SC Court of Appeals

**RE: Added Apology for Delay in Correcting Deficiencies in Case #2023-001649**

February 26, 2024

To the Court and/or Clerk deciding my case events:

I apologize for not having anything formal, as I promised on Friday, filed yet today.

My son is being bothered in the Charleston area, which substantially affected my productivity over the weekend. I received near-constant text messages about the events throughout time periods lasting several hours when similar concerns/events from prior weeks seem to have escalated.

I wasn't able to remain calm or focus. I'm sorry. I will make every effort to have formal documentation and a motion of some kind to you by this evening, and something more basic by 5:00, if you haven't closed my case already, and if you would please consider not closing it. Thank you for your continual grace with me, and for your consideration.

Respectfully,

---
