FOLLOW UP:

encouraged to make appt with primary care provider

No Scheduled Appointments at this time.

VERY IMPORTANT: If your symptoms worsen in ANY way or last longer than expected or any worse symptoms develop, return to the emergency department IMMEDIATELY.

The examination and treatment you have received in the Emergency Department has been provided to you on an emergency basis only. Your treatment is not intended to be a substitute for, or an effort to provide, complete, ongoing medical care. It is essential that you carefully follow the instructions and follow up appropriately with a primary care provider.

After Hours Nurse Hotline Number: 1-888-558-3812

Many Veterans may suffer physical as well as mental stressors and can be in emotional crisis. If you feel you are having difficulty coping and are in emotional crisis or are having thoughts to harm yourself, please call at anytime the VA's National Suicide Hotline at 1-800-273-TALK (8255).

Rx: lisinopril 10 mg 1 tab daily window pick-up
RTC: 1 week for BP check

FLU SHOT 2008:

Flu shot not given.

Patient declined despite counseling.

HTN and not on Thiazide:

Hydrochlorothiazide ordered now

HTN Lifestyle Education:

The patient was counseled on the importance of regular exercise and/or physical activity in the control of blood pressure.

The patient was instructed to try to exercise at least 30 minutes 3 times per week if possible and that any increase in physical activity may be useful in controlling BP.

The patient was counseled on the importance of diet and weight control in the control of blood pressure.

The patient was counseled to reduce their weight to within 10 percent of their ideal body weight. The possible improvement in BP control with even 5 to 10 pounds of weight loss was reviewed.

MAHDI, SHAREEF

From prior visit 3-19-09: *55 YO male vet, NSC. presents with a form requesting medical clearance for dental surgery dated 7-24-08. He has hx of not taking antihypertensive meds. Was in MICU 6/07 for bradycardia as he was on a beta blocker. He was discharged on HCTZ 25 mg and lisinopril 20 mg daily. He self medicated with unknown medication to bring down his blood pressure" Vet restarted on HCTZ and lisinopril at last visit and was to return in one week but apparently did not do so. Seen in the absence of Nina Chychuls Hudd. Unable to take ASA as he gets hives.

DID NOT MAIL BACK STOOL SPECIMENS FOR OCCULT BLOOD; REQUESTED VET TO DO SO.
(seems not to want to do this)

Reports palpations when he works too hard.

EXAM:

Wgt: 175 lbs

pulse: 56 BP: 138/82 on manual repeat 140/84

dressed slightly eccentrically with four buttons undone in shirt
 Behavior: Poor eye contact with eyes scrunched closed most prominently
 when answering questions. No PMR/PMA, no tremor or abnormal
 movements

Attitude: Cooperative with interview, but quite guarded

Speech: Normal rate, but lacked prosody

Thoughts: Linear and logical, but somewhat circumstantial especially when
 discussing life in the south

SI/HI: Denies

Affect: Angry, dysphoric. Constricted range

Mood: "Stressed, Bad"

Percep: Denies AVH, No apparent delusions

Language: Fluent, coherent

Insight/Judgement: Very limited insight in that he perseverates on the
 south as the source of "all his problems." Furthermore he
 endorses hopelessness in that all treatments fail, but is also
 known to be noncompliant with meds.

Cognition: Attention/concentration impaired, but normal memory. AAOx3

22. MULTI-AXIAL DIAGNOSIS

Axis I - Dysthmic d/o vs Mood d/o NOS

Axis II - deferred

Axis III - HTN

Axis IV - poor family support system, unemployed

Axis V- 65

23. ASSESSMENT AND PLAN

1. Dysthmic d/o vs. Mood d/o NOS

Plan: METHYLPHENIDATE HCL 10MG TAB -- 1 Tab q morning

Psychotherapy

24. Next appointment and the clinician(s) to whom patient is assigned:
 Dr. John Applegate

25. Does patient understand and agree with the treatment plan?
 Yes

Progress Notes

Printed On Aug 04, 2010

Child history: Reports he was not happy as a child and his parents constantly fought. Bitterly recalls growing up in the south with racism and discrimination as prominent aspects of his life. Second youngest of 6 children.

School history: Completed a couple years of college

Employment history: Employed as an orderly in hospitals sporadically, but difficulty holding a job because of problems with motivation.

Marital/Relationship history: Divorced with two sons age 27, 28 (one son has been in/out of prison since his teenage years and is now on death row for murder)

18. LEGAL HISTORY Multiple arrests and altercations with police while living in the south, but only misdemeanors. Never served any time in prison. Claims that the cops in his small southern town "forced him out" because of racism.

19. CURRENT SOCIAL SITUATION

Living arrangement: West Philadelphia boarding home (associated with his mosque)

Support system: Claims he has a strong support system within the Mosque and he could talk to many of his fellow members in difficult times. No family locally.

Source of income: Disability benefits (depression)

Religious affiliation: RELIGION - ISLAM

20. DOMESTIC VIOLENCE SCREEN

- a. Are you in a relationship in which you are being hurt or threatened? No
- b. Have you ever used any kind of physical force against your partner or others? No
- c. Has your partner forced you to have sex or perform sexual acts that he or she did not want to do? No
- d. Have you ever forced your partner to have sex or perform sexual acts that he or she did not want to do? No
- e. Have you committed any acts of violence in the last 30 days? No
- f. Have you ever been arrested or convicted for violent crimes, e.g. aggravated assault? Yes, for a violent fight with his brother.
- g. Do you have access to weapons? No

21. MENTAL STATUS EXAMINATION

Appearance: Well groomed African American male appears stated age, but

1. Patient Name: MAHDI, SHAREEF

2. Social Security Number: Redacted

3. AGE: 55

4. SEX: MALE

5. CHIEF COMPLAINT: "I have been suffering from depression for a long time"

6. HISTORY OF PRESENT ILLNESS:

55 y/o male w/ PPH of depression presents with continued depressed mood requesting an antidepressant. Patient reports that he has suffered from depression for most of his life, but first recognized it in his 20s. His mood has improved in the last five years since moving to Philadelphia from the south, but notes he had a particularly rough winter. Complains primarily of constant fatigue and lack of motivation. Patient has sleep apnea and is non-compliant with nighttime oxygen. Denies suicidality, anhedonia, excessive guilt, recent change in appetite or psychomotor retardation. Has seen multiple therapists and tried multiple antidepressants in the past including paxil, zoloft, prozac, wellbutrin, and celexa which have all helped "give him a boost" but have not eliminated his depression.

Repeatedly endorses throughout interview that the south is the source of all his problems. Further states that he hates the south and all the "backwards people that live there." He bitterly recalls growing up in a small town in southern Virginia amongst racism and discrimination which caused his depression and made his "unable to function in society."

Endorses a past history of social anxiety and panic attacks, but denies any current symptoms. Denies any psychotic or manic symptoms in the past.

7. PAST PSYCHIATRIC HISTORY

Inpatient treatment: admitted to a psychiatric hospital in the south after jumping into private pool which he claims was a "political statement" and was released after 1 night

Outpatient treatment, including psychotherapy: Has seen multiple therapists sporadically. Most recently seen by Nina at the VA. As per HPI has tried multiple antidepressants, but per records is very noncompliant with meds.

Previous suicide attempts: None

walk in coverage.

Pt referred by Ms Blunt who stated that she saw pt @ 11 am and co-signed Dr. Applegate. did not know that script had to be written on paper script and taken to window. I reviewed Dr. Applegate's note that ritalin to be continued. I wrote script and Ms Blunt will take to pharmacy for pt to take home today. Social worker will give pt Dr. Applegate's office number so that he may leave a message for him when he needs next refill so that provider of this medication will have continuity.

Medication Reconciliation:

Medications reviewed and discussed with patient/caregiver/significant other for any new, deleted, changed and non-VA medications including OTCs and herbals. Medication reconciliation was performed.

Progress Notes

Printed On Aug 04, 2010

The patient was instructed to try to exercise at least 30 minutes 3 times per week if possible and that any increase in physical activity may be useful in controlling BP.

The patient was counseled on the importance of diet and weight control in the control of blood pressure.

The contribution of dietary sodium to elevated blood pressure was reviewed. The patient was counseled to limit sodium intake to no more than 2.4g of sodium or 6g of sodium chloride.

Weight Management Counseling:

The patient was provided education on the risks of overweight/obesity and the benefits of diet and exercise/activity

Patient would benefit from MOVE! program.

Patient declines MOVE! program

Medication Reconciliation:

Medication Reconciliation Complete

Medications were reviewed and discussed with patient/caregiver/ significant other to construct an accurate list of medications the patient is taking including non-VA meds, OTCs and herbals.

Medication reconciliation was performed.

The patient left the visit with a complete list of medications. The list and any changes were explained to the patient and, as needed, the family.

The Medication list was not sent to a non-VA provider The list was not sent because contact information for the non-VA provider is not known, the patient did not want the list sent or the next provider is a VA provider with access to CPRS.

Periodic Oral Examination:

Oral Examination performed and documented today

FOLLOW UP:

Primary Care next week.

No Scheduled Appointments at this time.

VERY IMPORTANT: If your symptoms worsen in ANY way or last longer than expected or any worse symptoms develop, return to the emergency department IMMEDIATELY.

The examination and treatment you have received in the Emergency Department has been provided to you on an emergency basis only. Your treatment is not intended to be a substitute for, or an effort to provide, complete, ongoing medical care. It is essential that you carefully follow the instructions and follow up appropriately with a primary care provider.

After Hours Nurse Hotline Number: 1-888-558-3812

Many Veterans may suffer physical as well as mental stressors and can be in emotional crisis. If you feel you are having difficulty coping and are in emotional crisis or are having thoughts to harm yourself, please call at anytime the VA's National Suicide Hotline at 1-800-273-TALK(8255).

Veteran attended community psychoeducational group held at Perimeter day program for homeless veterans. Group met for 60 minutes at 11am. Veterans attentive; offered and received feedback appropriately.

