Motion to Stay

I ' Sandeyah Clark is requesting a motion to stay because I will face really bad hardship if I would have to go.

- My landlord is still taking money and owes me back pay. I paid 6 months in advance through the DV shelter (hopeful horizons) and after six months was up I have been getting treated like crap
- I recently just got cut on my hours from my job because I have a 3 year old son that I had to care for due to him being sick .
- Hurricane Helen put me back a little bit and I offered to make it up and didn't receive a response
- My landlord is retaliating against me because I exercised my tenant rights
- I won't have any where to go with a 3 year old and one minute landlord is willing to work with me next minute if I don't give him money I have to be out. That's not fair
- I have money and offered multiple times but if it's not to the liking of my landlord he threats to put me out
- I have a 3 year old single mom doing everything on my own and I can afford to be homeless anymore.
- My landlord filed my eviction wrong before an eviction was filed I didn't owe any rent it wasn't until after I was served that he

wouldn't accept money which led me to this

I hope & c me out . Thank
