Re: Stephen Mueller v. SCDHEC and Carla Varn DuPre and Jasper Varn III
Appellant Case No. 2023-000441

Court:

Attached is my revised Record on Appeal for the referenced case. I have revised it deleting any evidence not presented to the lower court. The index is numbered per Rule 210. The entire previously submitted document is approximately 300 pages and would be a hardship to number as required by Rule 210. If you insist on the numbers I hereby request an extension of the deadline referenced in your order of April 1. Also attached is my certificate of council.

As the purpose of my appeal from the ALC is, in accordance with SCRCP 60 (b), because errors were made by the ALC and there is "newly discovered evidence", please clarify why I cannot submit newly discovered evidence in my appeal.

Lastly, I would like to request a preliminary hearing to present evidence that the permits should immediately be revoked as illegal. It would save all parties more wasted time.

Stephen Mueller, Pro se
