 102% of the Current Premium. This benefit reduction would be selected.
2. BR6 would be inapplicable because this is already a reimbursement policy. Benefit Reduction Seven (BR7) - reduction of MDB to the lesser of 80% of current level or \$300 - is evaluated in combination with previously selected BR5 and the result of reducing the MDB is hypothetically an If Knew Premium of \$2,144 (a combined 33% reduction). The If Knew Premium remains above \$2,040, 102% of the Current Premium. BR7 would also be selected and BR8 would be the next to be evaluated.
4. Benefit Reduction Eight (BR8) - Extension of the EP to not less than 90 days - is then evaluated in combination with BR5 and BR7, and the result of extending the EP to 90 days (in combination with BR5 and BR7) is hypothetically an If Knew Premium of \$1,920 (a combined reduction of 40%). This reduces the premium below the target of 37.5%.
5. BR7 is then scaled up by increasing the MDB (but not above \$600) to the point at which the If Knew Premium is \$2,000, equal to the Current Premium, amounting to a 4% increase in the If Knew Premium of \$1,920 produced by BR5, BR7, and BR8.

2. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT CORRESPONDING IF KNEW PREMIUM.**
 - a. Such policyholders will have the option to have their current policy endorsed to provide benefits substantially similar to a newly designed Basic Policy.

- b. The new premium for the policy will be the If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements.
- c. **THIS OPTION WILL BE IMMUNE FROM PHASE TWO CHANGES. Policyholders who elect this option will not face premium rate increases or benefit reductions in Phase Two of the Plan.** However, under certain circumstances a policyholder who is paying the If Knew Differential Premium for the Basic Policy Endorsements because he or she is on Premium Waiver may be required to pay the full If Knew Premium if the waiver ceases to apply, for example due to recovery of the policyholder on claim.
- d. Key provisions of the Basic Policy Endorsements are:
 - (1) MBP equal to the lesser of (a) the current benefit period, and (b) four years (beginning on the applicable Plan Effective Date);
 - (2) Minimum EP equal to the longer of (a) 90 calendar days, or (b) the current EP;
 - (3) Removal (discontinuation) of Return of Premium (ROP) benefit. As of the Plan Effective Date, policies with Return of Premium benefit will cease accruing returnable premium. However, for policies which provide that returnable premiums accrue over several years and are then paid, or which make some past premium returnable upon specified events, ROP benefits accrued prior to the Effective Date will not be lost and will be calculated up to the applicable Plan Effective Date. Such returnable premium accrued prior to the Effective Date will be repaid at the time when the payment would have been due absent modification under the Plan.
 - (4) Removal of Extension of Benefits provisions.
 - (5) For policies with annual inflation adjustment in MDB above 1.5%, reduction of the adjustment to 1.5%, retaining the original type (simple or compound);
 - (6) Reduction and adjustment of MDB by site of care. The MDB for Nursing Home Care will be the lesser of 80% of the MDB for such care in the current policy and \$300. The MDB for Facility Care other than Nursing Home Care will be the lesser of 80% of the MDB for such care in the current policy and \$225. The MDB for Home Health Care will be the lesser of 80% of the MDB for such care in the current policy and \$150;
 - (7) Adoption of ***Tax Qualified*** (TQ) Triggers. Tax Qualified or TQ Triggers require that a person 1) be expected to require care for at least 90 days, and be unable to perform 2 or more Activities of Daily Living (ADL - eating,

dressings, bathing, transferring, toileting, and continence) without substantial assistance (hands on or standby); or 2) for at least 90 days, need substantial assistance due to a severe cognitive impairment. In either case a licensed healthcare professional must certify a plan of care;

- (8) Conversion of reimbursement policies to indemnity;
 - (9) Conversion of “Days of Care” policies to “Pool of Money;”
 - (10) Removal of Restoration of Benefits (ROB) provisions; and
 - (11) Elimination of all Premium Waivers.
- e. This will be the Default Option for policyholders in this category (active, paying premium) whose Current Premium is lower than the If Knew Premium.
 - f. Unless the benefits of their current policies are lower, policyholders will also be offered an “Enhanced Basic Policy Endorsement” at higher If Knew Premium with the terms described above but caps at a five-year benefit period and 2% inflation. In Phase Two the premium for the Enhanced Basic Policy Endorsements will be at Self-sustaining Premium rates. For a policyholder whose current policy has a Maximum Benefit Period of less than five years but inflation above 2%, the Enhanced Basic Policy Endorsements will only affect the inflation benefit. For a policyholder whose current policy has inflation below 2% but a Maximum Benefit Period of more than five years, the Enhanced Basic Policy Endorsements will only affect the Maximum Benefit Period. The inflation type (simple or compound) will be the same as the current policy.
 - g. Except as noted in the next paragraph, and with the exception of the change from reimbursement to indemnity, benefits in the Basic Policy Endorsements (even in the Enhanced Basic Policy Endorsements) cannot exceed those in the current policy. If a particular component of the Basic Policy Endorsements provides more coverage than the current policy’s corresponding provision, that provision of the current policy will not be modified by endorsement. Thus, for example, if the MBP of the current policy is three years, the Basic Policy Endorsements for that policy will incorporate a Maximum Benefit Period of three, not four or five, years.
 - h. For those policies with an MPV that is currently above their applicable Guaranty Association (GA) limits, the endorsed policy’s MPV will be adjusted so that it is at least equal to the applicable GA limit. For those policies with MPV below the applicable GA limits, the MPV of the endorsed policies will be adjusted so that they are at least equal to the current MPV. The adjustments will be made by lengthening the MBP.

3. OPTION THREE - NFO.

- a. Such policyholders can elect a Non-forfeiture option (NFO) policy under which the MBP will be the lesser of 2.5 years and the policy's current MBP.
 - (1) Like the Basic Policy Endorsements, this will be an indemnity policy (not reimbursement);
 - (2) It will not have Extension of Benefits provisions;
 - (3) It will not have Return of Premium provisions;
 - (4) It will not have Restoration of Benefits provisions;
 - (5) It will convert "Days of Care" policies to "Pool of Money;"
 - (6) it will have a minimum 90-day elimination period;
 - (7) It will have TQ triggers;
 - (8) It will not have an inflation protection feature; and
 - (9) The Maximum Daily Benefit (MDB) will be reduced and adjusted for site of care. The MDB for Nursing Home Care will be the lesser of 80% of the MDB for such care in the current policy and \$300. The MDB for Facility Care other than Nursing Home Care will be the lesser of 80% of the MDB for such care in the current policy and \$225. The MDB for Home Health Care will be the lesser of 80% of the MDB for such care in the current policy and \$150.
- b. In those rare cases in which the specific policy provides for an NFO that has greater benefits than the Plan NFO, the policy-specific NFO will be offered instead.
- c. No additional premiums will be due for this policy and it will never lapse.
- d. This policy offers more benefits than traditional NFOs. It cannot be upgraded later.
- e. The selection of indemnity, rather than reimbursement, modality for Options Two and Three is expected to be of significant value to policyholders.

4. OPTION FOUR - KEEP CURRENT BENEFITS AND PAY PHASE ONE PREMIUM.

- a. Such policyholders can elect to keep their current benefits and their premiums will increase to the corresponding Phase One Premium. See Section II.E.1, page 22,

above. Policyholders whose Current Premiums equal or exceed the If Knew Premium for their policies will continue to pay their Current Premiums. For those policyholders, this option, like Option One, does not result in any change.

- b. Policyholders selecting this option may also face substantial rate increases or Benefit reductions in Phase Two.

B. ACTIVE LIVES NOT PAYING PREMIUM (*ACTIVE - WAIVER*)

Policyholders who, as of the Phase One election date, are NOT paying premiums due to the applicability of a premium waiver provision, but who are not disabled or eligible for benefits will have the following options.

1. LIFETIME WAIVER - Policyholders not paying premium due to Lifetime Waiver of Premium (because of the death of a spouse) will have essentially the same four options as premium paying active lives (see Section, III.A, page 37) with the following modifications:
 - a. OPTION ONE - KEEP PREMIUM WAIVER AND DOWNGRADE POLICY BENEFITS. If the Current (waived) Premium is equal to or greater than the If Knew Premium, there will be no downgrade and Options One and Four will produce the same result - no change in their policies. If the Current Premium is less than the If Knew Premium the policy will be downgraded as follows.
 - (1) Due to the Premium Waiver the policyholder will continue not paying premium.
 - (2) The Downgrade Process will be the same as for premium-paying active lives (see Section III.A.1.c, page 38, above).
 - (3) The specific possible benefit reductions will be the ones described in Section III.A.1.f, page 41, above.
 - (4) The benefit reductions will be calibrated to the Current Premium as explained in Section III.A.1.b, page 37.
 - (5) This will be the Default Option for these policyholders. However, for those policyholders for whom the benefits that result from the Downgrade Process in Option One are lower than those offered by the NFO, the NFO will be the Default Option.
 - b. OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT IF KNEW DIFFERENTIAL PREMIUM (rather than the If Knew Premium).

- (1) The If Knew Differential Premium for this option is the difference between the If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements and the Current Premium for the policy, both of which are set as if the policyholder did not have a Premium Waiver in effect. If the If Knew Differential Premium is less than zero, the policyholder will not be required to pay any additional premium for the Basic Policy Endorsements.
 - (2) Policyholders may also be offered an “Enhanced Basic Policy Endorsement” at higher If Knew Premiums. See Section III.A.2.f, page 45.
 - (3) Policyholders who elect this option in Phase One will not face premium rate increases or additional benefit reductions in Phase Two of the Plan.
 - (4) If the current policies provide benefits above the applicable Guaranty Association limits, the Guaranty Association floor on benefit reductions will be applied to these policyholders as described in Section III.A.2.h, page 45. If the current policy provides benefits below the applicable GA limits, the MPV of the endorsed policy will be adjusted so that it is at least equal to the current MPV.
- c. OPTION THREE - NFO (see Section III.A.3, page 46).
- d. OPTION FOUR - KEEP THE CURRENT BENEFITS AND PAY PHASE ONE DIFFERENTIAL PREMIUM.
- (1) The If Knew Differential Premium for this option is the difference between the If Knew Premium and the Current Premium for the policy, both of which are set as if the policyholder did not have a Premium Waiver in effect. If the If Knew Differential Premium is less than zero, the policyholder will not be required to pay any additional premium.
 - (2) Policyholders who elect this Option may also face substantial rate increases in Phase Two.
2. DUAL WAIVER - The options for a policyholder not on claim but not paying premium due to a Dual Waiver (because his or her spouse is on claim) will be the same as for a policyholder not on claim with a Lifetime Waiver except that the premium he or she must pay will be determined in part by the spouse’s claim status. The default for these policyholders will be Option One (Downgrade). However, for those policyholders for whom the benefits that result from the Downgrade Process are lower than those offered by the NFO, Option Three, the NFO, will be the Default Option.

- a. **OPTION ONE - KEEP PREMIUM WAIVER AND DOWNGRADE POLICY BENEFITS.** The policyholder will retain the Current Premium Waiver. If the Current Premium the policyholder would be paying in the absence of waiver is equal to or greater than the If Knew Premium the policy will not be downgraded. If the If Knew Premium is greater than the Current Premium the policyholder would be paying in the absence of waiver, the policy will be downgraded as follows:
- (1) The Downgrade Process will be as described in Section III.A.1.c, page 38 subject to the following provisions.
 - (2) The same possible benefit reductions will apply, as described in Section III.A.1.f, page 41. Benefit reductions for each policyholder to whom this option applies will be calibrated to produce an If Knew Premium within 2% of the Current Premium for the policy (see Section III.A.1.b, page 37). However, because of the waiver, the policyholder will not be required to pay any premium.
 - (3) If the disabled spouse resumes paying premiums, the active spouse will also be required to resume paying premiums at the premium rate he or she would be paying if not on waiver, but if the policy has been downgraded it will remain downgraded.
- b. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT IF KNEW DIFFERENTIAL PREMIUM.**
- (1) The policy will be modified through the Basic Policy Endorsements (See Section III.A.2.d, page 44). The policyholder will be required to pay the If Knew Differential Premium. The If Knew Differential Premium for this Option is the difference between the If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements and the Current Premium for the policy, both of which are set as if the policyholder did not have a Premium Waiver in effect. If the If Knew Differential Premium is less than zero, the policyholder will not be required to pay any additional premium for the Basic Policy Endorsements.
 - (2) Policyholders may also be offered an “Enhanced Basic Policy Endorsement” at higher If Knew Premiums. See Section III.A.2.f, page 45.
 - (3) If the current policies provide benefits above the applicable Guaranty Association limits, the Guaranty Association floor on benefit reductions will be applied to these policyholders as described in Section III.A.2.h, page 45. For those policies with MPV below the applicable GA limits, the MPV of the endorsed policies will be adjusted so that they are at least equal to the current MPV. The adjustments will be made by lengthening the MBP.

- (4) Policyholders who elect this option in Phase One will not face premium rate increases or additional benefit reductions in Phase Two of the Plan, except as noted below.
- (5) If the disabled spouse recovers, the active spouse will be required to begin paying the full If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements.
- c. **OPTION THREE - NFO.**
 - (1) The policyholder can select a NFO. See Section III.A.3.
- d. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY PHASE ONE DIFFERENTIAL PREMIUM:** The policyholder will retain the current policy benefits and pay the Phase One Differential Premium (see Section II.E.6.b, page 24). However, if the disabled spouse recovers, the active spouse will be required to begin paying the full Phase One Premium. As noted, if the Current Premium is equal to or greater than the If Knew Premium, the policyholder will not be required to pay a Differential Premium.

C. DISABLED LIVES PAYING PREMIUM (*ON CLAIM - PAYING*)

Policyholders on claim, who are paying premiums, will have the same options as active lives paying premiums (see Section III.A, page 37), subject to the following conditions:

- 1. **OPTION ONE - KEEP CURRENT PREMIUM AND DOWNGRADE POLICY BENEFITS.**
 - a. Policyholders will preserve their Current Premium. For policyholders whose Current Premiums equal or exceed the If Knew Premium for their policies, no downgrade will be necessary because they are already paying the target premium and Options One and Four will produce the same result - no change in their policies. However, if the Current Premium is less than the If Knew Premium, the policy will be downgraded using the Downgrade Process and benefit reductions described in Sections III.A.1.c, page 38, and III.A.1.f, page 41, above, subject to the following provisions.
 - b. The following Benefit Reductions would apply to new benefit periods after recovery:
 - (1) The changes in triggers described in Benefit Reduction Three;
 - (2) The change to reimbursement described in Benefit Reduction Six;
 - (3) The extension of elimination period described in Benefit Reduction Eight; and
 - (4) The elimination of premium waiver provisions in Benefit Reduction Ten.

- c. The reductions will be calibrated to produce an If Knew Premium within 2% of the Current Premium for the policy (see Section III.A.1.b, page 37).
 - d. Note that the Downgrade Process does not increase the premium being paid prior to the downgrade, although in a few cases it may be reduced slightly.
2. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT IF KNEW PREMIUM.**
The policy will be endorsed as described in Section III.A.2.d, page 44, at If Knew Premium.
- a. For those policies with an MPV that is currently above their applicable Guaranty Association limits, the endorsed policy's MPV will be adjusted to be at least equal to the applicable Guaranty Association limits. For those policies with MPV below the applicable GA limits, the MPV of the endorsed policies will be adjusted so that they are at least equal to the current MPV. The adjustments will be made by lengthening the MBP.
 - b. Policyholders may also be offered an "Enhanced Basic Policy Endorsement" at higher If Knew Premiums. See Section III.A.2.f, page 45.
 - c. Changes in EP and benefit trigger would apply to subsequent periods of care following recovery. This will be the default for these policyholders if their Current Premium is lower than the If Knew Premium.
3. **OPTION THREE - NFO.** See Section III.A.3.
4. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY PHASE ONE PREMIUM.**
Policyholders can elect to keep their current benefits and their premiums will increase to the Phase One Premium. Policyholders whose Current Premiums equal or exceed the If Knew Premium for their policies will continue to pay their Current Premiums. Policyholders who elect this Option may also face substantial rate increases in Phase Two.
5. In some cases, options like the Downgrade or Basic Policy Endorsements may result in a reduction of the benefits being received by the policyholder on claim at the time of the election. It is also possible that the If Knew Premium for the Basic Policy Endorsements will be lower than the policyholder's Current Premium.

D. DISABLED LIVES NOT PAYING PREMIUM (*ON CLAIM - WAIVER*)

Policyholders who, as of the Phase One election date, are not paying premiums due to a premium waiver provision and are disabled or eligible for benefits will have the following options.

1. OPTION ONE - KEEP PREMIUM WAIVER AND DOWNGRADE POLICY BENEFITS.

- a. These policyholders will preserve their Premium Waiver but, if the Current Premium they would be paying in the absence of waiver is less than the If Knew Premium, the policies will be downgraded. The Downgrade Process will be as described in Section III.A.1.c, page 38, and the benefit reductions described in Section III.A.1.f, page 41, above.
- b. This is the Default Option for policyholders on claim with waiver of premium in Phase One. However, for those policyholders for whom the benefits that result from the Downgrade Process are lower than those offered by the NFO, the NFO (Option Three) will be the Default Option.
- c. The reductions will be calibrated to produce an If Knew Premium within 2% of the Current Premium for the policy (see Section III.A.1.b, page 37). However, because of the waiver, the policyholder will not be required to pay any premium.
- d. If the policyholder resumes paying premiums, the premiums will be at the rate the policyholder would be paying if not on waiver, but the policy will remain downgraded. Note that the Downgrade Process does not increase the premium being paid prior to the downgrade.
- e. The following Benefit Reductions would apply to new benefit periods after recovery:
 - (1) The changes in triggers described in Benefit Reduction Three;
 - (2) The change to reimbursement described in Benefit Reduction Six;
 - (3) The extension of elimination period described in Benefit Reduction Eight; and
 - (4) The elimination of premium waiver provisions in Benefit Reduction Ten.
- f. The reductions will be calibrated to produce an If Knew Premium within 2% of the Current Premium for the policy (see Section III.A.1.b, page 37).

2. OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT IF KNEW DIFFERENTIAL PREMIUM.

- a. These policyholder will have the option to have the current policy endorsed to provide benefits substantially similar to a newly designed Basic Policy. See Section III.A.2.d, page 44, above.
- b. Policyholders may also be offered an “Enhanced Basic Policy Endorsement” at higher If Knew Premiums. See Section III.A.2.f, page 45.

- c. Changes in EP and benefit trigger would apply to subsequent periods of care following recovery.
 - d. With the exception of the change from reimbursement to indemnity, no component of the endorsed policy can be richer than the current policy.
 - e. If the Current Premium the policyholder would be paying but for the waiver is less than the If Knew Premium for this policy, the policyholder must begin paying the If Knew Differential Premium. The If Knew Differential Premium for this option is the difference between the If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements and the current premium for the policy, both of which are set as if the policyholder did not have a premium waiver in effect. As noted, if the If Knew Differential Premium is less than zero, the policyholder will not be required to pay any additional premium for the Basic Policy Endorsements.
 - f. If the disabled policyholder recovers, the waiver of premium benefit will no longer be applicable or available in the future, and he or she will be required to begin paying the full If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements, even if it is lower than the current waived premium.
 - g. Although they will be required to pay the full If Knew Premium rather than the Differential Premium upon recovery, policyholders who elect this option in Phase One will not face other premium rate increases or additional benefit reductions in Phase Two of the Plan.
 - h. For those policies with an MPV that is currently above their applicable GA limits, the endorsed policy's MPV will be adjusted to be at least equal to the applicable Guaranty Association limits. For those policies with MPV below the applicable GA limits, the MPV of the endorsed policies will be adjusted so that they are at least equal to the current MPV. The adjustments will be made by lengthening the MBP.
3. **OPTION THREE - NFO.** Policyholders can elect a Non-forfeiture Option (NFO). See Section III.A.3.
4. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY PHASE ONE DIFFERENTIAL PREMIUM.** If the Current Premium the policyholder would be paying in the absence of waiver is equal to or greater than the If Knew Premium, the policyholder will not be required to pay a Differential Premium.
- a. Policyholders on claim with Premium Waiver can keep their current policy benefits.

- b. Their Premium Waiver (including Lifetime and Dual) will apply only to the Current Premium they would be paying absent the waiver. If the Current Premium the policyholders would be paying but for the waiver is less than the If Knew Premium for this policy, they will be required to begin paying the corresponding Phase One Differential Premium. (See Section II.E.6.b, page 24).
- c. If the policyholders recover, they will be required to begin paying the full Phase One Premium.

IV. DETAILS OF PHASE TWO OF THE PLAN

Phase Two will be implemented as and when deemed necessary by the Rehabilitator depending on the results of Phase One. As currently contemplated, it will be similar in structure to Phase One though based on Self-sustaining premiums rather than If Knew Premium.

A. APPLICATION

1. Throughout the period that follows implementation of Phase One, the Company's financial condition will be monitored with emphasis on projected changes in the Company's deficit.
2. The evaluation of the Company's condition will include a determination of the magnitude of additional remedial measures required to eliminate any projected remaining deficit. The evaluation will include projections of the effect of Phase One over time.
3. A decision will then be made as to whether, when, and how Phase Two should be implemented.
4. Phase Two adjustments will only be made to policies that:
 - a. Are not Fully Covered by the applicable Guaranty Association limits (*i.e.*, have Uncovered Benefits),
 - b. Are not Self-sustaining (because the sum of projected benefits and expenses exceeds the sum of allocated assets and projected premium), and
 - c. Did not elect Option Two (Basic Policy Endorsements) or Option Three (NFO) in Phase One.
5. Phase Two adjustments will be calculated after the results of Phase One adjustments have been incorporated.

B. ACTIVE LIVES PAYING PREMIUM (*ACTIVE - PAYING*)

Policyholders who, as of the Phase Two election date, are paying premiums and are not disabled or eligible for benefits will have the following options.

1. OPTION ONE - KEEP CURRENT PREMIUM AND DOWNGRADE POLICY BENEFITS.
 - a. Such policyholders not on claim paying premium can elect in Phase Two to keep the premium rate resulting from Phase One and reduce benefits to eliminate the policy shortfall.
 - b. The benefit reduction process and options will be the same as in Phase One (see Section III.A.1.c page 38) but the current benefits will be reduced so that they produce a Self-sustaining Premium that is within 2% of the policyholder's Current Premium.
 - c. As in Phase One, each policyholder will only receive one downgrade option, calculated as described in Section III.A.1.c.
2. OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT SELF-SUSTAINING PREMIUM.
 - a. Such policyholders can choose to have their current policy endorsed to provide benefits substantially similar to a newly designed Basic Policy. See Section III.A.2.d, page 44.
 - b. This is the Default Option for premium paying active lives in Phase Two.
 - c. Premiums will be set to the corresponding Self-sustaining Premium level. The premium for this option will be no less than 110% of the Basic Policy If Knew Premium for this policy reflecting the cost of delay in making this election until Phase Two.
 - d. Policyholders may also be offered an "Enhanced Basic Policy Endorsement" at higher Self-sustaining Premiums. See Section III.A.2.f, page 45.
 - e. With the exception of the change from reimbursement to indemnity, post-endorsement benefits cannot exceed those in the current policy. If a particular component of the Basic Policy Endorsements provides more coverage than the current policy's corresponding provision, that provision of the current policy will not be modified by endorsement.
 - f. For those policies with an MPV that is currently above their applicable GA limits, the endorsed policy's MPV will be adjusted to be at least equal to the applicable

Guaranty Association limits. For those policies with MPV below the applicable GA limits, the MPV of the endorsed policies will be adjusted so that they are at least equal to the current MPV. The adjustments will be made by lengthening the MBP.

3. OPTION THREE - NFO. Such policyholders can elect a Non-forfeiture Option. See Section III.A.3.
4. OPTION FOUR - KEEP CURRENT BENEFITS AND PAY SELF-SUSTAINING PREMIUM.
 - a. These policyholders can elect to maintain the current policy benefits but will be required to pay Self-sustaining Premiums.
 - b. As noted previously, the Self-sustaining Premium is the premium calculated to eliminate any shortfall in the policy. The shortfall is the excess of the sum of projected benefits and expenses (the PBA) over the sum of projected premiums and assets allocated on an accumulated premium basis (the PCA). See Section II.E.4, page 23, above.

C. ACTIVE LIVES NOT PAYING PREMIUM (*ACTIVE - WAIVER*)

Policyholders who, as of the Phase Two election date, are not paying premiums due to a premium waiver provision, but who are not disabled or eligible for benefits will have the following options.

1. LIFETIME WAIVER - Such policyholders on lifetime waiver (due to the death of a spouse) will have essentially the same four options as premium paying policyholders not on claim (See Section IV.B, page 55) with the following modifications:
 - a. OPTION ONE - KEEP PREMIUM WAIVER AND DOWNGRADE POLICY BENEFITS. This will be the Default Option for these policyholders. However, for those policyholders for whom the benefits that result from the Downgrade Process are lower than those offered by the NFO, the NFO (Option Three) will be the Default Option.
 - (1) Due to the Premium Waiver the policyholder will continue not paying premium.
 - (2) The Downgrade Process will be the same as for premium-paying active lives in Phase One (see Section III.A.1.c, page 38, above).
 - (3) The specific possible benefit reductions will be the ones described in Section III.A.1.f, page 41, above,

- (4) In this case the benefit reductions will be calibrated such that the projected benefits and expenses (the PBA) are equal to the sum of projected premiums and the assets allocated to the policy on an accumulated premium basis (the PCA).
 - b. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT SELF-SUSTAINING DIFFERENTIAL PREMIUM.** If the current policies provide benefits above the applicable Guaranty Association limits, the Guaranty Association floor on benefit reductions will be applied to these policyholders as described in Section III.A.2.h, page 45. For those policies with MPV below the applicable GA limits, the MPV of the endorsed policies will be adjusted so that they are at least equal to the current MPV. The adjustments will be made by lengthening the MBP.
 - (1) The Self-sustaining Premium used for the calculation for this option will be no less than 110% of the Basic Policy If Knew Premium for this policy reflecting the cost of delay in making this election until Phase Two.
 - (2) Policyholders may also be offered an “Enhanced Basic Policy Endorsement”. See Section III.A.2.f, page 45 at higher Self-sustaining Differential Premiums. The Self-sustaining Premium used for the calculation for this option will be no less than 110% of the Basic Policy If Knew Premium for this policy reflecting the cost of delay in making this election until Phase Two.
 - c. **OPTION THREE - NFO** (see Section III.A.3, page 46).
 - d. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY SELF-SUSTAINING DIFFERENTIAL PREMIUM.** The new premium will be the Self-sustaining Differential Premium described in the next paragraph.
 - e. The ***Self-sustaining Differential Premium*** is the difference between (1) the corresponding Self Sustaining Premium set as if the policyholder were not on claim and (2) the Current Premium the policyholder would be paying if he or she were not on Premium Waiver. The Self-sustaining Differential Premium will never be less than zero.
2. **DUAL WAIVER** - The options for a policyholder not on claim but not paying premium due to a dual waiver (because his or her spouse is on claim) will be the same as for a policyholder not on claim with a lifetime waiver except that the premium he or she must pay will be determined in part by the spouse’s claim status. The default for these policyholders will be Option One (Downgrade). However, for those policyholders for whom the benefits that result from the Downgrade Process are lower than those offered by the NFO, the NFO (Option Three) will be the Default Option.

- a. **OPTION ONE - KEEP PREMIUM WAIVER AND DOWNGRADE POLICY BENEFITS.** The policyholder will retain the Current Premium Waiver but the policy will be downgraded.
 - (1) The Downgrade Process will be as described in Section III.A.1.c, page 38 subject to the following provisions.
 - (2) The Benefit Reductions will apply, as described in Section III.A.1.f, page 41. Benefit reductions for each policyholder to whom this option applies will be calibrated to produce a Self-sustaining Premium equal to the premium the policyholder would be paying if not on waiver (the Current Premium). However, because of the waiver, the policyholder will not be required to pay any premium.
 - (3) If the disabled spouse resumes paying premiums, the active spouse will also be required to resume paying premiums at the premium rate he or she would be paying if not on waiver, but the policy will remain downgraded.
- b. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT SELF-SUSTAINING DIFFERENTIAL PREMIUM.**
 - (1) The policy will be modified through the Basic Policy Endorsements (See Section III.A.2.d, page 44). The policyholder will be required to pay the Self-sustaining Differential Premium.
 - (2) If the current policies provide benefits above the applicable Guaranty Association limits, the Guaranty Association floor on benefit reductions will be applied to these policyholders as described in Section III.A.2.h, page 45. For those policies with MPV below the applicable GA limits, the MPV of the endorsed policies will be adjusted so that they are at least equal to the current MPV. The adjustments will be made by lengthening the MBP.
 - (3) Policyholders may also be offered an “Enhanced Basic Policy Endorsement” at higher Self-sustaining Premiums. See Section III.A.2.f, page 45.
 - (4) The Self-sustaining Premium used for the calculation for this option will be no less than 110% of the Basic Policy If Knew Premium for this policy, reflecting the cost of delay in making this election until Phase Two
 - (5) If the disabled spouse recovers the active spouse will be required to begin paying the full Self-Sustaining Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements.

- c. **OPTION THREE - NFO.** The policyholders can elect a Non-forfeiture Option. See Section III.A.3.
- d. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY SELF-SUSTAINING DIFFERENTIAL PREMIUM.** The policyholder will retain the current policy benefits and pay the Self-sustaining Differential Premium (see Section IV.C.1.e, page 57).
 - (1) If the disabled spouse recovers the active spouse will be required to begin paying the full Self-sustaining Premium.
 - (2) The Self-sustaining Differential Premium cannot be less than zero.

D. DISABLED LIVES PAYING PREMIUM (*ON CLAIM - PAYING*)

Policyholders on claim who are paying premiums will have the same options as active lives paying premiums (see Section IV.B, page 55) subject to the following conditions.

- 1. **OPTION ONE - KEEP CURRENT PREMIUM AND DOWNGRADE POLICY BENEFITS.** Keep the Current Premium rates but accept specified downgrades. The Downgrade process will be as described in Section III.A.1.c, page 38. The Benefit Reductions described in Section III.A.1.f, page 41 will apply, but the benefits will be reduced so that they produce a Self-Sustaining Premium within 2% of the Current Premium.
- 2. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT SELF-SUSTAINING PREMIUM.** The policy will be endorsed as described in Section III.A.2.d, page 44, at Self-sustaining Premium
 - a. The Self-sustaining Premium used for the calculation for this option will be no less than 110% of the Basic Policy If Knew Premium for this policy reflecting the cost of delay in making this election until Phase Two.
 - b. Changes in EP and benefit trigger would apply to subsequent periods of care following recovery.
 - c. For those policies with an MPV that is currently above their applicable GA limits, the endorsed policy's MPV will be adjusted to be at least equal to the applicable GA limits. For those policies with MPV below the applicable GA limits, the MPV of the endorsed policies will be adjusted so that they are at least equal to the current MPV. The adjustments will be made by lengthening the MBP.
 - d. This will be the default for these policyholders.

- e. Policyholders may also be offered an “Enhanced Basic Policy Endorsement” at higher Self-sustaining Premiums. See Section III.A.2.f, page 45.

3. **OPTION THREE - NFO.** See Section III.A.3.

4. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY SELF-SUSTAINING PREMIUM.** The Self-sustaining Premium will be set as if the policyholder were not on claim. However, in so doing assets will be allocated to the policyholders according to the method previously described for Disabled Lives.

5. In some cases, options like the Downgrade or Basic Policy Endorsements may result in a reduction of the benefits being received by the policyholder on claim at the time of the election.

E. DISABLED LIVES NOT PAYING PREMIUM (*ON CLAIM - WAIVER*)

Policyholders who, as of the Phase Two election date, are not paying premiums due to a premium waiver provision, and who are disabled or eligible for benefits will have the following options.

1. **OPTION ONE - KEEP PREMIUM WAIVER AND DOWNGRADE POLICY BENEFITS.**

- a. This is the Default Option for policyholders on claim with Premium Waiver in Phase Two. However, for those policyholders for whom the benefits that result from the Downgrade Process are lower than those offered by the NFO, the NFO (Option Three) will be the Default Option.
- b. Policyholders may preserve their Premium Waiver and the policy will be downgraded. The Downgrade Process will be as described in Section III.A.1.c, page 38. The Benefit Reductions described in Section III.A.1.f, page 41, above, will apply but benefits will be reduced so that they produce a Self-sustaining premium that is within 2% of the Current Premium.
- c. If the policyholder resumes paying premiums, the premiums will be at the rate the policyholder would be paying if not on waiver, but the policy will remain downgraded. Note that the Downgrade Process made that premium equal to the Self-sustaining Premium for the downgraded policy at the time of implementation of Phase Two.
- d. If the policyholder regains active status, for future periods of care:
 - (1) The EP will be no less than 90 days. If the current EP is more than 90 days, the policy will retain the current EP;

(2) The EP will apply to each period of care; and

(3) TQ Triggers will apply. See Section III.A.2.d.(7), page 44.

2. OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT SELF-SUSTAINING DIFFERENTIAL PREMIUM.

- a. The policyholder will have the option to have the current policy endorsed to provide benefits substantially similar to a newly designed Basic Policy. See Section III.A.2.d, page 44.
- b. The policyholder must begin paying the Self-sustaining Differential Premium corresponding to the Self-sustaining premium for the Basic Policy Endorsements set as if the policyholder were not on claim. The Self-sustaining Premium used for the calculation for this option will be no less than 110% of the Basic Policy If Knew Premium for this policy reflecting the cost of delay in making this election in Phase Two.
- c. With the exception of the change from reimbursement to indemnity, no component of the endorsed policy can be richer than the current policy.
- d. For those policies with an MPV that is currently above their applicable GA limits, the endorsed policy's MPV will be adjusted to be at least equal to the applicable Guaranty Association limits. For those policies with MPV below the applicable GA limits, the MPV of the endorsed policies will be adjusted so that they are at least equal to the current MPV. The adjustments will be made by lengthening the MBP.
- e. Policyholders may also be offered an "Enhanced Basic Policy Endorsement" at higher Self-sustaining Premiums. See Section III.A.2.f, page 45.
- f. Changes in EP and benefit trigger would apply to subsequent periods of care following recovery.
- g. If the policyholder recovers, he or she will be required to begin paying the full Self-sustaining Premium.

3. OPTION THREE - NFO. Policyholders can elect a Non-forfeiture Option. See Section III.A.3.

4. OPTION FOUR - KEEP CURRENT BENEFITS AND PAY SELF-SUSTAINING DIFFERENTIAL PREMIUM.

- a. A policyholder on claim with Premium Waiver can keep the current policy benefits.

- b. The Premium Waiver (including lifetime and dual) will apply only to the Current Premium. The policyholder will be required to begin paying the corresponding Self-sustaining Differential Premium (see Section IV.C.1.e, page 57). If the policyholder recovers he or she will be required to begin paying the full Self-sustaining Premium.

F. SUMMARY OF POLICYHOLDER OPTIONS

The following table summarizes all of the options available to policyholders under the Plan depending on their claim and premium-paying status in both Phase One and Phase Two.

TABLE 6: POLICYHOLDER OPTIONS		
	PHASE ONE	PHASE TWO
ACTIVE PAYING	1. KEEP PREMIUM - DOWNGRADE 2. BASIC POLICY - IF KNEW PREMIUM* 3. NFO 4. KEEP BENEFITS - PHASE ONE PREMIUM	1. KEEP PREMIUM - DOWNGRADE 2. BASIC POLICY - SELF SUSTAINING PREMIUM* 3. NFO 4. KEEP BENEFITS - SELF-SUSTAINING PREMIUM
ACTIVE WAIVER	1. DOWNGRADE - RETAIN PREMIUM WAIVER*‡ 2. BASIC POLICY - IF KNEW DIFFERENTIAL PREMIUM 3. NFO 4. KEEP BENEFITS - PHASE ONE DIFFERENTIAL PREMIUM DUAL WAIVER PREMIUM GOVERNED IN PART BY SPOUSE'S STATUS	1. DOWNGRADE - RETAIN PREMIUM WAIVER*‡ 2. BASIC POLICY - SELF SUSTAINING DIFFERENTIAL PREMIUM† 3. NFO 4. KEEP BENEFITS - SELF SUSTAINING DIFFERENTIAL PREMIUM† DUAL WAIVER PREMIUM GOVERNED IN PART BY SPOUSE'S STATUS
ON CLAIM PAYING	1. KEEP PREMIUM - DOWNGRADE 2. BASIC POLICY - IF KNEW PREMIUM* 3. NFO 4. KEEP BENEFITS - PHASE ONE PREMIUM	1. KEEP PREMIUM - DOWNGRADE 2. BASIC POLICY - SELF SUSTAINING PREMIUM*† 3. NFO 4. KEEP BENEFITS - SELF SUSTAINING PREMIUM†

ON CLAIM WAIVER	1. DOWNGRADE - RETAIN PREMIUM WAIVER*‡ 2. BASIC POLICY - IF KNEW DIFFERENTIAL PREMIUM 3. NFO 4. KEEP BENEFITS - PHASE ONE DIFFERENTIAL PREMIUM	1. - DOWNGRADE - RETAIN PREMIUM WAIVER*‡ 2. BASIC POLICY - SELF-SUSTAINING DIFFERENTIAL PREMIUM† 3. NFO 4. KEEP BENEFITS - SELF SUSTAINING DIFFERENTIAL PREMIUM†
*Default Option. †Self-sustaining premium calculated as if policyholder not on claim. ‡If the NFO provides greater benefits, that will be the Default Option. In Phase One, policyholders whose Current Premium is not less than the If Knew Premium need not change premiums or benefits. Option 2 preserves the GA floor for policyholders with benefits above that.		

G. POLICY ILLUSTRATIONS

The following twelve examples illustrate how these options work for some representative policies. The policies selected are actual in-force SHIP policies. They were selected to provide a representative variety of policy features. Reviewing sample policies resembling a particular policy will provide an indication of how the Plan will result in modifications to that policy. Because of the differences among the features in the sample policies, it may be helpful to review several sample policies to see how particular features are affected by the Plan.

ILLUSTRATIVE POLICYHOLDER GUIDANCE PAGE

This page is provided to assist you in comparing the Plan Options to each other and in selecting the best one for your individual circumstances. The yellow boxes contain the comparative data. The rest of this page provides explanations for that data.

YOUR CURRENT POLICY: These are the key details and characteristics of your current policy before modification under the Plan.

CURRENT PREMIUM	\$529	ILLUSTR. #	1	YEAR ISSUED	1988
MAXIMUM DAILY BENEFIT	\$160			AGE WHEN ISSUED	57
MAXIMUM BENEFIT PERIOD (in years)	2.0			CURRENT AGE	89
MAXIMUM POLICY VALUE	\$116,800			GUAR ASSN LIMIT ¹	\$300,000
INFLATION PROTECTION	0.0%			STATE OF ISSUE	PA
PREMIUM AND CLAIM STATUS	Premium paying	Active		STATE OF RESIDENCE	PA

COMPARISON OF RELATIVE VALUES: This chart shows the value of several metrics for your current policy and each Option available to you under the Plan. Each metric may have greater or lesser importance for a particular policyholder. The table should enable you to compare the metric(s) most important to you from Option to Option.

Policy Value Indicators^{2,3}

#	METRIC	DESCRIPTION	Current Your Policy Now	Option 1 Downgrade	Option 2 Basic Policy	Option 2a Enhanced Basic Policy	Option 3 Enhanced RPU	Option 4 Phase I premium (Current Benefits)
1	PREMIUM FOR EACH OPTION	This is the actual premium for your current policy and for each Option available to you.	\$529	\$529	\$172	\$172	NO PREMIUM	\$618
2	PREMIUM INCREASE OR DECREASE FOR EACH OPTION	For each option, this shows the change from your current premium.	N/A	\$0 0.0%	-\$357 -67.5%	-\$357 -67.5%	-\$529 -100.0%	+\$89 +16.8%
3	MAXIMUM BENEFIT PERIOD ⁴	This is the Maximum Benefit Period (years of care) available under your current policy and each Option.	2.0	2.0	2.5	2.5	2.0	2.0
4	MAXIMUM DAILY BENEFIT ⁴	This the Maximum Daily Benefit as of the Plan Effective Date available under your policy and each Option.	\$160	\$149	\$128	\$128	\$128	\$160
5	MAXIMUM POLICY VALUE ⁵	This is the maximum amount of coverage provided by your current policy and each Option, adjusted for inflation if applicable.	\$116,800	\$109,036	\$116,800	\$116,800	\$93,440	\$116,800
6	INFLATION	This is the degree of inflation protection provided by your policy and each option.	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%
7	POTENTIAL UNCOVERED BENEFITS	This is the amount of your Maximum Policy Value that would not be covered by the applicable state insurance guaranty association in the event SHIP were placed in liquidation.	\$0	\$0	\$0	\$0	\$0	\$0

¹ In the event the Commonwealth Court of Pennsylvania places SHIP into liquidation, your guaranty association coverage would be limited to the statutory limit associated with your state of residence. In this scenario, you may be subject to a premium rate increase at the discretion of the guaranty association and subject to approval by the state in which your policy was issued. The expected premium rate requested by the guaranty association would be:

\$618

² If you elect Option 1 or Option 4 you may be subject to Phase II premium rate increases. For purposes of comparison, although it would be adjusted to reflect the effect of Phase 1, if it were calculated as of the Effective Date, the self sustaining premium for your policy would be:

\$2,835

³ Policy Value Indicators reflect policy status as of the Effective Date. All metric values will change subsequent to the effective date. The changes will be significant for active policyholders who become disabled and for disabled policyholders who become active.

⁴ Maximum Benefit Period and Maximum Daily Benefit are shown for the highest level of care covered by the policy. Nursing home is the highest level of care, assisted living facility is the second-highest level of care, and home-health care is the third-highest level of care.

⁵ Maximum Policy Value is the product of the policy's Maximum Benefit Period times its Maximum Daily Benefit, adjusted for inflation. For active policyholders, inflation is accounted for by assuming a claim is incurred on the Effective Date. Actual Maximum Policy Value will vary from policyholder to policyholder and will depend on when a claim is incurred.

The Proposed Rehabilitation Plan (the "Plan") is aimed at reducing or eliminating a very substantial "Funding Gap" or deficit arising from the excess of projected liabilities over the premium and assets projected to be available to fund them, in part by modifying many existing LTC policies while striving to provide policyholders meaningful choices. IF THE REHABILITATION PLAN FAILS TO REDUCE THE FUNDING GAP SUFFICIENTLY, IT IS POSSIBLE THAT SHIP WILL BE PLACED IN LIQUIDATION, POLICYHOLDERS WILL HAVE FEWER OPTIONS, AND SOME MAY LOSE SOME OR ALL OF THEIR COVERAGE IN EXCESS OF GUARANTY ASSOCIATION LIMITS. See discussion beginning at page 92 and especially page 95.

Policy Value Indicators^{2,3}

#	METRIC	DESCRIPTION	Current Your Policy Now	Option 1 Downgrade	Option 2 Basic Policy	Option 2a Enhanced Basic Policy	Option 3 Enhanced RPU	Option 4 Phase I premium (Current Benefits)
1	PREMIUM FOR EACH OPTION	This is the actual premium for your current policy and for each Option available to you.	NO PREMIUM	NO PREMIUM	NO PREMIUM	NO PREMIUM	NO PREMIUM	NO PREMIUM
2	PREMIUM INCREASE OR DECREASE FOR EACH OPTION	For each option, this shows the change from your current premium.	N/A	\$0 NA	\$0 NA	\$0 NA	\$0 NA	\$0 NA
3	MAXIMUM BENEFIT PERIOD ⁴	This is the Maximum Benefit Period (years of care) available under your current policy and each Option.	2.0	2.0	2.5	2.5	2.0	2.0
4	MAXIMUM DAILY BENEFIT ⁴	This the Maximum Daily Benefit as of the Plan Effective Date available under your policy and each Option.	\$159	\$159	\$127	\$127	\$127	\$159
5	MAXIMUM POLICY VALUE ⁵	This is the maximum amount of coverage provided by your current policy and each Option, adjusted for inflation if applicable.	\$290,536	\$290,536	\$290,536	\$290,536	\$116,215	\$290,536
6	INFLATION	This is the degree of inflation protection provided by your policy and each option.	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%
7	POTENTIAL UNCOVERED BENEFITS	This is the amount of your Maximum Policy Value that would not be covered by the applicable state insurance guaranty association in the event SHIP were placed in liquidation.	\$0	\$0	\$0	\$0	\$0	\$0

¹ In the event the Commonwealth Court of Pennsylvania places SHIP into liquidation, your guaranty association coverage would be limited to the statutory limit associated with your state of residence. In this scenario, you may be subject to a premium rate increase at the discretion of the guaranty association and subject to approval by the state in which your policy was issued. The expected premium rate requested by the guaranty association would be:

\$0

² If you elect Option 1 or Option 4 you may be subject to Phase II premium rate increases. For purposes of comparison, although it would be adjusted to reflect the effect of Phase 1, if it were calculated as of the Effective Date, the self sustaining premium for your policy would be:

\$867

³ Policy Value Indicators reflect policy status as of the Effective Date. All metric values will change subsequent to the effective date. The changes will be significant for active policyholders who become disabled and for disabled policyholders who become active.

⁴ Maximum Benefit Period and Maximum Daily Benefit are shown for the highest level of care covered by the policy. Nursing home is the highest level of care, assisted living facility is the second-highest level of care, and home-health care is the third-highest level of care.

⁵ Maximum Policy Value is the product of the policy's Maximum Benefit Period times its Maximum Daily Benefit, adjusted for inflation. For active policyholders, inflation is accounted for by assuming a claim is incurred on the Effective Date. Actual Maximum Policy Value will vary from policyholder to policyholder and will depend on when a claim is incurred.

The Proposed Rehabilitation Plan (the "Plan") is aimed at reducing or eliminating a very substantial "Funding Gap" or deficit arising from the excess of projected liabilities over the premium and assets projected to be available to fund them, in part by modifying many existing LTC policies while striving to provide policyholders meaningful choices. IF THE REHABILITATION PLAN FAILS TO REDUCE THE FUNDING GAP SUFFICIENTLY, IT IS POSSIBLE THAT SHIP WILL BE PLACED IN LIQUIDATION, POLICYHOLDERS WILL HAVE FEWER OPTIONS, AND SOME MAY LOSE SOME OR ALL OF THEIR COVERAGE IN EXCESS OF GUARANTY ASSOCIATION LIMITS. See discussion beginning at page 92 and especially page 95.

5	MAXIMUM POLICY VALUE ⁵	This is the maximum amount of coverage provided by your current policy and each Option, adjusted for inflation if applicable.	\$65,700	\$65,700	\$65,700	\$65,700	\$43,800	\$65,700
6	INFLATION	This is the degree of inflation protection provided by your policy and each option.	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%
7	POTENTIAL UNCOVERED BENEFITS	This is the amount of your Maximum Policy Value that would not be covered by the applicable state insurance guaranty association in the event SHIP were placed in liquidation.	\$0	\$0	\$0	\$0	\$0	\$0

¹ In the event the Commonwealth Court of Pennsylvania places SHIP into liquidation, your guaranty association coverage would be limited to the statutory limit associated with your state of residence. In this scenario, you may be subject to a premium rate increase at the discretion of the guaranty association and subject to approval by the state in which your policy was issued. The expected premium rate requested by the guaranty association would be:

\$0

² If you elect Option 1 or Option 4 you may be subject to Phase II premium rate increases. For purposes of comparison, although it would be adjusted to reflect the effect of Phase 1, if it were calculated as of the Effective Date, the self sustaining premium for your policy would be:

\$757

³ Policy Value Indicators reflect policy status as of the Effective Date. All metric values will change subsequent to the effective date. The changes will be significant for active policyholders who become disabled and for disabled policyholders who become active.

⁴ Maximum Benefit Period and Maximum Daily Benefit are shown for the highest level of care covered by the policy. Nursing home is the highest level of care, assisted living facility is the second-highest level of care, and home-health care is the third-highest level of care.

⁵ Maximum Policy Value is the product of the policy's Maximum Benefit Period times its Maximum Daily Benefit, adjusted for inflation. For active policyholders, inflation is accounted for by assuming a claim is incurred on the Effective Date. Actual Maximum Policy Value will vary from policyholder to policyholder and will depend on when a claim is incurred.

The Proposed Rehabilitation Plan (the "Plan") is aimed at reducing or eliminating a very substantial "Funding Gap" or deficit arising from the excess of projected liabilities over the premium and assets projected to be available to fund them, in part by modifying many existing LTC policies while striving to provide policyholders meaningful choices. IF THE REHABILITATION PLAN FAILS TO REDUCE THE FUNDING GAP SUFFICIENTLY, IT IS POSSIBLE THAT SHIP WILL BE PLACED IN LIQUIDATION, POLICYHOLDERS WILL HAVE FEWER OPTIONS, AND SOME MAY LOSE SOME OR ALL OF THEIR COVERAGE IN EXCESS OF GUARANTY ASSOCIATION LIMITS. See discussion beginning at page 92 and especially page 95.

See discussion beginning at page 92 and especially page 95.

V. PHASE THREE

Following implementation of Phase One and Phase Two, SHIP will continue managing its LTCI in a run-off mode. While some aspects of Phase Three will be developed in the future, if the Company has improved to the point of having assets available, payments will be made to agents, policyholders, and other creditors on account of amounts owed to them. Certain amounts may be owed to policyholders on account of the **Unfunded Benefit Liability** created as part of the policy restructuring. See Section VI.H, page 86. By virtue of the restructuring, this Unfunded Benefit Liability (UBL) will be a non-insurance obligation payable only if SHIP has assets available for payments to general creditors in Phase Three. To the extent such assets are available, they will be applied proportionately to the UBL along with other unpaid general creditors liabilities, such as agent commissions and amounts owed to companies previously reinsured by SHIP.

It is possible that in Phase Three SHIP will not be able to pay off all remaining liabilities in full. In that event, it is likely that it will then be placed in Liquidation in accordance with Article V. To the extent that at that time there remain unsatisfied insurance policy obligations, the Guaranty Associations may be triggered to protect the remaining policy obligations, subject to applicable statutory conditions and limits. See Section VI.J, page 87.

VI. OTHER MATTERS

A. ABOUT SENIOR HEALTH INSURANCE COMPANY OF PENNSYLVANIA

SHIP commenced business on July 5, 1887, as the Home Beneficial Society. It underwent many transactions and transformations in the ensuing century, culminating in the adoption of the current name in October 2008, when it was transferred by its then owner, Consecro, to the newly formed, nonprofit, *Senior Health Care Oversight Trust* (the “Trust” - see page 84) so it could continue running off its long-term care insurance (“LTCI”) business independently. At the time, SHIP had 152,000 policies in force. As of year-end 2019 that number was down to close to 45,000. It is a Pennsylvania life and health insurance company. Prior to Rehabilitation, SHIP was licensed in 46 states (excluding Connecticut, New York, Rhode Island, and Vermont), the District of Columbia, and the U.S. Virgin Islands. Since SHIP’s creation in 2008, it has utilized an outsourcing model for select functions, specifically: Long Term Care Group, Inc. (“LTCG”) for lower-level claims administration functions; Milliman for rate increase analyses and valuations; Conning, Inc., and New England Asset Management, Inc., for investment services; KPMG for tax services; and external law firms for specific legal issues. Beginning in 2018, the Company engaged Ernst & Young for internal audit services.

Table 7 summarizes the Company's corporate history.

TABLE 7 - CORPORATE HISTORY

B. LONG-TERM CARE INSURANCE

At the time this proposed Rehabilitation Plan is filed, the insurance business of SHIP consists entirely of LTCI, much of it issued many decades ago, and none issued any later than 2003, when the Company ceased writing new business. Of approximately 645,000 LTCI policies sold by SHIP and its predecessors since the late 1970s, fewer than 45,000 remain in force. More precisely,

1. As of year-end 2018, SHIP had 51,635 policies in force, of which 6,151 policyholders were on claim. As of that date, it also reinsured 2,620 policies of which 401 were on claim. See Section VI.M, page 91. Thus at that time it administered a total of 54,255 policies of which 6,552 were on claim.

2. By year end 2019, SHIP's direct business was down to 45,518, with 5,776 on claim. Its assumed business was down to 2,267 policies, 376 on claim. At the end of last year, therefore, SHIP was administering 47,785 policies of which 6,152 were on claim.
3. By mid-year (June 30, 2020) these numbers had declined further. The total of direct policies was down to 42,559, of which 5,402 were on claim. Assumed policies numbered 2,114, with 352 on claim. Total of administered LTC policies was therefore 44,673, of which 5,753 were on claim.

A key characteristic of this remaining "legacy" block of LTCI policies as a group is that the premiums being paid, when added to the Company's assets, are projected to be grossly insufficient to pay the benefits expected to be due under those policies. This anticipated "Funding Gap" led to the Company being placed in Rehabilitation on January 29, 2020, and is the key challenge sought to be addressed by the Plan.

SHIP's long-term care insurance policies cover long-term care services, including confinement to nursing facilities and assisted living facilities, as well as home health care and adult day care for individuals who meet specified requirements. These requirements vary among the Company's policies but typically include things like the policyholder requiring care for at least 90 days, and being unable to perform 2 or more Activities of Daily Living (eating, dressing, bathing, transferring, toileting, and continence) without substantial assistance (hands on or standby).

The Company's business is comprised of both LTCI policies written by the Company and assumed reinsurance. For the policies written by the Company, average LTC policyholder age is 86 and the average claimant is 89 years old. SHIP's policies are approximately 13% Home Health Care coverage, 18% Facility Care coverage (nursing home and/or assisted living facility), and 69% Comprehensive coverage covering multiple levels of care. The following paragraphs provide a general description of certain terms and features that are included in many of the Company's LTC Policies:

4. Tax Qualified v. Non-Tax Qualified - In order to trigger coverage under a policy, the policyholder generally must satisfy certain needs-based tests that vary depending on whether the policy is Tax Qualified or Non-Tax Qualified. Under Section 213 of the Internal Revenue Code ("IRC"), premiums paid for a Tax Qualified LTC policy are deductible medical expenses. According to Section 7702B of the IRC, a Tax Qualified policy is one that:
 - a. provides insurance coverage only for qualified LTC services;
 - b. does not pay or reimburse expenses that are reimbursable under Medicare;
 - c. is guaranteed renewable;
 - d. does not provide for a cash surrender value or other money that can be paid, assigned or pledged as collateral for a loan, or borrowed;

- e. provides that all refunds of premiums (other than refunds on the death of the insured or on a complete surrender or cancellation of the policy, which cannot exceed the aggregate premiums paid under the policy) and the policyholder dividends, or similar amounts, are applied as a reduction of future premiums or to increase future benefits; and
 - f. satisfies certain consumer protection requirements as well as disclosure and nonforfeiture requirements.
5. “Qualified long-term care services” are defined as necessary diagnostic, preventive, therapeutic, curing, treating, mitigating, and other rehabilitative services, and maintenance or personal care services which are required by a chronically ill individual and are provided pursuant to a plan of care prescribed by a licensed health care practitioner. A “chronically ill individual” is defined as one who has been certified within the previous twelve (12) months by a licensed health care provider as:
- a. being unable to perform (without substantial assistance from another individual) at least two (2) Activities of Daily Living (eating, toileting, transferring, bathing, dressing and continence) for a period of at least 90 days due to a loss of functional capacity;
 - b. having a level of disability similar to the level of disability described in the clause above, as determined by the Internal Revenue Service in consultation with the Department of Health and Human Services; or
 - c. requiring substantial supervision to protect such an individual from threats to health and safety due to severe cognitive impairment.
6. A Non-Tax Qualified Policy generally contains eligibility standards, such a Medical Necessity, which is a lower threshold to trigger coverage. For example, some policy forms contain the following conditions for eligibility:
- a. *Your Physician certifies Your care to be Medically Necessary; or*
 - b. *You are unable to perform two (2) or more Activities of Daily Living without assistance or supervision; or*
 - c. *You are afflicted with Cognitive Impairment.*

Approximately 85% of the Company’s policies are Non-Tax Qualified policies, and approximately 66% of the in-force policies are eligible to qualify for care through the Medical Necessity provision.

7. Daily Benefit Amount - The Company’s LTC policies are subject to a Maximum Daily Benefit that was selected by the policyholder when he or she purchased the coverage. The Maximum Daily Benefit available ranged from \$10 to \$300 per day, with many policies subject to annual percentage increases. Some policies, known as “indemnity,” pay the full Maximum Daily Benefit, regardless of actual expenses incurred. With the annual percentage

increases, in some cases the Maximum Daily Benefit has accumulated to over \$700. The Company's average Maximum Daily Benefit for in-force policyholders is \$173.

8. **Inflation Benefit** - Some of the Company's LTC policies were issued with an inflation benefit (referred to as "Inflation Protection"). Inflation Protection may increase a policy's Maximum Daily Benefit by a fixed percentage, often 3% or 5% each year, and inflate the Maximum Lifetime Benefit or Benefit Account Value proportionately. The inflation may be simple (increase by the fixed percentage of the original benefit each year) or compound (increase by the fixed percentage of the current benefit each year). The duration of the inflation may be limited to 20 years, or until a policyholder attained age of 85, but many policies have Inflation Protection for the life of the policy. Approximately 32% of the in-force policyholders have lifetime 5% compound inflation.
9. **Indemnification** - Indemnity and reimbursement denote the method by which the Maximum Daily Benefit will be paid out. Some policies provide coverage for the actual expenses of care (reimbursement), while others pay the full daily benefit amount regardless of actual expenses incurred (indemnity) much like disability insurance policies. The payment method can vary on comprehensive policies, between Assisted Living Facility Care or Home Health Services. Approximately 63% of in-force policyholders have the indemnity benefit for their main coverage.
10. **Benefit Period** - Most of the Company's LTC policies are subject to a Maximum Benefit Period. The Maximum Benefit Periods range from one year to six years. Some policies, however, have an unlimited benefit period ("lifetime policies") while others are subject to a maximum dollar amount. Approximately 72% of the in-force policyholders have a limited benefit period while approximately 29% of policyholders have lifetime policies.
11. **Elimination Period** - Some of the Company's LTC policies have an Elimination Period, which is a period of time during which the Company is not required to pay benefits to an otherwise eligible policyholder receiving covered care or services. Some policies were issued with a zero-day Elimination Period. Approximately 66% of the in-force policyholders have a zero-day Elimination Period.
12. **Waiver of Premium** - Approximately 99% of the Company's LTC policies provide that a policyholder who receives benefits under his or her policy for a specified period of time (such as 90 days) is no longer required to pay premiums for coverage after that time period as long as the policyholder remains eligible for benefits and/or receives a specified level of care. Once the policyholder's eligibility for benefits ends, the policyholder is required to resume paying premiums. Approximately 14% of policyholders who otherwise would pay premiums are currently receiving the Waiver of Premium benefit.
13. **Restoration of Benefits** - The Restoration of Benefits ("ROB") provision provides that the policy's Maximum Benefit Period will restore to the original Maximum Benefit after receiving some or all claim benefits if the policyholder does not need or receive care during a specified period of time such as 180 days. In most instances, partial benefits were utilized prior to the restoration period. Some policies may restore an unlimited number of times,

while others are restricted in the number of times the policy can be restored. Approximately 76% of the in-force policyholders have a ROB benefit.

