

The State v Noelle E. Bailey 2024-000702

The basis for my appeal is misrepresentation. I believed I was going to plea out for a non-violent charge and would be receiving less time because of that fact. Also I took a plea deal meaning I was working with the state also gave info because there was a video of someone else committing the crime, but I received the max sentence possible for both charges. When we were in court my lawyer offered no defence for me whatsoever these are the main reasons I am appealing. I've even offered to testify if need be but was shown no mercy whatsoever. They gave me 26 years for three different charges 11 of those years were for ankle monitor violations. I believe that these facts are grounds for reconsideration. Thank you in advance for your time and consideration.
