SC Court of Appeals

To whom it may Concern

On February 4, 2023 I went to COURT... I made the Judge aware that I was a mental health patient and that I only went to the 8th grade and had a learning deficiency. The Judge handed me down a 90 day sentence and suspended the 91 days I had already done. I didn't agree cause I didn't understand...

So then the Judge handed me down 1yr sentence with 91 day credit to serve.

I made the Judge aware that my mother who had my 6 kids was sick... "well" my mother died that night... my mother's neighbor said she CAN NOT take care of my kids much longer...

AND my marriage IS in trouble and hanging on by a thread.

IF I would have understood the Judge's first offer I would only served 45 days more off a 90 day sentence.

I throw myself on the mercy of Appeal Court AND ASK either you give me credit for those 45 days or Time serve me.

So I can go home and be a law abiding citizen, A mother, A wife

Thank you.
