Re: Estate of G. Bridwell v. Mary Ellen Harris Life
Appellate Case No. 2012-205726

I, Mary Ellen Harris respectfully request this Court to consider an extension based upon the following facts.

I contacted several attorneys who could not take the case at this time stating their work load would prevent them from taking the case, or due to the following missing information

1. The complete file with originals and transcripts were give to attorney Kevin Sitnik to appeal this case. As of this date the whereabouts of the file is unknown. The post office has confirmed there was never a package received at p.o. box for Rev. Mary Ellen Harris, or Life and Hope Assembly of God Church from Attorney Kevin Sitnik
2. It would be impossible to proceed at this time without this important information.
3. I was personally sued by the George LaFaye, IV Plaintiff's attorney. The members of the church, Life and Hope Assembly of God, the board members, secretary and treasurer were never allowed to testify. Due to ambiguous information that we were a church or that we were not a church was conventionally used to prevent justice.

I prayerfully request an extention from this Honorable Court for an Extention to properly respond to this case.

Respectfully yours,

Mary "Ellen" Harris