Given the transient nature of the homeless veteran population, group is conducted in an open format in order to allow vet's the opportunity to address their most pressing concerns. Addressed questions about mental illness, substance abuse, and other issues which contribute to the problem of homelessness. Also addressed vet questions about resources and services available to eligible homeless veterans. These include: inpatient and outpatient substance abuse and mental health treatment, GPD/transitional housing programs, domiciliary services, and other community resources. Veterans attentive; offered and received feedback appropriately.

 URGENCY: routine STATUS: COMPLETED

Date of Admission: JUN 23, 2007 15:43

Date of Discharge:

Attending at Discharge: FRAME, LAWRENCE H

Primary Discharge Diagnosis: Bradycardia

Other diagnoses addressed during this admission:

Brief Hospital Course: (including at a minimum: reason for hospitalization, significant finding, treatment given, procedures performed)

Pt arrived and had bradycardia in the high 30s to 40s. Upon arrival to the floor pt HR in the 50s. Pt was monitored on telemetry overnight. We held his Metoprolol during his hospital course and his HR went up to the 60-80s. He had no events overnight and no further symptoms. EKG show normal sinus rhythm. We discontinued his metoprolol and advised pt to throw away all remaining metoprolol pills. We are managing his HTN with his lisinopril 20 mg QD and increased his HCTZ from 12.5 QD to 25 QD. A lipid panel also showed he is not at his goal LDL. Wrote for Zocor 20 mg QD for him to pick up tomorrow before primary care appt. Pt has f/u in clinic on 6/25 and will pick up new meds before appt.

Lab Results

Printed On Aug 04, 2010

range for cardiac troponin I was determined to be 0.00 to 0.034 ng/mL. At 0.034 ng/mL this troponin assay has an imprecision of less than 10% (i.e. an SD < 0.0034 ng/mL).

Elevated troponin levels result from cardiac myocyte lysis. Acute myocardial infarction is suggested with typical rise and/or fall of troponin values over 6-9h in the clinical context of cardiac ischemia, caused by coronary artery disease or supply/demand imbalance. Given the high sensitivity of troponin for cardiac injury, minor infarcts can be detected with this method. Troponin levels correlate roughly with the size of the injury, best estimated by imaging methods.

In addition to cardiac ischemia, any condition resulting in myocardial injury can potentially elevate cardiac troponin I levels, and this has been associated with adverse prognosis in most cases. These conditions include:

- 1) Direct trauma to the heart (ablation, angioplasty, cardiac surgery, implantable device discharges);
- 2) Myocardial toxins (adriamycin, 5-fluorouracil, cocaine, amphetamines);
- 3) Subendocardial damage: pulmonary embolism, systemic or pulmonary hypertension, acute or chronic heart failure, tachy- or bradyarrhythmias, strenuous exercise;
- 4) Systemic disease with myocardial injury: severe renal failure, respiratory failure, sepsis, acute CNS damage (stroke, hemorrhage), rhabdomyolysis, extensive burns;
- 5) Other causes of cardiac injury: cardiac inflammation (pericarditis, myocarditis), hypertrophic or infiltrative cardiomyopathy, aortic valve disease, aortic dissection, Takotsubo ballooning stress cardiomyopathy.

Rarely, heterophilic antibodies in the serum of certain individuals can cause persistent falsely elevated or depressed troponin results."

TRO-POC					ng/mL	0 - .08

Comments: a b c d

a. Evaluation for CKMB:

In the appropriate clinical context, a rise and/or fall of CK-MB levels is consistent with acute myocardial damage, but CK-MB can also be elevated as a result of skeletal muscle injury. For the diagnosis of myocardial necrosis, cardiac troponin I testing is preferred because of its higher sensitivity and specificity.

Heterophilic antibodies in the serum of certain individuals are known to cause interference with immunoassays. These antibodies may be present in blood samples from individuals regularly exposed to animals or who have been treated with animal serum products.

Evaluation for TROPI:

PREVIOUS METHOD REFERENCE RANGE PRIOR TO 01-31-08
 0.00 TO 0.08 ng/mL.

240 mg/dL or greater	High Risk

Evaluation for TRIGLY:

***** EFFECTIVE 09-06-2007*****

The manufacturer of our triglyceride reagent (Beckman Coulter) has adjusted their method to provide results that will more closely match recovery values traceable to the US Centers of Disease Control and Prevention (CDC) reference method. The data shows that this adjustment will cause an increase in patient results of approximately 20 %. Some patients, whose values are close to the upper end of the reference range, may need to have their baselines re-established.

The Adult Treatment Panel of the National Cholesterol Education Program has published reference triglyceride values for cardiovascular risk to be:

Triglyceride Values

Less than 200 mg/dL	Normal
200 to 400 mg/dL	Borderline High
400 to 1000 mg/dL	High
Greater than 1000 mg/dL	Very High

Evaluation for LDL:

Patients at high risk for Coronary Heart Disease (the latter considered to be individuals with diabetes or a 10-year risk for CHD > 20%, calculated from the Framingham Risk Tables), LDL-C goal < 100 mg/dL.

For patients with 2 or more risk factors (cigarette smokers, hypertension, family of CHD, and male gender) present LDL-C goal < 130 mg/dL. For patients with no or one risk factor, LDL-C goal < 160 mg/dL.

Executive summary of the third report of the National Cholesterol Program (NCEP) Expert Panel on Detection, Evaluation, and Treatment of High Blood Cholesterol in Adults (Adult Treatment Panel III), JAMA 2001;285:2486-97.

LDL-CHO	163	184 H	canc	mg/dL	65 - 175
LDLD	canc	canc		mg/dL	0 - 99

Comments: a

a. Evaluation for LDL-CHO:

Patients at high risk for Coronary Heart Disease (the latter considered to be individuals with diabetes or a 10-year risk for CHD>20%, calculated from the Framingham Risk Tables), LDL-C goal <100 mg/dL.

For patients with 2 or more risk factors (cigarette smokers, hypertension, family of CHD, and male gender) present LDL-C goal <130 mg/dL. For patients with no or one risk factor, LDL-C goal <169 mg/dL.

Executive summary of the third report of the National Cholesterol Program (NCEP) Expert Panel on Detection, Evaluation, and Treatment of High Blood Cholesterol in Adults (Adult Treatment Panel III), JAMA 2001;285:2486-97.

Evaluation for CHOLEST:

The National Cholesterol Education Program has published reference values for cardiovascular risk to be:

Cholesterol Values	
Less than 200 mg/dL	Low Risk
201 to 239 mg/dL	Borderline Risk

a. Evaluation for GLUCOSE:

In a fasting patient (no caloric intake in the 8 hours preceding blood collection) the American Diabetic Association defines normal fasting glucose as less than 100 mg/dL; in a non-fasting patient, glucose less than 140 mg/dL is considered normal glucose tolerance; hypoglycemia is defined as glucose of 70 mg/dL or less.

Evaluation for EGFR:

 * NOTE: eGFR Units = mL/min/1.73m² *
 * If African American, the result includes a factor of 1.210.*
 * If female, the result includes a factor of 0.742. *

Estimated GFR (eGFR) values calculated by the Modification of Diet in Renal Disease (MDRD) study equation may be less accurate in patients with:

- 1) Unusual diet or body habitus,
- 2) Rapidly changing kidney function, and
- 3) GFRs > 60 mL/min/1.73m². At higher levels, near 'normals' can be underestimated.

The MDRD Study equation has also not been tested in the elderly >75 years and in patients with serious comorbid conditions. In these patients, calculated creatinine clearance or alternative markers of glomerular filtration may provide a better indicator of the true GFR.

[see NEJM, 354:23, June 2006]. Race, age and sex are used in the MDRD study equation. This data is extracted from the patient file.

Radiology Reports

Printed On Aug 04, 2010

Clinical History:

51 yom with cc of mas at base of tongue interfering with
deglutition

Report Status: Verified**Date Reported:** MAR 03, 2005@15:25**Date Verified:** MAR 07, 2005**Verifier E-Sig:**/ES/M.H. SCANLON**Report:**

CT of the neck.

History: A 51-year-old male with sensation of mass at the base
of the tongue interfering with swallowing.

Technique: CT of the neck was performed with intravenous
contrast utilizing 5 millimeter sections.

There are no prior examinations available for comparison.

Findings: The nasopharynx, oropharynx, and oral cavity are
within normal limits. The lungs, vocal cords, and trachea are
normal. No mass is seen involving the visualized aerodigestive
tract.

There is shotty lymphadenopathy, none which meet CT criteria for
pathologically enlarged lymph nodes. There are 2 less than 1
centimeter lymph nodes about the tail of the right parotid gland
and clinical correlation is recommended. The bony structures,
salivary glands, and thyroid gland are otherwise normal.

There is moderate mucosal thickening involving the maxillary
sinuses, left greater than right with mild mucosal thickening in
the ethmoid sinuses. The lung apices are clear. The visualized
posterior fossa is unremarkable.

Impression:

1. There is no mass in the visualized aerodigestive tract.
Clinical correlation recommended for cause of patient's
difficulty with swallowing.
2. Two less than 1 centimeter nodes
about the tail of the right parotid, clinical correlation
recommended. T: 2993\896732\8294

Report:

Barium swallow study.

History: Fifty-two year old male with mass at the base of tongue.

Study: Barium swallow study.

Comments: Scout views of the neck were obtained prior to the study and were normal.

The patient was administered thick barium. Pharyngeal motility was normal, and there was no evidence of aspiration. No mass was identified within the pharynx. If there is continued clinical concern for base of tongue mass, direct oroscopic visualization is advised.

Impression:

Normal barium swallow study. Please see comments. T:

(Case 12263 COMPLETE) CT HEAD W/O CONT

(CT Detailed) CPT:70450

Clinical History:
dizziness

Report Status: Verified

Date Reported: JUN 25, 2007

Date Verified: JUN 26, 2007

Verifier E-Sig:/ES/M.H. SCANLON

Report:

Technique: Routine unenhanced head CT examination.

History: Dizziness.

Comparison: Prior head CT dated 9/23/2006.

Findings:

Cerebral volume is age-appropriate. Ventricles, sulci, and cisterns are patent and symmetric.

There is no extra-axial fluid collection, midline shift, or mass-effect. There is no acute intracerebral hemorrhage or evidence for acute cerebral infarction. Note, however, that MRI is more sensitive for detection of acute cerebral infarct.

