IMPORTANT ACCOUNT INFORMATION

Good News! Effective October 22, 2015, you will have quicker access to funds from your check deposits. All or a portion of your check deposits may be immediately available for your use on the day of deposit. You can use those funds to withdraw cash, complete transfers and make debit card transactions.

Amendment to our Funds Availability Policy

Our policy is to make the first \$400 of a business day's check deposits to your checking or savings account available to you on the day we receive the deposits. Check deposits not receiving such availability on the business day (typically Monday-Friday) we receive the deposits, will receive availability on the first business day after the day we receive your deposits.

In some cases, we will not make the first \$400 of a business day's check deposits available to you on the day we receive the deposits. Further, in some cases, we will not make all the funds that you deposit by check available to you on the first business day after the day of your deposit. If we are not going to make all funds from your deposit available on the business day of deposit or the first business day, we will notify you at the time you make your deposit. We will also tell you when the funds will be available.

Worksheet to balance your account

Follow the steps below to reconcile your statement balance with your account register balance. Be sure that your register shows any interest paid into your account and any service charges, automatic payments or ATM transactions withdrawn from your account during this statement period.

A Enter the ending balance on this statement.

§ _____

B List outstanding deposits and other credits to your account that do not appear on this statement. Enter the total in the column to the right.

Description	Amount
Total	\$

+ \$ _____

C Add **A** and **B** to calculate the subtotal.

§ 1

D List outstanding checks, withdrawals, and other debits to your account that do not appear on this statement. Enter the total in the column to the right.

[illegible]

- \$ 1

E Subtract D from C to calculate the adjusted ending balance. This amount should be the same as the current balance shown in your register.

IMPORTANT INFORMATION ABOUT YOUR CONSUMER CHECKING ACCOUNT**Substitute Checks and Your Rights*****What is a substitute check?***

To make check processing faster, federal law permits banks to replace original checks with "substitute checks." These checks are similar in size to the original checks with a slightly reduced image of the front and back of the original check. The front of a substitute check states: "This is a legal copy of your check. You can use it the same way you would use the original check." You may use a substitute check as proof of payment just like the original check.

Some or all of the checks that you receive back from us may be substitute checks. This notice describes rights you have when you receive substitute checks from us. The rights in this do not apply to original checks or to electronic debits to your account. However, you have rights under other law with respect to those transactions.

What are my rights regarding substitute checks?

In certain cases, federal law provides a special procedure that allows you to request a refund for losses you suffer if a substitute check is posted to your account (for example, if you think that we withdrew the wrong amount from your account or that we withdrew money from your account more than once for the same check). The losses you may attempt to recover under this procedure may include the amount that was withdrawn from your account and fees that were charged as a result of the withdrawal (for example, bounced check fees).

The amount of your refund under this procedure is limited to the amount of your loss or the amount of the substitute check, whichever is less. You are also entitled to interest on the amount of your refund if your account is an interest-bearing account. If your loss exceeds the amount of the substitute check, you may be able to recover additional amounts under other laws. If you use this procedure, you may receive up to \$2,500 of your refund (plus interest if your account earns interest) within 10 business days after we received your claim and the remainder of your refund (plus interest if your account earns interest) no later than 45 calendar days after we received your claim. We may reverse the refund (including any interest on the refund) if we later are able to demonstrate that the substitute check was correctly posted to your account.

How do I make a claim for a refund?

If you believe that you have suffered a loss relating to a substitute check that you received and that was posted to your account, please contact us at 1-800-869-3557. You must contact us within 40 calendar days of the date that we mailed (or otherwise delivered by a means to which you agreed) the substitute check in question or the account statement showing the substitute check was posted to your account, whichever is later. We will extend this time period if you were not able to make a timely claim because of extraordinary circumstances.

Your claim must include -

- A description of why you have suffered a loss (for example, think the amount withdrawn was incorrect);
- An estimate of the amount of your loss;
- An explanation of why the substitute check you received is insufficient to confirm that you suffered a loss; and
- A copy of the substitute check or the following information to help us identify the substitute check: the check number, the name of the person to whom you wrote the check, the amount of the check.
