Good afternoon,

I have reviewed Appellant's submitted "Record on Appeal of Appellant," and items included in Respondents' filed Designation of Matter are not included in Appellant's submitted Record as required by Rule 210(c). Specifically, Respondents' designated that the full trial transcript and exhibits be included in the Record; Appellant has only provided selected pages and exhibits (see Index). Additionally, Respondents' designated that the Class Certification Order dated December 28, 2020 be included; it is not. **Therefore, Respondents hereby submit the attached Supplemental Record for filing, which when paired with Appellant's ensures all designated items are included.** For ease of consolidation, Respondents have numbered this Supplemental Record by starting at page 375, picking up where Appellant left off.

Respondents' Final Brief is also attached hereto for filing. If a printed/bound copy is needed, please let us know and we will be happy to promptly submit the same.

Best,
Emily
