STATE OF SOUTH CAROLINA

COUNTY OF UNION

DWAYNE THOMPSON,

Plaintiff,

v.

LG CHEM, LTD., LG CHEM AMERICA,
INC., and ROLLING FOG VAPOR
COMPANY, LLC,

Defendants.

IN THE COURT OF COMMON PLEAS

CIVIL ACTION NO.: 2018-CP-44-00054

**PLAINTIFF'S FIRST SET OF
INTERROGATORIES TO DEFENDANT
ROLLING FOG VAPOR COMPANY, LLC**

TO: WILLIAM MCBEE SMITH, ESQUIRE, ATTORNEY FOR DEFENDANT ROLLING
FOG VAPOR COMPANY, LLC:

Plaintiff hereby requests that Defendant answer in writing and under oath the following continuing Interrogatories within thirty (30) days after the date of service hereof and in conformity with Rules 26 and 33 of the South Carolina Rules of Civil Procedure. In responding, the Defendant is requested to furnish such information as is available to said Defendant, and within the knowledge of any of Defendant's attorneys, investigators, agents, employees, and other representatives. When a question is directed to Defendant the question is also directed to the aforementioned persons.

These interrogatories shall be deemed continuing so as to require supplemental answers if the persons or entities to whom these interrogatories are addressed obtain further information between the time the initial answers are served and the time of trial.

PRELIMINARY INSTRUCTIONS ABOUT DISCOVERY IN THE CASE

Defendant is hereby instructed not to make "general objections" based on privilege or work product claims, as such general objections do not specify that facts or documents exist which are subject to such claims, do not identify in any way the facts or documents to which privilege or

work product is claimed, and do not provide anything to the Court for decision. If a particular interrogatory does, in fact, encompass facts or documents, which you believe to be properly withheld from Plaintiff, then you are instructed to so state. In the case of such withholding in response to any of these interrogatories, you are instructed to prepare responses to the interrogatory, as asked, which includes the information which you seek to withhold based on a claim of privilege or work product and submit that full response to the Court, in camera, along with any other evidence which supports the claims and along with the response provided to Plaintiff, for decision by the Court of the claimed right to withhold evidence. Failure to comply with these instructions will be deemed by Plaintiff to be a failure to answer or respond under (Rule 37(d), SCRCP, in as much as the object of such failure could only be to delay, protract, and obstruct these proceedings, in violation of Rule 1, SCRCP).

In response to any of Plaintiff's interrogatories, if Defendant fails to disclose any fact and then Defendant subsequently discloses such fact at a later date by supplemental response, please provide full information about how the existence of this additional fact was "discovered" by Defendant, by whom such additional fact was "discovered," when such additional fact was "discovered," who made the decision to disclose such additional fact to Plaintiff, when that decision was made, and in detail, why such additional fact was not disclosed to Plaintiff in Defendant's initial responses to these interrogatories.

If Defendant believes that information responsive to these interrogatories are somehow confidential because they contain trade secrets or allegedly proprietary business information, such belief in and of itself provides no basis for the blanket withholding of production of such information in a timely manner. If Defendant intends to make such claims about responsive information, Defendant should 1) contact Plaintiff's counsel and 2) articulate to Plaintiff the basis

for the claims of confidentiality of each such document to which a claim of confidentiality is made in the form of a log identifying each document and describing it with reasonable particularity as to time, authorship, recipients and subjects. Absent following these steps, any confidentially objections shall be deemed waived and without merit.

Stated another way, it is improper for Defendant to attempt the following strategy: wait until the time has run for responding to the requests herein, interpose boilerplate objections in their responses that a particular request is overbroad, oppressive, or unduly burdensome (or similar such objections) and then fail to provide any substantive response to the discovery request in their responses. If Defendant seeks to interpose boilerplate “burden” objections in lieu of legitimate, substantive responses to these requests, the law requires that Defendant file a motion for protective order **prior to the running of the time for response to these requests**, and in that motion explain the bases for the objections in a manner that satisfies the burden of proof which rests **on Defendant** to justify any such objections. Moreover, filing of any such motion for protective order **does not excuse a failure** to respond in a timely manner to these requests.

