Case No. 2022A3010101143-1148  
2022A3010200255

The Petitioner, David S Miller Argues  
The Court lacked subject matter Jurisdiction  
To Impose a 30 month Sentence on  
May 24th, 2023 due To its Failure  
To determine The Defendant and  
Instant Movant was Competent To  
Proceed Pro Se. The Movant is diagnosed  
with multiple mental defects including  
Schizophrenia, Personality disorder  
and Autism and was experiencing  
Extreme symptoms during the Court  
proceedings and was Not Competent  
To represent himself. The State and  
County officials were completely  
AWARE and used it To Force The  
Petitioner into a Pled agreement.  
Several motions were Filed requesting  
counsel and a mental evaluation,  
while detailing the extreme mental  
psychosis The Petitioner was  
experiencing.