There is no depressed calvarial fracture. The visualized paranasal sinuses, mastoid air cells, and middle ear cavities are clear.

Impression:

No acute intracranial abnormalities.

Primary Diagnostic Code:

RE: ROI Request for SHAREEF MAHDI

Dear DIANA HOLT, LLC:

This information has been disclosed to you from records whose confidentiality is protected by federal law. Federal statute 38 USC 7332 (42 CFR Part 2) prohibit you from making any further disclosure of it, without the specific written authorization of the person to whom it pertains, or as otherwise permitted by such regulations. A general authorization for the release of medical or other information is NOT sufficient for this purpose.

Sincerely,

**Nancy Bowers

Allergy clinic is fee basis only after 9/1. Since symptoms are dermatologic, am forwarding consult to that service. It would be expeditious for you to get appropriate blood work: Rast I, IgE, Rast Food, and ANA prior to that appt. Sorry.

Reason For Request:

48 yo patient of Dr. Hubbard. Missed last appt. Came to ED with hives, which is a long standing problem for him. Had run out of his claritin. treated with IV zantac/benadryl with resolution. Needs f/u with Dr. Hubbard, but can be 1-2 months down the road. In the meantime I am asking for allergy consult also. Thanks

DAY TREATMENT GROUP

Group Focus: Dealing with Emotional Detachment

Shareef isn't connected with anyone. He became very angry as he discussed the feeling of betrayal by his former wife. He stated that he had wanted to harm her. He became so emotional that he walked out of the room. The group was concerned about his reaction. The group leader did convey to the group that a clinician will followup with Shareef.

The Vet stopped by on 9/22/03 to request information as to whether he would be
 eligible for VI/ CWT if he were receiving 100% NSC Pension. This writer
 explained to the Vet that typically those making 50% or greater were not
 eligible for the program, however, if he was interested in returning to work his
 situation could be discussed. This writer discussed with the Vet the reasons
 for receiving 100% and the perception of being unable to work due to medical
 conditions. He stated that he could work a little and was willing to research
 the stipulations to his working again in regards to his benefits. He stated
 several times during the conversation that he would speak with either Mrs. Carol
 Murray or Mr. William Bell both of the Homeless Program regarding his benefits.

O. Pt attended MH DT group provided by OT substituting for Social Work provider on 9/4/03@10am, 1E dayroom, tt: 50 min. Pt participated in watching a video titled, "Gardens, Blossoms, & Blooms". The film provided an educational component regarding gardening and relaxation opportunities. Pt listened to the comments of others about the types and names of plants presented.

A. Pt appeared to enjoy the group topic including the music. The session was unstructured and comments were volunteered throughout.

P. Pt will be seen in regular OT sessions x 2/wk to address team tx goals.

SOCIAL WORK CASE MANAGEMENT

1:1 x 50 min

Mr. Mahdi is being treated for depression.

Mr. Mahdi stated he is doing much better recently. He believes his medication is working pretty well, he feels more able to socialize and he feels more comfortable in a group (a little less paranoid). His concern at this time is pulling himself together so he can live a "normal" life but not one too caught up with materialism. Mr. Mahdi wants to continue to live a spiritual life but sometimes feels thwarted in that effort. He has a rather external locus of control at this time.

PLAN: continue individual sessions on a biweekly basis.

SOCIAL WORK CASE MANAGEMENT
 1:1 X 50

Mr. Mahdi is being treated for depression.

Mr. Mahdi reports feeling somewhat better overall but is still feeling very paranoid. He says he feels somewhat uncomfortable about a couple of people in the group who are from his home town. Mr. Mahdi expressed appreciation for the program and for his place at the Salvation Army. Mr. Mahdi was pleased that he has been given some responsibility at the Salvation Army now. The veteran complained of feeling unconnected to the present. He says he does not feel a part of the world. Mr. Mahdi said "I feel like my heart is broken" He referenced back to when his wife left him and the children. He continues to carry some guilt that he did not provide better for his sons.

PLAN: pt to begin journaling feelings. continue with weekly sessions for the time being.

SOCIAL WORK CASE MANAGEMENT

1:1 x 50 min

Mr. Mahdi is being treated for depression.

Mr. Mahdi is still experiencing symptoms of fatigue, sleeping too much, interrupted sleep, decreased energy, anxiety and paranoia. He feels he is always being watched and that the Masons are persecuting him.

Mr. Mahdi adheres as much as possible to a healthy diet with little snacking, does not eat beef or pork. His only exercise at this time is walking. Mr. Mahdi lives in Salvation Army shelter for the time being. He does not have any income. He has applied for general relief and has filed for a NSC pension.

His hobbies include reading (westerns, Ann Rice, civil war).

He has completed 2 years of college.

Mr. Mahdi's goal is to "live independently".

PLAN: continue to encourage daily exercise and continuation of day

Mr. Mahdi is being treated for depression and social anxiety.

Mr. Mahdi was on time for his appointment and neatly groomed. Mr. mahdi had some difficulty with eye contact today but seemed to feel more comfortable as the session went on. Began social assessment and building

rapport and trust. Mr. Mahdi was willing to share his history to some degree. Mr. Mahdi feels the "masons" are stalking him to do him harm. He

also believes they are responsible for his inability to get and retain a job. He attributes this to his race and his religion. Mr. Mahdi is currently living at the Salvation Army. Mr. Mahdi denies alcohol or drug use since he was 21 when he became Muslim. Mr. Mahdi was born in Lawrenceville, VA, the 5th of 6 children. Mr. Mahdi recalls that he wanted

to kill himself at the age of 7 following a sexual attack on his 6 y/o sister which he witnessed. This sister was raped at the age of 13 and Mr.

Mahdi blames himself for that as well "I should have been able to stop it".

The veteran's parents were teachers and both worked. He described his relationship with both as distant. Father is deceased and mother is still living. Mr. Mahdi is closest to his youngest sister though he is currently estranged from all his family. He says he doesn't want to burden them any further.

The veteran has been married one time. The marriage lasted 16 years and produced two sons. Their mother left them when they were young and Mr. Mahdi said he tried to raise them as best he could. He feels he has failed in this respect. Mr. Mahdi has had various relationships since

Mr. Mahdi is currently does not have a significant other.

Mr. Mahdi quit school at age 18 and joined the Marines. He worked as a file clerk and a truck driver.

PLAN: continue assessment at next meeting.

skills: assessment/supportive psychotherapy

Pt is a 49 yo BLACK, NOT OF HISPANIC ORIGIN MALE here for itching for 3 days. He thinks he has scabies--has had before and been treated with success. Has shared sheets with someone who had it recently. Some itching intertriginous--scrotal area and fingers but also some on chest with occ lesions noted. He shaved groin.

He is out of fexofenadine which he is on for allergies and needs to refill.

He has a hx of the following problems:

ACTIVE PROBLEM

CARDIAC DYSRHYTHMIA - prior c/o palpitations, Holter 1998 NSR, occ PVC
PALPITATIONS

Depression

Int hemorrhoids

Hx azotemia 2001, resolved with rehydration

Hypertension

Active Outpatient Medications	Status

*** ER RESIDENT/PA/NP NOTE Has ADDENDA ***

CHIEF COMPLAINT: Hives.

HISTORY OF PRESENT ILLNESS:

Patient is a 48-year-old African American male with past medical history significant for palpitations, lower GI bleeding, and depression who comes to the Emergency Room today after he visited the dentist for a root canal and unknowingly ingested Ibuprofen to which he has a known allergy. Patient immediately developed itching and hives diffusely. He states he did not realize the pain medication he was given contained Ibuprofen. He denies chest pain or shortness of breath. He denies fever or chills. He denies dizziness or lightheadedness. The episode began forty minutes prior to arrival in the Emergency Room.

PAST MEDICAL HISTORY:

As above.

CURRENT MEDICATIONS:

Allegra 180 mg q day;
Hydroxyzine 25 mg qhs;
Metoprolol 25 bid for palpitations, which patient states he takes occasionally;
Ranitidine 150 bid, which patient states he takes occasionally.

ALLERGIES:

Ibuprofen
Aspirin.

SOCIAL HISTORY:

Patient denies tobacco or alcohol use.

REVIEW OF SYSTEMS:

Patient denies headache of blurry vision. He denies coughing or sore throat. He denies abdominal pain, nausea, vomiting, diarrhea or constipation. He denies bright red blood per rectum currently. He denies dysuria. He denies lower extremity edema. He denies focal numbness or weakness.

PHYSICAL EXAMINATION:

Blood pressure: 153/94.

Pulse: 91.

Respirations: 20.

Temperature: 97.4.

Pulse ox: 97% on room air.

General: Patient awake and alert, with urticarial reaction on face.

HEENT: Normocephalic and atraumatic. Facial urticaria and erythema. Sclera anicteric, conjunctiva pink, pupils equally round and reactive to light, extraocular muscles intact. Oropharynx moist without lesion or exudate.

Neck: Supple. No thyromegaly, JVD, carotid bruits or lymphadenopathy.

Cardiovascular: Normal S1 and S2, without murmurs, rubs or gallops.

Lungs: Clear to auscultation bilaterally.

Abdomen: Diffuse urticarial reaction with erythema, otherwise soft and non-tender, non-distended with normoactive bowel sounds.

Extremities: Diffuse urticarial reaction. No clubbing, cyanosis or edema. 2+ radial and dorsalis pedis pulses bilaterally.

Neuro: Grossly non-focal.

Skin: Diffuse urticarial reaction with erythema on the face, chest, back, extremities.

ASSESSMENT AND PLAN:

Patient is a 48-year-old African American male who comes to the Emergency Room today after developing an urticarial reaction, secondary to Ibuprofen ingestion.

Patient was given 10 mg of IV Decadron, 50 mg IV Ranitidine, and 50 mg IV Benadryl with significant relief of pruritus.

He was monitored in the Emergency Room for approximately two hours with

significant improvement in erythema.

He was given a prescription for Prednisone 60 mg PO for three days starting tomorrow. He was given a prescription for Ranitidine 150 mg PO bid, as well as Benadryl.