This note is provided specifically to put Defendant on notice that if baseless objections are made to these requests and a motion for protective order is not timely filed and supported, their actions will be in willful violation of the South Carolina Rules of Civil Procedure. At such time, Plaintiff will consider all objections waived and Plaintiff will move immediately for sanctions, including the costs and fees incurred pursuing such motion, the production of the documents withheld, and any other sanctions merited by law.

Plaintiff requests that Defendant takes the time to accumulate all information, which is called for by this discovery request, whether it be facts or documents, and to provide all such information in its initial written discovery responses. If the time provided by law to respond to

this written discovery does not provide you an adequate opportunity to do so, Plaintiff will extend the time, provided the extension requested is not excessive.

Plaintiff requests that Defendant responds to and supplement these and all future interrogatories with direct and concise responses and answers from Defendant, which can be read to a jury. Plaintiff requests therefore that Defendant not answer interrogatories in this case by cross-referencing answers and responses given in other paragraphs of this same discovery, but rather answer with a full, clear textual response to each question.

Any documents produced in response to these interrogatories should be mailed or sent by Federal Express to the **Attention: Ronnie L. Crosby and Austin H. Crosby** at the law offices of **Peters, Murdaugh, Parker, Eltzroth & Detrick, PA, 101 Mulberry Street East, Post Office Box 457, Hampton, South Carolina 29924** no later than **thirty (30) days from the date of service**. Plaintiff asks that any documents that are produced be identified by a Bates Number in the lower right hand corner of each document that does not obscure any written portion of the document.

For the purposes of these requests, the following terms should be interpreted as follows:

1) "Document" means every writing, printing, record, graphic, photographic or sound reproduction of every type and description -- be it tangible in the form of paper or intangible in the form of electronic communications -- that is in your possession, control, custody and knowledge which refers to or was prepared before, during, and after the incident or search defined below, including but not limited to, correspondence, electronic mail ("e-mail"), memoranda of agreements, assignments, meeting minutes, memoranda, stenographic or handwritten notes, diaries, notebooks, account books, orders, invoices, statements, bills, checks (or check stubs or

	)	

Pursuant to Rule 26(c) of the South Carolina Rules of Civil Procedure, Defendant LG Chem, Ltd. (“LG Chem”), hereby moves the Court for an order protecting LG Chem from any obligation to respond to certain of Plaintiff’s Jurisdictional Interrogatories, Jurisdictional Requests for Production, and Jurisdictional Requests for Admission, as such requests are outside the limited scope of discovery ordered by this Court, as well as overbroad, unduly burdensome, and irrelevant to the pending issue of jurisdiction. LG Chem seeks a hearing on the instant motion.

RELEVANT BACKGROUND

Plaintiff alleges that he was injured when an LG Brown Hg2 INR 18650 3000mAh battery cell he purchased from Defendant Rolling Fog Vapor Company, LLC (“Rolling Fog”) to use in his vaping device “exploded and burst into flames in [his] right front pant pocket . (See Exhibit A, Plaintiff’s Complaint, at ¶¶2, 8-11.) Plaintiff alleges that LG Chem designed, manufactured, supplied, sold, imported, and distributed the battery. (*Id.* at ¶5.)

On April 24, 2019, LG Chem moved to quash service and, in the alternative, dismiss for insufficient service of process. A hearing was conducted on September 24, 2019 before the Honorable Cordell Maddox, and the Court ruled from the bench that predicate issues of product

identification and personal jurisdiction must be resolved before further proceeding with the case. Plaintiff thereafter submitted a proposed order that did not accurately reflect the Court's ruling as to these predicate issues, and LG Chem (and LGCAI) moved for reconsideration or, in the alternative, clarification.

On July 20, 2020, the Court entered an Order granting LG Chem's motion to the extent it sought clarification of the prior written order and clarified that "only limited discovery is permitted at this time, limited to the threshold issues of whether LG Chem or LGCAI designed, manufactured, or sold the *subject battery and the extent of LG Chem's and LGCAI's jurisdictional contacts with South Carolina*." (emphasis added). (July 20, 2020 Order, pp. 1, 4.). The Court further ordered that the time period to conduct jurisdictional discovery was 90 days. (*Id.* at p. 4.) Plaintiff promptly served discovery requests on July 24, 2020.

