The South Carolina Court of Appeals

Appellate Case no. 2023-001005

Appellant respectfully asks the Court or any single Justice to treat this letter as an emergency motion to extend the time to file his brief and waive the motion fee this one time only.

Appellant had his Covid booster shot and flu shot yesterday, one in each arm. Both arms are extremely painful, with limited use and he is suffering adverse reactions which his physician told him is to be expected given appellant's age (71). At the present time, appellant has \$71.43 in his bank account and his electric bill is due tomorrow. What little money will be left will pay for food until his next social security check on November 3rd.

Accordingly, appellant asks for a one-time extension of seven (7) days to file his brief.

Respectfully submitted,

**Dennis M. Gallipeau**
