SC Court of Appeals

To whom it may concern, I would like to file an appeal because this whole case is unfair. My landlord Jawanda Cutano is trying to evict me falsely. Back in Sept on the 12th 2022 she said Steven Smith was coming out my back door with his work clothes on going to work. That wasn't true because he didn't work that day because it was his birthday and I emailed that paper to you that Steven boss sent saying he didn't work that day. Jawanda been bothering me and harassing me for about 2 1/2 years now. There's no one staying in my home besides my daughter and me. All I do is go to work and home and to bible study and to church where I'm the usher and Secretary of the usher board. I even sent over a petition and witness statements. I do the right thing but people still bothering me. I'm aloud to have company but I can't have anybody stay more than 14 days.

Thank you,
Sherika McIntyre