14. Return of Premium - Approximately 5% of the Company's LTC policies were issued with a Return of Premium ("ROP") benefit. This benefit provides for the return of a percentage of premium paid by the policyholder if the policyholder does not have a claim or has a limited amount of benefits paid under the policy. The ROP typically occurs upon termination or upon ten-year incremental anniversaries. Since 2011, over \$53 million has been returned through the ROP benefit.

C. FINANCIAL CONDITION

The Company has been in a declining financial condition for many years. Its reported surplus is reflected in the following table:

TABLE 8: FINANCIAL CONDITION (IN DOLLARS)

YEAR	ASSETS	LIABILITIES	CAPITAL & SURPLUS/ (DEFICIT)
2009	3,251,994,962	3,058,545,856	193,449,106
2010	3,317,023,144	3,139,706,226	177,314,918
2011	3,161,093,979	3,046,696,672	114,397,307
2012	3,080,745,346	2,975,278,318	105,467,028
2013	2,985,938,782	2,887,736,889	98,201,892
2014	2,906,965,242	2,826,959,318	80,005,924
2015	2,879,794,716	2,824,037,145	55,757,570
2016	2,744,535,287	2,716,512,099	28,023,187
2017	2,688,468,510	2,675,819,343	12,649,166
2018	2,186,058,273	2,652,931,248	(466,814,972)
2019	1,907,181,137	2,823,279,366	(916,098,229)

More complete financial information as of December 31, 2019, is included at Exhibit B, along with summary updated information through June 30, 2020. It is estimated that SHIP's Funding Gap is more than \$1 billion. That is to say, based on Current Premium payments and the current value of SHIP's assets, in the absence of rehabilitation, by the time all of SHIP's policies terminate about twenty to twenty-five years from now, it will have incurred liability for covered benefits costing at least \$1 billion more than the money that will be available to pay for those benefits. It is important to note that these are estimates or projections for events that will occur over

a long period of time. Any of a multitude of factors can change during that time affecting materially the accuracy of those projections.

There are many reasons that SHIP finds itself in this dilemma, some understood better than others. The Rehabilitator has been conducting and will continue thorough and exhaustive investigations and analyses of the reasons for SHIP's current financial condition. The areas of investigation and analysis will include, but not be limited to, industry wide challenges, common industry practices, volatility in the financial markets, and the conduct of SHIP's management, business partners, consultants and other service providers. The Rehabilitator, in consultation with her advisors and experts, will determine how these forces may have contributed to SHIP's current financial condition. Actions will be taken as appropriate.

Industry wide challenges may have played a role. The LTCI industry or line of insurance business is relatively young, significant numbers of such policies being sold for the first time in the late 1970s and early 1980s. When these insurance products were first designed, there did not exist a robust data base of historical LTCI experience of the type on which actuaries rely to calculate what benefits will cost, how the policies will "behave" over time, and what level of premium will be required to make them financially safe. There was insufficient historical data on which to base expectations about benefit costs and required premiums. The industry therefore referred to experience in other lines of insurance, such as life and disability, to make such projections. Soon, the industry came to understand that the characteristics of LTCI policies are materially different in key respects from those in other lines of insurance. For example, many fewer policyholders voluntarily surrender their LTCI policies before expiration than is true of other types of insurance. Similarly, the length of time during which LTCI policyholders will require benefits is materially longer than had been projected. In short, many factors affecting projected liabilities turned out materially different from what had been assumed when the policies were first issued, and when premium rates were set for them.

This problem was compounded by a decision by the industry to structure these policies as level-premium guaranteed-renewable contracts. In summary, this meant that, as long as the policyholders paid their premiums, the policies could not be cancelled despite changes in age, health condition, and other circumstances. Moreover, the premiums could only be increased if they were increased by the same percentage for all policyholders who had the same type of policy, and then only if the state insurance regulator approved the increase. Over time, a large percentage of these policies were found to be substantially underpriced in that the premiums paid for a given group of such policies could be projected to fall far short of what the company would need for the benefits due under the policies for that group. Obtaining the required approval for rate increases from state regulators proved difficult over time, resulting in two key problems. First, for many LTCI companies, the entire block of such policies was projected to create liabilities far in excess of what the companies would be able to pay. In fact, for many companies like SHIP, this became a serious threat or contributing cause of insolvency. Second, because of differences in the responses by different states to requests for authorization to increase premium rates, over time there emerged wide divergence in the premiums policyholders holding similar policies would pay in different states. Some critics characterized this phenomenon as resulting in policyholders in rate-increase-approving states subsidizing those in states that rejected such requests. All of this can be contrasted with

typical health insurance policies that generally last only a year or less, and the premiums for which are adjusted at least annually.

Adding to these challenges were material changes in the economic environment in which these policies were required to perform. For example, when early LTCI policies were sold, there did not exist a robust assisted living facility (“ALF”) or continuing care retirement center (“CCRC”) industry. When one became incapable of caring for oneself, the principal choices were internment in a nursing home, widely viewed as undesirable unless absolutely necessary, or (at much lower cost) having family or hired help care for one at home. However, as LTCI policies began becoming more popular and provided a funding source for other alternatives, there emerged a vibrant industry of desirable retirement homes providing varying level of care, but typically in much more enticing surroundings and with attractive amenities. These ALFs and CCRCs increased the cost of caring for those who qualified for long-term care benefits but preferred not to remain at home to be cared for by their families or hired care-givers. In many other ways, the cost of caring for those who could not fend for themselves also increased beyond what had been projected by some companies and their consultants when early LTCI policies were priced.

Another major development affected a different key source of funding for future benefits. LTCI policies are designed to generate far more premium than needed to pay benefits in their early years, with those amounts to be invested and generate a material investment income that will be added to the premium and be used in later years when benefit costs are expected to exceed premiums being collected at that later time. In short, the notion is that the company will build-up a fund of premium and investment income that will suffice to pay the large claims expected in the future. In addition to premium being inadequately low when first set, and claims costing more than expected, income earned on the invested premium has also turned out to be much less than anticipated. Changes in the capital market and the broader economy, especially the “great recession” of 2008, dramatically suppressed investment returns below expectations. Current economic circumstances are exacerbating this problem. Many LTCI insurers have amassed billions of dollars in invested premiums. A decline of 1% in yield on each \$1 billion of invested premium amounts to a loss every year of \$10 million in funds to be reinvested and be available for future claims. It is not hard to see how a decline in market yields of even just 3% for five years for a company with \$2 billion in invested assets could be a major event. That would entail a loss of at least \$300 million! This is the nature of lost investment income experienced by SHIP and the rest of the LTCI industry, but on more invested assets for many more years. As a point of reference, the Wall Street Journal Prime Rate was at: 8.25% on March 5, 1975; **17.25%** on March 4, 1980; 10% on January 8, 1990; 9% on March 22, 2000; 5.75% on March 22, 2005; 3.25% on December 16, 2008; 5.50% on December 20, 2018; and back down to 3.25% on April 10, 2020.

These and other challenges faced by SHIP over the eleven years since it was separated from Conesco have combined to create the Funding Gap described above. The purpose of the Plan is to narrow or eliminate that Funding Gap by a combination of an increase in revenue through rate increases and a reduction in liabilities through benefit modifications.

D. REHABILITATION PROCEEDING

Since the fall of 2008, SHIP has been owned and overseen by the Senior Health Care Oversight Trust (“Trust” - see paragraph VI.E, page 84) and its Trustees. As SHIP’s domiciliary regulator, the Pennsylvania Insurance Department (“PID”) regulates SHIP’s affairs and monitors its financial condition. On May 7, 2015, the PID concluded a financial examination of SHIP for the five-year period ending on December 31, 2013. The results were detailed in the Report of Examination dated as of that date, which concluded that, as of December 31, 2013, SHIP had capital & surplus of \$98,201,892 and made no recommendations.

As surplus continued to decline (see Table 7, at page 81, above), the PID became substantially concerned about SHIP’s financial situation. The Department engaged in an intense regulatory focus aimed in part at encouraging management and the Trustees to review and revise the actuarial and other assumptions on which they were basing their financial projections and reports of SHIP’s financial condition. In 2017 the PID commenced a limited examination of SHIP’s affairs and engaged an independent consulting actuary to assist, especially, in evaluation of the adequacy of the Company’s reserves. This work, though continuing, revealed a number of areas of concern and the PID appointed a Special Representative to work with SHIP management, the Trustees, and consultants for both the Company and the PID, to ascertain SHIP’s financial condition and to determine whether it would be able to fulfill the contractual promises inherent in the LTCI block the Company was running off. As this work progressed it became evident that SHIP was in a more hazardous financial condition even than suggested by the 2017 statutory annual statement filed in March 2018, which reported a decline in surplus to just over \$12.6 million from over \$28 million a year earlier and almost twice that the year before.

SHIP and its consultants, in communication with the PID and its representatives and advisors, re-evaluated their underlying assumptions, and, in early 2019, SHIP completed an annual statement for 2018 that reported a \$467 million deficit. Management was provided an opportunity to develop a corrective action plan to eliminate this deficit and restore the Company’s surplus to acceptable levels but failed to do so. On January 29, 2020, at the request of Pennsylvania Insurance Commissioner Jessica K. Altman, and with the consent of a majority of the Trustees and SHIP’s directors, the Commonwealth Court of Pennsylvania entered the Rehabilitation Order placing SHIP in rehabilitation and appointing Commissioner Altman as Rehabilitator. The order directed the Rehabilitator to file a preliminary plan for SHIP’s rehabilitation on or before April 22, 2020. Commissioner Altman appointed Patrick H. Cantilo as Special Deputy Rehabilitator (SDR) to comply with the Court’s requirement. A Proposed Rehabilitation Plan was filed on that date and this Plan Document is an amended version of the plan required by the Court.

E. SENIOR HEALTH CARE OVERSIGHT TRUST

As mentioned above, SHIP had been a subsidiary of Consecro, Inc. (“Consecro”) until 2008 when it agreed with PID’s approval to transfer it to a newly created independent nonprofit trust. For that purpose, the Senior Health Care Oversight Trust (the Trust) was formed as a Pennsylvania

business trust and the following served as its trustees (the “Trustees”) as of the date the Company was placed in Rehabilitation and for at least seven years before that date:

1. Julianne Marie Bowler (Chair), since 2009 the Chief Underwriting Officer, and also the Chief Compliance and Administrative Officer, of Narragansett Bay Insurance Company. Ms. Bowler had served as the Massachusetts Insurance Commissioner from 2002 to 2007;
2. Cecil Dale Bykerk, President of CDBykerk Consulting, LLC, a life and health insurance consulting actuary;
3. Thomas Edward Hampton, Senior Advisor to Dentons US LLP, a Certified Public Accountant and former commissioner of the District of Columbia Department of Insurance, Securities, and Banking;
4. John Martin Morrison, senior Partner at Morrison, Sherwood, Wilson, Deola, PLLP, and former Montana State Auditor and Insurance Commissioner; and
5. Gregory Vincent Serio, Partner and Managing Director of New York lobbying firm Park Strategies, and former New York Superintendent of Insurance.

The transaction transferring SHIP to the Trust was memorialized in an August 1, 2008, Transfer Agreement between Conseco and the Trust. The Trust has been (and continues to be) governed by the board of trustees identified above, who have also served as directors of SHIP and Fuzion, along with certain senior officers of the companies. Their authority to oversee the Company has been effectively suspended by the rehabilitation proceedings.

F. FUZION ANALYTICS

Fuzion Analytics, Inc. (“Fuzion”), is a Delaware corporation formed in 2012 as a subsidiary of the Senior Health Care Oversight Trust ostensibly to provide LTCI data mining, analytical and other services to long-term care insurers, including SHIP. Beginning in 2012, SHIP entered into several agreements with Fuzion under which, over time, it paid Fuzion millions of dollars. In 2014, SHIP conveyed essentially all of its infrastructure to Fuzion in exchange for agreed-upon cash consideration consisting initially of a payment of \$367,806. In due course, Fuzion began providing SHIP all of the services necessary to administer SHIP’s affairs, other than those being performed by other vendors. Since that conveyance, SHIP has had no facilities or employees, relying instead on Fuzion to perform all of the functions necessary to run-off SHIP’s LTCI business. On August 20, 2019, the Senior Health Care Oversight Trust conveyed all of its interest in Fuzion to SHIP as a capital contribution, so that Fuzion is now a wholly owned subsidiary of SHIP. In addition to the services provided to SHIP, Fuzion continues to provide Fraud Waste and Abuse and other services to customers in the long-term care industry.

G. LTCG, INC.

In 2008 SHIP entered into a Master Services Agreement with Univita for a broad array of claims and administrative services, excluding complaints. Univita has since become the Long-Term Group, Inc., (“LTCG”) and continues providing these services to SHIP.

H. POLICY RESTRUCTURING

Before the Effective Date and before policyholders have made their elections, the Rehabilitator will determine which of SHIP’s policies are Impaired Policies in that the assets and premiums projected to be available will not suffice to pay the liabilities projected to arise under such policies. For purposes of implementing the Plan and to facilitate identification and implementation of key economic and tax components of the Rehabilitator’s strategy, SHIP’s LTC policy liabilities will be restructured to incorporate the terms of the Plan and permit Policyholder Elections. The restructuring must be approved by the Court as part of its approval of the Plan. The Rehabilitator will request that the Court deem SHIP’s liabilities for Impaired Policies to have been restructured as of the Effective Date, and before giving effect to Policyholder Elections or modifications under the Plan. However, this restructuring will not affect the elections made by or available to the policyholders.

The restructuring will be for the purpose of separating the liabilities arising under SHIP’s LTC policies that it is projected to have sufficient assets to fund (the ***Initial Funded Restructured Policy Value*** - “IFRPV”), from those that it is projected to be unable to fund (the Unfunded Benefit Liability - UBL). This restructuring will consist of notionally allocating the liability arising under each such policy (equal to its GPR) to its IFRPV and its UBL, with the UBL for each policy being the difference between its original GPR and its IFRPV. Premiums paid as to each policy and Allocated Assets determined under the Plan as described in Section II.E.4.e, page 23, are projected to suffice to enable the Company to fund its IFRPV. As a result, after the Effective Date, SHIP will have assets and expected premiums at least equal to the aggregate funded liabilities (IFRPV) remaining under the Restructured Policies.

The Company will retain non-insurance indebtedness to the policyholders on account of the amount by which the liabilities have been reduced, *i.e.*, the UBL. However, this liability will not be an insurance obligation arising under SHIP’s policies and would not constitute a contractual obligation covered by the Guaranty Associations if SHIP were liquidated. Under the Plan, this liability will be converted to non-insurance general creditor indebtedness. It is possible that realization by SHIP of additional assets will enable it to make at least partial payments of the UBL in Phase Three. In any case, as explained below, the Rehabilitator will request that the portion of SHIP’s UBL that it will not be able to fund be discharged by the Commonwealth Court as part of the Plan.

I. GAUGING PLAN PERFORMANCE

During the pendency of the Plan, the Company's financial condition will be monitored closely with emphasis on changes in the projected deficit. Elections by policyholders to increase premiums and reduce benefits in the aggregate are expected to have a material effect on that projected deficit. Various aspects of the Plan are also expected to have material effects on key trends such as average claim cost, claim incidence, claim duration and policy terminations. Most of these are heavily dependent on policyholder behavior that is difficult to predict with certainty. As time passes following implementation of each phase of the Plan, however, changes in these key trends will become more evident and the effects of the Plan as a whole will be more susceptible of quantification.

J. GUARANTY ASSOCIATIONS

This is a general summary of the state Insurance Guaranty Association system. Readers must review the individual state laws to understand how individual Guaranty Associations operate in each jurisdiction and the protections they afford. The Plan does not contemplate involvement by Guaranty Associations in the Plan's operations. This information is provided solely in the interest of addressing anticipated questions.

All U.S. states and the District of Columbia have legislatively established entities, commonly referred to as "Insurance Guaranty Associations," which protect policyholders of licensed insurance companies in the event their insurance company fails. These Guaranty Associations generally are required to provide for the continuation of the life and health insurance coverage provided by the failed insurer, in most cases up to statutory maximum coverage amounts and subject to specified conditions.

Virtually all of SHIP's LTC insurance policies would be covered under the state Guaranty Association system, subject to individual state statutory maxima and conditions, if SHIP were placed into liquidation with a finding that it is insolvent. Policies held by residents of countries other than the U.S. may not be covered by Guaranty Associations.

In most states, Guaranty Association benefits can be "triggered" in one of several ways. Some "triggers" are permissive, authorizing the Guaranty Association to guarantee, assume or reinsure, or cause to be guaranteed, assumed, or reinsured, the covered contractual obligations arising under the insurer's policies or contracts (or to provide loans or other assistance). Other "triggers" are mandatory, requiring the Guaranty Association to take such measures. When triggered, the Guaranty Associations generally provide such protections to the residents of their states, though the contracts may have been issued in other states. In most states, the permissive trigger can be used when an insurer is deemed "impaired" but has not been found insolvent or ordered liquidated. As the term implies permissive triggers are optional with the Guaranty Associations and very rarely used.

Mandatory triggers generally include an insurer not paying claims on time and being placed in liquidation with a finding of insolvency. These provisions vary somewhat among the several states. The Rehabilitator has concluded that SHIP does not now qualify for mandatory triggers largely because there has not been an order of liquidation with a finding of insolvency and it is currently paying claims on time. However, though SHIP is currently paying claims on time as required by the Rehabilitation Order, its financial condition is so dire that it is a virtual certainty that it cannot continue paying claims in full and on time for as long as required by its LTC insurance contracts without remedial measures. In the absence of a rehabilitation plan, the continuation of full benefit payments to current claimants virtually assures that policyholders who go on claim in the future will not be able to receive full, or in some cases any, benefits from SHIP.

Generally, if a policyholder is entitled to receive benefits from the Guaranty Association of his or her state of residence no further inquiry is necessary to determine which Guaranty Association is responsible for his or her policy. However, when that is not the case, it may be necessary to determine whether the Pennsylvania Life and Health Insurance Guaranty Association (PLHIGA) may be required to provide such benefits because SHIP is domiciled in Pennsylvania. It is important to note that the conditions and limits of Guaranty Association protection typically apply to each policyholder, not to each policy. Thus, in a state in which such benefits are limited to \$300,000 (the majority of states), that limit will apply to all of a policyholder's policies issued by the same company combined. Note that many SHIP policyholders have more than one SHIP LTC policy but this limit will apply to all of them combined. If one policy has benefits in excess of the applicable cap, all of the benefits of the other policy or policies will potentially be lost. The laws of each specific jurisdiction should be reviewed carefully to determine how these conditions and limits apply in particular cases.

It is important to note also that the amount of statutorily promulgated Guaranty Association coverage limits is not directly comparable to a policy's GPR. GPR is the present value as of the valuation date of expected benefits unpaid, expected expenses unpaid, and unearned or expected premiums, adjusted for future premium increases reasonably expected to be put into effect. It measures the present value of benefits and expenses less the present value of premiums. The Guaranty Association coverage limits are stated nominally (that is the total to be paid over time, no matter how long that time) and not at present value. The GPR equivalent of stated Guaranty Association Limit depends on factors individual to each policyholder, mostly related to the expected timing and amount of benefit and premium payments. Thus, a \$300,000 Guaranty Association limit may equate to a GPR of \$270,000 or some other amount less than \$300,000 for a given policyholder.

Neither the Rehabilitator nor SHIP would be responsible for coverage decisions of the Guaranty Associations. Each Guaranty Association evaluates its own liability and makes its own coverage determinations in accordance with applicable law. Those laws vary to some degree among the states and benefits available in some states may differ from those available in others. For example, in some states the Guaranty Associations do not provide coverage for any portion of a policy or contract to the extent that the rate of interest on which it is based exceeds a specified rate, typically set by reference to Moody's Corporate Bond Yield Average over a specified time. These interest rate limitations often apply retrospectively (to interest earned pre-liquidation) and

prospectively (to interest earned after liquidation), though perhaps in different ways. Other states have adopted legislation making such provisions inapplicable to LTCI.

As noted above, Guaranty Association benefits are subject to statutory conditions and limits. For example, PLHIGA is not obligated to provide more than \$300,000 in benefits to a covered individual. In some states that limit can be significantly higher. However, the fact that applicable limits may be higher in another state does not entitle Pennsylvania residents to the higher protection afforded by the Guaranty Association of another state. In addition, the Guaranty Association statutes contain certain residency and other requirements that must be met in order to receive benefits. Some of SHIP's policyholders may have aggregate claims in excess of these limits or which do not qualify for Guaranty Association benefits for other reasons (Uncovered Benefits).

The methods by which Guaranty Associations discharge their statutory responsibilities vary from case to case but normally involve assumption by a Guaranty Association or an insurer of the contractual obligations created by the policies issued by the failed insurer, up to statutorily prescribed limits and subject to statutory conditions. Policyholders are required to continue paying their premiums without interruption in order to preserve their insurance coverage, unless those premiums have been suspended by Premium Waiver provisions in their policies. However, once benefits paid by the Guaranty Association reach the applicable statutory limit (and those benefits are therefore discontinued), the policyholder will no longer be required by the Guaranty Association to continue making premium payments.

As noted, SHIP has not been placed in liquidation and Guaranty Association coverage and associated limits are therefore not applicable to SHIP policies. While it is hoped that it will not be necessary to place SHIP in liquidation, and no specific plans exist to do so, past experience provides guidance about some likely aspects of such an eventuality. Specifically, it is probable that if the Guaranty Associations are "triggered" for a SHIP liquidation they would seek to raise rates to If Knew Premium levels. To the extent that the Plan does so now, it should reduce or eliminate the need for the Guaranty Associations to do so if that were to occur.

As explained on page 12, the Plan is designed to provide policyholders at least the benefits they would receive from Guaranty Associations in liquidation. Every policyholder will be offered at least one option in Phase One that will provide him or her potential benefits equal to those that would be available from the applicable Guaranty Association in the event of liquidation, but no more than the current policy benefits. Option Two will do that for all policyholders, and for many policyholders other options will do that as well. In that respect, the Plan is designed to place policyholders in no worse a position than they would face in a liquidation of SHIP.

K. LIQUIDATION CLAIMS IN EXCESS OF GUARANTY ASSOCIATION LIMITS

It is estimated that more that 20% of the benefits to which SHIP policyholders are expected to be entitled under current policies would exceed the statutory limits of guaranty association

coverage as described in the preceding Section. While the Rehabilitator believes that applicable law would authorize her to use SHIP assets to pay at least part of those “uncovered benefits,” some members of the insurance industry hold the opposite view. These insurers have been engaged in a years-long legal proceeding that has so far prevented the liquidator of Penn Treaty Network America Insurance Company and American Network Insurance Company from making such payments. These two insurers are also Pennsylvania-domiciled long-term care insurers and the Rehabilitator, who is also the Liquidator in those cases, is concerned that she might be prevented from paying uncovered benefits to SHIP’s policyholders if it also has to be placed in liquidation. Thus, it is possible that placing SHIP in liquidation might result in “truncating” to the limits of guaranty association coverage the contractual benefits for which policyholders have been paying premiums.

L. JURISDICTION OF COMMONWEALTH COURT

The Commonwealth Court has exclusive *in rem* jurisdiction over SHIP and all of its assets. That means it is the only court with jurisdiction over SHIP’s assets and business. Note by way of distinction that other courts may have *in personam* jurisdiction over SHIP, its policyholders and claimants. The Commonwealth Court has authority to approve a rehabilitation plan for the company. 40 P.S. § 221.16 expressly authorizes the rehabilitator to “prepare a plan for the reorganization, consolidation, conversion, reinsurance, merger, or other transformation of” SHIP. Without going into detail, that statute gives the rehabilitator broad discretion to develop a plan to correct the conditions that led to the need to place SHIP in rehabilitation, including changing the Company’s policies (and rates) as part of the Plan. So long as all affected parties (including other state insurance departments) are provided an opportunity to object, they will be bound by the Court’s approval of the Plan, and its modification of policies and premium rates as part of the Plan.

Some concern has been expressed by certain state regulators about the notion that premium rate modifications under the Plan will not require approval of the states in which the policies were issued. The concern is understandable given that there have not been many troubled companies for which the issue of rate increases in rehabilitation has arisen. Moreover, insurance rate regulation tends to be an area of intense public and political focus. In some states, Commissioners are constrained by statute in the magnitude of rate increases they can authorize for long-term care insurance policies. The Rehabilitator believes strongly that there is fundamental distinction between rate increases for companies in the market place and the extraordinary case of rate increases as part of a court supervised rehabilitation plan for a troubled company. While the matter is without an abundance of clear specific legal precedent, the Rehabilitator believes that the applicable legal authorities support the conclusion that it is properly within the purview of the Rehabilitator and the Commonwealth Court in an Article V rehabilitation proceeding. More importantly, the Plan would not be feasible, and would fail in a key goal, if rate modifications required approval from each of the states in which SHIP policies have been issued. First, that would prevent the plan from accomplishing its key goal of placing policyholders on “a level playing field” by having them pay substantially the same premium for the same coverage, thereby reducing or eliminating the much-criticized historical subsidies. Second, the need to obtain such approvals would insert a lengthy delay in the time-line that would be costly, if not fatal, to the Plan.

M. REINSURANCE

SHIP has assumed a number of LTC policies through co-insurance or reinsurance and ceded other policies under other reinsurance agreements. This Section describes those arrangements.

1. TRANSAMERICA

On October 11, 1994 JC Penney Insurance Company and JC Penney Life Insurance Company (collectively “JCP”) entered into a Reinsurance and Purchase Agreement and Administrative Services Agreement with American Travellers Life Insurance Company (“American Travellers”). The Reinsurance and Purchase Agreement was structured on an Indemnity Reinsurance basis and a trust account was later established pursuant to a Trust Agreement executed on December 31, 2002. American Travellers was purchased by Conseco in 1996 and subsequently changed its name to Conseco Senior Health Insurance Company and then to Senior Health Insurance Company of Pennsylvania (“SHIP”). JCP changed its name to Stonebridge Life Insurance Company in 2002 and, as a result of corporate transactions, is now Transamerica Life Insurance Company.

2. PRIMERICA

On December 20, 1995 Primerica Life Insurance Company (“Primerica”) and Transport Life Insurance Company (“Transport Life”) entered into a Reinsurance and Administration Agreement whereby Transport Life, on an indemnity basis, accepted 100% of the policy liabilities of Primerica’s individual and group accident and health insurance policies. Transport Life merged with Conseco Senior Health Insurance Company in November 1997 and, with the separation from Conseco, Senior Health Insurance Company of Pennsylvania (“SHIP”) became the successor under the Reinsurance and Administration Agreement. Amendment #2 to the Reinsurance and Administration Agreement, dated November 11, 2008, limits the scope of SHIP’s reinsurance and administration to long-term care policies only.

3. AMERICAN HEALTH AND LIFE

Pursuant to a Reinsurance Agreement dated November 1, 1996, Transport Life entered into a Reinsurance Agreement whereby Transport Life agreed to administer and reinsure, on a coinsurance basis, 100% of the liability of American Health and Life Insurance Company’s long-term care policies. As a result of certain corporate transactions, and later the separation of SHIP from Conseco, SHIP became the successor to Transport Life’s interests under the Reinsurance Agreement and continues to administer the policies.

4. WASHINGTON NATIONAL INSURANCE COMPANY

On June 30, 1998, American Travellers entered into a Coinsurance Agreement with Conseco Life whereby American Travellers ceded 100% of its net liability for certain Connecticut resident state policies to SHIP, including servicing and administration of these policies. On April 1, 2013, CNO assumed, through novation, all of the policies with the exception of certain Connecticut

policies which opted out of the assumption. Washington National Insurance Company reinsured those Connecticut policies that opted out.

5. CONSECO LIFE INSURANCE COMPANY

Under an Assignment Agreement effective October 1, 2008 with Consec Life Insurance Company (“CLIC”), all the assets and liabilities pertaining to SHIP’s non-long-term care business were assigned to, and assumed by, CLIC, which, together with DXC Technology, administers all of the business. SHIP remains contingently liable for the assigned business in the event CLIC fails to perform its obligations under the Assignment Agreement. In recognition of this liability, CLIC is required to and does maintain assets in a trust account of which SHIP is beneficiary. That account appears to be adequately funded. The business they manage consists of:

1. 7,106 Traditional Life,
2. 213 Universal Life,
3. 80 Deferred Annuity,
4. 223 Medicare Supplement,
5. 40,273 Specified Disease,
6. 756 Accident Only,
7. 667 Hospital Indemnity,
8. 521 Long term disability, and
9. 43 Other.

6. TEACHER’S PROTECTIVE MUTUAL LIFE INSURANCE COMPANY

Teacher’s Protective Mutual Life Insurance Company (“Teachers”) and Senior Health Insurance Company of Pennsylvania (“SHIP”) entered into an Indemnity and Assumption Reinsurance and Administrative Services Agreement on December 28, 2015 pursuant to which Teachers ceded to SHIP, on an indemnity reinsurance basis, 100% of liabilities and obligations paid or payable by Teacher’s. These policies have been novated by SHIP so that they are treated as if they had been issued by SHIP in the first place.

7. TREATMENT OF REINSURANCE ASSUMED

The insurance policies for which SHIP became responsible from Transamerica, Primerica and American Health and Life or their predecessors (the “ceding companies”) are what is generally referred to in the industry as “reinsurance assumed.” All of these assumed LTCI policies have historically been treated by SHIP for administrative purposes in a manner very similar to those issued directly by SHIP. However, communications with policyholders and regulators properly identified them as policies of the ceding companies.

It is important to note that while these policies have been reinsured by SHIP, they were never “novated” as part of the transaction. Novation occurs when the assuming company substitutes for the ceding company so that all of the policyholders’ contractual rights are against the assuming

company and the ceding company is relieved of further obligation for the policies at issue. That did not happen in these cases. That means that the policyholders retained, and continue to retain, their contractual rights against the ceding companies (the companies that transferred the policies to SHIP through reinsurance) or their successors. These assumed policies would not be treated as if they had been issued by SHIP if it were placed in liquidation. In liquidation these policies also would not be subject to the statutory Guaranty Association limits. In the event that SHIP is placed in liquidation, these policies reinsured and administered by SHIP, but not novated, will be administered as the responsibility of the ceding companies.

For purposes of the Plan, it is also important to note that the law governing financially troubled insurers generally requires that liabilities arising under insurance policies issued by the troubled company (“Direct Business”) be paid in full before those arising under reinsurance assumed can receive any payment. The companies (or their successors) from which SHIP assumed the Reinsurance Assumed remain responsible to the policyholders if SHIP fails to fulfill the contractual obligations arising under those policies.

The preliminary plan of rehabilitation filed on April 22, 2020 proposed to treat Direct Business and Reinsurance Assumed in the same way under the Plan. The Rehabilitator believed that this would be most advantageous to the affected policyholders. However, this proposal resulted in a number of objections from insurance regulators around the country, asserting that it departs from established custom and practice and is unsupported by applicable law. In response to these objections, the Rehabilitator has decided to change that provision of the preliminary plan of rehabilitation and to treat the reinsurance assumed differently from the policies issued directly by SHIP and its predecessors. As a result of this change:

- a. The reinsurance assumed policies will not be modified under the Plan and the policyholders will not be asked (or have the ability) to make elections under the Plan;
- b. SHIP will not be financially responsible for claims and commissions owed under these policies and will not have the right to treat premiums paid by these policyholders as assets of SHIP; and
- c. If SHIP is placed in liquidation, the terms of these policies will remain unchanged and the policyholders will not receive benefits from any life and health insurance Guaranty Association. Instead, in that case, the ceding company (or its successor) will remain fully responsible for these policies and any claims and commissions owed under these policies.

Whether, and to what extent, premium rate increases will be sought for these policies in the future will be decided by the ceding companies, not the Rehabilitator. It is possible that SHIP will enter into agreements to administer some or all of these policies in exchange for appropriate fees.

N. COMMISSIONS

The payment of commissions owed to Agents under agreements made prior to the inception of rehabilitation proceedings will be suspended under the Plan until policyholders have been made whole, that is, all their contractual claims have been paid in full and adequate provision made for reasonably anticipated future claims. Further, the Plan will suspend the accrual of commissions as of the Initial Plan Effective Date. Agents and brokers may assert claims for commissions earned prior to the Initial Plan Effective Date but, under the Plan, those claims will be subordinated to amounts owed to policyholders under SHIP insurance policies.

The Rehabilitator notes that Agents are not currently providing services at the request of and in support of the Rehabilitator. Since entering rehabilitation, SHIP has evaluated the ongoing role of Agents. It is the belief of the Rehabilitator that most policyholders do not have a close relationship with their Agents, often have not spoken with their Agents since their policies were purchased, and do not contact their Agents for questions about their policies or benefits. Most policyholders contact SHIP directly for policy information or questions, or a financial advisor or trusted professional (lawyer, banker, trustee or family member).

O. OPT OUT

The Company's LTC policies do not provide for any cash or surrender value and policyholders are not entitled to any cash payment upon cancellation either in the ordinary course of business or in liquidation. In short, upon liquidation, policyholders would not receive cash payments.

While the Plan does not propose a separately-identified cash opt-out option, certain features of the Plan satisfy an opt-out requirement. First, many policyholders will not be required by the Plan to make any changes in their policies. Second, every policyholder will have an option in every scenario to select a Non-forfeiture Option under which no more premium will be due. In fact, elements of the Plan make the NFO option materially more valuable than traditional NFOs. See section II.J, page 30. Finally, every policyholder will have at least one option under which he or she would receive at least as much in benefits as would be provided by his or her Guaranty Association coverage.

P. STATE DEPOSITS

SHIP has been required to place deposits with various states as a condition of its licensing in those states. These state deposits total approximately \$19.3 million. The Rehabilitator believes that once the Plan is approved (whether or not modified), she should pursue recovery of those deposits so that the funds can be used to support the Plan.

Q. TAX MATTERS

The Plan is not intended to create net adverse tax consequences for policyholders or SHIP, and the Rehabilitator does not believe that it will do so if it is implemented as proposed. However, the tax effects of the Plan depend in part on events, circumstances and the conduct of other parties that are not within the control of, nor can be predicted by, the Rehabilitator.

While a number of federal income tax issues may arise under the Plan, two areas are of particular importance. First, will any modification of LTC policies under the Plan create adverse tax consequences for policyholders? Second, will the inability to fund fully policy obligations or provisions of the Plan create adverse tax consequences for SHIP?

1. POLICY MODIFICATIONS.

It does not appear that the Plan is likely to create adverse tax consequences for policyholders. However, because Policy Modifications and other provisions of the Plan, may raise such issues, it is likely that the Rehabilitator will seek from the Internal Revenue Service of the Department of the Treasury (the “IRS”) a favorable private letter ruling (“PLR”) to the effect that Policy Modifications under the Plan would not produce taxable deemed exchanges or other adverse tax consequences for policyholders.

2. TAX ISSUES FOR SHIP

It is possible that reductions in insurance reserves resulting from Policy Modifications or other elements of the Plan would create significant taxable income. However, the Plan contemplates offsets to taxable income arising from the restructuring of SHIP’s policies, bifurcating the liabilities arising under them as between their Initial Funded Restructured Policy Value (IFRPV) and their Unfunded Benefit Liability (UBL), constituting general creditors obligations and not insurance policy liabilities. The Plan also contemplates the eventual discharge by the Commonwealth Court of the portion of the UBL that cannot be paid, which will minimize this tax exposure. The IFRPV is the portion of a policy’s liability that SHIP is expected to be able to fund. The UBL is the portion of that liability that SHIP is not expected to be able to fund.

SHIP is part of a consolidated group for federal income tax compliance purposes, which also includes its affiliates, the Trust and Fuzion. The group files a consolidated federal income tax return. SHIP and its affiliates currently possess substantial Deferred Tax Assets (“DTAs”) such as net operating loss carry-forwards. These DTAs may serve to offset taxable income generated by operation of the Plan. It is possible that implementation of the Plan may give rise to tax liability, however, because of certain limitations in the Internal Revenue Code on the use of such carry-forwards. The ability of SHIP to realize the benefit of these DTAs may also depend in part on decisions made by other members of the consolidated group. While Fuzion is SHIP’s wholly owned subsidiary, and under its control, the Trust is governed independently. Current tax law may affect the degree to which other parties may make decisions adverse to SHIP’s interest and rehabilitation.

Moreover, the discharge of indebtedness under the Plan may also result in reducing or eliminating SHIP's ability to take advantage of these DTAs.

As indicated above, to the extent that the Plan results in the reduction of policy obligations through the modification of policies to make them properly priced or Self-sustaining, it is possible that such reduction would result in federal income tax. It is possible that not all of such income may be excludable under an insolvency exception or be offset against net operating loss carry-forwards and other DTAs. It is also possible, as noted, that implementation of the Plan may give rise to tax liability. The Plan is designed, and the Rehabilitator intends to implement it, in a manner that will minimize or eliminate such potential adverse tax consequences. However, there can be no assurances that these measures will be effective.

Nothing in the Plan Document is intended to provide, nor shall be interpreted as providing tax or legal advice. Policyholders and other persons affected by the Plan should consult their own tax, legal, and other advisors regarding the possible tax and other effects of the Plan. The Rehabilitator may seek guidance (such as a private letter ruling) from the U.S. Secretary of the Treasury regarding certain potential tax aspects or consequences of the Plan.

R. PRINCIPLES AND FAIRNESS OF THE PLAN

The Plan is designed to comply with applicable statutory provisions. In addition, by reference to Pennsylvania statutes and judicial opinions governing other insurance rehabilitation and insolvency proceedings in this and other states, the Rehabilitator has adopted the following core principles that should guide implementation of the Plan:

1. To the extent reasonably possible under the circumstances, the Plan should correct the conditions which constituted the grounds for the order to rehabilitate the Company;
2. The paramount goal of the Plan should be protection of policyholders;
3. The Plan should be fair and equitable;
4. The Plan should put policyholders and creditors as a group in a position not materially inferior to what liquidation of SHIP as of the Effective Date would produce; and
5. The Plan should include metrics to gauge progress.

The Rehabilitator believes that the Plan reasonably embodies these principles and that it is fair and equitable to policyholders, creditors and affected parties. It addresses historically discriminatory premium rates through asset allocations in determining Self-sustaining Policies and through the premium rate increase structure governing Policy Modifications. Within the means available, as regards policyholders the Plan is designed to reduce the Funding Gap which principally led to the inception of the rehabilitation proceeding. It does so through premium rate increases and benefit reductions to reduce or eliminate on a policy-by-policy basis the shortfall between assets and

liabilities. The principal goal of the Plan is to protect the interests of policyholders by maximizing preservation of their insurance coverage. It treats similarly situated policyholders in the same way and devotes SHIP's assets to the fulfillment of its purposes in a non-discriminatory and non-arbitrary manner.

S. RISK FACTORS

There are substantial risks and uncertainties associated with the Plan and its implementation. Those described herein are not the only ones that could materially impact SHIP, the Plan, its implementation, and its impact on policyholders, creditors and the public.

1. The actuarial assumptions and projections used to develop the Plan, including investment income, default rates, lapse rates, expenses and claims may be materially different from actual results. Therefore, the benefits and claims that SHIP will be able to pay may be materially higher or lower than the amounts assumed in the Plan.
2. Although the Plan does not contemplate that SHIP will, as a result of the Plan, implement future premium rate increases not described in the Plan, there can be no assurances that such rate increases will not be sought by Guaranty Associations if SHIP is placed in liquidation.
3. Objections may be lodged against the Plan or its implementation which may not be able to be overcome without material changes in the Plan.
4. The Rehabilitator believes that the provisions of the Plan can be implemented with approval of the Commonwealth Court and without the need that insurance regulators in every state approve the Plan, including premium rate increases implemented under the Plan. However, regulators in other states may conclude that their approval is required. The Rehabilitator cannot provide any assurance that approval from other regulators will not ultimately be deemed necessary. Neither can the Rehabilitator provide assurances that if such other state approvals are necessary they can be obtained consistent with the timing and substance of the Plan.
5. Governmental authorities may change the laws and regulations that apply to SHIP, its business and state insurance receiverships in ways that impact policyholders, SHIP, the Plan, or its implementation negatively.
6. Adverse developments in the broader economy may affect adversely the performance of SHIP's invested assets, the costs of its operations or the development of its liabilities. As a result, financial assumptions made in the Plan may differ materially from actual events.
7. Certain changes in the general health of SHIP's insured population (such as developments prolonging the period that such persons remain on claim, the severity of such claims, or the frequency with which policyholders go on claim) may affect materially the development of

SHIP's insurance liabilities. As a result, loss assumptions made in the Plan may differ materially from actual events.

8. The emergence of the Coronavirus disease known as "COVID-19" has created unprecedented and wide-ranging disruptions in virtually every facet of American society. Its economic implications, and the changes that will result in American healthcare and insurance are only now beginning to surface and will take a prolonged time to develop completely and be fully understood. The Rehabilitator cannot predict what effect COVID-19 will have on the Plan and its implementation. The Special Deputy Rehabilitator and rehabilitation team are making efforts to incorporate in the Plan expanded timelines and elements of flexibility that will facilitate responding to these recent and continuing developments.
9. The Plan depends on implementation of a complex restructure of SHIP's insurance business for which there is no close precedent, and which depends in part on legal provisions that may be difficult to implement. Failure to implement these provisions may have a material adverse effect on the success of the Plan.
10. The success of the Plan will depend in part on policyholder elections which are difficult to predict. The actual results of those elections may have a material adverse effect on the Plan.

T. ALTERNATIVES TO THE PLAN

Before determining that the Proposed Rehabilitation Plan is the best option for SHIP's policyholders, the Rehabilitator and the rehabilitation team considered a number of alternatives. Each of these is described briefly below, although a complete explanation of what their terms would include would be too lengthy to be included here and would require further development not justified under the circumstances.

1. SALE OR RECAPITALIZATION

Before SHIP was placed in rehabilitation, its management and the Trustees explored many alternatives to avoid delinquency proceedings. These included sale of the company, reinsurance transactions, recapitalization transactions, and restructuring of the investment portfolio. All of these options were deemed impractical or insufficient. SHIP has a closed block of highly unprofitable LTC insurance business making it very unattractive to buyers and investors. Its financial composition is such that legitimate reinsurance transactions would not offer the prospect of material economic improvement. There is no sufficiently profitable block of insurance within the company to absorb the excess risk of the LTC block. The broad capital markets comprise a low-yield environment that also does not offer a reasonable prospect of material economic improvement from restructuring of SHIP's invested assets. Working with Pennsylvania Insurance Department representatives, management did implement a number of cost saving measures, but the net result is too small to avoid the need for rehabilitation.

2. LIQUIDATION

Before embarking on designing the details of the Proposed Rehabilitation Plan the team evaluated whether policyholders would be better served by placing the Company in liquidation. After extensive analysis and discussion it was determined that policyholders would fare better under the Proposed Rehabilitation Plan. The principal reasons that the Plan was deemed preferable to liquidation were:

- a. It would offer policyholders additional choices to address their individual needs under these difficult circumstances.
- b. It would provide policyholders the ability to preserve their current coverage if they were willing and able to pay the required premium rate increase.
- c. It would eliminate the historical premium rate inequities and subsidies prospectively so that all policyholders would pay comparable premiums for comparable coverages. This is viewed as particularly important since widely different responses to requests for approval of premium rate increases among the states over time have resulted in holders of policies issued in certain states paying substantially higher premiums than holders of similar policies issued in other states. This has created a much-criticized subsidy problem in which the higher premiums paid by the former theoretically have been used in part to pay the claims of the latter.
- d. It would avoid the truncation of policy benefits to the applicable Guaranty Association limit (\$300,000 in most states). This would be particularly important to the policyholders who have more than one SHIP LTC policy since the Guaranty Association limits apply to each insured for all policies combined. See Section VI.K, page 89.
- e. Unlike what would occur under the Plan, premium rate increases sought by Guaranty Associations in liquidation would inure to the benefit of insurers assessed to fund the Guaranty Associations, not for policyholder claims.

3. GOOD BANK - BAD BANK

Consideration was also given to a rehabilitation plan along the lines that had been proposed for Penn Treaty Network America Insurance Company and its subsidiary, American Network Insurance Company. Under such a “business division” plan, SHIP’s LTC business would be divided between a “Good Bank” and a “Bad Bank.” Separate legal entities would hold each group of policies, liquidating one with Guaranty Association benefits, and placing the self-sustaining policies, in the other for continued coverage. Many aspects of this plan would be unprecedented and potentially controversial.

It is doubtful that both companies could retain insurance licenses in all the states in which SHIP has been licensed. Many of those licenses have already been suspended or revoked and may be hard to recover in SHIP's current condition. This is problematic because Good Bank needs the licenses to continue the self-sustaining policies in business and Bad Bank may need them in order to remain a "member insurer" so as to retain Guaranty Association protection.

In order to afford policyholders the option to make non-self-sustaining policies self-sustaining and eligible to be in "Good Bank," a complicated elective modification process would have to be implemented. That process would be vulnerable to the same criticism as the Proposed Rehabilitation Plan in that the required modifications would have to be approved by the Rehabilitator and the Rehabilitation Court, not the issuing state.

The Plan would be even more complex than the Proposed Rehabilitation Plan and would likely draw even more objections.

4. PROPOSED REHABILITATION PLAN

The Proposed Rehabilitation Plan is the Rehabilitator's recommended approach for SHIP's rehabilitation. However, there are a number of states that have objected with varying degrees of formality to the aspect of the Proposed Rehabilitation Plan under which the premium rates and benefits of SHIP's policies issued in their states would be modified with the approval of the Commonwealth Court but not of the insurance regulator of the issuing state ("Objecting States"). The following alternatives have also been considered in response to this issue. The Rehabilitator has considered several alternatives to address these concerns.

5. ANCILLARY APPROVAL OF MODIFICATIONS

One such alternative would have been to submit benefit and premium rate modifications for approval by each issuing state. The Rehabilitator has concluded that this would even be inferior to liquidation. First, past experience indicates that the process of obtaining approval for rate and benefit modifications would take a prolonged period of time. Second, the same experience indicates that the outcome can be expected to be widely divergent rates for similar policies, perpetuating the premium subsidies, inadequate premium rates, and hodgepodge of reduced-benefit options. In addition, implementation of such an approach would be immensely more complicated than the normal multi-state insurance rehabilitation in which the domiciliary regulator and court manage the entire proceeding.

6. EXCLUDE OBJECTING POLICIES

Another possible approach would have been to avoid rate increases for policies issued in Objecting States ("Objecting Policies"). That would have required that those policyholders not be able to select Option One (Downgrade), Option Two (Basic Policy Endorsements), or Option Four (If Knew Premium rate increases for current benefits). Those three options entail modification of rates or benefits in the existing policies. That would have left only the Non-forfeiture Option

(“NFO”) for these policyholders. Although the NFO eliminates premiums permanently, it reduces benefits substantially, though not as much as the NFO or reduced paid-up policy (“RPU”) currently offered to lapsing policyholders. This very limiting outcome would have been highly undesirable.

As a variation of this alternative, the Objecting States could have been asked to permit SHIP to offer Objecting Policies Option 1 under the Plan as well, allowing them to retain reduced benefits without premium changes. For some policyholders that could have been preferable to the NFO, although for others the NFO might be the better deal. Objecting States might also have allowed SHIP to offer Option Two, which entails more moderate rate increases, and even no rate increases in some cases.

This approach might have allowed the Plan to proceed without making the objectionable modifications to the Objecting Policies while retaining all the Plan benefits for other policyholders. The net effect could have been beneficial for the outcome of the Plan if more policyholders elected to give up their current rich policies which collectively account for the bulk of SHIP’s problem.

However, for the affected policyholders this would have been materially inferior to the *status quo* and the Proposed Rehabilitation Plan because policyholders would have had much more limited options and would not have had the possibility of retaining their current benefits even by paying the required premiums. Accordingly, the Rehabilitator did not favor this approach that effectively would have put the Objecting Policies at a disadvantage when compared to the treatment of other policyholders under the Plan.

7. ISSUE-STATE RATE APPROVALS

The Rehabilitator has concluded that a better alternative is to let the Commissioner (or equivalent officer) in a particular state withdraw all of the policies issued in that state from the rate increase determination provisions of the Plan and instead have that Commissioner make the rate increase determination for those policies independent of the Plan. Under this approach, if a commissioner advises the Rehabilitator to that effect, the rate increases resulting from Options under the Plan will not apply to the policies issued in that state (the “opt-out state”). Instead, the insurance department of the opt-out state will make the rate increase determinations for those policies and the benefits under Plan provisions will be adjusted to correspond to the premium rates approved by the opt-out state. The Rehabilitator believes that elements of this approach should be adopted as part of the Proposed Rehabilitation Plan. Section VI.U, below at page 102 describes the basic elements of a mechanism for enabling states to make their own rate increases decisions within the context of the Plan. Note that, apart from the rate increase determinations, under this approach the policies issued in the opt-out state will still be administered by the Rehabilitator under the Plan so that the opt-out state will not have to provide that administration.

8. CONCLUSION

On balance, the Rehabilitator believes that the best approach is the Proposed Rehabilitation Plan with a component as suggested in alternative seven, above. Accordingly, the Amended Plan now includes the additional following section.

U. ISSUE-STATE RATE APPROVAL

This summary describes the issue-state rate approval alternative for states that object formally to the Rehabilitator and the Commonwealth Court modifying rates for SHIP LTC policies issued in those states (“opt-out states”).

1. If the chief insurance regulator (“Commissioner”) of an issue-state formally advises the Rehabilitator that his or her state elects to “opt-out” of the rate increase component of the Proposed Rehabilitation Plan, the Plan would not apply in the same way to the policies issued in that state (the “opt-out policies” and “opt-out state” respectively). In that case, the holders of the opt-out policies would not be able to elect from among the Plan options and would instead have the choices described below.
2. The Rehabilitator would promptly file with the opt-out state a request for approval of the full amount of actuarially justified rate increases (on an If Knew Premium basis) for the SHIP LTC policies issued in that state. No rate increases would be sought for opt-out policies the premiums of which are already equal to or above the If Knew Premium. If an opt-out state did not respond to the application for rate increases within 60 days, the request would be deemed denied in its entirety. The opt-out state’s decision as to the requested rate increases would govern the choices available to the holders of opt-out policies.
3. If the opt-out state timely approves the requested rate increases in full, it will be treated as if it had not opted out of the Plan and its policyholders will be included in the Plan just as those issued in non-opt-out states. If the opt-out state does not timely approve the full rate increase sought by the Rehabilitator, the policies issued in that state will be deemed opt-out policies subject to the following provisions.
4. Holders of opt-out policies would be able to choose from among several choices, which are designed to preserve as much choice as reasonably possible while giving effect to the opt-out state’s rate decision and avoiding or minimizing subsidies by other policyholders. In Phase One of the Plan, the choices for holders of opt-out policies would be:

OPTION A: Pay the required premium (including approved premium rate increases) and keep the current policy. However every opt-out policy with premiums below the If Knew level (after implementing the rate increase approved by the opt-out state) would be downgraded, using the Plan downgrade mechanism (see Section III.A.1.c, page 38), to the benefit level supported (on an If Knew Premium basis) by the premium charged. The downgrade would be “floored” at the lesser of the policy’s

current Maximum Policy Value (MPV) or the applicable guaranty association limits, extending the policy's Maximum Benefit Period (MBP) as necessary to accomplish that. This will be the default option for opt-out policies.

OPTION B: In lieu of the approved rate increase, take a benefit downgrade calibrated to the current premium on an If Knew basis using the Plan downgrade mechanism. If no rate increase is approved for the policy, Options A and B produce the same result.

OPTION C: Accept the opt-out state-required reduced paid-up policy ("RPU") or Non-forfeiture Option ("NFO"). If the state does not require a particular reduced paid-up policy or NFO, policyholders would be offered the NFO or RPU currently specified in their policy or, if none is specified in the policy, an NFO used by SHIP before the Plan.

OPTION D: Keep the current policy benefits and accept a premium increase to the If Knew Premium for the benefits offered by the policy.

5. Every opt-out policyholder on premium waiver would retain the waiver as long as required by the policy, but if the waived premium is below the If Knew level and its current MPV is greater than the GA limit, the MBP would be reduced to the longer of (1) what can be supported by the current premium (had it not been waived) on an If Knew basis, and (2) the MBP required to make the MPV no less than the GA limit. If the current MPV is lower than the GA limit, or if the waived premium is at or above If Knew level, the MBP would be left unchanged. This would provide no less benefits than what would happen in liquidation.
6. Once the waiver expires, such policyholders with waived premium below If Knew level would have their policies downgraded on an If Knew basis to the approved rates or the current rates, depending on whether they had selected the rate increase or benefit downgrade option in response to the approved rate increase.
7. If and when Phase Two is implemented for policyholders participating in the Plan, the process above would be repeated for opt-out policies using Self-sustaining premiums instead of If Knew Premium. However, policies that would be fully covered by the applicable guaranty association if SHIP were placed in liquidation, are Self-sustaining, or have elected the NFO or RPU would not be affected in this second phase.
8. Other provisions of the Plan not affected by these provisions would remain as applicable to the opt-out policies as to other policies. Additional details of this mechanism will be specified depending on further discussions with other regulators and the Orders of the Court.
9. This approach is designed to defer to the issue-state for rate approval by making its decision the default option. It would reduce or eliminate the requirement that other policyholders subsidize the opt-out policies and provides opt-out policyholders benefits at least equal to, and in many cases exceeding, what they would receive in liquidation. It would offer

policyholders benefit downgrade options in lieu of the approved rate increases as well as a reduced paid-up policy option. In addition, to reduce the disadvantage of being excluded from the Plan, these policyholders would also be offered the option of retaining the current coverage if they are able and inclined to pay the required premium.

V. DISCLAIMERS AND SOURCES OF INFORMATION

The discussion of the Rehabilitation Plan in this document describes how it is proposed to be implemented if approved by the Court as proposed by the Rehabilitator. If the Plan is modified by the Court or pursuant to subsequent amendments proposed by the Rehabilitator, its implementation may differ materially from the description herein.

The Plan includes information concerning SHIP's history and current and projected financial condition. This information was prepared based on information available to SHIP and the Rehabilitator, including information provided by SHIP to the Rehabilitator or available in historical public filings, and on actuarial projections that inherently include a degree of uncertainty. The Rehabilitator has yet to conclude an investigation of all the reasons that led to the Company's distressed financial condition. Pursuant to her statutory ability to do so, the Rehabilitator has delegated broad responsibility to the SDR and in the Plan references to Rehabilitator should be interpreted as including the SDR unless specified otherwise. The Rehabilitator and SHIP do not make any warranty, express or implied, as to the accuracy or completeness of the information contained in the Plan. In particular, events and forces beyond the control of the Rehabilitator and SHIP may alter the assumptions upon which the disclosures in the Plan are based. The Plan Document includes certain projections, but they cannot forecast and reflect fully any events that may occur subsequent to the date hereof. Such events may have a material impact on the information contained in the Plan Document and any recovery or benefits that may be received by policyholders and other creditors of the Company. The Rehabilitator may or may not update the Plan (including the financial information and underlying assumptions) or may only update it in part or only after the passing of substantial amounts of time. Therefore, the financial information and projections set forth in this Plan document may become outdated with the passage of time.

THE REHABILITATOR AND SHIP ARE NOT OFFERING LEGAL, BUSINESS, FINANCIAL, TAX OR OTHER ADVICE TO ANY PERSON AND THE PLAN SHOULD NOT BE CONSIDERED TO CONTAIN ANY ADVICE OR INSTRUCTION CONCERNING SUCH MATTERS. THE READER SHOULD CONSULT WITH HIS OR HER LEGAL, BUSINESS, FINANCIAL, TAX AND OTHER ADVISORS AS TO ANY MATTERS CONCERNING THE PLAN.

The Plan document is not required to be prepared in accordance with federal or state securities laws. None of the Securities and Exchange Commission ("SEC"), any state securities commission, or any similar governmental body has approved the Plan Document or has opined on the accuracy or adequacy of the statements contained therein. None of the financial information in the Plan Document was prepared to comply with published guidelines of the SEC, the American

Institute of Certified Public Accountants, U.S. Generally Accepted Accounting Principles or prescribed statutory accounting principles, except as specifically described therein.

The Plan Document may not be relied upon for any purpose (including to trade, buy or sell claims or securities) other than to obtain information about the details of the Plan and the related proceeding. Nothing contained herein is intended as or constitutes an admission of any fact or any party's liability with regard to any claim or litigation, including, but not limited to, any proceeding involving the Rehabilitator, SHIP, or any other party, or any proceeding with respect to the legal effect of the transactions contemplated by the Plan. Nothing contained in the Plan Document constitutes an admission, or can be deemed evidence, of the tax or other legal effects of the Plan on SHIP or on holders of claims against, or equity interests in, SHIP or its affiliates. Statements as to the rationale underlying the treatment of claims and other matters under the Plan are not intended to, and will not, waive, compromise or limit any of the Rehabilitator's or SHIP's rights or causes of action.

The Plan document contains statements that are, or may be deemed to be, "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Any such forward-looking statements are based upon a variety of estimates and assumptions that, though considered reasonable by the Rehabilitator, may not be realized, and are inherently subject to significant business, economic and other uncertainties and contingencies. Some assumptions inevitably will not materialize and events and circumstances occurring subsequent to the date on which the statements were prepared may be significantly different from those assumed, or may be unanticipated, and thus may affect financial or other results in a material and possibly adverse manner. The statements, therefore, should not be relied upon as a guaranty or other assurance of the actual results that will occur.

To ensure compliance with Internal Revenue Service Circular 230, holders of claims and other interests are hereby notified that: (a) any discussion of United States federal tax issues contained or referred to in the Plan Document is not intended or written to be used, and cannot be used, by holders of claims and other interests for the purpose of avoiding penalties that may be imposed on them under the Internal Revenue Code; (b) such discussion is provided solely in connection with the transactions or matters addressed herein; and (c) holders of claims and other interests should seek advice based on their particular circumstances from an independent tax advisor.

All summaries of the Plan contained herein or in other materials prepared by the Rehabilitator or others, including other filings with the Court, are qualified in their entirety by reference to the Plan as set forth in its entirety herein. Summaries of the Plan herein are not complete and are subject to, and qualified in their entirety by, reference to the full text of the Plan.

VII. GLOSSARY

The following are terms used in, and helpful in understanding, the Plan.

- 1) **“Accumulated Premium”** means, for a policy or group of policies, the total Gross Premiums paid, and premium waived under Waiver of Premium provisions, from inception until the valuation date.
- 2) **“Accumulated Premium Method”** means allocation of assets in proportion to the Accumulated Premium of the relevant policies as is more fully explained in Section II.E.4.e, page 23.
- 3) **“Active Block”** means the LTC insurance policies issued or assumed by the Company that remain in force and are not on claim.
- 4) **“Active Policies”** or **“Active Policyholders”** referred to also as Policies Not On claim and Policyholders Not On claim, means respectively policies or policyholders that have not been terminated due to non-payment of premiums, cancellation, or exhaustion of benefits and also are not listed in the Company’s records as having been approved for benefit payments and are not in the process of being approved for benefit payments as of the Determination Date.
- 5) **“Activities of Daily Living”** or **“ADL”** means eating, bathing, dressing, ambulating, transferring, toileting and continence.
- 6) **“Adult Day Care”** means a program for six or more individuals, of social and health-related services provided during the day in a community group setting for the purpose of supporting frail, impaired elderly, or other disabled adults who can benefit from care in a group setting outside the home. It is generally administered as part of home health care benefits.
- 7) **“Agent”** means any insurance agent, broker or producer that solicited, sold or placed insurance business issued or assumed by the Company or any of its predecessors.
- 8) **“Allocable Assets”** is a notional determination consisting of the total value of the Company’s liquid invested assets, after making provision for costs and expenses of administration, contingencies, accrued but unpaid claim payments, and certain debts of higher priority.
- 9) **“Allocated Assets”** means, for a LTC policy or group of policies, the portion of the Allocable Assets notionally allocated to that policy or group of policies in accordance with the terms of, and solely for the purposes described in, the Plan. All asset allocations are notional and do not give any policyholder a right to any Allocated Assets or any particular sum of money.
- 10) **“Approval Order”** means an Order from the Commonwealth Court approving the Plan.
- 11) **“Article V”** means Article V of the Pennsylvania Insurance Department Act of 1921, P.L. 780, as amended, 40 P.S. § 221.1, et. seq.

