I believe that I am entitled to appeal because I do believe that all the evidence against me is inaccurate. I have evidence on my personal computer that I can show. I also have emails as well. I believe if I have a chance to get out and gather all evidence, I believe there would be a different outcome. This would also give me a chance to get any other paperwork together that I may have. It would also give my lawyer time to look over every piece of evidence accurately and not have to rush like I believe he did. This would give my lawyer and I a chance to look over everything together and to actually sit and talk about the case. Before court on April 10, 2024 I had never even met my lawyer and did not speak with him until a week before court. I spoke to him briefly in 2023 and only 3 times. I had never been to his office to discuss my case at all. I feel that was unfair to me. This is why I feel the appeal is very necessary. Please consider this appeal. Thank you