A consult was placed to Group Practice to call the patient within one to two days to reassess his condition and make sure he is improving.

He was advised that if his symptoms worsen or he develops shortness of breath to return to the Emergency Room immediately. Patient voiced full understanding of the above.

DATE OF NOTE: JUL 16, 2002@19:23 ENTRY DATE: JUL 17, 2002@00:07:43
AUTHOR: ROBERTS, KATHERINE A EXP COSIGNER:
URGENCY: STATUS: COMPLETED

The patient is a 48-year-old black male who was sent to the ER from Primary Care because of "loosing blood."

It appears that patient has had bright red blood per rectum with each bowel movement for approximately fifteen to twenty years. It has increased over the last month and patient feels that he is becoming very anemic. It is described as a couple of ounces with each bowel movement. He has a bowel movement approximately every two days, with which he has a great deal of straining. He says sometimes that he feels something fall out of his rectum after he has his bowel movements and he has to push it back in.

In the past, he has had history of diarrhea. The diarrhea was decreased while he was having a vegetarian diet, and it has decreased since he has been taking Ranitidine. Patient states that when he is passing stools he has pain in his right lower back. He also feels weakness and fatigue after a bowel movement, and then is okay after a few hours when he has gotten some rest and something to eat.

Patient denies palpitations, shortness of breath, edema, melena, diarrhea. He also admits to poor compliance with his medications, most of which he had filled for ninety days in 10/01 (ninth months ago).

PAST MEDICAL HISTORY:

1. History of heart palpitations, for which he took Metoprolol for awhile.
2. Depression.
3. Allergies.

CURRENT MEDICATIONS:

Allegra;
Metoprolol;
Ranitidine prn.

Progress Notes

Printed On Oct 21, 2010

SOCIAL HISTORY:

He states that he has not had anything to smoke for about five to six months, but did smoke for about a year.
He is a grounds keeper at the Islamic Center.
He does not drink or take drugs.
He lives with his 20-year-old son.

ALLERGIES:

Aspirin.

FAMILY HISTORY:

Father died at age 75 of a brain aneurysm.
Mother is 76 and has no real medical problems.
He has sister who also has palpitations.
He has paternal uncles and cousins who have died of stomach cancer.
He has a brother with depression.
Patient denies a family history of diabetes, thyroid problems, cardiovascular, stroke, epilepsy.

PHYSICAL EXAMINATION:

T: 98.6. P 72.

R: 16.

lying BP 129/74 and Pulse 72. Standing P 76, BP 145/89.
Generally: He is a well-developed, muscular, black male, in no apparent distress. He sits up briskly from a lying position when asked to sit up and says "oh, I'm very athletic." He is a very pleasant and talkative young man.
HEENT: Normocephalic and atraumatic. Extraocular muscles intact, pupils equally round and reactive to light and accommodation, sclera anicteric, non-injected, conjunctiva pink. Oropharynx is without lesion, erythema or exudate, moist mucous membranes.
Cardiac: Regular rate and rhythm without murmur.
Lungs: Clear.
Abdomen: Non-distended, non-tender, normoactive bowel sounds, no back tenderness.
Extremities: DTRs 2+. Less than two second capillary refill.
Rectal: Anoscopy shows internal hemorrhoids, small external hemorrhoids, there is bright red blood.

LABORATORY DATA:

Hemoglobin 13.3, which is stable, white count 5.8, MCV 88.1, platelets 320.
Sodium 145, potassium 3.9, chloride 104, bicarb 25, BUN 14, creatinine 1.4, glucose 97, calcium 8.5.

ASSESSMENT:

Internal hemorrhoids.

morning the itching became more intense, and over his chest and back, and he decided to come to the Emergency Room. He states that he normally will take some Benadryl, but he did not have any at home.

The patient denies any shortness of breath, difficulty breathing, difficulty swallowing, numbness around his mouth, or swelling.

The patient states that he has a history of getting chronic urticaria for the last five to ten years. He states that he thinks spicy foods is one of his triggers. He has never been seen by Allergy, or been allergy tested in the past. He states the last time he had an episode requiring him to come to an Emergency Room was about six months ago; however, he has never had a visit to our Emergency Room for similar episodes.

The patient normally takes Zantac and Claritin as an outpatient, but states that he ran out of all of his medicines one to two months ago.

PAST MEDICAL HISTORY:

1. History of chronic diarrhea, and blood in the stool. He had been set up to have a colonoscopy; however, he missed his test.
2. History of an episode of acute renal failure, back in 09/01, which was thought to be pre-renal, and resolved with hydration.
3. Hypertension.

CURRENT MEDICATIONS:

Currently, the patient is not taking any medications; previously, he was prescribed;

Zantac;
Metoprolol;
Claritin;
Hydroxyzine.

The patient has been out of all of these medications for at least two months.

SOCIAL HISTORY:

The patient works as a grounds keeper.
The patient denies any seasonal allergies.
The patient states that he quit tobacco two months ago.
The patient denies any alcohol use.
The patient denies any drug use.

ALLERGIES:

The patient states that he is allergy to Aspirin.

Vital signs:

The patient is afebrile, with a temperature of 97.4.

Pulse 68.

Blood pressure 149/80.

Respirations 20.

Sats 96% on room air.

General: The patient is able to talk in complete sentences; however, he is scratching diffusely.

Skin: The patient has erythema of his hands and feet, as well as distinct hives over his chest and back.

Lungs: Clear to auscultation bilaterally.

Heart: Regular rate and rhythm, without murmurs, rubs or gallops.

Abdomen: Soft, non-tender and non-distended, with normoactive bowel sounds, and no hepatosplenomegaly.

Extremities: No edema.

ASSESSMENT:

Urticaria.

PLAN:

1. The patient was treated with 50 mg IV Zantac, and 50 mg IV Benadryl, with complete resolution of his hives and itching.
2. It was felt that the patient could be safely discharged, but he was given #30 (thirty) tablets of Allegra 180 mg PO q day, to take.
3. The patient was also consulted to the Group Practice, and to the Allergy Clinic, for a follow-up within the next one to two months. These were requested, and the patient will get these appointments in the mail.

The patient left the Emergency Room in improved condition.

47yr old AAm with h/o HTN admitted with c/o weakness, muscle cramps and 1 episode of emesis yesterday. Patient has worked outside all day, did not eat anything, had few soft drinks. No fever/sweating and also noticed decreased urine out put. Has h/o intermittent malena and BPBPR for several months.

Febrile in ER, noted to have elevated cr of 3 with normal BUN, CPK was normal yesterday, but elevated today.

Will treat as rhabdo with IV fluids, monitor lytes and CPK
BP is under control.

AUTHOR: STERN, ALAN G EXP COSIGNER:
URGENCY: STATUS: COMPLETED

Mr. Burwell is a 47-year-old gentleman, who presented to the Emergency Room on the evening of 09/22/01 complaining of muscle cramps, as well as emesis x 2 today (clear liquid), after working all day out in the sun. He notes not eating much today, not because of pain, but secondary to access to food today.

The patient also notes that he "felt faint." He notes no chest pain or shortness of breath.

PAST MEDICAL HISTORY:
Palpitations.

CURRENT MEDICATIONS:
As per CPRS.

ALLERGIES:
Aspirin.

PHYSICAL EXAMINATION:

Vital signs:

Temperature 101.

Respirations 16/min.

Pulse 84.

Blood pressure 122/73.

Upon checking orthostatics, it was notable that the patient had a blood pressure of 127/72 lying down, with a pulse of 82; standing up, blood pressure was 120/80, with a pulse of 95 (orthostatics therefore negative).

General: The patient is a pleasant, young gentleman, in no acute distress.

Oropharynx: Clear, with moist mucosa.

Lungs: Clear, with breath sounds equal bilaterally.

Heart: Regular rhythm, without murmur, rub or gallop.

Abdomen: Soft, non-distended, with mild left upper quadrant tenderness.

Extremities: No edema, cyanosis or clubbing. No muscular tenderness.

LABORATORY DATA:

Laboratory data dated today:

White blood cell count is 11.4, hemoglobin 14.5, platelets 276.

PATIENT NAME AND ADDRESS (Mechanical Imprinting, if available)

MAHDI, SHAREEF

Progress Notes

Printed On Oct 21, 2010

Chemistry: Sodium is 143, potassium 4.5, chloride 99, bicarb 22, with BUN and creatinine of 16 and 3.0, respectively, and glucose of 122, calcium 9.7.

CPK is 213.

Anion gap for the initial chemistries was 21.

Liver enzymes were significant only for a protein of 9.7, an albumin of 5.1.

Repeat electrolyte, after hydration, showed a decreased anion gap of 15, and a BUN and creatinine of 16 and 2.1, respectively.

Urinalysis showed 5 to 10 fine granular cast per high-power field.

Leukocyte esterase and nitrite were negative. Blood was negative on the urinalysis. 30 of protein was present. Additionally, greater than 15 hyaline cast per high-power field, and 1 to 5 white blood cells per high-power field were noted.

In the Emergency Room, the patient received 2 L of half-normal saline. Additionally, he finished an entire 20 oz bottle of soda, and a 32 oz container of water.

ASSESSMENT AND PLAN:

This is a 47-year-old gentleman, without significant history of hypertension or any renal disease, who presents with heat exhaustion today.

Additionally, in addition to a fever, he had what appears to be acute renal failure. This is only partially reversed at this time with intravenous and PO hydration.

Furthermore, the urinalysis is concerning given the presence of fine granular and hyaline cast, along with white blood cells.

Therefore, I will admit Mr. Burwell for observation and continued hydration today, for diagnosis of heat exhaustion and acute renal failure.

CC: vomiting, dehydration

HPI: Pt is a 47 yo AA male with PMH significant for palpitations who presented to the ER c/o dehydration. Pt states he was working outside doing yard work from 10am to 7pm. States he did not eat breakfast, lunch or dinner since he was not near home, and drank only 4 cokes the whole day. States he did not urinate the entire day. Pt states he felt progressively weaker and dizzy as the day went on, but did not pass out or have any focal neuro deficits. He felt increasingly dehydrated. He vomited once at 7pm, but then felt better, and continued working. He noted increasing fatigue and muscle cramps in both hands, legs, and lower back. He denies any HA, visual changes, fever, chills.

