Additional Pro Se Brief Issues

During the week of July 18,2022 MY Attorney Jeffrey T. Lucas reached out to the solicitors officers asking to extend a plea offer after finding out Steven A. Morgan was testifying .Prior to this , I rejected a plea offer of 25 years during arraignment. Years before arraignment, I made it very clear to my defense that I WAS not pleading under any circumstances because I'm innocent. The solicitor reached out to my attorney and extended a 30 year plea, and he came out to JRLDC trying to convince me to take 30 years after I turned down 25 years . Not to mention, I made it very clear from day one that I wasn't pleading to anything. My attorney even reached out to my family and convinced them to try to talk me into taking the 30 year offer the solicitor extended . Minus my attorney reaching out to my family , all of this is highlighted in my transcript in Volume 1 of 2 on pages 35-37. Witness Stewart Stevenson said he seen some bones / remains, but can't remember what day he seen them. How does he know he even seen bones /remains ? Steven A.Morgan admitted several times to authorities he had knowledge of a crime committed at his house he and his girlfriend rented and also fled after they were aware the law were looking for them , but he never ever said he witnessed me do anything. If everything was true that he testified to, he would've left his home and contacted the authorities ,not tell someone to be gone when he gets back . If that's true, that right there is accessory before the fact ,not after . Steven admitted during testimony that he never had any plans to speak with anyone about anything until the solicitor started sending him and his attorney my letters indicating that he's the actual culprit, and the reason he had no plans to day anything and the reason he still never said he seen me do anything is because he did it.
