Is there a case search where it shows the matter is pending the motion to reinstate? I went to get a copy of an order that wasn't signed by the judge or the clerk just a second page with an electronic signature.

The woeful attorney went into court on a damage hearing and lied to the judge about the appeal being denied didn't state that a motion to reinstate was put in . So I will be filing a motion to strike order for no jurisdiction and he still hasn't shown his proof of authority.