- 12) **“Asset/Premium Ratio”** means the ratio of Allocable Assets to the aggregate Accumulated Premiums for all LTC policies.
- 13) **“Basic Policy Endorsements”** means certain endorsements that together constitute the policyholder Option Two under the Plan. They consist of specific Policy Modifications described fully in Section III.A.2.d, page 44, intended to provide reasonable benefits and premiums that will be immune from changes in Phase Two of the Plan. Policyholders making this election will not face additional modifications under the Plan except that they may be required to pay full premium rather than Differential Premium if a Premium Waiver becomes inactive.
- 14) **“Benefit Triggers”** means the conditions that must be satisfied in order to be eligible for benefits under an LTC insurance policy.
- 15) **“Claim Waiver of Premium”** means a provision in a LTC insurance policy under which a policyholder who receives benefits under his or her policy for a specified period of time (such as 90 days) is no longer required to pay premiums for coverage after that time period as long as the policyholder remains eligible for benefits and/or receives a specified level of care.
- 16) **“Commonwealth Court”** or **“Court”** means the Commonwealth Court of Pennsylvania, which is the rehabilitation court for SHIP and has exclusive jurisdiction over SHIP’s rehabilitation.
- 17) **“Company”** means SHIP.
- 18) **“Court”** means for purposes of the Plan, and unless otherwise specified, the Commonwealth Court of Pennsylvania.
- 19) **“Covered Benefits”** means the amount of policy benefits provided by SHIP’s insurance policies that, if SHIP were placed in liquidation, would be within the limits, conditions and scope of coverage of the responsible Guaranty Association taking into account the residence and other attributes of the policyholders as determined by the responsible Guaranty Association in accordance with applicable law.
- 20) **“Current Premium”** means the premium paid by or waived for a LTCI policy before the applicable Effective Date under the Plan. This is also the target premium for the Downgrade Process. See Section III.A.1.c, page 38.
- 21) **“Daily Benefit Amount”** or **“DBA”**, also called Maximum Daily Benefit (MDB), means a maximum daily dollar amount available on a covered day of care as specified in the policy.
- 22) **“Default Option”** means the Plan option selected automatically for a policyholder who fails to make a valid election by the required date.

- 23) **“Determination Date”** means a date, which may vary among policyholders, after the Final Approval Date and before the applicable Policyholder Election Date to be selected by the Rehabilitator pursuant to the Plan as of which all the determinations and calculations required to construct the options available to each policyholder will be made by the Rehabilitator.
- 24) **“Differential Premium”** means the applicable premium (If Knew, Phase One, or Self-sustaining) less the Current Premium and is payable under the Plan in lieu of the applicable premium by policyholders on waiver. Under the terms of the Plan, differential premiums cannot be less than zero.
- 25) **“Disabled Life”** means a policyholder who is receiving, or has been approved to receive, policy benefits or a policy under which benefits are being provided, or have been approved, by the Company and is also referred to as a policyholder on claim.
- 26) **“Disabled Life Reserve” or “DLR”** means the present value of expected future benefits and expenses calculated for each policyholder listed in the Company’s records as a policyholder on claim.
- 27) **“Downgrade Process”** means the process for reducing the benefits of a policy pursuant to Option One so that the policyholder may retain the Current Premium but reduce the benefits provided by that policy to those that premium can fund on an If Knew basis in Phase One and a Self-sustaining Basis in Phase Two. It is described in detail at Section III.A.1.c, page 38.
- 28) **“Dual Waiver of Premium” or “Dual Waiver” (DWOP)**, sometimes called Spousal Waiver of Premium, means a provision in a LTC insurance policy under which the premium of a spouse is also waived when the policyholder’s premium is waived upon going on claim.
- 29) **“Effective Date”** means the date as of which the provisions of the Plan, including Policyholder Elections and modification of LTC policies, will become effective following the approval of the Plan. For most policyholders the Effective Date will be the Initial Plan Effective Date. For policyholders who undergo specified changes in status during the Policyholder Transition Period as described in Section II.L.3.c, page 33 the Effective Date will be the Supplemental Plan Effective Date.
- 30) **“Elimination Period” or “EP”** means the time period during which a policyholder’s circumstances qualify for Long-term Care insurance benefits but for which no such benefits are yet payable by the Company. The Elimination Period is similar to a deductible or waiting period. The length of the elimination period varies by policy. The majority of the Company’s policies include elimination periods of zero days, 30 days, 60 days, 90 days, and 110 days, although the Company has some policies with elimination periods up to 365 days.

- 31) **“Extension of Benefits”** provision means a provision in the policy permitting claim payments to continue for a policy on claim that lapses due to non-payment of premium.
- 32) **“Final Approval Date”** means the date upon which the Approval Order becomes final and non-appealable or upon which an appellate Order affirming the Approval Order has itself become final and no longer appealable.
- 33) **“Fully Covered”** means that the maximum liability projected for a particular policy (its MPV) is no greater than the limits of Guaranty Association coverage that would apply to that policy if SHIP were placed in liquidation. A Fully Covered policy has no Uncovered Benefits.
- 34) **“Funding Gap”** means the gap between: (a) the sum of: (1) the amount of SHIP’s assets, (2) projected future premiums, and (3) projected earnings on investments, and (b) the sum of: (1) SHIP’s future policy benefits, (2) related expense payment obligations, and (3) other expenses.
- 35) **“Fuzion”** means Fuzion Analytics, Inc., a subsidiary of SHIP that, among other things, provides management and administrative services to SHIP.
- 36) **“Gross Premium”** means the periodic payments that are required to keep the policy in force. In the absence of rehabilitation, the rates used to establish the Gross Premium are typically filed with, and subject to approval of, insurance regulators. Gross Premium includes provisions for expenses and profit margins.
- 37) **“Gross Premium Reserve” or “GPR”** means the present value as of the valuation date of expected benefits unpaid, expected expenses unpaid, and unearned or expected premiums, adjusted for future premium increases reasonably expected to be put into effect. Expected expenses include commissions and premium taxes (if applicable). GPR is the reserve amount that results from performing a GPV. For a Self-sustaining Policy GPR is no more than the assets allocated to that policy under the Plan for calculation purposes only.
- 38) **“Gross Premium Valuation” or “GPV”** is the determination of the present value of expected future benefits and related expenses less the present value of expected future premiums at current and anticipated rates where “expected” consists of best estimate assumptions including a provision for moderately adverse deviation. The gross premium valuation process is used in determining the GPR.
- 39) **“Guaranty Association”** means the life, health and accident insurance Guaranty Association or equivalent entity in a particular state responsible for providing benefits to the policyholders of an insolvent long-term care insurer in liquidation.
- 40) **“HIPAA”** means the Health Insurance Portability and Accountability Act of 1996, which among other things establishes data privacy and security safeguards for patient health

information and which also provides that premiums paid for “Tax Qualified policies” as defined in the Act, may be deductible from federal income tax.

- 41) **“If Knew Differential Premium”** means the If Knew Premium less the Current Premium. It is the Differential Premium when the applicable premium is the If Knew Premium. Under the terms of the Plan differential premiums cannot be less than zero.
- 42) **“If Knew Premium”** means the premium that if charged from inception would have produced the greater of the initial target loss ratio or the minimum loss ratio applicable to the policy form. For the sake of simplicity, this will be assumed to be 60%. It is sometimes described as the premium the insurer would have charged from inception had it known then what it knows now.
- 43) **“Impaired Policy”** means an LTCI policy: (1) for which on Phase One the Current Premium is less than the If Knew Premium, and/or (2) that in Phase Two is Non-self-sustaining.
- 44) **“Inflation Protection”** means riders purchased by policyholders or policy features that provide for defined increases in benefits at regular intervals in order to protect against the effects of inflation on the cost of care.
- 45) **“Initial Funded Restructured Policy Value” or “IFRPV”** means a policy value equal to the portion of the liabilities arising under the policy that SHIP can reasonably be expected to meet based on future premiums and Allocated Assets. For a policy that is not an Impaired Policy, the IFRPV will be equal to the full amount of the liabilities currently expected to arise under the policy.
- 46) **“Initial Plan Effective Date”** is the Effective Date for all policyholders other than those to whom the Supplemental Plan Effective Date applies. It will not be the same specific day for all policyholders. For each policyholder, the Initial Plan Effective Date will be the policy’s *Monthiversary Date* occurring during the *Initial Plan Effective Month*. See definitions, pages 110 and 112. The Initial Plan Effective Month will be the same for all policyholders for whom the Effective Date is the Initial Plan Effective Date, that is, those who have not undergone certain specified changes in status during the Policyholder Transition Period as described in Section II.L.3.c, page 33.
- 47) **“Initial Plan Effective Month”** means the calendar month immediately following the Plan Preparation Period. The Initial Plan Effective Month will be the same for all policyholders for whom the Effective Date is the Initial Plan Effective Date, that is, those who have not undergone certain specified changes in status during the Policyholder Transition Period as described in Section II.L.3.c, page 33.
- 48) **“Lifetime Waiver of Premium” or “LWP”** means a provision in a LTC insurance policy under which the premium payments are permanently suspended upon the death of a covered spouse after a qualifying period (typically five, seven, or ten years).

- 49) **“Limited Benefit Period”** means any Maximum Benefit Period that is subject to a stated limit by the terms of the policy. It refers to a policy that is not a lifetime or unlimited benefit policy.
- 50) **“Liquidation Benefits”** means the benefits a policyholder would reasonably be expected to receive if SHIP were liquidated under the provisions of Article V, taking into account the Company’s history, the orders of the Court, the risks and uncertainties of the liquidation process, and the effect of Guaranty Association coverage.
- 51) **“Long-term Care”** or **“LTC”** insurance means defined benefit accident and health insurance policies covering long-term care services, including confinement to nursing facilities and assisted living facilities, as well as home health care and adult day care.
- 52) **“LTCI”** means long-term care insurance.
- 53) **“Maximum Benefit Amount”** means the dollar maximum in benefits available under a LTC policy.
- 54) **“Maximum Benefit Period”** or **“MBP”** means the maximum time (typically stated as number of years or days, either lapsed time or of provided service) during which benefits will be available under a LTC policy. Benefits are usually defined in the contract to be a maximum amount payable per day or per month, for a maximum number of years. However, in some policies if the claimant uses less than the maximum amount permissible in a given period, the unused excess typically serves to lengthen the Maximum Benefit Period under what is known as the “pool of money” clause. Benefits commence after satisfaction of an Elimination Period (EP) and continue until the recovery or death of the claimant or until the pool of money has been exhausted. In these cases the Maximum Benefit Period is sometimes expressed as a dollar amount, the Maximum Benefit Amount. Under other policies (sometimes called “days of care” policies) reducing the daily benefit amount utilized does not extend the benefit period. For these policies the Maximum Benefit Period is expressed as the number of days, months or years during which coverage remains available under the policies. In either case, modifications by the policyholder under the Plan may have the effect of reducing the Maximum Benefit Period.
- 55) **“Maximum Daily Benefit”** or **“MDB”** also called Daily Benefit Amount (DBA), means a maximum daily dollar amount available on a covered day of care as specified in the policy.
- 56) **“Maximum Policy Value”** or **“MPV”** means the product of a policy’s Maximum Benefit Period times its Maximum Daily Benefit determined as of a specified date, adjusted for inflation protection. For Plan purposes, MPV will be calculated as if the policyholder went on claim on the Plan Effective Date.

- 57) **“Monthiversary Date”** means the day of the month upon which premium is due under a particular policy or would be due except for a Premium Waiver provision.
- 58) **“NAIC”** means the National Association of Insurance Commissioners.
- 59) **“Net Premium”** means the part of the Gross Premium that is intended to cover the cost of future claims, as opposed to future operating expenses and profit margin. The Net Premium is typically set at issue.
- 60) **“Non-core Policy Benefits”** means certain benefits provided by some SHIP LTC policies other than nursing home, facility, home health (which often includes hospice) or adult day care. They are enumerated in section II.H, page 28.
- 61) **“Non-forfeiture Option”** or **“NFO”** traditionally means an option to exchange an existing LTC policy for a reduced paid up contract on which no future premiums need be paid by the policyholder but under which benefits are limited to premiums previously paid less benefits previously received. NFO benefits are enhanced substantially under the Plan.
- 62) **“Non-Self-Sustaining Policy”** means a LTC policy the Projected Benefit Amount (PBA) of which exceeds its Projected Credit Amount (PCA). It is a policy for which Current Premium rates are inadequate given assets available to be allocated to it and its projected liability for benefits and expenses.
- 63) **“Non-Tax-Qualified”** or **“NTQ”** benefit triggers means LTC insurance policy provisions under which the conditions that must be satisfied to be eligible for benefits do not conform to the legal standards for Tax Qualified policies. Such provisions were formerly called “traditional” Long-term Care Insurance. They often include a benefit “trigger” called a “medical necessity” trigger under which the insurer is obligated to pay if the policyholder’s own doctor, or that doctor in conjunction with someone from the insurance company, determines that the policyholder needs covered care for any medical reason. The United States Department of the Treasury has not fully clarified the tax status of premiums paid for and benefits received under a NTQ Long-term Care Insurance policy as precisely as the status of benefits received under a tax qualified policy. Therefore, the federal taxation of benefits under a NTQ policy is not certain. **The Rehabilitator makes no representation and does not offer any opinion regarding tax matters.**
- 64) **“Partnership-Qualified” (PQ)**, means LTC policies that are intended to satisfy the requirements under the Deficit Reduction Act of 2006 entitling the policyholder to a dollar of asset disregard or spend-down credit with respect to Medicaid eligibility for every dollar of benefit received under the LTC policy.
- 65) **“On claim”** refers to a policyholder who is receiving, or has been approved to receive, policy benefits or a policy under which benefits are being provided by the Company.

- 66) **“Paid-Up Policy”** means an in-force policy that is paid in full and no longer requires premium payments under its terms.
- 67) **“Phase One Differential Premium”** means the Phase One Premium less the Current Premium. It is the Differential Premium when the applicable premium is the Phase One Premium. Under the terms of the Plan, the Phase One Differential Premium cannot be less than zero.
- 68) **“Phase One Premium”** means the premium calculated for a specified policy (or group of policies) on the If Knew basis, but not less than the Current Premium.
- 69) **“Phase Two Policyholder Election Package”** means the Policyholder Election Package sent to certain policyholders to inform them of options available in Phase Two of the Plan and to enable them to elect from among those options.
- 70) **“PID”** means the Pennsylvania Insurance Department.
- 71) **“Plan”** means this Rehabilitation Plan.
- 72) **“Plan Document”** means this document describing the Plan.
- 73) **“Plan Limits”** means the minimum and maximum modifications permitted by the Plan for a policy’s Maximum Benefit Period (MBP) and Maximum Daily Benefit (MDB). Except as noted in Section III.A.1.c.(4), page 39, a policy’s MBP cannot be reduced by the Plan below the lower of (a) the current MBP or (b) four years, and cannot be increased by the Plan above the greater of (a) the current MBP or (b) six years. A policy’s MDB cannot be reduced by the Plan below the lesser of 80% of current level and \$300 for Nursing Home Care; the lesser of (a) 80% of current level or (b) \$225 for Facility Care; and the lesser of (a) 80% of current level or (b) \$150 for Home Health Care. The MDB cannot be increased by the Plan above the greater of (a) the current MDB or (b) \$600 for Nursing Home Care, \$450 for Facility Care and \$300 for Home Health Care.
- 74) **“Plan Option”** means any of the options available to policyholders under the Plan, which are described on page 19.
- 75) **“Plan Premium”** means the premium that a policyholder must pay under the terms of the Plan. Depending on the policyholder’s circumstances, it could be the Phase One Premium, If Knew Premium, Self-Sustaining Premium, Phase One Differential Premium, If Knew Differential Premium, or Self-sustaining Differential Premium.
- 76) **“Plan Preparation Period”** means the time between the Final Approval Date and the Effective Date of the Plan, during which preparatory steps necessary to implement the Plan will be completed. It includes the period during which policyholders will make elections under the Plan.

- 77) **“Policies Not On claim”** or **“Policyholders Not On claim,”** also called Active Policies or Policyholders, means policies or policyholders that have not been terminated due to non-payment of premiums, cancellation, or exhaustion of benefits and also are not listed in the Company’s records as having been approved for benefit payments or in the process of being approved for benefit payments as of the Determination Date.
- 78) **“Policy Modifications”** means Premium Rate Increases or Benefit reductions selected by a policyholder, or made applicable, in accordance with the terms of the Plan.
- 79) **“Policyholder Election”** means the election by a policyholder to modify the premiums or benefits of a policy under the Plan.
- 80) **“Policyholder Election Date”** means the date by which the Rehabilitator must receive properly completed Policyholder Election Forms in order to give them effect.
- 81) **“Policyholder Election Form”** means the form on which a policyholder specifies whether, and if so how, he or she elects to modify his or her LTC policy in accordance with the terms of the Plan.
- 82) **“Policyholder Election Package”** means the materials, including the Policyholder Election Form, to be sent to policyholders by the Rehabilitator so that they may make the elections available under the Plan.
- 83) **“Policyholders”** means holders of insurance policies and certificate holders under group insurance policies.
- 84) **“Policyholder Transition Period”** means the period between the Policyholder Election Date and the Initial Plan Effective Date during which policyholders may experience changes in circumstances (such as going on claim) as the result of which they may have to make new elections under the Plan.
- 85) **“Possible Benefit Reductions”** means the list of possible benefit reductions applicable to premium paying active policyholders who select a Downgrade option as described fully beginning on page 41.
- 86) **“Premium Waiver”** means a policy provision that allows a policyholder to discontinue paying premiums and maintain the policy in force during a period of covered care or under circumstances specified in the policy.
- 87) **“Projected Benefit Amount”** or **“PBA”** means the present value as of the valuation date of unpaid expected benefits and unpaid expected policy expenses. For purposes of this determination “expected” consists of best estimate assumptions including a provision for moderately adverse deviation.

- 88) **“Projected Credit Amount” or “PCA”** means, for a LTC insurance policy, the sum of (a) the present value as of the valuation date of expected premiums, adjusted for future premium increases reasonably expected to be put into effect and (b) the assets allocated to that policy using the Accumulated Premium Method. For purposes of this determination “expected” consists of best estimate assumptions including a provision for moderately adverse deviation.
- 89) **“Reduced Paid-up Policy” or “RPU”** means a policy offering reduced long-term care benefits but for which no more premium has to be paid and which will not lapse before the death of the policyholder. The Non-forfeiture Option offered under the Plan is a RPU.
- 90) **“Rehabilitation Plan”** means this Plan for the rehabilitation of SHIP’s Long-term Care insurance business.
- 91) **“Rehabilitator”** means Jessica K. Altman, Insurance Commissioner of the Commonwealth of Pennsylvania, and her successors in office, in the capacity of Statutory Rehabilitator of the Company. Pursuant to her statutory authority to do so, the Rehabilitator has delegated broad responsibility to the Special Deputy Rehabilitator and in the Plan documents references to the Rehabilitator should be interpreted as including the SDR unless specified otherwise.
- 92) **“Restoration of Benefits”** means a LTC insurance policy feature under which the benefit period for a policyholder who has received benefits will be restored to the original Maximum Benefit Period after receiving some or all claim benefits if the policyholder does not need or receive care during a specified period of time (such as 180 days).
- 93) **“Restructured Policy”** means a policy that has been restructured as described in Section VI.H, page 86, to allocate the liabilities arising under the policy between its IFRPV and its UBL.
- 94) **“Return of Premium”** means a LTC insurance policy feature which provides for the return of a percentage of premium paid by the policyholder (such as 80%) if the policyholder does not make a claim (or has a limited expected amount of benefits paid) during a given period of time in which the policy was in force (such as ten years).
- 95) **“Self-sustaining”** means a policy for which its Projected Credit Amount (PCA) equals or exceeds its Projected Benefit Amount (PBA). It is a policy for which Current Premium rates are adequate given assets available to be allocated to it and its projected liability for benefits and claims expenses.
- 96) **“Self-sustaining Differential Premium”** means the Self-sustaining Premium less the Current Premium. It is the Differential Premium when the applicable premium is the Self-sustaining Premium. Under the terms of the Plan, differential premiums cannot be less than zero.

- 97) **“Self-sustaining Premium”** means the premium calculated by determining the amount of premium required to eliminate a policy’s Shortfall Amount.
- 98) **“Senior Health Care Oversight Trust”** means the Pennsylvania business trust governed by an independent Board of Trustees comprised of former insurance regulators and an independent actuary, who also served as members of the board of directors of SHIP, created in 2008 to be the sole owner of SHIP.
- 99) **“SHIP”** means the Senior Health Insurance Company of Pennsylvania, the subject of this Rehabilitation Plan.
- 100) **“Shortfall Amount”** for a LTC policy means the difference between its Projected Benefit Amount and its Projected Credit Amount where the difference is more than zero. The Shortfall Amount can also be expressed as a policy’s GPR less its Allocated Assets. If the difference is zero or less there is no shortfall and the policy is Self-sustaining.
- 101) **“Special Deputy Rehabilitator”** or **“SDR”** means Patrick H. Cantilo or his successors, appointed by the Rehabilitator to serve as the Special Deputy Rehabilitator for SHIP.
- 102) **“Statutory Reserve”** means the insurance reserve required by Pennsylvania insurance laws to be included in an insurer’s financial statement on account of its insurance business in force.
- 103) **“Supplemental Plan Effective Date”** is the Effective Date for policyholders who undergo certain changes in status during the Policyholder Transition Period as described in Section II.L.3.c, page 33. It will occur on the policy’s Monthiversary Date during the month specified by the Rehabilitator following the Policyholder Transition Period.
- 104) **“Tax Qualified”** or **“TQ”** benefit triggers means the conditions that must be satisfied to be eligible for benefits under a LTC insurance policy that is designed to conform to certain standards in federal law and may offer certain federal tax advantages. TQ policies were created as a result of HIPAA, which included provisions for favorable tax treatment of qualified Long Term Care Insurance contracts. To comply with those standards, TQ policies are required to cover services for a chronically ill individual, and do not have a “medical necessity” benefit trigger. A TQ benefit trigger requires that a person 1) be expected to require care for at least 90 days, and be unable to perform 2 or more Activities of Daily Living (eating, dressing, bathing, transferring, toileting, and continence) without substantial assistance (hands on or standby); or 2) for at least 90 days, need substantial assistance due to a severe cognitive impairment. In either case a licensed healthcare professional must certify a plan of care. Premiums paid for a TQ policy may be deductible from taxable income, and benefits from a TQ policy may not be subject to federal income tax. **The Rehabilitator makes no representation and does not offer any opinion regarding tax matters.**

- 105) **“TQ Triggers”** means the requirements that must be met under a Tax Qualified LTC policy in order to receive benefits.
- 106) **“Transitional Events”** means the events described on page 33 as a result of which a policyholder must make an election after the Initial Policyholder Election Date and before the Supplemental Plan Effective Date.
- 107) **“Trust”** means the Senior Health Care Oversight Trust, as defined above.
- 108) **“Uncovered Benefits”** means the portion of the LTC policy benefits to which policyholders are contractually entitled on the Effective Date that exceed Guaranty Association statutory limits or otherwise are not covered by Guaranty Associations as determined by the responsible Guaranty Association in accordance with applicable law.
- 109) **“Unfunded Benefit Liability”** or **“UBL”** means the portion of a policy’s Unmodified Policy Value that exceeds its IFRPV.
- 110) **“Waiver of Premium”** see Claim Waiver of Premium, Dual Waiver of Premium, and Lifetime Waiver of Premium.

VIII. APPENDIX A - CHANGES FROM APRIL 22 PLAN

1. A number of typographical or grammatical errors have been corrected. In addition, clarifying language has been added or substituted at various places. Material changes are listed below.
2. The plan addresses treatment before the Plan Effective Date. See page 10.
3. The description of why the Plan treats policyholders at least as well as they would be in liquidation has been clarified. See Section I.A.3, page 12.
4. The applicability of Default Options, especially in Phase Two, has been clarified. See Section I.A.4, page 13.
5. The Plan now addresses changes in policyholder elections. See Section I.A.5, page 13.
6. A new Plan Projection section has been added. See Section I.F, page 17.
7. The asset allocation methodology for determination of Phase Two Premium has been simplified and no longer distinguishes between active and disabled policyholders. See Section II.E.4.d, page 23.
8. The explanation of Differential Premium has been expanded. See Section II.E.6, page 24.
9. The Plan now makes provision for approved premium rate increases that have not yet been implemented. See Section II.F, page 26.
10. The Waiver section and a few provisions throughout the Plan have been clarified to reflect that now the Basic Policy Endorsements remove all premium waivers so that only Option Four will allow policyholders to have both dual and claim waiver benefits while paying Differential Premium. See Section II.G, page 26, and Section III.B.1.b.(2), page 48 as an example.
11. The language in the Non-core Benefits section has been edited to clarify that their relationship to other benefits remains unchanged. See Section II.H, page 28.
12. Table 3, the Plan Sequence, has been updated to reflect the Court's June 12, 2020, Case Management Order, October 7, 2020, hearing cancellation Order, and other developments. See page 30.
13. The language governing Transitional Events and Supplemental Policyholder Elections has been expanded and clarified. See page 33 and definition on page 117.

14. The calculation of Maximum Policy Value (MPV) has been clarified to specify that changes, such as due to inflation protection, will be taken into account. See Section II.N.7, page 36.
15. The Plan Limit floor on MDB has been changed from \$300 to the lesser of 80% of current level or \$300. See Sections III.A.1.c.(4), page 39; III.A.1.f.(7), page 41; III.A.2.d, page 44; and III.A.3, page 46; and the definition on page 113.
16. The Plan Limits definitions have been revised to include Facility and Home Health Care and explicit maxima. See Section III.A.1.c.(4), page 39, and definition at page 113.
17. The Plan has been revised to enable reduction of the MBP below Plan Limits to effect Option One (Downgrade). See Section III.A.1.c.(5), page 39.
18. The Plan Limits floor on reduction of MBP in the downgrade Process has been removed since the NFO now acts as a safety net. See Section III.A.1.d.(6), page 40 and Section III.A.1.f.(9), page 41.
19. In the Downgrade Process, elimination of Restoration of Benefits has been moved up from downgrade step10 to step1. See Section III.A.1.f, page 41.
20. The adjustment of the minimum “recovery period” for Restoration of Benefits provisions has been eliminated as a downgrade step. See Section III.A.1.f.(1), page 41.
21. A Benefit Reduction has been added to both the downgrade process and the Basic Policy Endorsements removing Extension of Benefits provisions (for which a definition has also been added). See Section III.A.1.f.(2), page 41, Section III.A.2.d.(4), page 44, and page 109.
22. The Downgrade provision has been further clarified to make accrued Return of Premium payment payable on the due date that would have applied absent Plan modification so as to avoid adverse selection and payment that would not have been owed. It now characterizes the elimination as a “discontinuation” to distinguish between pre and post Effective Date accrual. See Section III.A.1.f.(4), page 41.
23. The reduction in DB percentage depending on site of care in the Basic Policy Endorsements will apply to all policies, not just to comprehensive policies. Language has been added to Sections III.A.1.f.(7), page 41, III.A.2.d.(6) (page44), and III.A.3.a (page 46), to avoid ambiguity.
24. Clarification has been added that for policies that are already pool of money, Downgrade Step 10 still applies but conversion won’t be necessary; just reduction of the Maximum Benefit Amount. See Section III.A.1.f.(11), page 42.

25. The minimum six-month recovery period has been removed from the Basic Policy Endorsements conditions since it has been made inapplicable by the removal of Restoration of Benefits provision. See Section III.A.2.d, page 44.
26. The conversion of Days of Care to Pool of Money has been removed from the description of the Basic Policy Endorsements since these are indemnity policies for which this distinction is inapplicable. See Section III.A.2.d, page 44.
27. The Basic Policy Endorsements removal of Return of Premium benefit has been clarified and the return date under the Plan date has been retained at the original return date. See Section III.A.2.d.(3), page 44.
28. The Basic Policy Endorsements descriptions have been clarified to provide for retention of the existing inflation type. See Sections III.A.2.d.(5) and III.A.2.f, pages 44 and 45.
29. The provisions for adjusting MDB for site of care in the Basic Policy Endorsements and the NFO have been simplified and the distinction between comprehensive and non-comprehensive policies has been eliminated. See Section III.A.2.d.(6), page 44; and Section III.A.3.a, page 46.
30. The provisions governing the Guaranty Association “floor” have been clarified. See Sections III.A.2.h (page 45).
31. Removal of the Alternative Plan of Care option has been eliminated as a downgrade step because it produces too little reduction and is very difficult to value as actually administered by the Company.
32. The order of Downgrade Benefit Reductions has been revised so that Reduction of MBP is now Benefit Reduction Nine and reduction of MDB is now Benefit Reduction Seven.
33. A provision has been added specifying that richer policy specific NFOs will be offered in lieu of the Plan NFO in the rare cases where they are applicable. See Section III.A.3.b, page 46.
34. Clarification has been added that the same Benefit Reductions will apply to active policies and policies on claim. However, certain Benefit Reductions will only apply to disabled policyholders after recovery. See Section III.C.1.a, page 50. Note that for policyholders on claim this may mean a reduction in reimbursement for pending claims.
35. Table 6 has been edited to note that Option 2 applies the with GA Floor. See page 62.
36. The policy restructuring under the Plan has been specified to occur before policyholder elections. This will not affect the elections. See Section VI.H, page 86.

37. The reinsurance section has been updated to reflect that assumed business will not be treated as direct business under the Plan. See Section VI.M.7, page 92.
38. A section has been added to describe other measures considered as alternatives to the Proposed Rehabilitation Plan. See Section VI.T, page 98.
39. A section has also been added to describe an option for issue-states to approve premium rate increases. See Section VI.U, page 102.
40. The definition of *Determination Date* has been corrected so that it now occurs between the Final Approval Date and the applicable Policyholder Election Date. See page 108.
41. The definition of MPV has been expanded to make clear that it is as adjusted for claims and benefits. See page 111.
42. The discussion of minimum and maximum MPV has been removed as unnecessary. See page 113.

**APPENDIX B
SELECTED FINANCIAL INFORMATION**

**SENIOR HEALTH INSURANCE COMPANY
OF PENNSYLVANIA
*IN REHABILITATION***

THE ATTACHED PAGES ARE SELECTED EXCERPTS FROM THE COMPANY'S UNFILED 2019 STATUTORY FINANCIAL STATEMENT AND INTERNAL 2020 FINANCIAL INFORMATION. NO REPRESENTATION, EXPRESS OR IMPLIED, IS MADE AS TO THEIR ACCURACY OR COMPLETENESS.

THIS INFORMATION IS PROVIDED SOLELY FOR INFORMATION AND CONTAINS STATEMENTS THAT ARE, OR MAY BE DEEMED TO BE, "FORWARD-LOOKING STATEMENTS" WITHIN THE MEANING OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995. ANY SUCH FORWARD-LOOKING STATEMENTS ARE BASED UPON A VARIETY OF ESTIMATES AND ASSUMPTIONS THAT, THOUGH CONSIDERED REASONABLE BY THE REHABILITATOR, MAY NOT BE REALIZED, AND ARE INHERENTLY SUBJECT TO SIGNIFICANT BUSINESS, ECONOMIC AND OTHER UNCERTAINTIES AND CONTINGENCIES.

SOME ASSUMPTIONS INEVITABLY WILL NOT MATERIALIZE AND EVENTS AND CIRCUMSTANCES OCCURRING SUBSEQUENT TO THE DATE ON WHICH THE INFORMATION WAS PREPARED MAY BE SIGNIFICANTLY DIFFERENT FROM THOSE ASSUMED, OR MAY BE UNANTICIPATED, AND THUS MAY AFFECT FINANCIAL OR OTHER RESULTS IN A MATERIAL AND POSSIBLY ADVERSE MANNER. THE INFORMATION, THEREFORE, SHOULD NOT BE RELIED UPON AS A GUARANTY OR OTHER ASSURANCE OF THE ACTUAL RESULTS THAT WILL OCCUR.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of Senior Health Insurance Company of Pennsylvania ("Company") are presented on the basis of accounting practices prescribed or permitted by the Pennsylvania Commissioner of Insurance ("Commissioner").

The Commissioner recognizes only statutory accounting practices prescribed or permitted by the Commonwealth of Pennsylvania for reporting the financial condition and results of operations of an insurance company and determining its solvency under Pennsylvania Insurance Law. The *Accounting Practices and Procedures* manual ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the Commonwealth of Pennsylvania. However, Pennsylvania may adopt certain prescribed accounting practices that differ from NAIC SAP. In addition, the Commissioner has the right to permit other specific practices that deviate from prescribed practices. The Company received a permitted practice for a one-time release of the Interest Maintenance Reserve ("IMR") prescribed by NAIC Statement of Statutory Accounting Principles (SSAP) No. 7 – Asset Valuation and Interest Maintenance Reserve effective January 1, 2018. The effect of this permitted practice was a release of the amortized IMR of \$192,502,234 which increased the Company's 2018 reported Net Income and negative Surplus balances by \$72,502,234. As a result of the IMR release, the Company established a premium deficiency reserve of \$120,000,000. The effect of the permitted practice in 2019 was an increase in net income and negative surplus balances of \$116,228,684. A reconciliation of the Company's net income and capital & surplus is shown below.

	SSAP #	F/S Page	F/S Line #	2019	2018

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Health premiums are earned ratably over the terms of the related insurance and reinsurance contracts or policies.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds are stated at amortized cost using the scientific interest method, except those rated NAIC class 6, which are stated at the lower of amortized cost or fair value.
- (3) Common stocks are stated at market value.
- (4) Preferred stocks are stated at amortized cost, except those rated NAIC class 4 or lower quality, which are carried at the lower of cost or fair value.
- (5) Mortgage loans on real estate are stated at the aggregate unpaid balance, excluding accrued interest.
- (6) Loan-Backed securities are stated at amortized cost using the interest method including anticipated prepayments at the date of purchase; significant changes in estimated cash flows from the original purchase assumptions are accounted for using the retrospective method. These assumptions are generally consistent with the current interest rate and economic environment.
- (7) The Company reports Fuzion Analytics, Inc., a non-insurance company, at audited GAAP equity.
- (8) Ownership interests in joint ventures are classified as other invested assets on the balance sheet. The Company carries these interests based on its proportionate share of the underlying audited GAAP equity of the investee, adjusted for any distributions received.

ELECTRONICALLY FILED - 2021 Aug 23 4:56 PM - RICHLAND - COMMON PLEAS - CASE#2020CG-004005802

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies, continued

- (9) The Company has no investments in derivatives.
- (10) The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 54R—Individual and Group Accident and Health Contracts.
- (11) Unpaid losses and loss adjustment expenses include amounts determined from individual case estimates and loss reports and amounts, based on experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates. The ultimate liability may be greater or less than the amount reported. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed. Any adjustments to these liabilities are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) The Company receives no pharmaceutical rebates.
- D. The Company has suffered recurring losses from operations and has a net capital and surplus deficit. The Company is actively working with the Pennsylvania Insurance Department to develop a corrective action plan.

2. Accounting Changes and Corrections of Errors

- A. There are no material changes in accounting principles or corrections of errors.

3. Business Combinations and Goodwill

- A. During 2019, the Company did not purchase any interest in another company.
- B. During 2019, the Company did not merge with any other insurance company.
- C. During 2019, the Company did not participate in an assumption reinsurance agreement.
- D. During 2019, the Company did not recognize an impairment loss on the transactions described above.

4. Discontinued Operations

During 2019, the Company did not discontinue any operations.

NOTES TO FINANCIAL STATEMENTS

5. Investments, continued

B. Debt Restructuring

The Company has no investments involving troubled debt restructurings.

C. Reverse Mortgages

The Company has no investment in reverse mortgages.

D. Loan-Backed Securities

- (1) The Company uses a proprietary model for loss assumptions and widely accepted models for prepayment assumptions in valuing mortgage-backed and asset-backed securities with inputs from major third-party data providers. It combines the effects of interest rates, volatility, and pre-payment speeds based on various scenario simulations (Monte Carlo) with credit loss analysis and resulting effective analytics (spreads, duration, convexity) and cash-flows on a monthly basis. Credit sensitive cash flows are calculated using a proprietary model which estimates future loan defaults in terms of timing and severity. Model assumptions are specific to asset class and collateral types and are regularly evaluated and adjusted where appropriate.
- (2) The Company has no loan-backed securities with a recognized other-than-temporary impairment due to the intent to sell or the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis.
- (3) The Company has no loan-backed securities with a recognized other-than-temporary impairments for which the present value of cash flows expected to be collected is less than amortized cost as of December 31, 2019.
- (4) Impaired loan-backed securities for which an other-than-temporary impairment has not been recognized in earnings as a realized loss are as follows:

	Amortized	Fair	Unrealized
	Cost	Value	Loss
			Position
In a continuous loss position less than 12 months	\$ 44,288,723	\$ 44,126,191	\$ (162,532)
In a continuous loss position 12 months or longer	15,051,325	14,926,301	(125,024)
Total	\$ 59,340,048	\$ 59,052,492	\$ (287,556)

- (5) There are several factors that are considered in determining whether an “other-than-temporary” impairment exists, including but not limited to debt burden, credit ratings, sector, liquidity, financial flexibility, company management, expected earnings and cash flow stream, and economic prospects associated with the investment.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

The Company has no dollar repurchase agreements and/or securities lending transactions at December 31, 2019.

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

The Company has no repurchase agreements transactions accounted for as a secured borrowing at December 31, 2019.

G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing

The Company has no reverse repurchase agreements transactions accounted for as a secured borrowing at December 31, 2019.

H. Repurchase Agreements Transactions Accounted for as a Sale

The Company has no repurchase agreements transactions accounted for as a sale at December 31, 2019.

I. Reverse Repurchase Agreements Transactions Accounted for as a Sale

The Company has no reverse repurchase agreements transactions accounted for as a sale at December 31, 2019.

J. Real Estate

The Company has no investment in real estate at December 31, 2019.

K. Low Income Housing Tax Credits (“LIHTC”)

The Company holds no LIHTC property investments at December 31, 2019.

ELECTRONICALLY FILED - 2021 Aug 23 4:56 PM - RICHLAND - COMMON PLEAS - CASE#2020CP4005802

NOTES TO FINANCIAL STATEMENTS

9. Income Taxes, continued

The valuation allowance adjustments to gross deferred tax assets as of December 31, 2019 and 2018 were \$323,748,907 and \$238,273,110 respectively. The net change in the total valuation allowance adjustments for the year(s) ended December 31, 2019 was \$85,475,796. The AMT Credits will be fully refunded in future periods, due to the Tax Cuts and Jobs Act ("TJCA") that eliminated the corporate AMT for 2018 and future years. As the Company is going to receive a refund for its AMT credits by 2021, the amount is presented in income tax receivable.

D. Among the more significant book to tax adjustments were the following:

The Company's income tax incurred and change in deferred income tax differs from the amount obtained by applying the federal statutory rate of 35% to income before taxes as follows:

	Current Year	Prior Year
(1) Current Income Taxes Incurred	\$ (1,632,614)	\$ (463,908)
(2) Change In Deferred Income Tax (Without Tax on Unrealized Gains and Losses)	-	-
Tax on Capital Gain	1,838,060	
(3) Total Income Tax Reported	\$ 205,446	\$ (463,908)
(4) Income Before Taxes	\$(465,163,973) 21%	\$(496,806,89) 21%
(5) Expected Income Tax Expense (Benefit) at Statutory Rate	(97,684,434)	(104,329,448)
(6) Increase (Decrease) In Actual Tax Reported Resulting From:		
b. Amortization of IMR	668,110	(40,844,617)
c. Section 382 Adjustment	-	-
d. Deferred Tax Benefit on Nonadmitted Assets	2,019,508	696
e. Return to provision	205,446	(9,760,491)
f. Impact of tax reform rate change	-	53,355,419
g. AMT Credit Sequestration	85,475,796	149,480
h. Change in Valuation Allowance	9,521,020	(80,732,174)
i. Other		(652,144)
(7) Total Income Tax Reported	\$ 205,446	\$ (463,908)

E. Operating Loss Carryforwards and Income Taxes Available for Recoupment

- (1) As of December 31,2019, the Company has a \$256,523,608 operating loss carryforward which will begin to expire in 2031, an \$250,130,490 operating loss carryforward with an indefinite carryforward period and a \$2,060,618 AMT tax credit carryforward, which will be fully refunded by 2021. The Company also has a \$32,018,399 capital loss carryforward, which will begin to expire in 2023.
- (2) The amount of Federal income taxes incurred that are available for recoupment in the event of future net losses are \$0 as the TCJA eliminated loss carrybacks for life insurance companies.
- (3) The aggregate amount of deposits admitted under Section 6603 of the Internal Revenue Code are \$0.

F. Consolidated Federal Income Tax Return

- (1) The Company files a consolidated return with the following entities:

Senior Health Oversight Trust
Fuzion Analytics, Inc.

- (2) The Company is included in a consolidated federal income tax return with its parent company, Senior Health Care Oversight Trust and subsidiary, Fuzion Analytics, Inc. The Company has a written tax sharing agreement, approved by the Pennsylvania Insurance Department, which sets forth the manner in which the total combined federal tax income is allocated to each entity which is a party to the consolidation.

G. The Company does not believe that it is reasonably possible that the liability related to any federal or foreign tax loss contingency will significantly increase within the next 12 months.

NOTES TO FINANCIAL STATEMENTS

10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

- A. Effective August 20, 2019, Senior Health Oversight Trust ("Oversight Trust") contributed all of its issued and outstanding stock in its wholly-owned subsidiary, Fuzion Analytics, Inc. ("Fuzion"), to the capital of the Company, resulting in Fuzion becoming a wholly-owned subsidiary of the Company. The Company's affiliated investment, Fuzion, has a current equity position of \$2,975,269 for December 31, 2019, but is in draft form and could potentially increase by approximately \$1.1 million after the filing of the Company's Annual Statement.
- B. See Notes 10 F. and 10 I. below.
- C. As of December 31, 2019, the Company recognizes an equity valuation for Fuzion of \$2,975,269.
- D. At December 31, 2019, the Company reported a net receivable from Fuzion of \$49,541.

At December 31, 2019, the Company reported no receivable or payable from/to Oversight Trust.

Intercompany payables and receivables are settled on a monthly basis.
- E. There are no guarantees or undertakings concerning parent, subsidiaries, affiliates or other related parties.
- F. On March 1, 2014, the employees and operating assets of the Company were transferred to Fuzion in connection with the execution of a management services agreement under which Fuzion is responsible for the management of the Company's closed block of long-term care insurance business. First year fees under this agreement were fixed based on expenses the Company would have been expected to incur in the absence of the agreement. In the second and subsequent years of the agreement, fees decline based on the attrition of the Company's runoff block of long-term care business, subject to minimum and maximum annual decreases. The Company paid Fuzion \$12,778,644 and \$15,477,760 for services under this agreement in 2019 and 2018, respectively.
- G. See note 10A and 10F. above.
- H. See note 10A and 10F. above.
- I. The Company has no investments in SCA entities that exceeds 10 percent of admitted assets.
- J. The Company did not recognize any impairment write down for its investments in SCA entities during the statement period
- K. The Company has no investments in foreign insurance subsidiaries.
- L. The Company has an investment in downstream noninsurance holding companies, Fuzion Analytics, Inc.
- M.

11. Debt

- A. The Company has no debt.
- B. In 2015, the Company became a member of the Federal Home Loan Bank (FHLB) of Pittsburgh. To date, the Company has no borrowings with the FHLB.

NOTES TO FINANCIAL STATEMENTS

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. Defined Benefit Plan

The Company has no defined benefit plan.

B. Not applicable

C. Not applicable

D. Not applicable

E. Not applicable

F. Multiemployer Plans

The Company does not participate in a multiemployer plan.

G. Consolidated/Holding Company Plans

The Company does not participate in consolidated/holding company plans.

H. Postemployment Benefits and Compensated Absences

The Company does not offer post-employment benefits but, pursuant to a contract entered into by Conseco Life, provided health insurance coverage in 2019 for three retirees. This cost of this coverage has not been accrued because these benefits are life-contingent, non-accumulating and cannot be reasonably estimated.

I. Impact of Medicare Modernization Act on Postretirement Benefits

The FASB issued FASB Staff Position ("FSP") FAS 106-2, "Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003" ("FSP FAS 106-2") in May 2004. FSP FAS 106-2 provides guidance on accounting for the effects of the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the "Modernization Act"). The Modernization Act provides, among other things, a federal subsidy to plan sponsors who maintain postretirement health care plans that provide prescription drug benefits and meet certain equivalency criteria. FSP FAS 106-2 superseded FSP SAS 106-1, "Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003". The adoption of FSP FAS 106-2 did not have any impact on the Company's financial statements.

13. Capital and Surplus, Shareholders' Dividend Restrictions and Quasi-Reorganizations

- (1) The Company's capital consists of 200,000 common shares authorized and 166,667 issued and outstanding with a par value of \$15 per share.
- (2) The Company has 20,000 preferred shares authorized and 5,000 issued and outstanding, with a stated value of \$1,000 per share.
- (3) The Company may not pay any dividends without the prior written approval of the Pennsylvania Insurance Department.
- (4) The Company paid no dividends to shareholders during 2019.
- (5) See Note No.13 (3) above.
- (6) The Company's parent, the Oversight Trust, is governed by an independent Board of Trustees comprised of former insurance regulators and financial experts. The Oversight Trust's purpose is to support the solvency of the Company and the interests of its policyholders. The Company and the Oversight Trust are subject to the oversight of the Pennsylvania Insurance Department in accordance with an order issued by the Pennsylvania Insurance Department on November 12, 2008.
- (7) During 2019, the Company had no advances to surplus.
- (8) During 2019, the Company held no stock for special purposes.
- (9) During 2019, the Company had no special surplus funds.
- (10) As of December 31, 2019, the portion of unassigned funds (surplus) represented or increased by cumulative net unrealized gains was \$828,998.
- (11) The Company issued a surplus note ("Note") on February 19, 2015 to Beechwood Re Investments, LLC for cash. Payment of principal and interest on the Note is not guaranteed and such payment is subordinated to claims of all policyholders, creditors, and other liabilities of the Company. Interest and principal payments on the Note require prior approval of the Commissioner.

Date Issued	Interest Rate	Par Value	Carrying Value	Interest And Principal Paid Current Year	Total Interest and/or Principal Paid	Unapproved Interest and/or Principal	Date of Maturity
2/19/2015	6.0%	\$50,000,000	\$50,000,000	-	-	\$11,550,000	04/01/2020

(12,13) The Company has not restated surplus due to a quasi-reorganization.

NOTES TO FINANCIAL STATEMENTS

14. Liabilities, Contingencies and Assessments

A. Contingent Commitments

- (1) The Company has not made any guarantees or undertakings for the benefit of an affiliate that would result in a material contingent exposure of the Company's or any affiliated insurer's assets to liability.
- (2) The Company does not have any credit facility commitments at December 31, 2019.
- (3) The Company has two credit facilities with Alliance Bernstein Private Credit Investors Middle Market Direct Lending Fund, L.P. The Company currently has investments of \$22,500,000 and remaining commitments of \$2,250,000 as of December 31, 2019. The Company no longer participates in new investments after December 31, 2018, however, the existing credit facilities may continue to have capital commitments according to the terms of the applicable loan documents. Alliance Bernstein anticipates full repayment of the debt obligations under the existing facilities over the next two years.

B. Assessments

- (1) The Company has recorded a liability of \$52,739 for guaranty fund assessments on several insolvencies as of December 31, 2019. This amount represents estimated obligations to state guaranty funds to provide for covered claims and other insurance obligations of insolvent insurers, net of the estimated offset to future premium taxes. The period over which the assessments are anticipated to be funded varies by insolvency and is difficult to predict.

The Company's estimate of probable recoveries of prior payments through premium tax credits is \$967,227 and is recorded as an asset. The period over which the credits are realized varies by state but typically ranges from five to ten years.

- (2) Assessments:

Assets recognized from paid and accrued premium tax offsets and policy surcharges, prior year end	\$ 1,448,680
Increases:	
Premium tax offsets recognized from current year assessments paid	\$ 79,112
Decreases:	
Premium tax offsets applied	\$ 201,761
Change in accrued assessment liability	\$ 117,292
Assets recognized from paid and accrued premium tax offsets and policy surcharges, current year end	\$ 1,208,738

- (3) Guaranty Fund Liabilities and Assets Related to Assessments from Insolvencies of Entities that Write Long-Term Care
- a. Discount Rate Applied: Not Applicable

b. The Undiscounted and Discounted Amount of the Guaranty Fund Assessment and Related Assets by Insolvency are presented in the following table:

Name of the Insolvency	Guaranty Fund Assessment		Related Assets	
	Undiscounted	Discounted	Undiscounted	Discounted
Penn Treaty Network American Insurance Co	\$ 1,156,420	\$ -	\$ 890,073	\$ -
American Network Insurance Co	65,885	-	53,631	-
Senior American Insurance Co	6,830	-	6,584	-
Total	\$ 1,229,136	\$ -	\$ 950,288	\$ -

c. Number of Jurisdictions, Ranges of Years Used to Discount and Weighted Average Number of Years of the Discounting Time Period for Payables and Recoverables by Insolvency: Not Applicable

C. Gain Contingencies

The Company has not reported all benefits from an Investment Management Services agreement that had a guaranteed return of 5.85% on all assets due to the counterparties inability to fulfill their obligation to pay the interest. However, management continues to proceed in collecting the interest owed to the Company.

D. Claims Related Extra Contractual Obligation ("ECO") and Bad Faith Losses Stemming From Lawsuits

The Company has no ECO and Bad Faith Losses Stemming from Lawsuits.

E. Joint and Several Liabilities

The Company has no joint and several liability arrangements.

NOTES TO FINANCIAL STATEMENTS

14. Liabilities, Contingencies and Assessments, continued

F. All Other Contingencies

- (1) Various lawsuits against the Company arise in the course of the Company's business. On December 19, 2018, the Receiver for Platinum Partners Credit Opportunities Funds filed an action against the Company, its affiliate Fuzion Analytics, Inc., Beechwood entities and others in the United States District Court for the Southern District of New York captioned *Melanie L. Cyganowski, as Equity Receiver for Platinum Partners Credit Opportunities Master Fund LP, et al. v. Beechwood RE Ltd., et al* ("PPCO Receiver Action"). The Company believes that this claim is not estimable at this time and has been tendered to the Company's insurance carrier. The Company is vigorously defending this matter. SHIP's motion for Summary Judgement was filed on February 14, 2020, which remains pending. In a related action, Company filed third party claims and crossclaims against a number of Beechwood and Platinum individuals and entities on April 19, 2019. Company has reached a settlement in principle for those third party claims and crossclaims. Notwithstanding the foregoing, an unfavorable resolution in the larger PPCO Receiver Action could have an adverse impact on the Company's financial position. The Company has a recorded value of \$3.3 million for the PPCO asset, which could change as a result of the pending litigation.
- (2) On June 24, 2019 the Company was served with a complaint filed on June 7, 2019 by the Joint Official Liquidators of Platinum Partners Value Arbitrage Fund against the Company in Delaware State Court captioned Principal Growth Strategies, LLC, a Delaware limited liability company; Platinum Partners Value Arbitrage Fund L.P. (in Official Liquidation), a Cayman Islands exempted limited partnership; and Martin Trott & Christopher Smith, Joint Official Liquidators of Platinum Partners Value Arbitrage Fund, L.P. (in official liquidation) v. AGH Parent LLC; Senior Health Insurance Company of Pennsylvania, et al. (the "PPVA Action"). Plaintiffs allege that several transactions involving Agera Energy resulted plaintiff Principal Growth Strategies losing its interests in Agera Energy in exchange for worthless Platinum Funds. Plaintiffs allege the Agera-related transactions were conceived by Beechwood and Platinum Partners insiders to benefit alleged Beechwood preferred investor clients, including the Company. The lawsuit has been removed to Delaware federal court, but a motion to remand is pending. The Company believes that this claim is not estimable at this time and it has been tendered to the Company's insurance carrier. The Company plans to vigorously defend this matter. Nevertheless, an unfavorable resolution could have an adverse impact on the Company's financial position.
- (2) On April 10, 2019, David Levy filed a complaint against the Company in the United States District Court for the Southern District of New York captioned David Levy v. Senior Health Insurance Company of Pennsylvania ("Levy advancement action") seeking indemnification and advancement for his legal fees incurred in connection with various third-party actions filed against him, including the above-referenced PPCO Action and PPVA Action, pursuant to provisions in the Investment Management Agreements entered into between the Company and Beechwood entities. Contemporaneously with filing the complaint, Levy also filed a Motion for a Preliminary Injunction seeking the immediate advancement of legal fees incurred by him in connection with the third-party actions. On May 13, 2019, in the preliminary injunction, the court found that Levy is entitled to advancement of third-party claims, but limited fees to only those incurred in defending allegations of conduct by Levy in his role as investment adviser to the Company while an officer of Beechwood. On July 9, 2019, Levy was convicted of fraud and conspiracy to commit fraud in connection with the same scheme for which the court ordered the Company to advance litigation expenses. Following the jury's verdict, the Company moved for and was granted summary judgment in the Levy advancement action on the basis that Levy's criminal conduct eliminated any entitlement to indemnification or advancement. In light of the criminal conviction, on August 7, 2019, the Company filed its notice of appeal of the Preliminary Injunction ruling regarding advancement and posted a bond with the registry of the court in the amount of \$765,630. In late September 2019, the judge in Levy's criminal trial granted Levy a post-trial acquittal, which the government has appealed. In light of the appeal of the criminal action, on January 22, 2020, the parties filed a Joint Motion to Stay the Appeal of the Preliminary Injunction Pending Outcome of Pending Criminal Appeal. On February 20, 2020, the court granted the Company's voluntary dismissal and request to withdraw the \$765,360 from the registry of the Court, plus interest, less any administrative fees. This settlement has not been reflected in the December 31, 2019 financial statement and will be recorded in 2020.
- (3) On May 16, 2019, several Beechwood entities and individuals filed an action for advancement and indemnification for third-party expenses, along with a motion for summary judgment on the advancement claim in the United States District Court of the Southern District of New York captioned BAM et al. v. Senior Health Insurance Company. Similar to the Levy action, the court granted the Beechwood Parties' motion for summary judgment for third-party expenses, which the Company appealed. The parties have reached a settlement in principle which makes the appeal moot. By Order dated February 22, the court ordered that the Company's deposit of \$519,252.81, plus interest, less any administrative fees, be returned. This settlement has not been reflected in the December 31, 2019 financial statement and will be recorded in 2020.
- (4) Under an assignment agreement effective October 1, 2008 with Conseco Life Insurance Company ("Conseco Life"), all the assets and liabilities pertaining to the Company's non-long-term care business were assigned and assumed by Conseco Life. The Company remains contingently liable for the assigned business in the event Conseco Life fails to perform its obligations under the assignment agreement. In recognition of this liability, Conseco Life is required to maintain assets in a trust account of which the Company is beneficiary, with an aggregate fair market value equal to the estimated reserves of the assigned business. Assets are deposited or withdrawn from the trust on a quarterly basis as needed to maintain the aggregate market value of the trust assets. As of December 31, 2019, the required trust amount was \$152,701,732. The market value of trust assets was \$154,131,222.

15. Leases

A. Lessee Leasing Arrangements

- (1) The Company has no lessee leasing arrangements.
- (2) The Company has no initial or remaining noncancelable lessee terms in excess of one year.
- (3) The Company has no sale-leaseback transactions.

B. Lessor Leasing Arrangements

- (1) The Company has no operating leases as a significant part of its business activity.

NOTES TO FINANCIAL STATEMENTS

(2) The Company has no leveraged leases.

16. Information About Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk

The Company does not have any financial instruments with off-balance sheet risk.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

- A. During 2019, the Company had no transfers of receivables reported as sales.
- B. Transfer and Servicing of Financial Assets
 - (1) During 2019, the Company had no transfers or servicing of financial assets.
 - (2) During 2019, the Company had no transfers or servicing of financial assets and liabilities.
 - (3) During 2019, the Company had no transfers or servicing of financial assets and liabilities.
 - (4) During 2019, the Company had no asset-backed financing arrangements and similar transfers accounted for as sales.
 - (5) During 2019, the Company had no transfers of financial assets accounted for as secured borrowing.
 - (6) During 2019, the Company had no transfers of receivables with recourse.
 - (7) During 2019, the Company had no securities subject to repurchase and reverse repurchase agreements.
- C. Wash Sales

During 2019, the Company had no securities with NAIC designation 3 or below which were sold and reacquired within 30 days of the sale date.

18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Portion of Partially Insured Plans

- A. The Company does not serve as administrator of any ASO plans.
- B. The Company does not serve as administrator of any ASC plans.
- C. The Company has no Medicare or similarly structured cost-based reimbursement contracts.

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

The Company does not have any direct premiums written by managing general agents or third-party administrators.

NOTES TO FINANCIAL STATEMENTS

20. Fair Value Measurement

A. The Company’s valuation techniques and the inputs used to develop the fair value measurements are as follows:

- Pricing Level 1 – Valuations are based on unadjusted quoted prices in active markets for identical assets that our pricing sources have the ability to access. Since the valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant amount or degree of judgment.
- Pricing Level 2 – Valuations based upon quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, or valuations based on models where the significant inputs are observable (e.g. interest rates, yield curves, prepayment speeds, default rates, loss severities), or can be corroborated by observable market data.
- Pricing Level 3 – Valuations that are derived from techniques in which one or more of the significant inputs are unobservable, including broker quotes which are non-binding.

(1) Fair Value Measurement as of December 31, 2019.

Description for each class of asset or liability	Level 1	Level 2	Level 3	Net Asset Value (NAV)	Total
a. Assets carried at fair value					
Bonds					
Industrial & Misc.	\$ -	\$ -	\$ -	\$ -	\$ -
Total Bonds	\$ -	\$ -	\$ -	\$ -	\$ -
Common Stock					
Industrial & Misc. Other	\$ -	\$ 513,300	\$ -	\$ -	\$ 513,300
Industrial & Misc. Publicly Traded	\$ -	\$ -	\$ 89,817	\$ -	\$ 89,817
Parent, Subs, & Affiliates	\$ -	\$ -	\$ 2,975,269	\$ -	\$ 2,975,269
Total Common Stock	\$ -	\$ 513,300	\$ 3,065,086	\$ -	\$ 3,578,386
Money Market Funds					
Exempt Money Market Funds	\$ 41,843,393	\$ -	\$ -	\$ -	\$ 41,843,393
Other Money Market Funds	11,795,000	-	-	-	11,795,000
Total Money Market Funds	\$ 53,638,393	\$ -	\$ -	\$ -	\$ 53,638,393
Total Assets carried at fair value	\$ 53,638,393	\$ 513,300	\$ 3,065,086	\$ -	\$ 57,216,779

(2) Following is a reconciliation of the opening balances to the closing balances for fair value measurements categorized within Level 3 of the fair value hierarchy.