LG Chem anticipates producing documents in response to Plaintiff's discovery requests but cannot do so until a Confidentiality Order is in place to protect proprietary and commercially sensitive business information contained in those documents. In an effort to keep this case moving, especially in light of the Court's order that jurisdictional discovery is limited to 90 days, counsel for LG Chem reached out to Plaintiff's counsel to discuss the possibility of an agreed upon Confidentiality Order. To date, Plaintiff's counsel has not responded.

RULE 11 CONSULTATION PRIOR TO FILING MOTION

Counsel for LG Chem consulted with counsel for Plaintiff by both written and telephone communications prior to filing this Motion in a good-faith attempt to resolve this dispute, but the parties were unable to reach an agreement. On August 4, 2020, counsel for LG Chem and Plaintiff had a telephonic conference to discuss LG Chem's objections to Plaintiff's improper discovery requests. On August 12, 2020, LG Chem's counsel sent a follow-up e-mail requesting Plaintiff's

position. Plaintiff's counsel responded on August 21, 2020 agreeing to limit the temporal scope of the requests to five years prior to Plaintiff's incident, but not agreeing to any other limitations. In light of the short timeframe allowed for jurisdictional discovery, LG Chem is contemporaneously serving its responses to Plaintiff's requests, limited as described herein, and seeking an order of protection from this Court from any further burden of responding.

In regard to a proposed Confidentiality Order, counsel for LG Chem emailed Plaintiff's counsel on August 14, 2020 to discuss the possibility of entering a tailored Confidentiality Order in this case and another case which Plaintiff's counsel brought against LG Chem. No response was received. On August 18, 2020, LG Chem's counsel sent Plaintiff's counsel a proposed Confidentiality Order that is limited to jurisdictional discovery. No response has been received.

LEGAL AUTHORITY AND ARGUMENT

South Carolina Rule of Civil Procedure 26(c) permits a party opposing discovery to seek a protective order to prevent "annoyance, embarrassment, oppression, or undue burden by expense." S.C.R. Civ. P. 26(c). For good cause shown, a court "may make any order which justice requires," including "that the discovery [at issue] not be had." *Id.* LG Chem should not be subjected to the burden of responding to discovery requests when the Court's jurisdiction over it has not been determined and when the Court explicitly ruled that discovery must be limited to product identification and the extent of LG Chem's contacts with South Carolina.

General jurisdiction is foreclosed by well-established Supreme Court precedent, and Plaintiff has not argued that general jurisdiction can be exercised. *BNSF Ry. Co. v. Tyrrell*, 137 S. Ct. 1549, 1558–59 (2017); *Daimler AG v. Bauman*, 571 U.S. 117, 122 (2014). Instead, Plaintiff argued that specific jurisdiction applies, and the specific jurisdiction analysis requires consideration of the defendant's suit-related contacts with the forum state. *See Cockrell v. Illerich*

& Bradsby Co., 363 S.C. 485, 491-94, 611 S.E.2d 505, 509–10 (2005); *Southern Plastics Co. v. Southern Commerce Bank*, 310 S.C. 256, 260, 423 S.E.2d 128, 131 (1992); *Power Prods. & Servs. Co., Inc. v. Kozma*, 379 S.C. 423, 432–35, 665 S.E.2d 660, 665–67 (Ct. App. 2008).

Plaintiff's discovery requests are not limited to seeking information regarding LG Chem's suit-related contacts with South Carolina, if any. Instead, Plaintiff seeks information regarding the merits of Plaintiff's claims, contacts of LG Chem with the United States generally, activities involving products not at issue in this suit, and activities post-dating the Plaintiff's incident. (See Plaintiff's Jurisdictional Interrogatories (**Exhibit A**), Jurisdictional Requests for Production (**Exhibit B**), and Jurisdictional Requests for Admission (**Exhibit C**).) LG Chem objects and seeks protection from any burden of responding to discovery on these issues.

