Subject: 2018 CP 26-05709 PCR Luzenski Allen Cotrell vs. State of South Carolina

Good Morning,

Per the Chief Justice's Oder of January 26, 2022, I am providing an update to the Supreme Court Clerk of Court and Court Administration on the above referenced PCR action. The court held status conferences in this matter on June 1, July 28, September 19, and December 19, 2022. Defense experts have all been retained and are to complete their evaluations and final reports by April 1, 2023. There is a status conference scheduled for April 4, 2023 at 9am. The State seems confident that they will be able to prepare and respond to the defense's experts and reports and all parties agree that the matter will be ready to be heard in the fall of 2023. I have made Ms. Kennedy aware of this for scheduling purposes.

Thanks,

H. Steven DeBerry, IV

Circuit Court Judge
12th Judicial Circuit
