Hello Ms. Catherine

Still working hard on composing reasons for my appeal which we're trying to summarize. Overwhelmed as we can't mess this up..we need this attorney to help. B Still waiting to see if we can please get additional time, due to illness, limited Internet access and stress.. please advise the due date and if I am allowed extension. it would really help.

A question? I know it took several months to be officially released from attorney Lir Patrick Dereig, even though he'd already served an ex parte signed by the judge on Feb 14...before both me and the judge were lied to by Lir ..on that same day I was so wrongly sentenced. I don't even know how he legally could handle the case.. when he'd already served the signed and stamped exparte on me. Just 10 minutes prior. And how was I so deceived to trust him .

Lir was very unresponsive to any requests from both me and the court of appeals. He refuses a{o.

But my question, in looking through these stacks of paperwork..I know we requested an attorney under the indigent program, having already paid so much to Lir Derieg. I believe the request for help from SCCID help was done in late Sept./ Oct.

I understood you to say Robert Dudek should be copied on my request for extension, as he's the attorney who would now have my case? I came across the last page obviously of a paper stamped as being filed August 08 2023. The paper just has both my old atty. Lir Derieg's name and also Robert Dudek names together.

I am wondering if Mr. Dudek is already familiar with my case? Dating back to early August and now as well? I just happened to notice both names and it just confused me . As if he's already been following my case he has a good idea of the crazy things that took place and there is so much evidence of my innocence that Lir never shared or even allowed me to share with the solicitor or the judge. As stated before after Lirs hospital stay, then alcohol issues, several arrests, lies, losing records, and texts with threats to me, he totally did not provide me any ethical representation.

Just checking about my deadline or approval for more time and also inquiring about that paper with both names on it dating back to Aug. 8.. do you know what that filing even was?

I'm trying very hard... Thanks for all your help and patience.  
Have a good evening.

Roland Green