Improper Merits Based Discovery. Among the improper topics of merits-based discovery, Plaintiff seeks information regarding LG Chem's awareness that third parties are selling its LG 18650 lithium ion battery cells in South Carolina and in the United States. Third party activity cannot support the exercise of jurisdiction, and foreseeability of such third party activity is not the constitutional touchstone. *Cockrell v. Hillerich & Bradsby Co.*, 363 S.C. 485, 492, 611 S.E.2d 505, 508-09 (2005) ("The foreseeability that is critical to due process analysis is not the mere likelihood that a product will find its way into the forum state. Rather, it is that the defendant's conduct and connection with the forum state are such that he should reasonably anticipate being haled into court there.").

Plaintiff also seeks disclosure of information regarding any lawsuit filed anywhere in the United States alleging similar claims against LG Chem. Plaintiff has offered no explanation as to how discovery regarding lawsuits in other forums could be relevant to the question whether LG Chem has sufficient contacts with South Carolina to satisfy due process. LG Chem has identified

any prior lawsuits in South Carolina, and any discovery seeking information regarding actions in other states is both irrelevant to jurisdiction and in conflict with the Court's July 20, 2020 Order.

Contacts of LG Chem with the United States generally.

This Court's July 20, 2020 Order expressly limited jurisdictional discovery to contacts between LG Chem and South Carolina. To the extent Plaintiff seeks discovery regarding nationwide business activities, such discovery is irrelevant to the jurisdictional issue and violates this Court's previous order.

Activities involving products not at issue in this case.

In his Complaint, Plaintiff alleges he was injured by an "LG Brown Hg2 INR 18650 3000mAh 3.7V battery." (Compl. ¶ 2.) Further, Plaintiff defines the "Product" at issue in his jurisdictional discovery requests as "the Brown Hg2 INR 18650 3000mAh 3.7V battery ('Subject Battery') that forms the basis of this case and all substantially similar lithium-ion batteries manufactured using the same or similar components." However, certain of Plaintiff's requests pertain to "any products," and Plaintiff's counsel has stated that he intends to seek discovery more broadly than 18650 lithium ion battery cells and specifically to include any products LG Chem manufactures, such as petrochemicals or energy storage systems for utility scale projects. General jurisdiction is not at issue, and therefore discovery regarding LG Chem's business activities regarding unrelated products (anything other than 18650 lithium ion battery cells) is irrelevant to the issue of jurisdiction and in conflict with the Court's July 20, 2020 Order.

Activities post-dating the Plaintiff's incident.

As part of the parties' efforts to meet and confer on the scope of Plaintiff's jurisdictional discovery requests, Plaintiff's counsel agreed to limit the scope of the requests to the time period

July 27, 2013 to July 27, 2018 (five years leading up to the date of plaintiff's alleged incident).
(See Email exchange between counsel for Plaintiff and LG Chem. (**Exhibit D**).)

CONCLUSION

For the foregoing reasons, Plaintiff's propounded discovery requests are not appropriately limited to seeking information potentially relevant to the jurisdictional question before the Court, and LG Chem should be protected from answering any requests that exceed the proper scope of jurisdictional discovery, as discussed above and ordered by this Court. Accordingly, LG Chem respectfully requests that the Court grant the instant Motion and enter an Order protecting LG Chem from any further obligation to respond to Plaintiff's Jurisdictional Interrogatories, Plaintiff's Jurisdictional Requests for Production, and Plaintiff's Jurisdictional Requests for Admission as propounded to the extent outlined herein. LG Chem further requests that the Court enter the Confidentiality Order (**Exhibit E**).

I apologize for the delay in responding to you. Below are our responses to your email.

- a. Plaintiff is not willing to withdraw these requests because they relate to jurisdictional issues, not the merits of plaintiff's claims.
- b. Plaintiff is not agreeable to narrowing the scope to just SC as opposed to the U.S.
- c. Plaintiff is agreeable to limiting the time period to the dates you have listed below.

Hope you have a good weekend.

