I apologize... But I finally just got to speak to the office of Public Defenders for Edgefield County. She said they do not take cases that are under appeal. She said it's different public defenders who help those with an appeal with your court. Is that correct? I'm confused and don't know where to go other than where you directed me. Do I need to call the division of Appellate Defense? Is there a phone number to them? They all said Richland County and something about private cases, so I'm at a loss. My health has not been good also and I am really trying to follow everything as suggested..

Who do I contact to help me in my appeal that is in Edgefield County. I am confused and know I need helping to file the right formats and things I don't know how to do. WE did out best thus far but it's just more than I can do as I don't understand all the Where do I find a public defender to help me at this point? I don't want the deadline date to run out but everyone I contact tells me it's the wrong place to apply. I absolutely have no more funds to pay a private attorney.

I assumed I'd just need a defender from Edgefield County like I had in Aiken County.

Please direct me where to turn for a public defender that is the right one for my appeal which was sent back to Edgefield County/

I know evidence has to be sent to you in the proper format. As your letter advised I need help with that.

Roland Green