Description	Beginning Balance at 01/01/2019	Transfers into Level 3	Transfers out of Level 3	Total gains and (losses) included in Net Income	Total gains and (losses) included in Surplus	Purchases	Issuances	Sales	Settlements	Ending Balance at 12/31/2019
Assets										
Bonds	\$ -	-	-	-	-	-	-	-	-	-
Common Stock	106,627	-	-	(690)	461,179	2,497,970	-	-	-	3,065,086
Total	\$106,627	-	-	\$(690)	\$461,179	\$2,497,970	-	-	-	\$3,065,086

- (3) Pricing level changes are infrequent and occur when the Company’s widely accepted pricing service provider is not able to determine a price on observable inputs, in which case the Company uses broker quotes which may use unobservable inputs.
- (4) See Note 20 A.
- (5) The Company had no derivative activity in 2019 or 2018.
- B. The Company reports only on a statutory basis, hence there are no other fair value disclosures.

ELECTRONICALLY FILED - 2021 Aug 23 4:56 PM - RICHLAND - COMMON PLEAS - CASE#2020CP4005802

NOTES TO FINANCIAL STATEMENTS

20. Fair Value Measurement, continued

C. Aggregate fair value for all financial instruments.

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)
Bonds	1,803,159,678	1,721,888,231	2,299,806	1,756,233,799	44,626,073	
Common Stock	3,578,386	3,578,386	-	513,300	3,065,086	-

Mortgage Loans	13,530,338	12,681,751	-	-	13,530,338	-
Cash Equivalents	53,638,393	53,638,393	53,638,393	-	-	-
Surplus Notes	1,712,669	1,645,981	-	1,712,669	-	-
Other Invested Assets	20,188,946	10,719,726	-	-	20,188,946	-

- D. Not applicable
- E. At December 31, 2019, the Company did not hold any investments using the NAV practical expedient pursuant to SSAP No. 100R – Fair Value.

21. Other Items

A. Unusual or Infrequent Items

During 2019 and 2018, there were no unusual or infrequent items.

B. Troubled Debt Restructuring

The Company had no troubled debt restructuring.

C. Other Disclosures

- (1) Assets with statement values totaling \$18,726,442 and \$19,834,582 at December 31, 2019 and 2018, respectively, were on deposit with government authorities or trustees as required by law.
- (2) The Pennsylvania Department of Insurance has approved a permitted practice to a one-time release of the Interest Maintenance Reserve ("IMR") of \$192.502,234 million effective January 1, 2018. This permitted practice also created a premium deficiency reserve of \$120,000,000 million which ultimately increased surplus a net \$72,576,741 million between the two transactions.
- (3) On September 28, 2018, the Bruckner Investment Trust Class A and Class B Notes were terminated in exchange for the transfer to the Company of Sutton Capital Trust securities and a cash payment. The termination of the Bruckner Class A and B Notes resulted in a net loss to the Company of \$9,916,628.
- (4) In order to meet the Equity Limited Partnership threshold according to the Pennsylvania Investment statute, the Company nonadmitted \$9,916,628 of its holdings in Alliance Bernstein Private Credit Investors Middle Market Direct Lending Fund, L.P. The Company holds this investment at \$19,435,088 based upon the October 31, 2019 statements at fair market value (FMV). The December 31, 2019 financial statements received late February reflect a FMV of \$17,706,269 and the change in value of \$1.7 million will be recorded in 2020.
- (5) On July 24, 2018, Senior Health Insurance Company of Pennsylvania ("SHIP") filed a Complaint in the United States District Court for the Southern District of New York entitled Senior Health Insurance Company of Pennsylvania v. Beechwood Re Ltd., B Asset Manager, L.P., Beechwood Bermuda International, Ltd., Beechwood Re Investments, LLC a/k/a Beechwood Re Investors, LLC, Illumin Capital Management, LP, Moshe M. Feuer a/k/a Mark Feuer, Scott A. Taylor, David I. Levy, Dhruv Narain, and John Does 1-20, Case No. 1:18-cv-6658 (JSR) seeking damages for breach of three Investment Management Agreements, fraud, gross negligence, unjust enrichment, and conspiracy (the "SHIP Action"). SHIP filed amended complaints in the SHIP Action on December 14, 2018 and December 28, 2018. The action is currently stayed as to defendant David Levy due to a pending criminal matter. Fact and expert discovery in the SHIP Action as to the remaining parties is now complete. The final pretrial conference is set for April 2, 2020.

ELECTRONICALLY FILED - 2021 Aug 23 4:56 PM - RICHLAND - COMMON PLEAS - CASE#2020CP4005802

NOTES TO FINANCIAL STATEMENTS

21. Other Items, continued

(6) On July 31, 2019 the Company filed litigation in the United States District Court for the Southern District of New York captioned Senior Health Insurance Company of Pennsylvania v. Lincoln International LLC, Lincoln Advisors LLC. The Company filed a Second Amended Complaint on October 31, 2019 seeking damages for aiding and abetting fraud, aiding and abetting breach of fiduciary duty, conspiracy and contribution and indemnity and unjust enrichment/constructive trust. On February 14, 2020, Defendants moved for Summary Judgement. Company's opposition to Defendants Motion for Summary Judgement is due March 6, 2020.

- D. The Company had no business interruption insurance recoveries.
- E. The Company had no state transferable or non-transferable tax credits at December 31, 2019.
- F. Subprime Mortgage Related Risk Exposure

- (1) The company has exposure to subprime lending in the fixed maturity (bond) investment portfolio, which contains securities collateralized by mortgages that have characteristics of subprime lending such as low FICO score, adjustable rate mortgages and alternative documentation mortgages. These investments are in the form of asset-backed securities and collateralized mortgage obligations which are collateralized by subprime mortgages. The Company reviews its mortgage-backed investments for other than temporary impairments and records losses to the extent it believes it is probable that not all payments due under these investments will be collected subject to the Company's ability and intent to hold these investments to a point of recovery. The risk to subprime mortgage investments is mitigated through portfolio diversification.
- (2) The Company had no direct investments in subprime mortgage loans at December 31, 2019.
- (3) At December 31, 2019, the Company had subprime mortgage related risk exposure through mortgage-backed securities as presented below:

Direct Exposure Through Other Investments:

	Actual Cost	Book/Adjusted Carrying Value (excluding interest)	Fair Value	OTTI Losses Recognized
Residential mortgage-backed securities	\$ 868,704	\$ 854,534	\$ 886,263	\$ -

- (4) The Company does not write Mortgage Guaranty or Financial Guaranty insurance.

- G. The Company has no retained assets for 2019 and 2018.
 - H. Insurance-Linked Securities (ILS) Contracts
- The Company has no insurance-linked securities (ILS) contracts.

22. Events Subsequent

(A) On February 27, 2019, as required under 40 P.S. §443 (a), SHIP filed its Risk-Based Capital ("RBC") report reflecting total adjusted capital of -\$466,814,972, placing the Company below the "mandatory control level." As a result, on July 30, 2019, a majority of the Oversight Trust Trustees voted to give consent to rehabilitation of the Company and to waive the hearing contemplated by 40 P.S. §221.15. On that same date, a majority of the directors of the Company voted to give consent to rehabilitation of the Company and to waive the hearing contemplated by 40 P.S. §221.15. On January 23, 2020, the Insurance Commissioner of the Commonwealth of Pennsylvania filed an Application in the Commonwealth Court of Pennsylvania seeking to place the Company in rehabilitation pursuant to 40 P.S. §221.1 to §221.63 on the ground that rehabilitation was consented to by the Trustees of the Oversight Trust Trustees and directors of the Company. By Order dated January 29, 2020, the Commonwealth Court of Pennsylvania granted the Application and the Company was placed into rehabilitation.

NOTES TO FINANCIAL STATEMENTS

23. Reinsurance

A. Ceded Reinsurance Report
Section 1 - General Interrogatories

1.

Are any of the reinsurers, listed in Schedule S as non-affiliated, owned in excess of 10% or controlled, either directly or indirectly, by the Company or by any representative, officer, trustee, or director of the Company?
Yes (☐) No (☒) If yes, give full details.
2.

Have any policies issued by the Company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or an insured or any other person not primarily engaged in the insurance business?
Yes (☐) No (☒) If yes, give full details.

Section 2 - Ceded Reinsurance Report - Part A

1.

Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits?
Yes (☐) No (☒)

a.

If yes, what is the estimated amount of the aggregate reduction in surplus of a unilateral cancellation by the reinsurer as of the date of this statement, for those agreements in which cancellation results in a net obligation of the Company to the reinsurer, and for which such obligation is not presently accrued? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making this estimate.

b.

What is the total amount of reinsurance credits taken, whether as an asset or as a reduction of liability, for these agreements in this statement?
2.

Does the Company have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies?
Yes (☐) No (☒)
If yes, give full details.

Section 3 - Ceded Reinsurance Report - Part B

1.

What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2 above) of termination of ALL reinsurance agreements, by either party, as of the date of the statement? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making the estimate. \$0
2.

Have any new agreements been executed, or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts that were in force or which had existing reserves established by the Company as of the effective date of the agreement?
Yes (☐) No (☒)

If yes, what is the amount of reinsurance credits, whether an asset or a reduction of liability, taken for such new agreements or amendments? \$ 0

B. Uncollectible Reinsurance

Effective January 1, 2018, the Roebling reinsurance treaty was terminated, resulting in a write-off of \$11,626,473, all of which was unauthorized in 2017.

C. Commutation of Ceded Reinsurance

During 2019, the Company did not report any income or expenses as a result of commutation of reinsurance.

D. Reporting Entity Ceding to Certified Reinsurer Whose Rating was Downgraded or Status Subject to Revocation

The Company has had no certified reinsurers ratings downgraded or status subject to revocation.

E. The Company has no reinsurance of variable annuity contracts with an affiliated captive reinsurer.

F. The Company has no reinsurance agreements with an affiliated captive reinsurer.

G. The Company does not utilize captives to assume reserves.

24. Retrospectively Rated Contracts & Contracts Subject to Redetermination

The Company has no retrospectively rated contracts or contracts subject to redetermination.

NOTES TO FINANCIAL STATEMENTS

25. Change in Incurred Losses and Loss Adjustment Expenses

Gross of Reinsurance

Reserves as of December 31, 2018 were \$959,644,499. As of December 31, 2019, gross payments of \$317,253,364, discounted to December 31, 2018, have been made for incurred losses and estimated waiver of premium to insured events of prior years. Reserves remaining for prior years are now \$634,244,696, discounted to December 31, 2018, as a result of re-estimation of unpaid claims and claim adjustment expenses on the long- term care line of insurance. Thus, there has been an \$8,146,439 favorable prior year development on an annual basis from December 31, 2018 to December 31, 2019. As additional information becomes known on individual claims experience, the original estimates are adjusted accordingly. None of the Company's accident and health contracts are subject to retrospective rating or experience refunds.

26. Intercompany Pooling Arrangements

The Company is not part of an affiliated intercompany pooling arrangement.

27. Structured Settlements

The Company has not reduced reserves through the purchase of an annuity as part of a structured settlement.

28. Health Care Receivables

The Company has no pharmaceutical rebate receivables or risk sharing receivables.

29. Participating Policies

The Company has no participating policies.

30. Premium Deficiency Reserves

Premium deficiency reserves were necessary.

1) Liability carried for premium deficiency reserves	\$ 636,536,749
2) Date of most recent evaluation of this liability	12/31/2019
3) Was anticipated investment income utilized in the calculation?	Yes [x] No []

31. Reserves for Life Contracts and Deposit-type Contracts

The Company had no life contracts or annuity contracts in force as of December 31, 2019.

32. Analysis of Annuity Actuarial Reserves and Deposit Liabilities by Withdrawal Characteristics

The Company had no annuity contracts in force and had no deposit-type liabilities as of December 31, 2019.

33. Premium and Annuity Considerations Deferred and Uncollected

The Company had no life contracts or annuity contracts in force as of December 31, 2019.

34. Separate Accounts

The Company had no separate accounts at December 31, 2019.

35. Loss/Claim Adjustment Expenses

The balance in the liability for unpaid accident and health claim adjustment expenses as of December 31, 2019 and 2018 was \$20,947,086 and \$21,543,776, respectively. The Company incurred \$10,305,677 on a net basis and paid \$11,090,455 of net claim adjustment expenses in the current year, of which \$1,260,431 of the paid amount was attributable to insured or covered events of prior years. The Company did not increase or decrease the provision for insured events of prior years. The Company does not take into account any anticipated salvage and subrogation in its determination of the liability for unpaid claims/losses.

Annual Statement for the year 2019 of the **Senior Health Insurance Company of Pennsylvania**

GENERAL INTERROGATORIES

PART 1 - COMMON INTERROGATORIES

GENERAL

1.1

Is the reporting entity a member of an Insurance Holding Company System consisting of two or more affiliated persons, one or more of which is an insurer?
If yes, complete Schedule Y, Parts 1, 1A and 2.

Yes [X] No []

1.2

If yes, did the reporting entity register and file with its domiciliary State Insurance Commissioner, Director or Superintendent or with such regulatory official of the state of domicile of the principal insurer in the Holding Company System, a registration statement providing disclosure substantially similar to the standards adopted by the National Association of Insurance Commissioners (NAIC) in its Model Insurance Holding Company System Regulatory Act and model regulations pertaining thereto, or is the reporting entity subject to standards and disclosure requirements substantially similar to those required by such Act and regulations?

Yes [X] No [] N/A []

1.3

State regulating? PENNSYLVANIA

1.4

Is the reporting entity publicly traded or a member of publicly traded group?

Yes [] No [X]

1.5

If the response to 1.4 is yes, provide the CIK (Central Index Key) code issued by the SEC for the entity/group.

2.1

Has any change been made during the year of this statement in the charter, by-laws, articles of incorporation, or deed of settlement of the reporting entity?

Yes [] No [X]

2.2

If yes, date of change:

3.1

State as of what date the latest financial examination of the reporting entity was made or is being made.

12/31/2018

3.2

State the as of date that the latest financial examination report became available from either the state of domicile or the reporting entity. This date should be the date of the examined balance sheet and not the date the report was completed or released.

12/31/2018

3.3

State as of what date the latest financial examination report became available to other states or the public from either the state of domicile or the reporting entity. This is the release date or completion date of the examination report and not the date of the examination (balance sheet date).

12/31/2018

3.4

By what department or departments?
PENNSYLVANIA

3.5

Have all financial statement adjustments within the latest financial examination report been accounted for in a subsequent financial statement filed with departments?

Yes [] No [] N/A [X]

3.6

Have all of the recommendations within the latest financial examination report been complied with?

Yes [X] No [] N/A []

4.1

During the period covered by this statement, did any agent, broker, sales representative, non-affiliated sales/service organization or any combination thereof under common control (other than salaried employees of the reporting entity) receive credit or commissions for or control a substantial part (more than 20 percent of any major line of business measured on direct premiums) of:

4.11

sales of new business?

Yes [] No [X]

4.12

renewals?

Yes [] No [X]

4.2

During the period covered by this statement, did any sales/service organization owned in whole or in part by the reporting entity or an affiliate, receive credit or commissions for or control a substantial part (more than 20 percent of any major line of business measured on direct premiums) of:

4.21

sales of new business?

Yes [] No [X]

4.22

renewals?

Yes [] No [X]

5.1

Has the reporting entity been a party to a merger or consolidation during the period covered by this statement?

Yes [] No [X]

5.2

If the answer is YES, complete and file the merger history data file with the NAIC.

5.2

If yes, provide the name of entity, NAIC company code, and state of domicile (use two letter state abbreviation) for any entity that has ceased to exist as a result of the merger or consolidation.

1	2	3
Name of Entity	NAIC Company Code	State of Domicile

6.1

Has the reporting entity had any Certificates of Authority, licenses or registrations (including corporate registration, if applicable) suspended or revoked by any governmental entity during the reporting period?

Yes [X] No []

6.2

If yes, give full information:
Subsequent to the 2018 Annual Statement filing, certificates of authority in the following states have been suspended: Alaska, Arizona, Idaho, Iowa, Kentuck, Oregon, Virginia, Washington, West Virginia, and Wyoming

7.1

Does any foreign (non-United States) person or entity directly or indirectly control 10% or more of the reporting entity?

Yes [] No [X]

7.2

If yes,

7.21

State the percentage of foreign control

%

7.22

State the nationality(s) of the foreign person(s) or entity(s); or if the entity is a mutual or reciprocal, the nationality of its manager or attorney-in-fact and identify the type of entity(s) (e.g., individual, corporation, government, manager or attorney-in-fact).

1	2
Nationality	Type of Entity

8.1

Is the company a subsidiary of a bank holding company regulated with the Federal Reserve Board?

Yes [] No [X]

8.2

If response to 8.1 is yes, please identify the name of the bank holding company.

8.3

Is the company affiliated with one or more banks, thrifts or securities firms?

Yes [] No [X]

8.4

If the response to 8.3 is yes, please provide below the names and locations (city and state of the main office) of any affiliates regulated by a federal financial regulatory services agency [i.e. the Federal Reserve Board (FRB), the Office of the Comptroller of the Currency (OCC), the Federal Deposit Insurance Corporation (FDIC) and the Securities Exchange Commission (SEC)] and identify the affiliate's primary federal regulator.

1	2	3	4	5	6
Affiliate Name	Location (City, State)	FRB	OCC	FDIC	SEC

9.

What is the name and address of the independent certified public accountant or accounting firm retained to conduct the annual audit?
Eide Bailly, LLP, 800 Nicollet Mall, Ste. 1300, Minneapolis, MN 55402-7033

10.1

Has the insurer been granted any exemptions to the prohibited non-audit services provided by the certified independent public accountant requirements as allowed in Section 7H of the Annual Financial Reporting Model Regulation (Model Audit Rule), or substantially similar state law or regulation?

Yes [] No [X]

10.2

If the response to 10.1 is yes, provide information related to this exemption:

10.3

Has the insurer been granted any exemptions related to other requirements of the Annual Financial Reporting Model Regulation as allowed for in Section 18A of the Model Regulation, or substantially similar state law or regulation?

Yes [] No [X]

10.4

If the response to 10.3 is yes, provide information related to this exemption:

Annual Statement for the year 2019 of the **Senior Health Insurance Company of Pennsylvania**

GENERAL INTERROGATORIES

PART 1 - COMMON INTERROGATORIES

23.2 If yes, indicate any amounts receivable from parent included in the Page 2 amount: \$

INVESTMENT

24.01 Were all the stocks, bonds and other securities owned December 31 of current year, over which the reporting entity has exclusive control, in the actual possession of the reporting entity on said date (other than securities lending programs addressed in 24.03)? Yes [X] No []

24.02 If no, give full and complete information, relating thereto:

24.03 For security lending programs, provide a description of the program including value for collateral and amount of loaned securities, and whether collateral is carried on or off-balance sheet (an alternative is to reference Note 17 where this information is also provided).

24.04 Does the company's security lending program meet the requirements for a conforming program as outlined in the *Risk-Based Capital Instructions*? Yes [] No [] N/A [X]

24.05 If answer to 24.04 is yes, report amount of collateral for conforming programs. \$

24.06 If answer to 24.04 is no, report amount of collateral for other programs \$

24.07 Does your securities lending program require 102% (domestic securities) and 105% (foreign securities) from the counterparty at the outset of the contract? Yes [] No [] N/A [X]

24.08 Does the reporting entity non-admit when the collateral received from the counterparty falls below 100%? Yes [] No [] N/A [X]

24.09 Does the reporting entity or the reporting entity's securities lending agent utilize the Master Securities Lending Agreement (MSLA) to conduct securities lending? Yes [] No [] N/A [X]

24.10 For the reporting entity's security lending program, state the amount of the following as of December 31 of the current year:

24.101 Total fair value of reinvested collateral assets reported on Schedule DL, Parts 1 and 2: \$

24.102 Total book adjusted/carrying value of reinvested collateral assets reported on Schedule DL, Parts 1 and 2: \$

24.103 Total payable for securities lending reported on the liability page: \$

25.1 Were any of the stocks, bonds or other assets of the reporting entity owned at December 31 of the current year not exclusively under the control of the reporting entity or has the reporting entity sold or transferred any assets subject to a put option contract that is current in force? (Exclude securities subject to Interrogatory 21.1 and 24.03.) Yes [X] No []

25.2 If yes, state the amount thereof at December 31 of the current year:

25.21 Subject to repurchase agreements \$

25.22 Subject to reverse repurchase agreements \$

25.23 Subject to dollar repurchase agreements \$

25.24 Subject to reverse dollar repurchase agreements \$

25.25 Placed under option agreements \$

25.26 Letter stock or securities restricted as sale – excluding FHLB Capital Stock \$

25.27 FHLB Capital Stock \$ 513,300

25.28 On deposit with states \$ 18,762,440

25.29 On deposit with other regulatory bodies \$

25.30 Pledged as collateral – excluding collateral pledged to an FHLB \$

25.31 Pledged as collateral to FHLB – including assets backing funding agreements \$

25.32 Other \$

25.3 For category (25.26) provide the following:

1 Nature of Restriction	2 Description	3 Amount
		\$

26.1 Does the reporting entity have any hedging transactions reported on Schedule DB? Yes [] No [X]

26.2 If yes, has a comprehensive description of the hedging program been made available to the domiciliary state? Yes [] No [] N/A [X]
If no, attach a description with this statement.

Lines 26.3 through 26.5: FOR LIFE/FRATERNAL REPORTING ENTITIES ONLY:

26.3 Does the reporting entity utilize derivatives to hedge variable annuity guarantees subject to fluctuations as a results of interest rate sensitivity? Yes [] No [X]

26.4 If the response to 26.3 is yes, does the reporting entity utilize:

26.41 Special accounting provision of SSAP No. 108 Yes [] No []

26.42 Permitted accounting practice Yes [] No []

26.43 Other accounting guidance Yes [] No []

26.5 By responding yes to 26.41 regarding utilizing the special accounting provisions of SSAP No. 108, the reporting entity attests to the following: Yes [] No []

- The reporting entity has obtained explicit approval from the domiciliary state.
- Hedging strategy subject to the special accounting provisions is consistent with the requirements of VM-21.
- Actuarial certification has been obtained which indicates that the hedging strategy is incorporated within the establishment of VM-21 reserves and provides the impact of the hedging strategy within the Actuarial Guidance Conditional Tail Expectation Amount.
- Financial Officer Certification has been obtained which indicates that the hedging strategy meets the definition of a Clearly Defined Hedging Strategy within VM-21 and the Clearly Defined Hedging Strategy is the hedging strategy being used by the company in its actual day-to-day risk mitigation efforts.

- 30.4 Describe the sources or methods utilized in determining the fair values:
See Fair Value Disclosure in Note 20.A of Notes to Financial Statement
- 31.1 Was the rate used to calculate fair value determined by a broker or custodian for any of the securities in Schedule D? Yes [☒] No [☐]
- 31.2 If the answer to 31.1 is yes, does the reporting entity have a copy of the broker's or custodian's pricing policy (hard copy or electronic copy) for all brokers or custodians used as a pricing source? Yes [☐] No [☒]
- 31.3 If the answer to 31.2 is no, describe the reporting entity's process for determining a reliable pricing source for purposes of disclosure of fair value for Schedule D:
Prices are obtained from the dealer/market makers for these securities. These prices are non-binding but represent the best estimate of fair value per market conditions
- 32.1 Have all the filing requirements of the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* been followed? Yes [☒] No [☐]
- 32.2 If no, list exceptions:

33. By self-designating 5GI securities, the reporting entity is certifying the following elements for each self-designation 5GI security:
- a. Documentation necessary to permit a full credit analysis of the security does not exist or an NAIC CRP credit rating for an FE or PL security is not available.

b. Issuer or obligor is current on all contracted interest and principal payments.

c. The insurer has an actual expectation of ultimate payment of all contracted interest and principal.
- Has the reporting entity self-designated 5GI securities? Yes [☐] No [☒]
34. By self-designating PLGI securities, the reporting entity is certifying the following elements of each self-designated PLGI security:
- a. The security was purchased prior to January 1, 2018.

b. The reporting entity is holding capital commensurate with the NAIC Designation reported for the security.

c. The NAIC Designation was derived from the credit rating assigned by an NAIC CRP in its legal capacity as an NRSRO which is shown on a current private letter rating held by the insurer and available for examination by state insurance regulators.

Annual Statement for the year 2019 of the **Senior Health Insurance Company of Pennsylvania**

GENERAL INTERROGATORIES

PART 1 - COMMON INTERROGATORIES

d.

The reporting entity is not permitted to share this credit rating of the PL security with the SVO.

Has the reporting entity self-designated PLGI securities?

Yes [☐] No [☐]

35.

By assigning FE to a Schedule BA non-registered private fund, the reporting entity is certifying the following elements of each self-designated FE fund:

a.

The shares were purchased prior to January 1, 2019.

b.

The reporting entity is holding capital commensurate with the NAIC Designation reported for the security.

c.

The security had a public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO prior to January 1, 2019.

d.

The fund only or predominantly holds bonds in its portfolio.

e.

The current reported NAIC Designation was derived from the public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO.

f.

The public credit rating(s) with annual surveillance assigned by an NAIC CRP has not lapsed.

Has the reporting entity assigned FE to Schedule BA non-registered private funds that complied with the above criteria?

Yes [☐] No [☐]

GENERAL INTERROGATORIES

PART 2 – LIFE, ACCIDENT AND HEALTH COMPANIES/FRATERNAL BENEFIT SOCIETIES INTERROGATORIES

Life, Accident and Health Companies/Fraternal Benefit Societies:

1.1

Does the reporting entity have any direct Medicare Supplement Insurance in force?

Yes [☐] No [☒]

1.2

If yes, indicate premium earned on U.S. business only.

\$

1.3

What portion of Item (1.2) is not reported on the Medicare Supplement Insurance Experience Exhibit?

\$

1.3

Reason for excluding:

1.4

Indicate amount of earned premium attributable to Canadian and/or Other Alien not included in Item (1.2) above.

\$

1.5

Indicate total incurred claims on all Medicare Supplement insurance.

\$

1.6

Individual policies:

Most current three years:

1.61

Total premium earned

\$

1.62

Total incurred claims

\$

1.63

Number of covered lives

\$

All years prior to most current three years:

1.64

Total premium earned

\$

1.65

Total incurred claims

\$

1.66

Number of covered lives

\$

1.7

Group policies:

Most current three years:

1.71

Total premium earned

\$

1.72

Total incurred claims

\$

1.73

Number of covered lives

\$

All years prior to most current three years:

1.74

Total premium earned

\$

1.75

Total incurred claims

\$

1.76

Number of covered lives

\$

2.

Health Test:

	1 Current Year	2 Prior Year
2.1	Premium Numerator	\$ 0
2.2	Premium Denominator	\$ 78,564,611
2.3	Premium Ratio (2.1/2.2)	0.0%
2.4	Reserve Numerator	\$ 49,738,445
2.5	Reserve Denominator	\$ 2,167,641,605
2.6	Reserve Ratio (2.4/2.5)	2.3%

3.1

Does the reporting entity have Separate Accounts?

Yes [☐] No [☒]

3.2

If yes, has a Separate Accounts statement been filed with this Department

Yes [☐] No [☐] N/A [☐]

3.3

What portion of capital and surplus funds of the reporting entity covered by assets in the Separate Accounts statement, is not currently distributable from the Separate Accounts to the general account for use by the general account?

\$ 0

3.4

State the authority under which Separate Accounts are maintained:

3.5

Was any of the reporting entity's Separate Accounts business reinsured as of December 31?

Yes [☐] No [☐]

3.6

Has the reporting entity assumed by reinsurance any Separate Accounts business as of December 31?

Yes [☐] No [☐]

3.7

If the reporting entity has assumed Separate Accounts business, how much, if any, reinsurance assumed receivable for reinsurance of Separate Accounts reserve expense allowances is included as a negative amount in the liability for "Transfers to Separate Accounts due or accrued (net)?"

\$ 0

4.

For reporting entities having sold annuities to another insurer where the insurer purchasing the annuities has obtained a release of liability from the claimant (payee) as the result of the purchase of an annuity from the reporting entity only:

4.1

Amount of loss reserves established by these annuities during the current year:

\$ 0

4.2

List the name and location of the insurance company purchasing the annuities and the statement value on the purchase date of the annuities.

1 P&C Insurance Company and Location	2 Statement Value on Purchase Date of Annuities (i.e., Present Value)

5.1

Do you act as a custodian for health savings accounts?

Yes [☐] No [☒]

5.2

If yes, please provide the amount of custodial funds held as of the reporting date.

\$ 0

5.3

Do you act as an administrator for health savings accounts?

Yes [☐] No [☒]

5.4

If yes, please provide the balance of the funds administered as of the reporting date.

\$ 0

6.1

Are any of the captive affiliates reported on Schedule S, Part 3, authorized reinsurers?

Yes [☐] No [☐] N/A [☒]

GENERAL INTERROGATORIES

PART 2 – LIFE, ACCIDENT AND HEALTH COMPANIES/FRATERNAL BENEFIT SOCIETIES INTERROGATORIES

6.2 If the answer to 6.1 is yes, please provide the following:

1 Company Name	2 NAIC Company Code	3 Domiciliary Jurisdiction	4 Reserve Credit	Assets Supporting Reserve Credit		
				5 Letters of Credit	6 Trust Agreements	7 Other
			\$	\$	\$	\$

7. Provide the following for individual ordinary life insurance* policies (U.S. business only) for the current year (prior to reinsurance assumed or ceded).

7.1	Direct premiums written	\$
7.2	Total incurred claims	\$
7.3	Number of covered lives	

*Ordinary Life Insurance Includes
Term (whether full underwriting, limited underwriting, jet issue, "short form app")
Whole Life (whether full underwriting, limited underwriting, jet issue, "short form app")
Variable Life (with or without secondary guarantee)
Universal Life (with or without secondary guarantee)
Variable Universal Life (with or without secondary guarantee)

8.	Is the reporting entity licensed or chartered, registered, qualified, eligible or writing business in at least two states?	Yes [X]	No []
8.1	If no, does the reporting entity assume reinsurance business that covers risks residing in at least one state other than the state of domicile of the reporting entity?	Yes []	No []

Life, Accident and Health Companies Only:

9.1	Are personnel or facilities of this reporting entity used by another entity or entities or are personnel or facilities of another entity or entities used by this reporting entity (except for activities such as administration of jointly underwritten group contracts and joint mortality or morbidity studies)?"	Yes [X]	No []
9.2	Net reimbursement of such expenses between reporting entities:		
9.21	Paid	\$	12,778,644
9.22	Received	\$	
10.1	Does the reporting entity write any guaranteed interest contracts?	Yes []	No [X]
10.2	If yes, what amount pertaining to these items is included in:		
10.21	Page 3, Line 1	\$	
10.22	Page 4, Line 1	\$	
11.	For stock reporting entities only:		
11.1	Total amount paid in by stockholders as surplus funds since organization of the reporting entity:	\$	1,198,824,034
12.	Total dividends paid stockholders since organization of the reporting entity:		
12.11	Cash	\$	217,094,989
12.12	Stock	\$	140,004
13.1	Does the reporting entity reinsure any Workers' Compensation Carve-Out business defined as: Reinsurance (including retrocessional reinsurance) assumed by life and health insurers of medical, wage loss and death benefits of the occupational illness and accident exposures, but not the employers liability exposures, of business originally written as workers' compensation insurance.	Yes []	No [X]
13.2	If yes, has the reporting entity completed the <i>Workers' Compensation Carve-Out Supplement</i> to the Annual Statement?	Yes []	No []
13.3	If 13.1 is yes, the amounts of earned premiums and claims incurred in this statement are:		

	1 Reinsurance Assumed	2 Reinsurance Ceded	3 Net Retained
13.31 Earned premium	\$ 0	\$ 0	\$ 0
13.32 Paid claims	\$ 0	\$ 0	\$ 0
13.33 Claim liability and reserve (beginning of year)	\$ 0	\$ 0	\$ 0
13.34 Claim liability and reserve (end of year)	\$ 0	\$ 0	\$ 0
13.35 Incurred claims	\$ 0	\$ 0	\$ 0

13.4 If reinsurance assumed included amounts with attachment points below \$1,000,000, the distribution of the amounts reported in Lines 13.31 and 13.34 for Column (1) are:

	Attachment Point	1 Earned Premium	2 Claim Liability and Reserve
13.41	<\$25,000	\$ 0	\$ 0
13.42	\$25,000 — 99,999	\$ 0	\$ 0
13.43	\$100,000 — 249,999	\$ 0	\$ 0
13.44	\$250,000 — 999,999	\$ 0	\$ 0
13.45	\$1,000,000 or more	\$ 0	\$ 0

13.5	What portion of earned premium reported in 13.31, Column 1 was assumed from pools?	\$	0

Fraternal Benefit Societies Only:

14.	Is the reporting entity organized and conducted on the lodge system, with ritualistic form of work and representative form of government?	Yes []	No []
15.	How often are meetings of the subordinate branches required to be held?		
16.	How are the subordinate branches represented in the supreme or governing body?		
17.	What is the basis of representation in the governing body?

SENIOR HEALTH INSURANCE COMPANY OF PENNSYLVANIA, *IN REHABILITATION* SECOND AMENDED REHABILITATION PLAN

JESSICA K. ALTMAN, REHABILITATOR
PATRICK H. CANTILO, SPECIAL DEPUTY REHABILITATOR

HOW TO PROVIDE COMMENTS AND OBJECTIONS

Comments may be addressed to Patrick H. Cantilo, Special Deputy Rehabilitator, at Senior Health Insurance Company of Pennsylvania, In Rehabilitation, 550 Congressional Blvd., Suite 200, Carmel, IN 46032, or by electronic mail to plan.comments@shipltc.com.

Formal Comments were required to be made by September 15, 2020, in compliance with the June 12, 2020 Case Management Order of the Commonwealth Court of Pennsylvania, which is available at www.shipltc.com. No provision has been made by the Court for additional Formal Comments.

THIS PLAN DOCUMENT PROVIDES DETAILS ABOUT THE PLAN PROPOSED FOR THE REHABILITATION OF SHIP AS REVISED AND AMENDED (THE “PLAN”). IT DESCRIBES IN DETAIL THE OPTIONS FROM AMONG WHICH SHIP POLICYHOLDERS CAN CHOOSE UNDER THE PLAN. EACH LONG-TERM CARE (“LTC”) POLICYHOLDER WILL RECEIVE PERSONALIZED INFORMATION BEFORE HE OR SHE IS ASKED TO CHOOSE AN OPTION UNDER THE PLAN. THIS INFORMATION WILL BE PROVIDED, IN A SIMPLIFIED FORMAT, AFTER A FINAL VERSION OF THE PLAN IS APPROVED, OR MODIFIED AND APPROVED, BY THE COURT.

IMPORTANT NOTICE

THE PLAN DESCRIBED BELOW, IF APPROVED BY THE COURT, WILL AFFECT SUBSTANTIALLY THE RIGHTS AND BENEFITS OF SHIP'S POLICYHOLDERS, CREDITORS, AND OTHERS. NOTHING IN THE PLAN OR RELATED DOCUMENTS CONSTITUTES, IS INTENDED AS, OR SHOULD BE TAKEN AS, LEGAL, TAX, OR OTHER ADVICE FROM THE REHABILITATOR, HER REPRESENTATIVES, OR HER CONSULTANTS. ALL PERSONS INTERESTED IN SHIP'S REHABILITATION SHOULD READ THIS PLAN DOCUMENT CAREFULLY AND CONSULT WITH THEIR OWN LEGAL, BUSINESS, FINANCIAL, TAX AND OTHER ADVISORS AS TO MATTERS CONCERNING THE PLAN DOCUMENT.

THE PLAN PROPOSES THE IDENTIFICATION OF THOSE SHIP POLICIES OF LONG-TERM CARE INSURANCE THAT ARE ACTUARIALLY PROJECTED TO BE UNDERPRICED IN PHASE ONE AND NON-SELF-SUSTAINING IN PHASE TWO, AS DEFINED IN THE PLAN DOCUMENT. THIS PLAN DOCUMENT ALSO DESCRIBES THE METHODOLOGY BY WHICH POLICYHOLDERS WHO HAVE SUCH UNDERPRICED OR NON-SELF-SUSTAINING LONG-TERM CARE POLICIES MAY ELECT FROM AMONG SEVERAL OPTIONS TO MAKE SUCH POLICIES APPROPRIATELY PRICED OR SELF-SUSTAINING. SOME POLICYHOLDERS WILL BE FOUND TO HAVE POLICIES THAT ARE ADEQUATELY PRICED OR SELF-SUSTAINING. THESE POLICYHOLDERS WILL NOT BE REQUIRED TO MODIFY THEIR POLICIES BUT WILL HAVE THE OPTION TO DO SO IF THEY SO CHOOSE. FOR POLICYHOLDERS WHO ARE REQUIRED TO MAKE SUCH ELECTIONS BUT FAIL TO DO SO, THE PLAN INCLUDES AUTOMATIC DEFAULT OPTIONS.

THE MODIFICATIONS TO MAKE LTC POLICIES PROPERLY PRICED OR SELF-SUSTAINING MAY INCLUDE PERMANENT REDUCTIONS IN THE BENEFITS AVAILABLE UNDER SUCH POLICIES, INCREASES IN THE PREMIUM RATES THAT MUST BE PAID TO MAINTAIN SUCH POLICIES IN FORCE, OR A COMBINATION OF PERMANENT BENEFIT REDUCTIONS AND PREMIUM RATE INCREASES. THIS PLAN DOCUMENT DESCRIBES THE METHODOLOGY FOR SUCH MODIFICATIONS IN DETAIL BUT DOES NOT CONTAIN SPECIFIC INFORMATION ABOUT HOW THEY WOULD AFFECT ANY PARTICULAR POLICYHOLDER. THE SPECIFIC MANNER IN WHICH THE PLAN WOULD IMPACT A PARTICULAR POLICY CAN ONLY BE DETERMINED AFTER CALCULATIONS THAT WILL BE MADE DURING THE PERIOD AFTER THE PLAN IS APPROVED BY THE COURT AND BEFORE THE PLAN IS IMPLEMENTED. THEY WILL DEPEND IN PART ON WHETHER AND TO WHAT EXTENT THE PLAN IS MODIFIED. ONCE THE CALCULATIONS ARE MADE, EACH LTC POLICYHOLDER WILL RECEIVE PERSONALIZED INFORMATION FOR PURPOSES OF MAKING ELECTIONS PERMITTED UNDER THE PLAN.

THIS PLAN DOCUMENT DESCRIBES THE DETAILED AUTOMATIC PROCESS FOR DOWNGRADING POLICIES WHEN OPTION ONE IS ELECTED AND CHANGING BENEFITS WHEN OPTIONS TWO OR THREE ARE ELECTED. ALTHOUGH THESE CONSTRUCTS ARE THE PRODUCT OF EXTENSIVE ANALYSIS, THEIR EVALUATION CONTINUES AND IT IS POSSIBLE THAT THEY MAY BE FURTHER REFINED BEFORE THE PLAN IS IMPLEMENTED. IN ANY EVENT, BEFORE BEING REQUIRED TO ELECT FROM AMONG THE PLAN OPTIONS, EACH POLICYHOLDER WILL RECEIVE INDIVIDUALIZED DETAILED DATA ABOUT EACH OPTION AVAILABLE TO HIM OR HER.

THE PLAN IS DESIGNED TO REDUCE OR ELIMINATE THE SHORTFALL BETWEEN SHIP'S PROJECTED LIABILITIES AND THE ASSETS AND PREMIUMS PROJECTED TO BE AVAILABLE TO FUND SUCH LIABILITIES. THERE CAN BE NO ASSURANCE THAT THE PLAN WILL SUCCEED IN THIS GOAL. IF THE PLAN FAILS IN THIS RESPECT, IT IS POSSIBLE THAT SHIP WILL BE PLACED IN LIQUIDATION. IN THAT EVENT, THERE CAN BE NO ASSURANCE THAT SHIP WILL BE ABLE TO FULFILL THE CONTRACTUAL OBLIGATIONS ENTAILED IN LTC POLICIES MODIFIED UNDER THE PLAN TO THE EXTENT THAT SUCH OBLIGATIONS INCLUDE UNCOVERED BENEFITS AS DEFINED IN THE PLAN DOCUMENT.

THIS PLAN DOCUMENT STRIVES TO PROVIDE AN EXPLANATION OF THE SIGNIFICANT ELEMENTS OF THE PROPOSED REHABILITATION. NONETHELESS, IT IS POSSIBLE THAT ISSUES WILL ARISE THAT HAVE NOT BEEN ENVISIONED IN THIS PLAN DOCUMENT, AND THAT CHANGES AND EVENTS OCCURRING AFTER THIS PLAN DOCUMENT IS FILED WITH THE COURT WILL REQUIRE ADDITIONAL ADJUSTMENTS TO THE PLAN. AS PART OF THE COURT'S APPROVAL OF THE PLAN, THE REHABILITATOR ANTICIPATES SEEKING FROM THE COURT AUTHORITY TO MAKE SUCH CHANGES, OR TAKE SUCH ADDITIONAL STEPS, IN IMPLEMENTING THE PLAN AS SHE CONCLUDES ARE NECESSARY TO GIVE EFFECT TO THE SPIRIT OF THE COURT'S ORDER APPROVING OR MODIFYING THE PLAN. THE FINAL PLAN AS IMPLEMENTED MAY THEREFORE VARY IN SOME MEASURE FROM THE DESCRIPTION IN THIS PLAN DOCUMENT.

REHABILITATION PLAN DOCUMENT

I. BASIC INFORMATION ABOUT THE PLAN

As more fully detailed below, after reporting a very large deficit in capital and surplus, and having submitted no plan to restore required surplus, on January 29, 2020, Senior Health Insurance Company of Pennsylvania (**SHIP** or the “Company”) was placed in rehabilitation by order (the **Rehabilitation Order**) of the Commonwealth Court of Pennsylvania which is the rehabilitation court (the **Commonwealth Court**). The Court appointed Pennsylvania Insurance Commissioner, Jessica K. Altman, as Rehabilitator. Under the Court’s order and the applicable statutes, Commissioner Altman, as Rehabilitator, has broad authority to take remedial steps to address SHIP’s financial challenges. She has engaged a Special Deputy Rehabilitator and a group of consultants who have developed this rehabilitation plan for the protection of SHIP’s policyholders and creditors.

The Rehabilitation Order required that the Rehabilitator file a preliminary plan of rehabilitation by April 22, 2020. The Rehabilitator complied with this requirement and has since received many comments, formal and informal, about that preliminary plan of rehabilitation. In addition, the Special Deputy Rehabilitator and the rehabilitation team have continued their analysis of the many issues raised by the plan. As a result, on October 21, 2020, the Rehabilitator filed the **Amended Rehabilitation Plan**, among other things, addressing many of the issues raised in those comments. Additional comments have been received following the filing of the Amended Rehabilitation Plan and work has continued to improve the plan. This document is the **Second Amended Rehabilitation Plan** which will be presented to the Commonwealth Court for approval at the hearing scheduled for May 17, 2021.

This document (“Plan Document”) is intended to provide a sufficient description of the proposed rehabilitation plan (the “Plan” or the “Second Amended Rehabilitation Plan”) to enable policyholders and interested parties to understand the Plan, and the Commonwealth Court to determine whether to approve, modify and approve, or disapprove the Plan.

Necessarily, many of the details of the Plan will have to be resolved during the implementation period. It is not possible to anticipate all of the implications of every aspect of the Plan before it is put in place. Nonetheless, this Plan Document provides a detailed description of how the changes contemplated by the Plan, if approved as proposed, are expected to be implemented. Many or most existing company practices will continue if the Plan is approved and implemented, and those current practices are largely not discussed in this document.

The actual choices for, and projected impact upon, each policyholder will not be known until after the Plan is finalized and its provisions are calculated by the Company’s systems. Those calculations may produce materially different results depending on the passage of time and changes in both general and policyholder-specific circumstances. The cost and delay attendant to making the

calculations for every policyholder in advance of approval are not justified given that the results will may not be sufficiently accurate to be meaningful. However, beginning at page 68 there are illustrations of Plan options for several representative policyholders. This Plan Document therefore provides relative and directional guidance about Plan options rather than precise policy-level details for each one.

UNTIL THE PLAN EFFECTIVE DATE, EVEN AFTER THE PLAN IS APPROVED WITH OR WITHOUT MODIFICATION, POLICYHOLDERS WILL HAVE THE SAME RIGHTS, BENEFITS, OPTIONS, AND OBLIGATIONS AS THEY DO NOW UNLESS THE PLAN SPECIFICALLY PROVIDES OTHERWISE.

A. SUMMARY DESCRIPTION OF THE PLAN

The following description of the Plan is intended to provide policyholders the basic general information required for them to understand the options that will be available to them if the Plan is implemented as proposed. Much more detail about the Plan and related matters is provided in the sections that follow.

1. GOAL AND PHASES OF THE PLAN

Recognizing that SHIP faces a substantial Funding Gap (described on page 87), the aim of the Plan is to increase revenues and reduce liabilities so as to narrow or eliminate that gap through a combination of ***Policy Modifications*** for most of the approximately 39,000 policies in force as of the filing of this Second Amended Rehabilitation Plan. Although the Plan has certain default provisions that apply when policyholders fail to make effective choices, it is structured to maximize policyholder choice, based on each person's individual circumstances and preferences. In proposing the Plan, the Rehabilitator recognizes that many policyholders have costly policies that provide far more coverage than the policyholders are reasonably likely to require. Accordingly, a key element of the Plan is to enable policyholders to remove coverages that are not essential or even necessary to cover reasonable long-term care expenses. That is expected to help narrow the Funding Gap and potentially reduce their own premium, or at least avoid part or all of a necessary premium rate increase.

The Plan is designed to operate in three phases. ***Phase One***, commencing immediately following final approval, is the principal phase and will strive to reduce substantially or eliminate the Funding Gap. In this phase it will be determined which policies require modification because their Current Premium is below the ***If Knew Premium*** for the benefits offered by the policies. The If Knew Premium is an accepted methodology for setting premiums for long-term care insurance ("LTCP") policies, more fully explained at page 27. Policyholders with Current Premium (see page 121) below the If Knew Premium will have to increase their premiums or reduce their benefits so that the premium will be adequate on an If Knew Premium basis. Policyholders whose Current Premium is at or above the If Knew Premium will not be required to modify their policies (increase their premiums or reduce their benefits) but may choose to make some such modifications if they prefer to do so, as explained below.

In **Phase Two**, the results of Phase One will be evaluated and additional Policy Modifications may be necessary for certain policies. It is expected that modifications in Phase Two will largely be based on **Self-sustaining Premiums** as explained at page 27. The goal of Phase Two will be to eliminate any Funding Gap not eliminated in Phase One. Only policies that meet the following conditions may be modified in Phase Two:

- a. Their premiums are not already Self-sustaining,
- b. They are not **Fully Covered** (i.e., they are not within the limits of, or otherwise not covered by, the applicable Guaranty Association - see page 123), and
- c. The policyholders have not selected **Option Two (a or b)** or **Option Three** (described below) in Phase One.

In **Phase Three**, the Company will complete the run-off of the LTCI business in force. If there are sufficient funds to do so, in Phase Three the Rehabilitator will make payments to policyholders and other creditors on account of any amounts owed to them apart from policy liabilities (addressed in Phase One and Two).

2. POLICYHOLDER ELECTIONS

This section describes the key elements of these policyholder options. They are described in full detail beginning on page 23. In Phase One every policyholder whose Current Premium (including the premium they would be paying but for a premium waiver) is below the If Knew Premium for the policy's benefits will be required to elect one of four options. Those whose Current Premium (including the premium they would be paying but for a premium waiver) is at or above the If Knew Premium may keep their current policies without modification or may elect Option Two or Option Three, described below.

- a. Option One will be to continue paying the Current Premium or to maintain the premium waiver if one is in effect, but if Current or waived Premium is less than the If Knew Premium have benefits reduced in accordance with Plan provisions so that the premium for the reduced benefits (including waived premium) is equal on an If Knew Premium basis to the Current Premium. The benefit reductions will be selected automatically by the Plan.
- b. Option Two will be to select certain policy endorsements that provide selected essential benefits (sometimes greater than the benefits provided by Option One) at a lower premium than Option Four. This option, of which an enhanced alternative will also be available, will not be subject to further rate increases or benefit reductions in Phase Two of the Plan. Option Two is designed to provide reasonable coverage at reasonable premium rates.

- c. Option Three will be a ***Non-forfeiture Option*** (NFO) through which the policyholder will receive a Reduced Paid-up (RPU) policy providing limited benefits but for which no future premiums will be charged. Under the Plan, this option will include more generous benefits than the typical industry non-forfeiture option or reduced paid-up policy, most notably in that it will offer as much as a 30-month benefit period unless the current policy has a shorter benefit period. Moreover, policyholders who select this option will never have to pay additional premiums and this policy will never lapse.
- d. Option Four will be to retain the current policy benefits and pay the corresponding If Knew Premium (unless equal to or lower than the Current Premium that the policyholder is paying). For many policyholders this may require a substantial increase in premiums.

Policyholders paying premium at or above the If Knew Premium may choose to make no changes (i.e., make no election at all and leave their policies unchanged) or may elect Option Two or Option Three if preferable for their individual circumstances. Options One and Four would not result in any changes for such policyholders.

Before being required to make an election, each policyholder will receive information detailing the premiums and benefits of each option. Special rules apply to policyholders who are not currently paying premium due to a Premium Waiver provision in their or their spouses' policies. These are explained fully beginning at page 31. Generally, such policyholders who elect Option Two or Option Four and whose Current Premium (the premium they would be paying but for the waiver) is lower than the If Knew Premium, will be required to pay a Differential Premium. The Differential Premium consists of the difference between (1) the premium they would be paying if there were not a waiver in effect (the Current Premium), and (2) the If Knew Premium corresponding to the policy. See Section II.E.7, page 28. If the Premium Waiver terminates, such policyholders will be required to pay the full applicable If Knew Premium (or Self-sustaining Premium if in Phase Two). Substantially the same options will be offered to policyholders on claim.

3. NO WORSE THAN LIQUIDATION

Every policyholder will be offered at least one option in Phase One that will provide him or her potential benefits equal to or exceeding those that would be available from the applicable Guaranty Association in the event of liquidation, but generally no more than the current policy benefits.

- a. Policyholders with Current Premium (including the premium they would be paying but for a premium waiver) at or above If Knew Premium in fact will not be required to make any changes in their policies. Thus they will be treated at least as well as they would in liquidation, and perhaps better if their policies offer benefits in excess of those that would be offered by Guaranty Associations in liquidation.

- b. Option Two will provide at least the benefit value that the Guaranty Association would provide in liquidation for every policyholder whose current policy provides benefits in excess of those limits. In many cases, other options will also provide the benefits that would be available from Guaranty Associations in liquidation. For policyholders with current benefits below Guaranty Association limits, Option Two will provide at least the current level of benefits.

In that respect, the Plan is designed to place policyholders in no worse off a position than they would face in a liquidation of SHIP.

4. DEFAULT OPTIONS

For every policyholder there will be a Default Option which will apply automatically if no proper election is made. In Phase One, for every policyholder whose Current Premium is at or above the If Knew Premium, the Default Option will be to leave the policy unchanged. However, if the Current Premium is below the If Knew Premium, there will be a Default Option that will be identified in the election materials (and is illustrated on page 67). In general, the Default Option will be Option One (the downgrade) for policyholders on Premium Waiver. However, if the Non-forfeiture Option (NFO) would provide these policyholders better benefits than the downgrade, the NFO will be the Default Option. For policyholders who are paying premium, Option Two (the Basic Policy Endorsements - see Section III.A.2.d, page 48) will be the Default Option.

In Phase Two, for every policyholder whose Current Premium is at or above the Self-sustaining level, the Default Option will be to leave the policy unchanged. However, if the Current Premium is below the Self-sustaining level, there will be a Default Option similar to Phase One. In general, the Default Option will be Option One (the downgrade) for policyholders on Premium Waiver. However, if the Non-forfeiture Option (NFO) would provide these policyholders better benefits than the downgrade, the NFO will be the Default Option. For policyholders who are paying premium, Option Two (the Basic Policy Endorsements) will be the Default Option.

The Default Option will apply if the policyholder fails to make an election by the applicable deadline or submits an election form that does not clearly identify the policyholder's election (for example because two or more options are elected). For a policyholder whose Current Premium is equal to, or higher than, the If Knew Premium (or Self-sustaining level in Phase Two), the Default Option will be to leave the policy unchanged, and no changes will be made to the policy unless specifically elected, even if the policyholder does not submit a proper completed election form. The Rehabilitator believes that between 25% and 40% of policyholders may be in this category in Phase One.

5. CHANGES IN POLICYHOLDER ELECTIONS

Policyholders will not have the opportunity to change their elections after the ***Policyholder Election Date*** (the deadline for policyholder option elections under the Plan). Before the Policyholder Election Date, policyholders may change their elections by submitting new

Policyholder Election Forms if they are received before the Policyholder Election Date. A new valid Policyholder Election Form received before the Policyholder Election Date will replace and invalidate a valid or invalid Policyholder Election Date submitted previously. If time permits, the Rehabilitator will attempt to reach policyholders who submit defective election forms (for example because they make no valid election or make more than one election) to attempt to correct the error. However, if there is insufficient time before the Policyholder Election Date, or if the Rehabilitator cannot reach the policyholder, the result of submitting a defective election form will be that the Default Option will be selected automatically under the Plan.

6. PHASE TWO ELECTIONS

Similar options as those offered in Phase One will be offered to policyholders in Phase Two of the Plan, but the premium modification will be based on attaining Self-sustaining Premiums. It is important to note that policyholders who elect Option One or Option Four in Phase One, and whose policies after Phase One are not Self-sustaining or Fully Covered (*i.e.*, within Guaranty Association limits), may face additional premium rate increases or benefit reductions (sometimes substantial) in Phase Two. Policyholders who elect Option Two (including the enhanced alternative) or Option Three will NOT face additional rate increases or benefit reductions in Phase Two of the Plan. In addition, policyholders who select Option Three will never pay any more premiums.

7. EFFECT OF ELECTIONS

Policyholder Elections under the Plan will be permanent. This means that if the Plan does not succeed in rehabilitating SHIP fully and the Company has to be placed in liquidation, the policies to which guaranty association coverage and limits (see Section VI.J, page 92) will apply will be those as modified as a result of the Policyholder Elections. The elections are not intended to, and will not, eliminate the Unfunded Benefit Liability described in the discussion of policy restructuring (Section VI.H, page 91).

B. KEY CONSIDERATIONS FOR POLICYHOLDERS

For every policyholder there will always be two competing considerations: the anticipated need for LTC benefits and the cost of maintaining coverage for those benefits. As is true of many similar LTCI blocks in the market, many of SHIP's policies have historically been substantially underpriced and policyholders have not been asked to pay the premium that would have been necessary to assure that those benefits will be available when needed. This is not a sustainable model and is a key contributor to SHIP's present financial challenge. The Plan is designed to enable policyholders to balance these competing considerations in the context of their individual circumstances. Put simply, not every policyholder will need the same level of benefits in the future and not every policyholder will be in a position to pay an appropriate premium for the most generous combinations of LTC benefits.

In determining which option to elect, each policyholder should consider what is a reasonable level of benefits to be provided by his or her policy given his or her likely future needs, and the

ability of the policyholder to pay for such benefits. For example, there are very material differences between the costs of a policy that provides 5% compound Inflation Protection, one that provides 2% simple Inflation Protection, and one that provides no Inflation Protection at all. Similarly, there are material differences between the costs of a policy with lifetime benefits, one with a five-year benefit period, and one with a two-year benefit period. Moreover, features like Premium Waivers, Restoration of Benefits, Return of Premium, short Elimination Periods, indemnity rather than reimbursement, and “traditional” benefit triggers can all add materially to the cost of a policy but may not be indispensable to every policyholder.

The Plan is constructed to offer an array of options that can be responsive to the widely divergent circumstances of SHIP’s policyholders. For example, for policyholders who cannot afford any premium rate increases, Option One (maintaining Current Premium and reducing benefits) may be the best option in that it eliminates rate increases in Phase One of the Plan. However, for some of those policyholders, the reduction in benefits necessary to achieve that goal may leave the policies with benefits deemed by the policyholders to be insufficient. Moreover, policyholders who select Option One may face additional rate increases or benefit reductions in Phase Two of the Plan. For such policyholders Options Two or Three may be preferable. Option Two is designed to provide a reasonable combination of benefits at a reasonable premium. The enhanced version of Option Two provides more generous benefits in the form of a longer benefit period and some inflation protection. For many policyholders it is likely that the premium required for Option Two will be less than what would be required for Option Four in order to maintain the current policy benefits. On the other hand for these policyholders, the benefits offered in Option Two may be more acceptable than those provided by Option One. An advantage of Option Two is that it would not be subject to rate increases or benefit reductions in Phase Two of the Plan. For other policyholders, Option Three (the Non-forfeiture Option) may be optimal. That would be a policy with modest benefits but for which no more premium would ever be required, even if the Company were placed in liquidation.

For those fortunate policyholders who can afford material rate increases, Option Four might be attractive in that it would enable them to retain the most generous benefits, even at high premium rates. Many of these policyholders would face very large rate increases when selecting Option Four. This is because, in many cases, the premiums being paid for those policies are substantially lower than what they should be relative to the benefits promised. Moreover, policyholders selecting Option Four would face the possibility of additional substantial rate increases or benefit reductions in Phase Two of the Plan.

There will also be a number of policyholders whose Current Premiums are already appropriate. Such policyholders will not be required to make any election. For these policyholders, selecting Option One or Option Four would be meaningless because neither their premiums nor benefits would change in either case. However, they will be given the opportunity to select Option Two (including the enhanced alternative) or Option Three if that would be better for their circumstances.

It is not practical to offer enough options to meet precisely every policyholder’s expectations or preferences. Doing so would make the Plan too complicated and costly. The Special Deputy

Rehabilitator has led a team that has devoted intense efforts to the development of a manageable array of options that recognizes the major differences in policyholders' circumstances. While no one option may be ideal for a particular policyholder, the differences among the options are such that it is hoped that every policyholder will find at least one option that will enable that policyholder to emerge from SHIP's rehabilitation with adequate long-term care protection at reasonable premiums.

C. COVID-19

In December 2019, a new virus emerged in Wuhan, China, identified in due course as severe acute respiratory syndrome coronavirus 2, resulting in a pandemic of coronavirus disease 2019 ("COVID-19"). As of the filing of this Second Amended Plan, at least 140 million people have been infected worldwide, resulting in at least 3 million deaths. In the U.S., the first cases were reported in January 2020, with total estimates now exceeding 32 million and fatalities exceeding 570,000. COVID-19 is particularly threatening to the elderly and those with impaired respiratory systems or other underlying health conditions. While intense work continues around the globe, no effective cure has yet emerged. There has been substantial progress in efforts to develop and distribute several effective vaccines. At this time, more than one quarter of the U.S. population has been fully vaccinated, more than 40% having received at least one of two vaccines. The emphasis on vaccinating the older population first has resulted in nearly three quarters of those over 65 having received at least one dose, more than 60% having been fully vaccinated. As a result, COVID-19 mortality in nursing home and assisting living facilities has plummeted, approaching pre-pandemic levels after having peaked in December 2020. All told, more than 1.1 million residents and staff were infected with the virus, and more than 133,000 succumbed to it.