Subject: [External Email] Thompson - jurisdictional discovery

Austin,

We appreciate your time last week to discuss the scope of plaintiff's jurisdictional discovery requests. As we discussed, Judge Maddox has limited the discovery to "the extent of LG Chem's and LGCAI's jurisdictional contacts with South Carolina." Accordingly, plaintiff's requests related to the merits of the case or seeking information regarding LG Chem's contacts with the U.S. generally, other products not at issue in this case, and with no meaningful temporal limitation – including activities post-dating the incident in this case – are improper as beyond the scope of the limited jurisdictional discovery ordered by Judge Maddox.

We understood from the call on 8/4/20 that you were going to consider the points we discussed and get back to us. Since the deadline for LG Chem's responses is approaching, please let us know by **COB tomorrow, Thursday 8/13**, if plaintiff is willing to:

- (a) withdraw the requests related to the merits of plaintiff's claims (Interrogatory Nos. 1, 9-10; Request for Production No. 4, and Request for Admission Nos. 1, 3-4);

- (b) agree to narrow plaintiff's requests to LG Chem's relevant contacts with South Carolina as opposed to the U.S. generally (Interrogatory Nos. 3-4, 9, Request for Production Nos. 2-3, and Request for Admission Nos. 1-2); and
- (c) agree to a meaningful temporal limitation for all of plaintiff's requests, specifically the time period July 27, 2013 to July 27, 2018 (five years leading up to the date of plaintiff's alleged incident).

If we are not able to reach agreement on these points to narrow plaintiff's discovery requests, LG Chem will need to seek protection from the Court while responding within these parameters.

Thanks,
Dell

	)	

It is ORDERED that certain jurisdictional discovery material as described below is and should be treated as confidential as stated below:

1. **Scope.** All documents, materials, and information (including electronically stored information) produced or disclosed in the course of jurisdictional discovery, all responses to jurisdictional discovery requests and all deposition testimony and deposition exhibits and any other materials which may be subject to jurisdictional discovery (hereinafter collectively “Jurisdictional Discovery Documents” or “documents”) shall be subject to this Order concerning confidential information as set forth below.

2. **Form and Timing of Designation.** Confidential documents shall be so designated by placing or affixing the word “CONFIDENTIAL” on the document in a manner which will not interfere with the legibility of the document and which will permit complete removal of the Confidential designation. Documents shall be designated CONFIDENTIAL prior to, or contemporaneously with, the production or disclosure of the documents. Inadvertent or unintentional production of documents without prior designation as confidential shall be without prejudice to any claim that such documents are confidential and shall not be deemed a waiver, in

whole or in part, of the right to designate those documents or other documents as confidential as otherwise allowed by this Order.

In the event a party discovers it has inadvertently produced confidential documents without a designation of CONFIDENTIAL, the producing party shall give written notice of such inadvertent production within thirty (30) days of learning of the inadvertent production to the receiving party, together with a further copy of the documents designated as CONFIDENTIAL. Upon receipt of the notice and the replacement documents with the CONFIDENTIAL designation, the receiving party shall promptly destroy the inadvertently produced documents and all copies thereof, or, at the expense of the producing party, return such documents and all copies to counsel for the producing party. Should the receiving party choose to destroy the inadvertently produced documents, the receiving party shall send an email or correspondence to the producing party confirming such destruction within ten (10) days of receipt of written notice of the inadvertent production. Any disclosure of such inadvertently produced documents before receiving written notice from the producing party of the inadvertent production shall not be deemed a violation of this Order; however, the receiving party shall take all reasonable steps to cure the disclosure and to thereafter ensure compliance with this Order. This provision is not intended to apply to any inadvertent production of documents protected by privilege, which are addressed in Section 9 below.

3. **Documents Which May Be Designated Confidential.** LG Chem, Ltd. may designate Jurisdictional Discovery Documents as confidential but only after review of the documents by an attorney¹ who has, in good faith, determined that the documents contain

¹ The attorney who reviews the documents and determines them to be CONFIDENTIAL must be admitted to the Bar of at least one state but need not be admitted to practice in the State of South Carolina and need not apply for *pro hac vice* admission. The attorney who reviews the

information protected from disclosure by statute, sensitive personal information, trade secrets, or confidential research, development, or commercial information, which includes competitively sensitive technical, marketing, financial, sales, or other business information.. Information or documents which are available in the public sector may not be designated as confidential.