Pt c/o decreased po intake for the past few days. Denies a rash or recent illness. Denies sorethroat, cough, dysuria. Denies any chest pain, SOB, orthopnea, LE edema. Denies dysphagia, odynophagia, abd pain, melena, BRBPR, and states his reflux is controlled on Zantac. Pt notes a h/o intermittent BRBPR in his stools, but states he had a neg work up in the past but no colonoscopy.

In the ER pt was not orthostatic, but appeared dehydrated. He was given 2L IV NS. Initial Creatinine was 3.0, elevated over pt's baseline of 0.8. After 1 and 1/2L of IVF, pt's creatinine had decreased to 2.1. He was admitted for eval of ARF.

Queen Anne, originally was a primitive log palisade or fence made of logs for defense, set high on a cleared field. Long sides measuring 100 yards each framed a pentagon with a cannon weighing 1400

the cannon which sits in front of the Wren Building facing Duke of Gloucester Street is from Fort Christanna and was acquired for the college by President Lyon G. Tyler."

Dr. Horace Rice, former assistant superintendent of the Brunswick

at the site to help people locate the fort," said Flinn. "Completing the work at the fort would be a worthy project for clubs or community service groups."

The monument is located off Route 46 south of Lawrenceville.

Police Storm House

LAWRENCEVILLE - Sheriff Woodley and a juvenile were arrested Tuesday for impeding a police officer in his duties after an eight-hour standoff with police.

Mike Thompson, investigator with the Brunswick County Sheriff's Department, stated deputies went to the residence in the Mayfield Motors of Christanna Highway to arrest Woodley and the juvenile on charges of Mecklenburg County.

This should have been a routine call. The deputies went to the residence around 12:30 p.m. and tried to get the papers. The father and juvenile slammed the door and said they weren't going anywhere. The deputies called for assistance from the Lawrenceville Police Department, the Virginia State Police, and a tactical team. Three negotiators and the state police were used to get the individuals to surrender. Sheriff Woodley gave the order to storm the house around 7:45 p.m. and the two were taken into custody and transported to Mecklenburg," said Thompson.

Sheriff J. R. Woodley said the police department had information on the individuals in the house and

offered additional information about the incidence.

"We received calls from citizens complaining that we should have blocked off the highway. That was just not feasible. I was in contact with the state police and to block off traffic in that area we would have

needed to stop traffic at the intersection of Route 46 and Highway 1," explained Woodley.

While some criticism is expected from the public, Woodley would like for people to understand the position the police department is in when

(Continued on Page 4B)

Town Meeting on School Discipline This Monday

The Brunswick County Public Schools will sponsor a Town Meeting on Discipline, Safety, and Security this Monday, July 13. This special meeting will be held at Tabernacle of Zion in Lawrenceville, beginning at 7 p.m. Superintendent Dale Baird and members of the Brunswick County School Board will be present to hear concerns and suggestions from parents, employees, and concerned citizens. An update concerning new initiatives in these areas will be presented. This is also the proper forum to suggest changes to the

Code of Conduct, which includes expectations for student behavior and the consequence for improper behavior.

With the increased awareness of the problems of school security, the Brunswick County Public School System is seeking to form partnerships with parents and the community to address these serious issues. The public is encouraged to attend this important meeting as we work together to improve the quality of our school system. For more information, call 848-3138.

Thompson said the victim was able to give an accurate description of the suspect, wanted for kidnapping and malicious wounding. According to Thompson, prevention is always the best way to avoid being a victim.

Check the back seats before getting into a vehicle. Let people know where you are going and when you will be returning. If taken by force, Thompson recommended trying to get someone's attention by driving erratically or speeding, honking and, as a last resort, wreck the car.

Anyone having information about this case, call the Brunswick County Sheriff's Department at (804) 848-3133.

RULE 5 DISCOVERY

Police

(Continued from Page 1B)

Some people think we should have stormed the house right after we got there. Some people think we should have given them more time. Some people think we used too many men. And some people think we used too few," said Woodley. "I would like the public to remember that many times the police department knows information it can not release to the public. We knew these individuals had made threatening statements about the police prior to this incident, and we knew extra security was ordered by Mecklenburg when they appeared in court. I wanted to give them every opportunity to surrender peacefully and the safety of my officers is always a major concern."

Know W Tornado

RICHMOND — When a tornado warning blares over the radio, television, do you know where you'd go to take cover? It's a good question to ask yourself. Last year, 10 tornadoes struck Virginia — hitting areas from the mountains to coast. In February 1998, several tornadoes tore through Spotsylvania and Louisa counties leaving behind a path of destruction.

When preparing for tornado, the most important step is to know where to find safe shelter. Addi-

Sheriff's move bold in holdout

By JERRY MATTERS
News Editor

MAYFIELD — By storming through the front door of a Mayfield residence and arresting the man and son who were barricaded inside, Brunswick County Sheriff's Office ended an eight-hour standoff, but began a host of citizen reactions.

Police used a battering ram to gain entry to the home of Sharif Mahdi about 8:30 p.m. on June 30. No one was injured in the attack.

Mahdi, 43, and his 15-year-old son were not armed, but police had reason to believe weapons were in the house.

Mahdi's son had been arrested earlier this year in Mecklenburg County for breaking and entering and possession of stolen goods. One of the stolen goods was a .44 magnum handgun that was never recovered, said Brunswick County Sheriff James Woodley.

Neither Mahdi nor his son appeared in court at Mecklenburg on the day the young man was to be sentenced. To Brunswick County deputies arrived at Mahdi's residence about noon to

serve arrest papers. The son had been released in the custody of his father.

Father and son backed into the house and refused to comply with police demands that they come out and surrender.

"While I was standing at the door asking them to come out, the boy cursed and threw some liquid out at me through the window," said Woodley.

A state tactical team was called in to assist as state, county and Lawrenceville town police surrounded the house. Negotiations were attempted by three state mediators through a loudspeaker.

Again and again the mediators asked Mahdi to answer the phone which they rang through a loudspeaker. Mahdi would at times open a window to shout what sounded like religious slogans.

Finally, in response to a mediator's call, he threw the telephone out the window.

As the afternoon wore on, a throng of neighbors lined the houses and yards on the other side

READY FOR ANYTHING State police are preparing for a possible entry into a Mayfield house where a man and his son are barricaded inside.

DISCOVERY

of Route 46.

None of the neighbors wanted their names used, but several were eager to talk to the press about what was going on. Some described Mahdi as "a disturbed man who had every opportunity to do well."

One neighbor said that Mahdi physically abused his mother, Nancy Burwell.

Brunswick County schoolteacher who lived with him.

Mahdi was, however, described as a person who could be pleasant "when he wanted to be," according to a Mayfield man who said Mahdi grew up with his son.

"Sheriff Woodley grew up with Sharif," one woman said. "We all grew up together. It's real

This is something you would see in a ghetto, not in Brunswick County."

The house Mahdi had barricaded himself and his son to belonged to Burwell, who had taken refuge in a neighbor's house.

Some neighbors grew angrier as

Woman escapes abductor

By JERRY MATTERS
News Editor

LAWRENCEVILLE — An intensive manhunt has been going on since last Wednesday for a man who abducted a 27-year-old South Carolina woman and forced her to drive through two states.

The 27-year-old woman in Spartanburg, S.C., took an opportunity to escape when a kidnapper asked her to stop on an unpopulated stretch of Poorhouse Road and get out of her van.

She then fled to the Brunswick Health Center in Lawrenceville where police were called. She remained there until she was joined by family members later in the day.

She was frightened, she told authorities, but unharmed. Brunswick County Sheriff James Woodley said that she was identified in the press for fear of her safety.

The abductor, whose identity is not known, is described as a white male with slender build about five-feet-10 with shoulder-length dark hair. When last seen he was wearing a gray T-shirt with "JACOB" and "DAVE" printed with pills on the sides and a dark baseball cap with the word "Derby" stenciled across the front.

The victim also described the man as grubby looking and

A LONG WAIT. This Brunswick County officer has been standing for hours watching the residence of Sharnel Mabdi where, with his son, he is holding off a police arrest.

Holdout leads to arrest

Continued From Page 1

police, however, when Mabdi yelled out the window, apparently to talk to a neighbor he knew, who was then stopped by police from taking part in the negotiations.

Woodley said he tried every means to get Mabdi to talk. At one point, the sheriff walked with Mabdi's cousin up to the window in hopes that he would speak to her.

"She had talked to him before. I had wanted to give him every opportunity to surrender peacefully," Woodley said.

At about 6:30 p.m., Woodley decided the police would have to risk going into the house.

"In Brunswick County, I don't have the manpower to watch the house 24 hours a day and wait for him to come out," Woodley said.

"I used all resources to bring him out peacefully, but because it was getting dark and we were going to on their turf, I had to be concerned about the safety of the police officers and the public."

"One of the concerns I had was with the son who was arrested and convicted for breaking and entering and stealing guns. This young man said that he would kill a cop before he died. We could

not simply back off. This is why we provided every offer for him to surrender peacefully. I went in with my deputies. I would never ask them to do something I would not do. But I had to take responsibility for the situation."

The state tactical team, a highly trained and equipped police unit, secured the perimeter. Only the sheriff, his deputies and Lawrenceville police officers entered the building, which was dark because power had been shut off about 7 p.m. In three rapid strokes of the battering ram, the door was burst off its hinges.

Using a shield to front as protection, the officers entered and subdued Mabdi and his son within seconds.

Mabdi was taken to Mecklenburg County jail where he is being held without bond for failure to appear to court and obstruction of justice. His son was taken to a secure juvenile detention facility in Danville.

Still, the incident exacerbated tensions between police and citizens. An Albemarle woman was alarmed that the highway was not closed while she drove past with her young child.

"The police were all hunched down hiding behind trees and an armored truck as if ready for a major shootout and people are

driving down the road right past the house," she said.

Mabdi's residence was within 30 yards of Route 46.

"The police," she concluded, "didn't take care of public safety."

Woodley explained that no weapon had been seen brandished by those inside.

