Re: "Explanation" in response to Dennison Letter sent
by Post Conviction Counsel Steve W. Fowler on
2-7-2023 received at Evans Corr. Inst.

Dear Mrs. Patricia A. Howard 2-27-2023

Will you please file this "Explanation" brief that
is in response to Dennison Letter and pursuant to
S.C. App. Rule 243(C), along with exhibits A-I, as
proof to rebut the presumption of relying on the
regularity by the state by fraudulent misrepresent-
ations with maps, warrants, etc. and the additional
issues regarding the notice of appeal and rebuttal
to the state's assertion in its return that it
used this prior conviction to legally enhance my
current sentence directly related to case no.
2019-CP-21-2408 now pending and counsel's also
ineffectiveness as failure to file notice of appeal
as instructed. See proof by the amendment of my
PCR application in that case as I have also informed
Counsel Steve W. Fowler to file a Rule 59(e) if the
state fails to address all my claims raised at PCR
and to also file a Notice of Appeal in same case
if I am denied the relief requested. Also I ask
the court to please excuse any writing errors or
mistakes as I was limited on writing paper and my
eyes are going bad because medical or the carter
won't provide me with proper reading glasses.
I respectfully request and pray for the Honorable
Court to grant me a hearing and appoint new counsel,
to keep the state from benefit of its own wrongs and
the officer's impermissible conduct in this wrongful
conviction still causing adverse effects.
