S.C. SUPREME COURT

Mr. Coleman, William Theoplas

Petitioner,

And

State Of South Carolina,

Respondent.

Appellate Case No. 2021-001179

---

Motion to Amend The Clerk's ruling that no action will be taken on my filings.

---

Motion To Amend the Clerk's ruling. Ms. Patricia Howard please be advised not only am I smart enough to pass the bar I'm also smart enough to write you up to Justices of this State Or The Office Of disciplinary counsel for you trying to play as if you are the judge. You don't have the power or the position to tell me what the courts will and won't take action on. I have the right to make a pro se filing in my case and if my attorney doesn't join me on it they can be fired from my case. I know this. It's law that a clerk is to be ministerial in their filings not make rulings. So action will be taken and the first action is you will file it. Yes you can forward a copy to my appellate defense attorney if you want but that does not bar me from bringing forth a motion pro se. The second action you will take my motion as and is and you will present it to The Honorable Justices of this State before I present it to them through a different avenue other than you which will probably land you in trouble with the people with the authority to fire you, clerks do get fired for trying to play the Judges role and make court rulings. You are trying to quote case law to a person like I haven't created case laws in federal and state courts pro se. I probably might go appeal the ones you are quoting and change those too. Third thing you going to do is please stop sending my mail to a prison. I am very much free. I already won the case I was in prison on and I won't be going back. So give my motions to the Justices of the state before I go around you and get it to them which will probably result in you losing your job. I don't

have to pay any fees because it's a criminal appeal. So please properly submit my filings before you properly end up at the unemployment line for trying to make a court ruling like you are the judge and quoting case law to me like you are my attorney and your not. Please and I asked please as nicely as I can put it. Please Ma'm I have a right to make a pro se filing, I have a right to file a motion through me or my attorney, and I have a right to humbly ask you to do your job correctly and serve the motions I filed upon the opposing party or you can advise me to do it but since it's a criminal appeal and I automatically have leave to proceed in forma puaperis you supposed to do it for me especially if you believe I am in prison. Lady I'm a public figure and you are a clerk. I have so many friends in media you will be on the news tomorrow if I choose to put you there for misconduct in office because a clerk of court cannot make a court ruling and everybody knows that including every clerk around the state in the lower courts some of them have been fired already for doing what you are attempting to do now which is delay me from achieving Justice. So please stop breaking the law and please present my motions to the court justices and the opposing party like you are supposed to. Please pretty please with a cherry on the top. You can't give me legal advice or make a ruling such as you just did and if you do it again I'm going to file a lawsuit in Federal Court and hopefully get you fired from your job faster than you can say William Theoplas Coleman for breaking the law. So say it twice William T. Coleman. Did you know there was a judge name William T. Coleman too? I think you are a great and kool person and very professional so let's keep it that way and stop trying to play the devil's advocate before I start praying. I am a direct descendant of Moses and Jesus and I pray strong. Please don't break the law in my case. Just do your job and serve the opposing party please with the motions I filed and schedule us a court date before I do. Thanks.
