SC Court of Appeals

Your Honor,

I am going to write you again because I feel my appeal is being unjustly denied. My public pretender didn't do his job. That is why I say pretender because he damn sure didn't defend me. He put in an Ashford plea which means the states evidences would have most likely proven me guilty. Well the evidences doesn't even prove if I assaulted a white man or a black man. How come the court will not hear my appeal because of ineffective counsel? I don't even believe what I did caused the injury for my friends injury because he didn't even go to the hospital until days after I slapped him. And how is eight years at eighty five percent just punishment for what I really did. Slap my friend across his face. And did I admit to slapping the right person? Since one medical report has him as a black man which I didn't assault. And

the other which states NATURAL  
CAUSE for his pasting AS  
A white man and that is  
who I slapped. PLEASE help  
ME understand why I am  
being so harshly punished for  
admitting to something I don't  
believe caused the injury that  
I'm charged with.

THANK you for your time and  
consideration and have a very  
blessed day.
