Good Morning

Ms. Catherine. This is so, so wrong. I did as you said and sent a statement. But you said NOT to send any of my evidence at this point. I was waiting for Dudek to contact me .. This attorney, Lie, did NOT represent me..... Did Dudek and your court not receive my statement? I am sure you did. I sent a copy to Dudek..if not I will resend... I have proof I sent it... and proof that Lir was drinking..arrested twice days prior to my court for public drunk, leaving scene if an accident, lied to officers, .....I could have given the appellate court the notarized statements from the man who lived with the accuser for a long time...who personally witnessed the accuser being contacted that they had his vehicle .and he said the accuser ( on drugs) stated..I'm not picking up that F.....truck... and the witness also who lived with the accuser was evicted on the day of court for refusing to go to court and lie. He also witnessed while living with him, the accuser stated this was a scam to get money..

Court Records will show I had a jury trial set for the following week of Feb 21, this was supposed to be a roll call... but my intoxicated attorney approached me and stated just trust him as the solicitor was dropping charges. He lied to me and then intimidated me, confused me..I have a witness who was in the courtroom with me and heard it all....This attorney Clearly was on alcohol and I had his texts also in my yet unseen evidence where Lir threatened me, he purposely intimidated me even in the court which I stated the cameras will show. You said NOT to send any of my evidence of proof of what took place. This is wrong. The attorney Dudek never even contacted me to ask for any of it. I sent proof and a copy showing my attorney lied to the judge in his Ex-parte motion .. he made me out to be a deadbeat .. I even sent copies of my receipts. His motion told the judge I did not pay him and his motion also had my charges wrong. I never even got to show my evidence to that court and as stated those court cameras and witnesses would prove everything I said in my statement Lir does not deserve to be practicing law.

I can't possibly pay that monthly payment... What am I supposed to do?

This is so wrong. I will file a complaint against attorney. His behavior is not that if a reputable attorney.

But I followed your instructions.. I never got to show all my evidence with that court or appellate court. But I definitely sent enough for Dudek to see the behaviour of my attorney was completely out of order.. he took my money but only hurt me.

God bless .

Roland Green