The full impact of the COVID-19 pandemic on the U.S. insurance industry remains to be determined. The life insurance industry makes the following observations. Between March 2020 and February 2021, the number of actual deaths was 120% higher than the number of expected deaths.¹ This led to a 14% increase in mortality rates among group life claimants in the first quarter of 2020.² Excess deaths were concentrated "among those in the preferred underwriting class, particularly those ages 60 and older."³ However, this has not increased life insurance premiums or decreased policy offerings.⁴

¹ Susan Rupe, What Record Mortality Rates Mean for the Life Insurance Industry, INSURANCE NEWS NET (Apr. 14, 5:00 PM), <https://insurancenewsnet.com/conference-post/what-record-mortality-rates-mean-for-the-life-insurance-industry>.

⁴ Andrew Keshner, Has COVID-19 Made Life Insurance More Expensive? MARKET WATCH, (Apr. 12, 12:00 PM), <https://www.marketwatch.com/story/has-covid-19-made-life-insurance-more-expensive-these-researchers-say-they-have-the-answer-2020-12-07>.

The impact on health insurers differs somewhat. Due to unemployment caused by COVID-19, between 3.1 and 27 million Americans lost employer-sponsored health insurance in 2020.⁵ Health spending also dropped considerably, because of the cancellation of elective surgeries.⁶ This loss was concentrated in the first half of 2020 but persisted enough to cause a 2.7% drop in non-prescription medical spending from 2019 to 2020.⁷ This drop in spending could result in higher-than-average premium rebates for insureds.⁸ Overall, health insurers fared well, with average gross margins at the end of the third quarter of 2020 for individual market and fully-insured group market plans almost 25% higher than in 2019.⁹ Medicaid Advantage plans saw a 35% average gross margin increase over the same time period.¹⁰ As a result, 2021 health insurance premiums are expected to remain largely unchanged.¹¹

For long-term care insurance, the effects of the pandemic have been mixed. COVID-19 seemed to reduce long-term care insurance costs by (1) shortening the amount of time some insureds used benefits either because they died or because they left long-term care facilities, or (2) preventing some insureds from starting to use long-term care services.¹² A Fitch Ratings report indicates that the long-term care insurance industry gained roughly \$2.5 billion in net operating profits from 2019 to 2020.¹³ Actuaries are unsure about what effect COVID-19 will have on long-term care insurance over the long run, as COVID-19 could have “accelerated the deaths of people who were likely to die

soon . . . and spared healthier older people.”¹⁴ This would mean that the surviving elderly population could spend more time using long-term care services.¹⁵

However, this seems to vary from insurer to insurer. A Milliman survey covering April to September 2020 found that the overall use of long-term care benefits remained unchanged.¹⁶ While active life mortality increased for most responding insurers, 40% of responding insurers saw a decrease or no change.¹⁷ The death rate for insureds already receiving benefits decreased by 5% or more for two-thirds of responding insurers.¹⁸ An American Academy of Actuaries issue brief suggests that the bulk of COVID-19 deaths in long-term care facilities “may be associated with Medicaid funded-homes, which might not house a meaningful number of insureds.”¹⁹

The implications of COVID-19 for SHIP and the Plan fall in three major areas.

CASE MANAGEMENT: Restrictions on travel and personal contact imposed as preventive measures have cause SHIP to revise, at least temporarily, the manner in which it confirms eligibility for benefits and other aspects of case management. Although current protocols emphasize other means of communication, the Company remains attentive to the needs of its insureds as well as to the important function of preventing fraud, waste and abuse. At this juncture, these changes are not expected to have a material effect on the Plan or on the options it will offer to eligible policyholders.

MORTALITY AND MORBIDITY: Although sufficient reliable data is not yet available, preliminary data indicates that COVID-19 may be causing a decrease in the number of SHIP insureds filing claims and an increase in the number of deaths among the aging population insured by SHIP. While these unfortunate developments may combine to reduce slightly SHIP’s deficit, it is possible that, at least in part, they are temporary. The Rehabilitator cannot yet project what, if any permanent impact, these consequences will have on the Plan but they are not expected to be material.

SUSPENSION OF PREMIUM PAYMENTS: Many SHIP policyholders had delayed making their required premium payment. While SHIP had delayed lapsing or cancelling policies for non-payment of premiums because of the exceptional circumstances, protracted delays in making these payments

could have aggravated substantially SHIP's financial difficulties. Some regulatory agencies had requested or required that insurers (including SHIP) accommodate some premium deferrals, but many or most of these deferrals are also expiring or will soon expire. The net effect of the delays, therefore are also not expected to be material. Continued non-payment of premium beyond the expiration of the deferral period is expected to result in an increased number of policy terminations. The Rehabilitator has already observed a slight increase in the number of policy terminations that appear not to be the result of increased insured mortality. However, in the aggregate they are not expected to be material to the Plan.

D. TIMELINE

The order placing SHIP in rehabilitation required the Rehabilitator to submit to the Court a preliminary plan for SHIP's rehabilitation by April 22, 2020, and a subsequent case management order provided for policyholders and other interested parties to comment on the Plan through September 15, 2020. Over 100 people have submitted comments, some formal but most informal, and a few parties have also been admitted as intervenors. This Second Amended Plan reflects the analysis of those comments and continuing work by the rehabilitation team.

At page 35 is a sequence of past and expected events in the presentation and implementation of the Plan. While it is difficult to predict future events in a matter of this complexity and under the current exceptional circumstances, a hearing on the Plan has been scheduled for May 17, 2021. Depending on the outcome of that hearing, implementation of the Plan might commence late in 2021. In that event, policyholders may be asked to make their elections in the fall of 2021. However, this matter is complex and delays in this timetable remain possible.

E. RATIONALE FOR THE PLAN

The Plan hinges on two essential assumptions: (1) in order to maximize policyholder protection, the Plan must strive to reduce the Funding Gap by increasing revenue and reducing liabilities; and (2) while premium rate increases can increase revenue by some increment, elimination by policyholders of long-term care coverage they may not truly need or be able to afford, especially at adequate premium rates, will go much further in remedying the Company's dire financial situation. The Rehabilitator believes that the Plan structure, which is the product of extended analysis by industry experts, offers a reasonable prospect of success based on sound principles.

1. The Plan gives policyholders more control over their fates, allowing each to elect the path best suited to his or her circumstances.
2. All policyholders will have at least one option for preserving their current coverage and at least one option for preserving their Current Premium.
3. Target premiums under the Plan take rate increase history and product differences into account, improving the equity of the premium rate structure. Generally, policyholders whose

policies were issued in states that have approved comparatively more rate increases over preceding years will face lower premium increases or benefit reductions under the Plan.

4. It is important to note that Plan premium rate increases are not based on state of issue or state of residence. They are based exclusively on the characteristics of each individual policy, including the difference between Current Premium and If Knew Premium (in Phase One) or Self-sustaining Premiums (in Phase Two).
5. In every case, policyholders will have at least one option (Option Two) calibrated to provide outcomes no less favorable than liquidation, including applicable Guaranty Association benefits.
6. The revenue from rate increases under the Plan will go to pay claims and expenses of implementing the Plan whereas, in liquidation, Guaranty Association rate increases have historically been used to reduce assessment burdens for member insurers and not to increase the ability to pay claims.
7. Though certainly not guaranteed, the Plan structure inherently creates the possibility of greatly reducing, if not eliminating, the Company's deficit.

F. PLAN PROJECTIONS

The magnitude of SHIP's Funding Gap or deficit as of the Effective Date is difficult to predict because it is dependent on several changing circumstances over which the Rehabilitator has little or no control. However, the Rehabilitator believes that, depending on policyholder elections, Phase One of the Plan could greatly reduce, if not eliminate, the Funding Gap. Solely for purposes of directional guidance, the Rehabilitator has prepared some hypothetical results that could be expected from operation of the Plan as proposed. For purposes of these projections, it is assumed that SHIP's Funding Gap as of the Effective Date will be \$1.2 billion. It should be emphasized that these are hypothetical projections dependent on future events that may evolve in a manner different from the assumptions in the projections. Subject to these caveats, it is the belief of the Rehabilitator that if the Plan is implemented as proposed it would produce the following results:

1. If 100% of disabled SHIP LTC policyholders and 80% of active SHIP LTC policyholders elect Option Four (retaining the current policy benefits and paying the rate increases necessary to reach If Knew Premium), the Funding Gap will be reduced by about \$500 million, less than 50%, and a substantial additional reduction will have to be generated by Phase Two of the Plan. This scenario assumes that the remaining 20% of active policyholders would select Options One, Two or Three.
2. If 100% of disabled policyholders and 65% of active policyholders elected Option Four (the remaining 35% of active policyholders electing one of the other Options), the Funding Gap would be reduced by \$650 million, an additional \$150 million, a bit over half of the deficit.

3. If 100% of disabled policyholders elected Option Four and 100% of active policyholders elected one of Options One, Two or Three, the Funding Gap would be reduced by between 73% (over \$850 million) and 86% (over \$1 billion).
4. In any of these scenarios, election of an option other than Option Four by a material number of disabled policyholders would materially improve the results of the Plan in reducing the Funding Gap.
5. If 100% of SHIP's active and disabled policyholders elect either Option Two or Option Three, the entire Funding Gap would be eliminated and Phase Two would be unnecessary. If they elected Option One, about 93% of the Funding Gap would be eliminated.

As these projections suggest, the probability of the Plan's success increases materially the more policyholders elect to give up their benefit-rich policies and elect more affordable options. That anticipated probability of success does not vary nearly as substantially by choices among Options One, Two or Three as it does by choices between any of the other options vs. Option Four.

G. ORDER OF DISBURSEMENTS

Apart from the amounts owed to policyholders for benefits under long-term care insurance policies for which it is directly responsible, SHIP has a variety of other debts. For purposes of the Plan all of SHIP's debts are classified as falling into one of five categories, described in more detail below. These categories are consistent with the order of distribution promulgated in 40 P.S. § 221.44, governing distributions in liquidation. While SHIP is not in liquidation, the rehabilitation plan is designed to provide creditor distribution priorities that respect the order therein promulgated and to avoid unintended advantages and disadvantages in the payment of SHIP's debts. Payments will not be made to debts in a particular category until all debts owed to a higher category have been paid in full or reasonable provision has been made for their full payment. Creditors who are not paid in full retain the right to assert claims for unpaid amounts owed to them. Creditors in each category will receive pro-rata distributions of the amounts owed to them as assets become available for the payment of debts in that category.

1. ADMINISTRATIVE EXPENSES

This category, corresponding to that established in 40 P.S. § 221.44(a), includes the costs of conducting SHIP's business, including development and implementation of the Plan. Payments to vendors for goods or services procured by the Rehabilitator are within this category. That includes employee salaries and benefits, consultant and counsel fees, office and equipment leases, utilities, bills for operating supplies, and other debts incurred in the course of operating SHIP's business.

2. POLICYHOLDER LIABILITIES

This category, corresponding to that established in 40 P.S. § 221.44(b), includes all claims for benefits arising under long-term care insurance policies issued directly by SHIP or its

predecessors: American Travelers Life Insurance Company, Conseco Senior Health Insurance Company, and Teachers Protective Mutual Insurance Company. It does not include policies reinsured by SHIP but not issued by SHIP or its predecessors. See Section VI.M.7, page 98. It also does not include claims arising under SHIP's 46,000 non-long-term care insurance policies, for which Conseco Life Insurance Company is responsible. See Section VI.M.5, page 97.

3. CERTAIN FEDERAL PRIORITY CLAIMS

This category, corresponding to that established in 40 P.S. § 221.44(c), includes all claims of the federal government other than those owed to it as a policyholder, which would fall in Category 2, above. However, the Rehabilitator does not believe that SHIP has any insurance policy obligations to the federal government.

4. GENERAL CREDITOR CLAIMS

This category, corresponding to those established in 40 P.S. § 221.44(d-h) includes all other debts owed by SHIP except those described in Category 5, below. It encompasses, among other debts:

- a. all employee benefits accrued pre-rehabilitation for employees separated from the Company (including retiree claims - see Section VI.O, page 100),
- b. claims of state and local governments,
- c. agent and broker commissions (see Section VI.N, page 99),
- d. claims of ceding insurers under reinsurance treaties (see Section VI.M.7, page 98),
- e. surplus note contribution claims, and
- f. other claims not specifically enumerated in this Section.

The Rehabilitator does not contemplate establishing a new claim filing procedure and instead creditors may continue submitting bills and invoices in the ordinary course of business.

5. EQUITY CLAIMS

This category, corresponding to that established in 40 P.S. § 221.44(1). Includes the claims of shareholders and owners. As to SHIP, this would only be the claims of Conseco and the Senior Health Care Oversight Trust.

II. GENERAL PLAN DETAILS AND TECHNICAL INFORMATION

This Section of the Plan Document provides detailed and technical explanations of proposed Rehabilitation Plan provisions for modification of SHIP's long-term care insurance policies. As modeling and analysis continue, additional refinements are possible. However, the fundamental Plan

structure is unlikely to change unless the Court requires it. The following notes may aid in understanding this structure.

A. PLAN PHASES

The Plan is contemplated to occur in three phases. In **Phase One**, all LTC policies that are not in Non-forfeiture Option status will be evaluated and the holders of those the premiums of which are below the If Knew Premium level will be required to elect options to modify premiums or benefits, or some combination of the two. The results of this phase for the Company can vary materially depending on Policyholder Elections. They will be monitored and evaluated after Phase One becomes effective to gauge the results. In due course a decision will be made as to whether and, if so, how to implement Phase Two. **Phase Two** will be aimed at narrowing or eliminating any remaining deficit and its timing will depend on the results achieved in Phase One. Under the terms of the Plan, in Phase Two only policies the holders of which have not elected Option Two (Basic Policy Endorsements - see section III.A.2.d) or Option Three (Non-forfeiture Option - see Section III.A.3), that are not Self-sustaining (see definition at page 126), and which would not be Fully Covered by Guaranty Associations, will be affected. Holders of these remaining policies will again be asked to “right-size” them by modifying premiums or benefits, or a combination of the two. For that purpose, they will be offered options similar to those offered in Phase One. Depending on the results of Phase One, Phase Two may also include additional remedial measures. In **Phase Three** SHIP will conclude the run-off of its business in force, as modified by the Plan. In the event that funds are available, payment will be made to agents, ceding companies, policyholders, and other creditors on account of sums owed to them.

B. POLICYHOLDER CATEGORIES

1. For Plan implementation purposes, policyholders are sorted into eight main categories, four each in Phase One and in Phase Two:
 - (1) Active - premium paying;
 - (2) Active - not premium paying (further segregated between lifetime or dual Premium Waiver);
 - (3) Disabled - premium paying; and
 - (4) Disabled - not premium paying.
2. There may be some policyholders who do not fit neatly into the Plan’s defined policyholder categories in each Phase, though none have yet been identified. If so, those will be addressed on an *ad hoc* basis.

C. POLICYHOLDER OPTIONS

1. In each category, policyholders whose Current Premiums are below the If Knew Premium rate for their policies will have four choices, including the ability to take a Non-forfeiture

Option (NFO) on which no additional premium will be due. No other cash-out or buy-back option will be included. Generally, the choices provided by the Plan will be:

- a. **Option One** - Keep the Current Premium (or Premium Waiver) and downgrade the policy to specified reduced benefits in a manner determined automatically by the Plan. The **Downgrade Process** is explained beginning at page 42. This will be solely a benefit reduction option;
- b. **Option Two** - Elect **Basic Policy Endorsements** (making the policy one designed to provide reasonable benefits and premiums - see Section III.A.2.d, page 48) at If Knew Premium (as defined below) in Phase One or at Self-sustaining Premium if elected in Phase Two. The Basic Policy Endorsements convert the existing policy to one with generally more affordable premiums than would be charged for the current policy benefits on an If Knew basis and more limited benefits when compared to the current policy. This option may entail both premium increases and benefit reductions for many policyholders, but premium increases will almost always be lower than under Option Four. For some policyholders it may entail a premium reduction. Many policyholders will be offered two variations of this option, a standard version and an enhanced alternative. Details of its provisions are laid out in Section III.A.2.d, page 48, below. As explained below, policyholders who elect this option in Phase One will not be asked to make Policy Modifications in Phase Two;
- c. **Option Three** - Elect a limited benefit Non-forfeiture Option, a reduced paid up policy on which no additional premium will ever be paid (see Section III.A.3, page 50); and
- d. **Option Four** - Keep the current policy benefits and accept a premium increase. The new premium will be (as defined below) the **Phase One Premium** (see page 127) in Phase One and the Self-sustaining Premium in Phase Two. This will be solely a premium increase option.

2. In summary, under the Plan, policyholders whose Current Premiums are below the If Knew Premium for their policies will be able to: (a) keep their Current Premium with downgraded benefits, (b) choose Basic Policy Endorsements, (c) take a NFO, or (d) to keep their current benefits and pay additional premium. These will be the only options available under the Plan. Other options that are sometimes available in particular states in response to approved rate increases are not offered under the Plan.
3. As noted above, a Default Option will apply if a policyholder required to do so fails to make a valid election by the applicable deadline. For policyholders who are paying premium, Option Two (the Basic Policy Endorsements) will be the Default Option. For policyholders on Premium Waiver, the Default Option will be Option One (the downgrade) unless the NFO would provide these policyholders better benefits.

4. In Phase One, the estimated 25% to 40% of policyholders whose Current Premium on the Determination Date (see page 122) will be at or above the If Knew Premium for the benefits offered by their policies need not modify their policies, and their policies would not be changed by selecting Option One or Option Four. Such policyholders may choose to do nothing, or they may select Option Two or Option Three if they wish to do so to accommodate their individual circumstances, for example to reduce their premiums or to avoid the possibility of a Phase Two rate increase. The Default Option for these policyholders will be that their policies remain unchanged.
5. NOTE THAT A POLICYHOLDER WITH PREMIUM AT OR ABOVE IF KNEW PREMIUM MAY NONETHELESS HAVE A NON-SELF-SUSTAINING POLICY (SEE PAGE 126) AND THEREFORE BE REQUIRED TO MAKE AN ELECTION IN PHASE TWO. SUCH A POLICYHOLDER WILL NOT HAVE TO MAKE A PHASE TWO ELECTION IF HE OR SHE HAS SELECTED OPTION TWO OR OPTION THREE IN PHASE ONE OR IF HIS OR HER POLICY IS FULLY COVERED (SEE PAGE 123).
6. Subject to the orders of the Commonwealth Court, the Plan contemplates that Basic Policy Endorsements elected in Phase One (Option Two) will be immune from Phase Two changes unless the Company is placed in liquidation. Policyholders who elect this option in Phase One generally will not face premium rate increases or additional benefit reductions in Phase Two of the Plan.
7. However, certain policyholders paying the lower ***Phase One Differential Premium*** or ***If Knew Differential Premium*** due to a Premium Waiver may be required to begin paying the full Phase One Premium or If Knew Premium if the Premium Waiver no longer applies (for example because a policyholder on claim recovers). Similarly, in Phase Two certain policyholders paying the ***Self-sustaining Differential Premium*** due to a Premium Waiver may be required to begin paying the full Self-sustaining Premium if the Premium Waiver no longer applies (again, for example, because a policyholder on claim recovers). See Section III.A.2.c, page 48.
8. Non-forfeiture Options elected in Phase One will not be subject to change thereafter, including in Phase Two or if the Company is placed in liquidation.
9. It is important to note, and policyholders will be advised before making such elections, that policies for which Options One or Option Four are chosen in Phase One may be subject to additional modifications in Phase Two. Moreover, the timing and details of the modifications that may be required in Phase Two will not be known to policyholders when they make their Phase One elections. In particular, policyholders will be advised that options to retain benefits that generate low premium rate increases in Phase One may result in additional premium rate increases or benefit reductions in Phase Two due to differences in the methodologies used to calculate premium rates in each phase.

10. The exceptions to this possibility of changes in Phase Two are the election of Basic Policy Endorsements or NFO (Options Two and Three, respectively) in Phase One. As noted below (see Section III.A.2.c, page 48), so long as the Plan remains in effect, and unless the Commonwealth Court orders otherwise, the Basic Policy Endorsements elected in Phase One will be immune from Phase Two changes except that (as explained above in Section II.C.6) certain policyholders on premium waiver (or their spouses) may be required to pay full Phase One Premium or If Knew Premium (instead of differential premium) when the waiver ceases to apply. The NFO is expected to remain permanent through policy termination.
11. The approximately 8,900 policyholders who have already chosen to replace their policies with Non-forfeiture Options before the Plan is implemented will not be asked, or have the ability, to make any changes to their policies as part of the Plan.
12. Beginning on the applicable Effective Date and while the Rehabilitation Plan is in effect, policyholders who fail to pay their premiums when due, or who otherwise terminate or lapse their policies voluntarily, will receive a notice that, as of the date on which the unpaid premium was due, or as of the date of their termination request or lapse notice, their policies will be converted to Non-forfeiture Options. However, they may request in writing that their policies be fully terminated. This would not apply to policyholders who have converted their policies to NFOs, from whom no premium is due.

D. CLAIM STATUS

For purposes of Policyholder Elections:

1. After the Plan is approved, a policyholder will be deemed to be on claim if he or she is receiving health care services that would be reimbursable by the Company were it not for an ***Elimination Period*** (EP) that has not been satisfied. Such a policyholder will be expected to begin receiving indemnity or reimbursement payments as soon as the EP is satisfied.
2. The Company may also determine that a policyholder has been on claim as of an earlier date when that policyholder has been receiving health care services reimbursable by the Company but has not reported such services to the Company. Such a policyholder is expected to be reimbursed for prior covered services when they are reported to the Company, subject to policy terms and conditions and applicable law.

E. PREMIUM RATE DETERMINATIONS

1. The Plan contemplates using different target premium rates in each phase. In the first phase, the target premium will be the Phase One Premium (a variation of If Knew Premium that can be no less than the Current Premium) for policyholders electing Option Four (retain their current benefits). Since in Option One, the premium remains the same, benefits are reduced to what that premium would “buy” at If Knew Premium rates as explained on page 42. For

policyholders selecting Option One (retain Current Premium) or Option Two (Basic Policy Endorsements), the target premium will be the If Knew Premium for the policy's benefits. In Phase Two the target premium will be the Self-sustaining Premium.

2. The **If Knew Premium** rate is the rate that, if charged from inception, would have produced the greater of the initial target loss ratio or the minimum loss ratio applicable to the policy form. For the sake of simplicity, under the Plan this will be assumed to be 60%. If Knew Premium rates are intended to price policies adequately on a lifetime basis, but not to recoup losses due to inadequate pricing in the past.
3. For each policy for which the Current Premium is more than the If Knew Premium, the Phase One Premium will be the Current Premium. In short, in Phase One that policyholder can (but is not required to) retain the current policy at Current Premium without change. Correspondingly, for policies with a Current Premium lower than the If Knew Premium (which in this case would be the Phase One Premium), the downgrade required to maintain the Current Premium will be a reduction in benefits to a level that produces an If Knew Premium equal to the Current Premium as explained beginning on page 42.
4. Self-sustaining Premium is the premium calculated after evaluating the results of Phase One by determining the amount of premium required to eliminate a policy's **Shortfall Amount** in Phase Two.
 - a. The Shortfall Amount is the difference between the policy's **Projected Benefit Amount** (PBA) and its **Projected Credit Amount** (PCA) where the difference is more than zero. The Shortfall Amount can also be expressed as a policy's **Gross Premium Reserve** (GPR) less its **Allocated Assets**. If the difference is zero or less there is no shortfall and the policy is Self-sustaining.
 - b. The PBA is the present value as of the valuation date of the sum of (1) unpaid expected policy benefits and (2) unpaid expected policy expenses. For purposes of this determination "expected" consists of best estimate assumptions.
 - c. The PCA is the sum of (1) the present value as of the valuation date of expected premiums, adjusted for future premium increases reasonably expected to be put into effect and (2) the assets allocated to that policy as described below in subparagraph II.E.4.e, page 28. Again, for purposes of this determination "expected" consists of best estimate assumptions.
 - d. **Allocable Assets** is a notional determination consisting of the Company's invested assets less reserves for costs of administration, contingencies, and certain debts of higher priority. The **Asset/Premium Ratio** is the ratio of Allocable Assets to the aggregate Accumulated Premiums for all LTC policies. **Accumulated Premium** is the total Gross Premiums paid, and premiums waived, under a policy or group of policies from inception until the valuation date.

- e. **Allocated Assets** are the portion of the Company's Allocable Assets notionally allocated to a particular policy in accordance with the terms of, and solely for the purposes of calculations described in, the Plan. Such asset allocations are nominal and do not give a policyholder a right to any Allocated Assets or any particular sum of money. The assets allocated to each policy equal the product of the policy's Accumulated Premium times the Asset/Premium Ratio. This approach is designed to allocate assets equitably among policyholders solely for the purpose of calculating Phase Two premiums.

TABLE 1: ILLUSTRATION OF ASSET ALLOCATION		
1	Total Invested Assets	\$1,500,000,000
2	Reserve for Costs of Administration	-\$200,000,000
3	Contingencies	-\$10,000,000
4	Priority Debts	-\$50,000,000
5	Total Allocable Assets (L1 - (L2...L4))	\$1,240,000,000
6	Total Accumulated Premium	\$3,480,000,000
7	Asset/Premium Ratio (L5/L6)	35.63%
8	Accumulated Premium - Hypothetical Policy	\$50,000
9	Allocated Assets Hypothetical Active Policy (L7 X L8)	\$17,816

5. For policyholders on claim in Phase Two, the Self-sustaining Premium will be determined as if they were not on claim. For this purpose, assets will be allocated notionally to policies on claim as explained above.
6. Although this Plan Document assumes that in Phase Two determinations will be based on Self-sustaining Premiums, it is possible that, depending on the outcome of Phase One and other relevant considerations, in Phase Two the Plan will utilize an alternative premium structure. That determination will be made before policyholders are required to make elections in Phase Two and the results of that determination will be included in information provided to policyholders before they are required to make such elections.
7. In certain instances the Plan uses a Differential Premium, which in each case is the difference between the target premium (Phase One Premium, If Knew Premium, or Self-sustaining Premium, depending on the option elected and whether this occurs in Phase One or Phase Two) and the Current Premium the policyholder would be paying if not on waiver. This element of the Plan is intended to avoid having premium-paying policyholders subsidize

policyholders on premium waiver unfairly. Because the Phase One Differential Premium calculation is also based on If Knew Premium, policies on waiver that would require their holders to pay premium at or above If Knew Premium but for the waiver would not require Differential Premium. Thus, Differential Premium would only be charged to policies the waived premium of which would be deemed inadequate under Plan provisions. Differential Premium can never be less than zero. In cases in which the Current Premium is higher than the target rate, there would be no Differential Premium.

- a. Thus, in Phase One the Plan requires policyholders not paying premium, who elected Option Four (retain current benefits), to pay the Phase One Differential Premium consisting of the Phase One Premium less the Current Premium they would be paying if they were not on waiver (but not less than zero).
- b. Policyholders not paying premium who chose Option Two (Basic Policy Endorsements) in Phase One and whose current (waived) premium before making that election was lower than the If Knew Premium for the Basic Policy Endorsements will be required to pay the If Knew Differential Premium. This is the difference between the If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements and the Current (waived) Premium for the policy, both of which are set as if the policyholder did not have a Premium Waiver in effect.
- c. Similarly, in Phase Two the Plan requires policyholders not paying premium who selected Option Two (Basic Policy Endorsements) or Option Four (retain current benefits) to pay the Self-sustaining Differential Premium consisting of the Self-sustaining Premium less the Current Premium they would be paying if they were not on waiver (but not less than zero).

TABLE 2: DIFFERENTIAL PREMIUM

		CASE 1	CASE 2
1	CURRENT PREMIUM	\$2,300	\$3,200
2	IF KNEW PREMIUM	\$2,250	\$3,500
3	IF KNEW DIFFERENTIAL PREMIUM (L2-L1, BUT NOT <0)	\$0	\$300
4	PHASE ONE PREMIUM	\$2,300	\$3,500
5	PHASE ONE DIFFERENTIAL PREMIUM (L4-L1, BUT NOT <0)	\$0	\$300
6	SELF-SUSTAINING PREMIUMS	\$3,100	\$5,000
7	SELF-SUSTAINING DIFFERENTIAL PREMIUM (L6-L1, BUT NOT <0)	\$800	\$1,800

8. For a policy's Shortfall Amount to be eliminated completely, the policyholder would need to pay the entire Self-sustaining Premium. The result of policyholders on premium waiver only paying Self-sustaining Differential Premiums is that the premiums charged for these policies are insufficient to cover their Shortfall Amount. To address the remaining shortfall that is not covered by these policies, a ***Self-sustaining Adjustment Factor*** will be calculated.
 - a. The Self-sustaining adjustment factor will be a multiplicative adjustment applied to all policies' Self-sustaining premiums. It will be calculated to ensure that the sum of total premiums paid are sufficient to cover the total Shortfall Amount.
 - b. The Self-sustaining Adjustment Factor will be calculated for all policies in the aggregate. The same adjustment will be applied to all policies' Self-sustaining Premiums.
 - c. Policies on premium waiver are required to pay the Self-sustaining Differential Premium consisting of the Self-sustaining Premium less the Current Premium they would be paying if they were not on waiver (but not less than zero). The Self-sustaining Adjustment Factor will be calculated to ensure that the sum of Self-sustaining Premiums paid by premium-paying policyholders and Self-sustaining Differential Premiums paid by policyholders on waiver are sufficient to cover the total Shortfall Amount.

F. PENDING RATE INCREASES

There are a number of LTC policies for which SHIP has sought regulatory approval of premium rate increases that has been granted but the approved premium rate increases have not yet become effective. The following guidelines apply to such pending rate increases.

1. The Plan will assume that the approved premium rate increases will be implemented on the earlier of (a) the date on which they would have been implemented absent the Plan, and (b) the Plan Effective Date for each policy.
2. The ***Policyholder Election Package*** (see page 128) will describe premium rates for each option under the Plan reflecting implementation of the approved rate increases. Thus, for some policyholders the Current Premium shown in the Policyholder Election Package will be higher than the policyholder's actual current premium by the amount of the pending approved premium rate increase. This will be true for policyholders for whom, if the Plan were not implemented, the approved premium rate increase would not take effect until after the Plan Effective Date.

G. PREMIUM WAIVERS

1. SHIP LTC policies may contain one or more **Premium Waiver** provisions under which a policyholder is permitted to discontinue paying premiums and maintain the policy in force during a period of covered care or under circumstances specified in the policy.
 - a. Under a **Claim Waiver of Premium** (WOP) provision, a policyholder who receives benefits under his or her policy for a specified period of time (such as 90 days) is no longer required to pay premiums for coverage after that time period as long as the policyholder remains eligible for benefits and/or receives a specified level of care. Once the policyholder's eligibility for benefits ends, the policyholder is required to resume paying premiums in order to keep the policy in force.
 - b. Under a **Dual Waiver of Premium** (DWOP) provision, also called "Spousal Waiver of Premium," a policyholder may suspend premium payments during the time that a spouse qualifies for waiver of premium.
 - c. The **Lifetime Waiver of Premium** provision permits suspension of premium payments upon the death of a covered spouse after a qualifying period (typically five, seven, or ten years). The Lifetime Waiver of Premium provision, as the name implies, is permanent.
2. The Plan affects these Waiver of Premium provisions in specific ways. Policyholders who took a Non-forfeiture Option before the Plan became effective, or who do so under the Plan, do not pay premium and are not affected by Waiver of Premium provisions.
 - a. **Claim Waiver of Premium.** Policyholders on Claim Waiver of Premium on the Policyholder Election Date will be treated as if that waiver continues with respect to the premium in effect at that time (the Current Premium).
 - (1) If such policyholders elect Option One (downgrade), which does not entail a premium increase, the Current Premium remains waived and no Differential Premium is applicable. If such policyholders recover, their Current Premium must again be paid but their policies will remain downgraded.
 - (2) If policyholders on Claim Waiver make an election under the Plan that increases their premiums (Option Two or Option Four, see page 23), the waiver does not apply to the increase and they will be required to pay Differential Premium consisting of the difference between the premium under the elected Plan option and the Current (waived) Premium. When such policyholders recover and the Claim Waiver of Premium terminates, they must begin paying the full Plan premium. If such policyholders go on claim again following a specified period of recovery and their policy retains the Claim Waiver of Premium provision, the full **Plan Premium** (Phase One

Premium, If Knew Premium, or Self-Sustaining Premium, depending on the circumstances) will be waived while they are on claim.

- (3) Policyholders who elect Option Three, the NFO, are unaffected by Premium Waiver provisions because they do not pay premium.
- b. **Dual Waiver of Premium.** Policyholders whose premiums are waived under Dual Waiver of Premium (DWOP) provisions will be treated in the same way as policyholders under Claim Waivers of Premium. However, it is the status of the spouse on claim that determines whether they pay the Differential Premium or the full Plan premium when they select Option Two or Option Four.
- (1) If the policyholder has selected Option One, is not paying any premium due to the Spousal Waiver, and his or her spouse recovers, he or she must begin paying the Current Premium but his or her policy will remain downgraded.
 - (2) If the policyholder has selected Option Two, is paying only the If Knew Differential Premium due to the waiver, and his or her spouse recovers, the policyholder must begin paying the full If Knew Premium.
 - (3) If the policyholder has selected Option Four, is paying only the Phase One Differential Premium due to the waiver, and his or her spouse recovers, such policyholder must begin paying the full Phase One Premium.
 - (4) If the policyholder is on Dual Waiver, has a policy with Claim Waiver of Premium, selects Option Four, is paying Phase One Differential Premium or If Knew Differential Premium, and goes on claim after the Effective Date, the Differential Premium will then be waived under the Claim Waiver of Premium provision so that the policyholder will not have to pay any premium while on claim, even if the spouse recovers during that period. Once the policyholder recovers, he or she will be required to resume paying the Differential Premium if the spouse remains on claim and the dual waiver of premium is still effective. If the spouse has also recovered or the dual waiver of premium is otherwise no longer effective, the policyholder will be required to pay the full Phase One Premium or If Knew Premium upon recovery. If both policyholders whose policies contain a Dual Waiver provision select Option Four while neither is on claim, and one goes on claim after the Effective Date, the full Phase One Premium for both policies would be waived.
- c. **Lifetime Waiver of Premium.** Policyholders who are on Lifetime Waiver of Premium on the Policyholder Election Date will retain that waiver after the Plan Effective Date.

- (1) If such a policyholder elects Option Four, the Lifetime Waiver of Premium does not apply to the increased portion of the premium and he or she will be required to pay Differential Premium consisting of the difference between the Current Premium and the premium under Option Four (the If Knew Premium). Of course, if the If Knew Differential Premium for that policyholder is zero, he or she need not pay any additional premium.
- (2) If an active policyholder is on lifetime waiver, has a policy with Claim Waiver of Premium benefit, selects Option Four, and goes on claim after the Effective Date, the Differential Premium will then be waived under the Claim Waiver of Premium provision so that the policyholder will not have to pay any premium while on claim.

H. CERTAIN “NON-CORE” POLICY BENEFITS UNAFFECTED

Many SHIP LTC policies provide one or more “Non-core” benefits such as:

1. Bed Reservation Benefit,
2. Respite Care,
3. Caregiver Training,
4. Medic Alert,
5. Prescription Drug Benefit,
6. Homemaker Services,
7. Personal Needs Benefit,
8. Accidental Death Benefit,
9. Helping Hands Benefit,
10. Adult Foster Care,
11. Ambulance Services,
12. Transportation Benefit,
13. Home Delivered Meals,
14. Assistive Equipment, and
15. Remodeling.

The Plan is not intended to affect these benefits or how they relate to other benefits, and they will continue once the Plan becomes effective unless the policyholder elects Option Three, the Non-forfeiture Option.

I. RATE APPROVALS

1. Rate increases and Policy Modifications will be submitted to Commonwealth Court of Pennsylvania for approval as part of the Plan. The Rehabilitator will not seek separate approval of rate increases or benefit reductions from insurance regulators in the states in which the policies were issued.

2. The rate increases will not necessarily be limited by, or adhere to, filed rate cards. Rate cards are issued by insurers and approved by regulators to describe the premium rates applicable under specified circumstances or for specific types of coverage. They are inapplicable to the Plan.
3. Premium increases and Policy Modifications will not be submitted to individual insurance departments for approval. The Rehabilitation team believes that this is consistent with the established insurance rehabilitation practice in the U.S. under which the domiciliary regulator as domiciliary rehabilitator may, with only rehabilitation court approval and no approval from individual states, implement a rehabilitation plan, including one that might modify or terminate insurance policies issued by the delinquent insurer throughout the country. If its premium rates were subject to approval in each state, the Plan could not meet its goal of eliminating “subsidies” by having policyholders with substantially similar policies generally pay substantially similar premium regardless of the state in which the policyholder resides or in which the policy was issued. Moreover, the delay and expense of “traditional” state-by-state rate or benefit approval would make the Plan unfeasible. Finally, the state-by-state approval process might perpetuate or increase the nation-wide premium rate variations the Plan strives to eliminate.

J. NFOs AND PAID-UP POLICIES

The Plan will not affect the approximately 8,900 policyholders who have already taken NFOs. Their policies will never pay premium and their benefits will not be reduced further by the Plan. The Plan also will not affect paid-up policies for which only a specified number of premium payments were required, including those for which some of those payments remain to be made.

K. PARTNERSHIP-QUALIFIED POLICIES

Under the federal Deficit Reduction Act of 2006, certain LTC insurance policies called “*Partnership-Qualified*” (PQ), entitle the policyholder to a dollar of asset disregard or spend-down credit with respect to Medicaid eligibility for every dollar of benefit received under the LTC policy. The provisions of PQ policies vary from state to state but many require a minimum amount of cost of living adjustment (COLA) or Inflation Protection. The Plan will not reduce COLA or inflation protection features for PQ policies below those required for PQ status.

L. PLAN TIMING

1. The Plan is designed for implementation of Phase One as rapidly as possible, with more time available for implementation of Phase Two. At the conclusion of Phase One and continuously thereafter its results will be evaluated and, in due course, a determination will be made as to whether and, if so how, Phase Two should be implemented.
2. Table 3 provides a high-level sequence for the Plan.

TABLE 3: PLAN SEQUENCE	
1.	April 22, 2020 - Filing of Proposed Rehabilitation Plan and request for approval of notice
2.	June 12, 2020 - Case Management Order
3.	July 31, 2020 - Deadline for intervention applications
4.	August 21, 2020 - Deadline for responses to intervention applications
5.	September 15, 2020 - Deadline for Objections and Comments
6.	October 21, 2020 - Filing of Amended Proposed Rehabilitation Plan
7.	October 30, 2020 - Deadline for authorized interveners to file description of intended testimony and exhibits
8.	February 25, 2021 Scheduling Order
9.	May 3, 2021 Deadline for filing of Final Plan Amendments
10.	May 17, 2021 Hearing on Rehabilitation Plan
11.	[TBD] Order Approving, Modifying or Disapproving Plan
12.	[TBD] Final Approval Date (assuming approval)
13.	Plan Preparation Period
14.	[TBD] Determination Date
15.	Begin Policyholder Transition Period
16.	[TBD] Policyholder Election Package
17.	[TBD] Policyholder Election Deadline
18.	Evaluation of Policyholder Elections

19.	[TBD] End Policyholder Transition Period
20.	[TBD] Initial Plan Effective Date
21.	[TBD] Supplemental Policyholder Election Package
22.	[TBD] Supplemental Policyholder Election Date
23.	[TBD] Supplemental Plan Effective Date
24.	Evaluation of Phase One
25.	[TBD] Decision on Phase Two
26.	[TBD] Phase Two Policyholder Election Package
27.	[TBD] Phase Two Policyholder Election Deadline
28.	[TBD] Phase Two Effective Date
29.	Evaluation of Plan performance
30.	[TBD] Phase Three, if justified.

- a. The Plan will be submitted to the Commonwealth Court for approval, modification, or disapproval. Policyholders and interested parties have been provided an opportunity to offer comments about, or object to, the Plan. The Commonwealth Court will hold a hearing on the Plan beginning on May 17, 2021. Following the hearing, the Court will approve, modify, or disapprove the proposed Plan. If the Plan is approved (with or without modification), the date upon which such approval becomes final (including exhaustion of appeals, if any) will be the ***Final Approval Date***. It will commence the ***Plan Preparation Period***, which will end with the ***Initial Plan Effective Date***. During the Plan Preparation Period:
- (1) SHIP's LTC insurance policies will be restructured as described in Section VI.H, page 91. This restructuring will not affect the options available to policyholders under the Plan.
 - (2) The Company will make all the determinations and perform the calculations required to construct the options available to each policyholder. All determinations will be made as of a ***Determination Date*** which may vary from policyholder to policyholder but which will always be before the Policyholder Election Date defined below.

- (3) The Policyholder Election Package (containing the information required for policyholders to make their elections) and the ***Policyholder Election Forms*** (upon which they will do so) will be prepared and distributed.
 - (4) Except as noted below in Section II.L.3, page 37, the Policyholder Elections must be made by the Policyholder Election Date and will be collected and evaluated by the Company as received.
 - (5) On the ***Initial Plan Effective Date*** all the Policyholder Elections, other than those addressed in Section II.L.3.c, below, will be implemented and the premium and policy changes will take effect.
 - (6) The Initial Plan Effective Date may vary from policyholder to policyholder. For each policyholder the Initial Plan Effective Date will be the policy's ***Monthiversary Date*** occurring during the ***Initial Plan Effective Month***. See definitions, pages 125 and 126.
- b. The Plan Preparation Period may be several months long in order to provide time for the calculations and other steps necessary to implement the Plan. This includes the period necessary to advise policyholders of their options and to enable them to make the necessary elections.
- 3. Changes in policyholder circumstances occurring between the applicable Plan Determination Date and the Initial Plan Effective Date (the ***Policyholder Transition Period***) will not affect policyholders' elections except as follows:
 - a. Policyholders who have qualified for a Premium Waiver which has not yet become effective as of the Policyholder Election Date due to a waiting period or premium paying modal factor will be treated as if they were not paying premium on the Policyholder Election Date and will be required to elect from among the options available to policyholders not paying premiums. If their policies have ***Dual Waiver of Premium*** (DWOP) the same will be true for their spouses. If such policyholders (or their spouses eligible for DWOP) elect Option Two (Basic Policy Endorsements - see Section II.C.1.b, page 24), or Option Four (retain current benefits at Phase One Premium - see Section II.C.1.d, page 24), they will be required to pay the full Phase One Premium or If Knew Premium, respectively, until the waiver becomes effective and to pay the Phase One Differential Premium or If Knew Differential Premium, respectively, thereafter.
 - b. Policyholders who have been deemed eligible for benefits, but the benefits are pending and they have therefore not yet gone on claim, will be treated as if they were on claim and be required to elect from among the options available to policyholders on claim, including the availability of Premium Waiver. Note that during the ***Policyholder Transition Period***, when policyholders whose policies contain DWOP

are deemed eligible for benefits which are pending and therefore have not yet gone on claim, and are treated as if on claim, their spouses will also be treated as if on Dual Waiver of Premium.

c. Policyholders and the DWOP spouses of such policyholders who, during the Policyholder Transition Period, experience any of the following ***Transitional Events***:

- (1) discontinue paying premium due to the activation of a Premium Waiver other than those described in subparagraph (a), above),
- (2) go on claim (other than those described in subparagraph (b), above),
- (3) recover and cease being on claim, or
- (4) resume paying premium due to the deactivation of a Premium Waiver,

will all be required to elect new options from among those available to policyholders in their new circumstances. They will be provided new Policyholder Election Forms after the Policyholder Election Date, will have an opportunity to make new elections from among options applicable to policyholders in their new circumstances, and will have those elections implemented on a ***Supplemental Plan Effective Date***. If such a policyholder experiences a Transitional Event during the Policyholder Transition Period but the Company doesn't learn of it until after the policyholder has submitted an apparently valid Policyholder Election Form or after the Initial Plan Effective Date, the policyholder's election will be invalidated by the Transitional Event and the policyholder will be required to submit a new Policyholder Election Package before the Supplemental Plan Effective Date. If the Company learns of the Transitional Event after the Supplemental Plan Effective Date then the policy will be modified to implement the Default Option that would have applied had the Company learned of the Transitional Event before the Supplemental Plan Effective Date and the policyholder failed to make a valid election.

M. POLICYHOLDER INFORMATION

1. Phase One - Before being required to make an election in Phase One of the Plan, each eligible policyholder will receive a Policyholder Election Package that includes notice and details of the Plan, including a detailed description of Phase One and preliminary descriptions of Phase Two and Phase Three. As to Phase One, these details will include the premium amount and/or benefit reductions that will apply to the policyholder's specific policy under each applicable option in Phase One of the Plan. The notice will make clear that whether or not Phase Two will be implemented, and if so its exact details, may be subject to change depending on the circumstances following Phase One. It will also note that the entire Plan is subject to the orders of the Commonwealth Court and that, if the Company is placed in liquidation, some or all of the Plan's provisions may be changed in accordance

with the law applicable to liquidations. Policyholders with more than one policy will be advised that they are required to make independent elections for each policy.

2. Phase Two - Before being required to make any elections in Phase Two of the Plan, each policyholder eligible to make elections in this Phase will receive a ***Phase Two Policyholder Election Package*** that includes notice and details of Phase Two of the Plan. These details will include the premium amount and/or benefit reductions that will apply to the policyholder's specific policy under each applicable option of the Plan in Phase Two.

N. CALCULATION NOTES

1. The assets allocated on an Accumulated Premium basis for determination of Self-sustaining Premium for purposes of Phase Two calculations will be those remaining after provision is made for administrative costs and contingencies as more fully explained above at Section II.E.4.d, page 27.
2. Whenever the Plan calls for adjustment of the ***Maximum Benefit Period*** (MBP) it will be calculated in increments of whole days.
3. Whenever the Plan calls for matching an existing premium rate, it may be by rounding the premium to the nearest dollar.
4. In calculating the Phase One Premium, the If Knew Premium, and other Plan provisions, periods on claim (including those followed by recovery) prior to the Initial Plan Effective Date will be taken into account and reduce the remaining benefit period. The operative benefit period for the policy will be what remains on the applicable Plan Determination Date. Thus, a policyholder whose initial Maximum Benefit Period was eight years when the policy was issued, but who has used five years of benefits (whether in one or more periods on claim) that were not restored or eligible for restoration, and therefore has three years remaining as of the Determination Date, will be deemed to have a Maximum Benefit Period of three years for Plan calculation purposes. The Phase One Premium and If Knew Premium will be calculated using the remaining benefit period. Thus, for this hypothetical policyholder, the premium will be calculated for a policy with a three year MBP.
5. In calculating reductions of the Maximum Benefit Period, for policies with two different pools of money, one (typically of two years) for Home Health Care and one (often longer, part of which may have been utilized) for Assisted Living Facility Care or Nursing Home Care:
 - a. The Plan will treat the policy as having a single benefit period equal to the longer of those provided by the pools. The benefit periods provided by the pools will not be aggregated. Thus, the Maximum Benefit Period for Assisted Living Facility Care cannot be increased by adding the unused benefit period for Home Health Care or *vice versa*.

- b. Benefits paid under the policy, regardless of site of care, will reduce the new single benefit period.
 - c. Pools shorter than four years will not be adjusted by the Plan. If benefits have reduced the benefit period below four years as of the Effective Date, it will remain at that level for Plan calculation purposes.
6. Policies that share a pool of benefits before the Policyholder Election Date, so that a policyholder whose benefit period is exhausted may continue receiving benefits under the shared pool until it is exhausted, will be treated for purposes of calculating premiums under the Plan as having a benefit period equal to the sum of the policy's benefit period and half of the shared pool's benefit period. Such policies will continue sharing a pool after the Plan. Elections made under the Plan will affect only the policy's benefit period, not the value of the shared pool. When such a policyholder goes on claim after the applicable Plan Effective Date, the claim will reduce the policy's benefit period first and then the shared pool. Policyholders sharing a pool need not make the same elections under the Plan.
- a. For a policyholder who elects Option One, the downgrade will affect only the policy's benefit period (which cannot be reduced below four years unless it is already below that) and not the shared pool.
 - b. For a policyholder who elects Option Two, the policy's benefit period may be reduced but it will retain the possibility of benefits under the shared pool.
 - c. The premium for a policyholder who elects Option Four will be calculated as if the policy had a benefit period equal to the sum of the policy's current benefit period plus half of the shared pool.
7. In determining a policy's **Maximum Policy Value** (MPV), which is the product of a policy's Maximum Benefit Period (MBP) times its **Maximum Daily Benefit** (MDB), changes attributable to claims and benefits (such as inflation protection) will be taken into account. For Plan purposes, MPV will be calculated as if the policyholder went on claim on the Plan Effective Date. A policy with an unlimited benefit period will be deemed to have an unlimited MPV. The MPV for current (pre-election) benefits will be used to determine the floor for the Basic Policy Endorsements. A policy's MPV will be newly determined after giving effect to modifications resulting from policyholder elections and the resulting MPV will be used to determine whether the policy is subject to change in Phase Two.
8. The Plan contemplates that the minimum premium for Basic Policy Endorsements in Phase Two will be 110% of the Basic Policy If Knew Premium to discourage delaying the selection of Basic Policy Endorsements to Phase Two. See Sections IV.B.2.c, IV.C.1.b, IV.C.2.b.(4), IV.E.2.b, and IV.D.2.

9. Premium paying modalities (*i.e.*, monthly or quarterly payments) in effect before the Plan will be unchanged by the Plan unless necessary to give effect to a policyholder's election. If a policyholder is not paying premium prior to the applicable Plan Effective Date due to a waiver, and under the Plan he or she must begin paying a premium (such as a Differential Premium), the premium modality in effect prior to the waiver becoming effective will apply to the premium under the Plan.
10. Fees charged before commencement of the rehabilitation to premium payments based on modality (such as additional fees for monthly premiums) will continue to apply to premiums paid under the Plan on the same basis.

O. DRAFTING NOTES

1. As endorsements are drafted to implement policy changes, provisions not intended to be substantively affected will be left unchanged unless editing is necessary to implement the modifications selected.
2. As a result, for example, if a policy has an unlimited benefit period and a Restoration of Benefit provision, shortening the benefit period will not remove the Restoration of Benefit provision. However, the Restoration of Benefits provision cannot extend the benefit period beyond the newly shortened Maximum Benefit Period. Similarly, policies with limits in terms of days-of-care will remain so and not be converted to pool-of-money policies except by operation of the Downgrade Process or if the Basic Policy Endorsement is elected.
3. Replacement language to implement modifications will strive to eliminate ambiguities and add clarity.
4. If the language of the current policy does not differentiate clearly between Nursing Home and Assisted Living Facilities (ALF) coverage so that SHIP is now covering ALF care within the Nursing Home provision in those policies, electing the Basic Policy Endorsements will not eliminate ALF coverage but the Maximum Daily Benefits for ALF care will be limited to 75% of the policy's MDB for Nursing Home benefits.

III. DETAILS OF PHASE ONE OF THE PLAN

A. ACTIVE LIVES PAYING PREMIUM (*ACTIVE - PAYING*)

Policyholders who, as of the Phase One Policyholder Election Date, are paying premiums and are not disabled or eligible for benefits will have the following options.

1. **OPTION ONE - KEEP CURRENT PREMIUM AND DOWNGRADE POLICY BENEFITS.**

- a. Such policyholders can keep their Current Premium but will have policy benefits reduced if the Current Premium is less than the If Knew Premium for their policy benefits.
- b. The **Downgrade Target Premium** (see page 122) for this option is the Phase One Premium, which is the higher of the Current Premium and the If Knew Premium. For policyholders whose Current Premium equals or exceeds the If Knew Premium for their policies, no downgrade will be necessary because they are already paying the Downgrade Target Premium and Options One and Four will produce the same result - no change in their policies. For policyholders that elect Option One and whose Current Premium is lower than the If Knew Premium for their current policies, the benefit reductions will be calibrated to produce benefits for which the premium on an If Knew Premium basis will be within 2% of the Current Premium, *i.e.*, no lower than 98% nor higher than 102% of the Current Premium. A description of the Downgrade Process follows Table 4.

TABLE 4: IS DOWNGRADE NECESSARY?

IF:	CASE 1	CASE 2
1. THE CURRENT PREMIUM IS	\$3,000	\$3,200
and		
2. THE IF KNEW PREMIUM FOR THE CURRENT BENEFITS IS	\$2,800	\$5,000
THEN:		
IN CASE 1, SINCE THE IF KNEW PREMIUM IS LOWER THAN THE CURRENT PREMIUM, THERE WILL BE NO BENEFIT REDUCTIONS.	NO	
IN CASE 2, SINCE THE IF KNEW PREMIUM IS MORE THAN THE CURRENT PREMIUM, BENEFITS WILL BE REDUCED 36% TO THE CURRENT PREMIUM.		YES

- c. **DOWNGRADE PROCESS:** A single combination of one or more of the benefit reductions described in Section III.A.1.f, page 45 below, will be selected by the Rehabilitator in accordance with the Plan provisions to reduce the policy's benefits to a combination with an If Knew Premium within 2% of the Current Premium. Policyholders will not have the ability to select specific benefit reductions.
 - (1) Not all of the benefit reductions on the list below will be applicable to all policies. For example, eliminating inflation protection features would not be applicable to a policy that has no such benefits. Similarly, shortening

the Maximum Benefit Period would not be applicable to a policy with a benefit period that does not exceed four years. Thus, the list of potentially applicable benefit reductions may vary from policy to policy.

- (2) Each benefit reduction option is expected to have a materially different effect on premiums, some reducing the required If Knew Premium more than others. The result of a particular benefit reduction may vary among different policies. Benefit reductions will be selected sequentially, beginning with the first potentially applicable benefit reduction for the policy in question. However, in some cases the Rehabilitator may skip over one or more possible benefit reductions (for example, because they are inapplicable, produce too large a reduction, or are non-scalable) in order to produce the If Knew Premium closest to the Current Premium.
- (3) The Rehabilitator may also adjust a potentially applicable scalable benefit reduction up or down to simplify the process, for example by enabling fewer benefit reductions to be effected to achieve the desired premium level. Efforts will be made to minimize the number of benefit reductions applied to each policy.
- (4) Except as noted in the next paragraph, benefits will not be scaled above or below **Plan Limits**. Plan Limits for benefit period are a minimum of four years (unless the policy already has a lower MBP) and a maximum of 6 Years. Plan Limits for Daily Benefit are:
 - (a) For Nursing Home Care, a minimum of the lesser of (a) 80% of current level or (b) \$300, and a maximum \$600;
 - (b) For Facility Care, a minimum of the lesser of (a) 80% of current level or (b) \$225, and a maximum \$450; and
 - (c) For Home Health Care, a minimum of the lesser of (a) 80% of current level or (b) \$150, and a maximum \$300.
- (5) In order to achieve the Downgrade Target Premium (which is equal to the Current Premium), for some policyholders for whom other Benefit Reductions have not achieved the desired premium level, the MBP may be reduced below Plan Limits. For those policyholders for whom the Downgrade Option (Option One) is the default, the NFO serves as a safety net against reduction of the Maximum Benefit Period below the lesser of the current Benefit Period and 30 months. For other policyholders who select Option One and it produces a lower Benefit Period than the NFO or other Options, electing one of the other Options may be preferable.

- d. The default mode will be to evaluate the potentially applicable benefit reductions in the order in which they are included in the Plan.
- (1) If the first potentially applicable benefit reduction produces an If Knew Premium that is higher than 98% of the Current Premium it will be selected.
 - (a) If that first potentially applicable benefit reduction produces an If Knew Premium that is between 98% and 102% of the Current Premium, that will be the only benefit reduction and downgrade necessary for the policy in order to implement Option One.
 - (b) If the benefit reduction produces an If Knew Premium above 102 % of the Current Premium, is scalable, and can be scaled down sufficiently to produce an If Knew Premium no higher than 102% of the Current Premium without going below Plan Limits for MDB and MBP, then it will be scaled down sufficiently to achieve that result and that will be the only benefit reduction for the policy.
 - (2) If the first potentially applicable benefit reduction will not suffice (with or without scaling, if applicable) to reach an If Knew Premium within 2% of the Current Premium, the next potentially applicable benefit reduction will then be evaluated in the same manner, taking into account the effect of the previously selected potentially applicable benefit reduction.
 - (3) If the result is still an If Knew Premium that is higher than 102% of the Current Premium, that reduction will also be selected and the next potentially applicable benefit reduction will then be evaluated, again taking into account the effects of the previously selected potentially applicable benefit reductions.
 - (4) This process will continue until the resulting If Knew Premium is within 2% of the Current Premium. If it is within 2% of the Current Premium the process is complete and the potentially applicable benefit reductions selected will constitute the downgrade option for that policy.
 - (5) If the benefit reductions selected, in combination, produce an If Knew Premium that is lower than 98% of the Current Premium, the policy's MDB and MBP can be increased (subject to Plan Limits) to produce (in combination with previously selected benefit reductions) an If Knew Premium within 2% of the Current Premium. If raising the MDB and MBP (in combination with previously selected benefit reductions) still does not produce an If Knew Premium within 2% of the Current Premium, the policy's premium can be reduced so that the resulting If Knew Premium is within 2% of the Current Premium.

- (6) If all of the benefit reductions selected in combination produce an If Knew Premium that is higher than 102% of the Current Premium, then in addition, the Maximum Benefit Period will be shortened to the extent necessary to produce an If Knew Premium within 2% of the Current Premium.
 - (7) In the unlikely event that after all these steps the If Knew Premium for the reduced benefits remains higher than 102% of the Current Premium, there will be no further reductions and those will be the downgraded benefits and the premium charged for those benefits will be the Current Premium.
- e. Each policyholder will only receive one downgrade option, calculated as described in this Section. The Rehabilitator may develop algorithms, tables or other tools that will facilitate implementation of this process through classification of the existing policies. Policy provisions not identified in this Section will not be affected by the Downgrade unless necessary to implement the specified option.
- f. ***Benefit Reductions:***
 - (1) ***Benefit Reduction One:*** Elimination of Restoration of Benefits (ROB) provisions. This is a binary and non-scalable benefit reduction.
 - (2) ***Benefit Reduction Two:*** Elimination of Extension of Benefits provisions. This is a binary and non-scalable benefit reduction.
 - (3) ***Benefit Reduction Three:*** For policies with less restrictive triggers, adoption of the ***TQ Trigger***. See Section III.A.2.d.(7), page 48. This is a binary and non-scalable benefit reduction.
 - (4) ***Benefit Reduction Four:*** Discontinuation of Return of Premium (ROP) provisions. As of the Plan Effective Date, policies with Return of Premium benefit to which this reduction applies will cease accruing returnable premium. However, for policies which provide that returnable premiums accrue over several years and are then paid, or which make some past premium returnable upon specified events, ROP benefits accrued prior to the Effective Date will not be lost and will be calculated up to the applicable Plan Effective Date. Such returnable premium accrued prior to the Effective Date will be repaid at or around the time when the payment would have been due absent modification under the Plan. This is a binary and non-scalable benefit reduction.
 - (5) ***Benefit Reduction Five:*** Removal of inflation and “locking” of MDB at their current levels. This is a binary and non-scalable benefit reduction.

