Deandra Burgess

SC Court of Appeals

Wis v Cotton

Due to lack of Law Library I
takes me longer to do my brief. I would like
to add that ~~there~~ there was improper
subject matter jurisdiction and lack of a fair
fair trial. -14-5-800

~~Look~~ Look at statement of case and
Testimony of Daniel Duhamel page 429 21-25.
(14-5-910) -- tells when court is allowed in
special session I would like see the petitions which
make my case a special session.

- Scarborough v. Principi 543 U.S. 901, 414, 124, S.Ct., 1856
- Subject matter jurisdiction defines a court power to
adjudicate cases - Burrell v. Boyer corporation

Defects in Indictment do not deprive court of power
to Adjudicate case!

Defects in subject matter jurisdiction can never
be forfeited or waived, and required correction regardless
of whether error was raised in district court. - Wis. v Cotton

- Also feel there are more issue
but due to lack of staff on this yard I told →

That's the reason I not allow access
of law library per warden James! And
I didn't have any evidence to ABK for
another extension other than warden James
telling me to tell you to call her.

I would like more time ~~to~~ until
this yard start allowing us the law library
but if not that's the only issue I can
raise. ~~let~~
