

This is Thank G. Bright and I'm writing checking up on my appeal could you please let me know what's going on with my appeal and if it was filed for me because I don't trust my public defender He did not represent me right did not ask none of the questions I told him to ask. And I was convicted on a charge that you can not identify no one on the solicitor even said in my motion to suppress on 6-11-2013 that she couldn't identify me on the video camera and she was sitting next to me when asked by Judge Cole that's the only evidence they have. I am not guilty of this crime and was found guilty with out no evidence I was given 12 years for this. I'm really doing my best to fight for my life back could you please have some one to review my case and video because I don't think that's right for some one to be found guilty when the state had no evidence I was convicted on Burglary and on 6-12-2013 indictment # 2012 GS 0200423 WARRANT I-093853 please get back with me because my public defender is against me please help me or give me some info to some one who will