- (6) **Benefit Reduction Six:** Conversion of indemnity to reimbursement. See Section VI.B.12, page 85. This is a binary and non-scalable benefit reduction.
 - (7) **Benefit Reduction Seven:** Reduction of the policy's MDB to the lesser of 80% of current level and \$300 for Nursing Home Care; the lesser of (a) 80% of current level or (b) \$225 for Facility Care; and the lesser of (a) 80% of current level or (b) \$150 for Home Health Care. This is a scalable benefit reduction (that can be increased or decreased) so long as the resulting MDB is within Plan Limits.
 - (8) **Benefit Reduction Eight:** Extension of the EP to 90 days. If the current EP is 90 days or more it will not be modified. The EP will apply to each period of care. This will be treated as a binary and non-scalable benefit reduction.
 - (9) **Benefit Reduction Nine:** Reduction of the policy's MBP to no more than four years (from the applicable Plan Effective Date). If the current MBP is less than four years it will not be modified. As long as the resulting MBP is above the lesser of (a) the current period, or (b) four years, this is a scalable benefit reduction.
 - (10) **Benefit Reduction Ten:** Elimination of all Waiver of Premium provisions. For purposes of the Plan this is a binary and non-scalable benefit reduction. The Plan will not allow elimination of fewer than all available Premium Waiver provisions. The elimination will be prospective only and will not apply to the current waiver. It will apply to any waiver that would otherwise first have become effective after the downgrade.
 - (11) **Benefit Reduction Eleven:** Conversion to pool of money (unless the policy is already pool of money) and reduction of the Maximum Benefit Period to the amount required to achieve the Current Premium.
- g. The Downgrade is generally the Default Option for policyholders on Premium Waiver. In those cases, for those policyholders for whom the benefits that result from the Downgrade Process are lower than the benefits offered by the NFO, the NFO will be deemed the Default Option.

TABLE 5: DOWNGRADE PROCESS

Assume that the policy at issue has a current annual premium of \$2,000 but that the If Knew Premium for the benefits it provides would be \$3,200. Because it is more than the Current Premium, benefits will be downgraded so that the If Knew Premium for such benefits is within 2% of the Current Premium. Reduction to the Current Premium requires a target benefit reduction of 37.5% ($\$2,000/\$3,200$). Furthermore, assume that the policy does not have Extension of Benefits, Restoration of Benefits, or Return of Premium, has Inflation Protection, is Tax Qualified, and reimbursement, not indemnity benefits. The following illustrates the Downgrade Process for this hypothetical policy. Each potentially applicable benefit reduction would be evaluated as follows:

1. Hypothetically, Benefit reductions One, Two, Three, and Four (BR1, BR2, BR3, and BR4) are inapplicable because the policy already has TQ Triggers, and no EOB, ROB or ROP benefits. Benefit Reduction Five (BR5) - Removal of inflation and "locking" of MDB at current level - hypothetically produces an If Knew Premium of \$2,720, a 15% reduction. The If Knew Premium is still above \$2,040, 102% of the Current Premium. This benefit reduction would be selected.
2. Benefit Reduction Six (BR6) would be inapplicable because this is already a reimbursement policy. Benefit Reduction Seven (BR7) - reduction of MDB to the lesser of 80% of current level or \$300 - is evaluated in combination with previously selected BR5 and the result of reducing the MDB is hypothetically an If Knew Premium of \$2,144 (a combined 33% reduction). The If Knew Premium remains above \$2,040, 102% of the Current Premium. BR7 would also be selected and BR8 would be the next to be evaluated.
4. Benefit Reduction Eight (BR8) - Extension of the EP to not less than 90 days - is then evaluated in combination with BR5 and BR7, and the result of extending the EP to 90 days (in combination with BR5 and BR7) is hypothetically an If Knew Premium of \$1,920 (a combined reduction of 40%). This reduces the premium below the target of 37.5%.
5. BR7 is then scaled up by increasing the MDB (but not above \$600) to the point at which the If Knew Premium is \$2,000, equal to the Current Premium, amounting to a 4% increase in the If Knew Premium of \$1,920 produced by BR5, BR7, and BR8.

2. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT CORRESPONDING IF KNEW PREMIUM.**
 - a. Active-paying policyholders will have the option to have their current policy endorsed to provide benefits substantially similar to a newly designed Basic Policy.

- b. The new premium for the policy will be the If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements.
- c. **THIS OPTION WILL BE IMMUNE FROM PHASE TWO CHANGES. Policyholders who elect this option will not face premium rate increases or benefit reductions in Phase Two of the Plan.** However, under certain circumstances a policyholder who is paying the If Knew Differential Premium for the Basic Policy Endorsements because he or she is on Premium Waiver may be required to pay the full If Knew Premium if the waiver ceases to apply, for example due to recovery of the policyholder on claim.
- d. Key provisions of the Basic Policy Endorsements are:
 - (1) MBP equal to the lesser of (a) the current benefit period, and (b) four years (beginning on the applicable Plan Effective Date);
 - (2) Minimum EP equal to the longer of (a) 90 calendar days, or (b) the current EP;
 - (3) Removal (discontinuation) of Return of Premium (ROP) benefit. As of the Plan Effective Date, policies with Return of Premium benefit will cease accruing returnable premium. However, for policies which provide that returnable premiums accrue over several years and are then paid, or which make some past premium returnable upon specified events, ROP benefits accrued prior to the Effective Date will not be lost and will be calculated up to the applicable Plan Effective Date. Such returnable premium accrued prior to the Effective Date will be repaid at the time when the payment would have been due absent modification under the Plan.
 - (4) Removal of Extension of Benefits provisions.
 - (5) For policies with annual inflation adjustment in MDB above 1.5%, reduction of the adjustment to 1.5%, retaining the original type (simple or compound);
 - (6) Reduction and adjustment of MDB by site of care. The MDB for Nursing Home Care will be the lesser of 80% of the MDB for such care in the current policy and \$300. The MDB for Facility Care other than Nursing Home Care will be the lesser of 80% of the MDB for such care in the current policy and \$225. The MDB for Home Health Care will be the lesser of 80% of the MDB for such care in the current policy and \$150;
 - (7) Adoption of ***Tax Qualified*** (TQ) Triggers. Tax Qualified or TQ Triggers require that a person 1) be expected to require care for at least 90 days, and be unable to perform 2 or more Activities of Daily Living (ADL - eating,

dressings, bathing, transferring, toileting, and continence) without substantial assistance (hands on or standby); or 2) for at least 90 days, need substantial assistance due to a severe cognitive impairment. In either case a licensed healthcare professional must certify a plan of care;

- (8) Conversion of reimbursement policies to indemnity;
 - (9) Conversion of "Days of Care" policies to "Pool of Money;"
 - (10) Removal of Restoration of Benefits (ROB) provisions; and
 - (11) Elimination of all Premium Waivers.
- e. This will be the Default Option for policyholders in this category (active-paying) whose Current Premium is lower than the If Knew Premium.
 - f. Unless the benefits of their current policies are lower, policyholders will also be offered an "Enhanced Basic Policy Endorsement" at higher If Knew Premium with the terms described above but caps at a five-year benefit period and 2% inflation. In Phase Two the premium for the Enhanced Basic Policy Endorsements will be at Self-sustaining Premium rates. For a policyholder whose current policy has a Maximum Benefit Period of less than five years but inflation above 2%, the Enhanced Basic Policy Endorsements will only affect the inflation benefit. For a policyholder whose current policy has inflation below 2% but a Maximum Benefit Period of more than five years, the Enhanced Basic Policy Endorsements will only affect the Maximum Benefit Period. The inflation type (simple or compound) will be the same as the current policy.
 - g. Except as noted in the next paragraph, and with the exception of the change from reimbursement to indemnity, benefits in the Basic Policy Endorsements (even in the Enhanced Basic Policy Endorsements) cannot exceed those in the current policy. If a particular component of the Basic Policy Endorsements provides more coverage than the current policy's corresponding provision, that provision of the current policy will not be modified by endorsement. Thus, for example, if the MBP of the current policy is three years, the Basic Policy Endorsements for that policy will incorporate a Maximum Benefit Period of three, not four or five, years.
 - h. For those policies with an MPV that is currently above their applicable Guaranty Association (GA) limits, the endorsed policy's MPV will be adjusted so that it is at least equal to the applicable GA limit. For those policies with an MPV below the applicable GA limits, the MPV of the endorsed policies will be adjusted so that it is at least equal to the current MPV. The adjustments will be made by lengthening the MBP.

3. OPTION THREE - NFO.

- a. Active-paying policyholders can elect a Non-forfeiture option (NFO) policy under which the MBP will be the lesser of 2.5 years and the policy's current MBP.
 - (1) Like the Basic Policy Endorsements, this will be an indemnity policy (not reimbursement);
 - (2) It will not have Extension of Benefits provisions;
 - (3) It will not have Return of Premium provisions;
 - (4) It will not have Restoration of Benefits provisions;
 - (5) It will convert "Days of Care" policies to "Pool of Money;"
 - (6) It will have a minimum 90-day elimination period;
 - (7) It will have TQ triggers;
 - (8) It will not have an inflation protection feature; and
 - (9) The Maximum Daily Benefit (MDB) will be reduced and adjusted for site of care. The MDB for Nursing Home Care will be the lesser of 80% of the MDB for such care in the current policy and \$300. The MDB for Facility Care other than Nursing Home Care will be the lesser of 80% of the MDB for such care in the current policy and \$225. The MDB for Home Health Care will be the lesser of 80% of the MDB for such care in the current policy and \$150.
- b. In those rare cases in which the specific policy provides for an NFO that has greater benefits than the Plan NFO, the policy-specific NFO will be offered instead.
- c. No additional premiums will be due for this policy and it will never lapse.
- d. Generally, this policy offers more benefits than traditional NFOs. It cannot be upgraded later.
- e. The selection of indemnity, rather than reimbursement, modality for Options Two and Three is expected to be of significant value to policyholders.

4. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY PHASE ONE PREMIUM.**
 - a. Active-paying policyholders can elect to keep their current benefits and their premiums will increase to the corresponding Phase One Premium. See Section I.A.1.a.(1)(a)i)a)69), page 127, above. Policyholders whose Current Premiums equal or exceed the If Knew Premium for their policies will continue to pay their Current Premiums. For those policyholders, this option, like Option One, does not result in any change.
 - b. Policyholders selecting this option may also face substantial rate increases or Benefit reductions in Phase Two.

B. ACTIVE LIVES NOT PAYING PREMIUM (*ACTIVE - WAIVER*)

Policyholders who, as of the Phase One election date, are NOT paying premiums due to the applicability of a premium waiver provision, but who are not disabled or eligible for benefits will have the following options.

1. **LIFETIME WAIVER** - Policyholders not paying premium due to Lifetime Waiver of Premium (because of the death of a spouse) will have essentially the same four options as premium paying active lives (see Section, III.A, page 41) with the following modifications:
 - a. **OPTION ONE - KEEP PREMIUM WAIVER AND DOWNGRADE POLICY BENEFITS.** If the Current (waived) Premium is equal to or greater than the If Knew Premium, the policyholder need not make any election, there will be no default downgrade, and Options One and Four will produce the same result - no change in their policies. If the Current Premium is less than the If Knew Premium the policy will be downgraded as follows.
 - (1) Due to the Premium Waiver the policyholder will continue not paying premium.
 - (2) The Downgrade Process will be the same as for premium-paying active lives (see Section III.A.1.c, page 42, above).
 - (3) The specific possible benefit reductions will be the ones described in Section III.A.1.f, page 45, above.
 - (4) The benefit reductions will be calibrated to the Current Premium as explained in Section III.A.1.b, page 42.
 - (5) This will be the Default Option for these policyholders. However, for those policyholders for whom the benefits that result from the Downgrade Process

in Option One are lower than those offered by the NFO, the NFO will be the Default Option.

b. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT IF KNEW DIFFERENTIAL PREMIUM (rather than the If Knew Premium).**

- (1) The If Knew Differential Premium for this option is the difference between the If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements and the Current (waived) Premium for the policy, both of which are set as if the policyholder did not have a Premium Waiver in effect. If the If Knew Differential Premium is less than zero, the policyholder will not be required to pay any additional premium for the Basic Policy Endorsements.
- (2) Policyholders will also be offered an “Enhanced Basic Policy Endorsement” at higher If Knew Premiums. See Section III.A.2.f, page 49.
- (3) Policyholders who elect this option in Phase One will not face premium rate increases or additional benefit reductions in Phase Two of the Plan.
- (4) If the current policy provides benefits (has an MPV) above the applicable Guaranty Association limits, the Guaranty Association floor on benefit reductions will be applied to these policyholders as described in Section III.A.2.h, page 49. If the current policy has an MPV below the applicable GA limits, the benefits of the endorsed policy will be adjusted so that the resulting MPV is at least equal to the current MPV.

c. **OPTION THREE - NFO (see Section III.A.3, page 50).**

d. **OPTION FOUR - KEEP THE CURRENT BENEFITS AND PAY PHASE ONE DIFFERENTIAL PREMIUM.**

- (1) The If Knew Differential Premium for this option is the difference between the If Knew Premium and the Current (waived) Premium for the policy, both of which are set as if the policyholder did not have a Premium Waiver in effect. If the If Knew Differential Premium is less than zero, the policyholder will not be required to pay any additional premium.
- (2) Policyholders who elect this Option may also face substantial rate increases in Phase Two.

2. **DUAL WAIVER - The options for a policyholder not on claim but not paying premium due to a Dual Waiver (because his or her spouse is on claim) will be the same as for a policyholder not on claim with a Lifetime Waiver except that the premium he or she must**

pay will be determined in part by the spouse's claim status. The default for these policyholders will be Option One (Downgrade). However, for those policyholders for whom the benefits that result from the Downgrade Process are lower than those offered by the NFO, Option Three, the NFO, will be the Default Option.

- a. **OPTION ONE - KEEP PREMIUM WAIVER AND DOWNGRADE POLICY BENEFITS.** The policyholder will retain the Current Premium Waiver. If the Current Premium the policyholder would be paying in the absence of waiver is equal to or greater than the If Knew Premium the policyholder need not make an election and the policy will not be downgraded by default. If the If Knew Premium is greater than the Current Premium the policyholder would be paying in the absence of waiver, the policy will be downgraded as follows:
 - (1) The Downgrade Process will be as described in Section III.A.1.c, page 42 subject to the following provisions.
 - (2) The same possible benefit reductions will apply, as described in Section III.A.1.f, page 45. Benefit reductions for each policyholder to whom this option applies will be calibrated to produce an If Knew Premium within 2% of the Current Premium for the policy (see Section III.A.1.b, page 42). However, because of the waiver, the policyholder will not be required to pay any premium.
 - (3) If the disabled spouse resumes paying premiums, the active spouse will also be required to resume paying premiums at the premium rate he or she would be paying if not on waiver, but if the policy has been downgraded it will remain downgraded.
- b. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT IF KNEW DIFFERENTIAL PREMIUM.**
 - (1) The policy will be modified through the Basic Policy Endorsements (See Section III.A.2.d, page 48). The policyholder will be required to pay the If Knew Differential Premium. The If Knew Differential Premium for this Option is the difference between the If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements and the Current (waived) Premium for the policy, both of which are set as if the policyholder did not have a Premium Waiver in effect. If the If Knew Differential Premium is less than zero, the policyholder will not be required to pay any additional premium for the Basic Policy Endorsements.
 - (2) Policyholders will also be offered an "Enhanced Basic Policy Endorsement" at higher If Knew Premiums. See Section III.A.2.f, page 49.

- (3) If the current policies provide benefits above the applicable Guaranty Association limits, the Guaranty Association floor on benefit reductions will be applied to these policyholders as described in Section III.A.2.h, page 49. For those policies with an MPV below the applicable GA limits, the benefits of the endorsed policies will be adjusted so that the resulting MPV is at least equal to the current MPV. The adjustments will be made by lengthening the MBP.
 - (4) Policyholders who elect this option in Phase One will not face premium rate increases or additional benefit reductions in Phase Two of the Plan, except as noted below.
 - (5) If the disabled spouse recovers, the active spouse will be required to begin paying the full If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements.
- c. **OPTION THREE - NFO.**
- (1) The policyholder can select a NFO. See Section III.A.3.
- d. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY PHASE ONE DIFFERENTIAL PREMIUM:** The policyholder will retain the current policy benefits and pay the Phase One Differential Premium (see Section II.E.7.b, page 29). However, if the disabled spouse recovers, the active spouse will be required to begin paying the full Phase One Premium. As noted, if the Current (waived) Premium is equal to or greater than the If Knew Premium, the policyholder will not be required to make an election or pay a Differential Premium.

C. DISABLED LIVES PAYING PREMIUM (*ON CLAIM - PAYING*)

Policyholders on claim, who are paying premiums, will have the same options as active lives paying premiums (see Section III.A, page 41), subject to the following conditions:

- 1. **OPTION ONE - KEEP CURRENT PREMIUM AND DOWNGRADE POLICY BENEFITS.**
 - a. Policyholders will preserve their Current Premium. For policyholders whose Current Premiums equal or exceed the If Knew Premium for their policies, no election will be necessary and no default downgrade would apply because they are already paying the Downgrade Target Premium and Options One and Four will produce the same result - no change in their policies. However, if the Current Premium is less than the If Knew Premium, the policy will be downgraded using the Downgrade Process and benefit reductions described in Sections III.A.1.c, page 42, and III.A.1.f, page 45, above, subject to the following provisions.

- b. The following Benefit Reductions would apply to new benefit periods after recovery:
 - (1) The changes in triggers described in Benefit Reduction Three;
 - (2) The change to reimbursement described in Benefit Reduction Six;
 - (3) The extension of elimination period described in Benefit Reduction Eight; and
 - (4) The elimination of premium waiver provisions in Benefit Reduction Ten.
 - c. The reductions will be calibrated to produce an If Knew Premium within 2% of the Current Premium for the policy (see Section III.A.1.b, page 42).
 - d. Note that the Downgrade Process does not increase the premium being paid prior to the downgrade, although in a few cases it may be reduced slightly.
2. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT IF KNEW PREMIUM.**
The policy will be endorsed as described in Section III.A.2.d, page 48, at If Knew Premium.
- a. For those policies with an MPV that is currently above their applicable Guaranty Association limits, the endorsed policy's benefits will be adjusted to produce an MPV at least equal to the applicable Guaranty Association limits. For those policies with MPV below the applicable GA limits, the benefits of the endorsed policies will be adjusted so that the resulting MPV is at least equal to the current MPV. The adjustments will be made by lengthening the MBP.
 - b. Policyholders will also be offered an "Enhanced Basic Policy Endorsement" at higher If Knew Premiums. See Section III.A.2.f, page 49.
 - c. Changes in EP and benefit trigger would apply to subsequent periods of care following recovery.
 - d. This will be the default for these policyholders if their Current Premium is lower than the If Knew Premium.
3. **OPTION THREE - NFO.** See Section III.A.3.
4. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY PHASE ONE PREMIUM.**
Policyholders can elect to keep their current benefits and their premiums will increase to the Phase One Premium. Policyholders whose Current Premiums equal or exceed the If Knew Premium for their policies will continue to pay their Current Premiums. Policyholders who elect this Option may also face substantial rate increases in Phase Two.
5. In some cases, options like the Downgrade or Basic Policy Endorsements may result in a reduction of the benefits being received by the policyholder on claim at the time of the

election. It is also possible that the If Knew Premium for the Basic Policy Endorsements will be lower than the policyholder's Current Premium.

D. DISABLED LIVES NOT PAYING PREMIUM (*ON CLAIM - WAIVER*)

Policyholders who, as of the Phase One Policyholder Election Date, are not paying premiums due to a premium waiver provision and are disabled or eligible for benefits will have the following options.

1. OPTION ONE - KEEP PREMIUM WAIVER AND DOWNGRADE POLICY BENEFITS.

- a. These policyholders will preserve their Premium Waiver but, if the Current Premium they would be paying in the absence of waiver is less than the If Knew Premium, the policies will be downgraded. The Downgrade Process will be as described in Section III.A.1.c, page 42, and the benefit reductions described in Section III.A.1.f, page 45, above.
- b. This is the Default Option for policyholders on claim with waiver of premium in Phase One. However, for those policyholders for whom the benefits that result from the Downgrade Process are lower than those offered by the NFO, the NFO (Option Three) will be the Default Option.
- c. The reductions will be calibrated to produce an If Knew Premium within 2% of the Current Premium for the policy (see Section III.A.1.b, page 42). However, because of the waiver, the policyholder will not be required to pay any premium.
- d. If the policyholder is required to resume paying premiums, the premiums will be at the rate the policyholder would be paying if not on waiver, but the policy will remain downgraded. Note that the Downgrade Process does not increase the premium being paid prior to the downgrade.
- e. The following Benefit Reductions would apply to new benefit periods after recovery:
 - (1) The changes in triggers described in Benefit Reduction Three;
 - (2) The change to reimbursement described in Benefit Reduction Six;
 - (3) The extension of elimination period described in Benefit Reduction Eight; and
 - (4) The elimination of premium waiver provisions in Benefit Reduction Ten.
- f. The reductions will be calibrated to produce an If Knew Premium within 2% of the Current Premium for the policy (see Section III.A.1.b, page 42).

2. OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT IF KNEW DIFFERENTIAL PREMIUM.

- a. These policyholder will have the option to have the current policy endorsed to provide benefits substantially similar to a newly designed Basic Policy. See Section III.A.2.d, page 48, above.
- b. Policyholders will also be offered an “Enhanced Basic Policy Endorsement” at higher If Knew Premiums. See Section III.A.2.f, page 49.
- c. Changes in EP and benefit trigger would apply to subsequent periods of care following recovery.
- d. With the exception of the change from reimbursement to indemnity, no component of the endorsed policy can be richer than the current policy.
- e. If the Current Premium the policyholder would be paying but for the waiver is less than the If Knew Premium for this policy, the policyholder must begin paying the If Knew Differential Premium. The If Knew Differential Premium for this option is the difference between the If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements and the current premium for the policy, both of which are set as if the policyholder did not have a premium waiver in effect. As noted, if the If Knew Differential Premium is less than zero, the policyholder will not be required to pay any additional premium for the Basic Policy Endorsements.
- f. If the disabled policyholder recovers, the waiver of premium benefit will no longer be applicable or available in the future, and he or she will be required to begin paying the full If Knew Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements, even if it is lower than the current waived premium.
- g. Although they will be required to pay the full If Knew Premium rather than the Differential Premium upon recovery, policyholders who elect this option in Phase One will not face other premium rate increases or additional benefit reductions in Phase Two of the Plan.
- h. For those policies with an MPV that is currently above their applicable GA limits, the endorsed policy’s benefits will be adjusted to produce an MPV at least equal to the applicable Guaranty Association limits. For those policies with MPV below the applicable GA limits, the benefits of the endorsed policies will be adjusted so that they produce MPVs at least equal to the current MPVs. The adjustments will be made by lengthening the MBP.

3. **OPTION THREE - NFO.** Policyholders can elect a Non-forfeiture Option (NFO). See Section III.A.3.
4. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY PHASE ONE DIFFERENTIAL PREMIUM.** If the Current Premium the policyholder would be paying in the absence of waiver is equal to or greater than the If Knew Premium, the policyholder will not be required to make an election or pay a Differential Premium.
 - a. Policyholders on claim with Premium Waiver (whose waived premium is below the If Knew Premium) can keep their current policy benefits.
 - b. Their Premium Waiver (including Lifetime and Dual) will apply only to the Current Premium they would be paying absent the waiver. If the Current Premium the policyholders would be paying but for the waiver is less than the If Knew Premium for this policy, they will be required to begin paying the corresponding Phase One Differential Premium. (See Section II.E.7.b, page 29).
 - c. If the policyholders recover, they will be required to begin paying the full Phase One Premium.

IV. DETAILS OF PHASE TWO OF THE PLAN

Phase Two will be implemented as and when deemed necessary by the Rehabilitator depending on the results of Phase One. As currently contemplated, it will be similar in structure to Phase One though based on Self-sustaining premiums rather than If Knew Premium. THE DETAILS OF PHASE TWO CALCULATIONS ARE SUBJECT TO CHANGE AND REFINEMENT DEPENDING ON THE RESULTS OF PHASE ONE AND INTERVENING EVENTS. POLICYHOLDERS WHO WERE REQUIRED TO PAY MODERATELY HIGHER PREMIUMS FOR OPTION FOUR IN PHASE ONE MAY BE REQUIRED TO PAY MATERIALLY HIGHER PREMIUMS TO PRESERVE THEIR COVERAGE IN PHASE TWO.

A. APPLICATION

1. Throughout the period that follows implementation of Phase One, the Company's financial condition will be monitored with emphasis on projected changes in the Company's deficit.
2. The evaluation of the Company's condition will include a determination of the magnitude of additional remedial measures required to eliminate any projected remaining deficit. The evaluation will include projections of the effect of Phase One over time.
3. A decision will then be made as to whether, when, and how Phase Two should be implemented.

4. Phase Two adjustments will only be made to policies that:
 - a. Are not Fully Covered by the applicable Guaranty Association limits (*i.e.*, have Uncovered Benefits),
 - b. Are not Self-sustaining (because the sum of projected benefits and expenses exceeds the sum of allocated assets and projected premium), and
 - c. Did not elect Option Two (Basic Policy Endorsements) or Option Three (NFO) in Phase One.
5. Phase Two adjustments will be calculated after the results of Phase One adjustments have been incorporated.
6. While policy modifications in Phase Two will largely be based on Self-sustaining Premiums rather than If Knew Premium, it is possible that, depending on the outcome of Phase One and other relevant considerations, an alternative premium structure will be used in Phase Two. That determination will be made before policyholders are required to make elections in Phase Two and the results of that determination will be included in information provided to policyholders before they are required to make such elections.

B. ACTIVE LIVES PAYING PREMIUM (*ACTIVE - PAYING*)

Policyholders who, as of the Phase Two Policyholder Election Date, are paying premiums and are not disabled or eligible for benefits will have the following options.

1. **OPTION ONE - KEEP CURRENT PREMIUM AND DOWNGRADE POLICY BENEFITS.**
 - a. Such policyholders not on claim paying premium can elect in Phase Two to keep the premium rate resulting from Phase One and reduce benefits to eliminate the policy shortfall.
 - b. The benefit reduction process and options will be the same as in Phase One (see Section III.A.1.c page 42) but the current benefits will be reduced so that they produce a Self-sustaining Premium that is within 2% of the policyholder's Current Premium.
 - c. As in Phase One, each policyholder will only receive one downgrade option, calculated as described in Section III.A.1.c.

2. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT SELF-SUSTAINING PREMIUM.**
 - a. Active-paying policyholders can choose to have their current policy endorsed to provide benefits substantially similar to a newly designed Basic Policy. See Section III.A.2.d, page 48.
 - b. This is the Default Option for premium paying active lives in Phase Two.
 - c. Premiums will be set to the corresponding Self-sustaining Premium level. The premium for this option will be no less than 110% of the Basic Policy If Knew Premium for this policy reflecting the cost of delay in making this election until Phase Two.
 - d. Policyholders will also be offered an “Enhanced Basic Policy Endorsement” at higher Self-sustaining Premiums. See Section III.A.2.f, page 49.
 - e. With the exception of the change from reimbursement to indemnity, post-endorsement benefits cannot exceed those in the current policy. If a particular component of the Basic Policy Endorsements provides more coverage than the current policy’s corresponding provision, that provision of the current policy will not be modified by endorsement.
 - f. For those policies with an MPV that is currently above their applicable GA limits, the endorsed policy’s benefits will be adjusted to produce an MPV at least equal to the applicable Guaranty Association limits. For those policies with an MPV below the applicable GA limits, the benefits of the endorsed policies will be adjusted so that they produce MPVs at least equal to the current MPVs. The adjustments will be made by lengthening the MBP.
3. **OPTION THREE - NFO.** Such policyholders can elect a Non-forfeiture Option. See Section III.A.3.
4. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY SELF-SUSTAINING PREMIUM.**
 - a. These policyholders can elect to maintain the current policy benefits but will be required to pay Self-sustaining Premiums.
 - b. As noted previously, the Self-sustaining Premium is the premium calculated to eliminate any Shortfall Amount in the policy. The shortfall is the excess of the sum of projected benefits and expenses (the PBA) over the sum of projected premiums and Allocated Assets (the PCA). See Section II.E.4, page 27, above.

C. ACTIVE LIVES NOT PAYING PREMIUM (*ACTIVE - WAIVER*)

Policyholders who, as of the Phase Two Policyholder Election Date, are not paying premiums due to a premium waiver provision, but who are not disabled or eligible for benefits will have the following options.

1. LIFETIME WAIVER - Such policyholders on lifetime waiver (due to the death of a spouse) will have essentially the same four options as premium paying policyholders not on claim (See Section IV.B, page 59) with the following modifications:
 - a. OPTION ONE - KEEP PREMIUM WAIVER AND DOWNGRADE POLICY BENEFITS. This will be the Default Option for these policyholders. However, for those policyholders for whom the benefits that result from the Downgrade Process are lower than those offered by the NFO, the NFO (Option Three) will be the Default Option.
 - (1) Due to the Premium Waiver the policyholder will continue not paying premium.
 - (2) The Downgrade Process will be the same as for premium-paying active lives in Phase One (see Section III.A.1.c, page 42, above).
 - (3) The specific possible benefit reductions will be the ones described in Section III.A.1.f, page 45, above,
 - (4) In this case the benefit reductions will be calibrated such that the projected benefits and expenses (the PBA) are equal to the sum of projected premiums and the assets allocated to the policy on an accumulated premium basis (the PCA).
 - b. OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT SELF-SUSTAINING DIFFERENTIAL PREMIUM. If the current policies provide benefits above the applicable Guaranty Association limits, the Guaranty Association floor on benefit reductions will be applied to these policyholders as described in Section III.A.2.h, page 49. For those policies with MPV below the applicable GA limits, the benefits of the endorsed policies will be adjusted so that they produce MPVs at least equal to the current MPVs. The adjustments will be made by lengthening the MBP.
 - (1) The Self-sustaining Premium used for the calculation for this option will be no less than 110% of the Basic Policy If Knew Premium for this policy reflecting the cost of delay in making this election until Phase Two.

- (2) Policyholders will also be offered an “Enhanced Basic Policy Endorsement”. See Section III.A.2.f, page 49 at higher Self-sustaining Differential Premiums. The Self-sustaining Premium used for the calculation for this option will be no less than 110% of the Basic Policy If Knew Premium for this policy reflecting the cost of delay in making this election until Phase Two.
 - c. OPTION THREE - NFO (see Section III.A.3, page 50).
 - d. OPTION FOUR - KEEP CURRENT BENEFITS AND PAY SELF-SUSTAINING DIFFERENTIAL PREMIUM. The new premium will be the Self-sustaining Differential Premium described in the next paragraph.
 - e. The *Self-sustaining Differential Premium* is the difference between (1) the corresponding Self-sustaining Premium set as if the policyholder were not on claim and (2) the Current Premium the policyholder would be paying if he or she were not on Premium Waiver. The Self-sustaining Differential Premium will never be less than zero.
2. DUAL WAIVER - The options for a policyholder not on claim but not paying premium due to a dual waiver (because his or her spouse is on claim) will be the same as for a policyholder not on claim with a lifetime waiver except that the premium he or she must pay will be determined in part by the spouse’s claim status. The default for these policyholders will be Option One (Downgrade). However, for those policyholders for whom the benefits that result from the Downgrade Process are lower than those offered by the NFO, the NFO (Option Three) will be the Default Option.
- a. OPTION ONE - KEEP PREMIUM WAIVER AND DOWNGRADE POLICY BENEFITS. The policyholder will retain the Current Premium Waiver but the policy will be downgraded.
 - (1) The Downgrade Process will be as described in Section III.A.1.c, page 42 subject to the following provisions.
 - (2) The Benefit Reductions will apply, as described in Section III.A.1.f, page 45. Benefit reductions for each policyholder to whom this option applies will be calibrated to produce a Self-sustaining Premium equal to the premium the policyholder would be paying if not on waiver (the Current Premium). However, because of the waiver, the policyholder will not be required to pay any premium.
 - (3) If the disabled spouse resumes paying premiums, the active spouse will also be required to resume paying premiums at the premium rate he or she would be paying if not on waiver, but the policy will remain downgraded.

b. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT SELF-SUSTAINING DIFFERENTIAL PREMIUM.**

- (1) The policy will be modified through the Basic Policy Endorsements (See Section III.A.2.d, page 48). The policyholder will be required to pay the Self-sustaining Differential Premium.
- (2) If the current policies provide benefits above the applicable Guaranty Association limits, the Guaranty Association floor on benefit reductions will be applied to these policyholders as described in Section III.A.2.h, page 49. For those policies with MPV below the applicable GA limits, the benefits of the endorsed policies will be adjusted so that they produce MPVs at least equal to the current MPVs. The adjustments will be made by lengthening the MBP.
- (3) Policyholders will also be offered an “Enhanced Basic Policy Endorsement” at higher Self-sustaining Premiums. See Section III.A.2.f, page 49.
- (4) The Self-sustaining Premium used for the calculation for this option will be no less than 110% of the Basic Policy If Knew Premium for this policy, reflecting the cost of delay in making this election until Phase Two
- (5) If the disabled spouse recovers the active spouse will be required to begin paying the full Self-Sustaining Premium corresponding to the benefits provided by the policy after implementing the Basic Policy Endorsements.

c. **OPTION THREE - NFO.** The policyholders can elect a Non-forfeiture Option. See Section III.A.3.

d. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY SELF-SUSTAINING DIFFERENTIAL PREMIUM.** The policyholder will retain the current policy benefits and pay the Self-sustaining Differential Premium (see Section IV.C.1.e, page 62).

- (1) If the disabled spouse recovers the active spouse will be required to begin paying the full Self-sustaining Premium.
- (2) The Self-sustaining Differential Premium cannot be less than zero.

D. DISABLED LIVES PAYING PREMIUM (*ON CLAIM - PAYING*)

Policyholders on claim who are paying premiums will have the same options as active lives paying premiums (see Section IV.B, page 59) subject to the following conditions.

1. **OPTION ONE - KEEP CURRENT PREMIUM AND DOWNGRADE POLICY BENEFITS.** Keep the Current Premium rates but accept specified downgrades. The Downgrade process will be as described in Section III.A.1.c, page 42. The Benefit Reductions described in Section III.A.1.f, page 45 will apply, but the benefits will be reduced so that they produce a Self-Sustaining Premium within 2% of the Current Premium.
2. **OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT SELF-SUSTAINING PREMIUM.** The policy will be endorsed as described in Section III.A.2.d, page 48, at Self-sustaining Premium
 - a. The Self-sustaining Premium used for the calculation for this option will be no less than 110% of the Basic Policy If Knew Premium for this policy reflecting the cost of delay in making this election until Phase Two.
 - b. Changes in EP and benefit trigger would apply to subsequent periods of care following recovery.
 - c. For those policies with MPVs that are currently above their applicable GA limits, the endorsed policy's benefits will be adjusted to produce MPVs at least equal to the applicable GA limits. For those policies with MPVs below the applicable GA limits, the benefits of the endorsed policies will be adjusted so that they produce MPVs at least equal to the current MPVs. The adjustments will be made by lengthening the MBP.
 - d. This will be the default for these policyholders.
 - e. Policyholders will also be offered an "Enhanced Basic Policy Endorsement" at higher Self-sustaining Premiums. See Section III.A.2.f, page 49.
3. **OPTION THREE - NFO.** See Section III.A.3.
4. **OPTION FOUR - KEEP CURRENT BENEFITS AND PAY SELF-SUSTAINING PREMIUM.** The Self-sustaining Premium will be set as if the policyholder were not on claim. However, in so doing assets will be allocated to the policyholders according to the method previously described for Disabled Lives.
5. In some cases, options like the Downgrade or Basic Policy Endorsements may result in a reduction of the benefits being received by the policyholder on claim at the time of the election.

E. DISABLED LIVES NOT PAYING PREMIUM (*ON CLAIM - WAIVER*)

Policyholders who, as of the Phase Two Policyholder Election Date, are not paying premiums due to a premium waiver provision, and who are disabled or eligible for benefits will have the following options.

1. OPTION ONE - KEEP PREMIUM WAIVER AND DOWNGRADE POLICY BENEFITS.

- a. This is the Default Option for policyholders on claim with Premium Waiver in Phase Two. However, for those policyholders for whom the benefits that result from the Downgrade Process are lower than those offered by the NFO, the NFO (Option Three) will be the Default Option.
- b. Policyholders may preserve their Premium Waiver and the policy will be downgraded. The Downgrade Process will be as described in Section III.A.1.c, page 42. The Benefit Reductions described in Section III.A.1.f, page 45, above, will apply but benefits will be reduced so that they produce a Self-sustaining premium that is within 2% of the Current Premium.
- c. If the policyholder resumes paying premiums, the premiums will be at the rate the policyholder would be paying if not on waiver, but the policy will remain downgraded. Note that the Downgrade Process made that premium equal to the Self-sustaining Premium for the downgraded policy at the time of implementation of Phase Two.
- d. If the policyholder regains active status, for future periods of care:
 - (1) The EP will be no less than 90 days. If the current EP is more than 90 days, the policy will retain the current EP;
 - (2) The EP will apply to each period of care; and
 - (3) TQ Triggers will apply. See Section III.A.2.d.(7), page 48.

2. OPTION TWO - TAKE BASIC POLICY ENDORSEMENTS AT SELF-SUSTAINING DIFFERENTIAL PREMIUM.

- a. The policyholder will have the option to have the current policy endorsed to provide benefits substantially similar to a newly designed Basic Policy. See Section III.A.2.d, page 48.
- b. The policyholder must begin paying the Self-sustaining Differential Premium corresponding to the Self-sustaining premium for the Basic Policy Endorsements set as if the policyholder were not on claim. The Self-sustaining Premium used for the

calculation for this option will be no less than 110% of the Basic Policy If Knew Premium for this policy reflecting the cost of delay in making this election in Phase Two.

- c. With the exception of the change from reimbursement to indemnity, no component of the endorsed policy can be richer than the current policy.
 - d. For those policies with MPVs that are currently above their applicable GA limits, the endorsed policy's benefits will be adjusted to produce MPVs at least equal to the applicable Guaranty Association limits. For those policies with MPVs below the applicable GA limits, the benefits of the endorsed policies will be adjusted so that they produce MPVs at least equal to the current MPVs. The adjustments will be made by lengthening the MBP.
 - e. Policyholders will also be offered an "Enhanced Basic Policy Endorsement" at higher Self-sustaining Premiums. See Section III.A.2.f, page 49.
 - f. Changes in EP and benefit trigger would apply to subsequent periods of care following recovery.
 - g. If the policyholder recovers, he or she will be required to begin paying the full Self-sustaining Premium.
3. OPTION THREE - NFO. Policyholders can elect a Non-forfeiture Option. See Section III.A.3.
4. OPTION FOUR - KEEP CURRENT BENEFITS AND PAY SELF-SUSTAINING DIFFERENTIAL PREMIUM.
- a. A policyholder on claim with Premium Waiver can keep the current policy benefits.
 - b. The Premium Waiver (including lifetime and dual) will apply only to the Current Premium. The policyholder will be required to begin paying the corresponding Self-sustaining Differential Premium (see Section IV.C.1.e, page 62). If the policyholder recovers he or she will be required to begin paying the full Self-sustaining Premium.

F. SUMMARY OF POLICYHOLDER OPTIONS

The following table summarizes all of the options available to policyholders under the Plan depending on their claim and premium-paying status in both Phase One and Phase Two.

TABLE 6: POLICYHOLDER OPTIONS

	PHASE ONE	PHASE TWO
ACTIVE PAYING	1. KEEP PREMIUM - DOWNGRADE 2. BASIC POLICY - IF KNEW PREMIUM* 3. NFO 4. KEEP BENEFITS - PHASE ONE PREMIUM	1. KEEP PREMIUM - DOWNGRADE 2. BASIC POLICY - SELF SUSTAINING PREMIUM* 3. NFO 4. KEEP BENEFITS - SELF-SUSTAINING PREMIUM
ACTIVE WAIVER	1. DOWNGRADE - RETAIN PREMIUM WAIVER*‡ 2. BASIC POLICY - IF KNEW DIFFERENTIAL PREMIUM 3. NFO 4. KEEP BENEFITS - PHASE ONE DIFFERENTIAL PREMIUM DUAL WAIVER PREMIUM GOVERNED IN PART BY SPOUSE'S STATUS	1. DOWNGRADE - RETAIN PREMIUM WAIVER*‡ 2. BASIC POLICY - SELF SUSTAINING DIFFERENTIAL PREMIUM† 3. NFO 4. KEEP BENEFITS - SELF SUSTAINING DIFFERENTIAL PREMIUM† DUAL WAIVER PREMIUM GOVERNED IN PART BY SPOUSE'S STATUS
ON CLAIM PAYING	1. KEEP PREMIUM - DOWNGRADE 2. BASIC POLICY - IF KNEW PREMIUM* 3. NFO 4. KEEP BENEFITS - PHASE ONE PREMIUM	1. KEEP PREMIUM - DOWNGRADE 2. BASIC POLICY - SELF SUSTAINING PREMIUM*† 3. NFO 4. KEEP BENEFITS - SELF SUSTAINING PREMIUM†
ON CLAIM WAIVER	1. DOWNGRADE - RETAIN PREMIUM WAIVER*‡ 2. BASIC POLICY - IF KNEW DIFFERENTIAL PREMIUM 3. NFO 4. KEEP BENEFITS - PHASE ONE DIFFERENTIAL PREMIUM	1. - DOWNGRADE - RETAIN PREMIUM WAIVER*‡ 2. BASIC POLICY - SELF-SUSTAINING DIFFERENTIAL PREMIUM† 3. NFO 4. KEEP BENEFITS - SELF SUSTAINING DIFFERENTIAL PREMIUM†
*Default Option. †Self-sustaining premium calculated as if policyholder not on claim. ‡If the NFO provides greater benefits, that will be the Default Option. In Phase One, policyholders whose Current Premium is not less than the If Knew Premium need not change premiums or benefits. Option 2 preserves the GA floor for policyholders with benefits above that.		

G. POLICY ILLUSTRATIONS

The following twelve examples illustrate how these options work for some representative policies. The policies selected are actual in-force SHIP policies. They were selected to provide a representative variety of policy features. Reviewing sample policies resembling a particular policy will provide an indication of how the Plan will result in modifications to that policy. Because of the differences among the features in the sample policies, it may be helpful to review several sample policies to see how particular features are affected by the Plan.

ILLUSTRATIVE POLICYHOLDER GUIDANCE PAGE

This page is provided to assist you in comparing the Plan Options to each other and in selecting the best one for your individual circumstances. The yellow boxes contain the comparative data. The rest of this page provides explanations for that data.

YOUR CURRENT POLICY: These are the key details and characteristics of your current policy before modification under the Plan.

CURRENT PREMIUM	\$529	ILLUSTR. #	1	YEAR ISSUED	1988
MAXIMUM DAILY BENEFIT	\$160			AGE WHEN ISSUED	57
MAXIMUM BENEFIT PERIOD (in years)	2.0			CURRENT AGE	89
MAXIMUM POLICY VALUE	\$116,800			GUAR ASSN LIMIT ¹	\$300,000
INFLATION PROTECTION	0.0%			STATE OF ISSUE	PA
PREMIUM AND CLAIM STATUS	Premium paying	Active		STATE OF RESIDENCE	PA

COMPARISON OF RELATIVE VALUES: This chart shows the value of several metrics for your current policy and each Option available to you under the Plan. Each metric may have greater or lesser importance for a particular policyholder. The table should enable you to compare the metric(s) most important to you from Option to Option.

Policy Value Indicators^{2,3}

#	METRIC	DESCRIPTION	Current	Option 1	Option 2	Option 2a	Option 3	Option 4
			Your Policy Now	Downgrade	Basic Policy	Enhanced Basic Policy	Enhanced RPU	Phase I premium (Current Benefits)
1	PREMIUM FOR EACH OPTION	This is the actual premium for your current policy and for each Option available to you.	\$529	\$529	\$172	\$172	NO PREMIUM	\$618
2	PREMIUM INCREASE OR DECREASE FOR EACH OPTION	For each option, this shows the change from your current premium.	N/A	\$0 0.0%	-\$357 -67.5%	-\$357 -67.5%	-\$529 -100.0%	+\$89 +16.8%
3	MAXIMUM BENEFIT PERIOD ⁴	This is the Maximum Benefit Period (years of care) available under your current policy and each Option.	2.0	2.0	2.5	2.5	2.0	2.0
4	MAXIMUM DAILY BENEFIT ⁴	This the Maximum Daily Benefit as of the Plan Effective Date available under your policy and each Option.	\$160	\$149	\$128	\$128	\$128	\$160
5	MAXIMUM POLICY VALUE ⁵	This is the maximum amount of coverage provided by your current policy and each Option, adjusted for inflation if applicable.	\$116,800	\$109,036	\$116,800	\$116,800	\$93,440	\$116,800
6	INFLATION	This is the degree of inflation protection provided by your policy and each option.	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%
7	POTENTIAL UNCOVERED BENEFITS	This is the amount of your Maximum Policy Value that would not be covered by the applicable state insurance guaranty association in the event SHIP were placed in liquidation.	\$0	\$0	\$0	\$0	\$0	\$0

¹ In the event the Commonwealth Court of Pennsylvania places SHIP into liquidation, your guaranty association coverage would be limited to the statutory limit associated with your state of residence. In this scenario, you may be subject to a premium rate increase at the discretion of the guaranty association and subject to approval by the state in which your policy was issued. The expected premium rate requested by the guaranty association would be:

\$618

² If you elect Option 1 or Option 4 you may be subject to Phase II premium rate increases. For purposes of comparison, although it would be adjusted to reflect the effect of Phase 1, if it were calculated as of the Effective Date, the self sustaining premium for your policy would be:

\$2,835

³ Policy Value Indicators reflect policy status as of the Effective Date. All metric values will change subsequent to the effective date. The changes will be significant for active policyholders who become disabled and for disabled policyholders who become active.

⁴ Maximum Benefit Period and Maximum Daily Benefit are shown for the highest level of care covered by the policy. Nursing home is the highest level of care, assisted living facility is the second-highest level of care, and home-health care is the third-highest level of care.

⁵ Maximum Policy Value is the product of the policy's Maximum Benefit Period times its Maximum Daily Benefit, adjusted for inflation. For active policyholders, inflation is accounted for by assuming a claim is incurred on the Effective Date. Actual Maximum Policy Value will vary from policyholder to policyholder and will depend on when a claim is incurred.

The Proposed Rehabilitation Plan (the "Plan") is aimed at reducing or eliminating a very substantial "Funding Gap" or deficit arising from the excess of projected liabilities over the premium and assets projected to be available to fund them, in part by modifying many existing LTC policies while striving to provide policyholders meaningful choices. IF THE REHABILITATION PLAN FAILS TO REDUCE THE FUNDING GAP SUFFICIENTLY, IT IS POSSIBLE THAT SHIP WILL BE PLACED IN LIQUIDATION, POLICYHOLDERS WILL HAVE FEWER OPTIONS, AND SOME MAY LOSE SOME OR ALL OF THEIR COVERAGE IN EXCESS OF GUARANTY ASSOCIATION LIMITS. See discussion beginning at page 92 and especially page 95.

\$14,639

³ Policy Value Indicators reflect policy status as of the Effective Date. All metric values will change subsequent to the effective date. The changes will be significant for active policyholders who become disabled and for disabled policyholders who become active.

⁴ Maximum Benefit Period and Maximum Daily Benefit are shown for the highest level of care covered by the policy. Nursing home is the highest level of care, assisted living facility is the second-highest level of care, and home-health care is the third-highest level of care.

⁵ Maximum Policy Value is the product of the policy's Maximum Benefit Period times its Maximum Daily Benefit, adjusted for inflation. For active policyholders, inflation is accounted for by assuming a claim is incurred on the Effective Date. Actual Maximum Policy Value will vary from policyholder to policyholder and will depend on when a claim is incurred.

The Proposed Rehabilitation Plan (the "Plan") is aimed at reducing or eliminating a very substantial "Funding Gap" or deficit arising from the excess of projected liabilities over the premium and assets projected to be available to fund them, in part by modifying many existing LTC policies while striving to provide policyholders meaningful choices. IF THE REHABILITATION PLAN FAILS TO REDUCE THE FUNDING GAP SUFFICIENTLY, IT IS POSSIBLE THAT SHIP WILL BE PLACED IN LIQUIDATION, POLICYHOLDERS WILL HAVE FEWER OPTIONS, AND SOME MAY LOSE SOME OR ALL OF THEIR COVERAGE IN EXCESS OF GUARANTY ASSOCIATION LIMITS. See discussion beginning at page 92 and especially page 95.

ILLUSTRATIVE POLICYHOLDER GUIDANCE PAGE

This page is provided to assist you in comparing the Plan Options to each other and in selecting the best one for your individual circumstances. The yellow boxes contain the comparative data. The rest of this page provides explanations for that data.

YOUR CURRENT POLICY: These are the key details and characteristics of your current policy before modification under the Plan.

CURRENT PREMIUM	\$6,306	ILLUSTR. #	5	YEAR ISSUED	1995
MAXIMUM DAILY BENEFIT	\$339			AGE WHEN ISSUED	64
MAXIMUM BENEFIT PERIOD (in years)	3.0			CURRENT AGE	89
MAXIMUM POLICY VALUE	\$395,961			GUAR ASSN LIMIT ¹	\$300,000
INFLATION PROTECTION	5.0%			STATE OF ISSUE	OH
PREMIUM AND CLAIM STATUS	Premium paying	Active		STATE OF RESIDENCE	OH

COMPARISON OF RELATIVE VALUES: This chart shows the value of several metrics for your current policy and each Option available to you under the Plan. Each metric may have greater or lesser importance for a particular policyholder. The table should enable you to compare the metric(s) most important to you from Option to Option.

Policy Value Indicators^{2,3}

#	METRIC	DESCRIPTION	Current	Option 1	Option 2	Option 2a	Option 3	Option 4
			Your Policy Now	Downgrade	Basic Policy	Enhanced Basic Policy	Enhanced RPU	Phase I premium (Current Benefits)
1	PREMIUM FOR EACH OPTION	This is the actual premium for your current policy and for each Option available to you.	\$6,306	\$6,306	\$8,146	\$8,169	NO PREMIUM	\$10,727
2	PREMIUM INCREASE OR DECREASE FOR EACH OPTION	For each option, this shows the change from your current premium.	N/A	\$0 0.0%	+\$1,840 +29.2%	+\$1,863 +29.5%	-\$6,306 -100.0%	+\$4,421 +70.1%
3	MAXIMUM BENEFIT PERIOD ⁴	This is the Maximum Benefit Period (years of care) available under your current policy and each Option.	3.0	0.9	3.0	3.0	2.5	3.0
4	MAXIMUM DAILY BENEFIT ⁴	This the Maximum Daily Benefit as of the Plan Effective Date available under your policy and each Option.	\$339	\$271	\$271	\$271	\$271	\$339
5	MAXIMUM POLICY VALUE ⁵	This is the maximum amount of coverage provided by your current policy and each Option, adjusted for inflation if applicable.	\$395,961	\$92,110	\$302,598	\$304,598	\$247,207	\$395,961
6	INFLATION	This is the degree of inflation protection provided by your policy and each option.	5.0%	0.0%	1.5%	2.0%	0.0%	5.0%
7	POTENTIAL UNCOVERED BENEFITS	This is the amount of your Maximum Policy Value that would not be covered by the applicable state insurance guaranty association in the event SHIP were placed in liquidation.	\$95,961	\$0	\$2,598	\$4,598	\$0	\$95,961

¹ In the event the Commonwealth Court of Pennsylvania places SHIP into liquidation, your guaranty association coverage would be limited to the statutory limit associated with your state of residence. In this scenario, you may be subject to a premium rate increase at the discretion of the guaranty association and subject to approval by the state in which your policy was issued. The expected premium rate requested by the guaranty association would be:

\$10,259

² If you elect Option 1 or Option 4 you may be subject to Phase II premium rate increases. For purposes of comparison, although it would be adjusted to reflect the effect of Phase 1, if it were calculated as of the Effective Date, the self sustaining premium for your policy would be:

\$18,830

³ Policy Value Indicators reflect policy status as of the Effective Date. All metric values will change subsequent to the effective date. The changes will be significant for active policyholders who become disabled and for disabled policyholders who become active.

⁴ Maximum Benefit Period and Maximum Daily Benefit are shown for the highest level of care covered by the policy. Nursing home is the highest level of care, assisted living facility is the second-highest level of care, and home-health care is the third-highest level of care.

MAXIMUM DAILY BENEFIT	\$206			AGE WHEN ISSUED	55
MAXIMUM BENEFIT PERIOD (in years)	Unlimited			CURRENT AGE	84
MAXIMUM POLICY VALUE	Unlimited			GUAR ASSN LIMIT ¹	\$300,000
INFLATION PROTECTION	5.0%			STATE OF ISSUE	TX
PREMIUM AND CLAIM STATUS	Claim waiver	Disabled		STATE OF RESIDENCE	TX

COMPARISON OF RELATIVE VALUES: This chart shows the value of several metrics for your current policy and each Option available to you under the Plan. Each metric may have greater or lesser importance for a particular policyholder. The table should enable you to compare the metric(s) most important to you from Option to Option.

Policy Value Indicators^{2,3}

#	METRIC	DESCRIPTION	Current	Option 1	Option 2	Option 2a	Option 3	Option 4
			Your Policy Now	Downgrade	Basic Policy	Enhanced Basic Policy	Enhanced RPU	Phase I premium (Current Benefits)
1	PREMIUM FOR EACH OPTION	This is the actual premium for your current policy and for each Option available to you.	NO PREMIUM	NO PREMIUM	NO PREMIUM	NO PREMIUM	NO PREMIUM	\$864
2	PREMIUM INCREASE OR DECREASE FOR EACH OPTION	For each option, this shows the change from your current premium.	N/A	\$0 NA	\$0 NA	\$0 NA	\$0 NA	+\$864 NA
3	MAXIMUM BENEFIT PERIOD ⁴	This is the Maximum Benefit Period (years of care) available under your current policy and each Option.	Unlimited	Unlimited	4.8	5.0	2.5	Unlimited
4	MAXIMUM DAILY BENEFIT ⁴	This the Maximum Daily Benefit as of the Plan Effective Date available under your policy and each Option.	\$206	\$185	\$165	\$165	\$165	\$206
5	MAXIMUM POLICY VALUE ⁵	This is the maximum amount of coverage provided by your current policy and each Option, adjusted for inflation if applicable.	Unlimited	Unlimited	\$300,000	\$314,012	\$150,238	Unlimited
6	INFLATION	This is the degree of inflation protection provided by your policy and each option.	5.0%	0.0%	1.5%	2.0%	0.0%	5.0%
7	POTENTIAL UNCOVERED BENEFITS	This is the amount of your Maximum Policy Value that would not be covered by the applicable state insurance guaranty association in the event SHIP were placed in liquidation.	Unlimited	Unlimited	\$0	\$14,012	\$0	Unlimited

¹ In the event the Commonwealth Court of Pennsylvania places SHIP into liquidation, your guaranty association coverage would be limited to the statutory limit associated with your state of residence. In this scenario, you may be subject to a premium rate increase at the discretion of the guaranty association and subject to approval by the state in which your policy was issued. The expected premium rate requested by the guaranty association would be:

\$0

² If you elect Option 1 or Option 4 you may be subject to Phase II premium rate increases. For purposes of comparison, although it would be adjusted to reflect the effect of Phase 1, if it were calculated as of the Effective Date, the self sustaining premium for your policy would be:

\$14,325

³ Policy Value Indicators reflect policy status as of the Effective Date. All metric values will change subsequent to the effective date. The changes will be significant for active policyholders who become disabled and for disabled policyholders who become active.

⁴ Maximum Benefit Period and Maximum Daily Benefit are shown for the highest level of care covered by the policy. Nursing home is the highest level of care, assisted living facility is the second-highest level of care, and home-health care is the third-highest level of care.

⁵ Maximum Policy Value is the product of the policy's Maximum Benefit Period times its Maximum Daily Benefit, adjusted for inflation. For active policyholders, inflation is accounted for by assuming a claim is incurred on the Effective Date. Actual Maximum Policy Value will vary from policyholder to policyholder and will depend on when a claim is incurred.

The Proposed Rehabilitation Plan (the "Plan") is aimed at reducing or eliminating a very substantial "Funding Gap" or deficit arising from the excess of projected liabilities over the premium and assets projected to be available to fund them, in part by modifying many existing LTC policies while striving to provide policyholders meaningful choices. IF THE REHABILITATION PLAN FAILS TO REDUCE THE FUNDING GAP SUFFICIENTLY, IT IS POSSIBLE THAT SHIP WILL BE PLACED IN LIQUIDATION, POLICYHOLDERS WILL HAVE FEWER OPTIONS, AND SOME MAY LOSE SOME OR ALL OF THEIR COVERAGE IN EXCESS OF GUARANTY ASSOCIATION LIMITS. See discussion beginning at page 92 and especially page 95.

ILLUSTRATIVE POLICYHOLDER GUIDANCE PAGE

This page is provided to assist you in comparing the Plan Options to each other and in selecting the best one for your individual circumstances. The yellow boxes contain the comparative data. The rest of this page provides explanations for that data.

In this scenario, you may be subject to a premium rate increase at the discretion of the guaranty association and subject to approval by the state in which your policy was issued. The expected premium rate requested by the guaranty association would be:

\$1,198

² If you elect Option 1 or Option 4 you may be subject to Phase II premium rate increases. For purposes of comparison, although it would be adjusted to reflect the effect of Phase 1, if it were calculated as of the Effective Date, the self sustaining premium for your policy would be:

\$1,757

³ Policy Value Indicators reflect policy status as of the Effective Date. All metric values will change subsequent to the effective date. The changes will be significant for active policyholders who become disabled and for disabled policyholders who become active.

⁴ Maximum Benefit Period and Maximum Daily Benefit are shown for the highest level of care covered by the policy. Nursing home is the highest level of care, assisted living facility is the second-highest level of care, and home-health care is the third-highest level of care.

⁵ Maximum Policy Value is the product of the policy's Maximum Benefit Period times its Maximum Daily Benefit, adjusted for inflation. For active policyholders, inflation is accounted for by assuming a claim is incurred on the Effective Date. Actual Maximum Policy Value will vary from policyholder to policyholder and will depend on when a claim is incurred.

The Proposed Rehabilitation Plan (the "Plan") is aimed at reducing or eliminating a very substantial "Funding Gap" or deficit arising from the excess of projected liabilities over the premium and assets projected to be available to fund them, in part by modifying many existing LTC policies while striving to provide policyholders meaningful choices. IF THE REHABILITATION PLAN FAILS TO REDUCE THE FUNDING GAP SUFFICIENTLY, IT IS POSSIBLE THAT SHIP WILL BE PLACED IN LIQUIDATION, POLICYHOLDERS WILL HAVE FEWER OPTIONS, AND SOME MAY LOSE SOME OR ALL OF THEIR COVERAGE IN EXCESS OF GUARANTY ASSOCIATION LIMITS. See discussion beginning at page 92 and especially page 95.

V. PHASE THREE

Following implementation of Phase One and Phase Two, SHIP will continue managing its LTCI in a run-off mode. While some aspects of Phase Three will be developed in the future, if the Company has improved to the point of having assets available, payments will be made to policyholders, agents, and other creditors on account of amounts owed to them. Certain amounts may be owed to policyholders on account of the **Unfunded Benefit Liability** created as part of the policy restructuring. See Section VI.H, page 91. By virtue of the restructuring, this Unfunded Benefit Liability (UBL) will be a non-insurance obligation payable only if SHIP has assets available for payments to general creditors in Phase Three. To the extent such assets are available, they will be applied proportionately to the UBL along with other unpaid general creditors liabilities, such as agent commissions and amounts owed to companies previously reinsured by SHIP. The UBL payments to policyholders will actually take the form of extended Maximum Benefit Periods.