4. **Depositions.** Portions of depositions shall be deemed confidential only if designated as such when the deposition is taken or within fifteen (15) days after receipt of the official transcript. Such designation shall be specific as to the portions to be protected.

5. **Protection of Confidential Material.**

a. **General Protections.** Documents designated CONFIDENTIAL under this Order shall not be used or disclosed by the parties or counsel for the parties or any other persons identified below (¶ 5.b.) for any purposes whatsoever other than preparing for and conducting the litigation in which the documents were disclosed (including any appeal of that litigation).

The parties shall not disclose documents designated as confidential to putative class members not named as plaintiffs in putative class litigation unless and until one or more classes have been certified.

b. **Limited Third-Party Disclosures.** The parties and counsel for the parties shall not disclose or permit the disclosure of any documents designated CONFIDENTIAL under the terms of this Order to any other person or entity except as set forth in subparagraphs (1)-(8) below:

(1) counsel for the parties and employees of counsel for the parties

who have responsibility for the preparation and trial of this lawsuit;

documents and determines them to be confidential submits to the jurisdiction of this court in regard to that determination of confidentiality.

(2) parties, and employees of corporate parties, to this Order but only to the extent counsel determines that the specifically named individual party or employee's assistance is necessary to the conduct of the litigation in which the information is disclosed and advises the individual party or employee that such material are being disclosed pursuant and subject to the terms of this Order and shall not be disclosed other than pursuant to the terms of this Order;

(3) court reporters and videographers engaged for depositions;

(4) consultants, investigators, or experts (hereinafter referred to collectively as "experts") employed or retained by the parties or counsel for the parties to assist in the preparation and trial of the lawsuit but only after each consultant, investigator, and expert has signed an Acknowledgment and Agreement attached as Attachment A that he or she has read and understands the terms of this Order and is bound by it;

(5) mock jury participants, but only after each participant has signed an Acknowledgment and Agreement attached as Attachment A that he or she has read and understands the terms of this Order and is bound by it;

(6) a mediator mutually agreed to by the parties or appointed by the court to assist in settlement discussions, but only after the mediator has signed an Acknowledgment and Agreement attached as Attachment A that he or she has read and understands the terms of this Order and is bound by it;

(7) graphics, translation, design, litigation support, and commercial copy vendors employed or retained by the parties or counsel for the parties to assist in the preparation and trial of this lawsuit, but only after an authorized

representative of the company has signed an Acknowledgment and Agreement attached as Attachment A that he or she has read and understands the terms of this Order and is bound by it and confirms he or she has appropriately advised, or will appropriately advise, the company's employees who will be viewing or working with documents designated as CONFIDENTIAL of the confidentiality obligations in this Order; and

(8) other persons only upon consent of the producing party or upon order of the court and on such conditions as are agreed to or ordered.

Counsel shall retain the signed Acknowledgement of Understanding and Agreement to be Bound forms (Attachment A); and upon request of a party, provide copies of the signed forms (except those signed by mock jury participants, outside consultants, and consulting experts or other experts who are not required to be disclosed under the South Carolina Rules of Civil Procedure).

c. **Protections Extended to Disclosures by Third Parties.** The parties agree to extend the provisions of this Order to documents produced in this litigation by third parties to the extent the third party designates the documents "Confidential" and provides notice of the designation to the parties.

d. **Control of Documents.** Counsel for the parties shall take reasonable efforts to prevent unauthorized disclosure of documents designated as Confidential pursuant to the terms of this order. Counsel shall maintain a record of those persons, including employees of counsel, who have reviewed or been given access to the documents.

