

29-December

My name is Filiberto Garcia Campos. The question I have is why if I already took the mother of my children to testify why can't that help me. She told them everything that happened because the judges don't help me even though I've never had a criminal record. I have another question. I would like to know why we both can't be here. I want to know that question. I would like you to help me. I have a lot of time to be locked up. They gave me a lot of time because the Lexington County attorney never helped me. She never gave me an offer.

Thanks very much, God bless you.