"If we would have seen a weapon, we would have had VDOT (Virginia Department of Transportation) shut down the road. VDOT was on standby. You cannot just shut down a major highway. It's not as if traffic could be so easily re-routed there as it would have been in town."

The state tactical team did not go in but out because there was some disagreement with the sheriff on entering the building.

"We advise local law enforcement officials on resources available but they are the lead agency and the local sheriff makes the decisions," said state police spokesman Tammy Van Dine.

"We are only there to provide assistance and advise. And our advisement does not include any one way to do things. Every house or siege situation is different," Van Dine said.

As for the man who had to make the decision, the event was summed up this way:

"In this situation," Woodley said, "you are damned if you do and damned if you don't."

Construction begins at CMH

SOUTH HILL — A major construction project will begin next week at Community Memorial Healthcenter when the area used for surgery is remodeled and expanded.

"There will be no interruption of services during the construction period," said Edward M. Brandenburg Jr., vice president of operations. He added that the construction will provide long-term improvements.

"A lot of what's being done,"

added close by, for use by physicians or clergy meeting with families.

One operating room will be expanded to accommodate new technology in health care, according to Patiser.

She also said that endoscopy procedures, now performed in surgery, will be moved into a new specialty procedure area.

The area affected by the expansion of facilities is basically in the center of the main building

period," Brandenburg said. "There will be plenty of signs put up to patients, families and visitors can find their way around while the work is being done. We feel sure that the benefits from the improvements will be far outweigh any difficulties or inconveniences experienced during construction."

The full project is projected to last about 20 weeks with final completion set for February 1999.

Enrollment Date

The above named student has been enrolled in the Hospital Education Program at the Medical College of Virginia Hospital on the date so indicated. Please contact the child's school to inform them of this information.

The appropriate teacher, principal, or guidance counselor can expect a telephone call from one of the hospital teachers for the exchange of pertinent educational information.

As you know, the State Department of Education requires that a child be withdrawn from the local school register as a W_4 and re-enrolled to school as an R_4 .

A Special Education Form 102 will be sent to the school at the time of discharge, certifying attendance and reporting progress.

If you have questions regarding this student's status or his educational program during the hospitalization period, please feel free to contact Cabell Luck, Jr., Director, Hospital Education Program at 804/786-0426 or Box 484, MCV Station, Richmond, Virginia 23298-0001.

M.S. Maslin : 12-22-86

Note that SALEEM MAHDI
entered NYU Hospital Education
Program 12-9-86. Please
withdraw him from Tobacco
Class effective this date.
Receipt will be pending
notification from NYU.

PLEASE NOTE THE FOLLOWING AGE REQUIREMENTS FOR ADMISSION TO KINDERGARTEN AND FIRST GRADE.

Virginia School Law (22.1-1) states that children may enter school if they are five years old on or before December 31 of that school year. Children may enter school in the fall if their fifth birthday is on January 1.

To enter first grade in September a child must be six (6) years of age on or before September 30th. It is the option of the principal to place a child who is six years old and entering school for the first time in either K or grade 1.

PROMOTION AND RETENTION GUIDELINES

Students are promoted from one grade to the next if they meet the minimum requirements for each grade. Students who do not meet the minimum requirements for a grade may be retained in the current grade for one year. Students who are retained in a grade for two consecutive years may be referred to the State Department of Education for further action.

Students who are promoted from one grade to the next are expected to meet the minimum requirements for the next grade. Students who do not meet the minimum requirements for the next grade may be retained in the current grade for one year.

Students who are promoted from one grade to the next are expected to meet the minimum requirements for the next grade. Students who do not meet the minimum requirements for the next grade may be retained in the current grade for one year.

THIS AGREEMENT, made and entered into this 7th day of September 1993, by and between SHAREEF MAHDI, First Party, and NANCY T. BURWELL, Second Party;

WITNESSETH

WHEREAS, SHAREEF MAHDI, who resides at Redacted Brodnax, Virginia 23920, is the natural parent of SALEEM MAHDI, age 11; and

WHEREAS, SALEEM MAHDI is temporarily residing with Second Party, who is his grandmother, and is a resident of Brunswick County, Virginia, residing at Redacted, Lawrenceville, Virginia.

WHEREAS, First Party desires that Second Party shall have responsibility for and control over Saleem Mahdi and be the person whom Brunswick County Public Schools shall consider as the custodian of said child.

NOW, THEREFORE, in consideration of the mutual benefits inuring to the parties hereto, First Party and Second Party hereby agree as follows:

1. Second Party shall be IN LOCO PARENTIS (parent in stead) for SALEEM MAHDI and be the person whom Brunswick County Public Schools shall consider as the guardian of said child with complete authority to make any and all decisions relating to his education while attending Brunswick County Public Schools.

2. If applicable, Second Party shall pay or cause to be paid

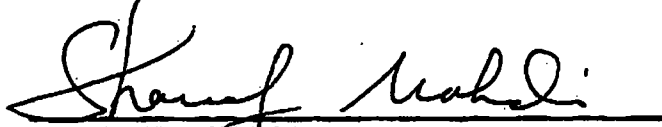

LAW OFFICES

Literacy Testing Program

D-S Code: 013-0660

Division: BRUNSWICK COUNTY SCHOOLS

School: JAMES M. RUSSELL MIDDLE

Group: H. WELLS

For: MAHDI, SALEEM Z.

ID#: 230271910000

Grade: 7

Date of Testing: FALL, 1993

Answer Sheet #: 024884

SL Code: 21

H Code: 00

Gender: M

Ethnicity:

READING

Number of Items Correct/Number of Items by Passage											#B ¹	#M ¹	DRP ²	Virginia ² LTP Scale Score	Pass/Fail
1	2	3	4	5	6	7	8	9	10	11					
7/7	7/7	6/7	7/7	6/7	6/7	4/7	2/7	1/7	3/7	1/7	0	0	58	259	PASS

¹Degrees of Reading Power and DRP are registered trademarks of Touchstone Applied Science Associates, Inc.

The DRP score estimates the level of reading material appropriate for the student's instruction in reading and other content areas. DRP scores range from 15 to 99. The higher the score, the higher the level of material the student can read with understanding. The DRP score reported above provides a guide to the general level of reading materials that this student can read and understand when given some help with unfamiliar words and ideas (instructional level). To determine the level of reading materials that this student can read and understand on his or her own without help (independent level), subtract eleven DRP units from the reported score. To determine the level of reading materials that this student probably cannot read and understand even with a lot of help (frustration level), add eleven DRP units to the reported score. The student's DRP score can be used to compare his or her reading ability with the level of materials used in classroom instruction. For example, most sixth-grade textbooks range from about 51 to 61 DRP units. Most seventh-grade textbooks range from about 52 to 62 DRP units and most eighth-grade textbooks range from about 53 to 63 DRP units.

WRITING

Rating Scale Scores/Highest Rating by Domain					Virginia ² LTP Scale Score	Pass/Fail
Composing	Style	Sentence Formation	Usage	Mechanics		
3.0/4.0	4.0/4.0	3.5/4.0	4.0/4.0	4.0/4.0	274	PASS

MATHEMATICS

Number of Items Correct/Number of Items by Strand							#B ¹	#M ¹	Virginia ² LTP Scale Score	Pass/Fail
Numbers & Numeration	Relations & Functions	Computation of Whole Numbers	Computation of Decimals	Computation of Fractions	Measurement & Geometry	Appli- cations				
11/13	4/8	14/17	5/10	5/10	11/16	10/16	0	0	251	PASS

¹#B = Number of blank items #M = Number of multiply-marked items NT = Not Taken. The student's answer sheet was blank.

²A student can achieve a Virginia LTP Scale Score from 150 through 300 on each of the tests in the Virginia Literacy Testing Program. He or she needs to achieve a scale score of at least 250 on each test in order to pass. If you have questions about these results or wish to appeal your child's score(s), please contact your child's school.

Firearms and Ammunition
Several Car Radio's
Police Equipement
Police Paperwork

3. The things or persons to be searched for are described as follows:

Mikal Deen Mahdi; Black Male; DOB: 02/02/70; SSN: 123-45-6789
Firearms and Ammunition
Several Car Radio's
Police Equipement
Police Paperwork

Attachment A

On July 15, 2004 a vehicle was reported stolen from Brunswick Auto Auction in Lawrenceville, Virginia, along with a number of car radios from other vehicles in the auto auction. The car had been stolen the night of July 14-15, 2004. On July 19, 2004 the stolen vehicle had been abandoned and was recovered in South Carolina. Officers of the South Carolina State Police searched the abandoned vehicle and lifted latent fingerprints matching the fingerprints on file with AFIS of Mikal Mahdi, a resident of Lawrenceville in Brunswick County. Mahdi is currently under the supervision of adult probation in Brunswick County. As his residence, Mahdi gave his probation officer his grandmother's address at 18793 Christanna Highway in Lawrenceville.

A concerned citizen, however, has given your affiant information that the defendant is not living with his grandmother, but is living in a house in Lawrenceville currently uninhabited by the owner and in a state of disrepair. The concerned citizen knows that Mahdi's grandmother takes meals to Mahdi at this residence. The concerned citizen stated that Mahdi was last known to be at this residence on the morning of July 14, 2004. Mahdi was last seen in Lawrenceville on the night of July 14, 2004. The concerned citizen has no criminal history, and is known by your affiant to be well acquainted with Mahdi and his family. The concerned citizen is known by the Sheriff of Brunswick County to be an honest and hard working resident of Brunswick County. The concerned citizen does not want his name used with regard to this investigation because he is afraid of Mahdi.

Officers of the Brunswick County Sheriff's Department have observed today that this house is in disrepair and appears to be uninhabited with the exception of one room. Through the front door, the officers could see that the door to that one room was closed. That room has one window covered with some type of fabric, such as a curtain or a sheet. The windows in the house were closed. However the officers observed the fabric on the window moving as if a fan or air condition was running within the room.

At or near the time and place that the auto auction vehicle was found in South Carolina, a police officer was killed in South Carolina. South Carolina State Police confirmed that the police officer bled from gunshot wounds inflicted in the attack and that the gunshot wounds were from a .22 caliber rifle. The police officer's vehicle was stolen. The vehicle contained police equipment, an automatic rifle and ammunition, and police documents and maps. Mahdi's fingerprints were found on an item of personal property located near the body of the police officer. The police vehicle has not been recovered.

