Happy To Help (richbusinessonly@gmail.com) has attached the following document:

The Municipal Court Of Rock Hill Conducted a third trial on me for the same exact offense after a unlawful conviction that was overturned, a mistrial that was illegally called by the magistrate resulting in an illegal sentence of contempt of court, then this trial which I did not attend because it was triple jeopardy and the motion to dismiss the charge before the trial should not have been denied and has been appealed. So I am also requesting that transcript which includes an officer committing perjury under oath that he was the arresting officer for the offense which is a lie because I know the arresting his name is Sam Buchanan and he now works for the feds and I still have the original arrest warrant.
