***** EXTERNAL EMAIL:** This email originated from outside the organization. Please exercise caution before clicking any links or opening attachments. *******

I'm so sorry the Exhibits for the extension are entitled "Exhibits 324 Howle" instead of the case number (2023-001649). I was trying to send these by 5:00 and didn't change the title on the file.

I also understand that I mis-lettered some Exhibits (I believe used duplicate letters) from the original action in the lower court case while being terrorized and traumatized in Charleston. I only discovered this in reviewing the online filings after the fact because I had been so upset.

I'll follow up with a motion to repair the lettering/numbering system in this action to make it better if the judge grants my additional extension.

My other materials in this action are quickly forthcoming. I will get everything corrected if you will please give me a chance.

Thank you so much.

To Whom it Concerns:

Attached please find my new Motion for Extension and (I believe) the other documentation the motion promises.

I'm not sure if the LKQ Complaint or other documents are the latest versions because I just got over COVID and am trying to get these in to you before 5:00 p.m. and wasn't sure because I am so overwhelmed, but these are close to the latest versions which have now been filed in efforts to effectuate/fund this process. The layout for that case was prepared multiple moves ago and couldn't be made much shorter, especially with its complexity.

I've also enclosed other reports I had to make and the new transcript order.

I am doing my best and working on assembling the evidence in this action.

I can also enclose the LKQ Exhibits which apply to this for your review because most of them coincide.

I'm so sorry for the delays.

Happy New Year.

Respectfully,
Mary Griffith
