SC Court of Appeals

Re: 2022-000339

Request for copies of certain pages from my bound Record on appeal.

Please note that any other litigant or member of the public may walk in and request to look at public court records and be instantly accomodated.

Re: 2022-000339

Persistent and increasing errors in scanning my submissions. I did bring them to your attention in writing but NOTHING was done.

Re: 2024-000559

Scanning error: Two different orders were attached to the notice of appeal but only one order was scanned twice.

Please respond without discrimination.