e. **Receipt of Subpoena or Order for Documents.** If a party receives a subpoena, order or other process (“subpoena or order”) from any person, entity, court, or government, demanding production of documents designated as CONFIDENTIAL pursuant to this Order, the recipient of the subpoena or order shall promptly give notice of it by electronic mail transmission (email), followed by either express mail or overnight delivery (at the producing party’s expense), to counsel for the producing party, with a copy of the subpoena or order. Upon receipt of this notice, the producing party may, in its sole discretion and at its own cost, move to quash or limit the subpoena or order, otherwise oppose production of the documents designated as CONFIDENTIAL, and/or seek to obtain confidential treatment of the documents from the subpoenaing or ordering person or entity. The recipient of the subpoena or order may not produce any documents designated as CONFIDENTIAL pursuant to this Order in response to the subpoena or order prior to the date specified for production in the subpoena or order, to allow the producing party sufficient opportunity to move to quash or limit the subpoena or order should the producing party decide to take such course of action.

f. **Copies.** All copies, duplicates, extracts, summaries or descriptions (hereinafter referred to collectively as “copies”), of documents designated as Confidential under this Order or any portion of such a document, shall be immediately affixed with the designation “CONFIDENTIAL” if the word does not already appear on the copy. All such copies shall be afforded the full protection of this Order.

6. **Filing of Confidential Materials.** In the event a party seeks to file any material that is subject to protection under this Order with the court, that party shall take appropriate action to insure that the documents receive proper protection from public disclosure including:

(1) filing a redacted document with the consent of the party who designated the document as confidential; (2) where appropriate (*e.g.* in relation to discovery and evidentiary motions), submitting the documents solely for *in camera* review in conjunction with following the South Carolina Electronic Filing Policies and Guidelines to prevent public access to the confidential documents; or (3) where the preceding measures are not adequate, seeking permission to file the document under seal pursuant to the procedural steps set forth in Rule 41.1, SCRCF in conjunction with the South Carolina Electronic Filing Policies and Guidelines (specifically, No. 10(c)). Absent extraordinary circumstances making prior consultation impractical or inappropriate, the party seeking to submit the document to the court shall first consult with counsel for the party who designated the document as confidential to determine if some measure less restrictive than filing the document under seal may serve to provide adequate protection. This duty exists irrespective of the duty to consult on the underlying motion. Nothing in this Order shall be construed as a prior directive to the Clerk of Court to allow any document be filed under seal. The parties understand that documents may be filed under seal only with the permission of the court after proper motion pursuant to Rule 41.1.

7. **Greater Protection of Specific Documents.** No party may withhold information from discovery on the ground that it requires protection greater than that afforded by this Order unless the party moves for an Order providing such special protection.

8. **Challenges to Designation as Confidential.** Any CONFIDENTIAL designation is subject to challenge. The following procedures shall apply to any such challenge.

a. The burden of proving the necessity of a Confidential designation remains with the party asserting confidentiality.

b. A party who contends that documents designated CONFIDENTIAL are not entitled to confidential treatment shall give written notice to the party who affixed the designation of the specific basis for the challenge. The party who so designated the documents shall have twenty (20) days from service of the written notice to determine if the dispute can be resolved without judicial intervention and, if not, to move for an Order confirming the Confidential designation.

c. Notwithstanding any challenge to the designation of documents as confidential, all material previously designated CONFIDENTIAL shall continue to be treated as subject to the full protections of this Order until one of the following occurs:

(1) the party who claims that the documents are confidential withdraws such designation in writing;

(2) the party who claims that the documents are confidential fails to move timely for an Order designating the documents as confidential as set forth in paragraph 8.b. above; or

(3) the court rules that the documents should no longer be designated as confidential information.

d. Challenges to the confidentiality of documents may be made at any time and are not waived by the failure to raise the challenge at the time of initial disclosure or designation.

