 Re: [External Email] PURE v. Calvin "Skip" Hoagland and Lisa Sulka- Lisa Sulka V. Skip Hoagland filed by known ambulance chasing lawyer Johnny Parker

According to this claim, Lawyer Parker claims PURE and Mr. Hoagland’s conduct is contrary to the public interest in that if this conduct is allowed, it allows insureds and insurance companies to devise strategies to defeat efforts by tort victims to be compensated for his or her injuries.

Mr Parker, you are clearly out of touch with reality and worse, a known ambulance chasing attorney representing an equally discredited client’s frivolous lawsuit. It is absolutely in the public interest to expose corrupt public officials and their attorneys who are looking to make a quick buck off the courts and the taxpayer.

And by all means do explain what laws I broke or that anything I said was not true under my First Amendment free speech rights. And if you do I will make certain you are sent a million dollar check from my private donors.

You see, I don’t need a judge, jury or attorney to defend against this contrived lawsuit your client filed for personal profit, and attempt to silence my criticism of her corruption. What I should do is file a counter lawsuit against both of you for filing such a frivolous, lawless and baseless action, designed to harm a citizen and critic of public corruption.

I have called Pure Insurance, even though they stabbed me in the back (which they will be part of a 10 million lawsuit I will be filing against the Town of Hilton Head for the illegal criminal use of tax funds, to fund a private lawsuit against a citizen) to let Pure Insurance Corp know I am still happy to testify on their behalf in this frivolous Sulka lawsuit. And I believe your client, full time realtor, part time mayor, and full time crook, Lisa Sulka, should be investigated and handcuffed, along with her lying town lawyer and town manager, Terry Finger and Marc Orlando, note all connected with the Town of Hilton Head shyster Lawyer Gregg Alford and the town cronies who schemed the other defamation lawsuit with for past council member Kim Likins and other council members. We have the emails connecting both these two dishonest woman on both their frivolous lawless, damaging lawsuits against me.

Mr Parker

If this continues and goes into default, and a judge rules on this, I suggest it's ruled upon based on laws and not any other reasons. I don't care if it's tossed out of court, you are awarded 1.00 or 1 million.

Hope I am clear on all this.

Oh and let's not forget your lying client Sulka also committed perjury in her deposition, my past Lawyer Barrett Brewer before I fired him, has this info. Sc legal system is like a box of chocolates.  
Thanks
