Dear Mr. Jared Newman,

With all due respect for you and your colleagues in  
the <sup>(with court)</sup> judicial Court of Beaufort County South  
Carolina. An Hired atty, is <sup>to</sup> support his client, by keeping  
him or her informed on their cases, and he discusses,  
The pros and cons of the case, and signs on and files,  
motions in the client's Best interest, also he does  
it, in a timely fashion to protect his client according to  
Attorney Client Privilege, and the BAR Association, of  
any state. But you have <sup>not</sup> effectively support me, At All!  
After 10 years of holding me up to settle the first  
claim, you told me Solicitor Stone would not acknowledge  
you. But see no letters to that effect. The After <sup>5</sup> years  
knowing Judge Miller, by law should ~~have~~ dismissed,  
The case against me for assault, and resisting arrest, you  
allow them to send me, prison without any records,  
As a pillar of the community, in this county, I have my good  
name tainted by imprisonment, by an unlawfully held  
trial hearing, Doctored up 911 Tapes, No rebuttle on motions  
filed for a dismissal in a timely fashion, which I don't  
see where you signed on. The using of a 30 year old  
Traffic Ticket for a Blue light, which was unlawfully used  
without a 10 DAYS Notice, and NO 30 DAYS Notice,

for The Trail Hearing on March 15th-2023.  
Whereas Both was UNLAWFULLY done, AS THE RULES  
of The South Carolina 28 USC-Title 17 clearly  
states, must be done in ~~a~~ Criminal procedures  
of Law. But you stood by an allowed a young-  
student, to do as they wish, to ~~maliciously~~ ~~met. society~~ SWAY  
A jury for imprisonment, all because you and I  
and the state official know this case by law  
should and was required to have been settled in  
3 years, whereas I want my 300,000 for them  
holding up my life 13 years totally, mental anguish,  
UNLAWFULLY, imprisonment, being assaulted on  
my own proper without a warrant, being  
shot, while holding both granddaughters,  
which was child endangerment on my 4th Amend-  
ment right violated. The using of a UNLAWFUL obtain-  
ed warrant for an arrest, which makes that falsely  
held Trail Hearing void, also the Honorable  
Goldsmith's sentence was void, due to  
his violation of legislative law of South Carolina,  
which is called TRESPASSING against the law.  
which by law requires his orders and decisions to  
become void, with effect according to this state's  
law, unless this is settled in 30 days, you

will be replace as my attorney, and all the filed motions for things over 2 million shall go forth, without your help and I will sue you for an effective counsel with all the proof I have and witnesses, with a change of venue. I already requested my term with you, which was nothing compared to what's about to happen, but you've failed to do your job and keep me informed. Let's not forget you are paid attorney and I know the solicitors would agree it's better to settle now before this goes public and social media with Al Sharpton's upgraded support marching for civil rights against the unfair judicial prejudice that has occurred in this case. Don't forget I have had witnesses sitting in on that trial hearing, especially even some the jury has come to me since, to tell me they saw it was unfair treatment by vindictive prosecution. They put my life in harms way and made me suffer, so I will fight back and bring the ~~community~~ communities with me on

National TV I've been patient, but I am tired and appalled by all this.
