APPEAL FROM CHARLESTON COUNTY
Court of Common Pleas

Deadra L. Jefferson, Circuit Court Judge

Case # 2022-CP-100-3246

Anthony M. Chayban,

Respondent,

v.

Mary A. Griffith,

Appellant.

**AMENDED MOTION FOR ADDITIONAL EXTENSION OF TIME TO CORRECT
DEFICIENCIES**

This motion is intended as a formal and additional request for this Honorable Court's grace to correct Appellate Case No. 2023-001649's deficiencies based on my previously and partially-discussed personal circumstances — and other circumstances that have arisen.

I understand that I owe you motion fees, including this motion fee, and that the Court may or may not waive my filing fees based on my indigency proofs.

I've just recently gotten moved again. Getting stabilized in my life while still being a crime victim with unresolved issues surrounding these events has been very difficult.

I need a little time to work to support myself so I can even pay part of these fees, and so that I can fund the counsel I'm sure you're aware I desperately need in order to see the best results in this action.

Even if I work full-time, however, I'm still probably going to have to do extra fundraising efforts to pay all your fees.

It's basically like having 2 jobs, plus the basic work it's taken to document the case thus far and ongoing, including events that an attorney cannot document because they weren't present and the evidence is so extensive and complex. It's like 3 jobs just to plead the case to where I won't be ruined by this Defendant who brazenly claims ISIS ties.

That's aside from money I'm owed by the Defendant. I'm fighting for my life. This being outstanding is going to obstruct other opportunities and earnings as long as it is outstanding.

I have a dental emergency that's been ignored for weeks because I was working on this, but I'm still not fast enough because I had an emotional breakdown over reviewing evidence and because of being overwhelmed by recent traumatic events.

I understand it's not your fault that I didn't handle things well emotionally, but I'm asking you to please consider the fact that I didn't cause all of the traumas to happen in the first place. I'm not perfect.

Three tried to kill my son during a break-in that happened a couple of weeks ago now. I didn't handle that well emotionally, besides the burden of reviewing traumatic evidence of a litany of past traumas that happened to my family. He tried to brush it off, but I know for a fact that he did lose work because of it, and I know for a fact it affected my concentration and ability to function.

As previously mentioned, I'm diagnosed with Post-Traumatic Stress Disorder and ADHD.

Since the lower court's new clerk (Linda retired) informed me that that court doesn't hear emergencies, if my waiver was approved there, I assume we are still waiting for the LKQ case (with whose proceeds I hoped to fund this action) to be heard.

I'm asking that the Honorable Court would please consider the vast discrepancy in material resources between the Defendant, at least a multi-millionaire, and me.

The fact of the matter that I can prove is that the Defendant is not refusing to pay me because any of the libelous allegations he's made are true, nor because I didn't do the work. The Defendant is refusing to pay me for the same reason our attempted alliance was dissolved: He doesn't care about American communities. He doesn't even like Americans. He seeks to take and not give back to us. I can prove it.

The Defendant went and blew a bunch of money on expensive international travel to multiple destinations directly after the lower case was dismissed in 2023.

If you let me get my money, it'll end up going back into the community and helping people. That's what I've dreamed of doing since at least 2016. I made a video about it in 2018, 2 years before I tried to use the attempted alliance with the Defendant, whose greed and low standards got in the way, to accomplish my goals.

If you let the Defendant keep my money, it most definitely will not help any of our communities.

Finally, I believe the church should have an opportunity to fight for its own interests if it chooses to do so because of all the prophetic and other religious material involved in this action, some of which has been introduced by the Defendant himself, including helping me with any fees if it chooses.

I also believe it will make the church look bad if my action is dismissed without at least some neutral resolution (allowing me to basically exonerate myself and family of false allegations).

The lower court case with tons of defamation about me and my family has been sitting on the Public Index since 2022 because Chayban wasn't criminally taken care of like I believe he should have been at an earlier time. That's bad enough. Please give me an opportunity to let them know what's going on on a wider scale so that they may have the opportunity to secure any interest herein and/or limit any liability herein that they perceive once fully informed.

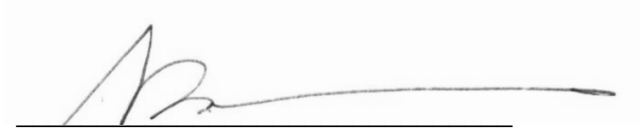

Despite your previous and much-appreciated extension of time to pay the \$250.00 appellate filing fee, if not waived, and all of my outstanding motion fees. I am requesting another 30 days, and if that's not possible, then until the due date of the Brief and Designation of Matter, but would be glad for a week or 10 days, please — whatever you are legally able and willing to do to help me get to the point of being able to actually plead the entire case. I need more time to correct my deficiencies, please.

It's a process that I would much appreciate your additional grace and understanding about.

I genuinely appreciate the Court's gracious and continual acknowledgement of the learning curve and challenges associated with my circumstances and these events.

If I cannot pull the case and evidence together upon receiving your much-appreciated grace once more, should you choose to offer it, I'll understand a dismissal wherein I'll have to re-file. I apologize for the inconvenience to you. Thank you for considering my request.

Yeah we made our statements and identified the truck on cam footage. Took maybe 1.5 hours in total. They took [REDACTED] phone so [REDACTED] mom got [REDACTED] a new phone, and also both of us 100+ dollars and offered us breakfast after it all but we couldn't eat due to the incident. RE: Correction of Motion for Additional Extension in Case #2023-001649

February 1, 2024

To the Judge and/or Clerk deciding my case events:

After speaking with my son, I've removed exhibits 4 and 5 from my Motion for Additional Extension because I had pulled them off the other crime victim's social media post in efforts to document the motion, but my son says those may have actually been from another incident (rather than the violent incident that he experienced on or about 1/19/2024).

The documents were planned to be served yesterday, along with the other necessary services, but my housemate suddenly took the car out for a long period of time and our printer paper was out of ink. Therefore, I'll be serving these this morning to the Defendant and lower Court and then providing you with the proofs.

My apologies for this inconvenience.

Respectfully,

Mary A. Griffith
