Statement of Case

1) I, Nicholas Boan, 302151 Filed an appeal from the ruling of the AHC on the grounds of the contract being void, because the contract was said to not sell anything on the open market which was done buy this company, and also the law and statutes 24-3-430 (a) states no inmate may earn less than prevailing wages, plus under these contract 3.3 (3) no goods produced under this agreement shall be placed on the open market which is a violation of the contract because U.S. Textile sold these items all over the world.

Also under the law I did not work voluntarily, because at that time if you refused a job you would receive a disciplinary infraction.

Statute 24-3-410 states in Section (B) that I had to work voluntarily, receive comparable wages, but at that time D.C. D.C. policy you could not refuse a job assignment.
