SC Court of Appeals

Motion to stay

To the courts of appeal I am requesting a motion to stay . It was unfortunate that my household got sick and I lost my job and fell on hard times . I raising my sister kids and I can't afford to lose this home or them to the state for that matter ! I am back working at FedX as a delivery driver and I am currently seeking help from different organizations that could possibly help me get caught up as well. Berkeley home has been completely understanding to my situation and as any other businesses I know they had a business to run. I am just asking for this motion to stay so I can get caught up with my bills and back on track . The flu really messed me and my household up and I was down for 2 months with the kids passing it back and forth and me having seizures my doctor had me out of work . Please be understanding and grant this motion to stay so that we won't be on the street .

Thanks kindly,

Tevin D. Stevens
