I received letter from Catherine on Saturday with mailing information for public defenders office in Columbia. I will be trying to contact a public defender this week since it was moved to back to another county. I am sure, financially, I will qualify, as I am struggling. I will update you as to when I find one to represent me. Thank you very much for your letter. Do the office in Columbia have a phone number you can provide me with?

Have a blest week. Thank you.

Roland Green

I am so sorry to bother you. I finally, just moments ago, was able to speak directly with public defender, not her staff, who went to court with me in Aiken County.. The probation violation charge and restitution payments is what dropped and closed.

But as my original email and concern/request on Aug. 30, I think with the copy of my receipt for public defender application in Aiken County..... I was correct in thinking I may now have to now get a public defender in another county..... following court.

The actual case of other charges was sent back to Edge field County. I had already applied for the public defender where they had me in Aiken County.

The defender said I will now need to get a public defender now in Edgefield County on the actual case being appealed.

I just got the call. So I cannot go to another county and apply until they open next week. I will contact them on Monday and set an appt time I can go apply in that county....and again, I'll have to wait on a letter from them assigning me an atty in that county. That normally takes at least 2 weeks is what they told me when I applied in Aiken.

So back to my original request.. I do definitely need representation to assist me with legal things I don't know how to do. So I again, as in the first email..request additional time to obtain a public defender in Edgefield County.

I apologize for confusion. I have been trying to get ahold of the atty/ lady who went to court with me to be sure what I needed to do next. All I had was her phone message saying case was closed. And then her staff... But that was the probation violation.. she explained today I still need a new defender for my actual appeal

I will set appt. And as soon as they assign me a defender in another county I will notify you.

Have a great weekend
