and severally liable),)		
Respondents)		
_____)		

I Joe Clemons (Appellant) is submitting this Motion to the Appeals Court to Subpoena the South Carolina Court Administration to get the ASCII Disks (unedited rough copy) and Unedited (rough draft) E-mailed Transcripts or uncut/unedited Audio Recording and or The WebEx unedited Recording of January 11, 2021 and August 23 & 24, 2021 that took place at a Hearing & at Trial, (which I have been asking the court of appeals to get many times). In respond to the letter that came from The Supreme Court Of South Carolina on February 10, 2023. The reason that I am so passionate about these things being before the Appellate Court, is the second half of the transcript have not been signed, and the first half I never got the chance to review it even though I has requested to. Also, I'm requesting in this Motion to get the recording of my conversation with Randy who work in State Farm's call center, who I spoke with on March 10, 2017, about my policy's WPD (waive of premium) from S C Department of Insurance. Because the S C Department of Insurance will not give it to me until I get the proof that I made the call from my land line Phone, and the Respondent (Peggy Pinnell) is my

land line carrier neighbor who is the C. E. O. of Home Telecom, that refuses to give me accurate detail information about my calls, and this is why the respondent (lawyer) keep demanding that this court don't allow me to get the recording of January 11, 2021, in all of his briefs. This is why I'm requesting that this Motion be Granted, it is the only way to see clearly what happened in the Lower Court.

I am also enclosing a \$50.00 fee for the cost of the filing.

Thank You,

By: Joe Clemons
