Appeal

The court didn't give me a fair and impartial hearing i cleared the record many times in all my motion that the defendant failed to be compliance with the hospital compliance policy which is listed on their website which they are legally binded to which is the purpose of compliance the hospital failed to comply with it policies and left me in intentional mental and emotional distress and i have specified this many times in my motions filed i feel the judge gave a bias judgement and it didnt align with the law in which the hospital according to sc law is bound to it compliance policy which it create and its listed on the website also Judge Maddox mentioned a motion for summary judgemnt was submitted by the defendant on Dec 19 2023 in which the defendant failed to mail or email me a copy and the document was NOT filed in the filing docket so i could respond or file any motion to rebuttal his summary Judgemnt in which Judge maddox approved and didnt tell me it was filed until i read his judgement / order this is violation of my rights and had effected the outcome of this case because i feel this case should have went to trial due to the injustice i suffered and still am going through emotional distress due to the defendant still have a no trespassing order in place and i cant go see my loved ones whom are hospitalized in this facility this is causing ongoing emotional distress this was racially motivated and pure evil and unconstitutional act of retaliation due to showing concern for my loved one and this is violation of their compliance act this was a miscarriage of justice

Case Number:	2023CP2304980
--------------	---------------

I am asking for an appeal in this case due to the judges bias in this case and predetermination of the defendant the defendant shown no good cause for this case to be dismissed while i was and still am unjustly denied access to the hospital to see my loved ones who has been hospitalized in this facility multiple time amend me being placed on no trespassing and i cannot go see her i was placed on no trespassing for advocating for my loved and and expressing my 1st Amendment right to sue the defendant upon my remark i was placed on no trespassing and told that i cannot come back to the facility which is against the hospitals compliance policy which states i can advocate for my loved one my mother was also neglected in this facility and my grandmother was offered hospice when her condition wasn't deemed appropriate for hospice and she have been hospitalized multiple times and i haven't been able to see her this situations has led to emotional distress and ongoing emotional distress seeing as i cant see any of my loved ones that is hospitalized in this facility and i was unjustly placed on no trespassing which is a violation of my right and the defendant is in violation of their compliance act which is NON COMPLIANCE and violation of my rights and be there and advocate of my loved one and in violation of my constutional rights freedom of speech and to petition the government i was retaliated on intentionally due to expressing concerns of neglect for my loved ones so i ask that this case go to trial rather then be dismissed because the defendant have failed to give a lawful reason for this case to be dismissed and i have shown good cause and evidence of the truth of injustice and violation of my rights and non complice of the defendant this was not a just dismissal and the judge's order seems to be bias and unjust in and in opposition of the law