It is possible that in Phase Three SHIP will not be able to pay off all remaining liabilities in full. In that event, it is likely that it will then be placed in Liquidation in accordance with Article V. To the extent that at that time there remain unsatisfied insurance policy obligations, the Guaranty Associations may be triggered to protect the remaining policy obligations, subject to applicable statutory conditions and limits. See Section VI.J, page 92.

VI. OTHER MATTERS

A. ABOUT SENIOR HEALTH INSURANCE COMPANY OF PENNSYLVANIA

SHIP commenced business on July 5, 1887, as the Home Beneficial Society. It underwent many transactions and transformations in the ensuing century, culminating in the adoption of the current name in October 2008, when it was transferred by its then owner, Consecro, to the newly formed, nonprofit, *Senior Health Care Oversight Trust* (the “Trust” - see page 90) so it could continue running off its long-term care insurance (“LTCI”) business independently. At the time, SHIP had 152,000 LTC policies in force. As of year-end 2019 that number was down to close to 45,000 and as of this filing it is at around 39,000. It is a Pennsylvania life and health insurance company. Prior to Rehabilitation, SHIP was licensed in 46 states (excluding Connecticut, New York, Rhode Island, and Vermont), the District of Columbia, and the U.S. Virgin Islands. Since SHIP’s creation in 2008, it has utilized an outsourcing model for select functions, specifically: Long Term Care Group, Inc. (“LTCG”) for lower-level claims administration functions; Milliman for rate increase analyses and valuations; Conning, Inc., and New England Asset Management, Inc., for investment services; KPMG for tax services; and external law firms for specific legal issues. Beginning in 2018, the Company engaged Ernst & Young for internal audit services. After SHIP was placed in rehabilitation, the Rehabilitator has retained some and replaced others of these service providers.

Table 7 summarizes the Company's corporate history.

TABLE 7 - CORPORATE HISTORY

B. LONG-TERM CARE INSURANCE

At the time this Second Amended Rehabilitation Plan is filed, the insurance business of SHIP consists entirely of long-term care insurance (LTCI), much of it issued many decades ago, and none issued any later than 2003, when the Company ceased writing new business. Of approximately 646,000 LTCI policies sold by SHIP and its predecessors since the late 1970s, fewer than 40,000 remain in force. More precisely,

1. As of year-end 2018, SHIP had 51,635 LTC policies in force, of which 6,151 policyholders were on claim. As of that date, it also reinsured 2,620 policies of which 401 were on claim. See Section VI.M, page 96. Thus at that time it administered a total of 54,255 policies of which 6,552 were on claim.

2. By year end 2019, SHIP's direct LTCI business was down to 45,518 policies, with 5,776 on claim. Its assumed business was down to 2,267 policies, 376 on claim. At the end of that year, therefore, SHIP was administering 47,785 policies of which 6,152 were on claim.
3. By mid-year (June 30, 2020) these numbers had declined further. The total of direct LTC policies was down to 42,559, of which 5,402 were on claim. Assumed policies numbered 2,114, with 352 on claim. Total of administered LTC policies was therefore 44,673, of which 5,753 were on claim. As noted, by the time of this filing, direct LTC policies number around 39,000.
4. A key characteristic of this remaining "legacy" block of LTCI policies as a group is that the premiums being paid, when added to the Company's assets, are projected to be grossly insufficient to pay the benefits expected to be due under those policies. This anticipated "Funding Gap" led to the Company being placed in Rehabilitation on January 29, 2020, and is the key challenge sought to be addressed by the Plan.
5. SHIP's long-term care insurance policies cover long-term care services, including confinement to nursing facilities and assisted living facilities, as well as home health care and adult day care for individuals who meet specified requirements. These requirements vary among the Company's policies but typically include things like the policyholder requiring care for at least 90 days, and being unable to perform 2 or more Activities of Daily Living (eating, dressing, bathing, transferring, toileting, and continence) without substantial assistance (hands on or standby).
6. The Company's business is comprised of LTCI and health policies written by the Company and assumed reinsurance. The non-LTC health policies written by SHIP and its predecessors were assumed by reinsurance by Conseco when SHIP was spun off in 2008. SHIP, therefore, is not administering those policies, which now number around 45,500. For the LTCI policies written by the Company and its predecessors, average policyholder age is 86 and the average claimant is 89 years old. SHIP's policies are approximately 13% Home Health Care coverage, 17% Facility Care coverage (nursing home and/or assisted living facility), and 70% Comprehensive coverage covering multiple levels of care. The following paragraphs provide a general description of certain terms and features that are included in many of the Company's LTC Policies.
7. Tax Qualified v. Non-Tax Qualified - In order to trigger coverage under a policy, the policyholder generally must satisfy certain needs-based tests that vary depending on whether the policy is Tax Qualified or Non-Tax Qualified. Under Section 213 of the Internal Revenue Code ("IRC"), premiums paid for a Tax Qualified LTC policy are deductible medical expenses. According to Section 7702B of the IRC, a Tax Qualified policy is one that:
 - a. provides insurance coverage only for qualified LTC services;

- b. does not pay or reimburse expenses that are reimbursable under Medicare;
 - c. is guaranteed renewable;
 - d. does not provide for a cash surrender value or other money that can be paid, assigned or pledged as collateral for a loan, or borrowed;
 - e. provides that all refunds of premiums (other than refunds on the death of the insured or on a complete surrender or cancellation of the policy, which cannot exceed the aggregate premiums paid under the policy) and the policyholder dividends, or similar amounts, are applied as a reduction of future premiums or to increase future benefits; and
 - f. satisfies certain consumer protection requirements as well as disclosure and nonforfeitability requirements.
8. "Qualified long-term care services" are defined as necessary diagnostic, preventive, therapeutic, curing, treating, mitigating, and other rehabilitative services, and maintenance or personal care services which are required by a chronically ill individual and are provided pursuant to a plan of care prescribed by a licensed health care practitioner. A "chronically ill individual" is defined as one who has been certified within the previous twelve (12) months by a licensed health care provider as:
- a. being unable to perform (without substantial assistance from another individual) at least two (2) Activities of Daily Living (eating, toileting, transferring, bathing, dressing and continence) for a period of at least 90 days due to a loss of functional capacity;
 - b. having a level of disability similar to the level of disability described in the clause above, as determined by the Internal Revenue Service in consultation with the Department of Health and Human Services; or
 - c. requiring substantial supervision to protect such an individual from threats to health and safety due to severe cognitive impairment.
9. A Non-Tax Qualified Policy generally contains eligibility standards, such a Medical Necessity, which is a lower threshold to trigger coverage. For example, some policy forms contain the following conditions for eligibility:
- a. *Your Physician certifies Your care to be Medically Necessary; or*
 - b. *You are unable to perform two (2) or more Activities of Daily Living without assistance or supervision; or*
 - c. *You are afflicted with Cognitive Impairment.*

Approximately 85% of the Company's policies are Non-Tax Qualified policies, and approximately 66% of the in-force policies are eligible to qualify for care through the Medical Necessity provision.

10. **Daily Benefit Amount** - The Company's LTC policies are subject to a Maximum Daily Benefit that was selected by the policyholder when he or she purchased the coverage. The Maximum Daily Benefit available ranged from \$10 to \$300 per day, with many policies subject to annual percentage increases. Some policies, known as "indemnity," pay the full Maximum Daily Benefit, regardless of actual expenses incurred. With the annual percentage increases, in some cases the Maximum Daily Benefit has accumulated to over \$700 and can be envisioned to continue increasing to over \$1,000, far in excess of the cost of care. The Company's average Maximum Daily Benefit for in-force policyholders is \$173.
11. **Inflation Benefit** - Some of the Company's LTC policies were issued with an inflation benefit (referred to as "Inflation Protection"). Inflation Protection may increase a policy's Maximum Daily Benefit by a fixed percentage, often 3% or 5% each year, and inflate the Maximum Lifetime Benefit or Benefit Account Value proportionately. The inflation may be simple (increase by the fixed percentage of the original benefit each year) or compound (increase by the fixed percentage of the current benefit each year). The duration of the inflation benefit may be limited to 20 years, or until a policyholder attains the age of 85, but many policies have Inflation Protection for the life of the policy. Approximately 32% of the in-force policyholders have lifetime 5% compound inflation.
12. **Indemnification** - Indemnity and reimbursement denote the method by which the Maximum Daily Benefit will be paid out. Some policies provide coverage for the actual expenses of care (reimbursement), while others pay the full daily benefit amount regardless of actual expenses incurred (indemnity) much like disability insurance policies. The payment method can vary on comprehensive policies, between Assisted Living Facility Care or Home Health Services. Approximately 63% of in-force policyholders have the indemnity benefit for their main coverage.
13. **Benefit Period** - Most of the Company's LTC policies are subject to a Maximum Benefit Period. The Maximum Benefit Periods range from one year to six years. Some policies, however, have an unlimited benefit period ("lifetime policies") while others are subject to a maximum dollar amount. Approximately 72% of the in-force policyholders have a limited benefit period while approximately 28% of policyholders have lifetime policies.
14. **Elimination Period** - Some of the Company's LTC policies have an Elimination Period, which is a period of time during which the Company is not required to pay benefits to an otherwise eligible policyholder receiving covered care or services. Some policies were issued with a zero-day Elimination Period. Approximately 66% of the in-force policyholders have a zero-day Elimination Period.

15. **Waiver of Premium** - Approximately 99% of the Company's LTC policies provide that a policyholder who receives benefits under his or her policy for a specified period of time (such as 90 days) is no longer required to pay premiums for coverage after that time period as long as the policyholder remains eligible for benefits and/or receives a specified level of care. Once the policyholder's eligibility for benefits ends, the policyholder is required to resume paying premiums. Approximately 14% of policyholders who otherwise would pay premiums are currently eligible for the Waiver of Premium benefit.
16. **Restoration of Benefits** - The Restoration of Benefits ("ROB") provision restores the policy's Benefit Period to the original Maximum Benefit Period after receiving some or all claim benefits if the policyholder does not need or receive care during a specified period of time such as 180 days. In most instances, partial benefits were utilized prior to the restoration period. Some policies may restore an unlimited number of times, while others are restricted in the number of times the policy can be restored. Approximately 76% of the in-force policyholders have a ROB benefit.
17. **Return of Premium** - Approximately 5% of the Company's LTC policies were issued with a Return of Premium ("ROP") benefit. This benefit provides for the return of a percentage of premium paid by the policyholder if the policyholder does not have a claim or has a limited amount of benefits paid under the policy. The ROP typically occurs upon termination or upon ten-year incremental anniversaries. Since 2011, over \$53 million has been returned through the ROP benefit.

C. FINANCIAL CONDITION

The Company has been in a declining financial condition for many years. Its reported surplus is reflected in the following table:

TABLE 8: FINANCIAL CONDITION (IN DOLLARS)

YEAR	ASSETS	LIABILITIES	CAPITAL & SURPLUS/ (DEFICIT)
2009	3,251,994,962	3,058,545,856	193,449,106
2010	3,317,023,144	3,139,706,226	177,314,918
2011	3,161,093,979	3,046,696,672	114,397,307
2012	3,080,745,346	2,975,278,318	105,467,028
2013	2,985,938,782	2,887,736,889	98,201,892
2014	2,906,965,242	2,826,959,318	80,005,924
2015	2,879,794,716	2,824,037,145	55,757,570

2016	2,744,535,287	2,716,512,099	28,023,187
2017	2,688,468,510	2,675,819,343	12,649,166
2018	2,186,058,273	2,652,931,248	(466,814,972)
2019	1,907,181,137	2,823,279,366	(916,098,229)
2020	1,369,908,000	2,592,415,000	(1,222,507,000)

More complete financial information as of December 31, 2019, is included at Appendix B, along with summary updated information through December 31, 2020. It is estimated that SHIP's Funding Gap is more than \$1.2 billion. That is to say, based on Current Premium payments and the current value of SHIP's assets, in the absence of rehabilitation, by the time all of SHIP's policies terminate about twenty to twenty-five years from now, it will have incurred liability for covered benefits costing at least \$1.2 billion more than the money that will be available to pay for those benefits. It is important to note that these are estimates or projections for events that will occur over a long period of time. Any of a multitude of factors can change during that time affecting materially the accuracy of those projections.

There are many reasons that SHIP finds itself in this dilemma, some understood better than others. The Rehabilitator has been conducting and will continue thorough and exhaustive investigations and analyses of the reasons for SHIP's current financial condition. The areas of investigation and analysis will include, but not be limited to, industry wide challenges, common industry practices, volatility in the financial markets, and the conduct of SHIP's management, business partners, consultants and other service providers. The Rehabilitator, in consultation with her advisors and experts, will determine how these forces may have contributed to SHIP's current financial condition. Actions will be taken as appropriate.

Industry wide challenges may have played a role. The LTCI industry or line of insurance business is relatively young, significant numbers of such policies being sold for the first time in the late 1970s and early 1980s. When these insurance products were first designed, there did not exist a robust data base of historical LTCI experience of the type on which actuaries typically rely to calculate what benefits will cost, how the policies will "behave" over time, and what level of premium will be required to make them financially safe. There was insufficient historical data on which to base expectations about benefit costs and required premiums. The industry therefore referred to experience in other lines of insurance, such as life and disability, to make such projections. Soon, the industry came to understand that the characteristics of LTCI policies are materially different in key respects from those in other lines of insurance. For example, many fewer policyholders voluntarily surrender their LTCI policies before expiration than is true of other types of insurance. Similarly, the length of time during which LTCI policyholders will require benefits is materially longer than had been projected. In short, many factors affecting projected liabilities turned out materially different from what had been assumed when the policies were first issued, and when premium rates were set for them.

This problem was compounded by a decision by the industry to structure these policies as level-premium guaranteed-renewable contracts. In summary, this meant that, as long as the policyholders paid their premiums, the policies could not be cancelled despite changes in age, health condition, and other circumstances. Moreover, the premiums could only be increased if they were increased by the same percentage for all policyholders who had the same type of policy, and then only if the state insurance regulator approved the increase. Over time, a large percentage of these policies were found to be substantially underpriced in that the premiums paid for a given group of such policies could be projected to fall far short of what the company would need for the benefits due under the policies for that group. Obtaining the required approval for rate increases from state regulators proved difficult over time, resulting in two key problems. First, for many LTCI companies, the entire block of such policies was projected to create liabilities far in excess of what the companies would be able to pay. In fact, for many companies like SHIP, this became a serious threat of, or contributing cause to, insolvency. Second, because of differences in the responses by different states to requests for authorization to increase premium rates, over time there emerged wide divergence in the premiums policyholders holding similar policies would pay in different states. Some critics characterized this phenomenon as resulting in policyholders in rate-increase-approving states subsidizing those in states that rejected such requests. All of this can be contrasted with typical health insurance policies that generally last only a year or less, and the premiums for which are adjusted at least annually.

Adding to these challenges were material changes in the economic environment in which these policies were required to perform. For example, when early LTCI policies were sold, there did not exist a robust assisted living facility (“ALF”) or continuing care retirement center (“CCRC”) industry. When one became incapable of caring for oneself, the principal choices were internment in a nursing home, widely viewed as undesirable unless absolutely necessary, or (at much lower cost) having family or hired help care for one at home. However, as LTCI policies began becoming more popular and provided a funding source for other alternatives, there emerged a vibrant industry of desirable retirement homes providing varying levels of care, but typically in much more enticing surroundings and with attractive amenities. These ALFs and CCRCs increased the cost of caring for those who qualified for long-term care benefits but preferred not to remain at home to be cared for by their families or hired care-givers. In many other ways, the cost of caring for those who could not fend for themselves also increased beyond what had been projected by some companies and their consultants when early LTCI policies were priced.

Another major development affected a different key source of funding for future benefits. LTCI policies are designed to generate far more premium than needed to pay benefits in their early years, with those amounts to be invested and generate a material investment income that will be added to the premium and be used in later years when benefit costs are expected to exceed premiums being collected at that later time. In short, the notion is that the company will build-up a fund of premium and investment income that will suffice to pay the large claims expected in the future. In addition to premium being inadequately low when first set, and claims costing more than expected, income earned on the invested premium has also turned out to be much less than anticipated. Changes in the capital market and the broader economy, especially the “great recession” of 2008, dramatically suppressed investment returns below expectations. Current economic circumstances

are exacerbating this problem. Many LTCI insurers have amassed billions of dollars in invested premiums. A decline of 1% in yield on each \$1 billion of invested premium amounts to a loss every year of \$10 million in funds to be reinvested and be available for future claims. It is not hard to see how a decline in market yields of even just 3% for five years for a company with \$2 billion in invested assets could be a major event. That would entail a loss of at least \$300 million! This is the nature of lost investment income experienced by SHIP and the rest of the LTCI industry, but on more invested assets for many more years. As a point of reference, the Wall Street Journal Prime Rate was at: 8.25% on March 5, 1975; **17.25%** on March 4, 1980; 10% on January 8, 1990; 9% on March 22, 2000; 5.75% on March 22, 2005; 3.25% on December 16, 2008; 5.50% on December 20, 2018; back down to 3.25% on April 10, 2020, and staying at that level since.

These and other challenges faced by SHIP over the eleven years since it was separated from Conesco have combined to create the Funding Gap described above. The purpose of the Plan is to narrow or eliminate that Funding Gap by a combination of an increase in revenue through rate increases and a reduction in liabilities through benefit modifications.

D. REHABILITATION PROCEEDING

Since the fall of 2008, SHIP has been owned and overseen by the Senior Health Care Oversight Trust ("Trust" - see paragraph VI.E, page 90) and its Trustees. As SHIP's domiciliary regulator, the Pennsylvania Insurance Department ("PID") regulates SHIP's affairs and monitors its financial condition. On May 7, 2015, the PID concluded a financial examination of SHIP for the five-year period ending on December 31, 2013. The results were detailed in the Report of Examination dated as of that date, which concluded that, as of December 31, 2013, SHIP had capital & surplus of \$98,201,892 and made no recommendations.

As surplus continued to decline (see Table 7, at page 86, above), the PID became substantially concerned about SHIP's financial situation. The Department engaged in an intense regulatory focus aimed in part at encouraging management and the Trustees to review and revise the actuarial and other assumptions on which they were basing their financial projections and reports of SHIP's financial condition. In 2017 the PID commenced a limited examination of SHIP's affairs and engaged an independent consulting actuary to assist, especially, in evaluation of the adequacy of the Company's reserves. This work revealed a number of areas of concern and the PID appointed a Special Representative to work with SHIP management, the Trustees, and consultants for both the Company and the PID, to ascertain SHIP's financial condition and to determine whether it would be able to fulfill the contractual promises inherent in the LTCI block the Company was running off. As this work progressed it became evident that SHIP was in a more hazardous financial condition even than suggested by the 2017 statutory annual statement filed in March 2018, which reported a decline in surplus to just over \$12.6 million from over \$28 million a year earlier and almost twice that the year before.

SHIP and its consultants, in communication with the PID and its representatives and advisors, re-evaluated their underlying assumptions, and, in early 2019, SHIP completed an annual statement for 2018 that reported a \$467 million deficit. Management was provided an opportunity to develop

a corrective action plan to eliminate this deficit and restore the Company's surplus to acceptable levels but failed to do so. On January 29, 2020, at the request of Pennsylvania Insurance Commissioner Jessica K. Altman, and with the consent of a majority of the Trustees and SHIP's directors, the Commonwealth Court of Pennsylvania entered the Rehabilitation Order placing SHIP in rehabilitation and appointing Commissioner Altman as Rehabilitator. The order directed the Rehabilitator to file a preliminary plan for SHIP's rehabilitation on or before April 22, 2020. Commissioner Altman appointed Patrick H. Cantilo as Special Deputy Rehabilitator (SDR) to comply with the Court's requirement. A Proposed Rehabilitation Plan was filed on that date and this Plan Document is the Second Amended version of the plan required by the Court, the first Amended Rehabilitation Plan having been filed on October 21, 2020.

E. SENIOR HEALTH CARE OVERSIGHT TRUST

As mentioned above, SHIP had been a subsidiary of Consecro, Inc. ("Consecro") until 2008 when it agreed with PID's approval to transfer the Company to a newly created independent nonprofit trust. For that purpose, the Senior Health Care Oversight Trust (the Trust) was formed as a Pennsylvania business trust and the following served as its trustees (the "Trustees") as of the date the Company was placed in Rehabilitation and for at least seven years before that date:

1. Julianne Marie Bowler (Chair), since 2009 the Chief Underwriting Officer, and also the Chief Compliance and Administrative Officer, of Narragansett Bay Insurance Company. Ms. Bowler had served as the Massachusetts Insurance Commissioner from 2002 to 2007;
2. Cecil Dale Bykerk, President of CDBykerk Consulting, LLC, a life and health insurance consulting actuary;
3. Thomas Edward Hampton, Senior Advisor to Dentons US LLP, a Certified Public Accountant and former commissioner of the District of Columbia Department of Insurance, Securities, and Banking;
4. John Martin Morrison, senior Partner at Morrison, Sherwood, Wilson, Deola, PLLP, and former Montana State Auditor and Insurance Commissioner; and
5. Gregory Vincent Serio, Partner and Managing Director of New York lobbying firm Park Strategies, and former New York Superintendent of Insurance.

The transaction transferring SHIP to the Trust was memorialized in an August 1, 2008, Transfer Agreement between Consecro and the Trust. The Trust has been (and continues to be) governed by the board of trustees identified above, who have also served as directors of SHIP and Fuzion, along with certain senior officers of the companies. Their authority to oversee the Company has been effectively suspended by the rehabilitation proceedings.

F. FUZION ANALYTICS

Fuzion Analytics, Inc. (“Fuzion”), is a Delaware corporation formed in 2012 as a subsidiary of the Senior Health Care Oversight Trust ostensibly to provide LTCI data mining, analytical and other services to long-term care insurers, including SHIP. Beginning in 2012, SHIP entered into several agreements with Fuzion under which, over time, it paid Fuzion millions of dollars. In 2014, SHIP conveyed essentially all of its infrastructure to Fuzion in exchange for agreed-upon cash consideration consisting initially of a payment of \$367,806. In due course, Fuzion began providing SHIP all of the services necessary to administer SHIP’s affairs, other than those being performed by other vendors. Since that conveyance, SHIP has had no facilities or employees, relying instead on Fuzion and other vendors to perform all of the functions necessary to run-off SHIP’s LTCI business. On August 20, 2019, the Senior Health Care Oversight Trust conveyed all of its interest in Fuzion to SHIP as a capital contribution, so that Fuzion is now a wholly owned subsidiary of SHIP. In addition to the services provided to SHIP, Fuzion continues to provide Fraud Waste and Abuse and other services to customers in the long-term care industry.

G. LTCG, INC.

In 2008 SHIP entered into a Master Services Agreement with Univita for a broad array of claims and administrative services, excluding complaints. Univita has since become the Long-Term Group, Inc., (“LTCG”) and continues providing these services to SHIP.

H. POLICY RESTRUCTURING

Before the Effective Date and before policyholders have made their elections, the Rehabilitator will determine which of SHIP’s policies are Impaired Policies in that the assets and premiums projected to be available will not suffice to pay the liabilities projected to arise under such policies. For purposes of implementing the Plan and to facilitate identification and implementation of key economic and tax components of the Rehabilitator’s strategy, SHIP’s LTC policy liabilities will be restructured to incorporate the terms of the Plan and permit Policyholder Elections. The restructuring must be approved by the Court. The Rehabilitator expects to file an application with the Court for such approval following approval of the Plan. The Rehabilitator will request that the Court deem SHIP’s liabilities for Impaired Policies to have been restructured as of the Effective Date, and before giving effect to Policyholder Elections or modifications under the Plan. However, this restructuring will not affect the elections made by or available to the policyholders.

The restructuring will be for the purpose of separating the liabilities arising under SHIP’s LTC policies that it is projected to have sufficient assets to fund (the ***Initial Funded Restructured Policy Value*** - “***IFRPV***”), from those that it is projected to be unable to fund (the Unfunded Benefit Liability - UBL). This restructuring will consist of notionally allocating the liability arising under each such policy (equal to its gross premium reserve - GPR) to its IFRPV and its UBL, with the UBL for each policy being the difference between its original GPR and its IFRPV. Premiums paid as to each policy and Allocated Assets determined under the Plan as described in Section II.E.4.e, page

28, are projected to suffice to enable the Company to fund its IFRPV. As a result, after the Effective Date, SHIP will have assets and expected premiums at least equal to the aggregate funded liabilities (IFRPV) remaining under the Restructured Policies. It is important to note that the Policyholder Elections are not intended to, and will not, eliminate the Unfunded Benefit Liability. To the extent that it cannot be paid, that liability is expected to be discharged in due course by the Commonwealth Court upon the Rehabilitator's application.

The Company will retain non-insurance indebtedness to the policyholders on account of the amount by which the liabilities have been reduced, *i.e.*, the UBL. However, this liability will not be an insurance obligation arising under SHIP's policies and would not constitute a contractual obligation covered by the Guaranty Associations if SHIP were liquidated. Under the Plan, this liability will be converted to non-insurance general creditor indebtedness. It is possible that realization by SHIP of additional assets will enable it to make at least partial payments of the UBL in Phase Three. If made, those payments will take the form of extensions of the benefit periods in the affected policies. In any case, as explained below, the Rehabilitator will request that the portion of SHIP's UBL that it will not be able to fund be discharged by the Commonwealth Court as part of the Plan. A complete Restructuring Statement will be filed with the Court for approval following approval of the Plan.

I. GAUGING PLAN PERFORMANCE

During the pendency of the Plan, the Company's financial condition will be monitored closely with emphasis on changes in the projected deficit. Elections by policyholders to increase premiums and reduce benefits in the aggregate are expected to have a material effect on that projected deficit. Various aspects of the Plan are also expected to have material effects on key trends such as average claim cost, claim incidence, claim duration and policy terminations. Most of these are heavily dependent on policyholder behavior that is difficult to predict with certainty. As time passes following implementation of each phase of the Plan, however, changes in these key trends will become more evident and the effects of the Plan as a whole will be more susceptible of quantification.

J. GUARANTY ASSOCIATIONS

This is a general summary of the state Insurance Guaranty Association system. Readers should review the individual state laws to understand how individual Guaranty Associations operate in each jurisdiction and the protections they afford. The Plan does not contemplate involvement by Guaranty Associations in the Plan's operations. This information is provided solely in the interest of addressing anticipated questions.

All U.S. states and the District of Columbia have legislatively established entities, commonly referred to as "Insurance Guaranty Associations," which protect the policyholders of a licensed insurance company in the event their insurance company fails. These Guaranty Associations generally are required to provide for the continuation of the life and health insurance coverage

provided by the failed insurer, in most cases up to statutory maximum coverage amounts and subject to specified conditions.

Virtually all of SHIP's LTC insurance policies would be covered under the state Guaranty Association system, subject to individual state statutory maxima and conditions, if SHIP were placed into liquidation with a finding that it is insolvent. Policies held by residents of other countries may not be covered by Guaranty Associations.

In most states, Guaranty Association benefits can be "triggered" in one of several ways. Some "triggers" are permissive, authorizing the Guaranty Association to guarantee, assume or reinsure, or cause to be guaranteed, assumed, or reinsured, the covered contractual obligations arising under the insurer's policies or contracts (or to provide loans or other assistance). Other "triggers" are mandatory, requiring the Guaranty Association to take such measures. When triggered, the Guaranty Associations generally provide such protections to the residents of their states, though the contracts may have been issued in other states. In most states, the permissive trigger can be used when an insurer is deemed "impaired" but has not been found insolvent or ordered liquidated. As the term implies permissive triggers are optional with the Guaranty Associations and very rarely used.

Mandatory triggers generally include an insurer not paying claims on time and being placed in liquidation with a finding of insolvency. These provisions vary somewhat among the several states. The Rehabilitator has concluded that SHIP does not now qualify for mandatory triggers largely because there has not been an order of liquidation with a finding of insolvency and it is currently paying claims on time. However, though SHIP is currently paying claims on time as required by the Rehabilitation Order, its financial condition is so dire that it is a virtual certainty that it cannot continue paying claims in full and on time for as long as required by its LTC insurance contracts without remedial measures. In the absence of a rehabilitation plan, the continuation of full benefit payments to current claimants virtually assures that policyholders who go on claim in the future will not be able to receive full, or in some cases any, benefits from SHIP.

Generally, if a policyholder is entitled to receive benefits from the Guaranty Association of his or her state of residence no further inquiry is necessary to determine which Guaranty Association is responsible for his or her policy. However, when that is not the case, it may be necessary to determine whether the Pennsylvania Life and Health Insurance Guaranty Association (PLHIGA) may be required to provide such benefits because SHIP is domiciled in Pennsylvania. It is important to note that the conditions and limits of Guaranty Association protection typically apply to each policyholder, not to each policy. Thus, in a state in which such benefits are limited to \$300,000 (the majority of states), that limit will apply to all of a policyholder's policies issued by the same company combined. Thus, since many SHIP policyholders have more than one SHIP LTC policy, this limit will apply to all of them combined. If one policy is expected to receive benefits up to the applicable cap, all of the benefits of the other policy or policies will potentially be lost. The laws of each specific jurisdiction should be reviewed carefully to determine how these conditions and limits apply in particular cases.

It is important to note also that the amount of statutorily promulgated Guaranty Association coverage limits is not directly comparable to a policy's GPR. GPR is the present value as of the valuation date of expected benefits unpaid, expected expenses unpaid, and unearned or expected premiums, adjusted for future premium increases reasonably expected to be put into effect. It measures the present value of benefits and expenses less the present value of premiums. The Guaranty Association coverage limits are stated nominally (that is the total to be paid over time, no matter how long that time) and not at present value. The GPR equivalent of stated Guaranty Association Limit depends on factors individual to each policyholder, mostly related to the expected timing and amount of benefit and premium payments. Thus, a \$300,000 Guaranty Association limit may equate to a GPR of \$270,000 or some other amount less than \$300,000 for a given policyholder.

Neither the Rehabilitator nor SHIP would be responsible for coverage decisions of the Guaranty Associations. Each Guaranty Association evaluates its own liability and makes its own coverage determinations in accordance with applicable law. Those laws vary to some degree among the states and benefits available in some states may differ from those available in others. For example, in some states the Guaranty Associations do not provide coverage for any portion of a policy or contract to the extent that the rate of interest on which it is based exceeds a specified rate, typically set by reference to Moody's Corporate Bond Yield Average over a specified time. These interest rate limitations often apply retrospectively (to interest earned pre-liquidation) and prospectively (to interest earned after liquidation), though perhaps in different ways. Other states have adopted legislation making such provisions inapplicable to LTCI.

As noted above, Guaranty Association benefits are subject to statutory conditions and limits. For example, PLHIGA is not obligated to provide more than \$300,000 in benefits to a covered individual. In some states that limit can be significantly higher. However, the fact that applicable limits may be higher in another state does not entitle Pennsylvania residents to the higher protection afforded by the Guaranty Association of another state. In addition, the Guaranty Association statutes contain certain residency and other requirements that must be met in order to receive benefits. Some of SHIP's policyholders may have aggregate claims in excess of these limits or which do not qualify for Guaranty Association benefits for other reasons (Uncovered Benefits).

The methods by which Guaranty Associations discharge their statutory responsibilities vary from case to case but normally involve assumption by a Guaranty Association or an insurer of the contractual obligations created by the policies issued by the failed insurer, up to statutorily prescribed limits and subject to statutory conditions. Policyholders are required to continue paying their premiums without interruption in order to preserve their insurance coverage, unless those premiums have been suspended by Premium Waiver provisions in their policies. However, once benefits paid by the Guaranty Association reach the applicable statutory limit (and those benefits are therefore discontinued), typically the policyholder will no longer be required by the Guaranty Association to continue making premium payments.

As noted, SHIP has not been placed in liquidation and Guaranty Association coverage and associated limits are therefore not applicable to SHIP policies. While it is hoped that it will not be necessary to place SHIP in liquidation, and no specific plans exist to do so, past experience provides

guidance about some likely aspects of such an eventuality. Specifically, it is probable that if the Guaranty Associations are “triggered” for a SHIP liquidation they would seek to raise premium rates using a methodology similar to the Plan’s If Knew Premium. Thus, the resulting premium rate increases can be expected to resemble those contemplated by the Plan. To the extent that the Plan does so now, it should reduce or eliminate the need for the Guaranty Associations to do so if that were to occur.

As explained on page 12, the Plan is designed to provide policyholders at least the benefits they would receive from Guaranty Associations in liquidation. Every policyholder will be offered at least one option in Phase One that will provide him or her potential benefits equal to those that would be available from the applicable Guaranty Association in the event of liquidation, but no more than the current policy benefits. Option Two will do that for all policyholders, and for many policyholders other options will do that as well. In that respect, the Plan is expected to place policyholders in no worse a position than they would face in a liquidation of SHIP.

K. LIQUIDATION CLAIMS IN EXCESS OF GUARANTY ASSOCIATION LIMITS

It is estimated that more than 20% of the benefits to which SHIP policyholders are expected to be entitled under current LTC policies would exceed the statutory limits of guaranty association coverage as described in the preceding Section. While the Rehabilitator believes that applicable law would authorize her to use SHIP assets to pay at least part of those “uncovered benefits,” some members of the insurance industry hold the opposite view. This unresolved issue has so far prevented the liquidator of Penn Treaty Network America Insurance Company and American Network Insurance Company from making such payments. These two insurers are also Pennsylvania-domiciled long-term care insurers and the Rehabilitator, who is also the Liquidator in those cases, is concerned that she might be prevented from paying uncovered benefits to SHIP’s policyholders if it also has to be placed in liquidation. Thus, it is possible that placing SHIP in liquidation might result in “truncating” the contractual benefits for which policyholders have been paying premiums to the limits of guaranty association coverage.

L. JURISDICTION OF COMMONWEALTH COURT

In composing this Plan, the Rehabilitator makes the assumption that the Commonwealth Court has exclusive *in rem* jurisdiction over SHIP and all of its assets. The Rehabilitator believes that this principle is both established law and indispensable to the success of a rehabilitation plan of this breadth and complexity. That means that it is the only court with jurisdiction over SHIP’s assets and business. Note by way of distinction that other courts may have *in personam* jurisdiction over SHIP, its policyholders and claimants. The Commonwealth Court has authority to approve a rehabilitation plan for the company. The governing Pennsylvania statute, 40 P.S. § 221.16, expressly authorizes the rehabilitator to “prepare a plan for the reorganization, consolidation, conversion, reinsurance, merger, or other transformation of” SHIP. Without going into detail, that statute gives the rehabilitator broad discretion to develop a plan to correct the conditions that led to the need to

place SHIP in rehabilitation, including changing the Company's policies (and rates) as part of the Plan. So long as all affected parties (including other state insurance departments) are provided an opportunity to object, they will be bound by the Court's approval of the Plan, and its modification of policies and premium rates as part of the Plan.

Some concern has been expressed by certain state regulators about the notion that premium rate modifications under the Plan will not require approval of the states in which the policies were issued. The concern is not surprising given that there have not been many troubled companies for which the issue of rate increases in rehabilitation has arisen. Moreover, insurance rate regulation tends to be an area of intense public and political focus. In some states, Commissioners are constrained by statute in the magnitude of premium rate increases they can authorize for long-term care insurance policies. Regulations have the same effect in other jurisdictions. The Rehabilitator believes strongly that there is fundamental distinction between rate increases for companies in the market place and the extraordinary case of rate increases as part of a court supervised rehabilitation plan for a troubled company. While the matter is without an abundance of clear specific legal precedent, the Rehabilitator believes that the applicable legal authorities support the conclusion that it is properly within the purview of the Rehabilitator and the Commonwealth Court in an Article V rehabilitation proceeding. More importantly, the Plan would not be feasible, and would fail in a key goal, if rate modifications required approval from each of the states in which SHIP policies have been issued. First, that would prevent the plan from accomplishing its key goal of placing policyholders on "a level playing field" by having them pay substantially the same premium for the same coverage, thereby reducing or eliminating the much-criticized historical subsidies. Second, the need to obtain such approvals would insert a lengthy delay in the time-line that would be costly, if not fatal, to the Plan. Nonetheless, the Rehabilitator has added Section VI.V (page 108) as a means of addressing these concerns. That Section strives to reconcile the desire of certain states to make their own rate increases determinations with the fundamental goals of the Plan.

M. REINSURANCE

SHIP has assumed a number of LTC policies through co-insurance or reinsurance and ceded other policies under other reinsurance agreements. This Section describes those arrangements.

1. TRANSAMERICA

On October 11, 1994, JC Penney Insurance Company and JC Penney Life Insurance Company (collectively "JCP") entered into a Reinsurance and Purchase Agreement and Administrative Services Agreement with American Travellers Life Insurance Company ("American Travellers"). The Reinsurance and Purchase Agreement was structured on an Indemnity Reinsurance basis and a trust account was later established pursuant to a Trust Agreement executed on December 31, 2002. American Travellers was purchased by Conseco in 1996 and subsequently changed its name to Conseco Senior Health Insurance Company and then to Senior Health Insurance Company of Pennsylvania ("SHIP"). JCP changed its name to Stonebridge Life Insurance Company in 2002 and, as a result of corporate transactions, is now Transamerica Life Insurance Company.

2. PRIMERICA

On December 20, 1995 Primerica Life Insurance Company (“Primerica”) and Transport Life Insurance Company (“Transport Life”) entered into a Reinsurance and Administration Agreement whereby Transport Life, on an indemnity basis, accepted 100% of the policy liabilities of Primerica’s individual and group accident and health insurance policies. Transport Life merged with Conseco Senior Health Insurance Company in November 1997 and, with the separation from Conseco, Senior Health Insurance Company of Pennsylvania (“SHIP”) became the successor under the Reinsurance and Administration Agreement. Amendment #2 to the Reinsurance and Administration Agreement, dated November 11, 2008, limits the scope of SHIP’s reinsurance and administration to long-term care policies only.

3. AMERICAN HEALTH AND LIFE

Pursuant to a Reinsurance Agreement dated November 1, 1996, Transport Life entered into a Reinsurance Agreement whereby Transport Life agreed to administer and reinsure, on a coinsurance basis, 100% of the liability of American Health and Life Insurance Company’s long-term care policies. As a result of certain corporate transactions, and later the separation of SHIP from Conseco, SHIP became the successor to Transport Life’s interests under the Reinsurance Agreement and continues to administer the policies.

4. WASHINGTON NATIONAL INSURANCE COMPANY

On June 30, 1998, American Travellers entered into a Coinsurance Agreement with Conseco Life whereby American Travellers ceded 100% of its net liability for certain Connecticut resident state policies to SHIP, including servicing and administration of these policies. On April 1, 2013, CNO assumed, through novation, all of the policies with the exception of certain Connecticut policies which opted out of the assumption. Washington National Insurance Company reinsured those Connecticut policies that opted out.

5. CONSECO LIFE INSURANCE COMPANY

Under an Assignment Agreement effective October 1, 2008 with Conseco Life Insurance Company (“CLIC”), all the assets and liabilities pertaining to SHIP’s non-long-term care business were assigned to, and assumed by, CLIC, which, together with DXC Technology, administers all of the business. SHIP remains contingently liable for the assigned business in the event CLIC fails to perform its obligations under the Assignment Agreement. In recognition of this liability, CLIC is required to and does maintain assets in a trust account of which SHIP is beneficiary. That account is required, and appears, to be adequately funded. The business they manage consists of:

1. 5,781 Traditional Life,
2. 175 Universal Life,
3. 71 Deferred Annuities,
4. 273 Medicare Supplement,

5. 37,682 Specified Disease,
6. 689 Accident Only,
7. 603 Hospital Indemnity,
8. 435 Long term disability, and
9. 38 Other.

6. TEACHER'S PROTECTIVE MUTUAL LIFE INSURANCE COMPANY

Teacher's Protective Mutual Life Insurance Company ("Teachers") and Senior Health Insurance Company of Pennsylvania ("SHIP") entered into an Indemnity and Assumption Reinsurance and Administrative Services Agreement on December 28, 2015, pursuant to which Teachers ceded to SHIP, on an indemnity reinsurance basis, 100% of liabilities and obligations paid or payable by Teacher's. These policies have been novated by SHIP so that they are treated as if they had been issued by SHIP in the first place.

7. TREATMENT OF REINSURANCE ASSUMED

The LTC insurance policies for which SHIP became responsible from Transamerica, Primerica and American Health and Life or their predecessors (the "ceding companies") are what is generally referred to in the industry as "reinsurance assumed." All of these assumed LTCI policies have historically been treated by SHIP for administrative purposes in a manner very similar to those issued directly by SHIP. However, communications with policyholders and regulators properly identified them as policies of the ceding companies.

It is important to note that while these policies have been reinsured by SHIP, they were never "novated" as part of the transaction. Novation occurs when the assuming company substitutes for the ceding company so that all of the policyholders' contractual rights are against the assuming company and the ceding company is relieved of further obligation for the policies at issue. That did not happen in these cases. That means that the policyholders retained, and continue to retain, their contractual rights against the ceding companies (the companies that transferred the policies to SHIP through reinsurance) or their successors. In turn, the ceding companies retain contractual rights against SHIP. However, under the Plan, payments owed by SHIP to the ceding companies on account of these rights are subordinated to amounts owed by SHIP to policyholders under SHIP policies. These assumed policies would not be treated as if they had been issued by SHIP if it were placed in liquidation. In liquidation these policies also would not be subject to the statutory Guaranty Association limits. In the event that SHIP is placed in liquidation, these policies reinsured and administered by SHIP, but not novated, will be administered as the responsibility of the ceding companies.

For purposes of the Plan, it is also important to note that the law governing financially troubled insurers generally requires that liabilities arising under insurance policies issued by the troubled company ("Direct Business") be paid in full before those arising under reinsurance assumed can receive any payment. The companies (or their successors) from which SHIP assumed the

Reinsurance Assumed remain responsible to the policyholders if SHIP fails to fulfill the contractual obligations arising under those policies.

The preliminary plan of rehabilitation filed on April 22, 2020, proposed to treat Direct Business and Reinsurance Assumed in the same way under the Plan. The Rehabilitator believed that this would be most advantageous to the affected policyholders. However, this proposal resulted in a number of objections from insurance regulators around the country, asserting that it departs from established custom and practice and is unsupported by applicable law. In response to these objections, the Rehabilitator changed that provision of the preliminary plan of rehabilitation. The Plan now treats the reinsurance assumed differently from the policies issued directly by SHIP and its predecessors. As a result of this change:

- a. The reinsurance assumed policies will not be modified under the Plan and the policyholders will not be asked (or have the ability) to make elections under the Plan;
- b. SHIP will not be financially responsible for claims and commissions owed under these policies and will not have the right to treat premiums paid by these policyholders as assets of SHIP; and
- c. If SHIP is placed in liquidation, the terms of these policies will remain unchanged and the policyholders will not receive benefits from any life and health insurance Guaranty Association. Instead, in that case, the ceding company (or its successor) will remain fully responsible for these policies and any claims and commissions owed under these policies.

Whether, and to what extent, premium rate increases will be sought for these policies in the future will be decided by the ceding companies, not the Rehabilitator. It is possible that SHIP will enter into agreements to administer some or all of these policies in exchange for appropriate fees.

Consistent with this change in the Plan, on October 1, 2020, Transamerica and SHIP entered into a Recapture Agreement through which Transamerica assumed complete responsibility for the LTC insurance policies its predecessors had ceded to SHIP's predecessors. This Agreement was approved by the Commonwealth Court on December 29, 2020.

N. COMMISSIONS

The payment of commissions owed to Agents under agreements made prior to the inception of rehabilitation proceedings will be suspended under the Plan until policyholders' LTC claims have been paid in full and adequate provision made for reasonably anticipated future claims. Further, the Plan will suspend the accrual of commissions as of the Initial Plan Effective Date. Agents and brokers may assert claims for commissions earned prior to the Initial Plan Effective Date but, under the Plan, those claims will be subordinated to amounts owed to policyholders under SHIP's insurance policies.

The Rehabilitator notes that Agents are not currently providing services at the request of and in support of the Rehabilitator. Since entering rehabilitation, SHIP has evaluated the ongoing role of Agents. It is the belief of the Rehabilitator that most policyholders do not have a close relationship with their Agents, often have not spoken with their Agents since their policies were purchased, and do not contact their Agents for questions about their policies or benefits. Most policyholders contact SHIP directly for policy information or questions, or a financial advisor or trusted professional (lawyer, banker, trustee or family member). The Rehabilitator believes that the payment of commissions should be subordinated to the payment of policyholder obligations consistent with the treatment described in 40 P.S. § 221.44.

O. CERTAIN RETIREE BENEFITS

Transport Life Insurance Company, SHIP's predecessor, had entered into employment agreements with several of its former executives that provided for the post-retirement payment of health care benefits for them and their spouses. Through the series of transactions as a result of which Transport Life became SHIP (see page 97), SHIP became responsible for these payments and has continued to make them without interruption. The Rehabilitator believes that these payments are pre-rehabilitation contractual obligations to general creditors. Like agent commissions, they should be subordinated to the payment of policyholder obligations consistent with the treatment described in 40 P.S. § 221.44. As part of the Plan, these payments will be suspended until all policyholder obligations have been satisfied or reasonable provision has been made for them.

P. OPT OUT

The Company's LTC policies do not provide for any cash or surrender value and policyholders are not entitled to any cash payment upon cancellation either in the ordinary course of business or in liquidation. In short, upon liquidation, policyholders would not receive cash payments.

While the Plan does not propose a separately-identified cash opt-out option, certain features of the Plan would satisfy an opt-out requirement if one were found to be applicable. First, many policyholders will not be required by the Plan to make any changes in their policies. Second, every policyholder will have an option in every scenario to select a Non-forfeiture Option under which no more premium will be due. In fact, elements of the Plan make the NFO option materially more valuable than traditional NFOs. See section II.J, page 34. Finally, every policyholder will have at least one option under which he or she would receive at least as much in benefits as would be provided by his or her Guaranty Association coverage.

Q. STATE DEPOSITS

SHIP has been required to place deposits with various states as a condition of its licensing in those states. These state deposits total approximately \$19.3 million. The Rehabilitator believes

that once the Plan is approved (whether or not modified), she should pursue recovery of those deposits so that the funds can be used to support the Plan.

R. TAX MATTERS

The Plan is not intended to create net adverse tax consequences for policyholders or SHIP, and the Rehabilitator does not believe that it will do so if it is implemented as proposed. However, the tax effects of the Plan depend in part on events, circumstances and the conduct of other parties that are not within the control of, nor can be predicted by, the Rehabilitator.

While a number of federal income tax issues may arise under the Plan, two areas are of particular importance. First, will any modification of LTC policies under the Plan create adverse tax consequences for policyholders? Second, will the inability to fund fully policy obligations or provisions of the Plan create adverse tax consequences for SHIP?

1. POLICY MODIFICATIONS.

It does not appear that the Plan is likely to create adverse tax consequences for policyholders. However, because Policy Modifications and other provisions of the Plan, may raise such issues, it is likely that the Rehabilitator will seek from the Internal Revenue Service of the Department of the Treasury (the “IRS”) a favorable private letter ruling (“PLR”) to the effect that Policy Modifications under the Plan would not produce taxable deemed exchanges or other adverse tax consequences for policyholders.

2. TAX ISSUES FOR SHIP

It is possible that reductions in insurance reserves resulting from Policy Modifications or other elements of the Plan would create significant taxable income. However, the Plan contemplates offsets to taxable income arising from the restructuring of SHIP’s policies, bifurcating the liabilities arising under them as between their Initial Funded Restructured Policy Value (IFRPV) and their Unfunded Benefit Liability (UBL), constituting general creditors obligations and not insurance policy liabilities. The Plan also contemplates the eventual discharge by the Commonwealth Court of the portion of the UBL that cannot be paid, which will minimize this tax exposure. The IFRPV is the portion of a policy’s liability that SHIP is expected to be able to fund. The UBL is the portion of that liability that SHIP is not expected to be able to fund.

SHIP is part of a consolidated group for federal income tax compliance purposes, which also includes its affiliates, the Trust and Fuzion. The group files a consolidated federal income tax return. SHIP and its affiliates currently possess substantial Deferred Tax Assets (“DTAs”) such as net operating loss carry-forwards. These DTAs may serve to offset taxable income generated by operation of the Plan. It is possible that implementation of the Plan may give rise to tax liability, however, because of certain limitations in the Internal Revenue Code on the use of such carry-forwards. The ability of SHIP to realize the benefit of these DTAs may also depend in part on decisions made by other members of the consolidated group. While Fuzion is SHIP’s wholly owned

subsidiary, and under its control, the Trust is governed independently. Current tax law may affect the degree to which other parties may make decisions adverse to SHIP's interest and rehabilitation. Moreover, the discharge of indebtedness under the Plan may also result in reducing or eliminating SHIP's ability to take advantage of these DTAs.

As indicated above, to the extent that the Plan results in the reduction of policy obligations through the modification of policies to make them properly priced or Self-sustaining, it is possible that such reduction would result in federal income tax liability. It is possible that not all of such income may be excludable under an insolvency exception or be offset against net operating loss carry-forwards and other DTAs. It is also possible, as noted, that implementation of the Plan may give rise to tax liability. The Plan is designed, and the Rehabilitator intends to implement it, in a manner that will minimize or eliminate such potential adverse tax consequences. However, there can be no assurances that these measures will be effective.

Nothing in the Plan Document is intended to provide, nor shall be interpreted as providing tax or legal advice. Policyholders and other persons affected by the Plan should consult their own tax, legal, and other advisors regarding the possible tax and other effects of the Plan. The Rehabilitator may seek guidance (such as a private letter ruling) from the U.S. Secretary of the Treasury regarding certain potential tax aspects or consequences of the Plan.

S. PRINCIPLES AND FAIRNESS OF THE PLAN

The Plan is designed to comply with applicable statutory provisions. In addition, by reference to Pennsylvania statutes and judicial opinions governing other insurance rehabilitation and insolvency proceedings in this and other states, the Rehabilitator has adopted the following core principles that should guide implementation of the Plan:

1. To the extent reasonably possible under the circumstances, the Plan should correct the conditions which constituted the grounds for the order to rehabilitate the Company;
2. The paramount goal of the Plan should be protection of policyholders;
3. The Plan should be fair and equitable;
4. The Plan should put policyholders and creditors as a group in a position not materially inferior to what liquidation of SHIP as of the Effective Date would produce; and
5. The Plan should include metrics to gauge progress.

The Rehabilitator believes that the Plan reasonably embodies these principles and that it is fair and equitable to policyholders, creditors and affected parties. It addresses historically discriminatory premium rates through asset allocations in determining Self-sustaining Policies and through the premium rate increase structure governing Policy Modifications. Within the means available, as regards policyholders the Plan is designed to reduce the Funding Gap which principally

led to the inception of the rehabilitation proceeding. It does so through premium rate increases and benefit reductions to reduce or eliminate on a policy-by-policy basis the shortfall between assets and liabilities. The principal goal of the Plan is to protect the interests of policyholders by maximizing preservation of their insurance coverage. It treats similarly situated policyholders in the same way and devotes SHIP's assets to the fulfillment of its purposes in a non-discriminatory and non-arbitrary manner.

T. RISK FACTORS

There are substantial risks and uncertainties associated with the Plan and its implementation. Those described herein are not the only ones that could materially impact SHIP, the Plan, its implementation, and its impact on policyholders, creditors and the public.

1. The actuarial assumptions and projections used to develop the Plan, including investment income, default rates, lapse rates, expenses and claims may be materially different from actual results. Therefore, the benefits and claims that SHIP will be able to pay may be materially higher or lower than the amounts assumed in the Plan.
2. Although the Plan does not contemplate that SHIP will, as a result of the Plan, implement future premium rate increases not described in the Plan, there can be no assurances that such rate increases will not be sought by Guaranty Associations if SHIP is placed in liquidation.
3. Objections may be lodged against the Plan or its implementation which may not be able to be overcome without material changes in the Plan.
4. The Rehabilitator believes that the provisions of the Plan can be implemented with approval of the Commonwealth Court and without the need that insurance regulators in every state approve the Plan, including premium rate increases implemented under the Plan. However, regulators in other states may conclude that their approval is required. The Rehabilitator cannot provide any assurance that approval from other regulators will not ultimately be deemed necessary. Neither can the Rehabilitator provide assurances that if such other state approvals are necessary they can be obtained consistent with the timing and substance of the Plan.
5. Governmental authorities may change the laws and regulations that apply to SHIP, its business and state insurance receiverships in ways that impact policyholders, SHIP, the Plan, or its implementation negatively.
6. Adverse developments in the broader economy may affect adversely the performance of SHIP's invested assets, the costs of its operations or the development of its liabilities. As a result, financial assumptions made in the Plan may differ materially from actual events.
7. Certain changes in the general health of SHIP's insured population (such as developments prolonging the period that such persons remain on claim, the severity of such claims, or the

frequency with which policyholders go on claim) may affect materially the development of SHIP's insurance liabilities. As a result, loss assumptions made in the Plan may differ materially from actual events.

8. The emergence of the Coronavirus disease known as "COVID-19" has created unprecedented and wide-ranging disruptions in virtually every facet of American society. Its economic implications, and the changes that will result in American healthcare and insurance are only now beginning to surface and will take a prolonged time to develop completely and be fully understood. The Rehabilitator cannot predict what effect COVID-19 will have on the Plan and its implementation. The Special Deputy Rehabilitator and rehabilitation team are making efforts to incorporate in the Plan expanded timelines and elements of flexibility that will facilitate responding to these recent and continuing developments.
9. The Plan depends on implementation of a complex restructure of SHIP's insurance business for which there is no close precedent, and which depends in part on legal provisions that may be difficult to implement. Failure to implement these provisions may have a material adverse effect on the success of the Plan.
10. The success of the Plan will depend in part on policyholder elections which are difficult to predict. The actual results of those elections may have a material adverse effect on the Plan.

U. ALTERNATIVES TO THE PLAN

Before determining that the Proposed Rehabilitation Plan is the best option for SHIP's policyholders, the Rehabilitator and the rehabilitation team considered a number of alternatives. Each of these is described briefly below, although a complete explanation of what their terms would include would be too lengthy to be included here and would require further development not justified under the circumstances.

1. SALE OR RECAPITALIZATION

Before SHIP was placed in rehabilitation, its management and the Trustees explored many alternatives to avoid delinquency proceedings. These included sale of the company, reinsurance transactions, recapitalization transactions, and restructuring of the investment portfolio. All of these options were deemed impractical or insufficient. SHIP has a closed block of highly unprofitable LTC insurance business making it very unattractive to buyers and investors. Its financial composition is such that legitimate reinsurance transactions would not offer the prospect of material economic improvement. There is no sufficiently profitable block of insurance within the company to absorb the excess risk of the LTC block. The broad capital markets comprise a low-yield environment that also does not offer a reasonable prospect of material economic improvement from restructuring of SHIP's invested assets. Working with Pennsylvania Insurance Department representatives, management did implement a number of cost saving measures, but the net result is too small to avoid the need for rehabilitation.

2. LIQUIDATION

Before embarking on designing the details of the Proposed Rehabilitation Plan the team evaluated whether policyholders would be better served by placing the Company in liquidation. After extensive analysis and discussion it was determined that policyholders would fare better under the Proposed Rehabilitation Plan. The principal reasons that the Plan was deemed preferable to liquidation were:

- a. It would offer policyholders additional choices to address their individual needs under these difficult circumstances.
- b. It would provide policyholders the ability to preserve their current coverage if they were willing and able to pay the required premium rate increase.
- c. It would eliminate the historical premium rate inequities and subsidies prospectively so that all policyholders would pay comparable premiums for comparable coverages. This is viewed as particularly important since widely different responses to requests for approval of premium rate increases among the states over time have resulted in holders of policies issued in certain states paying substantially higher premiums than holders of similar policies issued in other states. This has created a much-criticized subsidy problem in which the higher premiums paid by the former theoretically have been used in part to pay the claims of the latter.
- d. It would avoid the truncation of policy benefits to the applicable Guaranty Association limit (\$300,000 in most states). This would be particularly important to the policyholders who have more than one SHIP LTC policy since the Guaranty Association limits apply to each insured for all policies combined. See Section VI.K, page 95.
- e. Unlike what would occur under the Plan, premium rate increases sought by Guaranty Associations in liquidation would inure to the benefit of insurers assessed to fund the Guaranty Associations, not for policyholder claims.

3. “GOOD BANK - BAD BANK”

Consideration was also given to a rehabilitation plan along the lines that had been proposed for Penn Treaty Network America Insurance Company and its subsidiary, American Network Insurance Company. Under such a “business division” plan, SHIP’s LTC business would be divided between a “Good Bank” and a “Bad Bank.” Separate legal entities would hold each group of policies, liquidating one with Guaranty Association benefits, and placing the self-sustaining policies, in the other for continued coverage. Many aspects of this plan would be unprecedented and potentially controversial.

It is doubtful that both companies could retain insurance licenses in all the states in which SHIP has been licensed. Many of those licenses have already been suspended or revoked and may be hard to recover in SHIP's current condition. This is problematic because Good Bank needs the licenses to continue the self-sustaining policies in business and Bad Bank may need them in order to remain a "member insurer" so as to retain Guaranty Association protection.

In order to afford policyholders the option to make non-self-sustaining policies self-sustaining and eligible to be in "Good Bank," a complicated elective modification process would have to be implemented. That process would be vulnerable to the same criticism as the Proposed Rehabilitation Plan in that the required modifications would have to be approved by the Rehabilitator and the Rehabilitation Court, not the issuing state.

The Plan would be even more complex than the Proposed Rehabilitation Plan and would likely draw even more objections.

4. PROPOSED REHABILITATION PLAN

The Proposed Rehabilitation Plan is the Rehabilitator's recommended approach for SHIP's rehabilitation. However, there are a number of states that have objected with varying degrees of formality to the aspect of the Proposed Rehabilitation Plan under which the premium rates and benefits of SHIP's policies issued in their states would be modified with the approval of the Commonwealth Court but not of the insurance regulator of the issuing state ("Objecting States"). The Rehabilitator has considered the alternatives described in the following three Sections to address these concerns.

5. ANCILLARY APPROVAL OF MODIFICATIONS

One such alternative would have been to submit benefit and premium rate modifications for approval by each issuing state. The Rehabilitator has concluded that this would even be inferior to liquidation. First, past experience indicates that the process of obtaining approval for rate and benefit modifications would take a prolonged period of time. Second, the same experience indicates that the outcome can be expected to be widely divergent rates for similar policies, perpetuating the premium subsidies, inadequate premium rates, and hodgepodge of reduced-benefit options. In addition, implementation of such an approach would be immensely more complicated than the normal multi-state insurance rehabilitation in which the domiciliary regulator and court manage the entire proceeding.

6. EXCLUDE OBJECTING POLICIES

Another possible approach would have been to avoid rate increases for policies issued in Objecting States ("Objecting Policies"). That would have required that those policyholders not be able to select Option One (Downgrade), Option Two (Basic Policy Endorsements), or Option Four (If Knew Premium rate increases for current benefits). Those three options entail modification of rates or benefits in the existing policies. That would have left only the Non-forfeiture Option

(“NFO”) for these policyholders. Although the NFO eliminates premiums permanently, it reduces benefits substantially, though not as much as the NFO or reduced paid-up policy (“RPU”) currently offered to lapsing policyholders. This very limiting outcome would have been highly undesirable.