9. **Inadvertent or Unintentional Production of Privileged Documents and Claw-Back Provision.** The inadvertent or unintentional (“inadvertent”) production by a party of documents subject to a claim of privilege shall not be deemed a waiver or an impairment of, or estoppel to, any claim of privilege, including, but not limited to, the attorney-client privilege, the

protection afforded by the attorney work-product doctrine, the common interest privilege, the self-critical analysis privilege, statutory privileges or protections, or any other privilege or protection recognized by the governing law; and the receiving party shall not argue the producing party failed to take reasonable steps to prevent production of privileged documents. If a party discovers it has inadvertently produced documents subject to a claim of privilege, that party may promptly give written notice (which in no event should be later than thirty (30) days after learning of such inadvertent production) to the receiving party of the claim of privilege and the basis for it. Upon receiving notice from a producing party that documents claimed to be privileged were inadvertently produced, *or if documents appear to the receiving party to have been inadvertently produced*, the receiving party shall refrain from reading the documents and shall promptly destroy those documents, including all copies that the receiving party may have made, and send an email or correspondence to the producing party confirming such destruction within ten (10) days of receipt of written notice of the inadvertent production. In addition, the receiving party shall promptly destroy all notes or work product reflecting the content of those documents and shall not use the information contained in the documents for any purpose. The receiving party may retain any related documents not claimed to be privileged and any non-substantive information sufficient to identify the documents it returns in the event the receiving party intends to challenge the privilege claim.

In the event the receiving party disclosed the inadvertently produced privileged documents to a third party allowed under 6(b) of this Order before receiving written notice from the producing party of the inadvertent production, the receiving party shall notify the producing party of those disclosures and also shall notify the third party who received the inadvertently produced documents and confirm the destruction of the documents.

Nothing in this Order shall prejudice the right of any party to challenge a producing party's claim that a document is privileged or to preclude any party from requesting the court to determine whether a document is privileged. If the receiving party challenges a privilege claim, the receiving party may submit the documents to the Court for *in camera* review or use the "sealed document" option under the court's electronic filing instructions (referenced in Section 6 above, which also requires submitting the documents for *in camera* review that are requested to be sealed) for a determination of the claim of privilege. If a privilege claim is challenged and the Court determines the documents or some portion of them are not protected from discovery by a privilege or other protection but the documents are nonetheless Confidential, the documents will be maintained as confidential under this Order.

10. **Treatment on Conclusion of Litigation.**

a. **Order Remains in Effect.** All provisions of this Order restricting the use of documents designated CONFIDENTIAL shall continue to be binding after the conclusion of the litigation unless otherwise agreed or ordered.

b. **Return of CONFIDENTIAL Documents.** Within ninety (90) days after the final termination of litigation between the parties, or upon written request made within thirty (30) days after the settlement or other termination of this lawsuit, the parties shall have thirty (30) days thereafter to either (a) promptly return to counsel for the producing party all documents and materials designated as confidential under this Order and all copies thereof in the possession of the requesting party, the requesting party's attorneys, agents, experts, consultants, or any other person who has signed an Acknowledgement of Understanding and Agreement to be Bound in the form of Exhibit A (except that counsel for the requesting party may maintain in its files, in continuing

compliance with the terms of this Order, all work product , and one copy of each pleading filed with the Court and one copy of each deposition together with the exhibits marked at the deposition), (b) destroy in a secure manner such documents and materials designated as confidential under this Order and all copies thereof, or (c) as to any documents or information not addressed by subparagraphs (a) and (b), file a motion seeking a court order regarding proper preservation of such documents and materials designated as confidential under this Order. To the extent permitted by law, this court shall retain continuing jurisdiction to review and rule upon the motion referred to in subparagraph (c) herein.

11. **Order Subject to Modification.** This Order shall be subject to modification on motion of any party or any other person who may show an adequate interest in the matter to intervene for purposes of addressing the scope and terms of this Order. The Order shall not, however, be modified until the parties shall have been given notice and an opportunity to be heard on the proposed modification.

12. **No Judicial Determination.** This Order is entered based on the representations and agreements of the parties and for the purpose of facilitating discovery. Nothing herein shall be construed or presented as a judicial determination that any specific document or item of information designated as CONFIDENTIAL by counsel is subject to protection under Rule 26(c) of the South Carolina Rules of Civil Procedure or otherwise until such time as a document-specific ruling shall have been made.

13. This Order shall take effect when entered and shall be binding upon: (1) counsel for the parties in the above captioned litigation; and (2) their respective clients.

IT IS SO ORDERED.
