RE: Update in Case #2023-001649

SC Court of Appeals

March 4, 2024

To the Court and/or Clerk deciding my case events:

I am writing to inform you that, despite my recently reestablished connection to Wifi following another relocation, the Wifi connection is slow and is giving me constant problems relative to my recently-referenced reporting efforts. The multi-media files from the attacks are many and some are large, causing uploading delays which I'm working hard to remediate.

My son is also still being bothered in the Charleston area. He was finally able to see a trespasser on his new camera a few nights ago, but unfortunately did not have the system set up to record the event. Though the events may not have technically been constant, I personally feel I'm nearly constantly delayed and hindered by attacks on my son by our various opponents.

I am in the process of seeking restorative help for us both so that things can run more smoothly and I can do what I promised I would do.