As a variation of this alternative, the Objecting States could have been asked to permit SHIP to offer Objecting Policies Option 1 under the Plan as well, allowing them to retain reduced benefits without premium changes. For some policyholders that could have been preferable to the NFO, although for others the NFO might be the better deal. Objecting States might also have allowed SHIP to offer Option Two, which entails more moderate rate increases, and even no rate increases in some cases.

This approach might have allowed the Plan to proceed without making the objectionable modifications to the Objecting Policies while retaining all the Plan benefits for other policyholders. The net effect could have been beneficial for the outcome of the Plan if more policyholders elected to give up their current rich policies which collectively account for the bulk of SHIP’s problem.

However, for the affected policyholders this would have been materially inferior to the *status quo* and the Proposed Rehabilitation Plan because policyholders would have had much more limited options and would not have had the possibility of retaining their current benefits even by paying the required premiums. Accordingly, the Rehabilitator did not favor this approach that effectively would have put the Objecting Policies at a disadvantage when compared to the treatment of other policyholders under the Plan.

7. ISSUE-STATE RATE APPROVALS

The Rehabilitator has concluded that a better alternative is to let the Commissioner (or equivalent officer) in a particular state withdraw all of the policies issued in that state from the rate increase determination provisions of the Plan and instead have that Commissioner make the rate increase determination for those policies independent of the Plan. Under this approach, if a commissioner advises the Rehabilitator to that effect, the rate increases resulting from Options under the Plan will not apply to the policies issued in that state (the “opt-out state”). Instead, the insurance department of the opt-out state will make the rate increase determinations for those policies and the benefits under Plan provisions will be adjusted to correspond to the premium rates approved by the opt-out state. The Rehabilitator proposes this approach as part of the Proposed Rehabilitation Plan. Section VI.V, below at page 108, describes the basic elements of a mechanism for enabling states to make their own rate increases decisions within the context of the Plan. Note that, apart from the rate increase determinations, under this approach the policies issued in the opt-out state will still be administered by the Rehabilitator under the Plan so that the opt-out state will not have to provide that administration.

8. CONCLUSION

On balance, the Rehabilitator believes that the best approach is the Proposed Rehabilitation Plan with a component as suggested in alternative seven, above. Accordingly, the Amended Plan now includes the additional following section.

V. ISSUE-STATE RATE APPROVALS

This Section describes the issue-state rate approval alternative for states that object to the Rehabilitator and the Commonwealth Court modifying rates as part of the Plan for SHIP LTC policies issued in those states, and which elect to make their own determinations as to such rate increases themselves (*Opt-out States*).

While this Section was added to the Plan to accommodate that objection, the Rehabilitator makes an important observation. In order to reduce policyholder subsidization and overall burden, and in an effort to achieve the best result possible under the circumstances, the Rehabilitator has undertaken the development of a model that allows her to address each policy individually in a seriatim fashion. Most, if not all, material policyholder calculations under the Plan (including premium rate adjustments) are performed individually for each long-term care policy. As noted more fully below, if a state elects to make its own determination for the rates charged for the policies issued in that state in groups rather than individually, the result may be disadvantageous to many policyholders. In determining whether or not to “opt out” a state should consider carefully its ability to address the circumstances of each policy individually, as does the Rehabilitator. If a state is unable or unwilling to do this, it may want to evaluate whether the results of its premium rate increase decisions may prove to be inferior to those proposed by the Rehabilitator, all things considered.

1. SUMMARY

If the chief insurance regulator (“Commissioner”) of an issue-state formally advises the Rehabilitator that his or her state elects to “opt-out” of the rate increase component of the Proposed Rehabilitation Plan, the Plan will not apply in the same way to the policies issued in that state (the *Opt-out Policies*). In that case, the Rehabilitator will file in the Opt-out State a premium rate increase request for the Opt-out Policies the Current Premiums of which are below If Knew premiums. **Holders of Opt-out Policies with Current Premiums equal to or greater than If Knew Premium will be unaffected and will retain their current policies without modification.** The holders of the Opt-out Policies with Current Premium below If Knew Premium will not be able to elect from among the Plan options and will instead have the choices described below, determined by how the Opt-out State responds to the Rehabilitator’s premium rate increase request.

THE INTENT OF THIS SECTION IS TO ENABLE STATES THAT OBJECT TO THE REHABILITATOR OR COMMONWEALTH COURT SETTING PREMIUM RATES UNDER THE PLAN WITHOUT THEIR APPROVAL TO REVIEW AND APPROVE (ENTIRELY OR

PARTIALLY) OR DISAPPROVE THE PLAN'S PREMIUM RATES THEMSELVES. HOWEVER, THE EFFECTS OF A STATE "OPTING OUT" UNDER THIS SECTION MAY INCLUDE A REDUCED NUMBER OF MEANINGFUL OPTIONS FOR AFFECTED POLICYHOLDERS AND SOME OF THOSE POLICYHOLDERS PAYING HIGHER PREMIUMS THAN THEY WOULD UNDER THE PLAN. IN ADDITION, SOME POLICYHOLDERS WHO DO NOT MAKE AN ELECTION MAY FACE INVOLUNTARY BENEFIT REDUCTIONS.

IT SHOULD ALSO BE NOTED THAT THE DECISIONS OF OPT-OUT STATES WILL AFFECT POLICYHOLDERS RESIDING IN OTHER STATES WHOSE POLICIES HAD BEEN ISSUED IN THE OPT-OUT STATE. CONVERSELY, THOSE DECISIONS WILL NOT AFFECT POLICIES HELD BY RESIDENTS OF THE OPT-OUT STATES BUT ISSUED IN OTHER STATES.

2. OPT-OUT ELECTIONS

- a. Shortly after approval of the Proposed Rehabilitation Plan, the Rehabilitator will provide every state in which SHIP policies in force have been issued the opportunity to opt out of the rate approval provisions of the Plan. Every state that has not by the specified deadline (the ***Opt-out Deadline***) communicated to the Rehabilitator an election to opt out will be deemed to have opted into the Plan and the rest of this Section will not apply to the policies issued in that state. The Rehabilitator will endeavor to provide states at least thirty (30) days to make the Opt-out Election. States may, but are not required to, affirmatively opt into the Plan. States that do not timely communicate an appropriate Opt-out Election to the Rehabilitator will be deemed to have opted into the Plan.
- b. The communication necessary to Opt Out (the ***Opt-out Election***) must be signed and sworn by the Commissioner, Director, Superintendent or other senior insurance regulatory official of the state. The communication need not take any particular form but must contain the following statement:

On behalf of the State [or Commonwealth] of [X], and in the exercise of my authority as [X]'s senior insurance regulatory official I hereby elect to withdraw from the premium rate increase approval provisions of the Rehabilitation Plan for Senior Health Insurance Company of Pennsylvania (SHIP) all of the in force long-term care insurance policies currently held by SHIP and first issued by SHIP or its predecessors in [X]. I have read the Plan and understand the consequences of this election.

- c. The original signed and sworn Opt-out Election must be received by the Rehabilitator at the address specified no later than the Opt-out Deadline, but the Opt-out Election will be effective if an electronic form (including a facsimile) of the Opt-out Election is received by the Rehabilitator on or before the Opt-out Deadline and the original

signed and sworn Opt-out Election is received by the Rehabilitator no later than ten days after the Opt-out Deadline. **It is recommended that states commence the evaluation of whether they want to opt out of the Plan as soon as possible so that they will have ample time to finalize and communicate their decision once the Plan is approved. The Rehabilitator will be pleased to answer any question that may assist a state in evaluating this matter. States are NOT required to take any action under this Section before the Plan is approved.**

- d. The Rehabilitator will acknowledge every Opt-out Election in writing. An Opt-out Election sent in advance of the Opt-out Deadline may be canceled by the Opt-out State in a communication sent in the same manner and received by the Rehabilitator no later than the Opt-out Deadline so long as it contains the following language:

On behalf of State [or Commonwealth] of [X], and in the exercise of my authority as [X]'s senior insurance regulatory official, having first elected by communication dated [Opt-out Election date] to withdraw from the premium rate increase approval provisions of the Rehabilitation Plan for Senior Health Insurance Company of Pennsylvania (SHIP) as to all of the in force long-term care insurance policies currently held by SHIP and first issued by SHIP or its predecessors in [X], I hereby revoke the Opt-out Election. Accordingly, I request that all of the SHIP long-term care insurance policies issued in [X] be included in the premium rate increase approval provisions of SHIP's Rehabilitation Plan. I have read the Plan and understand the consequences of this revocation.

- e. Opt-out Elections may only be revoked after the Opt-out Deadline with the Rehabilitator's written consent. Generally, such consent will be provided unless the revocation will have an adverse effect on the Plan or opt-in policyholders.
- f. An Opt-out Election will be effective as to all Opt-out Policies the Current Premium of which is below If Knew Premium, even if the Opt-out State determines to approve some (but not all) of the premium rate increases sought by the Rehabilitator from the Opt-out State. A STATE MAY NOT OPT OUT AS TO ONLY SOME OF SHIP'S POLICIES ISSUED IN THAT STATE.

PHASE ONE

3. PREMIUM RATE INCREASE APPLICATION

- a. Following approval of the Second Amended Rehabilitation Plan, and after receipt of a valid Opt-out Election, the Rehabilitator will file in each Opt-out State a request

for approval of the full amount of actuarially justified rate increases (on an If Knew Premium basis) for the SHIP LTC policies issued in that state the Current Premium of which is below If Knew Premium. The rate increase application will be submitted on a seriatim basis (that is, policy-by-policy, not in the aggregate or by policy form), seeking a specific rate increase for each policy. No rate increases will be sought for Opt-out Policies the premiums of which are already equal to or above the If Knew Premium or which are on premium waiver. If an Opt-out State does not respond to the application for rate increases as to any policy within 60 days, the request as to that policy will be deemed denied. If an Opt-out State does not respond to the Rehabilitator's rate increase application within 60 days, the request will be deemed denied in its entirety. An Opt-out State may approve premium rate increases for Opt-out Policies in whatever amount it deems appropriate and the approved percentages may vary among the Opt-out Policies the Current Premium of which is below If Knew Premium. The Opt-out State's decision as to the requested rate increases will govern the choices available to the holders of Opt-out Policies the Current Premium of which is below If Knew Premium.

- b. If the Opt-out State timely approves the requested rate increases in full for all Opt-out Policies, it will be treated as if it had not opted out of the Plan, it will be deemed to be an ***Opt-in State***, and its policyholders will be included in the Plan just as those whose policies were issued in states that did not opt out (Opt-in States). If the Opt-out State does not timely approve the full rate increase sought by the Rehabilitator for all Opt-out Policies, all of the policies (including those on premium waiver) issued in that state the Current Premium (whether or not waived) of which is below If Knew Premium will be deemed Opt-out Policies subject to the following provisions.
- c. If the Opt-out State responds to the rate increase application in the aggregate or by group (such as policy form) rather than seriatim (policy-by-policy), the Rehabilitator will apply the resulting increases on a policy-by-policy basis. Note that, for some policyholders, the state's approved rate might exceed the requested rate increase.
- d. APPROVAL OF THE RATE INCREASES IN THE AGGREGATE RATHER THAN SERIATIM (POLICY-BY-POLICY) COULD RESULT IN SOME POLICYHOLDERS BEING REQUIRED TO PAY A HIGHER PREMIUM RATE THAN REQUESTED BY THE REHABILITATOR AND HIGHER RATES THAN THEY WOULD PAY UNDER THE PLAN.
- e. ALSO, APPROVAL OF THE RATE INCREASES IN THE AGGREGATE RATHER THAN SERIATIM COULD RESULT IN SOME POLICYHOLDERS PAYING A LOWER PREMIUM RATE THAN REQUESTED BY THE REHABILITATOR AND RECEIVING BENEFIT DOWNGRADES UNDER THE DEFAULT OPTION (OPTION A).

- f. PRELIMINARY MODELING BY THE REHABILITATOR SUGGESTS THAT, IF A STATE WERE TO MAKE A RATE DETERMINATION FOR ALL OF THE LTC POLICIES ISSUED IN THAT STATE (INCLUDING THOSE WITH PREMIUM AT OR ABOVE IF KNEW PREMIUM AS TO WHICH THE REHABILITATOR DID NOT SEEK A RATE INCREASE) AS A GROUP, AS MANY AS 65% OF POLICYHOLDERS WILL PAY HIGHER PREMIUM RATES THAN THEY WOULD IF THE RATES WERE DETERMINED SERIATIM.
 - g. IN ADDITION, RATE APPROVAL IN THE AGGREGATE OR BY GROUP, RATHER THAN SERIATIM, MAY RESULT IN A MATERIAL INCREASE IN THE SUBSIDIZATION OF SOME POLICYHOLDERS BY OTHERS.
 - h. OPT-OUT POLICYHOLDERS MAY BE ADVISED BY THE REHABILITATOR THAT THE RESULTING PREMIUM RATES ARE THE RESULT OF DECISIONS MADE BY THE OPT-OUT STATE.
4. TREATMENT OF OPT-OUT POLICIES IN PHASE ONE - PREMIUM PAYING POLICIES
- a. Holders of Opt-out Policies with Current Premium below the If Knew Premium, will be able to choose from among several options described below. These options are designed to preserve as much choice as reasonably possible while giving effect to the Opt-out State's rate decision and avoiding or minimizing subsidies by other policyholders. Holders of Opt-out Policies with Current Premiums equal to or greater than If Knew Premium will be unaffected and will retain their current policies without modification unless the Opt-out State mandated a change in their premium rates. That could occur if such policies were part of a group for which the Opt-out State mandated a premium rate increase for the entire group.
 - b. In Phase One of the Plan, the choices for holders of Opt-out Policies with Current Premium below the If Knew Premium, and which are not subject to a premium waiver (*i.e.*, those paying premiums), will be:

OPTION A:

Pay the required premium (including approved premium rate increases) and keep the current policy. However, every opt-out policy with premiums below the If Knew level (after implementing the rate increase approved by the Opt-out State) will be downgraded to the benefit level supported (on an If Knew Premium basis) by the premium approved by the Opt-out State. The downgrade will be calculated using a method substantially similar to the Plan downgrade mechanism (see Section III.A.1.c, page 42). The Downgrade Process for Option A has fewer steps than the Plan downgrade mechanism for Opt-in policies in that Benefit Reductions Eight (extension of elimination period) and Ten (removal of waiver of premium) do not apply to Opt-out policyholders. The downgrade will be adjusted so that the resulting

Maximum Policy Value (MPV) is no lower than the lesser of the policy's current MPV or the applicable guaranty association limits (the "MPV floor"). This will be accomplished by implementing the downgrade and extending the policy's Maximum Benefit Period (MBP) as necessary so that the resulting MPV satisfies that requirement. In the event that the MPV floor applies, Benefit Reductions Eight (extension of elimination period) and Ten (removal of waiver of premium) do not apply to Opt-out policyholders. Option A will be the default option for Opt-out Policies with Current Premium below If Knew Premium.

NOTE THAT, BECAUSE THIS IS THE DEFAULT OPTION, THE BENEFITS PROVIDED BY A POLICY FOR WHICH THE RATE APPROVED BY THE OPT-OUT STATE IS BELOW THE IF KNEW PREMIUM RATE WILL AUTOMATICALLY BE DOWNGRADED. POLICYHOLDERS CAN AVOID SUCH DOWNGRADES BY SELECTING OPTION D AND PAYING IF KNEW PREMIUMS.

Opt-out Policies as to which the premiums, taking into account the Opt-out State's decision on the Rehabilitator's rate increase application, are at or above the If Knew Premium will not be downgraded if they select Option A.

OPTION B:

In lieu of the approved rate increase, elect a specified benefit downgrade calibrated to the Current Premium (omitting approved premium rate increases) on an If Knew basis. The downgrade will be determined by a calculation substantially similar to the Plan downgrade mechanism and policyholders will not be able to select specific benefit changes. Unlike OPTION A, the downgrade in this case will not be "floored" at the lesser of the current MPV or applicable guaranty association limit. This option allows policyholders to avoid any rate increase.

OPTION C:

Select the Opt-out State-required reduced paid-up policy ("RPU") or Non-forfeiture Option ("NFO"). If the state does not require a particular RPU or NFO, policyholders will be offered the RPU or NFO currently specified in their policies. If no RPU or NFO is specified in the policies, policyholders selecting this Option will be provided an NFO used by SHIP before the Plan. In all of these cases, this will be a paid-up policy of moderate benefits for which no premium need ever be paid again. OPT-OUT POLICYHOLDERS WILL NOT BE ABLE TO SELECT THE ENHANCED NFO OFFERED UNDER THE PLAN, WHICH GENERALLY OFFERS A LONGER BENEFIT PERIOD.

OPTION D:

Keep the current policy benefits and accept a premium increase to the If Knew Premium for the benefits provided by the policy even though such a rate increase has not been approved by the Opt-out State. This is strictly an elective option that will

never apply by default and is intended to provide policyholders the ability to retain the current benefits when they are able and willing to pay the required premium. In other words, this option strives to avoid taking contractual benefits away from policyholders who are willing to pay for them. THIS PROVISION IS INTENDED TO REDUCE POTENTIAL DISADVANTAGES OF OPTING OUT.

5. TREATMENT OF OPT-OUT POLICIES IN PHASE ONE - POLICIES ON PREMIUM WAIVER

- a. Every Opt-out Policyholder on premium waiver will retain the waiver as long as required by the policy, but if the Current (waived) Premium is below the If Knew level and the policy's current MPV is greater than the GA limit, the policy's MBP will be reduced to the longer of (1) what can be supported by the Current Premium (had it not been waived) on an If Knew basis, and (2) the MBP required to make the MPV no less than the GA limit. If the current MPV is lower than the GA limit, or if the waived premium is at or above the If Knew level, the MBP will be left unchanged. This is designed to provide substantially no less benefits than what would happen in liquidation while minimizing involuntary subsidies by other policyholders.
- b. Once the waiver expires, such policyholders with waived premium below the If Knew level will be required to resume paying premium at the current rates and retain the reduced MBP (if it has been reduced as explained above).
- c. In Phase One, Opt-out policyholders on premium waiver will not be subject to rate increases and will not be able to choose any other option.

PHASE TWO

6. IMPLEMENTATION OF PHASE TWO FOR OPT-OUT POLICIES

- a. In general, if and when Phase Two of the Plan is implemented for policies issued in Opt-in States, it will also be implemented for Opt-out Policies. The implementation will be similar to that described for Phase One, above but based on Self-sustaining Premiums rather than If Knew Premium. If the Rehabilitator adopts an alternative premium structure for Phase Two it will apply to Opt-out Policies as well. See Section II.E.6, page 28.
- b. In Phase Two, the Rehabilitator will file in the Opt-out State a new premium rate increase request for the Opt-out Policies the Current Premiums of which are below Self-sustaining Premiums and which are not on premium waiver. As in Phase One, the Phase Two rate increase application will be filed on a seriatim basis. The Opt-out State's decision as to the requested rate increases will govern the choices available to the holders of Opt-out Policies in Phase Two.

- c. Because the Opt-out State has already been deemed to have opted out in Phase One, timely approval of the Phase Two requested rate increases in full for all Opt-out Policies will NOT result in the state being treated as if it had not opted out of the Plan. All of the policies issued in that state have been deemed Opt-out Policies in Phase One and remain so in Phase Two.
- d. If the Opt-out State responds to the Phase Two rate increase application in the aggregate or by group rather than seriatim (policy-by-policy), the Rehabilitator will apply the resulting increases on a policy-by-policy basis. AS IN PHASE ONE, THIS COULD RESULT IN SOME POLICYHOLDERS BEING REQUIRED TO PAY A HIGHER PREMIUM RATE THAN REQUESTED BY THE REHABILITATOR AND HIGHER RATES THAN THEY WOULD PAY UNDER THE PLAN. That would occur if the state's approval exceeded the requested rate increase for one or more policies.
- e. OPT-OUT POLICYHOLDERS MAY BE ADVISED BY THE REHABILITATOR THAT THE RESULTING PREMIUM RATES ARE THE RESULT OF DECISIONS MADE BY THE OPT-OUT STATE.
- f. Holders of Opt-out Policies with Current Premiums equal to or greater than Self-sustaining Premiums will be unaffected and will retain their current policies without modification unless the Opt-out State mandated a change in their premium rates. That could occur if such policies were part of a group for which the Opt-out State mandated a premium rate increase for the entire group. The holders of the Opt-out Policies with Current Premium below Self-sustaining Premiums would not be able to elect from among the Plan options and would instead have the choices described above but based on Self-sustaining Premiums, determined according to how the Opt-out State responds to the Rehabilitator's premium rate increase request.
- g. For purposes of calculating the Self-sustaining Premiums of Opt-out Policies in Phase Two, the Rehabilitator will use a separate pool of assets from those used in the calculation of Self-sustaining Premiums for policies in Opt-in States. Assets will be allocated between the two pools in proportion to accumulated premium paid by the then current policyholders of each group of states.

7. TREATMENT OF OPT-OUT POLICIES IN PHASE TWO - PREMIUM PAYING POLICIES

- a. If and when Phase Two is implemented for policyholders participating in the Plan, the process described above (with the same options) will be repeated for premium-paying Opt-out Policies using Self-sustaining Premiums instead of If Knew Premium. However, policies that would be fully covered by the applicable guaranty association if SHIP were placed in liquidation, are Self-sustaining, or have elected the NFO or RPU would not be affected in this second phase.

- b. NOTE THAT THERE CAN BE A MATERIAL DIFFERENCE IN PHASE TWO PREMIUMS BETWEEN POLICIES THAT ARE FULLY COVERED AND THOSE THAT ARE NOT, EVEN IF THEY ARE OTHERWISE SIMILAR AND THEIR MPV DIFFERS BY A SMALL AMOUNT.

8. TREATMENT OF OPT-OUT POLICIES IN PHASE TWO - POLICIES ON PREMIUM WAIVER

- a. Much as in Phase One, every Opt-out Policyholder on premium waiver will retain the waiver in Phase Two as long as required by the policy. If the waived premium is below the Self-sustaining Premium level and the policy's current MPV is greater than the GA limit, the policy's MBP will be reduced to the longer of (1) what can be supported by the Current Premium (had it not been waived) on a Self-sustaining Premium basis, and (2) the MBP required to make the MPV no less than the GA limit. If the current MPV is lower than the GA limit, or if the waived premium is at or above the Self-sustaining Premium level, the MBP will be left unchanged.
- b. Once the waiver expires, such policyholders with waived premium below the Self-sustaining Premium level will be required to resume paying premium at the current rates and retain the reduced MBP (if it has been reduced as explained above).
- c. As in Phase One, Opt-out Policyholders on premium waiver will not be subject to rate increases in Phase Two and will not be able to choose any other option.

9. Other provisions of the Plan not affected by these provisions would remain as applicable to the Opt-out Policies as to other policies. Additional details of the opt-out provisions will be specified depending on further discussions with other regulators and the Orders of the Court.

10. This approach is designed to defer to the issue-state for rate approval by making its decision the default option. It would reduce or eliminate the requirement that other policyholders subsidize the Opt-out Policies prospectively and provides Opt-out Policyholders benefits at least equal to, and in many cases exceeding, what they would receive in liquidation. It would offer policyholders benefit downgrade options in lieu of the approved rate increases as well as a reduced paid-up policy option. In addition, to reduce the disadvantage of being excluded from the Plan, these policyholders would also be offered the option of retaining the current coverage if they are able and inclined to pay the required premium.

COMPARISON OF OPTIONS FOR OPT-IN AND OPT-OUT POLICYHOLDERS IN PHASE ONE

11. The options available to Opt-out policyholders differ in some respects from those available to Opt-in policyholders.

- a. Option One for Opt-in policyholders is the same as Option B for Opt-out policyholders.
- b. Opt-in policyholders do not have the equivalent of opt-out Option A - pay the approved rate and be downgraded to what that rate buys on an If Knew basis subject to the GA floor. That is because the “approved rate” for Opt-in policyholders would be the If Knew Premium, which would make Option A the same as Option D. The Opt-in policyholder option most similar to Option A for Opt-in policyholders is Opt-in Option Two, the Basic Policy Endorsement which, like Opt-out Option A, might entail both premium increases and benefit reductions. Note, however, that Option A does not exempt Opt-out policyholders from modifications in Phase Two, while Opt-in policyholders who elect Option Two in Phase One will not face additional rate increases or Benefit Reductions in Phase Two.
- c. Opt-out policyholders do not have the equivalent of Opt-in Option Two, the Basic Policy Endorsements (which is the Default Option for premium-paying Opt-in policyholders) and enhanced Basic Policy Endorsements. The Basic Policy Endorsements consist of specific Policy Modifications intended to provide reasonable benefits and premiums that, if selected in Phase One, will be immune from changes in Phase Two of the Plan. Opt-in policyholders making this election will not face additional modifications in Phase Two of the Plan, except that they may be required to pay full premium rather than Differential Premium if a Premium Waiver becomes inactive.
- d. Both Opt-in policyholders and Opt-out policyholders have an NFO option (Option Three for Opt-in policyholders and Option C for Opt-out policyholders); however, it is likely to be “richer” for Opt-in policyholders. For Opt-out policyholders, this is the only option that ensures that they will not face potential premium rate increases or benefit reductions in Phase Two.
- e. Both groups have the same If Knew premium option – Option Four for Opt-in policyholders and Option D for Opt out policyholders. Note that Option Four in Phase One for Opt-in policyholders is based on Phase One premium (the greater of the current premium and the If Knew premium) while Option D for Opt-out policyholders is based simply on if knew premium. However, they operate the same way because Opt-out policyholders with premium at or above If Knew premium will have no modifications, rate increases, or options. Thus, both Opt-in and Opt-out policyholders already paying at least If Knew premiums will be exempt from mandatory modifications. Although Opt-in policyholders with current premiums at or above If Knew premiums (and who therefore are not required to elect modifications under the Plan) can voluntarily select other options, Opt-out Policyholders with premiums at or above If Knew Premium will not have that option. They will simply retain their current premium and benefits.

- f. For policyholders on premium waiver, the major difference is that Opt-out policyholders will not be required to pay Differential Premium, while Opt-in policyholders will be required to pay a Differential Premium if they elect to keep their current benefits. However, if the waived premium for an Opt-out Policy is below the If Knew level and the policy's current MPV is greater than the GA limit, the policy's MBP will be reduced to the longer of (1) what can be supported by the current premium (had it not been waived) on an If Knew basis, and (2) the MBP required to make the MPV
- g. no less than the GA limit. If the current MPV is lower than the GA limit, or if the waived premium is at or above the If Knew level, the MBP will be left unchanged.

W. DISCLAIMERS AND SOURCES OF INFORMATION

The discussion of the Rehabilitation Plan in this document describes how it is proposed to be implemented if approved by the Court as proposed by the Rehabilitator. If the Plan is modified by the Court or pursuant to subsequent amendments proposed by the Rehabilitator, its implementation may differ materially from the description herein.

The Plan includes information concerning SHIP's history and current and projected financial condition. This information was prepared based on information available to SHIP and the Rehabilitator, including information provided by SHIP to the Rehabilitator or available in historical public filings, and on actuarial projections that inherently include a degree of uncertainty. The Rehabilitator has yet to conclude an investigation of all the reasons that led to the Company's distressed financial condition. Pursuant to her statutory ability to do so, the Rehabilitator has delegated broad responsibility to the SDR and references in the Plan to the Rehabilitator should be interpreted as including the SDR unless specified otherwise. The Rehabilitator and SHIP do not make (and hereby disclaim) any warranty, express or implied, as to the accuracy or completeness of the information contained in the Plan. In particular, events and forces beyond the control of the Rehabilitator and SHIP may alter the assumptions upon which the disclosures in the Plan are based. The Plan Document includes certain projections, but they cannot forecast and reflect fully any events that may occur subsequent to the date hereof. Such events may have a material impact on the information contained in the Plan Document and any recovery or benefits that may be received by policyholders and other creditors of the Company. The Rehabilitator may or may not update the Plan (including the financial information and underlying assumptions) or may only update it in part or only after the passing of substantial amounts of time. Therefore, the financial information and projections set forth in this Plan document may become outdated with the passage of time.

THE REHABILITATOR AND SHIP ARE NOT OFFERING LEGAL, BUSINESS, FINANCIAL, TAX OR OTHER ADVICE TO ANY PERSON AND THE PLAN SHOULD NOT BE CONSIDERED TO CONTAIN ANY ADVICE OR INSTRUCTION CONCERNING SUCH MATTERS. THE READER SHOULD CONSULT WITH HIS OR HER LEGAL, BUSINESS, FINANCIAL, TAX AND OTHER ADVISORS AS TO ANY MATTERS CONCERNING THE PLAN.

The Plan document is not required to be prepared in accordance with federal or state securities laws. None of the Securities and Exchange Commission (“SEC”), any state securities commission, or any similar governmental body has approved the Plan Document or has opined on the accuracy or adequacy of the statements contained therein. None of the financial information in the Plan Document was prepared to comply with published guidelines of the SEC, the American Institute of Certified Public Accountants, U.S. Generally Accepted Accounting Principles or prescribed statutory accounting principles, except as specifically described therein.

The Plan Document may not be relied upon for any purpose (including to trade, buy or sell claims or securities) other than to obtain information about the details of the Plan and the related proceeding. Nothing contained herein is intended as or constitutes an admission of any fact or any party’s liability with regard to any claim or litigation, including, but not limited to, any proceeding involving the Rehabilitator, SHIP, or any other party, or any proceeding with respect to the legal effect of the transactions contemplated by the Plan. Nothing contained in the Plan Document constitutes an admission, or can be deemed evidence, of the tax or other legal effects of the Plan on SHIP or on holders of claims against, or equity interests in, SHIP or its affiliates. Statements as to the rationale underlying the treatment of claims and other matters under the Plan are not intended to, and will not, waive, compromise or limit any of the Rehabilitator’s or SHIP’s rights, defenses, or causes of action.

The Plan document contains statements that are, or may be deemed to be, “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Any such forward-looking statements are based upon a variety of estimates and assumptions that, though considered reasonable by the Rehabilitator, may not be realized, and are inherently subject to significant business, economic and other uncertainties and contingencies. Some assumptions inevitably will not materialize and events and circumstances occurring subsequent to the date on which the statements were prepared may be significantly different from those assumed, or may be unanticipated, and thus may affect financial or other results in a material and possibly adverse manner. The statements, therefore, should not be relied upon as a guaranty or other assurance of the actual results that will occur.

To ensure compliance with Internal Revenue Service Circular 230, holders of claims and other interests are hereby notified that: (a) any discussion of United States federal tax issues contained or referred to in the Plan Document is not intended or written to be used, and cannot be used, by holders of claims and other interests for the purpose of avoiding penalties that may be imposed on them under the Internal Revenue Code; (b) such discussion is provided solely in connection with the transactions or matters addressed herein; and (c) holders of claims and other interests should seek advice based on their particular circumstances from an independent tax advisor.

All summaries of the Plan contained herein or in other materials prepared by the Rehabilitator or others, including other filings with the Court, are qualified in their entirety by reference to the Plan as set forth in its entirety herein. Summaries of the Plan herein are not complete and are subject to, and qualified in their entirety by, reference to the full text of the Plan.

VII. GLOSSARY

The following are terms used in, and helpful in understanding, the Plan.

- 1) **“Accumulated Premium”** means, for a policy or group of policies, the total Gross Premiums paid, and premium waived under Waiver of Premium provisions, from inception until the valuation date.
- 2) **“Accumulated Premium Method”** means allocation of assets in proportion to the Accumulated Premium of the relevant policies as is more fully explained in Section II.E.4.e, page 28.
- 3) **“Active Block”** means the LTC insurance policies issued or assumed by the Company that remain in force and are not on claim.
- 4) **“Active Policies”** or **“Active Policyholders”** referred to also as Policies Not On claim and Policyholders Not On claim, means respectively policies or policyholders that have not been terminated due to non-payment of premiums, cancellation, or exhaustion of benefits and also are not listed in the Company’s records as having been approved for benefit payments and are not in the process of being approved for benefit payments as of the Determination Date.
- 5) **“Activities of Daily Living”** or **“ADL”** means eating, bathing, dressing, ambulating, transferring, toileting and continence.
- 6) **“Adult Day Care”** means a program for six or more individuals, of social and health-related services provided during the day in a community group setting for the purpose of supporting frail, impaired elderly, or other disabled adults who can benefit from care in a group setting outside the home. It is generally administered as part of home health care benefits.
- 7) **“Agent”** means any insurance agent, broker or producer that solicited, sold or placed insurance business issued or assumed by the Company or any of its predecessors.
- 8) **“Allocable Assets”** is a notional determination consisting of the total value of the Company’s liquid invested assets, after making provision for costs and expenses of administration, contingencies, accrued but unpaid claim payments, and certain debts of higher priority.
- 9) **“Allocated Assets”** means, for a LTC policy or group of policies, the portion of the Allocable Assets notionally allocated to that policy or group of policies in accordance with the terms of, and solely for the purposes described in, the Plan. All asset allocations are notional and do not give any policyholder a right to any Allocated Assets or any particular sum of money.

- 10) **“Approval Order”** means an Order from the Commonwealth Court approving the Plan.
- 11) **“Article V”** means Article V of the Pennsylvania Insurance Department Act of 1921, P.L. 780, as amended, 40 P.S. § 221.1, et. seq.
- 12) **“Asset/Premium Ratio”** means the ratio of Allocable Assets to the aggregate Accumulated Premiums for all LTC policies.
- 13) **“Basic Policy Endorsements”** means certain endorsements that together constitute the policyholder Option Two under the Plan. They consist of specific Policy Modifications described fully in Section III.A.2.d, page 48, intended to provide reasonable benefits and premiums that will be immune from changes in Phase Two of the Plan. Policyholders making this election will not face additional modifications under the Plan except that they may be required to pay full premium rather than Differential Premium if a Premium Waiver becomes inactive.
- 14) **“Benefit Triggers”** means the conditions that must be satisfied in order to be eligible for benefits under an LTC insurance policy.
- 15) **“Claim Waiver of Premium”** means a provision in a LTC insurance policy under which a policyholder who receives benefits under his or her policy for a specified period of time (such as 90 days) is no longer required to pay premiums for coverage after that time period as long as the policyholder remains eligible for benefits and/or receives a specified level of care.
- 16) **“Commonwealth Court”** means the Commonwealth Court of Pennsylvania, which is the rehabilitation court for SHIP and has exclusive jurisdiction over SHIP’s rehabilitation.
- 17) **“Company”** means SHIP.
- 18) **“Court”** means for purposes of the Plan, and unless otherwise specified, the Commonwealth Court of Pennsylvania.
- 19) **“Covered Benefits”** means the amount of policy benefits provided by SHIP’s insurance policies that, if SHIP were placed in liquidation, would be within the limits, conditions and scope of coverage of the responsible Guaranty Association taking into account the residence and other attributes of the policyholders as determined by the responsible Guaranty Association in accordance with applicable law.
- 20) **“Current Premium”** means the premium paid by or waived for a LTCI policy before the applicable Effective Date under the Plan. This is also equivalent to the Downgrade Target Premium for the Downgrade Process. See Section III.A.1.c, page 42.

- 21) **“Daily Benefit Amount”** or **“DBA”**, also called Maximum Daily Benefit (MDB), means a maximum daily dollar amount available on a covered day of care as specified in the policy.
- 22) **“Default Option”** means the Plan option selected automatically for a policyholder who fails to make a valid election by the required date.
- 23) **“Determination Date”** means a date as of which all the determinations and calculations required to construct the options available to each policyholder will be made by the Rehabilitator, which may vary among policyholders. For Phase One it will be after the Final Approval Date and before the applicable Policyholder Election Date to be selected by the Rehabilitator pursuant to the Plan. Different Determination Dates will be used for Phase One and Phase Two calculations. The Phase Two Determination Date will not be established until the components of Phase Two are finalized.
- 24) **“Differential Premium”** means the applicable premium (If Knew, Phase One, or Self-sustaining) less the Current Premium and is payable under the Plan in lieu of the applicable premium by policyholders on waiver. Under the terms of the Plan, differential premiums cannot be less than zero.
- 25) **“Disabled Life”** means a policyholder who is receiving, or has been approved to receive, policy benefits or a policy under which benefits are being provided, or have been approved, by the Company and is also referred to as a policyholder on claim.
- 26) **“Disabled Life Reserve”** or **“DLR”** means the present value of expected future benefits and expenses calculated for each policyholder listed in the Company’s records as a policyholder on claim.
- 27) **“Downgrade Process”** means the process for reducing the benefits of a policy pursuant to Option One so that the policyholder may retain the Current Premium but reduce the benefits provided by that policy to those that premium can fund on an If Knew basis in Phase One and a Self-sustaining Basis in Phase Two. It is described in detail at Section III.A.1.c, page 42.
- 28) **“Downgrade Target Premium”** means the premium paid by, or waived for, a long-term care policy before the applicable Effective Date under the Plan. This is also equivalent to the Current Premium. See Section III.A.1.b, page 42.
- 29) **“Dual Waiver of Premium”** or **“Dual Waiver”** (DWOP), sometimes called Spousal Waiver of Premium, means a provision in a LTC insurance policy under which the premium of a spouse is also waived when the policyholder’s premium is waived upon going on claim.
- 30) **“Effective Date”** means the date as of which the provisions of the Plan, including Policyholder Elections and modification of LTC policies, will become effective following the approval of the Plan. For most policyholders the Effective Date will be the Initial Plan Effective Date. For policyholders who undergo specified changes in status during the

Policyholder Transition Period as described in Section II.L.3.c, page 38 the Effective Date will be the Supplemental Plan Effective Date.

- 31) **“Elimination Period” or “EP”** means the time period during which a policyholder’s circumstances qualify for Long-term Care insurance benefits but for which no such benefits are yet payable by the Company. The Elimination Period is similar to a deductible or waiting period. The length of the elimination period varies by policy. The majority of the Company’s policies include elimination periods of zero days, 30 days, 60 days, 90 days, and 110 days, although the Company has some policies with elimination periods up to 365 days.
- 32) **“Extension of Benefits”** provision means a provision in the policy permitting claim payments to continue for a policy on claim that lapses due to non-payment of premium.
- 33) **“Final Approval Date”** means the date upon which the Approval Order becomes final and non-appealable or upon which an appellate Order affirming the Approval Order has itself become final and no longer appealable.
- 34) **“Fully Covered”** means that the Maximum Policy Value projected for a particular policy is no greater than the limits of Guaranty Association coverage that would apply to that policy if SHIP were placed in liquidation. A Fully Covered policy has no Uncovered Benefits.
- 35) **“Funding Gap”** means the gap between: (a) the sum of: (1) the amount of SHIP’s assets, (2) projected future premiums, and (3) projected earnings on investments, and (b) the sum of: (1) SHIP’s future policy benefits, (2) related expense payment obligations, and (3) other expenses.
- 36) **“Fuzion”** means Fuzion Analytics, Inc., a subsidiary of SHIP that, among other things, provides management and administrative services to SHIP.
- 37) **“Gross Premium”** means the periodic payments that are required to keep the policy in force. In the absence of rehabilitation, the rates used to establish the Gross Premium are typically filed with, and subject to approval of, insurance regulators. Gross Premium includes provisions for expenses and profit margins.
- 38) **“Gross Premium Reserve” or “GPR”** means the present value as of the valuation date of expected benefits unpaid, expected expenses unpaid, and unearned or expected premiums, adjusted for future premium increases reasonably expected to be put into effect. Expected expenses include commissions and premium taxes (if applicable). GPR is the reserve amount that results from performing a GPV. For a Self-sustaining Policy GPR is no more than the assets allocated to that policy under the Plan for calculation purposes only.
- 39) **“Gross Premium Valuation” or “GPV”** is the determination of the present value of expected future benefits and related expenses less the present value of expected future premiums at current and anticipated rates where “expected” consists of best estimate

assumptions including a provision for moderately adverse deviation. The gross premium valuation process is used in determining the GPR.

- 40) **“Guaranty Association”** means the life, health and accident insurance Guaranty Association or equivalent entity in a particular state responsible for providing benefits to the policyholders of an insolvent long-term care insurer in liquidation.
- 41) **“HIPAA”** means the Health Insurance Portability and Accountability Act of 1996, which among other things establishes data privacy and security safeguards for patient health information and which also provides that premiums paid for “Tax Qualified policies” as defined in the Act, may be deductible from federal income tax.
- 42) **“If Knew Differential Premium”** means the If Knew Premium less the Current Premium. It is the Differential Premium when the applicable premium is the If Knew Premium. Under the terms of the Plan differential premiums cannot be less than zero.
- 43) **“If Knew Premium”** means the premium that if charged from inception would have produced the greater of the initial target loss ratio or the minimum loss ratio applicable to the policy form. For the sake of simplicity, the Plan assumes a 60% target loss ratio. Thus, the If Knew Premium rate is the rate that, if charged from policy issue, would produce a 60% lifetime loss ratio. It is sometimes described as the premium the insurer would have charged from inception had it known then what it knows now.
- 44) **“Impaired Policy”** means an LTCI policy: (1) for which on Phase One the Current Premium is less than the If Knew Premium, and/or (2) that in Phase Two is Non-self-sustaining.
- 45) **“Inflation Protection”** means riders purchased by policyholders or policy features that provide for defined increases in benefits at regular intervals in order to protect against the effects of inflation on the cost of care.
- 46) **“Initial Funded Restructured Policy Value”** or **“IFRPV”** means a policy value equal to the portion of the liabilities arising under the policy that SHIP can reasonably be expected to meet based on future premiums and Allocated Assets. For a policy that is not an Impaired Policy, the IFRPV will be equal to the full amount of the liabilities currently expected to arise under the policy.
- 47) **“Initial Plan Effective Date”** is the Effective Date for all policyholders other than those to whom the Supplemental Plan Effective Date applies. It will not be the same specific day for all policyholders. For each policyholder, the Initial Plan Effective Date will be the policy’s *Monthiversary Date* occurring during the *Initial Plan Effective Month*. See definitions, pages 125 and 126. The Initial Plan Effective Month will be the same for all policyholders for whom the Effective Date is the Initial Plan Effective Date, that is, those who have not undergone certain specified changes in status during the Policyholder Transition Period as described in Section II.L.3.c, page 38.

- 48) **“Initial Plan Effective Month”** means the calendar month immediately following the Plan Preparation Period. The Initial Plan Effective Month will be the same for all policyholders for whom the Effective Date is the Initial Plan Effective Date, that is, those who have not undergone certain specified changes in status during the Policyholder Transition Period as described in Section II.L.3.c, page 38.
- 49) **“Lifetime Waiver of Premium” or “LWP”** means a provision in a LTC insurance policy under which the premium payments are permanently suspended upon the death of a covered spouse after a qualifying period (typically five, seven, or ten years).
- 50) **“Limited Benefit Period”** means any Maximum Benefit Period that is subject to a stated limit by the terms of the policy. It refers to a policy that is not a lifetime or unlimited benefit policy.
- 51) **“Liquidation Benefits”** means the benefits a policyholder would reasonably be expected to receive if SHIP were liquidated under the provisions of Article V, taking into account the Company’s history, the orders of the Court, the risks and uncertainties of the liquidation process, and the effect of Guaranty Association coverage.
- 52) **“Long-term Care” or “LTC”** insurance means defined benefit accident and health insurance policies covering long-term care services, including confinement to nursing facilities and assisted living facilities, as well as home health care and adult day care.
- 53) **“LTCI”** means long-term care insurance.
- 54) **“Maximum Benefit Amount”** means the dollar maximum in benefits available under a LTC policy.
- 55) **“Maximum Benefit Period” or “MBP”** means the maximum time (typically stated as number of years or days, either lapsed time or of provided service) during which benefits will be available under a LTC policy. Benefits are usually defined in the contract to be a maximum amount payable per day or per month, for a maximum number of years. However, in some policies, if the claimant uses less than the maximum amount permissible in a given period, the unused excess typically serves to lengthen the Maximum Benefit Period under what is known as the “pool of money” clause. Benefits commence after satisfaction of an Elimination Period (EP) and continue until the recovery or death of the claimant or until the pool of money has been exhausted. In these cases the Maximum Benefit Period is sometimes expressed as a dollar amount, the Maximum Benefit Amount. Under other policies (sometimes called “days of care” policies) reducing the daily benefit amount utilized does not extend the benefit period. For these policies the Maximum Benefit Period is expressed as the number of days, months or years during which coverage remains available under the policies. In either case, modifications by the policyholder under the Plan may have the effect of reducing the Maximum Benefit Period.

- 56) **“Maximum Daily Benefit”** or **“MDB”** also called Daily Benefit Amount (DBA), means a maximum daily dollar amount available on a covered day of care as specified in the policy.
- 57) **“Maximum Policy Value”** or **“MPV”** means the product of a policy’s Maximum Benefit Period times its Maximum Daily Benefit determined as of a specified date, adjusted for inflation protection. For Plan purposes, MPV will be calculated as if the policyholder went on claim on the Plan Effective Date.
- 58) **“Monthiversary Date”** means the day of the month upon which premium is due under a particular policy or would be due except for a Premium Waiver provision.
- 59) **“NAIC”** means the National Association of Insurance Commissioners.
- 60) **“Net Premium”** means the part of the Gross Premium that is intended to cover the cost of future claims, as opposed to future operating expenses and profit margin. The Net Premium is typically set at issue.
- 61) **“Non-core Policy Benefits”** means certain benefits provided by some SHIP LTC policies other than nursing home, facility, home health (which often includes hospice) or adult day care. They are enumerated in section II.H, page 33.
- 62) **“Non-forfeiture Option”** or **“NFO”** traditionally means an option to exchange an existing LTC policy for a reduced paid up contract on which no future premiums need be paid by the policyholder but under which benefits are limited to premiums previously paid less benefits previously received. NFO benefits are enhanced substantially under the Plan.
- 63) **“Non-Self-Sustaining Policy”** means a LTC policy the Projected Benefit Amount (PBA) of which exceeds its Projected Credit Amount (PCA). It is a policy for which Current Premium rates are inadequate given assets available to be allocated to it and its projected liability for benefits and expenses.
- 64) **“Non-Tax-Qualified”** or **“NTQ”** benefit triggers means LTC insurance policy provisions under which the conditions that must be satisfied to be eligible for benefits do not conform to the legal standards for Tax Qualified policies. Policies containing such provisions were formerly called “traditional” Long-term Care Insurance policies. They often include a benefit “trigger” called a “medical necessity” trigger under which the insurer is obligated to pay if the policyholder’s own doctor, or that doctor in conjunction with someone from the insurance company, determines that the policyholder needs covered care for any medical reason. The United States Department of the Treasury has not fully clarified the tax status of premiums paid for and benefits received under a NTQ Long-term Care Insurance policy as precisely as the status of benefits received under a tax qualified policy. Therefore, the federal taxation of benefits under a NTQ policy is not certain. **The Rehabilitator makes no representation and does not offer any opinion regarding tax matters.**

- 65) **“Partnership-Qualified”** (PQ), means LTC policies that are intended to satisfy the requirements under the Deficit Reduction Act of 2006 entitling the policyholder to a dollar of asset disregard or spend-down credit with respect to Medicaid eligibility for every dollar of benefit received under the LTC policy.
- 66) **“On claim”** refers to a policyholder who is receiving, or has been approved to receive, policy benefits or a policy under which benefits are being provided by the Company.
- 67) **“Paid-Up Policy”** means an in-force policy that is paid in full and no longer requires premium payments under its terms.
- 68) **“Phase One Differential Premium”** means the Phase One Premium less the Current Premium. It is the Differential Premium when the applicable premium is the Phase One Premium. Under the terms of the Plan, the Phase One Differential Premium cannot be less than zero.
- 69) **“Phase One Premium”** means the premium calculated for a specified policy (or group of policies) on the If Knew basis, but not less than the Current Premium.
- 70) **“Phase Two Policyholder Election Package”** means the Policyholder Election Package sent to certain policyholders to inform them of options available in Phase Two of the Plan and to enable them to elect from among those options.
- 71) **“PID”** means the Pennsylvania Insurance Department.
- 72) **“Plan”** means this Rehabilitation Plan.
- 73) **“Plan Document”** means this document describing the Plan.
- 74) **“Plan Limits”** means the minimum and maximum modifications permitted by the Plan for a policy’s Maximum Benefit Period (MBP) and Maximum Daily Benefit (MDB). Except as noted in Section III.A.1.c.(4), page 43, a policy’s MBP cannot be reduced by the Plan below the lower of (a) the current MBP or (b) four years, and cannot be increased by the Plan above the greater of (a) the current MBP or (b) six years. A policy’s MDB cannot be reduced by the Plan below the lesser of 80% of current level and \$300 for Nursing Home Care; the lesser of (a) 80% of current level or (b) \$225 for Facility Care; and the lesser of (a) 80% of current level or (b) \$150 for Home Health Care. The MDB cannot be increased by the Plan above the greater of (a) the current MDB or (b) \$600 for Nursing Home Care, \$450 for Facility Care and \$300 for Home Health Care.
- 75) **“Plan Option”** means any of the options available to policyholders under the Plan, which are described on page 23.

- 76) **“Plan Premium”** means the premium that a policyholder must pay under the terms of the Plan. Depending on the policyholder’s circumstances, it could be the Phase One Premium, If Knew Premium, Self-Sustaining Premium, Phase One Differential Premium, If Knew Differential Premium, or Self-sustaining Differential Premium.
- 77) **“Plan Preparation Period”** means the time between the Final Approval Date and the Effective Date of the Plan, during which preparatory steps necessary to implement the Plan will be completed. It includes the period during which policyholders will make elections under the Plan.
- 78) **“Policies Not On claim”** or **“Policyholders Not On claim,”** also called Active Policies or Policyholders, means policies or policyholders that have not been terminated due to non-payment of premiums, cancellation, or exhaustion of benefits and also are not listed in the Company’s records as having been approved for benefit payments or in the process of being approved for benefit payments as of the Determination Date.
- 79) **“Policy Modifications”** means Premium Rate Increases or Benefit reductions selected by a policyholder, or made applicable, in accordance with the terms of the Plan.
- 80) **“Policyholder Election”** means the election by a policyholder to modify the premiums or benefits of a policy under the Plan.
- 81) **“Policyholder Election Date”** means the date by which the Rehabilitator must receive properly completed Policyholder Election Forms in order to give them effect.
- 82) **“Policyholder Election Form”** means the form on which a policyholder specifies whether, and if so how, he or she elects to modify his or her LTC policy in accordance with the terms of the Plan.
- 83) **“Policyholder Election Package”** means the materials, including the Policyholder Election Form, to be sent to policyholders by the Rehabilitator so that they may make the elections available under the Plan.
- 84) **“Policyholders”** means holders of insurance policies and certificate holders under group insurance policies.
- 85) **“Policyholder Transition Period”** means the period between the Plan Determination Date and the Initial Plan Effective Date during which policyholders may experience changes in circumstances (such as going on claim) as the result of which they may have to make new elections under the Plan.
- 86) **“Possible Benefit Reductions”** means the list of possible benefit reductions applicable to premium paying active policyholders who select a Downgrade option as described fully beginning on page 45.

- 87) **“Premium Waiver”** means a policy provision that allows a policyholder to discontinue paying premiums and maintain the policy in force during a period of covered care or under circumstances specified in the policy.
- 88) **“Projected Benefit Amount” or “PBA”** means the present value as of the valuation date of unpaid expected benefits and unpaid expected policy expenses. For purposes of this determination, “expected” consists of best estimate assumptions including a provision for moderately adverse deviation.
- 89) **“Projected Credit Amount” or “PCA”** means, for a LTC insurance policy, the sum of (a) the present value as of the valuation date of expected premiums, adjusted for future premium increases reasonably expected to be put into effect and (b) the assets allocated to that policy using the Accumulated Premium Method. For purposes of this determination, “expected” consists of best estimate assumptions including a provision for moderately adverse deviation.
- 90) **“Reduced Paid-up Policy” or “RPU”** means a policy offering reduced long-term care benefits but for which no more premium has to be paid and which will not lapse before the death of the policyholder. The Non-forfeiture Option offered under the Plan is a RPU.
- 91) **“Rehabilitation Plan”** means this Plan for the rehabilitation of SHIP’s Long-term Care insurance business.
- 92) **“Rehabilitator”** means Jessica K. Altman, Insurance Commissioner of the Commonwealth of Pennsylvania, and her successors in office, in the capacity of Statutory Rehabilitator of the Company. Pursuant to her statutory authority to do so, the Rehabilitator has delegated broad responsibility to the Special Deputy Rehabilitator and in the Plan documents references to the Rehabilitator should be interpreted as including the SDR unless specified otherwise.
- 93) **“Restoration of Benefits”** means a LTC insurance policy feature under which the benefit period for a policyholder who has received benefits will be restored to the original Maximum Benefit Period after receiving some or all claim benefits if the policyholder does not need or receive care during a specified period of time (such as 180 days).
- 94) **“Restructured Policy”** means a policy that has been restructured as described in Section VI.H, page 91, to allocate the liabilities arising under the policy between its IFRPV and its UBL.
- 95) **“Return of Premium”** means a LTC insurance policy feature which provides for the return of a percentage of premium paid by the policyholder (such as 80%) if the policyholder does not make a claim (or has a limited expected amount of benefits paid) during a given period of time in which the policy was in force (such as ten years).
- 96) **“Self-sustaining”** means a policy for which its Projected Credit Amount (PCA) equals or exceeds its Projected Benefit Amount (PBA). It is a policy for which Current Premium rates

are adequate given assets available to be allocated to it and its projected liability for benefits and claims expenses.

- 97) **“Self-sustaining Differential Premium”** means the Self-sustaining Premium less the Current Premium. It is the Differential Premium when the applicable premium is the Self-sustaining Premium. Under the terms of the Plan, differential premiums cannot be less than zero.
- 98) **“Self-sustaining Premium”** means the premium calculated by determining the amount of premium required to eliminate a policy’s Shortfall Amount.
- 99) **“Senior Health Care Oversight Trust”** means the Pennsylvania business trust governed by an independent Board of Trustees comprised of former insurance regulators and an independent actuary, who also served as members of the board of directors of SHIP, created in 2008 to be the sole owner of SHIP.
- 100) **“SHIP”** means the Senior Health Insurance Company of Pennsylvania, the subject of this Rehabilitation Plan.
- 101) **“Shortfall Amount”** for a LTC policy means the difference between its Projected Benefit Amount and its Projected Credit Amount where the difference is more than zero. The Shortfall Amount can also be expressed as a policy’s GPR less its Allocated Assets. If the difference is zero or less there is no shortfall and the policy is Self-sustaining.
- 102) **“Special Deputy Rehabilitator”** or **“SDR”** means Patrick H. Cantilo or his successors, appointed by the Rehabilitator to serve as the Special Deputy Rehabilitator for SHIP.
- 103) **“Statutory Reserve”** means the insurance reserve required by Pennsylvania insurance laws to be included in an insurer’s financial statement on account of its insurance business in force.
- 104) **“Supplemental Plan Effective Date”** is the Effective Date for policyholders who undergo certain changes in status during the Policyholder Transition Period as described in Section II.L.3.c, page 38. It will occur on the policy’s Monthiversary Date during the month specified by the Rehabilitator following the Policyholder Transition Period.
- 105) **“Tax Qualified”** or **“TQ”** benefit triggers means the conditions that must be satisfied to be eligible for benefits under a LTC insurance policy that is designed to conform to certain standards in federal law and may offer certain federal tax advantages. TQ policies were created as a result of HIPAA, which included provisions for favorable tax treatment of qualified Long Term Care Insurance contracts. To comply with those standards, TQ policies are required to cover services for a chronically ill individual, and do not have a “medical necessity” benefit trigger. A TQ benefit trigger requires that a person 1) be expected to require care for at least 90 days, and be unable to perform 2 or more Activities of Daily

Living (eating, dressing, bathing, transferring, toileting, and continence) without substantial assistance (hands on or standby); or 2) for at least 90 days, need substantial assistance due to a severe cognitive impairment. In either case a licensed healthcare professional must certify a plan of care. Premiums paid for a TQ policy may be deductible from taxable income, and benefits from a TQ policy may not be subject to federal income tax. See the discussion in Section VI.B.7, page 83. **The Rehabilitator makes no representation and does not offer any opinion regarding tax matters.**

- 106) **“TQ Triggers”** means the requirements that must be met under a Tax Qualified LTC policy in order to receive benefits.
- 107) **“Transitional Events”** means the events described on page 38 as a result of which a policyholder must make an election after the Initial Policyholder Election Date and before the Supplemental Plan Effective Date.
- 108) **“Trust”** means the Senior Health Care Oversight Trust, as defined above.
- 109) **“Uncovered Benefits”** means the portion of the LTC policy benefits to which policyholders are contractually entitled on the Effective Date that exceed Guaranty Association statutory limits or otherwise are not covered by Guaranty Associations as determined by the responsible Guaranty Association in accordance with applicable law.
- 110) **“Unfunded Benefit Liability”** or **“UBL”** means the portion of a policy’s Unmodified Policy Value that exceeds its IFRPV.
- 111) **“Waiver of Premium”** see Claim Waiver of Premium, Dual Waiver of Premium, and Lifetime Waiver of Premium.

VIII. APPENDIX A - CHANGES FROM OCTOBER 21, 2020 AMENDED PLAN

1. Clarifying language changes and updates have been made in various Plan provisions.
2. The selection of a default option for policies on premium waiver has been simplified by removing consideration of possible future premium upon recovery. See Section I.A.4, page 13.
3. The discussion of the COVID-19 pandemic has been expanded. See Section I.C, page 16.
4. A new section has been added describing the order of distributions under the Plan. See Section I.G, page 21.
5. A disclosure has been added that a policyholder immune from required elections in Phase One (due to premium at or above If Knew Premium) may nonetheless have a non-self-sustaining policy and be required to elect policy modifications in Phase Two. See Section II.C.4, page 25.
6. The possibility of an alternative premium structure in Phase Two is described. See Sections II.E.6 and IV.A.6, pages 28 and 59, respectively.
7. The Policyholder Transition Period has been changed to commence on the Plan Determination Date rather than the Policyholder Election Date. See Table 3, beginning at page 35, Section II.L.3, page 37, and the definition on page 128.
8. The determination of MPV has been clarified. See Section II.N.7, page 40.
9. The possibility of material changes in Phase Two has been emphasized. See page 58.
10. Clarification has been added that UBL payments in Phase Three will take the form of MBP extensions. See Section V, page 81.
11. A reference to the issue-state rate approval alternative has been added to the discussion of the Commonwealth Court's jurisdiction. See page 96.
12. Clarifying language has been added regarding the ceding companies' claims against SHIP. See Section VI.M.7, page 98.
13. The reinsurance Section has been edited to reflect the recapture agreement with Transamerica. See page 99.
14. Clarifying language has been added to the Section about agents' commissions. See page 99.

15. A new Section has been added regarding the suspension to Transport Life retiree benefits. See page 100.
16. A more robust issue-state rate approval Section has been substituted. See Section VI.V, page 108.
17. Notice has been added that the decisions of Opt-out States may affect policyholders residing in other states whose policies had been issued in the Opt-out States. See page 109.
18. The definition of Determination Date has been clarified to note that different dates will be used for Phase One and Phase Two. See page 122.
19. A definition has been added for Downgrade Target Premium. See page 122.
20. The definition of “Fully Covered” has been clarified. See page 123.