Also at or near the time and place that the auto auction vehicle was found in South Carolina, another stolen vehicle from South Carolina was located bearing tags previously reported stolen from Lawrenceville. Mikal Mahdi's fingerprints were also matched to latent fingerprints recovered from this stolen vehicle. None of the stolen radios was found in this stolen and recovered vehicle. Mahdi was identified in a convenience store where this vehicle was abandoned and was chased by police from the convenience store but was not apprehended. The police officer's body was found in the same area of South Carolina as this convenience store. Mahdi was last seen in South Carolina on July 18, 2004. This area of South Carolina (Calhoun County) is approximately a five hour drive from Lawrenceville.

5. The object, thing or person searched for constitutes evidence of the commission of such offense.

6. ☐ I have personal knowledge of the facts set forth in this affidavit OR

☒ I was advised of the facts set forth in this affidavit, in whole or in part, by an informer.
This informer's credibility or the reliability of the information may be determined from
the following facts:

The South Carolina State Police contacted the Brunswick Co. Sheriff's Office on July 18, 2004 about the recovery of some stolen license plated that were taken from Mike Brockwell's Auto in Lawrenceville, VA and that the vehicle they were found on was a Ford Explorer that was car jacked in South Carolina and the suspect went to a service station near Orangeburg And attempted to use a credit card that did not belong to him and the clerk of the store called the police. Upon arrival of the police the suspect fled the scene and a search was conducted To locate the suspect, but was unsuccessful. After the search and not far from the service station Capt. James Myers of the Calhoun Co. Sheriff's Office, who was off duty was found Murdered on his property. Found not far from Capt. Myers residence was a stolen vehicle from Brunswick Auto Auction in Lawrenceville, VA. South Carolina Authorities sent out a B.O.L. on the description of the suspect believed to be involved in the homicide. Capt. Caldwell of the South Carolina State Police contacted Lt. Washburn on July 19, 2004& discussed The case and Lt. Washburn informed Capt. Caldwell of a possible suspect that lives in Brunswick Co. Virginia and that this suspects personal information would be given to him. The suspect given was Mikal Deen Mahdi; Black Male; DOB: 08 08 70; SSN: 08 08 70 and this subjects picture was sent by e-mail and a couple of hours later Capt. Caldwell Called Lt. Washburn and advised that they had identified the fingerprints found on the two vehicle in question in South Carolina to the homicide as belonging to Mikal Deen Mahdi. A concerned citizen in Brunswick Co. also was contacted about Mikal Deen Mahdi and gave information of where Mikal was living at in Brunswick Co. and the last time he was seen.

Dear Mr. Mahdi:

I am a Surveillance Officer at the Probation & Parole Office in Virginia. I assist the Probation Officers in seeing certain clients. Mr. Mahdi has asked me to see you and discuss with you your current status under supervision. This is being required. I strongly encourage you to make all scheduled appointments. I see you once a month and your job/supervisor should know in advance about your monthly appointments as this is a priority.

This is to advise that on Wednesday (7-14-04) between the hours of 1:00 PM and 2:15 PM I will be visiting you at your residence. It is important that you be at home during this time frame. Please call 434-743-1211 in advance if you cannot make this appointment. Last minute calls will not be accepted as an excuse for missing an appointment.

Be prepared to give a urine sample, if asked. I suggest that you drink water prior to my coming.

Your cooperation will be appreciated.

SUMMARY OF EVENTS

On July 18, 2004 the South Carolina State Police contacted BCSO and talked to Deputy W.V. Smith about a green Mercury Sable being recovered in South Carolina that was reported stolen in Brunswick Co. on July 15 and that they also recovered some stolen license plates that belonged to a vehicle in Brunswick Co. and were found on a Ford Expedition that was Carjacked in Columbia, SC and the suspect ran from police while he was trying to use a stolen credit card at a gas station in Orangeburg, SC and that a man hunt had been conducted to try and locate this suspect, but was unsuccessful. Later on around 10:10pm not far from the gas station where the suspect eluded police Capt. James Myers of the Calhoun Co. Sheriff's Office was found dead on his property in a shed and that he was off duty and just getting back from vacation. Capt. Myers was found by his wife who is a S.L.E.D. officer and that Capt. Myers had been shot and set on fire and that his police vehicle which is a white Dodge pick-up was missing from the residence and that Capt. Myers .22 Rifle was also missing from the shed and that in his work vehicle there was a Ruger M14 Rifle and well as the Capt.'s service weapon and a bullet proof vest and ammunition. South Carolina gave a B.O.L. for the Police Vehicle and License Plate number and a description of the suspect that could be involved. On July 19, 2004 Deputy Smith had given out several copies of the B.O.L. to other deputies and several officers got together and discussed who the suspect could be if he was from Brunswick Co. and it was determined that Mikal D. Mahdi fit the description that was given from South Carolina State Police that best fit the suspect information given. Lt. Washburn then contacted Joseph Langly of the parole office in Emporia, VA and discussed the matter with him and he gave Lt. Washburn the personal information on Mikal D. Mahdi as far as his DOB and SSN. Mr. Langly also sent Lt. Washburn a picture of Mikal D. Mahdi by E-Mail and advised that he would call over to the residence where Mikal was suppose to be living, which was at his grandmothers Nancy Burwell in Lawrenceville, VA. Mr. Langly called the residence and talked

RECEIVED
JUL 20 2004
FBI - BRUNSWICK

Brunswick County Sheriff's Office

SHERIFF J. R. WOODLEY

P.O. Box 705, Lawrenceville, Virginia 23868

Phone: 434-848-3133

Fax: 434-848-6014

with Mrs. Burwell and she stated that Mikal was not at home that he was working on a residence locted at 618 W. Third Ave. in Lawrenceville, VA. Capt. Dave Caldwell of the South Carolina State Police was contacted by Lt. Washburn and Deputy Smith and he was given the information of who we thought the suspect could be and gave him the name Mikal D. Mahdi and his DOB and SSN and E-Mailed him a picture of Mikal D. Mahdi and gave him Mikal's FBI and CCRE number for his investigation. Capt. Caldwell called back about 2-3 hours later and advised that the latent fingerprints that they recovered from the Ford Expedition that was carjacked in SC and the Mercury that was stolen in Brunswick Co. that they recovered were a positive match to the fingerprints on file for Mikal D. Mahdi and that a set of keys found at the murder scene ~~had Mikal's Latents on them~~ *fit the Expedition* also and that they would be issuing warrant's for Mikal D. Mahdi arrest. Lt. Washburn advised Capt. Caldwell that we would try to get a search warrant for the residence where Mikal D. Mahdi was living and try to locate him or any other evidence that might help in the investigation. Lt. Washburn talked to Sheriff Woodley about this situation and that if he knew anyone that was a family member or friend that could help us in the case as to where Mikal D. Mahdi might be. Sheriff advised that he knew an uncle of Mikal's named Nathan Burwell who he trusted to talk about this situation with. Nathan Burwell came to the BCSO on July 19, 2004 and talked with Sheriff Woodley and Lt. Washburn about Mikal and he stated that Mikal was last seen on Wednesday July 14, 2004 and that he has not been seen since. Nathan advised that Mikal was released from prison in May and came to live with his mother Nancy Burwell and him and that he stayed for a short while, but moved out about a month or so ago to a residence on Third Ave in Lawrenceville that Mikal could not get along with him or his rules and made a deal with the owner of this property on Third Ave. that he would fix up the house and live in it rent free until the renovation was complete and that he was living with a guy in that house that he did not know and that his mother Mrs. Burwell would go by this residence and carry Mikal some food every day. Nathan stated that if Mikal did this crime that he probably would not come back to this area because of his grandmother and he would go south towards Florida. Nathan stated that Mikal did not have any relatives or friends that he knew of in Florida or why Mikal would have done any of this. On July 19, 2004 around 8:15pm Detective R.J. Davis from Winston Salem Police Dept. called and talked to Lt. Washburn about a homicide that they had at a convience store on July 15, 2004 where the store clerk was shot three times and killed and that they had the security tape of the murder at the time it happened and that after they were aware of the incident that happened in South Carolina and the picture of the suspect that they had seen that they thought that it might be the same person and was one of our resident. Lt. Washburn gave Det. Davis the information on the suspect Mikal D. Mahdi and Det. Davis wanted to E-Mail some pictures of the security tape and see if I could identify the suspect that killed the store clerk.

RULE 1
DISCOVERY

Brunswick County Sheriff's Office
SHERIFF J. R. WOODLEY
P.O. Box 705, Lawrenceville, Virginia 23868
Phone: 434-848-3133 Fax: 434-848-6014

