I emailed you a couple of days ago.. was just trying to be sure I did everything right as to not suffer any mistakes on my part in case I still needed to do anything... I was trying to doublecheck with the public defender, Laura McGahn.... who handled my case last week in court just to be positive.... She just left me a voicemail message saying my case is closed and there is no longer any need for an attorney. I knew they said no more payments and charges ... It happened quickly and I knew she said everything was good.. and I was so thankful to God and so happy to be out of the courtroom.

I saved her voicemail ...she will be out of town until Tuesday and I will reconfirm. But her voice message said exactly..... The case on Roland Green is closed and there should no longer be any reason to need an attorney.

Thank you so very much for everything. Please let me know you got this. Sorry, for any confusion on my part. Her voicemail says my case is closed.

God bless.

Roland Green