CONTINUED SUMMARY OF EVENTS

After receiving the pictures it was appearant to Lt. Washburn based on what he saw on ther pictures that the suspect who killed the clerk in Winston Salem, NC was Mikal D. Mahdi. Sheriff Woodley was shown the pictures and we called Mikal's uncles back down to the sheriff's office and they observed the pictures and they positively identified the suspect as Mikal D. Mahdi. Lt. Washburn advised Det. Davis of what had happened here and that we were in the process of getting a search warrant for the last residence that we knew Mikal was living at. A search warrant was obtained from the magistrate after being advised by the Commonwealth Attorney for the residence of Mikal D. Mahdi. Around Midnight on July 20, 2004 Amanda Weaver reported to Lt. washburn that she lives beside Mikal's grandmother and that she knew Mikal and that after seeing the news report about Mikal being involved in the murder in SC she went to get her gun in her bedroom to load it for her protection and that when she went to go get the gun it was gone as well as the two clips for the gun and the bullets were also gone and that the gun was a 380 pistol. Amanda gave a written statement to Lt. Washburn about the gun and her knowing Mikal and how long she has known him and what she has heard him say about anything before that might be important to our investigation. Amanda stated that she last saw Mikal on Tuesday July 13, 2004 riding his bicycle up the rd. coming toward his grandmothers residence around 7-7:30pm and that Mikal did know she had a gun and that he had seen her clean the gun before and that she had seen Mikal with a gun before and that she knows he is a drug dealer and that she has seen him selling Marijuana before. Amanda stated that she doesn't know of Mikal having any real girlfriends, but that his best buddy is Richard Elder and she has seen Mikal hang out with Anthony Cruthfield and Bernard Singleton and that Mikal told her one time that he was going to take out one of these drug dealers and show the others how to really sell dope. Major Roberts contacted the VSP to get the Tact Teams help in serving this Search Warrant and looking for the suspect if he was in Brunswick Co. The Search Warrant was served on July 20, 2004 at 3:25am and the only people at the residence was Richard Elder and his girlfriend Latoya Cook and there 10 mo. old baby. Mikal D. Mahdi was not found and there was no problem in the attempt to serve the Search Warrant. Mikal's room was pointed out to Lt. Washburn by the two occupants present and a search was conducted and several item's were seized that are listed on page 2 of this report. Richard Elder was asked to come to the BCSO and he was interviewed by Inv. Peterson and later on by Lt. Washburn and stated that he didn't know where Mikal was that the last time he saw Mikal was Wednesday July 14, 2004. Richard stated that Mikal did sell Marijuana and that Mikal hanged out with Anthony Crutchfield and has heard him say that he knew Bernard Singleton and that he had sexual relations with Bernards girlfriend and that she was a freak and that he has seen Mikal with a gun on that Wednesday and that it was small and was chrome in color, but he didn't know what type it was. Richard Came to the BCSO again on two different times and gave Lt. Washburn a written statement and another time

to talk to the U.S. Marshall Bill Stanton and with the Detectives from Winston Salem, Det. Tim Taylor and Mike Allen. On July 20, 2004 Special Agent Bennell Powers of the VSP contacted Lt. Washburn about doing some surveillance in Brunswick Co. for Mikal D. Mahdi near the Grandmothers Mrs. Burwell residence by using a pole camera and a surv. van and that they would furnish the man power to help in the set up and surv. The equipment was put up around 2:00pm on July 21, 2004 and the VSP Evidence Van was called out to go to Amanda Weaver residence to locate any spent bullet casings from the 380 that was stolen and possibly used in the Winston Salem Murder and try to lift any latents from the residence at the location of the suspected entry into the residence. Some Evidence was collected at Amanda Weaver residence and given to the Detectives from Winston Salem. Also on July 21, 2004 Anthony Crutchfield came to the BCSO around 4:30pm and talked with Det. Taylor and Allen about his relationship with Mikal D. Mahdi. The Det. also learned that Mikal's fingerprint were matched to the ones found at their crime scene in NC. On July 21, 2004 around 7:00pm Mikal D. Mahdi was arrested in Satellite Beach Florida after a short police chase through the woods and Capt. Myers Police Vehicle was recovered as well as the weapons that were in the vehicle when it was stolen. During this entire Investigation there were several phone conversation with several different law enforcement agencies about this case and what needs to be done to help each other out. CRUTCHFIELD: Um hum (yes).

ALLEN: Not at his grandma's house?

CRUTCHFIELD: Naw, naw. Hell no.

ALLEN: Okay. Uh, how long had he, had he been staying there with Richard?

CRUTCHFIELD: Probably 3, 4 weeks, 3 weeks, 2, 3, 4 weeks, something like that.

ALLEN: Right.

CRUTCHFIELD: He moved there and he wasn't even there long.

ALLEN: How did that, how did that ever happened? How did, did he know
Richard from before?

CRUTCHFIELD: He, well, he knew Richard from a little kid too.

ALLEN: Okay. They grew up together too?

CRUTCHFIELD: Yes sir.

ALLEN: So, y'all kinda run together when you were kids?

Re: Exxon C-mart, 140 S. Broad Street

CRUTCHFIELD: Right. See what I'm saying. We, I, I, I lived in Broadnax or whatever. And, then like, like I told you from like 3rd, 4th Grade or whatever, then I told you he moved or whatever. That's when he musta moved beside Richard because I didn't even know he knew him from um, from little kids until one day he seen him. And then, he asked him, you know what I'm saying. Then he told him no, you know what I'm saying. That was when Richard was like you can stay here, you know what I'm saying with me? And, we left it there.

ALLEN: Okay. Can you describe the, the rifle you saw him with?

CRUTCHFIELD: Yeah um, with a gun you know. Long gun. A rifle, long rifle you know what I'm saying? I know you put bullets in through the top, you know what I'm saying? Something like that? Right?

ALLEN: Were the bullets big? Little?

CRUTCHFIELD: Naw, real small.

ALLEN: Possibly what a .22?

CRUTCHFIELD: I know it was a .22. I'm saying I seen the bullets. You know what I'm saying. He had like a, a job.

like from Richmond like, "Where you from?" "Yeah, I live", you know
what I'm saying. Southside, shit like that. See what I'm saying?

ALLEN: You ever heard him talk about going anywhere in North Carolina?

CRUTCHFIELD: I never heard him say anything about North Carolina.

ALLEN: What about South Carolina?

CRUTCHFIELD: I heard him say he knew some people out there.

ALLEN: He ever tell you where?

CRUTCHFIELD: I can't recall all that. Can't recall.

ALLEN: He said he knew some people down there?

CRUTCHFIELD: Right. Something like that. He use to live out. I think he lived out
there.

ALLEN: Okay.

CRUTCHFIELD: See I (unintelligible).

ALLEN: I hadn't heard that before and I don't know if he's ever in South
Carolina, but uh, what about Florida? Has he ever said he wanted to go
to Florida?

Re: Exxon C-mart, 140 S. Broad Street

CRUTCHFIELD: You can say that. You can say that, you know what I'm saying. Like man, it wasn't no big issue. Like man, I wouldn't mind going there. You know what I'm saying that. Now, I wouldn't mind going there now. You know what I'm saying. Something like that. But, as far as that like you know what I'm saying, he rode his little. It ain't like he was gonna go to Florida, you know what I'm saying? Now, he couldn't just up and go to Florida. He don't know nobody or nothing there for real. He don't know nobody.

ALLEN: Okay.

CRUTCHFIELD: You know what I'm saying?

ALLEN: Well, I didn't know, you know maybe he had gone to school in a big city like Miami or Tampa or something and run on with the big dogs. You know spread his wings and uh, live life. No? He never said it like that?

CRUTCHFIELD: Un un (no).

ALLEN: He ever say he was ever wanting to uh, to get over to Germany and be with his brother?

Re: Exxon C-mart, 140 S. Broad Street

CRUTCHFIELD: Naw. Cause he coulda went, you know what I'm saying? His brother tried to look out for him, you know what I'm saying? He coulda went, you know what I mean.

ALLEN: Was he tight with his brother?

CRUTCHFIELD: Yeah. He really tight with his brother.

ALLEN: Right.

CRUTCHFIELD: Yeah, he was really tight with his brother, for real, for real.

ALLEN: But would you be surprised if I told you that his brother uh, would know something about this? You think he woulda talked to his brother about this?

CRUTCHFIELD: Naw. Cause he, cause he didn't have no phone. He couldn't call his brother, okay.

ALLEN: What about when he was here on leave there for about a month ago?

CRUTCHFIELD: Um hum. What?

ALLEN: You think, you think him and his brother talked about anything then?

CRUTCHFIELD: I doubt it. You know what I'm saying? Cause his, his brother ain't that type person, you know what I'm saying. Like Saleem ain't that type

person. You know what I'm saying. So, I don't, matter of fact if, if he was gonna do something, I don't even think he would even be, I know he wouldn't even say something to Saleem. I know he wouldn't tell Saleem nothing like that. For real.

ALLEN: He wouldn't want to get Saleem in no trouble?

CRUTCHFIELD: Naw. Saleem, he know Saleem would try to talk, he know Saleem would talk him out of that, you know what I'm saying? He know Saleem wouldn't even be trying to hear no shit like that, man. You know what I'm saying?

ALLEN: Gottcha.

CRUTCHFIELD: For real for real.

ALLEN: How do you uh, how you figure Mikal ever found out about the cars at the auto mart?

CRUTCHFIELD: He heard it through a couple of friends, you know what I'm saying. He, he say, she say. He heard it through a couple of friends, you know I mean. You know what I'm saying? Guys told him about it whatever you know what I'm saying that I remember.

CRUTCHFIELD: Richard walked up later. Richard walked up time Mikal walked up.
You know what I'm saying, like that. You know what I'm saying.
Tight like that.

ALLEN: Okay. So, what, was Wootie saying about the auto mart?

CRUTCHFIELD: He was talking about Dax radio and shit, you know what I'm saying?
Systems and anything like that. You know what I'm saying?

ALLEN: Car stereos?

CRUTCHFIELD: Yeah.

ALLEN: He was wanting boost a couple of car stereos?

CRUTCHFIELD: Yeah. You can basically say that. You know what I'm saying?

ALLEN: Is he a booster?

CRUTCHFIELD: Naw, hell naw. Hell naw. He ain't got no car, you know what I'm
saying?

ALLEN: Well, why would you want to go to the auto mart and boost some
stereos, if he hadn't ...

CRUTCHFIELD: Try to make some money.

Re: Exxon C-mart, 140 S. Broad Street

CRUTCHFIELD: Yeah. So, we took the liquor. And you know what I'm saying. And, then the police came around, around the corner, the curb. So, Wootie through the liquor on the ground. But, they was arguing at the time like, "Man, you better give me my fucking liquor, man." Say, "I'm gonna fuck you up." This and that you don't understand, they was arguing. You know what I mean, they was gonna fight, you know what I'm saying? But then the police came then, so he threw his liquor on the ground. And, when he threw it on the ground, he, he walked off. But when, when he threw it, Terry picked it up. And, when he tried to walk off, he was just walking off and he hit him with it. You know what I'm saying.

ALLEN: Did y'all tell the cops that day that Wootie fired a gun at your brother?

CRUTCHFIELD: They knew. Yeah, Jerry called him. You know what I'm saying. He, he did. You know what I'm saying.

ALLEN: Oh, they knew that he fired a gun?

CRUTCHFIELD: Yeah.

ALLEN: Okay. Uh, do you know what kind of gun it was?
